The News Georgia Cullings

Published at Statesboro, Ga.
TUESDAYS AND FRIDAYS.
By the Statesboro News Publishing Co.

A physician declares that flat life is ruinous to children. It shouldn't be too flat even for grown people, adds the Atlanta Journal.

The Italian who sailed away to Italy for the purpose, as he said, of committing suicide on his sweet-heart's grave, is just the sort who will find aboard ship a pair of eyes that will make him forget why he left these parts, philosophizes the Boston Transcript.

The Chicago Record-Herald notes that "One of the college professors has written a magazine article in which he argues that members of his profession ought to be paid at least \$15,000 a year. He's extravagant. That's as much as the average prize fighter gets for staying twenty rounds."

Some Kansas girls have formed a union and mutually pledged themselves "not to kiss any boy who does not faithfully promise to quit chewing tobacco." Now, according to the Washington Herald, the boys who don't chew and never did are doing some pretty close figuring to ascertain where they come in.

In Maine the only statutory provision with regard to the carrying of weapons is this: "Whoever goes armed with any dirk, pistol or other offensive weapon without just cause to fear an assault on himself, family or property, may, on complaint of any person having cause to fear an injury or breach of the peace, be required to find sureties to keep the peace for a term not exceeding one year, and in case of refusal, may be committed as provided in the preceding sections."

In the Christian Register Dr. Edward Everett Hale has a bit of encouraging news for the friends of the birds. "The head of a large establishment in this State (Massachusetts) said to a friend of mine," reports the chaplain of All America, "that he had \$500 worth of algeoties locked up, which he dared not offer for sale in this State. This indicates an advance in public sentiment, which will eventually reach the most 'vulgar' woman of the most shoddy circle."

New York City is building a great sanatorium for the treatment of consumption, which moves the New York Sun to say: "The death rate from tuberculosis has been greatly lowered within the last decade by the construction of hospitals where under favorable conditions of climate, altitude and nourishment consumption is treated. It has been shown that a majority of cases of incipient tuberculosis can be cured and those who are not cured may for years be held from further fatal development. The necessity of an early recognition of the disease and the institution of prompt treatment is evident."

The Springfield Republican was mistaken when it spoke of Governor-elect Higgins, of Rhode Island, as the first Roman Catholic to be raised to the chief magistracy in a New England Commonwealth. The sixteenth Governor of Maine, Edward Kavanagh (1843-44), was a Roman Catholic. He "fitted" in Montreal, and was graduated at St. Mary's College, Baltimore, in 1813. He became Governor by the resignation of Governor Fairfield, who had been elected to the Senate of the United States. Previously Edward Kavanagh had served two terms in Congress and by President Jackson's appointment had been American Minister at Lisbon.

The United States, as shown by statistics recently published by the Bureau of Naval Intelligence, has a tonnage of construction a larger tonnage of battleships than any other naval Power in the world. In relative rank as to existing naval force, Great Britain stands first, France second, the United States third, Germany fourth, with Japan, Russia, Italy and Austria following in the order named. *Great Britain's total tonnage is 1,640,765, with 211,039 tons in the stocks; that of France 609,837 built and 189,320 building, while the United States shows 525,970 of the former and 205,222 of the latter. *Other nations show proportionate figures.

Curtailed Items of Interest Gathered at Random.

Grand Jury Probes Accident.
The grand jury of the superior court has been called to investigate the explosion in the fireworks factory a few days ago in Savannah, when three men were killed. The city has also made an investigation and can find no authority for the operation of such a factory in the city limits.

Jury Exonerates Larouche.
What the Ocean Steamship company and its attorneys thought was a clear case, fell flat in the superior court when verdicts were returned at Savannah Thursday night, acquitting Clerk A. B. Larouche, Jr., and Police-ward Bernard McCabe of the charge of robbery of the steamship company. There was but one charge against Larouche, but McCabe is to be tried upon other charges.

Strawberries in December.
A. C. Cole, of Waycross, has been very successful in his experiments in growing strawberries during December, and during this week he has shown many specimens of ripe strawberries on the streets of Waycross. Mr. Cole has several thousand plants, which are now full with fruit, and he has contracted with a hotel in Savannah to take his entire crop during the next two or three weeks at \$1 per quart. He is now picking about six quarts per day.

People of Carroll Elated.
The people of Carroll county are so much pleased over having secured the agricultural and mechanical school for the fourth district that they are already clamoring for a bond issue to raise thirty-five thousand dollars to supplement the fund already subscribed, so as to have the biggest school in the state. A mass meeting of the citizens will be held to determine the course to pursue. The subscription list that raised the thirty thousand dollars for securing the school is possibly the most representative list made in any county in the state for these schools, as it includes more than a thousand names of farmers who were subscribing for the school.

Three Cities After Subtreasury.
A committee composed of members of the Clearing House Association and the chamber of commerce of Atlanta met to formulate definite plans for securing the proposed new subtreasury for Atlanta. Heretofore the movement has been hazy and the particular claims of Atlanta have not been stressed or brought prominently to the front. The committee from the Georgia Bankers' Association concentrating their efforts toward securing the subtreasury for the state of Georgia, and not specifying any particular city. However, Savannah and Macon are actively pulling for the subtreasury, and have decided to put forward every effort on her own behalf.

\$10,000 Annually for Each School.
A Washington dispatch says: Colonel Livingston has introduced a bill providing that the government should contribute to the support of Georgia's district agricultural schools. The bill provides appropriation of \$10,000 annually for each school for this purpose.

