Messrs. M. L. and E. W. Waters are preparing to open a grocery business in Statesboro in Statesboro in the near future.

FOR SALE—One good family horse and buggy. Will sell either or both cheap.

Mr. P. C. Richardson has leased the store adjoining that of Mr. J. B. Groover and will open a near by stand some time in the near future. This will give us two striking establishments adjoining each other.

Mr. J. B. Groover was taken to his home in the country a very sick man one day during the week. Reports from his bedside say he is no better.

We call the attention of our readers to the new ad of Messrs. B. H. Levy Bro. & Co., which appears in this issue. When you need anything in their line give them a call.

Hon. W. L. Gignillat of Savannah spent the day in town one day this week.

The same board of Directors were re-elected to Bank of Brunswick at their meeting on Tuesday.

What is just the time of the year when you are most likely to contract a severe cold, and you should always have Kennedy's Laxative Cough Syrup handy, especially for the children. It tastes nearly as good as maple sugar. It cures the cold by gently moving the bowels through its laxative principle, and at the same time it is soothing for throat irritation, thereby stopping the cough. Sold by W. H. Ellis.

Emmett Parish Convicted.

As it is Viewed Up

The jury in the case of the State vs. Emmet Parish charged with stealing cotton from the field and cotton house of A. E. Smith on the Olliff Farm about two months ago brought in a verdict of guilty in the City Court last night. The case was stubbornly fought by both sides, the State being represented by Solicitor E. T. Lanier and R. Lee Moore and the defense by Col. J. J. E. Anderson and A. M. Deal. Upon receipt of the verdict of guilty Judge Jordan sentenced Parish to a fine of \$100.00 and cost or serve twelve months on the chain gang. It is understood that the case will go to the Supreme Court the defense having challenged the array of the jury on account of the discharge of the eight men by Judge Brannen last week in the Finch case setting up as a ground for new trial that they were not given a full list to strike from on account of the absence of these eight jurors relieved by the court from further service at the very beginning of the trial.

The case will doubtless go to the Supreme Court, and will bring up the question of the right of a presiding judge to dismiss a jury because he believes they did not return a verdict according to his idea of the evidence submitted.

W. M. Parish, the other brother charged with the same crime jointly with Emmet did not appear when the case was called and his bond was forfeited.

How is Your Digestion?

Mrs. Mary Dowling of No. 228 St. Francis, San Francisco, recommends a remedy for stomach trouble. She says, "I attribute the wonderful effect of Electric Bites in a case of acute indigestion, prompts this testimonial. I am fully convinced that for stomach and liver troubles Electric Bites are the best remedy on the market today."

This great tonic and alternative medicine invigorates the system, purifies the blood and is especially helpful in all forms of female weakness, for at W. H. Ellis' drug store.

Portal News.

Mrs. Elnaline Wood is seriously ill.

Mr. W. E. Parsons is preparing to erect a new store house in Portal. He is busy this week putting in a fine set of wagon scales.

Mr. L. S. Parsons of North Georgia is preparing to move to Portal and will engage in business with his brother Mr. W. E. Parsons.

Work is progressing rapidly on the handsome new home of Dr. L. A. Bowen.

Postmaster R. W. DeLoach spent one day this week in Statesboro.

Dr. J. A. Stewart has perhaps the best cow in the county she gives four gallons per day, notwithstanding the fact that she has just been driven over one hundred miles.

Mr. W. E. Parsons requests us to publish the following letter just received from the State School Commissioner relative to the school book question which will be of some interest to the public.

Mr. W. E. Parsons, Portal, Ga. Dear Sir:

I do not think it will be necessary to change the books until the end of the current term. The governor has not yet issued proclamation of the adoption of books and book concern. After that would probably have two months in which to supply the wants. This will carry us so far into the term that it would be unwise to attempt a change before the end of the term.

Yours truly, Jere M. Pound.

The tender leaves of harmless lung-bell mountain shrub, give Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling, or distressing coughs, quickly yield to the healing, soothing action of this splendid prescription—Dr. Shoop's Cough Remedy. And it is safe and good for children, as well. Containing no opium, chloroform, or other harmful drugs, mothers should in safety always demand Dr. Shoop's. If other remedies are offered tell them "No." Be your own judge! Sold by W. H. Ellis.

Ladies, be sure to get an advertising box of Dr. Pierce's Cold Cream Combination when the distributor calls on you. It is being distributed by Mr. W. H. Littleton, an ex-confederate veteran, whom you will help by taking a box.

DEARNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous membrane of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Boy Badly Injured. Cecil the ten year old son of Mrs. Annis Gould was seriously injured down at the turn table of the Central of Georgia railway on Sunday. A crowd of boys were playing on the turn table running it around, the boy made an attempt to jump out it while it was running and in some way missed it and fell under it and had his chest and shoulder crushed and also broke his left arm above the elbow. The attending physician cannot tell the exact extent of the injuries yet, but fears should pneumonia set in the result would be hard to determine.

Register Has Fine School. Prof. L. D. Rushing principal of the Register Academy was in town Saturday to attend the Institute. He informs us that the school at Register is improving every day, 115 pupils have been enrolled and the attendance is increasing every day. Prof. Rushing is assisted by Miss Mitchell of Kentucky who is one of the best lady teachers in the county. The people of Register have erected a magnificent building for their school and there is no reason why the school at that place should not improve right on.

Too Many People Fish for fortunes; risk their earnings in all kinds of foolish investments and gambles. Beware of investments and schemes that promise too big returns. FOR SALE.—One good family horse and buggy. Will sell either or both cheap. S. I. Moore.

Bank of Statesboro, Statesboro, Ga. Capital, \$75,000.00 Surplus, \$25,000.00 OFFICERS: J. L. COLEMAN, Pres., W. C. PARKER, V. Pres., S. C. GROONER, Cashier. Hon. J. W. Overstreet. Agricultural School. On a Boom. Things are picking up at a rapid rate out at the Agricultural School. The enrollment, which includes pupils from nearly every county in the First Congressional District is the largest in its history, being 85 at the present time and new pupils are coming in every day. Prof. Hendricks and his assistants are now doing some fine work, work that is telling for the good of the school, and its praises are being sung by every patron it has. In addition to the regular literary studies the boys are taught practical farming, each and every one is required to learn these things, they are taught that work is honorable and every man ought to do his full share of it, they are taught the science of farming as well as practical lessons on the test of the soil and the mixing of fertilizers, dairying, blacksmithing, etc. The girls are also taught in addition to their books how to sew, cook and all the duties around the home, and they are required to do some of all the work laid out for them and no matter how wealthy her parents may be she must take place on a level with the other girls in the school room when it comes to doing her part of the work laid out.

The school is what has long been needed here and the farmers learn what it is doing the patronage grows from month to month. The State of Georgia appropriates seven thousand dollars each year for the support of this school which brings an absolute free education to the very door of every boy and girl in the First Congressional District.

Cold Snap Kills Vegetation. All the glory of the ripening peaches, the heading oats and budding corn has vanished. The cold snap of this week spreading a snow white blanket over them laid 'em out. It came as a welcome visitor to our farmers who had meat to kill and those who feared their grain would head out prematurely. The cold snap was indeed a blessing.

Mr. Dan Milley went down to Savannah Sunday.

Near Beer Case Up Again. The City Council has set tomorrow afternoon for a hearing of the famous J. B. Groover near beer case. Witnesses are being summoned to appear before the council on this occasion.

This case was heard before the mayor on Christmas eve day, and Mr. Groover fined fifty dollars and ordered to close his place, this he refused to do and has appealed to the council. The hearing will come off tomorrow afternoon at two o'clock.

Mr. Groover is out at his home in the country confined to a sick room, and all probability will not be able to attend the trial, which will have to be postponed in that event.

Simmons Lanier. This morning at the home of Mr. J. A. Brannen in East Statesboro, Col. Fred T. Lanier and Miss Ruby Simmons were united in marriage. Rev. P. W. Ellis pastor of the Methodist church officiating. The marriage was a quiet affair only a few intimate friends of the contracting parties being present. The young couple took the Savannah & Statesboro train for Florida where they will spend some time visiting different points in the state.

The bride-groom is one of Bulloch's leading citizens a prominent attorney and solicitor of the city court. The bride is popular among a large circle of friends, she is a niece of Col. and Mrs. J. A. Brannen making her home with them for the past several years. The Nows extends congratulations.

FOR SALE.—One good family horse and buggy. Will sell either or both cheap. S. I. Moore.

Large Ice Factory to Start. Messrs. A. B. Green and W. S. Godby came up from Savannah on yesterday and perfected arrangements for the work to begin on their ice factory which will be located on the right of way of the Central of Georgia Railway Co. at the intersection of Cherry St. on the lot purchased by them from Mr. W. W. DeLoach some time ago.

