NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmitigated earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol.

A Card From Mr. McElveen.

To the Public:
I desire thru the columns of the News to thank those friends who supported me so loyally in my race for tax collector. I know, if I should have been elected, I could not feel more appreciative. Indeed, I feel greatly complimented that I made so creditable a showing along with the concededly strong men who were my opponents.

I congratulate my opponents and the public generally for a campaign pitched upon a high plane, without out whiskey or money.

I congratulate Mr. Hodges, my winning opponent, upon his success, and I feel that the county is to be congratulated upon his selection. The vote he received might properly be termed a vote of confidence in a sober, clean and competent young man. May all our sons be such.

To all my fellow citizens, including the stranger, I am home at Areola, with the late spring on the outside; if I can serve you command me.

With best wishes for all and malice toward none, I beg to remain, Gratefully yours,
—Adv. P. R. McELVEEN.

To the Citizens of Bulloch County:
I am most grateful to you I desire to thank every man who stood by me in my recent election of March 9th. I shall ever deeply appreciate your interest and consideration in me and the cause that I am most interested in.

To those who saw fit to cast their ballots against me, I have no criticism or unkind feeling. I have always realized that you selected good men to oppose me. But in my future work I shall endeavor to be just to all in every particular, all things taken into consideration.

I want to see every school in this county a standard school, and if we get the co-operation of the several communities, we are going to have every school a standard school during the time you have seen fit to grant me. Again I thank you. Respectfully,
B. R. OLLIFF.

I wish to thank the teachers of this county for their tribute of appreciation in the form of the beautiful present presented by Prof. Langston last Saturday. I shall keep this token as a relic so long as I live. Teachers, I certainly do thank you for your kindly consideration and for your hearty co-operation. It is through you largely that we are to accomplish all good in the future as well as in the past.

What we have been able to do in the past. Your friend,
B. R. OLLIFF.

To the People of Bulloch County:
Since it is impossible for me to see each voter personally, I have taken this method of trying to express my appreciation for the support given me in my race for tax collector by the people of this county in the primary just held. All the people have treated me very kindly during my canvass of the county including those who could not support me as well as those who did.

It is my desire to so attend to the duties of the office of tax collector that words to show my appreciation of your support will be unnecessary. If I can discharge the duties of the office in a way that will fully satisfy the tax payers of Bulloch county, I will feel that I have shown my appreciation in a way that will mean more to you than any mere words that I might use. Very respectfully,
FRED W. HODGES.

HON. RAFF SIMMONS BAY DISTRICT ADDRESS

Urges People To Support The Building of The Packing Plant
SAYS WILL BENEFIT EVERYBODY

In a talk to the citizens of the Bay District, at Donaldson school last Friday, March 17, Mr. Ruff Simmons urged the farmers to join in the effort that is being made to build a packing house in the county.

Mr. Simmons began his talk by telling of the difficulties that were encountered in building the first railroad to Statesboro some years ago. He said that only a few were interested in the project at first, and many were opposed to it, while he and those who wanted it had just taken the advice of the others the road would never have been built. But finally, the few who did want it put some money into and encouraged it in other ways, and the railroad was built and proved to be a great help to everybody—merchants, farmers and everybody.

"Why, I could not do business without railroads," said Mr. Simmons. "We not only got one, but we got another and another, and now we have a third. Our city can get goods from New York as cheap as it used to cost us to haul from Dover. Why, suppose we did not have a railroad in Bulloch county today. We could not do anything like the business we do now. Our business has increased our business immensely, and, as I understand it, this packing plant will do as much to increase our stock raising as the railroads did to increase our general business. And we need it now. We don't want to put it off and keep it away as we tried to keep the railroads away. Judge Cone says we need this packing plant to help our children. I tell you we need it for ourselves. We are losing money on cotton and tenants. We have bought guano to raise cotton with, and have fooled with negro tenants until we are all about broke. I have given up and now there are a thousand men in this county who can take a share in this plant; some of you can go in together and two of you take a share. There are a whole lot in this district who can take five shares in this plant, and there are ten men in the county who can take five thousand dollars apiece in this packing plant. It is a good investment. I am told on good authority that the packing plants are paying all over the country, and that the one at Moultrie is paying big dividends. The one in Atlanta has made the man rich who owns it."

"And now, everybody has got to help get this plant. We have just got to have it, and you people get four or five good men to go through this district and get subscriptions from everybody and I will be one of two hundred to make a subscription from this district. The payments are easy. I believe the farmers are to pay 25 per cent, when the plant is organized, and the balance next fall and winter some time. All of you can help on that kind of terms."

