Mr. Albert Rackley returned Wednesday from Ziegler where he was the guest for a few days of friends.

As a winner I offer 10¢ worth baking powder and a bottle of Sloan's Liniment with each 25 cent purchase of cough-cure-all brands. 25 and 50 cent size I have. Season for sore throat and colds is ripening.

J. D. Strickland, Stillson Ga.

Among those coming up this week to look at the miniature fair on display in this office was Mr. H. W. Lee, G. S. A. of the Savannah and Statesboro railway. Mr. Lee is much interested in agriculture and never loses an opportunity to improve his knowledge in that important branch of the industrial life of the country.

Call and see our picture frame department upstairs.
J. D. Strickland, Stillson Ga.

WANTED—within the next 60 days 550 tons cotton seed, will pay full market price. See me before selling your seed.
R. H. Warnock, Brooklet, Ga.

Mrs. S. H. Kennedy and Miss Robena Kennedy left Wednesday morning for Augusta where they will spend some time with friends.

Miss Eva Wilson is spending the week with friends and relatives in Savannah.

The new road engine is being tried out this week, a man from the factory being here for the purpose of showing the regular operator of the machine the working of it. It seems to be meeting with the approval of the county commissioner and the ordinary who were instrumental in purchasing the machine.

DON'T YOU

sometimes have regrets? In your every day trading have you ever bought an article and then gone to another's house and seen a better and prettier one for the same or less money? Probably you haven't, but you are liable to at any time.

In order that you may not have these regrets of your winter purchases of Furniture, Rugs, etc., we would specially urge that you see us before buying.

Pardon for Dayton.

The clipping below will be of interest of the people here. They will no doubt recall the incident which caused some excitement and a great deal of talk at the time. Dayton and his pal passed through here a few months ago and the people of this county were probably saved from a robbery by the turn of events at Dover. It will be remembered that the two men in an encounter with Mr. W. L. Mock overpowered him and tied him out in the river swamp, making their escape. They were later arrested in Savannah and it was a fight between Dayton and a policeman that was responsible for his conviction.

He and his pal were suspected on robbing a bank at Forsyth and being connected with other crimes over the state? The announcement of his pardon by the prison commission has created a great deal of surprise in this county. There seems but little doubt that the young man was guilty of the charges laid at his door, and that he should be pardoned after serving only a short part of his sentence has caused considerable talk.

Atlanta, Nov. 17.—The Prison Commissioner today pardoned J. P. Ryan, Jr., alias James Dayton, the 19-year-old boy, who was given a ten-year sentence in Chatham Superior Court for assault with intent to murder Policeman Christian of Savannah.

Young Ryan was arrested in Savannah, on suspicion of connection with a bank robbery at Forsyth. He says he was put through the "third degree" by the Savannah police in their

effort to get a confession from him. He struck Policeman Christian, he says, with no other idea than that of making his escape from unjust confinement. This resulted in the ten-year sentence.

J. P. Ryan of LaPere county, Michigan, the boy's father, was here today with T. S. Morgan, Jr., of Savannah, his attorney.

Young Ryan left home when he was 16 years old and wrote his father from North Dakota for money. After that the father never heard from him again until he located him in the Fargo camp of the Georgia penitentiary.

Not long ago Ryan's left hand was cut off by a saw in the saw-mill at Fargo, and many expected it was deliberate action on the boy's part rather than accident. He had time and again declared his imprisonment was unjust and that he would not work.

Killed by Falling Lumber.

The seven year old son of Mr. W. M. Parish was killed at Parish yesterday afternoon by a pile of lumber, which he was stacking falling on him and crushing him to death. The news came in over telephones and the particulars could not be learned.

Another Bank for Metter

There is strong talk of another bank for Metter and the next few weeks are likely to witness some development along this line. The bank that is already at Metter is, we understand, in a prosperous condition and the consensus of opinion is that there is enough room for another bank in this growing and prosperous little city. This speak well for the business life of the place. The section around Metter is one of the richest and most prosperous in the county and has a good deal of wealth and this section will help to support the bank almost as well as the city of Metter.

Baraccas Doing Fine Work.

