The Statesboro News

(INCORPORATED.)

J. R. MILLER, Editor and Gen'l Mgr
Entered at the post office at Statesboro as 2nd. class mail matter.

Tuesday, Thursday and Saturday.
Published by
THE STATESBORO NEWS PUBLISHING COMPANY.

To Our Patrons.

We desire to once again remind our subscribers of the fact that we are compelled to have the amounts they are due in order to continue sending them the paper. In looking over our books we find nearly twelve hundred names who are due us for subscription. This does not include the 450 friends who have not received the paper since April 1908 against whose accounts are now in attorneys' hands for collection.

The News is printed three times a week going to each and every subscriber every other day at the low price of one dollar a year, a service that no other paper in Georgia is giving for a dollar. It seems to us that it wouldn't be necessary for us to remind our friends that this is an expensive service, one that calls for a large outlay of cash. Our bills are all cash, paper comes bills of lading attached and printers must be paid every Saturday evening. The management of this paper having no bloated bank balance are therefore compelled to collect as they go.

In a few days every subscriber whose time has expired will receive a notice to that effect. He will be asked to settle for his subscription next month or next fall but NOW. There is no reason for people who are as a rule well to do to be running a subscription credit account with a country newspaper. There is not a name on our list who cannot raise a dollar without seriously inconveniencing himself and he can raise it as well at the beginning of the year as he can at the end. If he pays in advance, he will be notified thirty days before his time expires and asked to renew. If we don't hear from him then it will be notice to us that he does not want the paper continued then there will be no several years subscription pile on him and have lawyers chasing him for the money as they are in the case of the 450 that we are now proceeding against when you receive one of these notices see that it is correct if not please notify us at once so that we can correct same. After we have waited a reasonable time for payment (not promises) we will discontinue all subscriptions not paid up and strictly adhere to the cash in advance system hereafter.

We ask you not to send us word that you will "pay some time" next week, month or fall. We have had so much of these, none of which is ever fulfilled, until the printer's devil has acquired a habit of going off in a sort of a swoon every time he hears one come in.

Now we don't want to be hard on our friends but we are sure they will all like the pay in advance system better when they once get accosted to it.

There are hundreds of good folks whom this article does apply, as they pay regularly and promptly. It is those to whom we are obligated. To give a good three times a week service it will be impossible to do this and carry more than a thousand who pay at the convenience and about 1,000 who never pay at all.

You will get this notice soon and after a reasonable time has been given and we do not hear from you the paper will cease to be mailed to you. The same rule will be applied to all. A bank president's name does not look any better on a list than the humblest tenant unless he pays up promptly.

If you need a pill take DeWitt's Little Early Risers. Instant on time; gentle, easy, pleasant, little liver pills sold by W. H. Ellis & Co.

POULTRY NOTES BY C. M. BARNETT, RIVERSIDE, PA.

Beware!
Yes, beware of cheap chicken machinery. A gentleman writes us: "I have been reading your Poultry Notes and am very much interested in them. You have become one of us. We are buying an incubator and want you to put a word in for us." Frankly, we are interested in your safety and success and warn you against cheap fire hatchets. Beware of incubator and brooder bargains! Don't be caught by a catalogue of cheap hot air pictures. If you buy such trash you will have a smash.

THE FANCY BLUE OWL.
"The Simon who said, 'There is no new thing under the sun.' We don't wonder. He was a mighty small world."

Wouldn't a modern election surprise him? A side in a sleeper berth or a peep into a modern chicken and pigeon show would compel him at once to blue pencil his famous expression.

"But pigeons are just pigeons," you remark as memory recalls the birds that once decorated the old barn shingles and stole peeps from the neighbor's garden. "You, too, are mistaken."

They are a flying flower garden, a fluttering picture of winged grace, color and beauty, are the Dragons and Dutchesses, Homers and Helms, Carvers and Crescents, Tumblers and Turbans, Startlings and Swallows, Antwipers, Archangels, Orientals, Owls and all of the forty-five breeds in their endless varieties.

The Owl is not the least in beauty. Its globular head, curved short beak and body make it resemble the soft

THE FANCY BLUE OWL.

feathered thief that steals the farmer's fat hens that snooze on the sour apple tree.

These pretty birds are red, yellow, dun, silver, white, black, blue, with colored tails, powdered blue and powdered silver.

