Go to church Easter if no  
other day.

When you see a man tot-  
ter a chip on his shoulder  
take a good look at his  
head, maybe that's where  
the chip came from.

The largest three cities in  
this country under prohibi-  
tion are all in equal suf-  
frage—Seattle, Washing-  
ton, Portland, Oregon, and  
Denver, Colorado.

Does it pay to advertise?  
Ask Uncle Asa Candler, the  
Coca-Cola Millionaire. Ask  
W. L. Douglas, the million-  
aire shoe manufacturer, or  
any one of several hundred  
American millionaires who  
got their thrills through the  
channels of advertising. If you're in  
business why don't YOU?

#### FINAL APPEAL

The temporary Board of  
Directors of the proposed  
Bulloch county packing  
plant after devoting nearly  
two months of their time  
and funds in an effort to  
raise the capital stock  
agreed upon have about  
reached the end of their  
trial rope and unless a great  
many of those substantial  
farmers who have been  
solicited for subscriptions  
and who have asked for  
time to consider, do not  
make up their minds  
promptly, and come to the  
aid of this enterprise in pro-  
portion to the amounts al-  
ready subscribed by some  
four hundred citizens of  
Statesboro and Bulloch  
county, the matter of fur-  
ther effort will be discon-  
tinued by those having the  
proposition in charge. One  
member of the soliciting  
committee simply gave up  
his business, and counting  
his personal time, funds ap-  
plied, and loss to his own  
business interests has up-  
wards of a thousand dol-  
lars invested in this prelimi-  
nary effort, aside from  
what he has already sub-  
scribed, and several others  
are equally involved. Folks  
—if you are going to sub-  
scribe, DO IT NOW.

DR. J. M. HAYMORE AND  
THE REVIVAL

That the community  
needs spiritual and mental  
development as well as in  
the more material things  
of this life goes without  
saying, for without it we  
can scarcely hope to attain  
that degree of manhood and  
womanhood which our ex-  
panding intellects demand.  
The work of the evangelist  
and the church is manifold;  
we need to view them from

within instead of from with-  
out. The revival now draw-  
ing to a close at the First Ba-  
ptist church has been pro-  
ductive of much good. Rev. Dr.  
Haymore has set men and  
women to thinking; he is a  
forceful speaker, sincere  
and earnest, tender and  
sympathetic in his appeal  
to humanity for a more  
christian life. Dr. Haymore  
shuns the sensational or  
scarey method of win-  
ning a convert; he is  
just honest. Take any one  
of his various discourses and  
analyze it thoroughly and  
you will find only truths  
truthfully told, and spend  
a little time in serious  
thought over the subject  
and you will be amazed at  
the peace of mind and con-  
tentment that pervades you  
in the message Dr. Hay-  
more imparts. You will  
find many things you knew  
in boyhood brought once  
more to memory that will  
tend to awaken an effort to  
do greater good in the world.  
Indeed the town and its  
people are better for the  
coming of Dr. Haymore,  
and our local ministry Rev.  
Singleton and Thrasher  
should find an added inter-  
est in church work.

#### COUNTY SCHOOL TAX

The absolute necessity for  
a county wide school tax  
this affording relief for the  
crying need of the hour in  
rural school education, is a  
subject that should not es-  
cape consideration of our  
citizens and tax payers an-  
other moment. Most of  
Bulloch's rural schools have  
announced a closing date,  
some after but a three  
months term; this is entire-  
ly inadequate for satisfac-  
tory results. That finan-  
ces for education in this  
enlightened period should be  
so meagerly apportioned  
is indeed unfortunate, and  
right at this door is the  
principle cause of Georgia's  
rating in illiteracy. Under  
paid teachers and in some  
instances because of this,  
incompetency.

There are hundreds of  
thousands of dollars sub-  
scribed to the promotion of  
industry, and tens of thou-  
sands for entertainment of  
junketing civic bodies con-  
ventions etc., and always  
public money; but when  
the subject of funds come  
up for education especially  
as under the Georgia system  
it becomes a pretty diffi-  
cult problem to solve. A  
number of counties in Geor-  
gia are now on the Geor-  
gia wide tax system and in  
each instance great progress  
and improvement in rural  
school work has been the  
result.

