Gen. P. W. Meldrim

Opens Congressional Campaign In Bulloch—Spoke to Large Crowd

General Peter W. Meldrim, candidate for congress from the First district opened the campaign in Bulloch county at the court house last Saturday when he spoke to a large crowd of apparently eager listeners. The large number who came in town to hear General Meldrim was quite a surprise to many who had been under the impression that there was very little interest in connection with his coming.

It was an odd sort of a political address, in fact the speaker himself said it was not a political speech. It was however replete with interesting anecdotes regarding General Meldrim's early experiences in Bulloch county. The very interesting subjects dwelt upon by General Meldrim was the reference to his connection with the University of Georgia of which he is Chairman of the Executive Board. His explanation of the financial development of the States funds brought forth rounds of applause.

General Meldrim took advantage of the occasion to refute reports which have become circulated regarding his religious belief tending to influence sentiment against him. He was most positive in this matter and presented data to substantiate what he said. At the close of his address practically the entire assembly remained to shake hands and pay their personal respects.

MISS JOSIE FOSS

Suffers An Attack of Appendicitis

Miss Josie Foss, daughter of Mrs. E. J. Foss is a patient at the sanitarium having been operated upon for appendicitis Saturday. Her weakened condition gave her friends much concern but it is hoped she will regain her strength and quick recovery to good health.

H. DELL ANDERSON

Operated On for Appendicitis

Following his wife in the sanitarium who had but recently undergone an operation for the same complaint, H. D. Anderson was hurriedly taken to the Sanitarium last week when it was found he was suffering with appendicitis and an operation was immediately performed. Mr. Anderson rallied splendidly and is well on the way to recovery.

Splendid Sweet Potatoes Brought by H. G. Shurling

A splendid quality of the triumph variety of sweet potatoes was brought to the NEWS office today by H. G. Shurling residing on R. F. D. Route 4. Mr. Shurling has many acres of what he considers the finest he has ever grown and believes he is showing some of the first of the season.

Do You Know That

It's worry, not work, which shortens life?

A cold bath every morning is the best complexion remedy.

Poor health is expensive?

The U. S. Public Health Service has reduced malaria 60 per cent. in some localities?

The death rate from typhoid fever in the United States has been cut in half since 1910?

Pneumonia kills over 120,000 Americans each year?

Flies town has few funerals?

The well that drains the cesspool is the cup of death?

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the system.

To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the col liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the system to resist the impurities and uphold your strength.

Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

Nitrate Plant In South

Convention at Nashville July 14th

On June 9th there was held in the city of Nashville, Tenn., a conference of men representing the cities of Memphis, Birmingham, Chattanooga and other southern cities for the purpose of considering ways and means to have the Government nitrate plant recently authorized by Congress, located at Mussel Shoals, Alabama. At this meeting a resolution was unanimously endorsed calling for representatives from all over the south and middle west to meet at Nashville July 14th, to perfect a permanent organization for the purpose of having the President locate the plant at Mussel Shoals on the Tennessee River.

The great benefits that would accrue to the south by having this plant located in our midst are wide and varied. Great reductions in price of commercial fertilizers of which the south is a large user. The expenditure of twenty million dollars for the establishment of the plant would be money needed in the south and there would be millions of dollars kept at home that is paid out each year for nitrates to a foreign trust.

BEST FOR BILIOUS HEADACHES

Indigestion quickly develops headache, biliousness, bloating, sour stomach, gas on stomach, bad breath or some of the other conditions caused by clogged or irregular bowels. If you have any of these symptoms, take a Foley Cathartic Tablet this evening and you will feel better in the morning. W. B. Vandegrift, Smyrna, Ga., says: "We find Foley Cathartic Tablets the best we have ever used for bilious headaches and I am praising them up to all my friends." Bullock Drug Co. (Adv.)

ANNOUNCEMENT.

(Advertisement.)

Good news from the 48 district is that our crops are in good condition, and we look for great prosperity in Bulloch next fall. Statesboro the greatest cotton center with the big packing plant, the new office and other industries having its war troubles, Mexico and Germany and Woodrow Wilson needs the best material we have for congress. We have J. W. Overstreet over in Screven county the very man; and know I think it will be a land slide for J. W. Overstreet in Bulloch. We need our best men as leaders; we need a man from the country. (Signed) H. I. WATERS 1-1-pd.

THIS MAN SAYS HE FLIRTED WITH GRAVE

FELL OFF UNTIL HE ONLY
WEIGHED SEVENTY
POUNDS. TAKES TAN-
LAC AND GAINS TWEN-
TY-ONE POUNDS.

"I'll tell you the truth; if I knew this Tanlac was not going to be sold any more I would buy every bottle on that continent before I left here tonight," said W. A. Spitzer, a Birmingham, recently. Mr. Spitzer is a well known painter employed by the Tennessee Coal, Iron and Railway Company, and resides at 210 South Sixty-eight street, Birmingham.

"Before I began taking it I only weighed 135 pounds. Today I got on the scales and tipped them at 156—a gain of 21 pounds—and more than I ever weighed in my life. That's exactly what four bottles of Tanlac did for me. Just look at this belt! I had to let it up four inches, and it is still tight on me."

"About seven years ago I commenced having stomach trouble, and it kept getting worse until I began having attacks of acute indigestion. When these attacks came on me I would just swell up like a mule with the colic, and my pulse as limp as a rag. My breath would get short, and my pulse so weak, I was afraid my heart would stop beating. The stomach pump had to be used every time, as this was the only thing that would relieve me. Finally my kidneys went back on me, and I don't believe I was out of pain night or day for four long years, and I finally got so weak I could hardly stand on my feet—much less work. I was almost a walking skeleton, and I tell you I was flitting with my grave, and guess I would have been in it if it hadn't been for Tanlac. For four years I couldn't hit a lick of work. I guess was as near dead as any man you ever saw to be alive. But, look at me now; I am strong and as well now as ever was in my life, and can do as big a day's work as any man."