This is a blue bird and standard type. It is not an artist's ideal, but a picture from life. The beak is correct, with just enough wattle to round it, while the dewlap from head to neck, or circular bunch of soft feathers, is correct and the outline of rose, breast, depth of body and other points make the bird a model.

Owl's eyes should be bright, full and ruby red; legs clear of feathers and coral color; tall short; wing shape should meet above tail and the shape such as to give a massive appearance.

The more perfect the rose the more prized the bird, all being in proportion.

"But why should men breed fancy pigeons, anyhow?"

Well, why should a Burbank strive to produce a more beautiful and fragrant carnation or a more exquisite or thorough rose?

Or why didn't the Creator make the rainbow band beauty of the beautiful varied bow it is?

When men love beauty and strive to create it or increase it, whether in flower or fowl, or whatever the form, they simply show they are not mere mud, but possess divinity with their dress.

DON'TS.
Don't move to lay that New Year's resolution on the table, but keep it with all the strength that you are able.

Don't forget that "cleanliness is next to godliness." Clean pens, clean hens, shiny legs, big white eggs.

Don't waste time tooting your horn. Be a hustling hostler; let the crowing to your rooster.

Don't get "weary in well doing" or some creditor will be suing.

Don't put the poultry work on your work. That means henpecking and strife.

Don't expect your chickens to thrive on damp, dirty litter nor eat green corn that's moldy and bitter.

Don't keep your pigeons under a leaky roof. Pigeon pox.

Don't have your ducks sleep in the damp, Cramp.

Don't let the geese sleep in the frost. Rheumatism.

Don't keep the pigeons in a damp house. They get pigeon pox; you lose the rocks.

The nearest approach we know of to a fellow getting his living off the country without any labor is the bookkeeper with anywhere from 100 to 200 stands of bees. One friend we have in mind has sold better than a ton of honey the past few months and is seeking a market has realized from 11 to 14 cents a pound for it.

The silver, or plume of the white heron, which is sometimes worn on the hats of thoughtless women is secured at the cost of the bird's life, a portion of skin, with the beautiful feathers attached, being torn from the back of the animal between the shoulders. To such an extent has the ruthless destruction of this beautiful bird been carried to satisfy feminine vanity that it is threatened with extermination unless radical measures are adopted to protect it.

At a recent meeting of a Minneapolis woman's club action was taken condemning the wearing of bird trimmed hats, the members agreeing that they would not wear a hat trimmed with any part of a bird save ostrich and dog feathers. The action taken is the result of a campaign which has been waged for some time past by the local Audubon society. The move is a sensible and practical one and is as much a tribute to the femininity as to the humanity of the women who are responsible for it.

A Billings (Mont.) feeder who intends going into the hog raising business extensively proposes using what he terms alfalfa tea as a part of the food ration. He holds that the stalks of the alfalfa plant, usually trampled underfoot, contain the most nutritious and it is with a view to preventing this loss that he has been led to try the new feed.

The young pigs and feeders will be given this ration chiefly, while their fattening will be concluded with corn.

We have an inquiry from a reader at Plaquemine, La., asking where the Toggenburg variety of Swiss goats may be secured and for any other information that would be of value. This breed and the Saanen are the two leading breeds of Swiss milk goats in this country and are bred by the following persons: R. N. Riddle, Rahway, N. J.; W. B. Hingham, Hingham, N. J.; H. D. C. Mayers, Radford, Va.; W. J. Andrews, Raleigh, N. C.; Winthrop Howlands, Redlands, Cal.; and S. H. Bowman, Pease, N. H.

His correspondent will be able to secure much valuable information on the general subject of goat raising by writing the bureau of animal industry at Washington for bulletin No. 88, which on this subject thoroughly and exhaustively.

This is the season of land seekers' excursions, and it is well for those who take these trips with a serious purpose in view to keep one or two things in mind. Perhaps the most important for the agriculturist is the point of view is that of rainfall, for most any soil that has not been exhausted will produce abundant crops if it receives sufficient moisture. Another point which should be given serious consideration is the character of the surface and subsoil. Another feature of a new country that serves as a pretty accurate criterion of its value for tillage purposes is the type of grasses and trees which grow naturally in the vicinity. While the land agent's talk should be listened to respectfully, what he says should not blind one to the above points.

