WAR

Great Victory for General Intelligence—Mistaken Ideas Have to Surrender to Facts and Common Sense.

Owing to our method of living and lack of exercises, diseases of the liver are becoming alarmingly prevalent. About three fourths of the women have sluggish liver and about half of the men similarly affected. Inactivity of the liver immediately results in diseases of the stomach and bowels, and in a short space of time some form of the liver trouble frequently develops.

Hundred of people have taken dyspepsia cures for years without receiving any benefits, simply because they were treating the wrong disease. The trouble was not the stomach, but the liver. Hundreds of people have taken all kinds of anti-constipation remedies for years, without receiving any benefit, simply because they are treating the wrong disease. The trouble was not with the bowels, but with the liver.

You can make no mistake in taking Dillingham's Plant Juice because it cures dyspepsia, liver trouble and constipation. So if you have dyspepsia and the trouble is really with your liver, you do not need a physician to diagnose your case because Dillingham's Plant Juice cures all or both.

You are always safe in taking Dillingham's Plant Juice. As liver troubles progress some of the following symptoms are generally present: headaches, bitter taste in the mouth, bowels irregular, indigestion, pimples, restlessness, feet and hands cold; occasionally the complexion becomes pale and sallow.

Dillingham's Plant Juice can be obtained at The Simmons Co., Statesboro, Ga.

Though Waycross did not get the agricultural college of the eleventh district they are going to have one. This is the spirit that does things and wins the applause of the world. Would that this county had some of their spirit and determine to have an agricultural college regardless of whether we secure the state institution or not.

Dairy and Food Commission's Report.

The Minnesota Dairy and Food Commission's analysis show that Kennedy's Laxative Honey and Tar and Bee's Laxative Honey and Tar contains opiates and croton oil. Opiates are poisons and croton oil is a violent poisonous purgative. Refuse to accept any but Foley's Honey and Tar in a yellow package. Foley's Honey and Tar contains no opiates or dangerous drugs and is the best cough and cold cure. W. H. Ellis, 1

Cured of Bright's Disease.
Mr. Robert O. Burke, Elmora, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night, and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50 cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." W. H. Ellis, 1

Many men and women catch cold at dances which terminate in pneumonia and consumption. After exposure, if Foley's Honey and Tar is taken it will break up a cold and no serious results need be feared. Refuse any but the genuine in a yellow package.

Bulloch Wins First at Negro State Fair.

The first prize of \$200 was awarded to the colored people of Bulloch county at their state fair in Macon last week. The exhibit was in charge of A. R. Pope, D. E. Dickerson and S. J. Riggs. Riggs was awarded the first prize of \$15 for the best hog at the fair. The local promoters are back and feeling jubilant over their having won the laurels over the other members of their race.

The editor of the News was in Macon last week, and while there took the opportunity to visit the colored state fair. It was a credit to the negroes of Georgia. The woman's work, art, etc., was especially creditable. The attendance was large, which goes to encourage negroes to greater efforts next year. It is said that there was not a single arrest made at the fair, and only one drunk negro seen on the grounds during the entire progress of the fair. A good many white people attended, and were shown every courtesy possible by the negro management.

Sell More of Chamberlain's Cough Remedy than of All Others Put Together

Mr. George, a merchant at Mt. Zion, Otaris, says: "I have had the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada and I sell as much of it as I do of all other lines I have on my shelves put together. One of the many dozen sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used myself and given it to my children and always with the best results." For sale by all druggists.

Married and in Trouble Over License.

The case of Miss Boulah Hendley and Mr. Remer Groover, who were married Tuesday, is a proof of the fact that the course of true love never runs along the beaten paths of smoothness and ease, as we are prone to think it should. They are in trouble, having followed the lead of Cupid a little blindly. What the outcome will be no one can tell.

It seems that the father of the groom objected to the young people marrying on the ground that the boy, who is only 17, is too young for anything so rash as that. He did all in his power to prevent the marriage, though to no avail.

The boy succeeded in securing the license, but when he took the precious slip of paper home and his father found out that he had it he took it away and tore it up. Several of his friends had seen the document, however, and when he came into the city and asked the minister to tie the knot, saying that he had the license at home and that he would bring them next day, the preacher took him at his word and they were married Tuesday.