The bill providing for the maintenance of agricultural schools is made general in its application, and as technically worded provides "that there be appropriated annually out of any money in the treasury, not otherwise appropriated, to be paid, to each state and territory for each school, not in excess of \$10,000, the sum of \$10,000 annually. Such sum shall be applied to the maintenance of such agricultural schools, as directed by the state, under the authority of law as prescribed by the states."

Colonel Livingston's bill proposes to further the work had in view by Governor Terrell on his visit to the territory of Cuba a few days ago. It is planned that only one school in each congressional district should be the beneficiary of such appropriation.

Farmers' Union Rallies.
National President C. S. Barrett of the Farmers' Educational and Co-operative Union, has issued a call for rallies of the district in the south, to be held in January.

There are now practically 1,000,000 members of the Farmers' Union in the south and west, and the organization is rapidly growing and extending its sphere of influence. Local unions in all the states will hold their meetings on Tuesday, January 8. Following the local, the county and parish unions will meet on Tuesday, January 15. All of these meetings are to be held preparatory to a grand rally of the Farmers' Union to be held in Atlanta on Tuesday, January 22, on the occasion of the meeting there of the national board of directors and the

state presidents of the union. This meeting will be held at the state capital, and all interested in the work of organization are invited to attend. The purpose of these meetings are explained in a call just issued by National President C. S. Barrett.

Libel Only in One County.
A brewing company that pays its special tax in the county where its principal office is located is not liable for an additional tax in another county, because it stored beer there and filled orders through its agents. Such, in effect, is the decision of the Georgia supreme court in the case of Whitley vs. the Acme Brewing company of Macon, from Muscogee county superior court. The brewery company is located in Macon. A branch is maintained in Columbus, where beer is stored and dispensed by an agent on orders.

An effort was made to collect the special tax of \$300 from the brewing company in Muscogee county, and a law was issued. The brewery people sought to restrain the sheriff from collecting the amount through an injunction. The judge sustained the injunction, and no writ supreme court affirms the decision.

Suggestion Ament Georgia Day.
"Make June 4, the day following the great reunion of the Confederate veterans in Richmond, Georgia Day, at the Jamestown exposition," is the interesting suggestion of General Andrew J. West, commander of the Georgia division, United Confederate Veterans. The annual reunion of Confederate veterans will be held in Richmond, Va., on May 31, June 1, 2 and 3, the last day witnessing the unveiling of the monument of President Jefferson Davis.

From Richmond, hundreds of veterans, many of them from Georgia, will visit the Jamestown exposition, as practically all tickets will read to return from Richmond that way. It had been suggested that Georgia Day should be June 12, though no definite action has yet been taken. General West has seen President W. N. Mitchell of the Jamestown commission and presented the plan to him. President Mitchell agreed that the idea was a splendid one and stated that he would take the matter up with the board of directors of the exposition on the occasion of his next visit there, which will be within the next few days.

President Roosevelt has practically stated that he will so arrange his plans as to make his second visit to the exposition in Georgia Day, and that he will deliver an address on that occasion at the Georgia building, which will be a reproduction of Bullock Hall at Roosevelt, the gift of some of his mother.

It will be a splendid opportunity and unquestionably many more Georgians from among the Confederate veterans at least, would be present on that occasion if the date is fixed on June 4.

WOMAN IS RELEASED ON BAIL.
Mrs. Birdsong Given Liberty Pending Appeal of Case.

At Hazlehurst, Miss., Friday, Mrs. Birdsong was denied a new trial by Judge Miller. She was sentenced to five years in the penitentiary, and notice was given of appeal to the Mississippi supreme court. When the notice of appeal was filed counsel for Mrs. Birdsong made application for bail, which was granted in the sum of ten thousand dollars. Major Fox, father of Mrs. Birdsong, A. Q. May of Jackson and other friends of the woman signed the bond. Mrs. Birdsong shot and killed Dr. Thomas Butler at Monticello, Miss., November 25, 1905, and at the trial concluded several days ago was convicted of manslaughter. Since that time she has been seriously ill. Because of her young child and her illness, Mrs. Birdsong was never sent to jail.

DEMANDS OF CUBAN NEGROES.
They Want Extensive Representation in Island Congress.

Extensive colored leadership in Cuba has formed a manifesto, in which he declares that negroes constituted 90 per cent of the insurgent army in the last revolution, and that 75 per cent of the revolutionary were blacks. The negro voters now demand, according to the manifesto, three senators, forty representatives, and proportionate representation in all the government departments, including the armed forces.

PERKINS ON THE RACK.
Morgan's Right-Hand Man Tells Secrets to Grand Jury.

George W. Perkins, a witness before the Armstrong investigation committee, was called up to divulge interesting secrets of the management of the New York Life Insurance company Thursday before the grand jury. At the behest of the district attorney, the partner of J. P. Morgan and formerly the high financier, the New York Life was forced to submit to a rigid cross-examination in the presence of the grand jury.

GOVERNOR RESPITES NEGRO.
Convicted Assailant of White Woman May Prove Alibi.

Will Johnson, the negro recently convicted in the Atlanta superior court of a criminal assault upon Mrs. Richard Hemmery, and sentenced by Judge Rouse to be hanged on Friday, January 4, will not go to the gallows on that day. Upon the application of Johnson's attorneys, Judge Rouse has granted a supersedeas which acts as a stay of execution until the further order of the court.

