## SWEPT OVER NIAGARA

This terrible calamity often happens because a careless boatman ignores the river's warnings—growing ripples and faster current—Nature's warnings are kind. That dull pain or ache in the back warns you the kidneys need attention if you would escape fatal maladies—dropsy, Diabetes or Bright's disease. Take Electric Bitters at once and see Bachache's and all your best feelings return. After long suffering from week kidneys and lame back, one \$1.00 bottle wholly cured me," writes J. R. Blankenship, of Belk Tenn. Only 50c at W. H. Ellis Co.

Most cough cures and cold cures are containing especially those that contain opium. Kennedy's Laxative Cough Syrup is free from all opiates and it cures the cold by gently moving the bowels and at the same time it soothes irritation of the throat and lungs and in that way stops the cough. It is especially recommended for children as it tastes nearly as good as maple sugar. We sell and recommend it. W. H. Ellis Co.

## "Hot House" Education.

Almost continually there are demands in one part of the country or another for the addition of new studies to the curriculums of public schools. Practically every social "reformer" who makes a bid of a certain idea gathers something of a following and then goes before the school board or legislature with the demand that the fad be taught in the public schools. We have all seen so much of this sort of thing that the assertion needs not to be argued. Intelligent school boards are forever fighting off the faddists, and intelligent legislatures have to forever defend themselves against the attacks of the faddists. But, unfortunately for the taxpayers, the children and the school boards, the faddists are not infrequently able to bring so much pressure to bear upon the legislatures that their cranks and more or less useless ideas are fastened upon the curriculums, to the distress and disadvantage of the children, to the disgust and annoyance of the intelligent school teachers and school authorities, and to the largely increased expense of the taxpayers.

The tendency seems to be to make the children work harder and understand less; to make the school systems fuller of endeavors and emptier of results, more expensive and less instructive. American Medicine, a leading scientific journal, has taken up the cudgels in favor of "saner systems in the American public schools. It objects to the treatment of children as hothouse plants, to be forced by artificial processes into an unnatural maturity. "It is almost the invariable rule," says American Medicine, "that subjects are taught several years before the brain is sufficiently developed to understand them. This is the most serious defect of our public school system, which, in this respect, really wastes the time of the pupil and the taxpayers." Little tots are crammed with fractions and equations, when their brains are barely able to grasp the physical details of their surroundings. Children are required to take up certain of the sciences before they have learned to spell the common two syllable and three syllable words. No wonder there are so many absurd replies on the examination papers! We noted the other day a report made by the health officer of the city of New York, to the effect that of a very large number of public school children in that city about 70 per cent. of them had been found physically deficient upon examination. This, he said, was due to the overtaxing of the children in the school rooms. They were made to study beyond their strength of both mind and body. American Medicine says there is urgent need for less inflation and more substance in the public school systems; for the grading of studies to the mental development of the pupils; for the elimination of much of the curriculums that is not only useless, but positively harmful to young children, who cannot possibly grasp the subjects. The matter is one of widest and deepest public interest.—Savannah News.

## \$100.00 REWARD

More malicious mischief continuing going on with my stock to a lawful extent. March 27th the last dog we had was killed and on March 7th a very fine sow was killed leaving seven young pigs. The sow that I paid \$10.00 cash for and also on March 21st I lost a fine Essex sow and nine pigs, this was a fine two year old registered sow that I had just bought also and my wire fence cut in two places. I will pay the above reward to the parties with proof to convict them of my stock and fence. This March 26th, 1909.

## Fate of Near Beer Today

Cols. R. Lee Moore and H. B. Strange will appear before Judge Rawlings at Sandersville today to argue the matter of the application of Mr. J. B. Groover asking for a permanent injunction restraining the officers of the City from interfering with him in the prosecution of his business as a dealer in near beer in the city of Statesboro.

This is the same cause on which a temporary injunction was obtained for Mr. Groover by Col. Cory some weeks ago. It was set for a hearing on the 22nd of April but for some reason the hearing has been postponed.

All is not love and peace between the two dealers in the beverage here. Messrs. Groover and Richardson are not pulling in the same harness it seems. Mr. Richardson has set up in the livery stable of Mr. O. C. Parker and has a more secluded place, where folks can sorter get around and take a drink while his neighbor remains in ignorance, in fact there is no door leading out to the side walk along and look in just at a critical moment, or the preacher or any one else get a line on the brethren. Mr. Richardson has cut the price, selling "White Top" at ten cents a bottle, for this reason he was summoned down to the Brewery this week so we are informed where he was made to walk the gang plank, the Brewery and other dealers are disposed to discourage any bargain counters in the beer business, hence all this brings about a certain amount of friction.

## Tax Receiver's Appointments.

I will be at the following named places on the dates and at the hours given below for the purpose of receiving tax returns:
