FIRST CONGRESSIONAL POSTMASTERS TO MEET

At Savannah, Georgia, August 4th.

R. E. Eason, Acting State President of the Georgia Branch of the National League of Third and Fourth Class Postmasters, has issued a call for the Postmasters of the First Congressional District to meet at the Federal Court Room, Post Office Building, Savannah, Ga., at Ten O'clock on the morning of August 4th, 1916.

An interesting programme will be rendered part of which will be some very instructive speeches on different phases of the work. Also some important business will be attended to, such as the Completion of the District Organization, the Election of Delegates to the State Convention which meets at the Aragon Hotel, Atlanta, Ga., the 16th and 17th of August 1916.

Every Postmaster of these classes is urged to attend both Conventions.

PITCHFORK AND HATCHETT FIGHT AT OLNEY.

Mr. Lewis, of Olney, and the two Glisson boys tried to imitate the Germans and the Allen Tuesday morning in Olney. Both parties had ordered cars for the purpose of shipping melons. One car had come and each thought it was his. On Tuesday morning the Glisson boys went down and papered the car, put in the straw etc. for their melons; in the midst of their preparations Mr. Lewis appeared on the scene of action and accused the boys of stealing his car. This incensed one of the boys so that he went for Mr. Lewis with his pitchfork. His attack was met by Mr. Lewis, whose weapon was his hatchet. While these two were fighting, the other Glisson boy jumped on Lewis from the rear, and consequently he laid up from a blow received from the hatchet, which Mr. Lewis seemed to be well practised in using.

MELDRIM TO SPEAK FRIDAY AT DENMARK.

General Peter W. Meldrim will speak to the voters of Denmark Friday afternoon at 2:30. Special heralds have been distributed and the indications are that a large crowd will congregate at Denmark to give audience to the distinguished Georgian.

HON. J. W. OVERSTREET Addressed Large Crowd at Portal.

Hon. J. W. Overstreet candidate for congress was greeted with an unusually large crowd at Portal last Saturday where he was tendered a complimentary barbecue banquet in which some eight hundred people participated. The meeting was addressed by several of Mr. Overstreet's friends among them Hon. Albert Deal who in the course of his remarks called for a rising vote of those supporters of Mr. Overstreet. Mr. Overstreet left immediately following the dinner for Brooklet where he spoke to another large congregation of voters and returned to Statesboro where he remained until Sunday morning, going to his home in Sylvania.

\$5.00 IN GOLD FOR THE FIRST BALE COTTON Delivered to Statesboro Cotton Oil Co.

Who wants a \$5.00 gold piece? The Statesboro Cotton Oil Co., announce in a special advertisement that they have this yellow money for the man who brings the first bale to the mill, and furthermore will give the bale free and furnish bagging and ties in the bargain. The Statesboro Oil Co., have made extensive and additional improvements to an already modern mill and are anticipating a splendid season from the extensive crops that are to be gathered.

HAVE YOU WEAK LUNGS?

Do colds settle on your chest or in your bronchial tubes? Do coughs hang on, or are you subject to throat troubles? Such troubles should have immediate treatment with the strengthening powers of Scott's Emulsion to guard against consumption which so easily follows. Scott's Emulsion contains pure cod liver oil which peculiarly strengthens the respiratory tract and improves the quality of the blood; the glycerine in it soothes and heals the tender membranes of the throat. Scott's is prescribed by the best specialists. You can get it at any drug store. Scott & Borden, Bloomfield, N. J.

SUMMER SCHOOL CLOSES.

The eight weeks term of the Statesboro Summer School will close Friday, 28th, inst. The enrollment has been 40 pupils, of whom 30 are in the High school grades, and 10 in the Grammar grades.

The attendance has been exceptionally good, and some 30 progress reports have been made, three days of the week taking examinations, and when the papers have been examined, certificates of credit will be issued to all those who have made the requisite marks. All made the pupils will assemble at the Institute building next Monday morning, at 8 o'clock when each one will get a certificate of the record he has made on his examination.

A cordial invitation is extended to the Board of Trustees of the City schools to be present. All the examination papers will be carefully preserved for the inspection of the Board and the teachers of the Board and the teachers of the City Council for their courtesy in allowing me the use of the building. I wish to express to my patrons my appreciation of the trust and confidence reposed in me by permitting to my care their sons and daughters. I have endeavored to be faithful to my trust.

The work has been exceedingly strenuous, owing to the multiplicity of grades, and yet I have thoroughly enjoyed helping these bright and ambitious boys and girls, and my hearty friendship and good will will follow them in their further careers. My patrons are among the very best people of Statesboro, and I feel I have been fortunate in the representative patronage which I have had.

Respectfully,
JOHN C. LANGSTON.

DORSEY AT STATESBORO (Adv.)

Hugh M. Dorsey, candidate for governor of Georgia, will speak to the people of this county on Wednesday, August 2, at 10 a. m. o'clock, at Statesboro.