"Yes, sir, if ever a mortal man has been through the rub I am the man. I have paid out I guess, not less than \$2,500 in the past six or seven years for doctors' bills and medicines and have bought enough medicine from drug stores in Birmingham to own an interest in one of them, and I was lucky not to have had an undertaker's bill to wind it all up."

"I have been a painter all my life, and have had painter's colic several times, so guess that had a lot to do with my condition. Anyway, there seemed to be nothing that would straighten me out. Every time I heard of a new medicine I would get it. I read of Tanlac one day, and that's one time I hit it right. That's what saved me. Why, Tanlac just raised me right out of my grave. I can now eat anything and actually I eat so much I get ashamed of myself. My landlady said the other day she would have to raise my board. I told her, though, she must remember that for four years she made money off of me, and that I was only making up for lost time. Why, seven or eight biscuits at a meal don't satisfy me now, but I just quit at that for fear I will overdo matters, but everything tastes so good to me now! And sleep! Why, I never would wake up if they didn't come in and shake me. I haven't a pain about me now."

Tanlac is sold exclusively in Statesboro by W. H. Ellis Co., and in Metter by Franklin Drug Co., in Brooklet by H. G. Parrish and C. C. Wolfe Co., Stilson, Ga., R. F. D. No. 1.

Items Concerning the County Schools

By R. R. OLEIFF, Editor.

The time for election of trustees expired on the 30th of June. Quite a number of schools failed to report the election of trustees as required by the board of education. Those who are now holding office under authority of the old commission until new ones are elected and qualified.

Any trustee not receiving a sufficient number of applications will please notify me, and I will see that you get a select number from which you may elect such teachers as you desire. We get about one hundred applicants a month or even a greater number.

The Portals School Bonds are now about ready for market. They have floated bonds with which to pay for their school house, so that they will be enabled to use their local tax money for extending the time of the school to an eight or nine months term.

Prof. B. H. Ramsey has been re-elected as principal of the Newington High school. Serving on county where he taught before he was elected to the Middle Ground High school. He will be given a term of nine months at a salary of about one hundred dollars per month.

Of course, we cannot blame Prof. Ramsey for accepting such a proposition when the terms here are not so long or salaries so good. We predict for him a successful term. This is his second year at Newington. Prof. Ramsey and family will make their home in Newington after a few weeks.

Teachers will remember that the examination is only about one month off, and should make all necessary preparations for taking it. Better get busy on the Reading course as well as review your regular course of study. You will not be disappointed.

Boys and girls, read this: Get a crockery jar and fill it with fine table salt and place it near where you always keep your tooth brush. After each meal, use your tooth brush freely and while the brush is in the jar, dip it in the salt so that the bristles will be thoroughly filled with salt.

Let the salt remain in the brush until you use it again. Wash the teeth with salt every time. Use the salt freely. It will keep your teeth clean and white and will harden the gums. Will also keep your tooth brush sanitary. The salt will kill the germs and make the brush pure and sweet. Do this just as often as you can and save your teeth and BIG dentist bills. It will certainly do it. Let every school boy and girl in the county try this for six months and you will keep it up the balance of your lives.

Some few schools are electing their teachers for the next term. Teachers should begin to select the schools they desire as the trustees will soon make selections and contract for next years work.

**Field's Realty
Specials**

For Rent 2 six room houses, reasonable.

Two vacant lots on South Main St. Bargains if taken at present prices.

20 acres just outside the city limits. Will make an ideal small stock farm for the man who wants to live near town. Do not let this one pass you.

I have a small amount of Sea Island bank stock for sale. See me promptly for this it won't go begging for a purchaser.

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin—a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning glass of hot water, what a gratifying change would take place.

Instead of the thousands of sickly, anemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nervous wrecks," "run-downs," "brilliant" and "neurotic" men and women, a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, indigestion, nervousness, rheumatism, colds, and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside beauty, for the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

FOR CONGRESS

I have the honor to announce that I am a candidate for Congress from the first District, subject to the democratic primary to be held on September 12, 1916.

I hope to have the pleasure of addressing the people in all counties of the district before the primary.

Asking the support of my fellow citizens, I am,

Very respectfully,
Peter W. Meldrum.

CANDIDATE FOR CONGRESS

To the Voters of Bulloch County: About ten years ago I was elected by the people of this district to fill the unexpired term in Congress caused by the death of Hon. Rufus E. Lester, and although the term was only for one year, I felt it my duty to continue to represent the people of the district, and I was re-elected in 1912 and 1914.

For the past three months I have been receiving a large number of letters from my friends in different parts of the district, urging me to announce for Congress again. I visited a number of places and ascertained for myself that the sentiment was very strong for me to make the race, and I have decided to do so.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications of the gray hair restorer, your hair becomes luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

**SAGE TEA BEAUTIFIES
AND DARKENS HAIR**

**Don't Stay Gray! It Darkens
So Naturally that No-
body can Tell.**

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 30-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a few old-fashioned druggists here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications of the gray hair restorer, your hair becomes luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

TOO MUCH FERTILIZER.

When fertilizer was first used by farmers got wonderfully increased crops from very light applications. Each succeeding year the soil requires more fertilizer to produce the same results with still after awhile the soil becomes worn out.

Malnutrition is the name applied when the crop is abundant, but the soil is poor, yet it is supplied with plant food, yet in reality is poorly nourished.