Much has been accom-  
plished in Bulloch's rural  
school work even under the  
present method, but it has  
been done only by personal  
application and constant  
prodding of the stick of en-  
thusiasm, two or three en-  
tertainments at each school  
during the term to raise  
funds, all of which must  
necessarily require time in  
preparation, and in a great  
measure detract from a sys-  
tematic study course that  
should obtain in a long  
term season, under the most  
competent and graduated  
teachers that a county wide  
tax system would support.  
By all means let this sub-  
ject have serious considera-  
tion ere another school term  
rolls around.

#### Petition for Incorporation

GEORGIA: Bulloch County.  
To the superior Court of said County:  
The petition of Thomas D. Van-  
Osten, T. J. Denmark, H. B. Stran-  
ge, J. F. Fields, S. C. Groover, R. Lee  
Moore, Hinton Booth, J. O. Lane,  
Brooks Simmons, B. V. Collins, H. B.  
Olin, D. P. Averitt, Jr., J. N. Shars-  
ness, C. H. Parrish, A. J. Mooney, J.  
W. Williams, W. G. Raines, W. S.  
Prestorius, H. Clark and J. G. Blitch,  
all of said state and county, respec-  
tively shows:

1. That they desire, for themselves,  
their associates, successors and as-  
signs, to become incorporated under  
the name and style of the Statesboro  
News Publishing Company.
2. The term for which petitioners  
ask to be incorporated is twenty  
years, with the privilege of renewal at  
the end of that time.
3. The capital stock of the corpora-  
tion is to be Twenty-Five Hundred  
Dollars, divided into shares of Fifty  
Dollars each. Petitioners, however, ask  
the privilege of increasing said capital  
stock from time to time not ex-  
ceeding the aggregate \$50,000.00.
4. The whole of said capital stock of  
Twenty-Five Hundred Dollars has  
already actually been paid in.
5. The principal office or place of busi-  
ness of the proposed corporation will  
be in the city of Statesboro, said  
state and county.
6. The object of the proposed cor-  
poration is pecuniary gain and profit to  
its stockholders; and the particular  
business which petitioners propose to  
be carried on by said corporation is  
that of general printing and publish-  
ing business; the printing and pub-  
lishing of a newspaper in the city of  
Statesboro; to do job printing of any  
and all kinds; to buy and sell books,  
stationery and stationers' supplies,  
and such other articles as may be  
profitably handled in connection with  
the said business and as are usually  
handled in connection with establish-  
ments of like character; acting as  
general or special agent for other per-  
sons or companies in selling or hand-  
ling any articles appropriate to the  
aforesaid business; to lease, purchase,  
own and hold real estate necessary for  
the carrying on of said business; to  
make contracts of all kinds and to  
exercise the usual powers and to do all  
the usual, necessary and proper acts  
which pertain to or may be connected  
with the aforesaid business, including  
all the powers which are given by the

laws of this state to like corporations.  
7. WHEREFORE, petitioners pray  
to be made a body corporate under the  
name and style aforesaid, entitled to  
all the rights, privileges and immu-  
nities fixed and allowed by the laws,  
and subject to the restrictions and liabil-  
ities prescribed by the laws of this  
state.  
This March 28th 1916.

## IMPORTANT BOLL WEEVIL CONFERENCE AT ALBANY

Will Be Held Thursday, April 20—Experts Will Speak—All Farmers and Business Men Should Attend.

An important conference of farmers and business men from all South Georgia has been called to meet in Albany, Ga., on Thursday, April 20th, at ten o'clock a. m., to discuss and consider the best methods of dealing with boll weevil conditions.

This conference will be held under the auspices of the Georgia State Board of Entomology, the States Relations Service of the United States and the Albany Chamber of Commerce.

This will be one of the most notable, most interesting and most important conferences on this subject yet held. It will bring before farmers and business men of the entire section some of the foremost experts of the country, in dealing with the Mexican Cotton Boll Weevil.