The Baracca class of the Baptist Sunday school is in a prosperous condition and is doing good work. Organized not yet two years, on trial part of this time and regarded as an experiment, it has proved to be one of the most popular and important church organizations in the city. The membership is large, the total enrollment reaching the forty mark. In the class are some of the best church workers in the city. Every time that the church gives to missions or any other worthy cause this class is prompt to respond and can always be depended upon to give liberally. What success has been accomplished has been due to the untiring efforts of Mrs. Quattlebaum, who has been the life and the spirit of the class from its inception to the present time. Much good has been done and still more remains to be done by the Baracca class of Statesboro.

FROM GIRLHOOD TO WOMANHOOD

Mothers Should Watch the Development of Their Daughters—Interesting Experiences of Misses Borman and Mills.

Every mother possesses information which is of vital interest to her young daughter. Too often this is never imparted or is withheld until serious harm has resulted from the growing girl through her ignorance of nature's mysterious and wonderful laws and penalties.

Girls' over-enthusiasm and modesty often puzzle their mothers and baffle physicians, as they so often withhold their confidence from well-meaning parents and conceal the symptoms which ought to be told to their physician at this critical period.

When a girl's thoughts become sluggish, with headache, dizziness or a disposition to sleep in bed or low limbs, eyes dim, desire for solitude when she is a mystery to herself and friends, her mother should be on hand, and remember that Lydia E. Pinkham's Vegetable Compound will do for the coming change, and start this trying period in a young girl's life without any irregularities.

Hundreds of letters from young girls and from mothers, expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them, have been received by the Lydia E. Pinkham Medicine Co., at Lynn, Mass.

Miss Mills has written the two following letters to Mrs. Pinkham, which speak with interest:

Dear Mrs. Pinkham:—(First Letter.) I am fifteen years of age, am depressed, have a headache, and feel very nervous. Lydia E. Pinkham's Vegetable Compound Makes Sick Women Well.

Dear Mrs. Pinkham:—(Second Letter.) I have been using your Compound for some time, and I feel much better. I have had a headache, and feel very nervous. Lydia E. Pinkham's Vegetable Compound Makes Sick Women Well.

What did he say? "Young Jollem always says the right thing, doesn't he? He never seems to lose for the proper reply."

"How I saw him nonplussed once." "Well was that?" "Miss Keene asked him if he thought she looked as old as she was."—Cleveland Leader.

Our Millionaires Are Our Greatest Failures.

William Allen White, in the American Magazine.

The greatest failures in our modern era are our millionaires. As a rule they have accumulated money without giving society a just and equal return for the money they have acquired which seems to them a vast amount of power, without intelligence to use it, and they are going through life looking for joy and happiness, but finding only pleasure that burns out their souls and does not satisfy their hearts.

They have developed their cunning and stunted their candor; they have deceived and bullied and sometimes killed the men in their own hearts, and have let a demon lust for gain reign in their souls. Often the man who was killed lingers in an empty heart—a pain that will never be healed, and good intentions, and the crackling laughter of the fool, but the good man is only a ghost; he has no real part in the life of the world.

They are the men who have the most money, but they have the least brains. They are the men who have the most power, but they have the least wisdom. They are the men who have the most influence, but they have the least respect.

POPULAR SCIENCE

What an overbearing bore life is! said the plutocratic tunnel contractor at the club.

Usually this way. "Spent your vacation in the mountains, eh? Did you stay there long?" "Yes, but I came home short."—Houston Post.

Decidedly lively. "Well, old man," said Nopop's bachelor friend, "he's the dead image of you."

It is said that nothing is more amusing to an Indian than to see a white man work, and it might be added, observes the Courier-Journal, that the Indian carefully guards against the possibility of the white man laughing last.

A square deal between the railways and the people and honesty all over the line, declares the Kansas City Times, is what the people demand and what they intend to have.

When a bank fails in China they cut off the heads of the officials. They haven't had any bank failures there in recent years, notes the New York Herald.

Recent experiments by medical experts in Rome have disclosed the fact that the increase in consumption and contagious diseases of a certain character is due to flies, just as the spread of malaria is due to similar kinds of mosquitoes. It is planned to kill these pests by means of insecticides, and it has also been suggested that money prizes be given for destroying a certain quantity.