The application was made on the ground of newly discovered evidence, whereby, it is alleged, an alibi can be proven.

The farther a man advances the more people there are who begin criticizing him.

ENTOMBED FIFTEEN DAYS.
Miner Hicks is Rescued Alive from Bowels of the Earth.

After having been entombed for fifteen days, Hicks, the miner was rescued at Bakerfield, Cal., Saturday night by the men who had been digging towards him ever since the cave-in.

Hicks was in a surprisingly good condition, considering his long confinement. "God bless you! God bless you!" Hicks cried as he was lifted from the hole.

Gov. Terrell's Interest in the Agricultural Colleges.

Sometime ago Collier's had an earnest and thoughtful article on the mission of President Roosevelt. The conclusion of the writer was that the president would be known to posterity as the man who built the Panama canal. We commented editorially on the article at the time. In this connection we wish to speak of the mission of his excellency, Governor Joseph M. Terrell.

It is well known that the present governor is one of the best that has ever graced the executive chair of the Empire state of the South. We say this knowing full well that the state has had many able executives, but we doubt if the state has ever had a man who has done so much for the farmers of the state as has the quiet statesman who sits in Atlanta and directs the affairs of the commonwealth of Georgia. This is said with all due respect to the great Brown, Stephens and others of that stamp who guided well the ship of state while they occupied the office of governor.

It is well known that the agricultural colleges are the result of the indefatigable efforts of the governor along the lines of agricultural education. He was the inspiration, the first cause, the fountain head of the whole system of agricultural education that is destined in the next few years to make of Georgia the foremost state in the union.

The movement for a system of agricultural education had its origin several months ago and was directly inspired by the visit of a party of distinguished Georgians, including his excellency, the governor, in company with the late distinguished chancellor, Walter B. Hill, to the state of Wisconsin, for the purpose of examining the agricultural schools of that state which are said to be the best in the whole country. From that day the state of Georgia was practically sure of a number of agricultural colleges and when the legislature met last summer the bill was introduced and passed, giving to each congressional district an agricultural college. This was a forward step. The motive force behind it all was the governor with his message to the legislature recommending that these schools be established.

Governor Terrell has done more than discharge his official duty in connection with the location of these district schools. He has from the first taken a deep and abiding interest in the matter. He has given to the agricultural colleges his closest attention, and now that they are located, with one exception, he is yet behind the trustees in each district and will continue to give to them his attention and valuable time. It was only recently that he was in Washington pleading, together with other distinguished Georgians, the cause of agricultural education and asking that the national government give out of its ample coffers money for the support and maintenance of the district agricultural colleges. Does not this entitle him to the lasting esteem of his fellow citizens of the state of Georgia?

While in Washington Governor Terrell, in company with Congressmen Livingston and Adamson called upon the secretary of agriculture, Wilson, and asked for aid from the national government for the agricultural colleges about to be established in this state. Since that time Congressman Liv-

1907. Bank of Statesboro wishes you a Happy and Prosperous New Year.

ington has introduced in congress a bill with a view to having the United States appropriate \$10,000 annually for the maintenance of the district agricultural colleges. The bill will no doubt pass. It should do so, at least. When a state has done as much for the young farmers as this state has done and is about to do it should have help from the nation.

These are things that the governor has done and is doing for the state that he so dearly loves. What is his mission? If the mission of President Roosevelt is the building of the Panama canal, would it be too much to say that the mission of Governor Terrell is the upbuilding of the state of Georgia to the point where it will lead all others through the agricultural college? This will be enough fame for one man but in this case it is no more than is due to the man who has brought about this condition of affairs.

No gift in the power of the people will be too good for our distinguished governor after retiring from the office which he now holds. Some of the papers of the state are mentioning his name in connection with the vice-presidency in the next national election. We are in favor of rewarding him as his merit deserves.

When the years have passed and Georgia has become the leading state in agriculture, when the waste and desert places are made to blossom like the rose, when the farmers of this—the Empire—state of the South have been trained and are independent as kings because they know how to take advantage of the chemistry of the soil and receive the largest yield per acre possible, when peace and prosperity reigns over the whole state, then the people will rise up and call Joseph M. Terrell blessed.

Danger in Asking Advice.
When you have a cough or cold do not ask someone what is good for it, as there is danger in taking some unknown preparations. Foley's Honey and Tar cures coughs, colds, and prevents pneumonia. The genuine is in a yellow package. Refuse substitutes. W. H. Ellis.

MULES FOR SALE.

Prot. R. J. H. DeLoach is spending some time with relatives here. He has a good position with the Experiment farm at Griffin and has just returned from Washington where he was sent by the state to do some research work in connection with his department in that institution. He is an example of a Bulloch County boy who is succeeding in spite of obstacles and is winning deserved promotion in his chosen field.

Passed Examination Successfully.
James Donahue, New Britain, Conn., writes: "I tried several kidney remedies, but did not improve until I took Foley's Kidney Cure. After the second bottle I showed improvement, and five bottles cured me completely. I have since passed a rigid examination for life insurance." Foley's Kidney Cure cures backache and all forms of kidney and bladder trouble. W. H. Ellis.

Death of Child.
Louise, the sixteen-month-old daughter of Mr. and Mrs. Walter Matthews, died in Swainsboro yesterday. It was brought here today for interment. The heartbroken parents of the sweet little girl have our deepest and sincerest sympathy in their sad bereavement.