Among the speakers will be Dr. W. D. Hunter of Washington, D. C., in charge of southern field crop insect investigation; Dr. Bradford Knapp of Washington, head of the States Relations Service; E. Lee Wortham, State Entomologist; J. Phil Campbell, State Agent for the States Relations Service; Dr. W. Williams, Expert in Cotton Breeding, and Chancellor D. C. Barrow, of the University of Georgia.

These men are all well equipped to deal with the situation and to tell farmers, bankers, merchants and business men of all classes who are interested in this problem, just what should be done to make farming profitable in spite of the presence of the weevil.

All Who Can, Should Come. Hear these speakers, on Thursday, April 20.

Blunt Translation. A certain law society in Edinburgh bought a baronial mansion for their offices and headquarters. The motto over the gate was "Olim marie, nunc arte," which literally rendered means, "Once by war, now by skill."

When George IV. visited Edinburgh, Sir Walter Scott was shown man. The king observed the motto over the gate of the law society and asked its meaning. Sir Walter replied, "It means, your majesty, 'Once robbers, now thieves.'"

## Brag School Closing

On Tuesday night, the 4th of April, the Bragg school came to a close with a splendid program, consisting of dialogues and recitations, etc. The children rendered the program in a very admirable and able manner showing that they had been well trained for the occasion.

The greatest crowd that has ever assembled there witnessed the entertainment, all being highly pleased with the manner in which they were entertained. The house was packed to its capacity, many being unable to secure seats or admittance.

On Wednesday the patrons and friends met at the school house in a social way and were entertained by some able speakers whose addresses were much enjoyed. Rev. Thrasher spoke for quite awhile in the forenoon on timely topics.

At the noon hour, a sumptuous spread which all enjoyed.

In the afternoon Rev. Groves, of Brooklet, made an excellent talk on the importance of county-wide taxation, and showed how important it is to have long terms of school each year, etc.

After Rev. Groves' lecture, Col. Pique, of Statesboro, gave a splendid address which was well received. He injected quite a bit of humor in his talk and as a kind of rebuttal, Rev. Thrasher took a parting shot with some real live jokes that sent the citizens home in a good humor indeed.

## Why Constipation Injures

The bowels are the natural sewerage system of the body. When they become obstructed by constipation a part of the poisonous matter which they should carry off is absorbed in the system, making you feel dull and stupid, and interfering with the digestion and assimilation of food. This condition is quickly relieved by Chamberlain's Tablets. Obtainable everywhere.

#### SPRING SPORT SUIT.

For Young Ladies Is This Smart Suit of Toweling.

A 1918 MODEL.

This texture is one of the season's novelties, a polka dotted cotton twining in blue and white. The shirt is cut with a wide inverted plait to give fullness, while the coat is yoked as well as paneled in front, this portion being buttoned on with novelty pearl buttons. The trim little straw turban is also smart.

#### YOUR RUGS.

How Bright Ones May Cheer Up Dark Rooms.

One may select a very bright rug of the oriental order to gladden a room from which the sun is excluded, and according to the colors of the cloth cushions the wall paper is tempered, as are also the mural decorations and the hangings. For the room where repose is sought subdued colors are recommended, and these are to be had in some of the beautiful Persian patterns that go very well with reproductions of eighteenth century English furniture.

When one cannot afford the large rugs and there is doubt of any kind as to the proper carpet it is well to have the floor laid with a perfectly plain color in good quality domestic weave, and thereon spread here and there the small oriental rugs. For an informal room the effect is infinitely more pleasing than when one large rug is used.

The Most Feminine Texture. The other day a woman said, "if I had a lot of money I'd wear silk all the time." The richness of the material makes it one to be greatly desired and admired, and this season there are so many varieties of silks on the market that one could find a different kind for every day in the week. Crepe meteor is among the many silks to be obtained. It was used in a short while ago. Heavily padded crepe meteor in blue and gray wool was added effectively to ornament the house and the skirt.

A novel feature of the skirt was the use of chiffon panels, which were so full that they added extra width to the skirt, which was not very scant before their appearance.

The waist line was very nicely defined by silver ruffles. The crocheted rings and tassels suspended from the belt were gray. Beadkin formed the hem of the skirt and the abbreviated collar of the blouse.

