## Anderson Calls Broughton a Liar.

(Continued from page one.)  
ing the opposition? It is a man by the name of Anderson, from the great city of Savannah. He is the one man who got rich on prohibition. Mr. Anderson bought up the stock of the Savannah breweries for little or nothing. He put the breweries to manufacturing near beer. The stock went up, and out of that one transaction he became a very rich man. He is working for his personal interest and not for those of the people of Georgia."

Following Mr. Anderson, Mr. Slade, of Muscogee, arose to a question of personal privilege, and stated that he spoke as a Missionary Baptist, but one who was unwilling to be identified with Dr. Broughton or his attitude.

He referred to Dr. Broughton as "this long-haired itinerant preacher, who has done more harm to the cause of temperance than all its enemies put together."

"Gentlemen, I arise for the purpose of speaking for the Baptists," he said. "The true Baptist is a man who preaches temperance and not prohibition."

Dr. Broughton this afternoon gave out the following statement relative to Mr. Anderson's remarks:

"I am glad, at least, if I have done nothing else than force Mr. Anderson to acknowledge in the House of Representatives where is posing as the champion against legislation for the prevention of the near beer evil, that he is a stockholder in a brewery, one at least, in Savannah, that is manufacturing more near beer than any other in the state."

"It is immaterial so far as the point I made against his right to sit in judgment upon such legislation, whether he has bought stock or not. He acknowledges he owns \$1,000 worth of stock in a Savannah brewery; how much more he represents in one way or another is immaterial, nor does it make any difference."

"It is a fact that he owns the stock, and that lines him up with the whiskey interests of this state, and his fellow legislators, by his own confession of the same, now know exactly where to place him, and when he opens his mouth to defend the near beer interest they know how much personal interest is at stake."

### Farmers Union Picnic.

The members of Pretoria, Brooklet, Callie, Oak Grove, Snapp and Statesboro locals F. E. and C. U. of A. will unite in a rally at the road crossing near Lowel Mill Creek church on Wednesday, August 18. State President J. L. Lee has signified his intention to be present and address the occasion, besides there will be number of other speakers. Friends of the union are invited to participate, and all are requested to bring baskets.

### SEEK MOTHER'S GROW YOUNG.

"It would be hard to overstate the wonderful change in my mother since she began to use Electric Bitters," writes Mrs. W. L. Gipsbach of Danforth, Me. "Although past 70 she seems really to be growing young again. She suffered untold misery from dyspepsia for twenty years. At last she could neither eat, drink nor sleep. Doctors gave her up and all remedies failed until Electric Bitters worked such wonders for her health. They invigorated all vital organs, cured liver and kidney troubles, induced sleep, imparted strength and appetite. Only 60c at W. H. Ellis Co's."

### Land For Sale.

1500 acres of the best rolling pebble land in Appling county, only four miles from the railroad. This land is excellent for growing Sea Island cotton and all other crops, and it has a great deal of sawmill and crostie timber on it. We would prefer selling in a body to a number of farmers who will divide it up and clear it for farming after using the timber, and will sell for a part cash and allow good time on the balance for interest. Write to the owners if you mean business, as we have a great many other tracts of land in Appling and Wayne counties that might be just to suit you.

## \$50,000 SLUMP IS SHOWN IN TAXES.

15,000 ACRES NOT RETURNED  
Heaviest Loss Is Shown In The Court House District.

Tax Receiver L. O. Akins has completed the task of footing up the tax returns for the year 1909 and a slump of \$50,000 in round numbers is shown. The exact figures are: For the year 1908, \$5,164,750.00, and for the year 1909 \$5,114,320.00, showing a decrease of \$50,430.00. Of this amount the loss among the white property owners is \$39,180.00 and the colored property owners show a shortage of \$11,250.00.

Nearly all of the districts fell behind more or less, the biggest slump being in the 120th. The Metter district shows a slump of \$17,000. The Laston and one of two others showed slight increase. The District at Adabelle showed a decrease, but this is probably due to the fact that the Adabelle Trading Company was given in this district and Mr. J. G. Williams, one of the largest property owners in the county, also made his returns in this district. The Adabelle Trading Company and Mr. Williams have always given in their holdings at Adabelle, and this is likely due to the slump in that district.