The license having been torn up could not, of course, be produced and this alarmed the minister, Elder M. F. Stubbs, who married them, and he at once began to look into the matter.

The groom's father was in the city, yesterday, consulting attorneys about the matter, but it is not known what action they advised him to take. Whether the marriage is legal under the circumstances is not known at this time.

To Begin Work on the Chattanooga & Savannah.

At last after years of waiting the people of the city of Statesboro are going to have a line of railway that will do credit to the city and the section. They will in the next few months have a trunk line. The line will extend from Savannah, by the restless sea, to Chattanooga, in the mountains. It will be a line that will make the city of chief importance in this state as a seaport and the city of the Blue Ridge country neighbors. It will cement the affections of the people of the grand and glorious old state of Georgia to those of the historic and statesman-giving state of Tennessee. What the future of the country and the cities through which passes will be not the most sanguine can begin to tell. It means new and rapid growth. The village of today will be the city of tomorrow. The wilderness of the wire grass must give way to the penetration of the steam horse and the desert shall become an oasis.

Work on the line from Savannah to Chattanooga by way of Statesboro is to begin soon. The chief engineer, Mr. Edward Rice, who has recently completed a line of railway for Coast Rican government is to be at the head of the work. He will arrive in the city on Monday and work will begin at once. The company has already placed bonds in Wall Street and there can be no doubt the financial backing of the company. As a sign of good faith the company has put up a bonus of \$600 with attorneys here to be used in securing a charter. This speaks of better things and shows that the people mean what they say. No better token of their faith in the outcome of the plan could be given. It is only a question of time now before the people of this city can be riding on elegant pullman cars from Savannah to Chattanooga and all other points in that direction. This will give Statesboro the long needed outlet to the North and West. New fields will be opened up and new conquests in the commercial and business world will be reached by the people of this section. Who a year ago would have dreamed that we were to have a trunk line so soon? It sounds almost too good to be true, yet we know that it is true. It will soon be unraveled before the eyes of the wondering multitude. The new line will extend from Savannah via Statesboro and thence in a north and western directions. It will pass through all the principal cities on the route between here and the point of destination. Athens and Gainesville will be on the line. From some point in McDuffie county a branch line will be built to Augusta. It will pass through about thirty counties in Georgia. The richest and most populous counties in the state will be pierced. The section through which it passes will be one that has at the present no railroad facilities worth speaking about. It will mean more to the people than they yet know. The formal application for charter will be made Monday. Herin will be described more minutely all the details of the route and the other things of interest that the outside public wishes to know about.

This line is going to be built and some developments may be looked for any day. There is no doubt that it is going to be built. It is a certainty.

Dismissal of Negro Troops.

We, of the South, who know conditions as they are, congratulate President Roosevelt on his dismissing the negro troops from the service of the United States army. A storm of protest has gone up over the country at the action of the chief executive in thus summarily dishonorably discharging the riotous black soldiers but we know and feel that the president is brave and noble enough to stand by what he has said and done. From this section no word of censure of his course will be heard. He only did what should have been done a long time ago. The negro soldier has proved a dirt failure. In the Spanish-American war this was strikingly illustrated. When the time for coolness and steadiness arrived of nervousness and disgrace the whole service. The negro troops were in that war under the command of white officers, as they always shall be, and even then it was hard to prevent a panic. What they would have done under command of officers of their color no one can say. There has been friction between the troops of the two races for some time, but this summer at the encampment at Brownville, Texas, the trouble reached a crisis. Riotous negro soldiers killed a number of citizens while on one of their drunken sprees and it was this disgraceful action on their part that caused the president to take the action that he did.

In the recent trouble with the Ute Indians the negro soldier proved for all time that he is no good as a fighter. A few Indians put a company of the swartly troops to flight.

No white man, at least here in the South, is going to respect a negro officer. No salute for him will be given. This has been demonstrated time and again. It was that way at the Manassas maneuvers and it was that way before the troops of the two races have been thrown together. Every Southern soldier boy had rather die the death of a dog than salute a negro officer, and so would. The antipathy of the two races is too great to be overcome thus.