Millions of bottles of Foley's Honey and Tar have been sold without any person having experienced any other than beneficial results from its use for coughs, colds and lung troubles. This is because the genuine Foley's Honey and Tar in the yellow package contains no opiates or other harmful drugs. Guard your health by refusing any but the genuine. W. H. Ellis.

A Hunting Party.
A party of young people, consisting of Misses Blitch, and Messrs. Griner, Hall and Brannen, of Statesboro, and Misses Jennie and Pauline Hickson and Mr. Malcolm Jones of Midville, chaperoned by Mr. and Mrs. C. W. Powers, of Midville, enjoyed a few days hunt on Osnabaw island last week. Regardless of the inclement weather the hunters were successful in killing quite a number of deer. It was pronounced one of the most enjoyable event of the season by all who participated in it.

Public Speaker Interrupted.
Public speakers are frequently interrupted by people coughing. This would not happen if Foley's Honey and Tar were taken, as it cures coughs and colds and prevents pneumonia and consumption. The genuine contains no opiates and is in a yellow package. W. H. Ellis.

Our Liquor and Tobacco Bill.

The people of the United States have about one and a quarter billion dollars every year for liquor and tobacco. The government collects a revenue of about three hundred millions a year on these two workers of the human family. This is a tax of about four dollars on every man, woman and child in the country, while the total money spent for the two evils amounts to about sixteen dollars on every person in the nation. The figures of wasted money is appalling to all thinking men, and yet it is nothing compared to the wrecked lives and homes that are daily increasing. Behind it is a trail of ruined men and women and helpless children drifting down into sin and crime.

The government is now building a warship to cost \$6,000,000.00 and we regard this as a terrible waste of money, and yet we pay enough taxes to the national government, not counting the state, county and town governments, to build such a warship every week in the year.

The reformer cries out about a little money spent on public roads and public schools, and yet their cost is only a drop in the bucket, compared with the cost of liquor and tobacco. Day by day, liquor is wrecking the men, and eating the boys, and yet we have men everywhere who regard the protection of the human race as a matter of moonshine, and who, at the same time, attempt to pose as christian people. God save the mark!

A man with a sprained ankle will use a crutch, rest the ankle and let it get well. A man or a woman with an overworked stomach can't use a crutch, but the stomach must have rest just the same. It can be rested, too, without starvation. Kodol will do it. Kodol performs the work of the third stomach and corrects the digestive apparatus. Kodol fully conforms to the provisions of the national pure food and drug laws. Recommended and sold by W. H. Ellis.

ATTENTION.
J. W. LIVINGSTON, a nephew of old DR. JOHN WESLEY LIVINGSTON, of New York City, who gained such a world-wide reputation in the treatment of chronic diseases through the agency of his famous ROOT and HERB REMEDIES, will commence a series of open-air musical entertainments, every afternoon and evening, for two weeks, on vacant lot east of court house, Statesboro, for the purpose of introducing and describing the wonderful curative properties of the remedies used so successfully by the old doctor. ELLWOOD FENCE
SIMPLE-SCIENTIFIC-STROIC

THE REASONS:
1st—Each horizontal extension of the ELLWOOD is a steel wire, consisting of two heavy wires twisted together.
2nd—Each of the cables is tied to each other cable by a continuous heavy wire lapped tightly about every cable and fastened in a cross "X" shape at the bending point. (This is a wire around your finger and it will not weaken; if a wire is in a cross "X" and you can make it without break, it is too much weakened.)

Big Land Sale

On the first Tuesday in January, will be placed on the market some of the best real estate in and around Statesboro. It will afford those who may want some strictly first-class residence, farm and business property an opportunity to get it now.

Statesboro and Bulloch county is on the biggest boom that they have ever been, and there is a strong demand for first-class property.

Read the Executor's advertisement of W. H. Blitch in this issue and you will find something that will fit you up.

The residence property on South Main street is near the center of the city, between the court house square and the high school and on the thoroughfare out to the new Agricultural College.

The sixty acre farm on the edge of the city is the one that did part of the work in producing Bulloch county's magnificent exhibit at the State Fair where we won the blue ribbon.

All the property is first-class, and you are afforded an opportunity now to buy something really desirable.

W. L. DOUGLAS THE BEST \$3.50 SHOES FOR MEN

Only Fast Color Dye used; they will not wear away. W. L. Douglas makes more than any other manufacturer in the world. \$10,000 REWARD to any one who can improve this shoe.

Notwithstanding the high price of leather, I can still afford to sell as good a shoe for the same price, \$3.50, as formerly. The increased volume of my business more than makes up for the lessening of my profit. If I could take you into my factories at Brockton, Mass., and show you the infinite care with which every pair of Douglas shoes is made, you would realize why they are the best shoes produced anywhere. If I could show you the difference between the shoes made in my factory and those of other makers, you would understand why W. L. Douglas \$3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other \$3.50 shoe on the market to-day.

My cabbage plants consisting of all the latest varieties are now ready for the market. Those desiring plants for winter and spring planting can get them from me now. I have put a good deal of time and attention to the growing of these plants and they are the best to be had on the market anywhere. They are suited for this soil and climate and are better in every way than those coming from a long distance, and my prices are as low as I can afford to make them. When the people of this section want plants they will do well to get my prices.

PRICES: Per thousand, \$1.50.
Per hundred, .25.
in lots of 5,000 and over 1.25.

Pensions to be Paid in February.