While the books really show a decrease of \$50,000, there is as matter of fact, a larger decrease than this. It is shown that there are defaulters to the amount of \$35,000, and under the law these taxes are doubled, and adding this extra \$35,000 to the grand total, this would make a shortage in round numbers of \$85,000.

Mr. Akins states that there are 15,000 acres of land lost. Whether or not the owners failed to turn in that amount or it has changed hands is not known, but he is that many acres short.

## Heavy Hailstorm Does

Damage to Corn Crop.

The hail storm which visited a portion of this county and the edge of Screven county last Tuesday is said to have been the heaviest ever seen in this section. While this county suffered some loss it is said the hail did a great deal more damage in Screven county in the neighborhood of Dover than it did on this side of the river. It is said to have fallen in stones as large as a turkey egg at Dover. The storm was at its height just as the up train reached Dover, and parties coming to Statesboro were drenched to the skin, having to change cars in the midst of the storm, and before they could run from one train to the other every thread on them was wet.

Mr. damage is said to have been done in both Bulloch and Screven counties to the corn crop. In many fields the stalks were blown flat upon the ground, many of the stalks were broken off below the ground. In many fields the fodder was split into threads by the hail.

Very little damage is said to have been done to the cotton crop. Foley's Honey and Tar not only helps chronic coughs that weaken the constitution and develop into consumption, but heals and strengthens the lungs. It affords comfort and relief in the worst cases of chronic bronchitis, asthma, hay fever and lung trouble. For sale by W. H. Ellis & Co.

## BLACK ROOT DISEASE IN GEORGIA COTTON FIELDS.

State Entomologist Says Loss to Planters Will Be Over Million Dollars.

Atlanta, Ga., July 28.—"From the reports coming in from various sections of the state in regard to the increased damage done to the growing cotton crop by the black root disease, it now appears that this will cause a loss to the Georgia farmer of over a million dollars this year."

This startling statement was made by State Entomologist E. L. Worsham in discussing the ravages of the black root which is proving so disastrous to the cotton crop throughout the state of Georgia. He is making a strong fight for the appropriation of \$10,000 asked for in the bill by Representative Henderson, of Irwin, one of the largest cotton growers in the south.

Prof. Worsham says that black root is worse than the boll weevil, in that when a stalk of cotton is attacked by black root the whole stalk dies, thereby losing all the product in cotton, while the boll weevil gets only a certain per cent. of the bolls.

With the appropriation asked for Prof. Worsham believes that a resist variety of cotton may be secured which will ward off this dread disease, and the department will be able to put more experts in the field to give the farmers first hand assistance.

Any injury to the cotton crop deals the planters a double blow now, for not only does he lose in the price of the staple, but he also loses in the products of the seed, which have come to be such a valuable part of the cotton crop.

Just now the cotton oil mills of the state are beginning their annual crush, turning out hundreds of gallons of cotton seed oil, which is finding ready sale at home and abroad, and also thousands of tons of cotton seed meal, which is being consumed by the cattle of the state, for it is readily acknowledged as the first and foremost cattle feed on the market.

The passage of this bill, which means so much to the Georgia farmer, is being awaited with interest.

## Woman "Moonshiner" Arrested Near Sparta.

Macon, Ga., July 28.—Surrounded by a crude outfit, with beer in the tubs and the ripple of a little stream trickling among the slake stands, near the prosperous town of Sparta, in Hancock county, United States Deputy Marshal Frank Riley today arrested Pearl Gordon, a negro, on a charge of running a blockade distillery. In all his long experience in the service this is the first woman the officer ever captured in a "moonshine" plant.

The outfit was in operation and the indications were that the woman had been conducting a very extensive business.

The woman gave bond for her appearance before Commissioner Irwin.

## SENATE VOTES FOR BIENNIAL SESSIONS OF SIXTY DAYS DURATION.

Slater Bill Wins Out by Vote of Thirty-Five to Eleven.

Atlanta, July 28.—Biennial sessions of the general assembly of sixty days' duration now depend upon the house of representatives, the senate having passed the bill today by a vote of 30 to 11.