As showing that a defective or poorly adjusted monetary system may operate to the disadvantage of a people and prevent their making the best progress materially and industrially may be cited the case of the Mexican farmers. A sixteen inch crossling of American make costs in the neighborhood of \$10 in this country. After the freight charges are added, the import tax paid and the value expressed in terms of a Mexican silver currency, which is inflated nearly 100 per cent, it retails, adding a profit to the dealer, at better than \$30. Naturally this seems a high price and, with the natural conservatism of the Mexican agriculturist, serves to make him content to scratch the ground with the ill devised iron stick which has been in use for centuries. He thinks he can't afford to buy modern machinery and so continues in the same old rut.

Leaflet No. 19, issued by the National Association of Audubon Societies and treating of the Mallard duck, rightly recommends against the indiscriminate slaughter of this beautiful game bird and suggests that the only way it may be preserved to future generations is by restricting the open season to the fall months and placing a rigid limit on the number of birds which may be killed by an individual in any one day. The pamphlet also cites several interesting incidents where as a result of prohibiting the shooting of wild ducks within given limits they have grown so tame that they would swim in and out among the boats near southern pleasure resorts, come out on the lawns and bank in the sun and even eat food from the hand. It is to be hoped that some measures may be taken which will keep this interesting species of bird from utter extermination.

There is not any better Salve than DeWitt's Carbolized Witch Hazel Salve. We hereby warn the public that we are not responsible for an injurious effects caused from worthless or poisonous imitations of our DeWitt's Carbolized Witch Hazel Salve, the original. It is good for anything where a salve is needed, but it is especially good for piles. Sold by W. H. Ellis & Co.

Register Dots

Mr. J. R. Griffin was in town last Wednesday.

Miss Alice Covart, who has been visiting her mother at Undine returned home Tuesday night.

We are indeed sorry to report the death of Mrs. B. R. Olliff, which occurred at the home of her father Mr. James Riggs Saturday morning at 5 o'clock. Burial at Lotts Creek Sunday a. m. A large number of friends and relatives were present at the funeral.

Mr. S. L. Nevill was in town Friday hauling fertilizer.

Mr. W. C. DeLoach formerly of Pulaski, but has now located at Whigham where he enters into partnership with Col. Warnell of Fagan, passed through enroute to his new home last Friday.

Col. J. J. E. Anderson of Statesboro was in our town Saturday securing some evidence for one of his clients.

Mr. T. L. Moore our famous blacksmith and wheelwright has about completed his new shops, the old buildings have been reduced to the scrap, and quite a tidy appearance is shown around his new building now.

Mr. W. W. Williams of Metter attended the funeral of his sister-in-law Mrs. B. R. Olliff yesterday.

Mrs. P. A. Trappell of Metter visited her daughter Mrs. D. M. Rogers Sunday.

Miss Janie Holloway of Statesboro visited her mother Mrs. W. Holloway Sunday.

Mr. O. L. Williams of Egypt was in town Sunday.

Miss Belle Riggs of Pulaski is visiting her relative Mrs. Wm. Holloways this week.

Quite a large number of young folks attended the entertainment at Pulaski last week, those who attended report a pleasant time.

It is reported that the hunting crowd consisting of the high officials of the C. of Ga. Ry., who went on a hunting expedition with Mr. J. W. Williams last week, sacked something over three hundred birds, quite a nice lot; for such a cold windy day.

Mrs. W. C. Street is visiting some relatives at Tusculum this week.

Mr. J. W. Williams of Adabelle was called to Atlanta on business last week.

If you would have a safe yet certain Cough Remedy in the house, try Dr. Shoop's—at least once. It is thoroughly unlike any other Cough preparation. Its taste will be entirely new to you—unless it is already your favorite Cough Remedy. No opium, chloroform, or any other stupefying ingredients are used. The tender leaves of a harmless, lung-healing mountain shrub, give to Dr. Shoop's Cough Remedy its wonderful curative properties. It is truly a most certain and trustworthy prescription. Sold by W. H. Ellis.

Convict's Leg Amputated.
Drs. Holland, Lively and Mooney went out to the convict camp yesterday afternoon to amputate both legs of Jim Brown a negro convict.