A new foghorn signal has been installed in the Lighthouse at The Needles. It consists of red trumpets blown by compressed air. It can be heard ten miles. This is a distinct advance on the existing fogbell, the warning note from which does not penetrate more than three miles. When a fog descends, the new apparatus can be started instantaneously from air vessels held in readiness and charged at one hundred pounds' pressure. The duration of the blast is five seconds in every fifteen.

An ingenious apparatus for drawing the profile of a river bottom is used by Italian engineers. It consists of a wheel affixed to the bottom of a small boat or raft, which is drawn vertically at the side of a boat by a cable which is fastened to the bank. The wheel is turned by the current, and the profile of the river bottom is drawn on a sheet of paper by a pen which is attached to the wheel. The apparatus is simple and it takes several years to properly decorate a woman's lips.

Next the operator takes a knife, cuts a few dashes into the part to be tattooed, and rubs the ink into the skin. The ink is then rubbed into the skin, and the tattoo is complete. The ink is then rubbed into the skin, and the tattoo is complete.

Mr. Blunck, who is well known as an explorer of odd places, spent some time among the Bury Alnus and secured valuable information and many interesting photographs of the queer race.—Chicago Chronicle.

Frank Miles Day, the well-known architect and essayist, of Philadelphia, stepped carefully from the Persian rug of dull green and old rose to another rug of rich blue, for the polished floor beneath was dark and smooth and slippery. "Rather a good polish there, I think," said Mr. Day's host, a resident of Rittenhouse Square.

"Remarkably good indeed," said Mr. Day.

"The host just then slipped and nearly fell, and the architect, with a laugh, went on to say: 'The floor is polished, and the other day he sent for a floor polisher.'

"I was these floors polished," he said to the man, as he led him about the house. "They are, you perceive, as lustrous as a mirror. Do you think you're capable of doing them justice? Give me some proof of your thorough competence."

"That's easily done, sir," the polisher replied. "You just go and ask Colonel Snow, next door but one, about my work. He'll tell you why. He's a governor, on the polished floor of Colonel Snow's dining room alone five persons got broken limbs last winter, while two ladies slipped down the grand staircase during the winter in wet ball, and one dislocated her hip, while the other fractured three ribs. You ask Colonel Snow, sir. I believe in the matter of floors, I'm a staircase of his'n."—Philadelphia Bulletin.

Wearied Eyes. In these days of study and sedentary work requiring much use of the eyes, it is often some one tired that they refuse to do good work. This is particularly true when the work is done in a poor light, or when it is done in a dark room. Eyes will bear such treatment for some time, but if it is continued, it will do harm. It is better to rest the eyes, and to use eye drops, than to strain them.

Names of Textiles

The name of fabrics are in many cases derived from the place where they were first manufactured; in order, the name is bestowed in honor of the place where it first became known to commerce, or from the materials composing its texture. Thus the name of muslin is derived from Mosul, in Asia.

Cambrie comes from Cambria; gauze from Gaza; baize from Bajaz; dimity from Damietta and jeans from Jean.

The name damask is an abbreviation of Damascus; satin is a corruption of the name of the city of Zartown in China.

Velvet is the Italian velluto, woolly, and is traceable further back to the Latin vellos, a hile or soft.

Serge comes from Xergos, the Spanish for a certain sort of blanket. Handkerchiefs are derived from an Indian word signifying to bind or tie.

Alpaca is the name of a species of llama from whose wool the finest fabric is woven.

The veterans evidently have not forgotten the spirit of the 60's nor the spirits of the Sixty Six fame.

Coming on the heels of the negro fair in Macon is a cook famine. They say the dusky dames refuse to cook as long as the fair is in progress.

The government is after the Standard but John D. does not seem to take it seriously as he has just given Booker Washington another big sum for his school.

The Democrats gained twenty-seven in the recent congressional election but at that rate it will tick them some years to overcome the lead that the republicans have on them.

Now that the election is over the people will give some time and attention to that Thanksgiving turkey. An eye will also be kept on the postman by the gentleman bearing the name of Rastus George William Henry Brown.

