Diamonds, Watches, Jewelry.

At the Baptist church in the morning the pastor, the Rev. M. H. Massey, preached to the Carpenters' Union, the sermon being a special one, by request, to the men who labor. A large crowd was out to hear this sermon which was one of unusual merit and interest, not only to the working people but to all classes as well. In the evening there were no services at that church, the congregation going almost en masse to the Methodist church.

The Rev. P. W. Ellis made his initial appearance before a Statesboro congregation Sunday morning when he preached to a large crowd at the Methodist church. He more than made up to the expectations of the people. He was given an ovation seldom accorded to a minister on his first appearance in a city.

Again in the evening he preached, this time to a packed house, room being at a premium. He was given the closest attention by those present.

Death of Mrs Strickland

Mrs. M. A. Strickland departed this life last night at 10:15 o'clock, after an illness of a little more than three months. The remains will be carried to Hagan this afternoon for interment.

Robbed at Convention.

One of the boldest and worst robberies heard of in some time was the case of Rev. J. A. Scarborough, who was relieved of \$875 as he was entering a train in Memphis last week. The facts were given to us by the father-in-law of Rev. Mr. Scarborough. He was up in the News office Saturday and related the story to us. It is about as follows: It seems that Mr. Scarborough works for some missionary society and that he was in Memphis to be present at a convention and while there was paid for his year's work. In company with several friends he was preparing to enter the train on his way home when some body in the crowd asked for some change for a small amount and when Mr. Scarborough was in the act of complying with the request the man who was a pick pocket, snatched his pocket book and escaped in the crowd. The police were notified and are at work on the case. Considering the condition of Rev. Mr. Scarborough the loss is a heavy one. It is hoped that the guilty party will be caught and given the punishment that he deserves.

Miss Edna Brannen is visiting friends and relatives at Oaxton.

We are prepared to gin your sea island cotton now. Bulloch Oil Mill.

Mr. A. L. Morgan has just returned from a three months visit to friends in Laurens county.

The boys of the city not to be outdone by the girls have organized a club to be known as "Three Times Three" or "The Lucky Nine". The purpose of the club is social. They gave the first of a series of entertainments at the residence of Dr. and Mrs. Durand Friday evening.

Anything in the way of paint material you can get from me, if you will give me time to have it made in case I haven't it in stock. A. J. Franklin.

Mr. Jabe D. Stamps, who has been with the Augusta Construction Co., on the survey of the new line of railway from Summit to Vidalia, was in the city Friday afternoon between trains. He has recently gotten a promotion and will now be with another company at Valdosta. He is looking fine and the camp life which he is living seems to agree with him.

We buy remnants of both kinds of cotton. Bulloch Oil Mill.

Nothing makes a better or more serviceable Christmas gift than a pair of Anderson's shoes.

The rain does not come and it is warm and dusty. This has been the warmest fall in the history of the county—and there has been no politics either.

I have for sale at lowest prices: Plaster lathes, "Acme" plaster, Portland cement, plaster paris, etc. A. J. Franklin.

That Christmas costume is not complete without a pair of Anderson's shoes. Look for the big shoe in his window.

The funeral of Mr. J. W. Rogers, at Corinth church cemetery, Sunday, was largely attended. More than forty Masons were present and took part in the funeral exercises.

Fish is brain food. If you want more brains we have fish every day. D. Barnes

A large crowd went from here to Corinth church Sunday to the funeral of Mr. J. W. Rogers, who was interred at the cemetery at that church with Masonic honors.

Messrs B. E. Cassidy, J. B. Cannon, and E. B. Rimes were among the callers at the News office Saturday.

Mrs. Herman Bussey, of Columbus, is visiting her parents, Mr. and Mrs. Walden Waters, on Grady street. She was accompanied by Mrs. Riner and children, of the same place, who will spend some time in the city.

The windows are beginning to take on holiday airs. Some of them are very pretty with the selections of fine goods to be seen in them.

Have you done your Christmas shopping yet? This is the common question now and gives the people something to talk of besides the much abused topic of the weather.