"Now, some of you will say you are mighty poor, but you won't be any better off than you are now, and not as well off unless you get something like this. This plant will enable you to raise more hogs and make more money and by doing that you will be able to do something. Deny yourself and eat less. Most of us eat too much anyhow. We are dying with indigestion from eating too much. And lots of you wear too many clothes. It is not clothes that make a man, but standing for right and for our country that makes a man."

people went to sleep and let New England spin all our cotton for years. All we had to do with it was to raise it, ship it up there and they shipped it back to us in cloth and charged us fifty cents a pound for the cloth. But we finally woke up, and now we are spinning our own cotton and shipping the cloth instead of the cotton. It will be the same with this meat. We can raise the hogs cheaper than they can in the West, and we will be shipping our meat away instead of buying it as we do now. We have the soil here in Bulloch county to raise the feed on, if we only can get a market for the hogs.

CHEAPER TO BUY NEW DYES THAN HAVE OLD ONES DYED

Dyes Advanced More Than 200 Per Cent Since War Began

Atlanta, March 22.—The German offensive has reached Atlanta, and by the strange vehicle of the dyepot, with the result that Atlanta, and all other southerners are now contributing either in coin or inconvenience to keep up the Kaiser's soldiers.

Everybody knows that Germany has for centuries held the secret of making fast aniline dyes for fabrics, clothing, hosiery, silk and the like. Since the war started the cost of German dyes has steadily advanced, and it has been a case of paying more or being content with American dye which up to now are in many instances likely to fade.

The limit was reached when a young Atlanta man decided that he would like to have his last spring suit dyed a dark blue. The suit originally cost \$80. He sent it to the dyer, and the dyer sent back word that he would be glad to dye it if the young man insisted, but that German dye cost \$20 a pound and that it would take two pounds to do the job, and that maybe after all the young gentleman had better just go out and buy himself a new suit.

He did.

He is a true type of the southerner, delighted in the association of his friends and counting it his greatest honor to be listed with those who love their fellow man.

ROUSING PACKING PLANT MEETING MCH. 25

Hon. J. A. Brannen To Preside—Eld. Walter Hendricks will Speak on Boll Weevil

MANY OTHER SPEAKERS

The meeting that will practically determine whether we are to have a packing plant or not will be held at the Court House Saturday March 25th at 10 A. M. Hon. J. A. Brannen will preside and Elder Walter Hendricks whom the Government has had employed in the Boll Weevil districts of the south will address the meeting presenting facts regarding this serious subject and showing the very great necessity of preparedness and the advantage of promoting this meat industry in our midst.

The pro rata share of the capital stock is practically settled, at least as far as the Statesboro district is concerned. Over \$60,000 has been pledged in this district. The Blitch district has over half the amount pledged to it and the Hagan district is doing well.

All of the districts have been visited this past week by the committee and a very optimistic feeling is abroad and it is confidently assumed that Saturday's mass meeting will definitely settle the subject. Mr. Greer is particularly pleased with the results obtained thus far and says that if the same sentiment is continued and brought to this meeting that he has noted this week that there is nothing to prevent an early organization of the Bulloch Packing Co. It is earnestly requested that every citizen interested will attend this meeting.

To The Farmers Of Georgia.
These are exceedingly ticklish times in which to plant heavily in cotton. If the European war continues, there isn't much chance for any advance in price; we have already seen that there is danger in the other direction. If the war comes to an end, it is my opinion that we will face almost as trying a period as we did with its beginning. Certainly we may expect it, if we have a big crop on hand at that time.

The fertilizer situation may effect cotton production to some extent this year. There will be plenty of fertilizer, but not of the character heretofore used. The absence of potash in anything like the extent we have heretofore had it, will probably make some difference in the yield. But we cannot afford to depend on that age new alone to hold crop productions in check. WE MUST DO IT OURSELVES.

In January and February 1914, this department sold inspection tags for 627,036 tons of commercial fertilizer and 39,996 tons of cotton seed meal.

In the same two months of 1915 it sold tags for 164,990 tons of fertilizer and 43,460 tons of meal. In January and February of this year, 1916, we have sold tags for 320,110 tons of fertilizer and 31,266 tons of meal.

Thus, while consumptions is apparently double over 1915, it is still only one half of that of 1914.

and it contains comparatively little potash and sometimes none. Since we made cotton before we ever had potash, we cannot of course, depend on this condition to reduce the yield to what it should be.

It is our imperative duty to ourselves, therefore, to make everything we need at home. If we will do this and make no more cotton than we did in 1915, we may reasonably hope to get a fair price for it. Otherwise we are going to suffer.

THURSDAY, MARCH 23, 1916

More than 8,000 fore-
igners are now living in At-
lanta, according to the es-
timates of the federal au-
thorities.

Statesboro is working for a meat
packing plant with a determina-
tion to have it in operation. Ge-
orgia can produce plenty of hogs and
cattle to keep several plants
busy, and there is always a
ready demand for meat. There is
no reason why such an enterprise
should not be profitable—Sanders
ville Georgian.