Brown had served a year on the gang and in the cold Saturday some two or three weeks ago was trusted to go hunt up some mules that had got away. He was trusted for the reason that he had served his time with the exception of one day. He ran away with only one day more to serve and lay out in the woods that Saturday night his legs froze, this was followed by blood poisoning. The negro finally rounded up at Warnell's still and sent word for the sheriff to come after him. It is a good thing he did for they found him in a deplorable condition and the result is both legs were amputated yesterday afternoon.

KEEP YOUR EYE ON THIS SPACE

Since January, 1909, I am located in Dr. Cone's building next door to Porter, Franklin & Co., with a new and up-to-date line of

LADIES' & GENTS' FURNISHINGS, CLOTHING, SHOES, HATS, SHIRTS, UNDERWEAR, HOSIERY, GLOVES, ETC., ETC.

A call will convince you of our low prices and square dealings.

FRIEDMAN'S BARGAIN STORE
Statesboro, Georgia.

Buy Your Fertilizers From Bulloch Oil Mills

We will make the following standard brands of fertilizers this season and offer them to the trade on as good terms and at as low prices as the same grade goods can be bought.

Bulloch Plant Food	8-2-2
Bulloch Special Truck Grower	6-3-3
Bulloch Best Guano	10-2-2
Bulloch Sandy Land Guano	9-2-3
Bulloch Acid Phosphate	16-0
Bulloch Acid & Phosphate	10-4
Bulloch Acid Phosphate & Potash	12-4

The Bulloch Brands are all home made goods and made by home people with home money. We request all users of fertilizers or others interested to come to our mills and see just what goes into the goods sold by us and see us before you place your orders.

Yours respectfully,
BULLOCH OIL MILLS

BOWEN'S Guano Distributor

Is the most successful machine of its kind ever used for distributing Commercial Fertilizers.

In covering the fertilizer it makes a bed any width from 9 to 25 inches, and any height desired.

The machine is low in price; Simple; Strong; Convenient.

Read these Testimonials from those who have used it.

"The Adabelle Trading Co., of Adabelle, Ga., used one of the Distributors in 1904; the year following they used 14, and last year (1907) they used 24 on their various farms. This should sufficiently express their opinion of the Distributor."

Statesboro, Ga., November 18, 1907.
This is to certify that for several years I was employed by the E. E. Foy Mfg. Co., in this county, as their superintendent, and that they were exclusive users of farm machinery, and that they used a good many makes of guano distributors, and that the Bowen Distributor, used with a Planet Jr. cultivator was one of the best they used and gave better satisfaction for general use, and did not cost as much.

I consider them the very implement for the farmer, as he can detach the Distributor and have a good plow for almost all purposes in the cultivator.
J. E. McCroan,
Cashier First National Bank.

THE STATESBORO NEWS.

\$1.00 A YEAR.

STATESBORO, GA., THURSDAY, FEBRUARY 18, 1909

VOL. 9 NO 60

Local and Personal.

Mr. Bert Cummings has returned from a visit of a week with friends near Claxton.

Our garden fertilizer will give you satisfaction—try our 100 pound bags.

Mr. Jim Moore who has been at school at Gainesville for sometime has returned home.

A complete line of Trunks all sizes at lowest prices just received. Freidman's Bargain Store. Cone building next to Porter Franklin Co.

Mr. A. B. Green and family have moved up from Savannah and will make their home with us in the future.

75 cents for grown hens this week and next in trade. A. J. Clary.

Mr. Jefferson Morris the veteran fisherman from the Ngeechee river side was in town yesterday. He says the fish have not begun to run much yet.

We expect to close down our mill soon—bring in your cotton seed and get \$20.00 per ton for them.

Bullock Oil Mill.

Mr. and Mrs. Hinton Booth spent one day last week in Savannah.

This week and next I will pay 22 cents per dozen for eggs in trade. A. J. Clary.

The family of Mr. L. B. Wheeler came up from Savannah Sunday and joined him, who has been with the News since the first of the year they are living near the Baptist church on North Main st.

What to do with the Oak is the burning question up North Main St. now. The people in this popular thoroughfare seem to be very divided on this question.

The members of the Junior Philathea class of the Baptist church gave an entertainment at the home of Mr. and Mrs. E. A. Smith on North Main St. Friday night. A large crowd was in attendance and the affair was quite an enjoyable one.

Soda Pops for sale, will sell a \$300.00 found and fixtures for \$250.00.