The best attraction seen at the auditorium this season was the recital given by the pupils of Misses Blakeney and Brannen on Friday evening. The teachers deserve great credit for the good showing made by the pupils and the students deserve praise for the way in which they acquitted themselves on that occasion. People are loath to appreciate home talent. They want to pay their money and take their choice, and in doing so they are often humbugged.

The News job department has just turned out fifteen hundred f f for the tax collectors to be used on the delinquents. Be sure that the tax collector will find you out. The books close this week.

Simplified Spelling

Killed by Congress. The simplified spelling reform never has gained any great headway as it was reported to have done. It never will. This is true, at least, for the present. The attention of congress is absorbed with subjects vastly more important to the country than that of simplified spelling can ever be.

The body decided that the old way of our fathers—the way of Noah Webster, the greatest lexicographer that has ever lived—was good enough for this country. And so it is. President Roosevelt went a long way when he put his preference and taste in the matter of spelling against the old masters who helped to build up the language, and the verdict of the country has been that he went even too far and that it was time to call him down. This action of congress will meet with general favor throughout the United States.

Ogeechee Lodge

Elects Officers. Ogeechee lodge, 218, F and A M met Tuesday night and the following is the result of the officers elected at that time: Worshipful master, Dr. A. J. Mooney; senior warden, A. F. Morris; junior warden, S. A. Prosser; treasurer, W. T. Hughes; secretary J. D. Jones.

The lodge has had a very successful year and was never more prosperous than at the present time. The movement for a handsome brick lodge, to be the finest of its kind in the first congressional district, out side of Savannah, was given quite an impetus at this meeting. The building is now practically assured. The funds are in sight and the building is very much needed and these facts are sufficient to justify the erection of the building at an early date.

Increase in Bulloch County Real Estate.

One of the most significant facts in connection with the prosperity of this county and section is the remarkable increase in the value of farm lands. A few years ago, and it has not been long, either, good land could be bought in this county for ten to fifteen dollars per acre. To-day the same land is worth twenty-five and thirty dollars per acre and even at those prices the people who own the land are not anxious to sell it. This speaks good things for this county. In few sections of the state is it this way.

The man who owns a few acres of fertile land—and nearly all the land here is fertile—is considered independently by the outside world. The attention of people from all parts of the state and from other states is being turned to this county. The overcrowded section of the northern part of the state would be glad to unload some of its citizens here if the advantages of this county were made known to the people of that section.

That our American friends abroad in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the celebrated Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until today we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American friends in most valuable medicinal roots are the cause of most obstinate and fatal diseases. It is well known that these roots are the cause of most of the diseases of the human system. The roots of the American medicinal plants are the cause of most of the diseases of the human system. CONVICTS IN REVOLT.

Desperate Fight at Prison Farm in Mississippi—Two Guards Wounded—One Convict a Hero.

As a result of a free-for-all fight, covering a desperate attempt on the part of the negro convicts to escape from the Oakley, Miss., convict farm, about 20 miles southwest of Jackson, Saturday, Captain J. N. Buckley, in charge of the camp hospital, and Sergeant John Dadds were seriously wounded. Captain Buckley sustained a flesh wound across the chest, and Sergeant Dadds' left arm was broken.

The fight began in the hospital, a negro named Tom Cooper, a long-term convict, attacking another negro named Cheever Prince, with a razor. The attack on Prince was the signal for a general fight, in which eight or ten other negroes took part, and when Sergeant Dadds entered the room he was met with a deadly beating with clubs, iron bars and other weapons.

Investigation of the present fuel famine crisis in the northwest may not stop with the investigation of the interstate commerce commission, now on in Minneapolis, Minn. It is probable now that in every affected state, not only in Minnesota, North and South Dakota, and Montana, the subject will become a matter for legislative investigation. Northwestern coal dealers have indicated to the large local shippers that they plan to stir up an official investigation in their states. Towns that are suffering now, or have been in the grip of winter and the famine, are laying their cases before their legislators, and are asking that the subject be brought up at the coming sessions of the state legislatures, and action taken to prevent a repetition of the famine.