On February the 7th the Confederate veterans of this county will be paid the pensions due them from the state. Pension Commissioner J. W. Lindsey will begin to issue warrants for the payment of pensions on the 16th of January, but it will be several days later before the veterans in this county get their money, as it takes some time to make all the necessary arrangements for the payment of the veterans of 146 counties.

The figures show that there are eighty-three veterans and widows of veterans in this county who are entitled to pensions. It is interesting to look over the list and compare the number of veterans who receive pensions in the south Georgia counties to those in the northern part of the state. North Georgia either furnished more soldiers or has more men who are indigent and have to be pensioned. It is well known that the people in this section are more prosperous than those in the hilly and mountainous part of the state. It is probably true that the northern part of the state did, as a matter of fact, furnish more troops in the Civil war than the southern part of the state. At that time this part of the country was thinly settled and this part of the country was little more than a wilderness. The tables are turned somewhat now and this section, while not as thickly settled as other parts of the state, yet has as many people, on account of the size of the counties, which are notably large.

In Praise of Chamberlain's Cough Remedy.

There is no other medicine manufactured that has received so much praise and so many expressions of gratitude as Chamberlain's Cough Remedy. It is effective, and prompt relief follows its use. Grateful parents everywhere do not hesitate to testify to its merits for the benefit of others. It is a certain cure for croup at the first appearance of the disease. It is especially adapted to children as it is pleasant to take and contains nothing injurious. Mr. E. A. Humphreys, a well known resident and clerk in the store of Mr. E. L. Lusk, of Alice, Cape Colony, South Africa says: "I have used Chamberlain's Cough Remedy to ward off croup and colds in my family. I found it to be very satisfactory and it gives me pleasure to recommend it." For sale by all druggists.

Long Tennessee Fight

For twenty years W. L. Rawls, of Belle, Tenn., fought nasal catarrh. He writes: "The swelling and soreness inside my nose was fearful, till I began applying Bucklen's Arnica Salve to the sore surface; this caused the soreness and swelling to disappear, never to return. Best salve in existence. 25c at W. H. Ellis drug store."

Land for Sale.

Land for sale by the wholesale and retail. Several farms close to Statesboro; 3, 4 and 5 miles from town; all fine farming land. One of these places only five miles from Statesboro; has enough timber on it to pay one-third of the price I ask for it; the house could not be built on it for less than \$5,000; 320 acres in the tract. Object in selling out my farming lands: I want to improve my town lots, to which I could give my personal attention. If the buyers so prefer I can give time on part of the money.

M. M. HOLLAND.

It is a mistake to use a violent cathartic to the bowels. A gentle movement will accomplish the same results without causing distress or serious results later. DeWitt's Little Early Risers are recommended. Sold by W. H. Ellis.

The Japan Trouble.

Just as the democrats predicted, when the United States gobbled the Philippine islands during the Spanish war, trouble is brewing between Japan and the U. S. When the country went out to become a world power led by such men as the president, eager for conquest and more territory, it was evident to thinking men that we were preparing to get into international complications. But the people in their wild delight of a greater nation, went on and endorsed the president and the conquest idea, and we are paying the penalty and have just begun.

The Philippines ought to be surrendered to their people and our country quit this colonial business. The only object of it was to give certain interests the opportunity for spoils and robbery, and furnish jobs for an increasing military force.

The Japanese are pouring into Hawaii and the Philippines, and it is only a question of time when they will bring on strife and war between the two countries.

Water Cure for Constipation.

Half a pint of hot water taken half an hour before breakfast will usually keep the bowels regular. Harsh cathartics should be avoided. When a purgative is needed, take Chamberlain's Stomach and Liver Tablets. They are mild and gentle in their action. For sale by all druggists.

Mr Rockefeller's Income.

According to a New York paper the income of Mr. Rockefeller is no longer guarded as a deep secret as in the past, and H. H. Rogers is reported to have set the figure at \$90,000,000 a year. At five per cent such an income would require a capital back of it of \$1,800,000,000. It is hard to conceive of a private of such proportion and such facts are dangerous in certain respects. Mr. Rockefeller could comfortably establish a college every day in the year and never feel the loss; he could distribute \$5,000,000 the poor every hour and still possess an enormous income; he could build a public library in every city of note in the United States in one year and not feel inconvenienced; he could give 104,000 hungry persons a dollar dinner on Christmas Day and yet have left \$983 from his days earnings with which to purchase his own.

It was announced some time ago that Mr. Rockefeller has given the generous sum of \$700,000 to education. If a clerk on eight dollar per week were to give away a five dollar note he would be decidedly more generous than Mr. Rockefeller. If Mr. Rockefeller should go into a gambling place with his entire week's "pay" he could lose a million and have enough left to buy the establishment. His income amounts to \$114 a minute and if it came to him in silver dollars he could not count it as fast as he makes it.

Communicated.

Statesboro, Ga., Dec. 13, '08

Mr. Editor:

Please allow space to speak to my race through your valuable paper in regard to African emigration. I regret to see my race so easily bluffed. When you speak of emigration to Africa you are not speaking of going to Savannah, New York or Macon, you are speaking of crossing the great Atlantic ocean. Let us see, are we ready to go? Are we prepared to go? Are we qualified to go? No. Are we, as a race, qualified to be the head of government? No. Will forty-three years of freedom prepare a race or qualify it to lead and become the head of a nation? If that be true then the white man, who settled this country under the British flag, was two hundred late. The good book teaches me that there is a time to do all things and a time for all things. My friends let us fix our mind on the thing that will better our condition here, and at the proper time we will be able to colonize Africa. There will be a way for us. He fixed a way for the white Americans to come out from under the British laws.