Mr. Dorsey is making his second campaign tour in South Georgia, having just completed a tour in the southwestern section of the state, which he made from two to four speeches each day. Mr. Dorsey travels by automobile, and in addition to his scheduled speeches will make brief stops at other points on his route, for the purpose of meeting the people.

His present tour covers Laurens, Emanuel, Bulloch, Bryan, Evans, Tattnall, Liberty, Wayne, Pierce and Ware counties, with stops in addition to his regular speaking engagements at Aiken, Graymont-Summit, and Greenville.

Mr. Dorsey will discuss the issues in the present campaign for governor and in addition will be glad to answer any one-half the price of the whole tract, which is \$2,000 on easy terms.

No. 18.—20 acres just west of Statesboro.

No. 90.—79 acres in one mile of the city. All cleared and in high state of cultivation. Good building. Price very low.

No. 97.—42 1-2 acres in one mile of the city, worth looking after.

No. 98.—42 acres one mile of city; good buildings—price low.

No. 25.—35 acres, 8 miles South of Statesboro, 4 room house, barn, and 10 acres ready for the plow. Price \$1,000.00 terms easy.

No. 19.—63 acres on public road, by Roberts Mill. Price \$1,050.00. You cannot better this price and land. Look and see.

I have city property all over the town. Ask for what you want. Vacant lots from \$200 to \$300.00. Now is the time to make arrangements with me to sell your land, as it will take a little time to advertise. Come in and see me and if you want to buy or sell, we will talk the matter over.

Yours truly,
J. F. FIELDS.

"GENERAL MELDRIM NOW GAINING

Mr. J. P. Moore of Evans Says He is Getting Stronger.

Mr. John P. Moore of Claxton, one of the best known and most prominent citizens of Evans county, is in the city today on business. Mr. Moore, who was one of those who worked hard for the creation of Evans county, says there is much interest being shown now at his home in the campaign for congress.

"General Meldrim seems to be gaining strength all the time," says Mr. Moore. "When General Meldrim's candidacy was first announced it seemed that Mr. Overstreet would carry the county without any trouble, but there has been a decided change in sentiment since the general has been out among the people. Now you will find that he has many supporters in Evans and in the counties adjoining it."

A Test Vote. "I was in a crowd a few days ago in which there were 11 men. They were not selected fairly well the sentiment of the county and the community. Seven of them were for Meldrim."

Savannah Press, July 24th, 1916.

NOTICE WOOD DEALERS.

I have for immediate delivery two hundred and fifty cords of stove wood cut from green pines, that is thoroughly dry. Want to sell to dealer for cash at low price. See me. 7-27-2-t.c. B. R. OLLIFF.

Field's Realty Specials

ALL THE PEOPLE OF THIS AND ADJOINING COUNTIES ARE INVITED TO BE PRESENT AND HEAR HIM.

A New Bale of Cotton

We Offer \$5.00 in Gold as Well as Free Ginning and Wrapping for The First Bale of Cotton Ginned at Our Plant.

Mr. Cotton Farmer, we guarantee to save you time and money if you will allow us to gin your cotton, we have thoroughly overhauled our eight (8) stand green seed ginnery. We have installed together with other improvements, a special tooth saw, which enables us to secure the best possible turn out of cotton, as well as a superior sample, for our customers.

We also expect to have a Mr. Foss with us to attend our three double roller Foss Black Seed Gins, which we have gone over very thoroughly in an effort to put them in a very first class condition.

Remember, we at all times carry a very large stock of cotton seed meal, both sacked and loose hulls, which we offer in exchange for sound dry cotton seed, or sell for cash at lowest prices. See us before buying.

Give us a trial, and we will convince you that we mean business and if we do not please we will refund your money. COME TO SEE US.

Special Bills Being Pushed Thru

Savannah Recall Bill Up For Hearing.

Atlanta, Ga., August 3.—The House of Representatives is engaged this week in a special order of bills that will probably keep it busy throughout the week and during the better part of next week.

Among the bills on the order are the following: Bill authorizing counties to furnish free text books to school children; bill authorizing county boards of education to go outside of their respective counties to elect county school superintendents; bill providing for appointment of superior court judges by the governor, on recommendation by the supreme court and subject to confirmation by the senate; bill abolishing fees of solicitors general and placing them on salaries.

The house disposed of the compulsory education bill last week a good deal quicker than was expected.

The senate will probably consume more than one day this week on the bill to place a recall in the city charter of Savannah, applicable to the mayor and certain other city officials.

This is the bill that has precipitated a state-wide prohibition fight. The Law Enforcement League of Savannah has shown the prohibition members of the legislature, to their satisfaction, that the recall is wanted by the liquor interests of Savannah as a means of ousting Mayor W. J. Pierpont because he closed the saloons in that city on May 1, when the new prohibition laws became effective.

Senator A. Lawrence, of the First (Savannah) district and Representative Shelby Myrick of Chatham county, who led the filibuster against the prohibition bills in the senate and the house during the famous extra session, last year, have conducted a determined campaign to get the recall bill through the house and senate, but the prohibitionists have them blocked at every turn.

HON. HUGH DORSEY IN STATESBORO

Speaks Before Overflowing House.