The race is on between the railroads and the cold. If the weather wins, cutting down the efficiency of motive power, and bringing on heavy blizzards, there will be suffering and loss of life. But reports indicate that the railroads are rushing fuel into the districts where there is either an actual want or stocks are low.

Governor Vandermant, upon being notified of the disturbance, hastened to the scene on a special train, accompanied by S. D. McNair, chairman, and John Wells, secretary of the board of control. When they reached Oakley, which had been restored. After an investigation the negroes engaged in the riot were punished. Governor Vandermant, who had come to Jackson with him and will pardon him for disarming Cooper.

POWERS LOOK FOR CONFLICT

Between United States and Japan for Mastery of the Pacific.

A London special says: Again the European press is busy discussing the possibility of a conflict between the United States and Japan. It seems to be the settled belief of the military and naval experts both of the continent and Great Britain that the clash is certain, and that it will be a wide divergence of opinion as to the time that it is likely to elapse before actual hostilities are precipitated.

Many students of world affairs are of the belief that the next five years will see the war tests of the two nations facing each other in the Pacific stripped for action, while others put the day off as far as twenty years.

Salmon Wilhelms, of Germany, acting directly upon the blood and murder scenes of the Pacific, and the United States, it is known that he is watching the drift of affairs in the Pacific ocean with keen interest. He has thought the United States will be the victor after a hard struggle that must extend over a considerable space of time.

In St. Petersburg the interest is still greater. The Russians are confident that the United States is destined to control the Pacific ocean and they are equally strong in the belief that Japan will need to allow this battle to be fought in the Pacific.

It is because of this belief in a future conflict between Japan and the United States that the Russian government has undertaken the task of building up a fleet in the Pacific.

CONVICTS IN REVOLT.

Desperate Fight at Prison Farm in Mississippi—Two Guards Wounded—One Convict a Hero.

As a result of a free-for-all fight, covering a desperate attempt on the part of the negro convicts to escape from the Oakley, Miss., convict farm, about 20 miles southwest of Jackson, Saturday, Captain J. N. Buckley, in charge of the camp hospital, and Sergeant John Dadds were seriously wounded. Captain Buckley sustained a flesh wound across the chest, and Sergeant Dadds' left arm was broken.

The fight began in the hospital, a negro named Tom Cooper, a long-term convict, attacking another negro named Cheever Prince, with a razor. The attack on Prince was the signal for a general fight, in which eight or ten other negroes took part, and when Sergeant Dadds entered the room he was met with a deadly beating with clubs, iron bars and other weapons.

France and the Church.

France is going through the throes of more religious excitement brought on by the effort of the people to make the Catholic church subservient to the laws of the state. In other words to make people owe their first allegiance to their church, and secondly to their country. For a thousand years France has been under the domination in religious affairs of the Roman pope, and the people have been taxed to support a large priesthood, who owed their first allegiance to the pope. This is being changed and the churches compelled to place their property under the jurisdiction of the state, rather than the Vatican. The pope refuses to abide by the law, and the state is proceeding to take charge of the church property by force. The people are waking from their long slumbers of religious superstition, and are doing their own thinking, which is very distasteful to those who have been running things for so long. Every European nation, even Italy, is breaking the bonds that have bound them to the Vatican authorities and people are becoming more and more free, and putting behind their religious superstition, not only in the Catholic church but in all others. Even the people of England are rebelling against paying to support Episcopal education, which is the state religion.

Education and enlightenment are breaking the hold of all kinds of priest craft, and church domination in political affairs, and reaching the point where everybody can believe and belong to what church he pleases and then help support it out of his pocket. And this is the true American idea.

Freezing in the Northwest.

On account of the shortage of coal and the inability of the people to get coal and fuel the northwest, the Dakotas and Minnesota and all of that section is in the throes of starvation, and a blizzard, the worst in recent years. The people are unable to get their wheat moved and on this crop they depend for a living. The railroads cannot or will not get any coal to that section and the people are having the worst experience in the history of their lives. In many cases they are burning fences and lumber and whatever they can get in the way of fuel.