The measure received just the requisite number of votes—two-thirds of all the senators—required to enact a constitutional amendment for submission to the people. President Slater, however, was known to have been for the measure and would have voted for it had his vote been needed.

On the biennial sessions bill, by Senator Slater, the vote was taken after a debate lasting all the morning.

When the bill was taken up Senator Jackson resumed his argument in opposition to it. If the legislature met only once in two years, he said, there would be practically nothing else but committee legislation; there would be no time for proper consideration of legislation on the floor of the house or senate. The cost of the general assembly, he declared, was insignificant with the good to be accomplished.

Senator Calhoun wanted to know if there was not a demand for biennial sessions, in the last democratic platform. There was, Senator Jackson replied, and it was the most dangerous plank in it.

"Ought not a man who violates the party platform be dismissed from office?" asked Senator Day amid laughter.

Senator Jackson said he would discuss that question later on. Some members of the senate, he said, were trying to make a partisan issue of biennial sessions.

The debate in favor of the bill was closed by Senators Womble, Griffith and Slater. They all repelled the suggestion that the people are not competent or equal to the task of expressing their will on this matter at the polls.

## Farmers' Union Visitor Was Seriously Injured.

Mr. T. H. Moore, of Concord, a delegate to the convention of the Farmers' Union, received such injuries in being thrown from an East Macon car on Thursday afternoon that he had to be sent to his home, after first being given medical attention. He was preparing to alight when, it is said, the car started and he hit the ground heavily. His head was cut, his right hand badly mashed, and his leg and body severely bruised. In falling he struck a bicycle then being ridden by an unknown small boy.—Telegraph.

## Democratic Party in Congress Meets.

Washington, July 28.—The Democratic congressional committee will soon begin its campaign work. Its effort will be to win a majority in the next congressional election. The executive committee has just been announced by Chairman Lloyd, as follows: Rainey, Illinois; Finley, South Carolina; Johnson, Kentucky; Hitchcock, Nebraska, and Palmer, Pennsylvania.

## 3,000 SPANIARDS KILLED BY MOORS IN BATTLE.

Annihilation of Spanish Un- less Reinforced.

Madrid, July 28.—The Moors are attacking Alhucemas, 60 miles west of Melilla. Their losses at Melilla yesterday were severe and they were obliged to abandon their positions on the Spanish right flank behind Mt. Gurguru. One thousand and nearly 2,000 killed in Tuesday's battle at Melilla.

Unless reinforcements reach the Spanish before the Moors return, there can be but one result of the engagement—the annihilation of the Spanish.

Short of ammunition, discouraged, disorganized and with their regiments reduced to skeleton proportions, it is doubtful today if Marina's men would even face another attack.

### Joseph M. Brown Sitting Steady in the Boat.

The prohibition question had no place in the 1908 state campaign in Georgia. The prohibitionists forced it in. Rather the Hoke Smith campaign forced it in, by fighting the prohibitionists into exacting a pledge from Joseph M. Brown that he would not sign any measure amendatory of the prohibition bill. For the Hoke Smith partisans began charging that the "liquor interests" were behind the Joe Brown candidacy. The then governor rushed into print with his pledges and the prohibitionists sought to remove the liquor question from the campaign by "pledging" both the candidates. After the pledges were given, however, leading prohibitionists were unfair to Mr. Brown in the canvass.

Now, it is alleged, that the prohibitionists wish to tighten up the prohibition law and are before the legislature with a measure having that end in view. Some contend that the pending measure is not a prohibition faction bill, but a Hoke Smith faction bill, introduced for the purpose of endeavoring to embarrass Governor Brown. Leading prohibitionists are known to declare that the prohibitionists have no right, in view of the pledge exacted from Governor Brown, to send the proposed bill to him for signature. There is the belief in many quarters that the Hooper Alexander measure is part and parcel of the "hugging at Joe Brown" program.

Meanwhile Gov. Brown is not perturbed. He has taken occasion to show that it is absolutely untrue that he has said to any person that he would or would not, veto the Alexander measure if it reaches him. As a matter of fact he has discussed the pending bill with no person and will decline to do so.