That great leader who called himself Dr. Solomon, who said in his speech of last week that he was the Moses that God sent from Africa over here to lead us back home. Who can believe that statement? When the children of Israel were led out from under bondage, as he said, was Moses from some other country or was he reared up in the midst of the children of Israel?

My dear friends, when you leave the soil of America some one among you will lead the way. What is 43 years of freedom? why, it is but a day. Can an egg hatch one day and the chicken be grown the next? How can the negro, then, become the head of government, with only 43 years of culture?

Let us think the way of salvation, and don't forget to pray.

Your humble servant,
W. E. ROBERTS.

A Western Wonder.

There's a Hittat Bowie, Tex., that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 160 pounds has grown to over 180. He says: "I suffered with a terrible cough, and doctors gave me up to die of Consumption. I was reduced to 80 pounds, when I began taking Dr. King's New Discovery for Consumption Coughs and Colds. Now, after taking 12 bottles, I have more than doubled in weight and am completely cured." Only save Cough and Cold cure. Guaranteed by W. H. Ellis.

Trash on the Streets.

The people of the town will probably have to put up with waste paper on the streets as long as they select merchants for councilmen, who persist in making the streets a dumping ground for their litter.

We enter a protest against it and will continue to do so, because it is a nuisance and unhealthy and should be prevented, and there is a town law against it, and yet it is not enforced. Can the marshal see these things? Will the mayor continue to permit it?

The average merchant thinks when he sweeps the paper out of his back door that he is rid of it and cares nothing about the rights of the public. A ten dollar fine would learn those who do it that the public do have rights, and we want to see it enforced. If the present officers cannot do their duty to the public let them resign and the people will elect some body who will.

What are officers for if not to do their duty? If a man can't do it, he should not hold his job. The merchants may be busy and all that, but men must not forget their duty to their neighbors. If they have no regard for them, then learn them the lesson by a fine.

Health is more valuable than money, and we don't propose to let other people make money and make us sick while they are doing it, if kicking will do any good, and we expect to kick right on till the next election and probably the majority will wake up and fix things.

A Miraculous Cure

The following statement H. M. Adams and wife, Henrietta, Pa., will interest parents and others. "A miraculous cure has taken place in our family. Our child had eczema 5 years and was pronounced incurable, when we read about Electric Bitters, and concluded to try it. Before the second bottle was all taken we notice a change for the better, and after taking 7 bottles he was completely cured." It's the up-to-date blood medicine and body building tonic. Guaranteed 50c and \$1.00 at W. H. Ellis's drug store.

Another Passenger

On the first of the new year the Savannah and Statesboro railway will put on a new passenger train between here and Savannah. This will be quite a convenience to the people living along this road and the people of Savannah and Statesboro. It will make it possible to leave Savannah in the morning at 7 o'clock and reach here by 9 in the morning. In the afternoon a train will leave here at 5:30 and will make connections with the east bound Sea Board train at Cuyler, and this will enable one to leave here in the afternoon and reach Savannah that night.

We have long needed such a schedule as this and it will be very much appreciated by the patrons of this road and the traveling public at large. The mail service will now be better than it has ever been and the passenger service will be improved at least fifty per cent.

Good Business Season.

The fall trade of Statesboro has been better than ever in the history of the city, and this is especially true with regard to the trade of the last few days. It is safe to say that the business done here is 30 per cent greater than that done here in any preceding year, for the same months.

It has been a prosperous year for the county and particularly for Statesboro, where the volume of business is increasing every day. The high prices paid for sea island cotton has had the effect to fill the people's pockets with money, to brace up trade and run up wages in this section. It has put real estate out of the reach of the ordinary man and the value of farm lands in Bulloch county has increased at least 50 per cent. Statesboro is becoming known more and more as a trade center for this section of South Georgia. People come for many miles to make their purchases. This is in keeping with the name that the city has made for itself in the matter of sea island cotton. The market for the fleecy staple is known to be better here than in any town of its size in the state.

The Christmas trade was the best the city has ever had. One of the largest business houses here has done a \$30,000 business in the last thirty days. Two others of a like nature have done equally as much, and one of them has probably exceeded that mark. Statesboro has three business houses that do an annual business of \$250,000, and several others that do not fall far short of that mark. This means much to this section and to this city and county in particular.

Among the boys and girls home for the holidays are the following: Misses Nora Brannen, Tiny Sample and Annie Moore, from Lucy Cobb, at Athens; Myrtle Smith and Della Wilson, from Wesleyan, at Mecon; Leila Blitch from Cox, at College Park; Sallie Rigdon and Lucy Bird from Georgia Normal and Industrial College, at Milledgeville; Messrs. Sam Crouch, from Atlanta; John Blitch from Stone Mountain; Worth McDougald from Atlanta; Miss Nellie Averitt, from Monroe, at Forsyth; Mr. D. L. Deal from Augusta; Miss Jessie Mikell from Wesleyan, at Macon; Mr. G. S. Johnston, Jr., from Oxford.

Death of Young Lady.

AFTER OIL WAS STRUCK

USES TO WHICH NEWLY RICH PUT THEIR MONEY.

A \$1500 Bull the Purchase of One West Virginia Farmer—Patent Leather Shoes the Desire of Another Grateful Father and Sons Bought an Axe for "Mother."