The interstate commerce commission has taken the matter up and that body is doing what it can to relieve the situation of the suffering and freezing people. President Roosevelt is giving the matter his personal attention and there are some indications that the people in that section will soon find relief from their present troubles.

The railroads all over the country have been giving the people a sample of their policy which is to get all out of the country possible and not to give anything in return for the patronage they receive. This is criminal and the protest that is going up everywhere would seem to indicate that something must soon be done by the railroad of their own will or by force if the people are finally driven to it.

Much Opposition

to the Carnival.

Since the appearance of the News's article on last Tuesday in which a protest was made against the allowing of a fake carnival to operate here in the near future there has been considerable discussion and our people seem to be almost unanimously opposed to allowing this nuisance to be allowed the privileges of our town.

Our people remember the demoralizing effects of the last humbug that appeared here, in which all the suckers were caught who came near. They remember the "educated turkey" which was exhibited as "the greatest wonder of the age." Ten cents admission fee was charged, and when the sucker peeped inside an old turkey gobbler tied by one foot so that he could not get away was all they could discover. It was learned afterwards that the turkey was purchased by the show people after they arrived in town from one of our stores, one that had been brought in by a neighboring farmer. The only education there was about it was, the said sucker learned that he was a fool, and usually got off one side and kick d himself. Another attraction, which was advertised under a separate tent was "the wild girl from Africa." This was represented as a genuine "Wild Girl caught on the wilds of Africa" and the first time she had ever been seen in a civilized community. The suckers from the town and the haysides from the surrounding hills swarmed in and paid their tin to see this great curiosity. When they got inside the canvass they found a little negro boy dressed up in wild girl fashion with the handle of an old worn-out tooth brush sticking out at each corner of his mouth, playing wild. Some of the boys had no trouble identifying him as being Bandy Love's boy. Bandy is a cornfield negro living a few miles out of town. And the boy was playing "wild girl" at a dollar per day. This was a fair sample of the carnival we had before except for the various gambling schemes that always follow them and it will be a fair sample of what we will have when the next one comes. Boys out out the fake carnival.

ATTENTION.

J. W. LIVINGSTON, a nephew of old DR. JOHN WESLEY LIVINGSTON, of New York City, who gained such a world-wide reputation in the treatment of chronic diseases through the agency of his famous ROOT and HERB REMEDIES, will commence a series of open-air musical entertainments, every afternoon and evening, for two weeks, on vacant lot east of court house, Statesboro, for the purpose of introducing and describing the wonderful curative properties of the remedies used so successfully by the old doctor. Headquarters, the Brooks House.

Ludden & Bates Statesboro Music House. The undersigned is directly connected with the Ludden & Bates S. M. House and will carry a full line of their pianos and organs, namely: Chickering, Mathushek, Lester, Everett and Ludden & Bates pianos, also a full line of their organs.

It will be our purpose to build a music house in Statesboro in the near future that will be a credit to the larger cities. It is a well known fact that the L. & B. S. Music House is the largest of its kind south of the Ohio river, and at an early date will have a building erected especially for a music house. Our whole desire will be to build up Statesboro, Bulloch county and her sister towns and counties in south-east Georgia. We will carry a full line of musical merchandise and sheet music.

Yours truly,
L. G. Lucas.

LOST

One large light gray pocketbook on Saturday afternoon, Dec. 15, on the Statesboro road through the 44th district, having \$3.40 in it. Anyone finding it and returning it will receive reward.

Trolley Line for Statesboro

Jenkins County's

Bond Election

One of the industries that means more for the upbuilding of Statesboro than almost all others is a trolley line and it seems that we are soon to have one in operation. The promoter of the scheme is W. R. Myers, well known to many of the people of this county. Being already wealthy when he left here after having accumulated a good deal in the naval stores business he removed to the state of Florida a few years ago where he has become one of the richest men in that state now ranking with the Flaglers, Covingtons and other big moguls of that state.

He has made his money and now wishes to come back here to spend it among the people that he loves. It is proposed to build a trolley line out to the college in the southern part of the city as well as over the principal business and residence section of the city. He also proposes to put in sewerage and lights at the college, intending to secure the lease of these privileges from the city and agreeing to furnish them the school at small cost. Parks and a boulevard will be built in that part of the city by Mr. Myers.