The race pride of the Anglo-Saxon rebels at the idea.

Then why all this storm of protest that is going up? The facts that we have called attention to cannot be disputed. Why continue in the service of the army men who are no good as fighters? Every opportunity they get a riot results. They are more interested in the glare and glamor of new uniforms and shiny buttons than the real good they can be in the hour of trouble. Roosevelt knows all this and more, too. He sees the utter nonsense of keeping the negro troops in the army. There is only one thing that we ever heard of the negro soldier was good for. He is said to be, on account of his fine eyesight, the best sharpshooter in the service. Men who have been in the Philippine Islands and they say this is true. But are we going to keep a lot of them in the army just because in time of peace, when no enemy is near, they are crack shots, but who will, when danger arises, lose all their nerve and take to the woods? This would hardly be good sense or wise policy for the country to follow. The negro troops are dismissed, and we are glad. When not only one battalion of the 25th infantry, but when all the negro troops have been dismissed from the service, then the country will have special cause to be glad.

The Town Primary

A primary election has been called for Nov. 28th to nominate a mayor and five councilmen, who are to be elected on the first Saturday in December.

The town has hundreds of good men who are able to fill these positions, and whose characters are above reproach, but there are many good men who are not fit to fill such places, simply because they pay no attention to their duties after they get in. Too many of them regard it simply as a place to levy and collect taxes, and entirely overlook the smaller duties incumbent on them, and which would be so beneficial to the interest of the town.

For instance the nuisance of allowing people to throw their waste paper and trash on the streets and lanes makes Statesboro one of the dirtiest towns in Georgia. It tends not only to breed disease but is an eyesore to citizens and visitors who come to our town.

A town should be kept as clean as a man's private premises, and this is in the minds and habits of the people a taste and desire for cleanliness and neatness. Then the streets and bridges and ditches of the town need constant and careful attention and it is money thrown away to neglect these things until they have to be built anew. Well kept streets and ditches are very essential to a town's welfare and prosperity, and the pride of our should be to make the town not only beautiful but healthy, and these things attract strangers and bring them in as permanent citizens. We have lights and water, and we will soon have to have sewerage and paved streets, and we trust the gentlemen who are selected in next Wednesday's primary will be men, who can and will take time from their private business and look after the good of the town. If they can't do this, then they should not accept the office. There is no honor in the position unless a man does his duty to the public, but if he will do this the people will raise up and applaud him for his good works.

Made Happy for Life.

Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dread, full complaint he names. He says: "My little daughter had St. Vitus' Dance, which yielded to no treatment but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles effected a complete cure." Quick, sure cure for nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by W. H. Ellis drug store. Price 50c.

When cotton is selling for \$140 a bale it seems to us that the people of this county should be able to lay up a few odd dollars of the golden shekels.

Bilious Attack Quickly Cured.

A few weeks ago I had a bilious attack that was so severe I was not able to go to the office for two days. Failing to get relief from my family physician's treatment, I took three of Chamberlain's Stomach and Liver Tablets and the next day I felt like a new man—H. C. Bailey, Editor of the News, Chapin, S. Lyceum Attraction.

On Tuesday evening, Nov. 27th, Edwin R. Weeks will appear at the auditorium for the second engagement of the lyceum course. This promises to be one of the best attractions of the season. Those who saw the last entertainment knew what a treat is in store for them. Mr. Weeks is an entertainer of national fame. He is a writer, impersonator, and elocutionist besides having many other ways of interesting and delighting an audience. The press of the whole country have some very fine things to say about his entertainments. He will be accompanied by Miss Grace Jilison Weeks, singer, and by Miss Mayo, violinist. This is one of the best, if not the best, attraction that the people of Statesboro will have an opportunity of seeing this season.

A Year of Blood.

The year 1903 will long be remembered in the home of F. N. Tackett, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tackett's lungs that death seems very near. He writes: "Severe bleeding from the lungs and a (rightful) cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored, and as time has proven permanently cured." Guaranteed for Sore Lungs, Coughs and Colds, at W. H. Ellis drug store. Price 50c and \$1.00. Trial bottle free.