Hon. Hugh M. Dorsey, candidate for Governor of Georgia spoke to a Bulloch county audience which overflowed the court house auditorium Wednesday. People began coming to town early and long before the appointed time for Mr. Dorsey's appearance the room was packed with a mass of people. Hon. H. B. Strange introduced the noted speaker who very quietly began his address and at no time did he exhibit any great force or speech in his remarks. He referred to his three opponents in due political style taking up their arguments and analyzing them thoroughly in so far as they referred to him and also their claims for the office they seek.

Mr. Dorsey probably dwelt more at length on the subject of a recall in relation to a candidacy of Dr. Hardman and Hon. Joe Pottle than he did to that of Governor Harris. Mr. Dorsey frequently interspersed his address with humorous stories which were appropriately placed and hit the mark at which they were directed.

Applause was often given the speaker and at the close of his address he held an informal reception on the floor of the auditorium when practically the entire assembly waited to shake hands. Mr. Dorsey found a great many personal friends former college chums and political supporters in Statesboro and Bulloch county who are ardent admirers of the young gubernatorial candidate and judging from the anxiety displayed to see him they will really round his banner.

STATESBORO GETS 1917 CONVENTION

Of the Georgia Agricultural Society.

Hon. Judge W. H. Cone and Hon. J. W. Williams who went to Athens to attend the Georgia Agricultural Society Convention and took with them an invitation from the Mayor and council and the Board of Trade to present to the society to hold their next annual meeting in this city have been successful and the 1917 convention was unanimously given to Statesboro. Martin V. Calvin, Sec'y, for 16 years was elected President.

Senator C. P. Dobbs To Oppose Wright

For Office of Comptroller General.

Atlanta, Ga., August 3.—The announcement of Senator E. P. Dobbs of Marietta as a candidate for comptroller-general and ex-officio Insurance Commissioner, to succeed Hon. Wm. A. Wright, promises to put some ginger into one state house race and developments are expected to come thick and fast in connection with the records of that office, which have been more or less in the limelight during the last few years.

Senator Dobbs expresses the belief that there should be a radical change in the administration of the tax and insurance departments of the state, and he seems to have something up his sleeve when he says, in speaking of the office:

"I will, at an early date, furnish the public with the official records of results, and which will astonish the uninformed by disclosing the amazing number of preventable losses suffered by the people of Georgia on account of the administration—a record in which Georgia leads the black list of all the states in the Union."

Senator Dobbs has held a number of important positions. He has several times represented Marietta as mayor, is chairman of the board of trustees of the Seventh District Agricultural school, having had that position for years.

He has twice represented the thirty-fifth senatorial district in the state senate, and is at present president pro tem of that body, having been elected without opposition. He recently attended the national democratic convention as delegate from the seventh congressional district. He has been successfully engaged for more than twenty years in the manufacturing business in Marietta.

Pres. Wilson Endeavoring To Avert R. Strike

Washington, Aug. 3.—Secretary of Labor Wilson this afternoon announced, following the Cabinet meeting, that he is going to take a hand in trying to prevent the threatened general strike of railroad employees. The department's board of mediation and conciliation will call a meeting in ten days to attempt to adjust all differences at which labor leaders and representatives of all big railroads affected will be present.

It is understood that the Cabinet discussed the threatened strike and was unanimous in the belief that the Government should do everything possible to prevent a walk-out.

S. & S. AND SEABOARD.

Special Excursion to Jacksonville.

An opportunity to see the Florida metropolis Jacksonville and the beauty spots surrounding the famous city on the St. Johns river is offered Bulloch county people in a special excursion to be operated to that city Wednesday, August 3rd. Mr. W. B. Clements special passenger agent of the Seaboard arrived in Statesboro today to co-operate with Superintendent Grimshaw on the preliminary arrangements. Mr. Clements will personally accompany the excursion to look after the comfort and pleasure of those availing themselves of this splendid opportunity.

Western & Atlantic May Go To Sea

The Proposal Has Strong Endorsement.

Atlanta, Ga., August 3.—The state of Georgia may extend the Western & Atlantic railroad from Atlanta to the sea without expending a dollar, if the general assembly should accept one of the several proposals which have been and will be submitted to it.

A group of railroad builders have offered to build the extension and sell it to the state and accept bonds in payment for it. They will then lease the extension and the present Western & Atlantic railroad for such a term of years and at such rental as will pay interest and sinking fund on the bonds and retire them at maturity, plus a cash rental equivalent to the present rental of approximately \$500,000 per annum. They will give acceptable security to guarantee their contract. At the bonds and the lease they will turn the road, with the extension, back to the state.

The proposal has been strongly indorsed by some of the leading men of the state who have made an exhaustive study of the Western & Atlantic and who are bitterly opposed to the scheme of the Louisville & Nashville to buy the state road or destroy its value by building a parallel line.