Every farmer has seen crops which were heavily fertilized, and yet didn't grow. This result is due to several conditions which may result from constant use of commercial fertilizers. The soil may become sour, residual salts may have accumulated or the humus supply may have been neglected.—American Agriculturist.

CORN TESTS IN KANSAS.

Varieties Best Suited to Individual Sections of the State.

Tests conducted by the agronomy department of the Kansas State Agricultural college which cover a period of five years will prove valuable to Kansas farmers in determining the varieties of corn best suited to individual sections of the state.

"No other crop is influenced as much by soil and climatic conditions as corn," says B. S. Wilson, assistant co-operative experimenter. "Because of the radical variation in soil and climate in Kansas the results obtained at the agricultural colleges or the various substations may not apply to conditions in other parts of the state. Experiments show that the variety most commonly grown in a section is not always the best one, nor is the variety that does well in eastern Kansas always the one to grow in central Kansas. Varieties known to limited sections of the state have been tested and found to be adapted to a much larger area and to outyield many of the standard varieties."

"In northeastern Kansas the Boone County White, Red's Yellow Dent and Shawnee Yellow Dent did well. The Shawnee White gave promise of being a superior variety for growing in that part of the state. In southeastern Kansas the commercial white made the best average yield for the more fertile types of soil, while the Pride of Saline proved to be best adapted for the uplands. Freed's White Dent made a good comparative showing on very thin soils in that part of the state. In central Kansas Pride of Saline, Iowa Silverline and Kansas Sunflower made the usual comparatively high average yields, although because of exceptionally favorable conditions larger growing varieties outyielded them in some of the tests."

For western Kansas Freed's White Dent, Colby corn and the Sherrod's White Dent proved to be superior varieties. The latter varieties are best adapted to the western one-fifth of the state, while the Freed's is one of the best varieties for growing in west-central Kansas. It is an exceptionally good yielding early variety for growing in any part of central or eastern Kansas.

In order to obtain information regarding the varieties of corn best adapted to the various sections of the state and the different soil types there, the agronomy department is co-operating with farmers in every part of the state in conducting variety tests.

THE OLD UNION SCHOOL HOUSE

Time was when this was one of the best school houses in Bulloch county. They had the best teachers obtainable in the county to teach them. Did work in the high school department for several years. Had an enrollment that surpassed almost any other school in the county.

But now, the school is not the equal of quite a number of our newer schools in many respects. They have no school yard or any facilities for school gardening. About two years ago, the patrons got together and raised funds with which to have the house painted inside and out which was done. This added quite a bit to its appearance, but still much is to be done to make this school what this community now needs.

This is just one large roomed school in which two teachers have to work. This year, two teachers taught in the same room. It would be no idea for these sturdy farmers to get together and add another room to this building so that they will be able to properly care for the needs of the district in every particular. What these people want they are able to get, and it is to be hoped that right soon, they will want a better building with better equipment.

The patrons of this school are the Akins, Andersons, Akinneys, Bowens and Nevils. The rank among our most progressive farmers and are what we call well-to-do. Have the highest priced lands and produce probably more cotton to the acre than any other set of farmers unless it be their neighbors who are in the New Castle district.

What this community needs is more money with which to operate longer terms of school. To get this, we will have to have county wide taxation for school purposes. Let us begin to pull for county wide taxation for Bulloch county.

FOLDING IRONING BOARD.

This ironing board is hinged to the wall and is always ready and in place. It may be hooked up against the wall out of the way when the board is lifted. With it down in use, the leg is not in the way and skirts may be ironed without changing. The directions for making are as follows:

Ironing Board—Length 57 in. rounded at free end. Width—attached end, 15 in. Leg—A. 5 1/2 in. to be changed to suit height of board. B. attached to board 11 in. from free end. Hinges—To be attached by hinges to the wall 33 in. from the floor. Wood—Wood one and a half in. in thickness. Cover—Padding, any heavy material such as cotton flannel or a worn out blanket. Cut to shape of board, allowing 2 in. on each side and end. Bring extra 2 in. to underside of board and tack firmly and smoothly in place. Ironing Sheet—Cut in shape of board, allowing 4 in. on sides and end and hem all around. Attach tapes on opposite sides, about 10 in. apart. Use the sheets on with these tapes. Make two sheets. The cover and sheets may be left on when putting the board up by allowing sufficient space when adjusting the tapes or sew hook and eye which holds the board in place. These labor saving devices give a splendid idea of the simple and inexpensive conveniences every farm man could have with but little expenditure of time and labor.

Why Spend your Money, "with a Spade"?

THRIFT does not mean Penuriousness! Its first principle consists in getting FULL VALUE for each Dollar of income expended.

Getting less is not complimentary to the intelligence of even a Millionaire.

Being liberal and generous, in affairs where it is proper and deliberate to be so, differs widely from being thoughtless and careless in buying things, on a business basis.

A habit of "Jumping at Conclusions," instead of Thinking out these Conclusions, costs many a man a lifetime of Un-success.

TOO many Americans indolently act upon the shallow theory that an article "must be" WORTH more, merely because it Costs more.

They are thus taxed a heavy price, all through life, for such an "indolent habit of Thought."

They work hard, industriously and intelligently, to acquire money.

Then (for their personal needs) they "Spend it with a Spade."

Is this complimentary to the judgment of even the Wealthiest?

Do people become Wealthy who acquire the careless HABIT of "Spend Money," instead of intelligent, thoughtful BUYING with it?

MONEY cannot make BETTER Fabric Tires—AT ANY price—than Goodrich—47 Year Experience—\$300,000,000 lbs. Purchasing Power and Deliberate Intention, are now producing. No Rubber Concern in the world could afford to offer the low Fair-List Prices here quoted, on Fabric Tires (for such HIGH quality) without the enormous GOODRICH VOLUME, which so reduces Cost as to make these lowest prices possible.

When, therefore, you pay MORE than these Goodrich Fair-List prices for ANY Fabric Tire, you are NOT getting "better" Tires.

Test out Goodrich Tires—and see!

Yours truly,
J. C. Hall,
GENERAL PASSENGER AGENT.

duties in connection with the work involved, without pay or promise other than the general uplift that they realize may be accomplished.

The insignificant fee of five dollars a year to maintain this little organization is a mere pittance compared to the great good that it will bring to the community. As a matter of fact, in point of resources, we are better able to maintain a successful Board of Trade with a regularly employed secretary than is Dublin, Georgia where this is done.

Statesboro should have fully three hundred members at a yearly fee of \$20.00 with a capable well paid secretary who should devote his entire time to the work of building up this city and county with manufacturing industries suitable to our products and resources. It is not a subject to pass by as unimportant; it is an absolute necessity to the progress of the city and county, and requires the undivided support of every citizen who gives same allegiance to his self, his family, his church and his country.

The Board of Trade through its kindred connections that have been formed since its organization has very recently from its own finances contracted with the Georgia State Chamber of Commerce for a double page advertisement of Statesboro and Bulloch county to be published in "Facts About Georgia" which is to be sold in the form of exhibit cars that are to tour the west and north west in quest of settlers and buyers of land and small farms. From the small amount of dues that are coming in, the Board of Trade assumed this obligation and made the initial payment; the entire Board of Directors meeting the traveling representative of the Georgia State Chamber of Commerce but a few days since, and concluding the arrangement.

The commissioners of several of our adjoining counties and even city administrations of towns much smaller than Statesboro are included in this work, and it is such that the Statesboro Board of Trade is quietly and systematically lending its efforts, and any citizen who shrinks the payment of five dollars a year to such an organization is shirking a duty he owes himself, his neighbor and public progress from which he must hope for a better town, better business, and better conditions in every walk of life. DON'T SHIRK.

GEORGIA EDITORS.

There is only one animal more obnoxious than the speed fiend and that one is the road hog.—Athens Banner.

The Water Melon is on but they will have to get a little mite cheaper before the average country editor can afford to indulge in the luxury. Once upon a time a farmer would send in one once an day while but things are different. What we get we have to pay for just the same as any other mortal.—Springfield Herald.

The judges of the different courts in Georgia ought to get together and decide just what can be done under the prohibition law. Every day it is given some new twist in some different section. Judge Hill, of Atlanta, has decided that a city cannot fine or imprison a "blind tiger" and then bind him over to another court. The decision will be carried to a higher court.—Valdosta Times.

The city authorities will do well to look after some of the holes that are holding water and causing mosquitoes. Some very bad cases of this exist in the city and something ought to be done about it. The lower edge of Calhoun, of West and near the post office hold water and they are therefore breeding mosquitoes. Bainbridge Post-Searchlight.

Statesboro has a fine demonstration last fall of how mosquitoes breed. The larva was found in the public house drinking trough and fire barrels all about the warehouse still there are a few who are profited from the demonstration to shoulder the arduous

TO PUT ALL TOWNS ON SAME RATE BASIS

Local Rates To Have Same Freight Rates As Larger Cities

TO BASE RATES ON MILEAGE

Railroads Issue Statement in Regard To Proposed Revision of Freight Rates in Georgia.

(Continued from page 7.)

There is no transportation reason why rates on commodities in Georgia lower than on interstate traffic between points in Georgia and in other states, should exist.

"In addition to the proposed readjustment of class and commodity rates, the Railroad Commission of Georgia is also asked to adopt the Southern Classification, with certain exceptions, to care for articles of the gross or heavy type, such as brick, clay, sand, marble, granite or stone, fireproof tiles, etc., in lieu of the present separate Georgia Classification.

Uniform Classification.

"The carriers, through a special Committee known as the Uniform Classification Committee, whose entire time is devoted to classification work, have since 1909 been actively engaged in formulating a Uniform Classification.

"More than 75 per cent of the descriptions of articles, methods of packing, carload minimum weights, and rules in the Southern Classification were adopted by the Southern Classification Committee, and these descriptions, carload minimum weights, etc., are the same as applicable in the Official and Western Classification territories.

"There is every reason why a state classification having interstate application should be uniform with the general classification used on traffic into and out of said state. The necessary for uniform classification has been recognized and urged by the National Association of State Railroads. Commissioners, various trade and industrial bodies, and the Interstate Commerce Commission.

"The adoption of the Southern Classification would have the effect of changing many rates in Georgia on articles not covered by commodity rates and not assigned to the Exceptions to the Southern Classification. Some of the changes would mean reductions and others advances in the present rates in the Georgia Classification, but would result in rates, descriptions of articles, methods of packing, carload minimum weights, and carload minimum weights, and rules being uniform with those generally applicable between points in the Southern territory.

"A great many erroneous statements as to the effects of the proposed adjustment have appeared in some Georgia newspapers. While we do not believe that the Georgia press tends to distort the facts, it is not improbable that other erroneous statements will be published, due to lack of proper information. We, therefore, ask the shipping public to call upon the representatives of the carriers for any information that they desire, which will be gladly and promptly furnished.

Will Furnish Information.

In order that any shipper may be able to secure authoritative information in regard to any feature of the proposed revision, a committee of traffic representatives has been located at Atlanta with headquarters at the Piedmont Hotel. This committee is composed of the following:

C. B. Keathor, general freight agent, Atlanta, Birmingham and Atlantic Railway; C. M. Davis, general freight agent, Atlantic Coast Line Railroad; N. B. Wright, general freight agent, Central of Georgia Railway; J. M. Cutler, general freight agent, Georgia Southern & Florida Railway; G. S. Rains, general freight agent, Seaboard Air Line; Randall Clifton, assistant manager, traffic manager, Southern Railway.