W. L. DOUGLAS
THE BEST \$3.50 SHOES FOR MEN
W. L. Douglas makes more men's \$3.50 shoes than any other manufacturer in the world. \$10.00 REWARD to any one who can duplicate his shoe.

Notwithstanding the high price of leather, I can still afford to sell as good a shoe for the same price, \$3.50, as formerly. The increased volume of my business more than makes up for the lessening of my profit.

If I could take you into my factories at Brockton, Mass., and show you the infinite care with which every pair of Douglas shoes is made, you would realize why they are the best shoes produced anywhere.

If I could show you the difference between the shoes made in my factory and those of other makers, you would understand why W. L. Douglas \$3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other \$3.50 shoe on the market to-day.

Church Notice.

There will be preaching at the Presbyterian church Sunday at both the morning and evening hours. Rev. Mr. Kerr, a student of the Columbia Theological Seminary, will fill the pulpit in place of the regular pastor, Rev. J. C. Rowan. The young man comes with the best of recommendations and all are cordially invited to attend the services.

Had a Close Call.

"A dangerous surgical operation, involving the removal of a malignant tumor, as large as my hand, from my daughter's hip, was prevented by the application of Bucklen's Arnica salve," says A. C. Stickle, of Milledge, W. Va. "Persistent use of the Salve completely cured it." Cures Cuts, Burns and Injuries. 25c at W. H. Ellis druggist.

Change in Business.

Mr. E. M. Anderson bought on Tuesday the shoe store of the Lanier-Fulcher company. He will take charge of the business at once. Some of the clerks will be retained and the personnel of the business will not be altered very materially, we understand, before the first of the year. This is one of the best investments in the city. It has been established for a long time and everybody knows of the only shoe store in the city. We did not learn the consideration.

In this country the census shows that small farms are increasing in the amount of their land faster than the large ones.

The traditional little farm well tilled and the little barn well filled is sufficient for contentment, declares the American Cultivator. Many a farmer has lost all peace in life through a mortgage put on to build a bigger barn or to take in more land than he could till.

Taking an average from the statements of managers, the number of variety acts now on the stage is about fifteen thousand. As most of these acts employ more than one person, it is no exaggeration to assume that at least forty to fifty thousand people are engaged in this branch of the profession.

Ministers who seek rich men for parishioners should, in the opinion of the Christian Register, remember Cromwell's saying when he formed his famous army: "I had rather have a plain russet-coated captain that knows what he fights for and loves what he knows than that which you call nobility but a gentleman and is nothing else. I honor a gentleman that is so indeed."

In commission and under construction we now have twenty-six battleships and thirteen armored cruisers, eleven coast defense iron-clads, a large fleet of unarmored steel vessels, upward of forty gunboats and nearly sixty torpedo boats and submarines. Of ships of all classes we had 227 at the end of 1905; and the complement has risen to more than thirty-three thousand officers and men, and a fleet of a marine corps of more than six thousand, a force considerably larger than the regular army before the Spanish War.

Discussing the plan suggested by him in a speech for a commission to regulate rates of all public service corporations, Governor Holt of Missouri, said: "The result would be to squeeze the water out of the stock and to eliminate fictitious values. One of the greatest evils of these public utility corporations has been the immense amount of watered stock on which the people have been compelled to pay dividends. With the immense growth of public service corporations it has become necessary for the state to exercise the right to regulate their charges in order to prevent extortion."

Great possibilities are to be found even in the slowest country towns when a few live young people set to work in the right way. The first step is a good active society of some sort; almost anything will answer if it brings the young people together, a debating club, literary club, village improvement association or church society. If only there are two or three active spirits working and thinking together wonders may result. Progress may extend along unexpected lines. Political, business, social, religious or educational possibilities may be developed. But whatever the direction of advance, the town will be quickened into a more vigorous life by the presence of a little organized effort.

To many it will occur that Cuba has been physically arranged by an inscrutable Providence for the express purpose of facilitating the operations of lawbreakers and brigandage, and the New York Sun. The trouble lands lie almost invariably within easy reach of the hills where marauders can conceal themselves indefinitely and whence they can descend upon villages and plantations to replenish their commissariat or to levy blackmail, as the case may be. They can loot country stores or rob farmhouses, or burn railway trestles, or destroy plantations at their leisure, and in perfect safety by an exercise of the measures of vigilance, and as they never fight save for purposes of escape and can always defeat pursuing parties miles away, the task of suppressing their activities is one of astounding difficulty. A very beggarly array of seasoned jawhoppers, divided into small bands of twenty or thirty each, could handle twenty times their number and successfully prosecute the obliteration of civilization on the island plan.