HARDMAN LEADS FIELD IN GOVERNOR'S RACE

(Advertisement)

Atlanta, Ga., Aug. 2.—With sentiment in the governor's race rapidly crystallizing recently, it is apparent that Dr. L. G. Hardman is leading the field. The first to announce, he began early and has waged an aggressive campaign, carrying it directly to the people. He has visited practically every county in the state, which is greatly to his advantage, as he makes a fine impression and gains strength wherever he goes.

Dr. Hardman's style of campaigning appeals to the people because of the high plane upon which he bases it. Making no references to the other candidates, he simply presents his own case, dwelling on his legislative record and the principles and measures he advocates, including law enforcement, increased educational opportunities, development of farming interests, complete separation of church and state, a strict business administration of state affairs, and many other matters of vital concern.

Of lofty character and large affairs, Dr. Hardman is distinguished by eminent success in all his own professional, business, and agricultural undertakings and a career of brilliant public service, having been the author of much legislation promoting agricultural interests and the general welfare. A business man and Christian statesman, his motto is: "First the people themselves, then their affairs, both safely guarded."

Beginning the race with the practical solid backing of those who supported him two years ago, when he carried sixty counties and barely missed a number of others, Dr. Hardman had a running start, and late reports from various sections now indicate that he will carry the state by a sweep.

Invitation from the Mayor and council and the Board of Trade to present to the society to hold their next annual meeting in this city have been successful and the 1917 convention was unanimously given to Statesboro. Martin V. Calvin, Sec'y, for 16 years was elected President.

Masons Annuity Branching Out

The Order Has Been Admitted In Four New States.

Atlanta, Ga., August 3.—Announcement has just been made by the Masons' Annuity, which is providing for the widows and orphans of Masons, that the order has been admitted into four new states: Tennessee, Virginia, North Carolina and South Carolina.

This, in which so many Masons in Georgia and the south are interested, is now doing a great work in an even dozen states, as it has been established for a long time in Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Oklahoma and Missouri.

The mission of the Masons' Annuity is to provide permanent protection in the form of life incomes to the widows and orphans of deceased members. It is a cooperative association of Master Masons, representing and exemplifying the practical aspects of masonry, and for sixteen years has performed its sacred function with unswerving fidelity. It has thousands of members and hundreds of beneficiaries. Its present assets are \$906,962.30 and it has paid beneficiaries \$810,419.81.

SUCCESSFUL START OF ANDALUSIA'S PLANT

Immediate Benefits Noticeable.

(From Manufacturers Record) Montgomery, Ala., (Special)—When the Andalusia (Ala.) Packing house opened the event was hailed as an important industrial event for Alabama. The contract for construction was let last October, and in several months the plant was ready to run. Andalusia's plant is said to be the largest in the South, as well as the most modern and best equipped. It is built at a cost of \$150,000, and is owned entirely by local people living in one or ten counties of Southern Alabama. The plant has a killing capacity of 2000 hogs freezing capacity is limited to 5000 hogs a day. It is thought to 50 cattle daily, but its that this capacity will take care of the hog production in Southern Alabama, Northern Florida, and Eastern Mississippi for at least two years, when by a running cold-storage unit, the plant can be made to take care of its full killing capacity.

The plant will not run at full speed through the summer, but will give the farmers throughout Alabama, Florida and Mississippi a market for such hogs and cattle as they have. The prospects for next winter are that from October 1 the plant will have sufficient hogs and cattle to run at full speed through the winter and into the spring.

Although the plant has just started operation, its benefits are manifest already. In spite of the presence of the boll-weevil, land prices in this section have held their own, and the prospects are that thousands of people will buy farms and settle in Southern Alabama within the next year in order to be in close proximity to the packing plant. In fact, this movement has already started, and some outsiders have bought and recently settled in Covington county.

The Andalusia plant has been paying close to the Chicago price for hogs and cattle for the past two weeks, and some very fine hogs have come to the plant.

Preaching at Register.

Announcement is made that Elder W. B. Screws of Claxton, will preach at Register Sunday night, Monday and Tuesday night, 18th, 19th and 20th. A cordial invitation is extended the people to attend these services.

Midland R. R. Bridge Is Threatened by High Water

Sunday Superintendent C. E. Clark of the Midland was hurriedly called with a crew of men to protect the approach to the railroad bridge crossing the Ogeechee near Pineora. Mr. Clark immediately called into service a train of loaded flat cars and placed them on the tracks over the threatened places which served to hold his road bed secure until other resources could be brought in effect. About 80 feet of the road would have

How Limpet Stick.

Every one is familiar with the saying "to stick like a limpet," but there are not so many who know how it is that the limpet is able to stick as it does to the rocks upon which it passes its existence. The creature is able, by means of the central portion of its body, which can be raised independently of the edge or foot which surrounds it, to create a vacuum, much in the same way that a piece of soft wet leather as he made to adhere to a smooth surface by pressing out all the air. Thus the so-called "strength" of the limpet is largely due to atmospheric pressure. It is not entirely so, however, for if they are closely examined it will be seen that the shells accommodate themselves around the edges to the surface of the rock upon which the limpet is located, and if removed to another spot the edge of the shell will probably be found to be a very bad fit and the creature's power of adhesion is somewhat lessened. If taken by surprise with a smart sideways blow even a large limpet is easily enough dislodged, but given the slightest warning, the power of adhesion is instantly brought into play, and very often considerable force is then necessary ere it can be detached.—London Mail.