When Teddy digs the Panama canal and puts the Standard Oil Company out of business than the epithet of strenuous will have to be changed for something better for that will no longer be fitting.

Cotton On a Boom.

The highest price paid for cotton in the local market this season was paid Saturday when sea island sold for 27 cents and upland for 10 1/2. More than that has been paid for upland this season but not for sea island which sold as high as it ever sells in the local market and that is saying as high as it sells anywhere for the local market is always as good or better than the Savannah market and much better than that of Valdosta the only other city that handles very much sea island cotton. There is a good deal of cotton in the country yet reports to the contrary notwithstanding. The so-called cotton experts have another guess coming. The price paid for cotton this year have certainly been all that the farmers could ask for. At the present prices there is money to be made off of the crop. The indications are that next year there will be a big increase in acreage of this crop.

Heavy Damage to Cane

From arctic winter to Indian summer in a week. That is the way that the weather man flirts with us these hazy days. Last week it was overcast, gloves and fires and in the short space of one week it is fans and shirt waists and the desire to be as a negligee as possible. It is one of the fortunes of mortals and though we have a mighty cold as a result of the change of weather yet we will try to bear it with a smile. But we set out to speak of the damage done to seed cane and the sugar cane crop. It seems that the cold weather of last week froze the sugar cane that was standing in the fields. Now that it has turned warm cane is souring and have to be ground at once to prevent its rotting. The damage done to the crops is heavy. It will be felt by the people who depend on sugar cane as one of the important crops.

This is Worth Remembering.

As no one is immune, every person should remember that Foley's Kidney Cure will cure any case of Kidney or bladder trouble that is not beyond the reach of medicine. W. H. Ellis. 1

Roosevelt's Mission.

President Roosevelt will be remembered by future generations as the man who had the Panama canal dug, if the words of Collier's be true. We give below the passage in question: "The President with a battleship and cruisers, is on his way to Panama. The three days from Nov. 15 to Nov. 18 may fairly be called the most important of his administration. When Hearts is forgotten, when the Railroad Rate bill and the Pure Food law are as commonplace and as much taken for granted as the abolition of slavery, then Roosevelt will be known as the President who built the Panama Canal. That will be his place in history.

The President knows this. He attaches especial significance to his visit to the Isthmus. This is the great constructive work of his administration. Going to view it will his own eyes is in line with his directness of method, his sending of Root to South America, Taft to Cuba, Metcalf to San Francisco. He wants first-hand information."

All of this is important if true and we believe that it is true in a large measure. Than the digging of the Panama Canal there is no more important problem before the country. What it will mean to the nation and to the South in particular not the most sanguine can foresee. The visit of the nation's chief executive to the scene of the work is bound to awaken new interests in the digging of the canal. His visit is indeed significant. To be known to history as the man who had the Panama Canal dug is as much fame as any one could ask for. During his administration Roosevelt has done many notable things that will go down in history. He has made a great and what promises to be a lasting impression on his age. He is a man of strong convictions and the courage of those convictions.

Many things are to be considered in undertaking a task like the building of the Panama Canal. There is the question of health, which is all tropical countries is an important one, and in the digging of the canal this seems to have given the administration as much trouble as any other. Deadly fevers of all kinds are to be found on the Isthmus and there are insects of all kinds and every horrid creeping thing that the imagination of man can conjure. The fever-carrying mosquitoes is there and a persistent and ceaseless war must be waged against this deadly insect. To overcome all these obstacles, to open up a water way that will connect the two greatest oceans in the world, to open new fields for the commerce of the nation and the South in particular world, it seem to us, be sufficient to stamp the President as a great man. If this is his mission he has a worthy one and the verdict of the future will be that no greater work has been done in a hundred years.

Misses Lester Entertain.

Misses Leah and Eunice Lester entertained about a dozen guests at their home near the city last evening. The occasion was an old fashioned sugar boiling, where everyone is made to feel perfectly at home, and where all formality is thrown to the winds and the guests enjoy themselves after the manner of the olden time. The young people met at the residence of Dr. and Mrs. Durrance at 7 o'clock, and from there they went to the home of Mr. Lester, where they thoroughly enjoyed the hospitality of these good people. The affair was one of the most pleasant of the season.