Meanwhile it appears that an extra session is to be forced on the state and that it is to be "political" all the time, "business" none of it, in the general assembly—the result of factional antics of the Hoke Smith faction.

It is quite apparent that this kind of campaigning is not to disturb Governor Brown. He is in the executive office for business purposes. He has been, and is, conducting himself and his high office in most dignified manner. His counsel to the assembly in his message to that body was a business like statement. He is holding himself aloof from the politics of it all, and in position to assist in conducting the business affairs of Georgia, and is not to be involved in the factional program that is being attempted.—Augusta Chronicle.

Be of good cheer. The term "grass widow" is not of slang origin. It appears in the marriage record of Halstead, Essex, England, as early as 1654. It is said to be a corruption of "grace widow" and dates from the days when divorces were granted only by the authority of the church. The woman who was not empowered to separate from her husband was commonly called a "grace widow," and from this the expression gradually gained its present meaning and spelling.

To show the absolute harmlessness of modern aerial navigation it is only necessary to read the newspaper account of the man who fell a thousand feet from a flying machine, lit in the English channel, and after hoisting his feet to keep them out of the water, calmly lighted a cigarette and calmly waited to be picked up.

### Cattle Tick in Georgia.

A startling statement was made recently by R. F. Wright, assistant commissioner of agriculture, that the south is losing each year \$25,000,000 on account of the cattle tick, and of this enormous loss Georgia suffers to the amount of about one million dollars.

The appropriation committee was considering a bill to appropriate \$3,000 annually with which to eradicate the cattle tick and other destructive diseases of animals, when Mr. Wright appeared before it with the statement.

He took occasion to particularly emphasize the fact that the animal industry was one of the backbone of our country, and that it is being seriously impaired by this terrible little pest, which is meaning as much to stock raising as the boll weevil is to the cotton crop. The method of eradication is to keep all the cattle separate and graze them thoroughly with crude cotton seed oil.

Cattle raising is assuming large proportions in Georgia now, since cotton seed meal has grown into such prominence as a food for cows, and with the extermination of the tick in Georgia, it is believed that this state will become one of the foremost cattle raising states in the union.

### 1,500,000 BALES SHORT OF LAST YEAR, SAYS JORDAN.

#### Hasn't Too Much Faith in Government Reports.

Washington, July 20.—Harvie Jordan, of Atlanta, who is here on business for the association, said today that the cotton crop is in a critical condition.

"From my observation," said Mr. Jordan, "and the best information I have, the crop this year will be 1,500,000 bales short of last year. Conditions in the cotton area are unusual. West of the Mississippi there has not been enough moisture, while east of the Mississippi there has been a deluge of rain."

"I must say that I have not any too much faith in the government reports on the cotton crop. For the last fifteen years the department of agriculture has been obliged to change its estimates as to the acreage; in 1905 it had to make a change twice. This year it was necessary to again apparently make a change in the acreage report."

No matter how long you have suffered, Foley's Kidney Remedy will help you. Mrs. S. L. Bowen of Wayne, W. Va., writes: "I was a sufferer from kidney disease, so that at times I could not get out of bed, and when I did I could not stand straight. I took Foley's Kidney Remedy. One dollar bottle and part of the second cured me entirely. It will cure you, W. H. Ellis & Co."

Wow! Here comes a fellow of the Royal Geographic Society calling Bwana Tumbo a "dynamic geographer," sounds like fighting talk.—Washington Herald.

For indigestion and all stomach trouble take Foley's Orange Laxative as it stimulates the stomach and liver regulates the bowels and will positively cure habitual constipation. W. H. Ellis & Co.

The Crown Prince of Japan is to visit the Alaska Yukon-Pacific Exposition, but it is probably not so that Mr. R. Pearson Hobson will deliver the address of welcome to him.—Wilmington Dispatch.

### Dogs and Near Beer

#### Taxes Cause Debate.

Atlanta, July 28.—The near beer fund how to the credit of the penitentiary, where it is not needed is still disturbing the House. Mr. Anderson of Chatham offered a resolution to make the bill to turn this money into the general fund a special and continuing order after the disposition of the appropriation bill, which will probably be adopted.