Taming the Mink.

The United States department of agriculture is making experiments in domesticating the mink. Well, here the poultryman who tries to rear his chickens near that experimental farm. The mink has far as the fox as the most exciting and desirable, but his disposition is as bad as that of a Villista bandit, and he can dig his way into any inclosure no matter of brick, stone or concrete. He loves blood as well as a wasel. He has a perfect genius for evading traps, and he can conduct his depredations so skilfully that for months and even years they will be laid to other marauders, and only the closest observers will know that there is a mink in the neighborhood. The idea of the department was to be the means of effecting this enterprise. It was thought that by sinking the vessel during the daytime she might escape the notice of the British cruisers and being raised at night, might approach the guarded rock without discovery. The vessel was actually begun in one of the buildings upon the island, but the peculiarity of her construction having occasioned suspicion, she was seized by the government.

Our First Railroad Train.

On Aug. 28, 1830, the first American built railroad train made its initial journey. The train carried passengers in its four little cars and made a trip of about four miles in one hour and fifteen minutes, to the utter astonishment of the "natives," who predicted all sorts of dire calamities from such speed made. This was the beginning of the Baltimore and Ohio railroad, the oldest American road.

Fly Don'ts.

Don't tolerate flies. Don't allow them in your house. Don't allow them on your premises. I have found garbage, rubbish or manure to accumulate on your lot or near it, suggests the Kansas City Star. Don't allow dirt in your Look in the corners, behind the doors and furniture, under stairs and beds. Remove the cuspidors. In brief, keep the house clean. Don't allow flies near food, especially milk. Don't buy foodstuffs where flies are allowed. Don't eat where flies are found. Don't forget the screens. Don't forget to write to the Board of Health if there is a fly-breeding nuisance in your neighborhood.

Cure for Cholera Morbus.

"When our little boy, now seven years old, was a baby he was cured of cholera morbus by Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Mrs. Sidney Simmons, Fair Haven, N. Y. "Since then other members of our family have used this valuable medicine for colic and bowel troubles with good satisfaction and I gladly endorse it as a remedy of exceptional merit." Obtainable everywhere.

WHAT DO YOU THINK OF FREIGHT RATE REVISION?

We have suggested to the Railroad Commission of Georgia a system of revised rates for intrastate commerce to conform with the system of rates for interstate commerce. The hearing is set for August 17th.

The interests of the railroads and the interests of the people are identical. If, in urging our petition, we retard the development of Georgia, we retard the development of the railroads of Georgia.

You've thought about rate revision—does it affect your interest? Write us frankly just what you think—what's in your mind. Have we the wrong idea? If so, in what respect? If we think you have the wrong idea, we'll try to set you straight.

Remember we cannot prosper unless you prosper. Your prosperity depends largely upon good transportation service, hence the community of interest.

We have told you the handicap under which we, and a large number of the smaller towns in Georgia, are laboring. In asking you to write to us we are not seeking praise. We seek expression of your mature business opinion.

We think rate revision which removes discrimination and enables the railroads to earn sufficient to render first-class service and carry forward their work of development, a good thing. A revision on these lines cannot impose a burden upon the business interests of Georgia—which would be bad for both the people and the railroads.

Interstate revision, removing many discriminations, took place January 1st, last, under requirement of the Interstate Commerce Commission. We think discrimination of like nature should be removed from intrastate adjustments, also.

What do you think? Write today. Your letter will be appreciated and receive attention.

It is not and will not be the policy of the Railroads of Georgia to propose any system of rates which would discriminate unjustly against the Georgia producer in favor of producers located at points without the state. Should the principle appear to be violated by any technical construction of the petition we give assurance that we will not propose, nor will we attempt to adopt, in actual practice, any rate at variance with the same.

Statesboro People in Heart Of Jersey City Explosion

Mrs. Thomas D. Van Osten wife of the editor of the News who is now in New York and writes interestingly of the terrible explosion which shocked all Manhattan Island, Brooklyn and territory for miles surrounding, last Sunday morning. Mrs. Van Osten states that at the moment of the first concussion she was awake and with the terrific and shattering of glass and trembling of the house she thought a horrible earthquake had been visited upon them or that the end of the world was approaching. Heavy large double doors in her brothers' residence several miles from the explosion were blown completely from their hinges back in the hallway and all windows were shattered. The American Type Foundry Company in Jersey City of which her brother is chief electrical engineer was damaged to the extent of many thousands of dollars and scarcely a building in Jersey City but what had every window blown out. She states that within five minutes after the first series of explosions the streets were packed with screaming women and children, saints and sinners alike, on their knees praying not knowing what catastrophe was being visited upon them.

REMOVAL NOTICE.

To my Customers: I have removed from 19 West Main Street to my present address, No. 32 West Main where I will be pleased to have my friends bring their work in harness and shoe repairing which I am equipped to handle in a satisfactory manner at reasonable prices.