Timely Tips. If the dainty crepe de chine blouse shrinks a bit after its first laundering and—as many of these ready made blouses do—becomes just a trifle too scant to cross the bust, the edges at the front may be faced all the way down with similar material and the blouse worn open over a chemise of organdie.

These chemises in all manner of pretty styles come ready to slip under the bodies, and for the purpose just described the best model is one which opens slightly at the back, kept entirely in position by a bit of stiffening.

Knickerbocker Figs. Wash half a pound of figs and stuff each with a mixture of pecan nuts and Maraschino cherries, two cherries to three nut meats. Mix a teaspoonful of lemon juice, two tablespoonfuls of sugar and half a cupful of sherry in a small saucepan, add the figs, cover and cook slowly until the figs are tender. Let them drain, roll in powdered sugar and put into paper cases if you like.

## DRINK HOT WATER BEFORE BREAKFAST EVERY MORNING

Hopes every man and woman here will adopt this splendid health habit.

Says a glass of hot water with a teaspoonful of limestone phosphate in it washes poisons from system, and makes one feel clean, sweet and fresh.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days head-achy, dull and unstrung; some days really incapacitated by illness.

If we all would practice the drinking of phosphated hot water before breakfast, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons in the bowels which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each

morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, sick headaches, rheumatism, lumbago, nervous days and sleepless nights have become real cranks about the morning-inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing, sweetening and freshening effect upon the system.

#### Brooklet Items

(REPORTED BY MISS LULA WARNOCK)  
Miss Edith Shearouse, of Guyton, is the guest of Miss Mattie Johnston.

Brooklet school was represented in the contest in Savannah last week. This was the first time Brooklet school had ever been represented and we think she deserves credit for the honor she received. Malcolm Smith won third honor in the recitations, Oscar Lee Alderman won third honor in the 100 yard dash, Elton Corley won second place in the 440 yard dash and Brooks Lanier won second place in the elimination run of the 220 yard dash, but lost on the final.

Mrs. Bell Griffin, of Rocky Ford, is visiting Mrs. Henry Johnson.

The annual week's meeting of the Primitive Baptist church will begin on the third Sunday night in May and continue over the fourth Sunday night. The public is cordially invited to attend these services. Elder W. H. Crouse, of Graymont, and the pastor, Elder R. H. Kennedy, of Collins, will preach during the meeting.

The tenth grade of the Brooklet High School will present the play "Mr. Bob" in Guyton next Friday night, April 14th.

Mr. D. L. Alderman spent last Friday in Savannah.

Mrs. J. L. Wyatt has returned from Port Royal, S. C. where she

has been visiting for several days. The Brooklet Dramatic Club will give "The Country Minister," a comedy drama in five acts, next Thursday night, April 20th. This plays two hours and fifteen minutes and is intensely interesting from start to finish. Don't miss seeing the best thing that has ever been played here. An admission of fifteen and twenty-five cents will be charged.

## Tales of Gotham and Other Cities

### New York Claims Honor of "First" Convention City

NEW YORK.—Little old New York is now the "first" convention city in the country, outstripping Chicago, which for the last ten years has been in first place. Before the end of the present year more than 500 conventions will be held in New York city. Last year Chicago had 470 to New York's 442, but through the activity of John R. Young, manager of the convention bureau of the Merchants' association of New York, Chicago has been pushed to second place.

And what conventions! We're going to have the Scottish Deershead club, the Dabchund Club of America and the American Bison society here before the summer is over. And the American Association for the Advancement of Science will hold its annual convention here during the Christmas holidays.

The biggest convention of the year will be the National Education convention, which will be held here in June. Fully 40,000 people from beyond the metropolitan zone will be in attendance. Next in size will be the General Federation of Women's Clubs, which is scheduled for the latter part of May.

"What has made New York the greatest of all convention cities?" repeated John R. Young in the office of the convention bureau at the Merchants' association.

"Well, first of all, New York is the only city in the country which has never raised its hotel rates. This is a great point. When it comes to location, we're beaten by almost every other town; but once we get the people here we can take care of them better than any city in America. "Of course, we lack a great convention hall, but Madison Square Garden has a seating capacity of 18,000, and when the National Education convention will be held here its seating capacity will be taxed to its utmost."