In West Virginia many persons have been encouraged well to do through the oil on the surface of the barren land, says the New York Times, and the effects of wealth on these newly rich

one of the wells developed into a "gusher"—that is, natural gas poured forth with a roar that could be heard a mile away, wasting daily enough gas to illuminate a small village and at the same time furnished heat sufficient to do the cooking for all its inhabitants—a well which, if placed within the limits of a town, would be worth a fortune to its owner, but down in that country the well was

Man had been curious about the old section hand living up near the old section house, and he had been told that he had a very small plot of ground. A firm of drillers made the customary bargain with him, and planted their derrick right alongside his place. They struck oil, and they struck it rich. The well developed an output of 250 barrels a day, and the old section hand, still simpleminded, got something like \$37.50 a day. This is not so bad for a man who had never made more than \$1.25 a day in his life.

He threw up his job on the railroad, next well, finished two or three weeks ago, proved to be a bonanza yielding three hundred barrels a day.

X-RAYS DEBUT THE DAIR.

Odd Results of Light Used to Cure Disease.

Dr. Imbert, professor in the medical faculty at Montpellier, and Dr. Marques, his head laboratory assistant, as they have been illustrating, have been busy this morning with the applications of X-rays. They were told surprised to find that the beard

This is the only site of his life there is little likelihood of his ever acquiring new tastes that would make his money of use.

An old farmer living near Volcano, Oregon, is a man of the name of J. H. Thinger and Ohio, is a native of a barren land, and his military allowed some prospectors to put down a well on his property. A gusher was struck, and the money that was made amounted to \$2,000, which sum all in cash was turned over to him.

A dollar in cash had been an unusual sum for him to have at one time, and he had a great deal of money filled him with a desire to spend some of it. He donated his best suit of jeans and took the next morning

QUAINT AND CURIOUS.

In Italy you can tell where the peasant women come from by the size of their earrings. The southerners wear the longest.

A singular bird custom prevailing in Yorkshire is mentioned by a contributor. In parts of the West Riding, he says, it is quite common for visitors to a house in the country to find has appeared to carry with them an offering to the infant a new laid egg, some salt, a piece of bread and in some cases a penny.

Oil was struck on his farm in such quantities that the farmer's wife promised soon to make him the wealthiest man for miles around. As soon as the first installment of cash was received, he was to begin the work of the desire to spend. He made arrangements to pay the town a visit.

Using shank's mare, his sole means of conveyance, he started on his short cut across the mountains until he reached the small railroad town that meant metropolis to him, and where he was to find a new pair of patent leather shoes!

Perhaps the best example of all the embarrassment caused those folk by the lack of money was furnished in the case of a family of mountaineers back in Calhoun county. This family consisted of father, mother and four children. The mother was burdened with household burdens, but the work of

proved machinery is no new thing in the great west. Only a few years ago the western farmer will have all the modern conveniences of the city home, and can operate his farm and care for his stock with the same precision system as is required in the best regulated business house.

The tortoise is a great sleeper. One was a domestic pet in an English house, and when his time for hibernating came he selected a corner of the dining room for his quarters. A new cook was engaged soon after who knew nothing of tortoises. In a few months the tortoise woke up and found the kitchen in a new state. The kitchen's calm. On entering that department the lady of the house found the cook gazing in awestruck amazement at the tortoise. She steadily hand she pointed to the tortoise: "My conscience! The father and his sons were good examples of the West Virginia sump-diggers—that is, diggers of cinnabar ore. The father was a stout fellow with white sixty years old, and with barrels six feet in length and weighing from fifteen to twenty pounds, with handles four feet long. He had seen any one of the men could easily knock out the eye of a skunk at the top of the highest tree.

But very little work of any kind did he ever do, and year after year they spent their time thus, living in their old log house of one room, without seeing \$10 in cash from one year's work to another.

Then wealth came.

Prospectors traced oil until it led to the neighborhood of the old log house, and there it was found.

At the close of a banquet given by the Mahanah of Gwalior to the Prince of Wales at Chattrapatti, the form of temple and decorated with electric lamps and flowers was hoisted in the ceiling by pulleys, and revealed a personage who sat enthroned on a throne beneath. The locomotive and train was eight feet long, and carried deacons, cigars, cigarettes and matches. The train started by closing an electric switch, and the engine was closed by a spring the train moved, but the lifting of a decanter or box of cigars resting on the spring allowed it to stop at once.

place, upon the usual terms. A keener resented, and when the money for the first month's output was placed in the hands of the farmer, the very first thing that the boy thought of was that something must be bought for "Mother."

So, after a long consultation, they finally decided to buy her a new axe. But there are a few cases of hard luck amid this good fortune. One of these fell to the lot of some railroad engineers on the Ohio and Erie Railroad, which runs through the old country, from Grafton to Parkersburg. One day a cool train was loaded with a certain sum, and then sent out a crew to prospect for coal.

Several wells were sunk but no oil came to the surface. It is true that

Butterfly Designs for Gowns.

It is to the butterfly that certain dressmakers owe their inspirations for frocks. The flutter of the garden is unsurpassed for variety and delicacy of color. A French constructor of feminine garb was the first who went to the winged creature for suggestion. He did so at the instance of an artist friend, who said that of all the harmonious designs in nature those of the butterfly were the finest. So the dressmaker has been sending orders to a Boston naturalist who gets choice specimens from tropical countries. Only last week 25 butterflies were sent across the sea to give suggestions for gowns.—New York Tribune.