T. A. WILSON,
32 W. Main St.

TO PEANUT GROWERS.

"Tom Huston" Peanut Digger. Solves the peanut problem. Clips the roots just below the peanuts leaving the simple, practical and guaranteed. Attaches to any Georgia stock or cultivator. Price \$1.50, postpaid. Representatives wanted. Act quickly. Thomas Huston, Columbus, Ga. 8-3-2-t.c.

NOTICE WOOD DEALERS.

I have for immediate delivery two hundred and fifty cords of stove wood cut from green pines, that is thoroughly dry. Want to sell to dealer for cash at low price. See me. 7-27-2-t.c. B. R. OLLIFF.

MITCHELL WILLIAMS.

Mitchell Williams one of the oldest residents of this section died at his home in Brooklet, Tuesday morning. Mr. Williams was a widower having lost his wife some years since. He leaves a large family consisting of several sons and daughters residing mostly in Bulloch county.

The funeral services were held at the New Hope church and interment at the New Hope cemetery.

CLARKS PEANUT ROASTER EXPLODES

Being that explosions seem to be the popular and freaky sport of the hour, the peanut roaster standing in front of H. Clarks Grocery store without so much as a hissing warning took a notion to explode Tuesday and did so without further ado about it. Peanuts were scattered in all directions and boards in the roof of the store front were loosened. Fortunately no one was in close proximity to the saucy little cart although W. Johnston traveling agent of the Seaport Grocery Company of Savannah was just coming to the store and received a drenching of hot water only on his clothing however and consequently was not burned. Machine a total loss no insurance.

OLDER BUT STRONGER

To be healthy at seventy, prepare for it. A sound advice, because the strength of middle life we too often forget that neglected colds and fevers, even slight ailments and pains, simply undermine strength and bring chronic weakness for later years. To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-nourishing properties of Scott's Emulsion which is food, a tonic and a medicine to keep your blood rich, all-cause rheumatism and food sickness. No alcohol in Scott's.

Scott & Bower, Bloomfield, N. Y.

H. S. GEERY IS LOCATING HERE

Representing Large Chicago Capitalists in Farm Loans.

Mr. H. S. Geery who has previously investigated a large Georgia territory has finally selected Statesboro and Bulloch county as the most prosperous and having the brightest outlook for stability of its financial condition and agricultural conditions in which to engage in extensive farm loans where they are desired.

Mr. Geery made a 350 mile trip by auto and states that this section of Georgia presents the greatest possible prospects in her agricultural accomplishments. Mr. Geery states that he is connected with the Peoples Bank of New York and more recently state bank Commissioner of Idaho from which state he returned east and connected with his present Chicago house to represent them in this section. Mr. Geery has established a temporary office with Chas. E. Cone where he may be consulted at any time and will be pleased to make trips in his auto to inspect property on which loans are desired.

Prospective borrowers with unencumbered property can negotiate loans very promptly and Mr. Geery will be pleased to meet the people of the county regardless of doing business.

EVERYBODY IS GOING TO JACKSONVILLE.

On Wednesday, August 9th, on S. & S. Excursion. Great times down there. See the Ostrich Farm. Visit Pablo Beach, Atlantic Beach. Tickets good for three days. Return, Phone 177.

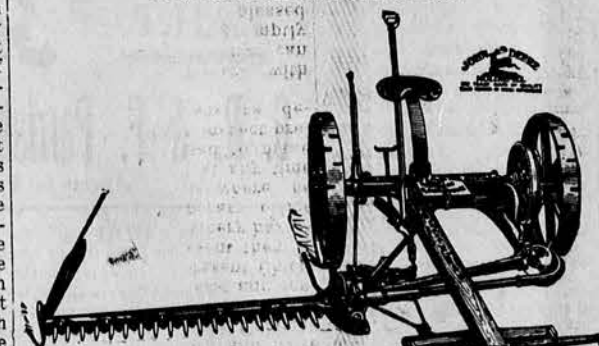

STATESBORO HANDS THE WHITEWASH

BRUSH TO SWAINSBORO

In a walkway game Statesboro defeated Swainsboro in a nine inning game Monday. Philpot struck out fifteen men and allowed but two hits to the visitors. The batting of the home team was notable throughout the game and the pitching of Philpot deserves high praise. The score ended 7 to 0. Batteries: Statesboro, Philpot and Gault; Swainsboro, Kirkland and Johnson.

IMPORTANT TO FARMERS

"MELDRIM WINS VOTES AT RYE PATCH

From the reports we have received from the Rye Patch, the address of Gen. Meldrim there on last Friday was a sure enough vote getter and was the most effective of any address he has so far made in this county.

He was introduced in a very happy speech by Hon. Joseph H. Parker, who spoke of the ability and fitness and general mindedness of the candidate. General Meldrim followed on the usual lines of his speeches made heretofore except to stress the duty of thought and action in public and private life, but to always labor for the good of the greatest number.

We have met probably a dozen citizens from that section this week and every one asserts positively that he made many votes by his address. Liberty County Herald.