This committee or any member of it will be glad to promptly reply to requests for information from any Georgia business man.

There has not been any decrease in the price of any article, consequently the above increases has not been offset, but are NET.

Previous to the establishment of the 1880 freight tariff the Railroads of Georgia paid state taxes ONLY, the Constitutional Tax of five mills. The Railroads of Georgia now pay city, county AND state taxes, which is a tremendous increase in taxes. But we shall have more to say concerning taxes at a later date.

The above table does not take into consideration the greatest advance in the cost of manufacturing transportation—and the most important one—LABOR. We shall present indisputable facts and figures concerning this important matter at a later date.

The people of Georgia expect and are entitled to transportation. It is a FUNDAMENTAL BUSINESS NECESSITY. The service MUST be supplied. FAIR compensation should be paid for that service. Such payment is good business morals and will enable the railroads to render GOOD service, to which the people are entitled.

A DECLARATION OF POLICY.

It is not and will not be the policy of the Railroads of Georgia to propose any system of rates which would unjustly discriminate against the Georgia producer in favor of producers located without the state. Should this principle appear to be violated by any technical construction of our petition we give assurance that we will not propose, nor will we attempt to adopt, in actual practice, any rates at variance with the same.

Intrastate rates should and must be made to conform to interstate rates. The revision of Georgia freight rates now proposed simply conforms to the principles followed by the Interstate Commerce Commission in its long and short haul order, issued in compliance with Federal Law. No unjust discrimination of any character whatsoever is contemplated, nor would such discrimination be tolerated.

The Railroads of Georgia

subscription or advertising. The difference comes out of their profits—and many of them were not making money before the war began.—Tifton Gazette.

We've got to get on this prosperity wagon or get off the one we're on and walk.

Sending invitations and complimentary tickets to the newspaper probably originated with the first newspaper, though it has never been a practice in Rochelle.—Rochelle New Era.

Isn't it strange how the average person will accept courtesies from a newspaper, and then give it the marble heart? The people in this community are not free from this. It is usually characteristic of small cities. Some people will get all they can out of the editor and offer very little in return. But what a newspaper for, anyway? The editor and his family don't have to eat, and the printers are like camels,

they go nine days without drinking. The average person thinks a newspaper is a free horse for everybody to ride.—Millen News.

Not only strange but down right mean sometimes. A prosperous farmer drove up in front of our shop the other day with two horse load of fine big luscious watermelons and called us out to show us what splendid success he had after following the advice published in the NEWS about spraying. He leaned over and whispered in our ear give me a little write up on it this week won't you. "Gid ap mile." Now wasn't that cussed appreciation and our mouth just parched for a taste of a juicy watermelon. Oh well—

FISHING NOTICE.

There will be fishing in my pond known as Riggs Mill pond Wednesday, July 12th. Any one desiring shares write or apply to

C. M. RUSHING, Statesboro R. F. D. 5.

Have Manufacturing Costs Advanced Since 1880?

1916 Freight Service At 1880 Rates

Every business man, whether manufacturer or merchant, knows that the cost of every manufactured article has advanced tremendously since 1880. The manufacturer has, therefore, been forced to advance his price to the merchant, and the merchant to advance his price to the consumer—in proportion to the increased cost of manufacturing—or else go into bankruptcy and close up shop.

The Railroads of Georgia are engaged exclusively in the manufacture and sale of freight and passenger transportation. The transportation is manufactured out of steel, and iron, and coal, and lumber, and cross-ties, and brick, and stone, and concrete, and human brain and brawn.

The selling price of this manufactured article—transportation—was arbitrarily fixed and promulgated in the year 1880 by the then newly organized Railroad Commission of the State of Georgia. The Railroads of Georgia are today operating under rates ACTUALLY MUCH LOWER than the rates fixed by the Commission in 1880. THERE HAS NEVER BEEN A REVISION OF RATES UPWARD SINCE 1880.

Has there been an advance in the cost of raw materials which enter into the manufacture of transportation—steel, iron, lumber, cross-ties, brick, stone, concrete, LABOR?

There has! Below we present a table of 25 necessary articles in daily use by every railroad in Georgia, showing prices actually paid during the months of August, 1914, January, 1916, and March, 1916, and a fourth column showing the percentage of increase in prices actually paid by the Railroads of Georgia. The average increased cost of the 25 articles of daily use is 77.71 per cent, and much of it is paid to Georgia producers of the articles.

HERE ARE THE ARTICLES AND FIGURES IN DETAIL:

25 ARTICLES IN DAILY USE—

	August 1914.	January 1916.	March 1916.	Per. Increase Mch. 1916 Over Aug. 1914.
ANGLE BARS, per 100 lbs. f. o. b. mill.....	\$ 1.50	\$ 1.83 1/2	\$ 2.16 1/2	44.45 Pc.
FLINGS, spring rail, 85-lb. No. 10.....	42.50	46.62 1/2	48.42 1/2	14.65 Pc.
BOLTS, track, per 100 lbs. f. o. b. mill.....	2.90	2.47	3.25	62.58 Pc.
SPICES, track, per 100 lbs. f. o. b. mill.....	1.48	2.29	2.37	61.88 Pc.
BAR IRON, per 100 lbs. f. o. b. mill.....	1.22	1.95	2.25	85.84 Pc.
BOILER TUBES, per 100 lbs. f. o. b. mill.....	1.32	2.98	3.25	146.73 Pc.
PLATES, boiler and tank, 12 ga., per 100 lbs. f. o. b. mill.....	1.12 1/2	.65	.68	128.57 Pc.
COPPER, electrolytic (bearings, etc.) per lb. f. o. b. mill.....	2.80	4.38	4.96	77.68 Pc.
PIPE, black iron, 1 1/2 in. per ft. f. o. b. mill.....	10.92	14.83	15.00	35.83 Pc.
IRON, pig No. 2, per ton.....	1.85	3.25	3.58	92.31 Pc.
SHEETS, black, No. 2 Ga., per 100 lbs. f. o. b. mill.....	35.03	44.50	48.42	37.80 Pc.
TIN—Pb., straight, per 100 lbs. f. o. b. mill.....	8.76	23.00	25.32	248.86 Pc.
SPLITTER, per 100 lbs. f. o. b. mill.....	.052	.069	.074	35.68 Pc.
WASTE COTTON, per lb. f. o. b. mill.....	2.32	3.50	3.59	53.70 Pc.
CORR. foundry, per 100 lbs. f. o. b. mill.....	2.07	2.55	2.68	30.17 Pc.
STEEL BILLETS, per 100 lbs. f. o. b. mill.....	20.40	25.00	26.68	30.86 Pc.
LUMBER, car sills, per 100 lbs. f. o. b. mill.....	2.00	4.55	4.55	424.17 Pc.
TIES, mill, 100 lbs. f. o. b. mill.....	3.90	4.33 1/2	4.33 1/2	11.09 Pc.
SPRINGS, locomotive, per 100 lbs. f. o. b. mill.....	3.03	2.84 1/2	3.84 1/2	24.97 Pc.
COMMISSIONERS, various, per 100 lbs. f. o. b. mill.....	1.70	2.16	2.16	25.81 Pc.
SALES, wire, per 100 lbs. f. o. b. mill.....	1.67	2.38	2.57	54.00 Pc.
CROSSTIES, pine, each.....	.55	.40	.60	14.29 Pc.
BILLETS, forgings, per 100 lbs. f. o. b. mill.....	25.00	50.00	52.00	120.00 Pc.

AVERAGE PERCENT OF INCREASE IN PRICE OF 25 ARTICLES, 77.71 Pc.

IMPORTANT NOTE—In compiling the above figures, the percent increase in March 1916, over August, 1914, the percent of increase in each railroad was totaled and the amount divided by the number of railroads affected. The figures in the last column above are, therefore, not based on the figures shown in the first and third columns above, owing to outstanding contracts by many of the railroads.

There has not been any decrease in the price of any article, consequently the above increases has not been offset, but are NET.

Previous to the establishment of the 1880 freight tariff the Railroads of Georgia paid state taxes ONLY, the Constitutional Tax of five mills. The Railroads of Georgia now pay city, county AND state taxes, which is a tremendous increase in taxes. But we shall have more to say concerning taxes at a later date.

The above table does not take into consideration the greatest advance in the cost of manufacturing transportation—and the most important one—LABOR. We shall present indisputable facts and figures concerning this important matter at a later date.

The people of Georgia expect and are entitled to transportation. It is a FUNDAMENTAL BUSINESS NECESSITY. The service MUST be supplied. FAIR compensation should be paid for that service. Such payment is good business morals and will enable the railroads to render GOOD service, to which the people are entitled.

A DECLARATION OF POLICY.

It is not and will not be the policy of the Railroads of Georgia to propose any system of rates which would unjustly discriminate against the Georgia producer in favor of producers located without the state. Should this principle appear to be violated by any technical construction of our petition we give assurance that we will not propose, nor will we attempt to adopt, in actual practice, any rates at variance with the same.

Intrastate rates should and must be made to conform to interstate rates. The revision of Georgia freight rates now proposed simply conforms to the principles followed by the Interstate Commerce Commission in its long and short haul order, issued in compliance with Federal Law. No unjust discrimination of any character whatsoever is contemplated, nor would such discrimination be tolerated.

Edited by Miss Irine Arden, Telephone No. 7.

Mrs. Dan Davis is a guest with friends at Tybee.

Mr. J. Blitch is a week end visitor to Atlanta with friends.

Mrs. E. M. Anderson spent the week end at Pembroke with her sister.

Mr. Aubrey Olliff was a holiday guest with friends in Savannah.

Miss Orata Rice of Dublin, is a guest of Miss Evelyn Wood.

Mrs. J. E. Townsend of Pine-ora, is spending the week with her sister Mrs. Hosie Clark.

Mrs. James Moore entertained at "rook" Wednesday in honor of Miss Agnes Parker.

Mrs. Dr. Norris is spending a months vacation with friends in Lyons, Ga.

Mrs. J. O. Martin and children are guests of W. B. Martin at Dublin, Ga.

W. B. Martin of Dublin, was a week end guest of his brother, J. O. Martin.

Miss Millie Beacham of Dublin, is visiting friends in Statesboro for the week.

Mrs. Frank Grimes and children have gone to Thomas-ton for a visit of several weeks.

Mrs. Myrtle Olliff entertained Friday in honor of the bride to be Miss Agnes Parker.

Beverly Moore, J. P. Foy, and Logan DeLoach are sojourning at Tybee sea shore for a few days.

Mrs. John Wilcox and daughter, May are spending some time visiting in Eastman, Georgia.

Miss Eaks George of Atlanta, is a house guest of the Misses Anna and Louise Hughes on Savannah Avenue.

Miss Anna Schuett of Alabama, who has been a guest of relatives has gone to New Orleans to visit friends.

Mrs. S. C. Burroughs and two children are visiting parents, Mr. and Mrs. J. H. Smith in Savannah.

Miss Cora Mae Blitch who has been spending some time in Savannah has returned home.

Mrs. W. D. Anderson, and children are visiting with friends in Savannah and Tybee.