Good Shows at Opera House

The King Dramatic Company which was here last week for three nights gave the people some first class shows. The company is one of the best on the road and decidedly the best that has been here this season. The actors are all good in their respective roles, Mr. Charles King, the head of the troupe, deserving particular mention. The show Saturday evening was a little off color but this was perhaps due to the small crowd present and the desire on the part of the players to cut short a play that did not draw a crowd. The company made many friends here during their stay and their return in the spring will be awaited with interest.

What is the Matter with the Schedules?

Something is radically wrong with the schedules of the railroads in the matter of handling freight express and passengers. The protest is going up all over the state that the trains are late with astonishing regularity. The people are the sufferers in this matter as in all matters in which they have to deal with railroads. No thought is taken of the convenience or comfort of the public by the railroads. It makes no difference whether you are on a big main line or on some little local system the result is the same and you have to wait until the trains come no matter how important may be your business. At this season of the year when freight and express in large quantities are daily being shipped we may look for some of the worst schedules in the history of the year.

Yet there are things to be taken into consideration when thinking of this question. There is the matter of roads, and here, if the system of free delivery is to fall down, will come the crucial test. This is the weak spot in the whole system. The carriers of the system are making complaints at the poor condition of the roads. We can sympathize with them. The roads in some places are said to be very bad. This is a great wear and tear on vehicle and horse. Neither can stand the strain long. We know that all is being done that can be done at present to put the roads of the country in good condition. We are willing to pay, for we know that in the course of time the public highways will be all that can be expected of them. It takes time, but once they are built they are there to stay for all time to come.

We give below a clipping from the Memphis News-Scimitar. It seems that the courts up there are going to take a hand in the matter and put the rural carriers out of business or have better roads. But they have another and a different problem up in Tennessee from what we have to face down here. The clay up there makes the roads almost impassable when it rains. We suppose this is accountable for the action of the court.

WANTED—Gentleman or lady with good residence to travel by rail or with a rig for a firm of \$250,000 capital. Salary \$1,072 per year and expenses; salary paid weekly and expenses advanced. Appres, with stamp, Joe. A. Alexander, Statesboro, Ga.

Mr. and Mrs. J. W. Donehue, who have been the guests of Dr. and Mrs. Donehue for a few days, returned home Saturday.

Mrs. J. W. Olliff returned Friday afternoon from Macon, where she has been spending some time with Miss Della Wilson, who is at Wesleyan Female college.

Dr. and Mrs. S. J. Crouch have returned from Atlanta where they went last week in answer to a telegram announcing the illness of Mrs. Crouch's father, Mr. T. G. Cook, with paralysis. He died Tuesday from the effects of the stroke and was interred in West view cemetery Wednesday, the funeral exercises taking place at his residence on Courtland Avenue at eleven o'clock. Before returning home they spent a day or two with Dr. Crouch's relatives at Washington.

Will Rural Free Delivery Stand the Test of Time?

Will the rural free delivery of mail stand the test of time? This question is often asked but no satisfactory answer is in sight. We know that it is one of the greatest things for the country that could be instituted. It has proved a great success and blessing to the people living in the country. It has been as much or more to educate the masses than any other thing. When the public reads and keeps posted on all questions of national importance there is no danger to the country. The rural free delivery of mail has insured the prompt delivery of all mail. Where people in the rural districts had been used to getting their mail once or twice a week and in many cases only once a week they now get it daily. That this is a great convenience over the old way, all must admit.

Yet there are things to be taken into consideration when thinking of this question. There is the matter of roads, and here, if the system of free delivery is to fall down, will come the crucial test. This is the weak spot in the whole system. The carriers of the system are making complaints at the poor condition of the roads. We can sympathize with them. The roads in some places are said to be very bad. This is a great wear and tear on vehicle and horse. Neither can stand the strain long. But they have another and a different problem up in Tennessee from what we have to face down here. The clay up there makes the roads almost impassable when it rains. We suppose this is accountable for the action of the court.

Unless the county court takes immediate steps, says the News-Scimitar, toward improving, repairing and maintaining in splendid condition all the roads and bridges in Shelby county, the post office department threatens to abolish the entire system of about thirty rural free delivery routes and return to the inconvenient star route service.