After a spirited debate, the tax on pawnbrokers, fixed at \$300 in the committee bill, was reduced to \$200, the same figure as appeared in last year's tax bill.

Mr. Garlington of Richmond wanted to know if it was intended to make the tax prohibitive. Mr. Alexander of DeKalb thought the tax could not be made too high. He charged that pawnbrokers were now violating the law restricting them to charging not more than 5 per cent, a month for money advanced.

The merits of dogs, good and bad, were threshed out in the House under that section of the tax act which imposes a tax of \$1 per annum on all canines. The committee amendment provides that the state tax shall not interfere with any municipal tax on dogs. It authorizes execution or sale in case of the non-payment of the tax. A tax of \$5 was favored by Simmons of Bulloch, who declared "himself the inveterate enemy of stray, worthless and destructive dogs."

In advocating the tax, Mr. Brown of Murray quoted some enlightening figures on the cost of treating hydrophobia by the state. He said \$10,000 was being appropriated for this purpose, made necessary mainly by stray dogs. As showing the splendid success of the Pasteur treatment in the hands of the state Board of Health, he said only one death had occurred among the several hundred persons so treated.

Mr. Barrett of Stephens reminded the members of the House that no man who had ever voted for a dog law had been re-elected as a member of the House.

Mr. Lewis of Hancock said: "If that is true, don't you think every member of this body ought to vote for the law?"

The hour of adjournment was reached before a vote could be taken.

Spartanburg, S. C., July 22.—During the Revolutionary war, this section of the South was the scene of many conflicts between the American and British soldiery and between the patriots and the Tories. From Charleston to the mountains many hard fought battles took place, and at Camden, Eutaw Springs, Guilford Court House, Kings Mountain, The Cowpens and elsewhere the sons of liberty illustrated their bravery and patriotism.

The English and their Tory allies, led by Cornwallis and Tarleton, undertook to subjugate the people of the little colony, but it ended in failure. Near this city the battle of The Cowpens was fought. There, on the 7th day of January, 1781, the Americans, under command of General Daniel Morgan, met the noted British cavalry leader, Col. Tarleton, and won a victory that was a turning point in the war, and resulted in the enemy giving up the fight in this section. One hundred years later a monument was erected on the public square in this city to commemorate the heroism of General Morgan, Col. Wm. Washington, Howard and Pickens, and the private soldiers who shed lustre on the American arms and won a great victory over their British adversaries. The battle flag carried by the regiment commanded by Col. Washington is now in the keeping of the Washington Light Infantry of this place, which glorious standard at Eutaw shone so bright.

And, as a dazzling meteor, swept through The Cowpens' deadly fight.

A grateful people have not forgotten the courage and sacrifice of "the American soldiers who, on the field of The Cowpens on January 17th, 1781, fought valiantly for the right of self-government and civil liberty. We enjoy the result of their toil and sacrifice; let us emulate their fortitude and virtue."

Not many miles distant from here at King Mountain another decisive battle was fought and resulted in another victory for the American patriots. Here gathered the soldiers from Georgia, Tennessee and North Carolina, and with those from South Carolina met the British under Ferguson and put them to flight.

Our boys should read the history of the Revolution, and find out how our forefathers had to fight for seven years to make these United States "the land of the free and the home of the brave."

Now, South Carolina is the second largest cotton manufacturing state in the union. In this section the towns and country are filled with cotton factories. There is a city in every county and many large towns. The farmers are prosperous and have good crops.

## The Heart of Georgia.

A large number of people ask the question, "How is it that some institutions advance so much more rapidly than others?"

If you will study the course of the blood through the human system it is not hard to answer. We are all aware that the heart is drained by one method and supplied by another. Figure then, to yourself, the alien insurance companies of the state as the veins feeding the heart and impregnating every portion of the system with their poisonous gases. After reaching the heart this blood is thrown into the lungs, where it is re-oxygenized; or, in other words, purified. Thence it returns to the heart to be carried by the Empire Life with all its health-giving properties and laden with the aroma of life throughout the entire arterial system of the state, adding strength and vigor to our commonwealth, through the purity of the Empire State of the South and cementing the affection of our people for home investments.