The promoters of this factory inform us that their machinery has already been purchased which is to be of the latest pattern which will manufacture ice by the new process by sweating the substance from the water. The plant will cost when installed thirty-five thousand dollars and will have a daily capacity of twenty tons. Street wagons will be put on and ice delivered in all parts of the city. An artesian well will be driven on the property to furnish the water for the ice, it is the intention of the company to bore the well a sufficient depth to secure a flow if possible. Active work on the plant will start in a few days.

Mr. Williams says there are more cypress trees on this line than any other the same length in the state. He has arranged with Mr. Oscar Williams of Register to go over and take active charge of the work when the camps will be pitched.

Oaks Budding Out. Mr. Jas. G. Brannen living twelve miles above Statesboro sends us in a branch from an oak tree in full bloom. The leaves have formed and many are developed. The long twigs that come before the leaves are also fully developed.

Mr. Brannen says the oaks around his place are all putting out this way.

Leaving For Arkansas. Mr. J. A. Seabore and family will leave tomorrow for Magnolia, Ark. where they will make their future home. Mr. Seabore was in town yesterday and bade his friends here farewell for a season at least. He has been called to the pastorate of the First Baptist church in Magnolia and has accepted the call. Mr. Seabore is by no means a stranger to the section he is moving to, having traveled all through the west as a missionary. He and his family resided at Fulton, Kentucky for several years previous to his moving back to the old home near Aaron station, he came home to take charge of his father-in-law's affairs, the old gentleman had lost his wife and his heart turned towards his son-in-law but soon after him the arrival of the family from Kentucky could stick its arrow in the heart of the old gentleman and he found a second mate, after the marriage ties between father and son-in-law grew colder and a law suit followed, the courts having decided in favor of the old gentleman then Mr. Seabore and family turned their eyes and hearts again towards the great west, and the embarking of themselves and children on tomorrow will end at least for the time being a case of a misunderstanding between them.

Oats Heading Out. Mr. G. W. Watson of the Metter neighborhood brought us in a bunch of oats in full head on Saturday. They were fully two feet tall and fully developed. Mr. Watson says that this were all he headed out but he has lots of them beginning to joint. The heads were handed over to Agent E. M. Rice of the S. A. & N. Ry. who wanted them to send to President in New York in order to show him the Southland of ours is a land of continual summer.

To Establish New Tie Camp. Mr. H. R. Williams went down to Savannah one day this week to confirm a contract with the Central Railway Co. for the purchase of ties along the route of the Savannah Valley Railway a line of forty mile in length running from Egypt to Mill Haven via Savannah.

This is a new road recently opened for the tie and lumber business, a schedule on which will be run in February.

Mr. Williams says there are more cypress trees on this line than any other the same length in the state. He has arranged with Mr. Oscar Williams of Register to go over and take active charge of the work when the camps will be pitched.

Shooting Scrape. A shooting scrape between Jim Bacon, Praylor Grant and his son out on the farm of Mr. P. C. Hagins on Friday night will probably end in the death of young Praylor. It seems that the negro named Praylor and his son went gnawing for Jim, and finding him at his home met with a warmer reception than they expected. Jim had his old carbine loaded to the muzzle and emptied its contents into the boy. The elder negro made good his escape, fleeing before Jim could re-charge his muzzle loader. At last accounts the young negro was in a bad shape and not expected to recover.

Pocket Book Lost. My pocket book filled with papers in the shape of notes and receipts disappeared from my house at Brooklet while we were moving out. The book contained a note for \$175.00 made by J. Russell Waters and payable to me on Dec. 1st besides other papers. A suitable reward will be given for the return of the book. T. H. WATERS.

W. B. Martin May Leave Us. Mr. W. B. Martin informs us that he has under consideration a proposition to move to Thomson, Ga., where he will engage in business. Mr. Martin recently made a prospecting trip to Thomson and was highly pleased. He has an option on a store building. The News hopes that Mr. Martin will change his mind and remain with us.

Gov. Hoke Smith is to go on the lecture platform. If we remember correctly he was on a platform of this sort last spring.

The famous Cooper-Carmack trial is on in Tennessee, which is widening the breach between two bitter political factions.

It has been hinted around that Hon. W. G. Brantley may be the Local Option candidate for Governor next time. We will wait and see.

President elect Taft has told the negroes that their best friends are in the South. Taft is honest if nothing more.

Ben Tillman is sharpening up the prongs of his fork, and threatens to stick em clean through Mr. Roosevelt.

Leopray seems to be getting a foot hold in the United States. It is fast becoming a menace to the lax immigration laws now in force.

Chatham county has made up with the State and will contribute \$25,000.00 near beer taxes. This is real nice in old Chatham.

The politicians are gathering under the Republican plum tree in the same old manner.

If we don't have some cooler weather the fellow who invested in over a cord of fire wood will feel like going off and kicking himself for reckless expenditures.

Subscribers Must Pay Up.

The News has on its names that ever vexing problem of what to do with the delinquent subscribers. Delinquent means those men who are ever expecting to drop in the latter part of the week and settle up, but who make it a point to always overlook this important end of it.

Last April in order to comply with the postal regulations we cut quite a large number off the list, this was done after all efforts to secure payment was exhausted. The greater part of these amounts still remain unpaid and it is now up to us to either throw them in the waste basket or take legal steps to collect them. Inasmuch as they amount all told about eleven hundred dollars it looks pretty hard to throw them away and make no effort to collect them in a legal manner, so we have determined to see what portion of them can be collected by law and during the month of February will try our hand in the matter. This applies to those who are not getting the paper now and who care so little about the amount they are due as to continue to ignore it.

We also appeal to our subscribers to come up and settle their subscription, no business on earth can run without collecting pay for its output. When you get the paper you know it cost money to get it out. We have to pay our paper bills before we get it out of the railroad station, and our rent has to be paid the end of each month, printers have to have their money Saturday night or they will not work.

We have traveled a man over a large portion of the county at an expense to try and collect a portion of what is due us, but the results obtained from his canvass were so heartening that we were compelled to take him off the road. He came back loaded down with promises folks to "come in the latter part of the week and settle."

These promises came from the best people in the county, but they haven't shown up yet and the chances are they won't soon.

We do not mean to say that all of our subscribers were this way but on the contrary hundreds of them pay promptly, pay their own subscription and tote their neighbor's short comings, they tote his failure to pay by reason of the fact that his neglect of his duty cripples the service that the other fellow is paying for. Gentlemen, we must insist that you come across and pay for the paper.

Big Timber Deal.

Perhaps the largest timber deal ever pulled off in this section of the state was the one made on Saturday between Mr. John A. Callison of Savannah and Mr. Allen Jones of Emanuel county. Mr. Jones sold two thousand acres of round timber for thirty dollars per acre. The timber had never tarpedinted which makes it the more valuable. The consideration of the deal being \$60,000.00. This is probably the best tract of round timber in the state.

While no information along this line is available it is believed that the real purchasers of the timber are the Durden Lumber Company of Graymont who will use their big mill at Monte to cut the timber.

Mr. Enright Here.

Mr. E. G. Enright the lessee of the Statesboro Ice Factory arrived on Friday afternoon and began work on the improvement to the plant which will be made in time for the opening in the early spring. Mr. Enright is a practical engineer and will to the business his personal attention. Extensive improvements will be made and the capacity increased to meet the growing demand for ice in Statesboro and the territory tributary to this place. He has had charge of the Stillmore Ice Factory until recently. He has leased the plant here for five years.

Serious Consequences

Narrowly Averted.

Mr. J. D. Evans one of the News force had a very narrow escape from death on Sunday night. It came about in this manner, he was invited out to visit a relative of his viz: Mr. J. J. Evans who lives on a farm near Macedonia church about eight miles from here. It had been a long time since the two relatives had met and the reception the Statesboro end of the family was a most cordial one, John according to his regular custom sat down his printer relative to a square meal of fresh fried pork sausages, sweet potatoes, custard pies, etc., and forgot that he was a printer, and neglected to let him know when to quit eating. The relative from town being unaccustomed to good things to eat in such profusion overdid the job, and came near being fountered. It wouldn't have been so bad if the trouble had stopped with Joe, but he came back in and told the other members of the force and the editor of the good things he had to eat and the fact that they had only heard about it by word of mouth came near salvaging a number of the force including the editor. We take this method of warning our country friends in the event they are visited by a member of this force to put on the breaks at such a time as they are satisfied that their capacity has been filled.

Cotton Still Blooming.

Mr. H. L. Waters of the Eufaula neighborhood was in town this morning displaying a cotton bloom. Mr. Waters says that the recent cold snap has not killed the blooms in his cotton field, in fact the stalks are putting out, and very much alive, he fears that he will be unable to cut them with an ordinary stalk cutter this spring to prepare for another crop. It was suggested to him that he allow the same old stalks to grow again, thus saving the cost of planting. He was not certain that a successful crop could be made on stalks the second year, any way he had rather that some of his neighbors would try that scheme and let him know next fall what the result is.