"And, of course, these conventions are a great thing for the city. They bring 'new' money to town. A large proportion of those who attend the conventions bring their womenfolk, and the shopping they do is of enormous proportions."

### Efficient Sexton Is Now Looking for New Job

CHICAGO.—German efficiency has been tried out in Lake Forest, with the result that it is now looking for a new job. So is the chief exponent on the north shore, Henry Herman. And in the meantime the congregation of the First Presbyterian church in Chicago's wealthiest suburb sings its hymns and absorbs its sermons in peace, secure in the knowledge that it won't have to stumble over the paw amid the blackness of night when it gets ready to go home.

It was years ago, in the German army, that Henry learned the meaning and the practice of efficiency. Later he came to America, and eventually drifted into Lake Forest, leaving a trail of efficiency from New York to Chicago.

In Lake Forest he got a job as janitor of the church in question. There he started in to perform his work so well that the church members fairly gasped in amazement. All would have gone well probably had it not been for the Wednesday night prayer meetings. The meetings were scheduled to close at nine o'clock, but often it was much later.

So Henry resolved to introduce German army standards into his sextonage. The result was that at nine o'clock on Wednesday evening two weeks ago the congregation, which was just bursting forth into the opening strains of "Lead, Kindly Light," suddenly found itself in total darkness.

Sliding into the shadows of the pews, the church members finally managed to get out of the edifice. Then they learned the cause of the interruption of the services. Henry, speaking rather un-Biblically, had "doused the glim."

A committee opened diplomatic relations with Henry. His reply was that, as "dawn" was scheduled for nine o'clock, that was the time the proceedings should close. In vain were arguments presented to him.

Henry's familiar countenance was missing from the church last night. Instead, there was a new Henry on the job, and the congregation sang and prayed amid a blaze of glory until it got good and ready to go home.

### Rainmaker's Demand for \$10,000 May Be Granted

SAN DIEGO, CAL.—The supposition that rain comes down because it lieseth is officially refuted in San Diego, where \$10,000 may have to be paid out of the city treasury by way of shattering the old belief that Mother Nature is responsible. The city attorney has ruled that the city must pay Charles Hatfield that sum for filling the Moreno dam. Hatfield is a rainmaker. He went to San Diego some weeks ago and spoke somewhat as follows:

"I notice you don't have very much of an average rainfall here. I'd like to make rain for you."

"Fill Moreno dam," said the councilmen, and they all laughed. Moreno dam had never been more than a third filled.

"All right," said Hatfield, "for \$10,000." Still laughing, they agreed. Hatfield erected his tower near the dam, put his galvanised iron tanks on top of it, wrapped the tanks with tar paper and poured in his chemical fluid. He was off in the mountains and the city forgot him. The councilmen were measuring the treasury resources and thinking about appropriations—but never about the \$10,000—when it began to rain.

Someone brought down word that the water in Moreno dam was higher than it ever had been.

"Hatfield isn't doing it," the councilmen said. "Everybody's getting rain these days."

But when the downpour continued, and the flood followed, some favored paying Hatfield \$5,000 and calling it quits. But Hatfield is sure he will get his \$10,000.

### Hungry Seagulls Catch Peanuts "on the Fly"

PORTLAND, ORE.—Portlanders tarried along the river bridges the other day to feed the large flocks of seagulls and enjoyed a diverting sport—one that is as interesting as tossing peanuts to the elephants at the circus.

Ordinarily the seagulls have left their river habitat by the opening of February to seek food along the coast or in the Cowlitz river near Rainier, where smelt run about that time. But this year the cold weather swept down over the Northwest and the smelt run is late. Therefore, the seagulls are clinging to their river rendezvous with persistence, and the feeding habit has become a sport.

No dog ever "spoke" for a bite with more anxiety than do the gulls, and the way the graceful fowls have learned the ways of their food benefactors has been most diverting. The gulls are responsible, as a result, for the large throngs of pedestrians who tarry along the bridges to throw out peanuts, popcorn and other choice bits to them.