Judge A. W. Stewart of the 48th was in town yesterday and gave us a call. The judge has recently moved back to the old home he left just fifty years ago.

Paper-Shell Pecans

In Great Demand.

Albany, Ga., Feb. 13.—The culture of the budded paper-shell pecan is rapidly assuming prodigious proportions in this immediate section. Thousands of acres have been planted in various varieties of this splendid nut-bearing tree. Northern companies have been organized with ample capital to bring the immense groves to bearing.

In this county alone about two thousand acres were planted this winter, and the demand for the better varieties or the large paper-shell pecan has been so great that not enough trees could be supplied to meet it.

Most of the big groves in this section are planted in 5-acre tracts, which are sold to investors, the selling company contracting to care for the trees until they become of bearing age, which requires about six years after transplanting the trees from the nursery to the grove. In years to come the big pecan groves will present a handsome appearance.

The trees are planted with geometrical symmetry, and the groves are intersected at regular intervals by broad avenues, lined with magnolia and other ornamental trees.

There is no tree that grows that gives promise of large monetary returns than the improved paper-shell pecan, the demand for which is so great that it is never seen on sale in the stores, where the small wild varieties alone is sold.

The big paper-shell pecans go to the large manufacturers of fine confectioneries and bring often as high as \$1 a pound for the finer specimens.

Central of Georgia Excursions

To Washington, D. C.—Account Presidential Inauguration March 4, 1909. Tickets on sale February 28, March 1, 2 and 3, 1909. Final return limit March 10, 1909. Passengers must leave Washington not later than midnight of March 8, 1909.

Judge A. W. Stewart of the 48th was in town yesterday and gave us a call. The judge has recently moved back to the old home he left just fifty years ago.

Paper-Shell Pecans

In Great Demand.

Albany, Ga., Feb. 13.—The culture of the budded paper-shell pecan is rapidly assuming prodigious proportions in this immediate section. Thousands of acres have been planted in various varieties of this splendid nut-bearing tree. Northern companies have been organized with ample capital to bring the immense groves to bearing.

In this county alone about two thousand acres were planted this winter, and the demand for the better varieties or the large paper-shell pecan has been so great that not enough trees could be supplied to meet it.

Most of the big groves in this section are planted in 5-acre tracts, which are sold to investors, the selling company contracting to care for the trees until they become of bearing age, which requires about six years after transplanting the trees from the nursery to the grove. In years to come the big pecan groves will present a handsome appearance.

The trees are planted with geometrical symmetry, and the groves are intersected at regular intervals by broad avenues, lined with magnolia and other ornamental trees.

There is no tree that grows that gives promise of large monetary returns than the improved paper-shell pecan, the demand for which is so great that it is never seen on sale in the stores, where the small wild varieties alone is sold.

The big paper-shell pecans go to the large manufacturers of fine confectioneries and bring often as high as \$1 a pound for the finer specimens.

PETITION FOR AMENDMENT OF CHARTER

State of Georgia, Bulloch County.

To the Superior Court of said county: The petition of the Shearwood Lumber Company respectfully shows:

First, That it was incorporated under the laws of said State and its charter was granted by the Hon. E. D. Evans, Judge of the Superior Court of said county on the 13th day of January, 1903, and that its principal place of business was at Shearwood, in said county.

Second, That in and by its said charter its capital stock was fixed at \$20,000 divided into shares of \$100 each.

Third, That your petitioner desires the amount of its capital stock changed so it may have the privilege of increasing the same to \$50,000 or 500 shares of the par value of \$100 each to be issued and disposed of as may be determined from time to time by a majority in amount of the stock already issued at a meeting of the stockholders of said corporation called for that purpose.

Fourth, Your petitioner shows that these proceedings were duly authorized by a meeting of the stockholders of said corporation held on the 9th day of December, 1908, at which meeting all of the stock of said corporation was represented.

Wherefore your petitioner prays that its charter be amended in the manner and to the extent set forth in this petition.

Signed by the Shearwood Lumber Company, J. N. Shearwood, President.

Witness my hand and seal of said county, this 18th day of January, 1909.

Notary Public.