The county court has been warned upon several previous occasions that in order to retain the excellent free rural delivery system which covers Shelby county in a network that the roads and bridges must be kept in good repair and maintained in a good condition of safety throughout all seasons of the year.

"If the condition of the roads and bridges are not such as to permit the carriers to traverse them with facility and safety, the department will, in the absence of any definite promise of serious consideration, seriously consider the withdrawal or rearrangement of the service," the letter from Washington states.

During the recent rainy season the rural free delivery carriers were seriously handicapped, and in many instances service was suspended for a period of ten days. The Memphis postoffice exerted every effort to prevent inconvenience to the patrons by a rearrangement of the service.

Postmaster Lee W. Duro was instructed to take up the matter with the members of the city court for the last time. Mr. DeGraw names December 5th as the final date for a reply. If at that time the county court has nothing definite to promise, it is likely that by January 1st thirty rural route carriers will be without jobs and several thousands of patrons will be compelled to take up the matter position to get their daily mail in some instances tri-weekly, mail

Mrs. J. W. Jordan of Ruston, La. is the guest this week of her sister Mrs. O. W. Horne.

Miss Kittie Stubbs, who has been spending the summer at Mobile and later at Green Cove Springs, the guest of her sisters, Mesdames Seekinger and Klapp, returned home last week.

Victor 10-inch records, 65c. at the Statesboro Music House.

Mr. George Greene, of Hartford, Ala., is spending some time with relatives in the county. He has recently recovered from an illness of six weeks with typhoid fever and is recuperating at home.

We have secured the agency for Orino Laxative Fruit Syrup, the new laxative that makes the liver lively, purifies the breath, cures headache and regulates the digestive organs. Cures chronic consumption. Ask us about it. W. H. Ellis.

Mr. Charles King, the popular actor at the head of the King Comedy company, left Saturday morning for Vinettes, Ind., where he goes to attend the funeral of his mother, who died Thursday. This sad news came to him just after arriving in the city Thursday afternoon, but despite this he appeared in his usual roles both Thursday and Friday evenings and won the hearty applause of the audience at each performance for his high class acting.

Terrific Crime Near Atlanta. Atlanta, Nov. 13.—One of the most brutal assaults in the history of Fulton county was committed this morning upon Mrs. J. N. Camp, wife of a well known truck farmer, at their home on Cascade avenue, some distance beyond the city limits. Mrs. Camp was attacked in her home while sweeping, by a negro who choked her into unconsciousness, tied a heavy strap about her neck and assaulted her.

Mrs. Camp is about 85 years old and has several children. Her husband was away from the house at work at the time the crime was committed.

Made Happy for Life. Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dread, full complaint he names. He says: "My little daughter had St. Vitus' Dance, which yielded to no treatment but grew steadily worse until as a last resort we tried Electric Bittors; and I rejoice to say, three bottles effected a complete cure." Quick, sure cure for nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by W. H. Ellis drug store. Price 50c.

Bulloch County Man to Lead in Debate.

Thanksgiving in Macon will be an important day for southern colleges. During the afternoon will take place the Georgia-Auburn football game, one of the most important games of the season. The two teams are very evenly matched, being two of the fastest in the S. I. A. What the outcome of the game will be it is impossible to foresee.

But the most important feature of the day is the long-looked for debate between Mercer University and Wake-Forest College, which takes place at the city auditorium at 8 o'clock p. m. The subject to be discussed is one of the greatest and most important ever debated by college men: "Resolved, That the United States should enforce the Monroe doctrine in South America." Mercer has the negative and is represented by Messrs. H. M. Jones and J. B. Gopland.

Mr. Jones, who leads the debate for Mercer, is a Bulloch county man and a member of the present senior class. He is a young man of high reputation in the field of debate. He is held by the college to be one of the greatest thinkers and debaters she has ever had, and when it is remembered that Mercer has won thirteen out of the fourteen inter-collegiate debates she has been engaged in, this is saying a good deal.