STATESBORO CONCERN GETS BIG CONTRACT

Balfour-Melvin Hardware Company were on the job in holding a share of supplies for the new packing plant in Statesboro. They received the award for four items out of seven receiving the contract to supply 2,000 bbls. of cement, 150 bbls. of lime, 500 ft. of rope, and 400 ft. of hose.

There will be other large orders required from time to time and it is expected that Statesboro dealers will exert every effort to retain as much business as possible.

Vol. 16, No. 28

\$1.00 Per Year

Senate Committee Approve W. A. Extension

A Bond Issue Proposed to Solve The Problem.

Atlanta, Ga., August 10.—The present legislature of Georgia will never permit the Western & Atlantic railroad, the state's most valuable property to be sold. This has been conclusively demonstrated by developments in the house and senate during the past week. All moves looking toward the sale of the road have been very promptly squashed. As to the attitude of the next legislature on the question of selecting the state road, this remains to be seen, as a new legislature is to be elected on September 12.

The senate committee has approved a proposed \$10,000,000 W. & A. extension bond issue, and the state of Georgia will be entirely free of bonded debt at or before the maturity of the bonds. The present bonded debt of the state is being reduced by a specified amount each year under the operation of a sinking fund, and the proposed W. & A. bond issue will be reduced annually by the time the new issue of bonds matures the state will be entirely free from bonded debt.

The new state bonds will be unique among investments of this kind in that both principal and interest will be provided for at the outset without ever calling on the tax payers for one penny.

In fact, it is stated that as soon as the extension is completed the enhancement value of the total state road system from Chattahoochee to America on a visit combining business and pleasure, as he is expected to do in the near future, he will include Atlanta in his itinerary and will be entertained while in the city by Colonel John T. Boileau, chief of the Georgia house of representatives.

When the Georgia legislature is not in session Colonel Boileau lives in London as special first secretary of the American embassy, and he and Sir Thomas Lipton are warm personal friends.

DECREASE IN GEORGIA COTTON CROP

Twenty-Three Per Cent Under 1915 Figures.

Atlanta, Ga., August 10.—The State Department of Agriculture estimates the 1916 cotton crop in Georgia at 1,535,621 bales, as compared with 1,936,115 in 1915, a decrease of approximately 23 per cent. This estimate is based upon reliable reports received by the department from 125 counties, covering every section of the state. In making this report public, Commissioner of Agriculture J. D. Price said:

"The department has received careful reports from 125 counties. Many of these reports cover every possible section of the county in question. We have taken these reports and made an average of them for the different sections of the state, northern, middle and southern. Based upon a careful analysis of these reports, we have made the following estimates for the three sections of the state:

"In the northern section there is indicated 70.5 per cent of last year's crop, or 373,103 bales.

"In the middle section there is indicated 76.2 per cent of last year's crop, or 497,954 bales.

"In the southern section there is indicated 74 per cent of the 1915 crop, or 537,100 bales.

"It is conservatively estimated that the cotton acreage in Georgia this year shows an increase over 1915 of 9 per cent, which would mean an estimated yield of 1,274,464 bales additional.

"Adding together the estimates for each section and the yield for the increased acreage, we have a total of 1,535,621 bales as a conservative estimate of the Georgia crop for 1916, compared with 1,936,115 bales for the year preceding.

"This estimate is made, of course, from the present outlook as to the 1916 crop."

DEBATE.

There will be at Register High school, a debate on August 12th, between the Statesboro and Liberty County teams. Subject: Resolved that the world is growing morally worse. Affirmative—J. Lonie Jones, Robert Cartie, Horace Adams, Negative—Harrison Olliff, Carl Hodges, John F. Brannen, Jr. The public is invited to encourage the speakers by their presence.

For Prettiest Girl or Perfect Baby

Legislators Pass on Newspaper Contests.

Atlanta, Ga., August 10.—If the attitude of members of the Georgia legislature is to be taken as any indication of the attitude of the people, newspaper circulation contests for prizes do not enjoy a very decided popularity.

On the contrary. No bill has passed the house of representatives with such great gusto as the bill to prohibit the holding of such contests for prizes of money or other things of value.

There is nothing in the bill, however, to prohibit a newspaper from holding a contest to determine the most beautiful girl, or the most perfect baby or the most popular politician.

Not even the country weeklies were excepted in the bill, although some of the gentlemen coming from rural sections undertook to pass an amendment to this effect.

Sir Thomas Lipton Famous Yachtsman

To Visit Georgia. Will Be Entertained in Atlanta.

Atlanta, Ga., August 10.—When Sir Thomas Lipton, the famous yachtsman and sportsman of England and the world at large, comes to America on a visit combining business and pleasure, as he is expected to do in the near future, he will include Atlanta in his itinerary and will be entertained while in the city by Colonel John T. Boileau, chief of the Georgia house of representatives.

When the Georgia legislature is not in session Colonel Boileau lives in London as special first secretary of the American embassy, and he and Sir Thomas Lipton are warm personal friends.