Call For Bank Statements.
Treasurer and State Bank Examiner R. E. Park has issued a call upon all of the state banks in Georgia, some 180 in number, for a statement of their condition at the close of business on November 12.

Fifth District Farmers' Union.
The fifth congressional district Farmers' Union was organized at the meeting in Atlanta Saturday. The meeting was called to order in the senate chamber by state organizer J. L. Lee. Each county in the district was well represented.

Express Company Chartered.
Secretary of State Philip Cook has granted a charter to the Electric Railway Express Company, with a capital of \$10,000, which proposes to do a general express business on the electric railway lines which those interested are preparing to construct between Atlanta and Albany, Ga., via Macon.

Vote in Georgia Was Light.
While the count of the vote throughout the state in the recent election for congressmen and judges of the new state court of appeals has not been completed, owing to the fact that the returns from several counties are missing, Secretary of State Cook says the indications are that the vote was the lightest known in Georgia in many years. In many counties voting population is from 1,000 to 1,500, some more, there were less than 100 votes polled, and the same proportion seems to have prevailed generally over the state.

Governor Refunds Pension Money.
Governor Terrell has just paid from the state treasury to Hon. James M. Smith, of Oglethorpe, \$17,000 which Mr. Smith advanced last spring for the purpose of paying at the same time with others the pensions of certain Confederate veterans who would otherwise have had to wait until after the meeting of the legislature. At Mr. Smith's request, his name was not made public in connection with the loan. He was at that time a candidate for governor. The amount necessary to pay the loan was appropriated at the recent session of the general assembly.

Pension Law May Be Amended.
At the state reunion of Confederate veterans in Savannah Commissioner of Pensions Lindsey introduced a resolution which was supported by State Treasurer Park, to memorialize the next legislature to amend the pension laws so that the clause making it obligatory for those deserving veterans to come to the state to receive their pensions could be omitted. Lindsey said that he had no objection to the clause making it obligatory for those deserving veterans to come to the state to receive their pensions, but that he had no objection to the clause making it obligatory for those deserving veterans to come to the state to receive their pensions.

Determined to Have School.
For the establishment of a technical and agricultural school in Waycross, \$50,000 and 500 acres of land has been subscribed. The failure of Waycross county to secure the state agricultural school for the county, the district only whetted the appetite of the people of Waycross for a school of that class. The foundation was first started by a subscription list of \$15,000 in cash and 200 acres of land valued at \$100 per acre.

Regular Hydrophobia Case.
Charles Jenkins, a young white farmer, who lived two miles west of Concord, died a few days ago of hydrophobia. On September 17, while riding a bicycle on the public road near town, he met a large black dog, which, after passing him, turned and attacked him. He grasped with the dog and was in the act of cutting his throat when it attacked him. He went to the tractor institute in Atlanta and took treatment there, but was taken ill several days ago and passed away without exhibiting any of the signs of hydrophobia. He leaves a wife and four small children to mourn his death.

Rawlings' Hanging Deferred.
Before its adjournment last Saturday the prison commission, in session at Atlanta, definitely decided that it will await the execution of old man J. G. Rawlings and the negro, Al Moore, sentenced to be hanged at Vicksburg for the murder of the Carter children, before passing upon the petition for executive clemency filed in behalf of the Rawlings boys, Milton and Jesse.

Al Moore is under sentence to be hanged on November 20, and old man Rawlings is to be hanged on December 2. At the South Georgia Methodist Conference will be in session at Vicksburg on those dates. It has practically been decided to grant clemency to Moore and Rawlings until December 1. Judge Mitchell and Solicitor General Thomas having made a recommendation to this effect. Governor Terrell will not act on this recommendation, and grant the necessary respite, so that the hangings will be deferred until after the conference adjourns, as it will do the night of December third.

Milton and Jesse Rawlings, sons of J. G. Rawlings, are sentenced to be hanged for the same crime on December 1, the Friday following. The prison commission will, therefore, meet on December 5 and 6 for the purpose of taking their petitions under consideration.

The District Agricultural Schools. Much interest is being manifested throughout the state in the location of the eleven agricultural schools authorized by the last general assembly. Governor Terrell is giving much time to this important matter and is meeting with the several boards to perfect an organization in each district and to receive bids for location of the school.

Two meetings of the seventh district board have been held. At the first meeting, which was held in Rome, three bids for the school were made, one each from Bartow, Floyd and Cobb counties. As the bids were not in proper shape, these were rejected, and the counties were asked to make amended bids at a later meeting. A committee of the board was appointed to inspect the several sites before the next meeting. At the second meeting the bid of Cobb county was accepted over those of Floyd and Bartow. The school will be located two miles from Powder Springs. The people of the county gave 210 acres of improved land with the several farm houses thereon and agreed to erect by the first of June the main academic hall and the boys' dormitory of brick according to the plans of the architect, now planning the same for the governor.

A very large and enthusiastic meeting was held in the eleventh district on the 12th at Waycross. A bid of \$32,000 in cash and 60 acres, three miles from Waycross, and an annual maintenance gift of \$2,000 for four years, was offered by Ware county. A bid of \$32,000 in cash, 200 acres in Ocala valued at \$100 an acre, \$1,000 for five years for maintenance and free water, was made by Irwin county. A bid of \$33,000 in cash, 300 acres of land in and adjacent to Douglas, free electric lights and city water and sewerage for ten years, was made by Coffee county. After several bids the bid of Coffee county was selected.

The course of study and plan of conducting the schools will represent the best thought in agricultural secondary education.—JOSEPH S. STEWART.

Thanksgiving Proclamation.
Governor Terrell has issued the following proclamation setting a day of Thanksgiving:
The beneficent and far-reaching order of the universe has found it in keeping with its divine plan to vouchsafe once more, as the years come and go, untold blessings to the people of Georgia.
Fertile lands, under conditions of generous seasons and industrious tilling, have given to the farmer a bountiful harvest; our people, engaged in varied occupations, have suffered no reverse; laborers have found, without instance of failure, remunerative employment, and citizens generally, whether farmers, merchants, bankers, manufacturers, or those who live in whatever pursuits, as a rule, have been prosperous and happy.
During the year now drawing to a close there have been no disasters to distress, and no contagious diseases to appeal our people. It is meet and proper that we return thanks to a merciful God for the blessings which our great state has received.

Therefore, in accordance with the immemorial custom of our country, I, Joseph M. Terrell, governor of the state of Georgia, do issue this my proclamation, designating Thursday, the 23rd of November, 1906, a day of Thanksgiving and praise.
On that day the people are requested to renounce worldly occupations of whatever character. As governor of this state I suggest that all the people unite in prayer, by assembling in places of worship, or about family altars, where they may now be, to thank God for His goodness to them, and to pray for the peace, health and happiness of our country.
It is not to be expected that this day of Thanksgiving shall so unite the citizens and again pledge themselves to conform to the Eternal Law.
It is not to be expected that this day of Thanksgiving shall so unite the citizens and again pledge themselves to conform to the Eternal Law.
It is not to be expected that this day of Thanksgiving shall so unite the citizens and again pledge themselves to conform to the Eternal Law.

Given under my hand and the seal of the executive department at the capitol, in the city of Atlanta, on this 17th day of November, in the year of our Lord, 1906, and of the independence of the United States, 131st.—J. M. TERRELL, Gov.

THREE STATES HIT By Torrential Rains and Ter- rific, Death-Dealing Winds. MANY FATALITIES OCCUR

Alabama, Mississippi and Louisiana the Chief Sufferers—Communication Cut Off and Many Towns Are Isolated.

Eight persons are known to have lost their lives, scores of others injured, and property and crops suffering great damage, the extent of which because of the meagre reports obtainable, cannot be estimated at this time, as a result of a terrific wind and rain storm, which originated on the Gulf Saturday night and early Sunday, swept northeastward through portions of Alabama, central and northern Mississippi and western Tennessee and in its northward course razed scores of substantial buildings, partially demolished hundreds of others, caused a complete demoralization of railroad traffic, and cut off telegraphic communication with many points in the affected territory.

Cotton in the fields was blown down by the wind, beaten into the ground, and, if not totally, badly damaged. Besides the loss of life and property damage, which is known to have reached a number of points directly and indirectly, the pathway of the storm cannot be communicated with as yet, and when complete reports have been received it is feared the loss to both life and property will be greatly increased.

Throughout almost the entire district rain continued to fall Sunday night, but in decreased volume. The storm approached Atlanta, Ala., from the west, and cut a path three hundred yards wide through the southern portion of that city. A score of buildings were wrecked, but no one was killed or seriously injured. At Winona, Miss., three churches were demolished, and numerous buildings unroofed and badly damaged. Among the largest buildings damaged at this place are the postoffice, opera house, the oil mill, the compress, warehouse and the residence of E. J. Dunkleton. Besides these about twenty-five smaller buildings were almost completely destroyed. Of those buildings not totally destroyed, the compress was probably the most badly damaged.

At McDonough creek, a few miles from Memphis, a railroad trestle fell under the weight of a switch engine, carrying with it Engineer C. V. Deane and Fireman A. R. Ritchie, who were drowned. At Mathison, Miss., nearly every building in the southern portion of the town was destroyed. These include the public school, the postoffice, the opera house, the oil mill, the compress, warehouse and the residence of E. J. Dunkleton. Besides these about twenty-five smaller buildings were almost completely destroyed. Of those buildings not totally destroyed, the compress was probably the most badly damaged.

Near Okolona, Miss., three lives were lost. The property loss at this place cannot be ascertained. At Boliver, Tenn., nine inches of rain fell in twenty-four hours, and thousands of head of cattle were caught in the low lands. Relief parties were sent out, but because of the high stage of the water little could be accomplished in rescuing the drowning cattle.

GOING TO THE COURTS.

Negroes Will Fight Order of Roosevelt Discharging Colored Troops. Attorneys Are Employed.

Announcement was made in New York Saturday that Alexander S. Bacon and J. Douglas Wetmore, attorneys for the Afro-American council, have been employed by the negro soldiers of companies B, C and D, of the Twenty-fifth Infantry, who have been ordered dishonorably dismissed from the United States army, to take steps for their reinstatement and to ascertain what rights they have, if any, to protect them against the efforts of President Roosevelt's recent order discharging them from future employment in the government service.

The statement is made that a number of persons, both white and black, have expressed their willingness to assist in bearing the expenses of the suit. Mr. Wetmore says he intends to have two bills introduced at the next session of congress on behalf of the Afro-American council, one depriving the president and secretary of the power to discharge soldiers of war of the power to discharge soldiers of war, and the other for the reinstatement of the negroes discharged from the Twenty-fifth infantry.

Gaily were sent out for special meetings of the ministerial association of negro preachers, the Baptist ministers meeting and the clerical union of Long Island to take action on President Roosevelt's attitude toward the negro troops.

An Appeal to Taft. Mary Church Terrell, a member of the Constitutional League, of New York, called upon Secretary Taft at the war department at Washington Saturday by direction of the league and begged him to suspend, until the president returns, the execution of the order discharging with honor a battalion of the Twenty-fifth infantry at Fort Reno.

In addition to this presentation from the league, Secretary Taft also had before him a telegram containing resolutions adopted by the Republican county committee of New York, also praying that the negro troops be given a hearing and that meanwhile the execution of the order be suspended.

Secretary Taft pointed out that the complaint of a president's order was a presidential order, and he said that he had no authority to make an inquiry to be made of General McCaskey, the department commander at San Antonio, as to what had been done toward executing the order, and he further intimated that he might communicate with the president upon the subject.

PRESIDENT LEAVES PANAMA.
Expressed Himself as Pleased With Condition of Canal Affairs.

A special from Colon says: President Roosevelt had a conference Friday night with the canal commissioners, canal departments and went aboard his train at Tivoli at 8:30 o'clock Saturday morning to begin the homeward journey. As he passed Camp Bolivar, the marines there were lined up for review and the band played "The Star Spangled Banner." At Gatun, President and Mrs. Roosevelt dined, and then they went to the hotel where the big dam and locks will be located.