The seagull is a queer bird. It prefers not to pass its nights in Portland; even in the seasons that it lives here. So when the sun sinks low at night and necessarily are few, only a few birds are left winging over the river. The rest have gone to the beaches, where they pass the night rocking on some rotting driftwood or sitting on a sandbar.

But they never fail to come home early. They greet the sun in Portland and are waiting on the bridges for a "handout" every morning as soon as folk are astir.

### LESSON FOR APRIL 16

PETER AND CORNELIUS.

LESSON TEXT—Acts 10:1-2. GOLDEN TEXT—There is no distinction between Jew and Greek; for the same Lord is Lord of all, and is rich unto all that call upon him.—Rom. 10:12.

Thus far Christianity had to do with Jews and Jewish proselytes only. Now its circle begins to widen so as to include the Gentiles. The central figure of this lesson, Cornelius, was a captain commanding one hundred men in the Roman army. The claim he made in other departments of dress extremes of style and more or less eccentric fashions presented themselves, the tailored costume is conservative. The tailor in his work seems to cling to a happy medium, a middle-of-the-road course. He takes cognizance of the latest ideas as to form and outline, but refuses to be beguiled by the extravagance of crinolines and a tendency to over-trimming.

The cleverest tailors are showing both two and three-piece suits that are

very conservative. The models sent over by French tailors depend upon cleverness of cut, correctness of line and perfection of workmanship for distinction. Perfect fit and finish contribute to their fine effect. They ignore fashions.

American women are very partial to navy blue—the "gentlewoman's color," as the French term it. Therefore a large proportion of model gowns are made up in this becoming and serviceable shade. The majority are dark in color, but many of them are brightened by vests of broad or plaid silks.

A butterfly with outspread wings is a marvel for its faithfulness to nature. It is in tan, black, white, and orange, and everyone has seen the same beautiful insect flying about. Another butterfly pattern shows gold wings spotted with blue and white. The body is white and it and the wings are outlined with black.

A conventional rose is shown in natter blue, tan, and white, outlined in black. The work on all these is exquisitely fine.

Portieres From Leather Scraps. Very pretty portieres can be made from leather scraps, known as "binders' scraps." The scraps of leather are cut in strips one-half inch wide and tied in knots, as carpet rag are tied. The more knots the more effective the portieres. A beautiful shade of green leather can be purchased at a bookbinders for ten cents or so per pound. Six pounds will be sufficient to make a good-sized portiere.

## WIRELESS AND WIT COVERED GOEBEN FLIGHT

### With Breslau, Watched on One Route, She Got to Turkey by Another.

FLASHES TOLD EVERY MOVE

FOILED British as to Destination. Changed Course and Jammed Enemy's Wireless So Warships Could Not Be Advised.

London.—A picturesque account of the thrilling escape of the Goeben and the Breslau to the Dardanelles at the beginning of the war is contained in a book which is causing a sensation in Germany. The author, Emil Ludwig, who says that the facts were gathered from sources of unquestioned reliability, asserts that the two German warships over their escape from the British pursuit to a remarkable wireless device. He also says that the British fleet was so certain of an Austrian port in the Adriatic that special precautions were taken to guard the Strait of Otranto, thus leaving to the Germans a clear road from Messina to Constantinople.

There is evidence that the author has had access to the log book of the Goeben, and that he also received first hand information regarding the flight from the commander in chief, Vice-Admiral Southon.

Vice-Admiral Southon, it appears from the book, was informed on June 28, 1914, by wireless of the movements of the Goeben and the Breslau. The exact date is not given, but judging by the context it would seem to have been toward the middle of July—the following wireless message reached the Goeben from the German admiralty staff at Berlin:

"German ships must not touch French and English harbors." Exchanged Courtesies.

Officers and men of the Goeben working in the wireless room in relays of four hours at a time for ten days flashed the message to the Goeben in the Mediterranean, the Black sea and the Atlantic ocean.

The writer dates the story of the flight from July 30, when he says the crew of the Breslau gave cheers for the British destroyers Defence and Racoon, which she encountered. The cheers were promptly returned. On the evening of the same day the Breslau received the following message from the British "ship of the line" Gloucester: "Tomorrow an English sailor is to be buried; please run your gun to half past seven and return the salute."