THIS FROM THE BAINSBIDGE- POST-SEARCHLIGHT.

"Bulloch county had thirty four
candidates electing in 40
Ford cars says the Statesboro
News last week for county offices.
Wonder what they had in those
extra six Fords. Persuasion or
pot-licker?"

AND THIS IS WHAT WE DID SAY.

Bulloch county's thirty four poli-
ticians got their Fords tuned to
such a high speed gear in the
whirlwind finish before the pri-
mary that they started a regular
tornado blowing. Fully a forty
mile gale blew over Statesboro
Tuesday and Wednesday loosen-
ing roofs and wailing a mournful
melody down the chimneys and
around corners. Thursday's bar-
ometer will of course change the
weather conditions considerably.

Brother Griffin is a little mixed
on the 40 autos. We excuse him
however for we suspect he was
overjoyed and dipped to deep in
the pot-licker pot himself with
that "Glad Hand" issue of the
Search Light he got out last week.

All Georgia sympathizes
today with Augusta and
those thousands made
homeless by the terrible
conflagration which laid
low the splendid business
houses and beautiful homes
of the thriving Richmond
county city. With the same
breath and sentence we al-
so extend our sympathy to
Nashville Tenn. and Paris
Texas both of which cities
were likewise visited by
the fiery demon with great
devastation and in the lat-
ter named city three lives
were lost. Such catastro-
phies are but lessons in pre-
caution and preparedness.
Statesboro with her limited
and in a sense primitive
fire fighting apparatus
would fall easy prey to a
disastrous fire under such
conditions of wind as pre-
vailed yesterday if fire hap-
pened to get headway in a
thickly and closely built
section of the city. Pro-
perty values are advancing
all too rapidly for the citizens
to neglect this most urgent
need of a modern electric
fire machine manned by a
day and night paid atten-
dant. It would not be ex-
travagance—Just ordinary

AMERICA AND MEXICO.

Procrastination will be
the road to Annihilation if
America does not quickly
make up her mind to a pre-
paredness program that
will safe guard her thou-
sands of miles of borderland
and a standing army suf-
ficiently large to at least
step over in an adjoining
country the size of Mexico
and make some sort of a
showing. Here we have
before us a picture of a band-
it with a hand full of fol-
lowers making a raid on
our borderland, killing, loot-
ing and getting away far
into his native lair days
ahead of the mobilization
and movement of our own
miserably small assem-
blage of soldiery. The
American soldiers now in
the wilds of Mexico could
easily be drawn into a trap
by this desperado and with
the duplicity of the Mex-
ican race, their natural hat-
red of America, this little
invasion of Americans into
Mexico to round up Villa
will more than likely throw
that country in a more
chaotic state than she has
yet experienced, and in the
end, necessitate our going
in there with a half million
men to clean it up. Once
it is conquered it will re-
quire a quarter of a million
men to police it for fifteen
years before they are hum-
anized, christened and
organized into a self sup-
porting and governable
race. As they are to-day
among the nations of the
earth, they are treacherous,

indolent and the great ma-
s will jump from one leader
to another from day to day
for a peso and a sombrero.
Procrastination is the
chief of time. There is no
use waiting, this job has
got to be done and the
sooner it is begun on a
wholesale plan the better
for all concerned. As we
write this, to-day's telegraph
news tells of Herrera with
2000 men deserting Carran-
za to align himself with
Villa and row we will soon
hear of Diaz and the other
Mexican Generals and band-
its with their respective
following entering the field,
and once the match is
touched to this flame of
Mexican hatred against
Americans, the little group
of our soldiers who are be-
ing drawn into that mur-
derous abyss could very
easily be annihilated days
before an army sufficiently
large to cope with the sit-
uation could be rushed to
the rescue. George, was
right—"In time of peace
prepare for war." Do it
now.

HAVE YOU BEEN 'SICK'?

Then you realize the utter weakness
that robs ambition, destroys appetite,
and makes work a burden.
To restore that strength and stamina that
is so essential, nothing has ever equalled
or compared with Scott's Emulsion, be-
cause its strength-sustaining nourish-
ment invigorates the blood to distribute
energy throughout the body while its tonic
value sharpens the appetite and restores
health in a natural, permanent way.
If you are run down, tired, nervous,
overworked or lack strength, get Scott's
Emulsion to-day. It is free from alcohol.

Hurrah for our baseball game
between the F. D. A. S. boys and
the Statesboro Institute last Sat-
urday and for the girls who yelled
for them! The game was certainly
an interesting one and will mean
much to the success of our boys in
later games. The score was 13 to
2 in our favor. The elimination
will be furthered next Saturday
when we play Brooklet. It has
not been decided when this game
will be played.