The people here are anxious to see the thing become a thing of fact and reality and will do all in their power to bring it to pass. A franchise for the proposed street car system will probably be given to the promoter as an inducement to build up the city.

FOR SALE.

I will sell before the court house door in Statesboro, for cash, to the highest bidder, on Dec. 20th, 1909, two nice farm mules, one 6 years and the other 8 years old. Dec. 20, 1909.

J. E. Billing.

Returned to His First Love.

J. W. Wilson wishes to notify his many friends in Bulloch county and surrounding counties that he has again assumed control of the retail sales of the very popular brands of fertilizers which he used to sell to the planters of this and adjoining counties, namely: The "Our Own," "Pine Land," "Wilson's Complete Fertilizers," "10 to 4 Acid Phosphate" of all grades, "Kamit" and, in fact, all classes of guano that any farmer can desire for the crops of this county. We have made a careful study of the soils of this county for the last 30 years, and have tried to manufacture a fertilizer that will specially suit the soil, and when we offer these brands of fertilizers to the farmers of this and adjoining counties we do it with an honest belief that we are selling them a fertilizer that will do them more good than anything else that they can get for the same money. We will have large warehouses at Statesboro, Clito, Pulaski and Register. All these houses will be kept well filled with these popular brands of fertilizers, with a competent man at each place to deliver the same to those who wish to buy. We will also sell by the carload, 15 tons or more, to be delivered at any shipping point in the county, and at Courttown and Corvies, Ga., also on the Millen & Southern R. R., for those who reside on the Bulloch side of the Millen & Southern R. R. My office will be at Statesboro, Ga., over Maull's store, where I will be glad to have any of the farmers of this section call and see me. Also correspondence by mail will have my prompt attention. We guarantee that we will sell them goods as cheaply as possible, and always try to give you as prompt delivery as the railroads will allow. I earnestly solicit a share of your patronage, and will always try and treat you right. J. W. Wilson.

Not to be out done by the "Lucky Nine" the other distinguished young men of the city have organized the "R. A. R." or "Ragged Nines" club and they will hold the first series of entertainments on Monday evening, the place to be selected later. Success to the club and to all other clubs of a similar character whose purpose is social!

Big Land Sale

On the first Tuesday in January, will be placed on the market some of the best real estate in and around Statesboro. It will afford those who may want some strictly first-class residence, farm and business property an opportunity to get it now.

Statesboro and Bulloch county is on the biggest boom that they have ever been, and there is a strong demand for first-class property.

Read the Executor's advertisement of W. H. Blitch in this issue and you will find something that will fit you up.

The residence property on South Main street is near the center of the city, between the court house square and the high school and on the thoroughfare out to the new Agricultural College.

The sixty acre farm on the edge of the city is the one that did part of the work in producing Bulloch county's magnificent exhibit at the State Fair where we won the blue ribbon.

All the property is first-class, and you are afforded an opportunity now to buy something really desirable.

Remember the day, Tuesday, January 1, 1907

W. H. BLITCH, EXECUTOR.

Xmas Treat

Everybody—big and little— young and old—will do a little celebrating about the twenty-fifth

CHRISTMAS DAY

Let your feet feel free, just for once, and buy the new shoes before Monday—now's really the best time.

The famous "Banister" and "Keith's Konquerers" for men. The custom made "Queen Quality" for ladies. We sell 'em.

The Strongest Fence

Science proves that the strongest fence, because constructed throughout on scientific lines, is the

ELLWOOD FENCE

SIMPLE—SCIENTIFIC—STRONG

THAT IS ALL THERE IS TO ELLWOOD FENCE—

Heavy steel cables lapped and held together by steel wire, forming uniform meshes—Simple, isn't it? No chance for weakness in any part; uniformly strong. The reason for the superior Ellwood Fence are not hard to find. This company owns and operates its own iron mines and furnaces, own wire mills, and six large fence factories—either one of the six being larger than any other fence factory in the world. These facts should be convincing.

For Sale by The Simmons Company.