It is understood that the city will extend the electric light line in East Statesboro in a few days. At present the last arc light is at the corner of Elder Patterson's residence and another light will be placed further down the street. Perhaps at the corner where the road turns toward the cemetery. This will be a great improvement to that section of the city, and one much needed.

CURED HAY FEVER AND SUMMER COLIC. A. S. Nussbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold, so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." W. H. Ellis & Co.

The west is drenched and the east is parched. The South is enjoying the happy medium and is growing cotton to beat the band.—Birmingham Age-Herald.

## Strikers Fight With Deputies.

Pittsburgh, July 26.—A large crowd of strike sympathizers attacked the print shop of the Pressed Steel Car company at McKees Rocks this morning with bricks and stones and broke almost all the windows in the shops. While this was going on another band was stopping street cars and making a rigid examination to see that no strike-breakers were being brought in. In addition a party is said to have landed in a skiff near the pumping station of the plant and when met by a squad of deputy sheriffs a battle followed. One of the invaders is said to have been shot. All signs of business stopped when the state constabulary began to parade the streets. The trouble started over the repeated rumors that the company would make an effort to smuggle strike-breakers into the plant this morning.

## LIFE 100,000 YEARS AGO.

Scientists have discovered in a cave in Switzerland bones of men who lived 100,000 years ago, when life was in constant danger from wild beasts. Today the danger, as shown by A. W. ## SENATE VOTES TO OUST M'LENDON AND HOUSE MAY FOLLOW SUIT.

By Vote of 23 to 18 Senate Decides to Dismiss Railroad Commissioner. Atlanta, 30.—By a vote of 23 to 18, the Georgia senate today voted to remove from office Chairman S. G. McLendon of the railroad commission. The Burwell removal resolution received just a constitutional majority, 23 votes being required for its passage. While in voting upon the question of removal the senate combined both of the charges preferred in the suspension message of former Gov. Smith and the evidence relating to the chairman's transactions in bonds of the Athens Street Railway Company, it was clearly apparent that had it not been for the bond deal the removal resolution would have failed to receive a majority vote. Several senators in explaining their votes based their action principally upon the bond transactions and Senator Calloway of the Twenty-ninth, stated that he voted for removal on account of the bond transaction only, considering that the charges of former Gov. Smith were in no sense sustained. Partisan lines were not closely drawn in the vote. At least two senators who supported Gov. Brown in the last campaign voted for the removal of the chairman of the railroad commission because of the bond transactions, while two others who were strong supporters of former Gov. Smith, Senators Langley and Matthews, were Chairman McLendon's most ardent champions on the floor of the senate. Outside of these and possibly one or two other instances, however, the Smith men voted against McLendon and the Brown men voted for his retention in office. The fate of Mr. McLendon now depends on the house of representatives, which will take up the question by a special order immediately following its disposition of the general appropriations bill next week. According to reports at the capital the house stands anywhere from 2 to 4 to 1 against the suspended commissioner, and the general belief is expressed that it will take action similar to that of the senate. This would appear to mean that McLendon has no hope of retention of his office so far as the general assembly is concerned, and that if he follows the matter any further it must be in the courts.