Governments who can play ball are the latest aspiration of the world. The educational world has simply been adding and other "reforms" must stand in favor of the new idea. But the good American baseball is not the game in question. A Scotsman was recently struck a bargain with a French Governor of whom a friend had played the following game: "I will do for her just what you want. She will receive every afternoon with my boy and the footman." There is food for reflection for the person who has seen the Scot as painfully studious. No matter how progressive the systems of home learning may be this is perhaps the first time a Scotsman has been hired because she was qualified in

"Puss-in-Corner" for Grown-Ups.

Ridding themselves of the gambling fever, even though it is only for an hour a day, sojourners from the Springs, Va., cease playing bridge and take to playing children's games. Puss-in-the-corner and blind man's buff are indulged in by grown-ups, and even an older woman who is staying there. Says she: "It is a trifle odd to think of downing a winning bridge hand in the corner, but maybe there is method in the seeming foolishness. Some of the women are so tired that when they are glad to lose a few pounds through the exercise of rushing from the corner to corner or racing up and down stairs. Who knows, but maybe the new order or things the yellowness of complexion caused by too long application to the tables will give chance to a ruddy glow?"—New York Press.

Why Not Smile?

Have you tried smiling? It is the

glow? It is an aphorism since the test of years.

It is poor economy to buy a new glove, except on rare occasions.

Many women are sure of their own smiles. They are so sure, in thinking that a tight-fitting glove causes the hand to look smaller, that they buy a glove that is so fitting glove makes the hand in places, so that it looks ill-proportioned. Other hands are so large they give a slovenly appearance to the hand.

Smiling depends on the glove is put on the first time the glove which is put on crooked, the straightened.

No one but the woman who wears it, realizes how much gloves will last if they are worn properly and the woman who One girl, who prides herself keeping all her gloves in perfect repair, removes a pair of her gloves immediately with out putting the glove away as she is about to smile. The smile will become set and immovable.

Gloves should always be put on by the finger tips and pulled up to the wrist. With ordinary care, they may be worn clean for a week. To keep them clean, a soft tooth brush and some ironing board. Pour some water on the gloves and brush you it better to put on. If the gloves are dirty, brush them with it and dip the tooth brush in it, rub the gloves until it is clean. Wash the place of flannel or rubber until it dries.

A white glove should never be worn if it is stained. If it is stained it is cleaned properly after use. It can be worn indefinitely without becoming soiled. It should not become set—New Register.

To Display Presents.

In Paris most charming conceits are devised to enhance the effect of an exhibition of wedding gifts in the bride's home. Some of the most original is removed from one or two rooms to give space to showcases, where is made a tasteful array of the most delicate patterned, the roughest and numberless bibelots. The heavier articles are suspended from screens or round the walls from hanging ribbons, pictures, or even dafes of crink-

A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of such medicines for a domestic use, and so has published abroad, gratis and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken the measure of a statesman and a patriot to the full advantage. Thus too he has removed all medicines from among secret and mysterious compounds.

Early Morning Blaze.

Early Saturday morning the house of Mr. John R. Powell on Collage street, was seen to be afire. Alarm was promptly given and in a little while a crowd was on hand to fight the flames. Some papers and clothes in a closet caught, just how it is not known, though it is supposed from a match that the rats had carried there. The fire was soon extinguished, not, however, before considerable damage has been done to the furniture in the room. The fire department reached the scene several minutes after the flames were under control. It may be said of them that they are slow but sure.

About three-quarters of an hour after the fire was supposed to be completely out the fire alarm was sounded for the second time, the fire having been smoldering all the time and showed the treachery of fire at all times by breaking out again as soon as the crowd had dispersed. The flames never did gain much head way and this time were put out so effectively that no further trouble was reported in that direction.

No Opium in Chamberlain's Cough Remedy.

There is not the least danger in giving Chamberlain's Cough Remedy to small children as it contains no opium or other harmful drug. Sold by all druggists.

Burned in an Explosion.

Late Friday afternoon Mrs. W. D. Davis and her daughter, Miss Alma, were seriously burned by the explosion of an acetylene gas generator. They entered the gas house with a lighted lamp and it seems that there was a defect in the gas pipe. Mrs. Davis was at work trying to regulate the carbide feeder as her daughter held the lamp, when the explosion occurred.

The gas house adjoins the residence and it caught fire from the explosion but the fire department was prompt to respond and soon had the flames under control.

Mrs. Davis and Miss Alma were both quite seriously burned about the hands and face. Their clothing caught fire and if assistance had not been given to them at once the accident would no doubt have resulted seriously. The burns were not deep and they are improving and soon will be well again.

At the Churches

Services were held at all of the four churches in the city last Sunday. The day was somewhat cold but despite this fact a large crowd braved the winter wind's biting cold and the churches were well filled at the morning and evening hours. The pulpits were filled by the regular pastors with the exception of the Methodist church, where Rev. J. W. Timley preached in the evening.

Mr. J. C. Rowan filled the pulpit at the Presbyterian church and a large crowd was out to hear this popular and brilliant young minister.

Nursing baby?

It's a heavy strain on mother.

Her system is called upon to supply nourishment for two.

Some form of nourishment that will be easily taken up by mother's system is needed.

Scott's Emulsion contains the greatest possible amount of nourishment in easily digested form.

Mother and baby are wonderfully helped by its use.