Mrs. Robert Grimes and little daughter, Mary Beth and Mrs. B. Holland were Statesboro visitors from Dover Monday.

Mrs. A. E. Ogilvie, sister of Mr. Maxey E. Grimes is a guest at her former home, and will remain some time before returning to Callahan, Florida, where she now resides.

Miss Irene Arden Entertains.

Miss Irene Arden was hostess to the "Khe Wha Wa" club on Tuesday afternoon. Rook was the game of the day. After this a delicious wedding supper was served and an enjoyable evening was spent by the many friends of the bride and groom who were present to wish them a long and happy life.

MRS. PAUL FRANKLIN ENTERTAINS.

On Wednesday afternoon Mrs. Paul Franklin was hostess to a number of friends complimentary to the Misses Agnes and Willibell Parker, who were married on Tuesday.

The rooms were tastefully decorated with pink and white roses. Four tables were set for "rook".

Mrs. Franklin was assisted in serving a most delicious course of refreshments by the Misses Isabel Hall and Lottie Franklin.

Those present were: The guests of honor, Annabel Holland, Gussie Lee, Anna and Louise Hughes, Miss George, Kate McDougald, Mrs. Chas. Olliff, Sidney Smith, Nita Keown, Grady Smith, Rufus Brown, Edger Dekle, Don Brannen, Walter McDougald, Doure Lee.

Mrs. E. C. Watkins is spending a few days in Savannah.

Mr. Felix Parrish has returned from a several days' visit in Savannah.

Mr. J. W. Williams is spending a few days in Shellman.

Misses Verna McElveen and Zulene Lane left last Monday for Athens where they will attend the summer school.

Miss Elise Geiger has returned after spending several weeks with Mrs. Robert Edwards of Meldrim.

IMPORTANCE OF LITTLE THINGS OF DRESS

Shoes, Gloves, Neckwear, Parasols and Hats. All Have Their Parts to Play.—Short Skirts Demand Smart Footwear.

New York, July 5.—(Special.) In the summer season, perhaps more than at any other time, it is the little things of dress which count in the wardrobe.

The sheer lingerie frock gathers much of its charm from the bright girle; the touch of color at the throat, the well-fitting pump, or boot, dainty stockings and gloves and the wide-brimmed, becoming hat which completes the ensemble.

Without these finishing touches, the frock itself might fall short of expectations.

Summer Footwear.

Although the high laced boot was chic and becoming with the short tailored skirt, and is still a favorite in white canvas, buckskin, and the soft gray and tan leathers, the low shoe is much in demand. The old-time Colonial pump with

Friends of Hon. J. W. Overstreet Hold Meeting Here

Upwards of sixty personal friends of Hon. J. W. Overstreet, who was in town yesterday in consultation relative to the outlook for his candidate and devising plans for the furthering of the campaign in a vigorous manner from now until the primary. It is understood that thus far conditions are found to be perfectly satisfactory to Mr. Overstreet's managers with every indication as they see it of his being elected. It is likely that Mr. Overstreet will be heard in Bulloch county in the near future when his appearance will be widely advertised. His friends state that his speech at the court house Monday was of an impromptu nature and that while he had a crowded house owing to court he desires that a large number of Bulloch voters should hear what he has to say and he contemplates another visit.

JURY FREES JOHN ALLEN.

Noted Case at Last Concluded. The locally famous case of John Allen who killed J. E. Waters some six years ago and which came up this adjourned term of the Superior court under a mistrial of three years ago has finally been brought to a close by a jury who rendered a verdict of acquittal Wednesday morning after a two days legal battle. The circumstances of the affair are familiar to the people of the community.

Biliousness and Stomach Trouble. "Two years ago I suffered from frequent attacks of stomach trouble and biliousness," writes Miss Emma Verbyke, Lima, Ohio. "I could eat very little food that agreed with me and I became so dizzy and sick at my stomach at times that I had to take hold of something to keep from falling. Seeing Chamberlain's Tablets advertised I decided to try them. I improved rapidly." Obtainable everywhere.

PROGRAM AMUSE THEATRE

Statesboro, Ga.
Week Beginning Monday July 10th.
MONDAY—"CARISSA" Featuring the fascinating star Hazel Dawn.
TUESDAY—"JOHN BARRYMORE" In the celebrated "THE DICTATOR".
WEDNESDAY—"MARY PICKFORD" In an unusual characterization "LITTLE PAL".
THURSDAY—"The Inimitable Comedian 'V.I. C. TOR MOORE' in a pictorialization of the world famous Irish-American Comedian 'CHIMMIE FADDEN'."
FRIDAY—"MYRTLE STEPMAN" The most beautiful woman on the screen in "WILD OLIVE".
SATURDAY—"MAUD ALLEN" The internationally famous dancer in "THE RUG MAKERS DAUGHTER".
J. F. BRADY.

Formerly With S. & S. Now With G. & F. Ry., in Town. Genial J. F. Brady well known to Statesborians in his former connection as commercial agent of the S. & S. is in town looking up business for the G. & F. Ry. which road he is now connected. Mr. Brady is full of enthusiasm over the prospects for one of the largest and most valuable crops this section has experienced in many years, and notes with interest that great diversification prevails to a wider degree than has heretofore been the rule all of which he says spells success with a large S.

NOT ENOUGH CHILDREN

They receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in later life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition. For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. Possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol. Scott & Borne, Bloomfield, N. J.

GOV. HARRIS TO SPEAK IN STATESBORO JULY 13

A telegram was received in Statesboro last night by friends of Governor Harris that he would speak to the voters of Bulloch county on next Monday, and arrangements are being made accordingly to give him a large crowd although time announced is very short however his friends of whom there are a great number are earnestly at work to bring out the representative vote of the county.