Referring to our notice in today's issue it will be seen that we have leased our Ice Plant to Mr. E. G. Enright. He is now actively engaged in getting everything in readiness for the approaching warm weather. It is his duty to give the people of this city a better service than we have ever had. The quality of our delivery and prices will be even more satisfactory. We bespeak for Mr. Enright, the fullest measure of support from all the citizens of Statesboro, it will be appreciated by David B. Morgan, President of Statesboro Ice Mfg. Co.

Latest Telephone Rules.

1. Neighbors will kindly note the number of this telephone and tell all their friends where it may be found.

2. This telephone is yours; we only pay the rent for it. "It is more blessed to give than to receive."

3. Please ring the door bell loudly upon calling and retiring, as our maid needs exercise.

4. Our meal hours are 7 a. m. noon and 6 p. m. Kindly arrange to disturb us at meal times.

5. If telephone is not in a suitable position we will have it altered.

6. Please scribble on the walls, as they need decorating anyway.

7. Callers will stand in line, and not wipe their feet, as it might spoil the door mat.

8. Long distance calls are our specialty. Please do not offer to settle.

9. Loud and long conversations desired at all times, especially at midnight.

10. Make all the noise you can, in order to keep the baby awake. He has no right to sleep anyway.

11. Please do not destroy the telephone directory, as it and the Bible are the only books we own.

12. Do not hesitate to ring us up at midnight about anything. We stay awake for that purpose.

13. Do not consider us for a moment if you wish to use the telephone. We will wait indefinitely.

14. The public telephone close by is only a bluff. Use this one always.

15. Our family is prohibited from using the telephone except between 6 and 7 a. m. on Sundays.

16. These rules apply to every one except you.

A Fine Calf.

In order to show what can be done in stock raising in this county we submit the following report of a calf which was raised, and butchered, at Brooklet.

Mr. James Bland the owner of the calf, sold him to Mr. C. B. Grimes who butchered him and shipped the beef North. The calf was 27 months old and netted 568 lbs. of fine beef.

Most cough cures are constipating, because they contain opiates, and you should be careful to take something that does not tend to constipate. You should take Kennedy's Laxative Cough Syrup. It not only allays inflammation and irritator of throat and lungs, but it drives out the cold from the system by a free yet gentle action of the bowels. Children like the pleasant taste that is so noderly like maple sugar Sold by W. H. Ellis & Co.

Kodol for Dyspepsia and Indigestion is a combination of the natural digestive juices with necessary acids, and it actually digests the food you eat—no matter what kind of food it may be. It does the ordinary work of the stomach, so that by taking a little Kodol every now and then you cannot possibly have indigestion or any form of stomach trouble. Sold by W. H. Ellis & Co.

Attention Teachers.

The teachers of the county are hereby notified to assemble in the Auditorium of the Statesboro Institute at eleven o'clock Saturday, February 20th, 1909.

Quarterly Conference.

The first quarterly conference of the Brooklet Circuit will convene at New Hope, fourth Saturday and Sunday, Feb. 27 and 28, preaching on both days by the presiding elder, Rev. Jas. A. Lovett. Dinner at the church on Saturday. As it is more than five years since there has been a session at this charge, it is earnestly desired that all the official board be present and with full reports. The public is cordially invited to attend the conference. W. A. Brooks, P. O.

Hon. L. H. Lowell Mayor of the town of Metter was in the city yesterday.

TAX NOTICE

To the Public

Owing to the fact that the law requires that the tax fi fas be cancelled when paid. I cannot carry the books around with me. My office will be open until March 1st, for the payment of the taxes for 1908 now in execution. The law requires that interest be charged on these fi fas and unless they are paid by March the 1st I will be compelled to make levy and advertise the same. I trust that the people will take advantage of the time between now and March the 1st and come and pay these tax fi fas and save extra cost.

J. Z. KENDRICK,
Sheriff

Bennett-Lanier.

On last Sunday at the home of the bride's near Harville Mr. Lemuel Lanier and Miss Mary Bennett were united in marriage. Elder H. B. Wilkinson officiated. A large crowd of admiring friends were present to congratulate the blushing young couple, and encourage the beginning of a voyage over the matrimonial sea. Mr. and Mrs. Lanier were in Statesboro yesterday and received the congratulations of their many friends here.

Frowley-Jenkins.

On yesterday morning at the office of Judge E. D. Holland in Statesboro Mr. G. F. Jenkins and Miss Mollie Frowley were married. Judge Holland officiating. The bridal couple left for their home in Screven county on the afternoon train.