President Roosevelt said he was pleased with the condition of affairs and the system now established in the zone.

The president expects to arrive at Ponce, Porto Rico, on Wednesday. After landing there he will cross the Atlantic in an automobile and will embark at San Juan, Thursday for Hampton Roads.

AS PRECAUTIONARY MEASURE
Negro Acquitted on Criminal Assault Charge Still Held in Jail.

After being acquitted on the charge of criminally assaulting John Camp, Joe Glenn spent Friday night in the tower, at Atlanta, and will probably spend several days in the same place purely as a matter of precaution in view of the inflamed state of mind in the vicinity of the assault.

The verdict of the jury met with general approval throughout the city.

BAPTIST BIBLE BARRED.
Special Edition Contained "Dipped" in Place of "Sprinkled."

By resolution the Baptist convention in Richmond, Va., Wednesday broke off all relations with the American Bible Society, and refused to use their publications. The trouble grew out of the printing by the Baptists of Bible for the "Baptists," in which the Greek word "baptize" was translated "dipped." The American Society contends for the translation "sprinkled," and refused to allow in the circulation of the Baptist Bibles.

BISHOP TIGERT STRICKEN.
Noted Methodist Divine Seriously Ill With Tonsillitis.

Bishop John T. Tigert of the Methodist Episcopal Church, south, whose home is at Louisville, Ky., was dangerously ill at Tulsa, Indian Territory, with tonsillitis, and has family been summoned. The bishop was to preside over a conference in Tulsa, but was unable to officiate.

SEEKS ADVANCE OF CASE.
Georgia Attorney General Enters Motion Before U. S. Supreme Court.

A Washington dispatch says: Attorney General Hart of Georgia entered a motion in the supreme court of the United States Monday to advance the hearing in the case of the day company against the state of Texas, involving the right of the state to collect back taxes on railroads.

The supreme court of the state of Texas has decided that it is legal proceedings the day is the solar day, not the day of the calendar. The decision validates a verdict which had been invalidated by the decision of the court below that standard time was the time of the courts.

BOMB SHAKES ST. PETERS.
Services Were Being Held and Congregation Scattered Precipitately.

A bomb was exploded in St. Peter's church at Rome, Italy, Sunday. The edifice was crowded at the time and an indescribable scene of confusion followed. The people fled in all directions, and several women faint.

The church is so large, however, that there was ample room for the crowd to scatter, and no one was injured. No trace of the perpetrator of the deed has been found.

Hunting Party

Dr. J. E. Donohoe, Messrs. O. W. Horne, P. R. Kennedy, Leon Hall and Finney D. Loach composed a congenial hunting party that spent Tuesday at the home of Mr. Z. T. DeLoach. The party left here in the morning at 8 and by seven they were on the ground ready to begin the hunt. The trip was made in automobiles. During the day forty birds were killed. It was entirely too hot, they say, for good hunting and the dogs soon tired but though forty birds in one day is not bad. They were joined by Mr. Bird DeLoach who is one of the best shots in the county. The day was very much enjoyed by the party who are loud in praise of the hospitality of the host.

In Time of Peace

In the first months of Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has become contracted before it has become a cold. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use. For sale by all Druggists.

Sea Island Cotton Sells Highest Since the War.

Not since the close of the war of secession has cotton sold for such prices as it is now selling for. It is something new to this generation to see cotton selling for 8 1/4 cents per pound. The younger of us have never seen anything like it before and we are likely not to see it again for years. We are so used to seeing cotton sell under 20 cents that we can hardly believe that it is soaring around the thirty mark. Yet such is the case and what prices it will bring before the close of the season no one can tell.

Mr. R. Simmons, who does most of the buying of cotton for the firm which he heads, says that it will go to 40 cents before the close of the season. And when it is remembered that these are the words of a man who has bought cotton so long that he is almost an expert in the business, in the judging of the staple and the estimation of the crop, they are significant. The staple is nearly all on the market and the crop is short and these things make one believe that his words will come true.

There is all kinds of money to be made at the prices at which