FINE WATERMELONS

John F. Morris, Brings in High Grade Fruit.

John F. Morris is delivering some of the best watermelons that have been grown in the Bulloch county fruit section this season. He has two varieties and each are splendidly developed and exceptionally sweet. Mr. Morris favors the News office and staff with a pair of the best he had which were enjoyed hugely. Mr. Morris has our gratitude for the treat.

FIRE DESTROYS

Home of B. P. Maull on Zetterower Avenue.

While all the family were absent on the fourth of July the residence of B. P. Maull caught fire in some unknown manner and before the department reached the place, it was practically burned to the ground. It is presumed that it became ignited by a short circuit, when the day current was turned on at about 4 p. m. There had been no fire left in the stove when the family left. Only a few of the household effects were saved by neighbors. The property was practically covered by insurance.

Rooms for Rent

Ladies for rent or boarders wanted, rooms or couples.

39 Zetterower Ave. 7-01 t. p.

GENERAL FACTS ABOUT CANCER

(By Emory R. Park, M. D.)

Fact No. 1. In the early stages it is confined to one place.
Fact No. 2. It can be completely cut out and cured if the operation is performed while the cancer remains a localized disease.
Fact No. 3. If the operation is deferred the cancerous condition spreads to different parts of the body and even an operation can not cure it.
Fact No. 4. There is no medicine which will cure a cancer.
Fact No. 5. The sooner a cancer is cut out the better the chance of complete cure.
Fact No. 6. The sooner the operation the less the amount of tissue that has to be removed; hence, the less the disfigurement and the less the danger; also, as has just been said, the greater the prospect of complete cure.
Fact No. 7. Cancer is rare in people under thirty-five years of age.
Fact No. 8. It is one of the most common causes of death in people over forty.
Fact No. 9. It has not been definitely determined whether or not cancer is hereditary.
Fact No. 10. The exact cause of cancer has not as yet been discovered, but we do know that it often arises at points in the body where there has been a long continued irritation, such as, for instance, on the cheek or tongue near a decayed tooth; in the rough, jagged toes; in a breast that has been repeatedly injured; in an old ulcer of the skin or of the stomach; on the skin of those who work constantly with irritating substances, on the tongue or lip of a heavy smoker; in the womb of women who have old unhealed lacerations; in warts and molds that are frequently injured, etc., etc.
Fact No. 11. Anything about the body that is the cause of, or the object of, chronic irritation should receive prompt attention. It should be promptly removed if it cannot otherwise be promptly cured.
Fact No. 12. Radium helps

SAGE TEA BEAUTIFIES AND DARKENS HAIR

Don't Stay Gray! It Darkens So Naturally that No-body can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because during the hair so naturally and evenly that no one can tell it has been applied. Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful. This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days. This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

some cases.

Fact No. 13. There is very little radium in the world. What there is of it is extremely expensive and is hard to get access to.

Fact No. 14. Operations are within reach of all, even the very poorest person, and will cure all cases if performed before the cancer scatters thru the body.

Fact No. 15. X-rays are useful in some cases, particularly cancers of exposed parts like the skin, for instance.

Fact No. 16. Pain is a late symptom, and if the patient with a lump or with any of the other symptoms given below, waits for pain to drive him to a doctor, it is often too late to cure the disease.

Fact No. 17. Not all lumps (or tumors) are cancers, but many of them are, and what is further more, many that are not cancers start with benign cancer in the course of time.

Fact No. 18. If you have a lump, or wen, or a tumor, or a sore that does not readily heal, or if you have chronic indigestion, or bleeding from the rectum, or if you are a woman in or past middle life and have a retracted nipple, or dimpling of the skin covering the breast, or a bloody discharge from the nipple, or a lump in the breast or under the arm, or if you have passed the change of life but still have an irregular bloody discharge, you should not lose a second in seeing an honest, well educated, well trained doctor. Your trouble might not be cancerous. If it is not you will be relieved. If it is cancer, the sooner you know it and have a thorough operation for it, the better your chances will be to get entirely well.

Next, it should be borne in mind that while cancer is a disease of middle life and old age, there are other malignant tumors, called sarcomas, that occur from infancy to old age. There are equally as dangerous and destructive as cancer.

BULLOCH COUNTY WATERMELONS ARE COMMANDING HIGH PRICES

MANY BUYERS ON THE GROUND. SHIPMENTS GOING FORWARD DAILY.

This is proving a good water melon season for growers in Bulloch county. Buyers now

on the ground say that the Bulloch county melons are the largest and best now obtainable. There are more buyers in Bulloch county than at any previous season which will give encouragement to growers to devote more care and attention to their product in the future.

NAMES OF WATERMELON BUYERS — SEASON 1916.

New in Statesboro.

These buyers on hand July 10th, 1916.

The NEWS sought Superintendent Grimshaw of the S. & S. for information regarding the crop along his line he says:

The melon crops on the Savannah & Statesboro are moving rapidly and the buyers report good demands for 30 pounds and above when well packed and fresh. Melons per car load averaging 30 pounds have sold readily at \$85.00. The crop should be about 700 cars and the movement will last until August 10th.

In my opinion more money could be received per car in spite of the rains and consequent condition of the melon, if the growers would grade and load correctly. This is very important for cars must receive considerable shading before reaching the eastern and western markets.

Now that the melon season of 1916 is at its height and all growers are interested in getting all the information they can for another crop, I suggest the News publish several rules laid down by the Department of Agriculture for detecting wilt and the means to overcome this serious disease.

How to Detect Wilt in Water Melons.

Washington, D. C., July 12.—A recent bulletin issued by the Department of Agriculture says that a serious disease of watermelons, known as the wilt, has for many years been