In sickness if, a certain hidden nerve goes wrong, then the organ that these nerves control will also surely fail. It may be a Stomach nerve, or it may have given strength and support to the Heart or Kidneys. It was Dr. Shoop that first pointed to this vital truth. Dr. Shoop's Restorative was not made to dose the Stomach nor to temperately stimulate the Heart or Kidneys. That old-fashioned method is all wrong. Dr. Shoop's Restorative goes directly to these failing inside nerves. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these failing organs. And it is indeed easy to prove. A simple five or ten day test will surely tell. Try it once, and see! Sold by W. H. Ellis.

Will Have Lots of Ice.

A cool proposition awaits the citizens of not only Statesboro but of all the country surrounding hereabouts.

Mr. A. B. Green manager of Green Ice Co., informs us that it is his intention to carry the ice delivery business into the rural districts proper. His mammoth plant when complete will produce such an enormous amount of ice that there will be no reason for any citizen to become over heat even in the warm period of June, July and August, wagons will be sent out in every direction covering the territory ten or twelve miles in each direction. The farmers be encouraged to put in ice boxes which can be constructed by any ordinary carpenter and the delivery will be made at certain stated intervals during the week.

Mr. Green states that ice will be left at every house for a while whether folks want to buy or not he will present with the compliments of his company a nice block of freezing ice at every mans door steps on the various routes to be used without cost of course, this will not last always but will be practiced awhile. He hopes this will induce folks to put in ice boxes and prepare to combat the summers heat.

There is no reason why a man living on a farm should not avail himself of the luxuries of life as well as the folks in town. Mr. Green states that owing to the fact that Bulloch has such a high class of rural population he will be enabled to put this plan in force, our farmers nearly all own their homes and those who do not are well to do, and he believes the experiment worth the trial.

Operated On.

Herschel Strickland a young man living Hubert was brought in on Friday afternoon stricken with appendicitis. He was taken to the Statesboro Sanitarium where he was operated on yesterday afternoon. Drs. Edwards, Floyd and McEachern performed the operation. At last accounts the patient was doing well.

Kodol For Indigestion.

Relieves sour stomach, palpitation of the heart. Digests what you eat.

Finch Hearing Postponed

The evidence in the application for a new trial of W. S. and D. C. Finch was submitted to Judge Brannen on yesterday. The evidence based on a number of affidavits set up to claim that Judge Brannen was third cousin to the Finch boys as printed in Tuesdays News.

A postponement of about ten days was ordered by the judge, after which the attorneys for both the state and the accused will appear before Judge Brannen and submit the argument.

In the meantime it is safe to say all the old family records in the county will be secured for evidence pro and con.

A large number of the friends of the Finches were in town yesterday displaying considerable interest in the matter.

Cotton Oil Mills

Atlanta, Ga.—President W. H. McKenzie, of Montezuma, Ga., Vice-president R. S. Patillo, of Macon, and Secretary Fielding Wallace, of Augusta, of the Cotton Seed Crushers' Association of Georgia, held an informal meeting with the other members of this association in Atlanta this week to discuss matters of interest to be brought by the Georgia association before the interstate meeting which is to be held in a short while.

According to Secretary Wallace, the association now has a membership of over 200, and all but six of the cotton oil mills in the state have joined and are co-operating in the work of having the by-products of cotton seed used more extensively at home than to ship them abroad in such great quantities.

This association is organizing for the purpose of promoting interest in the use of cotton seed products, and is waging a splendid fight to have the Georgia planters use the oil that come from cotton seed as a shortening, as a table oil and for cooking; have them feed the cotton seed meal to their cattle and to fertilize their fields with the commercial fertilizers, of which cotton seed meal is a principal ingredient.

"What Georgia needs now more than anything else," said President McKenzie, "is more cattle. The scarcity of this important article of food in this state is giving the producers of western meat a great advantage over us. With the cheapest and best cattle feed in the world, cotton seed meal, properly handled, Georgia and other cotton producing states have a great opportunity to become cattle raising centers of wonderful wealth. The cotton oil mills are planning to be pioneers in the new movement to again raise cattle in large quantities in this state by having herds, raising on this feed, at each mill in Georgia. We know what it will do for cattle and want to give an ocular demonstration to all."

The executive committee will meet soon to name the date and place for the annual meeting of the association.