## HEAVY TAXES ON NEAR BEER.

For the Manufacturer Tax is \$1,000, for Retailers \$500. Atlanta, July 30.—The Georgia House, after spending practically all of today on the new prohibition bill of Representative Hooper Alexander of DeKalb offered as a substitute for section 7 of the general tax act, finally adopted it by a vote of 86 to 78. The Ways and Means Committee has moved to strike out all of section 7 from the bill and to deal with near beer in a separate bill as was done last year in extra session. The effect of the adoption of such a motion would be to kill the Alexander prohibition amendment but to bring up the fight again when the special bill comes before the House. The Alexander amendment adopted today puts a tax of \$1,000 on all manufacturers and wholesale dealers in near beer and \$500 on all retailers. It covered seven typewritten pages, its provisions being as follows: A license tax shall be paid quarterly in advance by every manufacturer, wholesaler, warehouseman and dealer in near beer and other imitation liquors. For manufacturers and warehousemen the tax is made \$250 for each quarter. On retail dealers the license tax is made \$125 for each quarter. Application to take out a license and pay this tax must be made in writing to the ordinary of the court where the business is to be carried on and shall state which of three classes of business the applicant desires to engage in. The application must be signed, sworn and subscribed to by the applicant. Furthermore, he is required to give bond in the sum of \$5,000 that he will not violate the terms of the prohibition law of Aug. 6, 1907. Applicant shall state that he has not in the preceding quarter violated the prohibition law nor sold any beverage prohibited by the law. He shall further agree that his place may be visited and inspected at any time by the sheriff or his deputy, with or without an order from the judge of the Superior Court, and that samples of the beverages sold may be taken for inspection and analysis to see that they are not prohibited beverages. Refusal to permit this will work a revocation of the license. The Ordinary is authorized to refuse to grant any license, and it is provided that he shall in no case grant a license unless the same is consented to in writing by all the landowners adjoining the place for which the license is sought, and until notice has been published for two weeks in the newspaper in which the sheriff sales appear. In case of the revocation of any license, no money shall be refunded. The fee of the Ordinary for issuing licenses is fixed at \$2.50. "The test of whether or not a beverage is made in imitation of beer or liquor shall not depend upon the quantity of alcohol it contains or whether or not it is intoxicating. If it is similar in composition, taste or appearance to liquor it shall be held to be an imitation, keeping in view the prohibition law. Every container of such liquor must have stamped upon it the name of the manufacturer and a correct chemical analysis of its contents. Violation of this provision is

## CLINO ARRESTED IN W. VIRGINIA.

ELOPED FROM GAINESVILLE, FLA. Married Prominent Young Lady There—More Than One Wife. Gainesville, Fla., July 29.—News has reached this city to the effect that Dr. A. E. Clino, the veterinary surgeon who came to this city last fall and cut such a swell for a short while and left for parts unknown, has been arrested and placed in jail in a West Virginia town. Following Clino's departure it was learned that he had been in trouble any number of times and that he had been married twice, but his pretty wife, whom he married here, followed him and nothing has been heard from them until the following account, which is reproduced from the Asheville, (N. C.) Citizen of July 26: "Wadesboro, July 25.—The notorious Dr. A. E. Clino, who kept jobs lively in these parts a good part of last year, has again been heard from. A few days ago he was recognized at Hinton, W. Va., by Miss Emma Rose of this place, who has charge of the Western Union telegraph office at that place. Clino at first denied his identity, but later owned up and begged Miss Rose not to expose him. A short time after being recognized by Miss Rose, Clino was arrested on a charge of bigamy and is now in jail at Hinton. It is not known how many living wives he has, but it is probable that the number is not less than half a dozen."

## Will Issue Special Edition.

The Statesboro News will put out a Special Agricultural School Edition about the 15th. It will cover all the twelve counties in the First Congressional District, will carry the good features of the School showing to the public the advantages of sending their boys and girls to school here, it will be illustrated with cuts of the school and different features characterizing the work. The City Schools and the town generally will be given a boost, as will the county. A limited amount of advertising space will be sold in this edition, among the business men of the town and county.

## Notice.

## CURED HAY FEVER AND SUMMER COLIC.

A. S. NASHAWAT, Hatesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I met upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." W. H. Ellis & Co.

## Tennessee is reported very hot and very, very dry.

## Cotton is Opening Up.

The cotton bolls are beginning to crack and the arrival of the first bale is now awaited with keen interest. In some sections of the county the cotton is opening rapidly and picking will begin during the week. In fact, some of the farmers would be picking now if it was not for the fact that their fodder is holding their attention at this time.

When the Stomach, Heart or Kidney nerves get weak, then these organs always fail. Don't drug the stomach—nor stimulate the Heart or Kidneys. That is simply a makeshift. Get a prescription known to Druggists everywhere as Dr. Shoop's Restorative. The Restorative is prepared expressly for these weak inside nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative—tablets or liquid—and see how quickly help will come. Sold by W. H. Ellis.