The judges who have been selected are: Judge A. J. Cobb, of Atlanta; Hon. W. H. Fleming, of Augusta, and Dr. E. H. Johnson, of Emory college. Governor J. M. Terrell will be present.

Sell More Chamberlain's Cough Remedy than at All Other Put Together. Mr. George, a merchant at Mt. Elgin, Ontario, says: "I have had the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada and I sell as much of it as I do of all other lines I have on my shelves put together. One of the many dozens sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children and always with the best results." For sale by all druggists.

Rally a Success. The Sunday school rally that was held at the Methodist church Sunday evening was a very pleasant affair and at the same time was a big success, accomplishing all that it was intended to do. The program was an interesting one, consisting of songs, dialogues, recitations and an address. The children took off the parts well. The infant class of Mrs. Potter deserves especial mention. The house was crowded to its fullest capacity. The exercises were not long, only an hour being consumed by the rendering of the program. When the collection was taken a neat sum was raised for missions. The rally will no doubt create a greater interest in Sunday school work. The prize for raising the largest amount for missions was awarded to Lucile Kendrick. Others winning prizes were Nellie Jones and Otis Lucas.

A Year of Blood. The year 1903 will long be remembered in the home of P. N. Tackett, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tackett's lungs that death seems very near. He writes "Severe bleeding from the lungs and a frightful cough had brought me to death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored and as time has proven permanently cured." Guaranteed for Sore Throat, Coughs and Colds, at W. H. Ellis drug store. Price 50c and \$1.00. Trial bottle free.

Had a Close Call. "A dangerous surgical operation, involving the removal of a malignant ulcer, as large as my hand, from my daughter's hip, was prevented by the application of Bucklen's Arnica salve." Says A. C. Stickle, of Miletus, W. Va. "Persistent use of the Salve completely cured it." Cures Cuts, Burns and Injuries. 25c at W. H. Ellis drug store.

RAWLINGS TO HANG

Valdosta, Ga., Nov. 12.—J. G. Rawling was this morning sentenced to be hanged Monday, Dec. 3rd, being the date set for the execution.

His wife was with him when the sentence was read. Rawlings betrayed no emotion and protested his innocence. He told Judge Mitchell he had not had a fair trial and concluded his talk with these words: "I now put your honor on notice that if you do not give us a new trial our blood will be upon your hands. I tell you plainly you had better do so."

The hanging will take place during the session of the South Georgia Conference, which is to be held less than a block from the scaffold.

In passing sentence the judge explained to Rawlings that it was not in his province to grant a new trial if he wanted to. It is understood that a request will be made of Governor Terrell to grant a reprieve to Alf Moore of three days in order that he and Rawlings might be hanged at the same time. Moore's execution is now fixed Nov. 30.

In Time of Peace. In the first months of Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest man. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take. A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use. For sale by all druggists.

Blituous Attack Quickly Cured. A few weeks ago I had a blituous attack that was so severe I was not able to get to the office for two days. Failing to get relief from my family physician's treatment, I took three of Chamberlain's Stomach and Liver Tablets and the next day I felt like a new man.—H. C. Bailey, Editor of the News, Chapin, S. C. These tablets are for sale by all druggists.

In Memoriam. On October 20th, 1906, God sent the death angel to bear home the beloved son of Mr. and Mrs. Henry Tillman. Walter Tillman made his stay on this earth 15 years. He leaves father, mother, two brothers and three sisters to mourn his departure. He was a loving and affectionate son. Oh, how hard it was to give him up. As the heavens are higher than our heads, God's ways are higher than our ways; and our finite minds cannot understand why He permitted the angel of death to enter their home and take away the most precious one. God in His mercy saw fit to relieve him of the troubles and trials of this world and he closed his eyes as if he had fallen asleep and passed peacefully to the Great Unknown. The poor, worn frame will never more suffer with the agonies of pain; his suffering is at an end.

Written by his aunt, Maxie Tillman.

Great Victory for General Intelligence—Mistaken Ideas Have to Surrender to Facts and Common Sense.

Owing to our method of living and lack of exercise, diseases of the liver are becoming alarmingly prevalent. About three fourths of the women have sluggish liver and about half of the men similarly affected. Inactivity of the liver immediately results in diseases of the stomach and bowels, and in a short space of time some form of the liver trouble frequently develops.

Hundreds of people have taken dyspepsia cures for years without receiving any benefits, simply because they were treating the wrong disease. The trouble was not the stomach, but the liver. Hundreds of people have taken all kinds of anti-constipation remedies for years, without receiving any benefit, simply because they are treating the wrong disease. The trouble was not with the bowels, but with the liver.

You can make no mistake in taking Dillingham's Plant Juice because it cures dyspepsia, liver trouble and constipation. So if you have dyspepsia and the trouble is really with your liver, you do not need a physician to diagnose your case because Dillingham's Plant Juice cures all or both.

You are always safe in taking Dillingham's Plant Juice. As liver troubles progress some of the following symptoms are generally present: headaches, bitter taste in the mouth, bowels irregular, indigestion, pimples, restlessness, feet and hands cold; occasionally the complexion becomes pale and sallow.

Dillingham's Plant Juice can be obtained at The Simmons Co., Statesboro, Ga.

Tough Waycross did not get the agricultural college of the eleventh district they are going to have one. This is the spirit that does things and wins the applause of the world. Would that this county had some of their spirit and determine to have an agricultural college regardless of whether we secure the state institution or not.

Dairy and Food Commission's Report.

The Minnesota Dairy and Food Commission's analysis show that Kennedy's Laxative Honey and Tar and Bee's Laxative Honey and Tar contains opiates and croton oil. Opiates are poisons and croton oil is a violent purgative. Refuse to accept any but Foley's Honey and Tar in a yellow package. Foley's Honey and Tar contains no opiates or dangerous drugs and is the best cough and cold cure. W. H. Ellis.

I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50 cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." W. H. Ellis.

Ira Dickinson,
G. M. Martin,

About forty young people went out to the home of Mr. Brannen, near here, on Tuesday evening where they were the guest at a cane grinding. Three wagons were used to take the crowd, who had one of the really good times of the season.

Bulloch Wins First at Negro State Fair.

The first prize of \$200 was awarded to the colored people of Bulloch county at their state fair in Macon last week. The exhibit was in charge of A. R. Pope, D. E. Dickerson and S. J. Riggs. Riggs was awarded the first prize of \$15 for the best hog at the fair. The local promoters are back and feeling jubilant over their having won the laurels over the other members of their race.

The editor of the News was in Macon last week, and while there took the opportunity to visit the colored state fair. It was a credit to the negroes of Georgia. The woman's work, art, etc., was especially creditable. The attendance was large, which goes to encourage negroes to greater efforts next year. It is said that there was not a single arrest made at the fair, and only one drunk negro seen on the grounds during the entire progress of the fair. A good many white people attended, and were shown every courtesy possible by the negro management.

Sell More of Chamberlain's Cough Remedy than of All Others Put Together

Mr. George, a merchant at Mt. Egan, Ouarin, says: "I have had the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada and I sell as much of it as I do of all other lines I have on my shelves put together. One of the many dozens sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used myself and given it to my children and always with the best results." For sale by all druggists.

Married and in Trouble Over License.

The case of Miss Beulah Handley and Mr. Remer Groover, who were married Tuesday, is a proof of the fact that the course of true love never runs along the beaten paths of smoothness and ease, as we are prone to think it should. They are in trouble, having followed the lead of Cupid a little blindly. What the outcome will be no one can tell.

It seems that the father of the groom objected to the young people marrying on the ground that the boy, who is only 17, is too young for anything so rash as that. He did all in his power to prevent the marriage, though to no avail.

The boy succeeded in securing the license, but when he took the precious slip of paper home and his father found out that he had it he took it away and tore it up. Several of his friends had seen the document, however, and when he came into the city and asked the minister to tie the knot, saying that he had the license at home and that he would bring them next day, the preacher took him at his word and they were married Tuesday.

The license having been torn up could not, of course, be produced and this alarmed the minister, Elder M. F. Stubbs, who married them and he at once began to look into the matter.

The groom's father was in the city, yesterday, consulting attorneys about the matter, but it is not known what action they advised him to take. Whether the marriage is legal under the circumstances is not known at this time.