No Change in Railroad Commission

Not Probable Because of Important Work in Hand.

Atlanta, Ga., August 10.—It is not probable that there will be any change in the personnel of the railroad commission this year, although Commissioner J. A. Perry, who has served one term, is standing for reelection. The commission itself, as a whole, does not desire any change. This is due to the fact that the board has just gotten into the midst of the freight rate situation, as well as into several other big problems, perhaps the most important that have ever come before that body. Commissioner Perry and the other members of the board have all gone deeply into these problems and are just now best equipped to render the state the maximum service in the solution of them.

BREWTON-PARKER INSTITUTE.

President Bunyan Smith, A. B. S. A. M. of Brewton-Parker Institute was a pleasant visitor to Statesboro Sunday and Monday. President Smith occupied the pulpit of the First Baptist church morning and evening services where his discourse was greatly enjoyed by the members of the church. Bulloch county supplied several students to Brewton-Parker last season and there are several who are contemplating entering the famous school this year. An advertisement in another part of this issue tells of the advantages of this school and it will be wise to read and consider.

President Smith speaks in glowing terms of the agricultural prospects of Bulloch county as he observed them in coming to Statesboro by automobile. He states that he has covered a large section of Georgia within the past month by auto and that in no part of the State has he seen such bounteous crops as in Bulloch. He speaks of the variety and abundance of business conditions for the immediate locality with the operation of the packing plant. President Smith is delighted with the progress that is made toward compulsory education and hopes to see Georgia lifted from the stigma of being a backward state in this respect for so long.

E. P. Dobbs and Wm. A. Wright

Fighting It Out For Comptroller General.

Atlanta, Ga., August 10.—State Senator E. P. Dobbs, or "Dick" Dobbs, as his friends address him, who has shed his castor in the ring against Wm. A. Wright For comptroller-general and insurance commissioner, is pushing with something like lightning rapidity. He is regarded as a live wire, a business man of sterling worth and would fill the job to the satisfaction of the most critical. He is in the prime of life. His opponent has the advantage, or disadvantage as you may claim, of having been in the office for 40 years, and continues to handle the duties of two positions, that of comptroller-general and insurance commissioner, although expert accountants have recommended that the two departments be separated. The insurance department has grown to a great extent during the last few years. Mr. Dobbs believes Mr. Wright, on account of his age, should retire. Mr. Wright says, or words to that effect, "Nay, nay, Dick." But Mr. Dobbs wants the voters of the state to decide who is the best man for the job.

FIFTH UNITED STATES CIVIL SERVICE DISTRICT

Office of the Secretary.

Atlanta, Ga., August 9.—The United States Civil Service Commission announces the following examinations to be held on the dates indicated. Applications for these examinations and information relative to the same may be obtained from the Secretary, Local Civil Service Board, at any first or second class post-office, Secretary, Fifth Civil Service District, Post Office Building, Atlanta, Georgia, or from the United States Civil Service Commission, Washington, D. C.

Agricultural Investigator in Sugar Belt. Vacancies—\$1,800-\$2,000. August 22, 1916. For vacancies in the Department of Agriculture. Competitors rated on education, training and three years experience required. Age 25 to 45. Apply for Form 2118.

Apprentice.—\$700. August 23, 1916. Age 16 to 18. Vacancies in the Department of Commerce. Apply for Form 304.

Scientific Assistant in Oceanography.—\$900. August 23, 1916. For vacancies in the Department of Commerce. One year's experience in hydrographic investigations and drafting required. Age 20 to 35. Apply for Form 1312.

Subinspector of Radio Towers.—August 23, 1916. \$5.52 per diem. For vacancies in the Navy Department. One year's experience in inspection of steel frame work, with ability to climb to elevations of from 400 to 600 feet required. Age 22 to 35. Apply for Form 1312.

Superior Marine Engineer.—\$500. August 23, 1916. For vacancies in the War Department. Graduation in mechanical or marine engineering or naval architecture from college and eight years experience, two of which must have been of a supervisory character, required. Age 25 to 55. Apply for Form 2118.

Explosives Chemist.—\$5,000 Sept. 12, 1916. For a vacancy in the War Department. Competitors rated on education, experience, and publications. Graduation in chemistry and five years experience with explosives required. Age, under 40 years. Apply for copy of announcement and Form 2118.

MELDRIM THE MAN.

There are many reasons why General Peter W. Meldrim has been elected as Congressman from the First District. The main reason is that he is unquestionably the best qualified man in the race. That should be the test. The people want a man who can best serve them, and there can be no doubt that Gen. Meldrim is the most capable of the candidates in the field. General Meldrim has been for over forty years closely identified with old Liberty County and her people; they know him and know him well; they know his capability and high character and that Liberty's best interest is in his hand will be absolutely safe.

(From the Liberty County Herald) hint and act upon it.

STATESBORO BOARD OF TRADE JOINS NATIONAL PAY UP WEEK

October 2-7th. Will Conduct the Local Publicity for Statesboro.

We always say, "money makes the wheels go round," and we usually think it takes a great deal of money, tremendous sums of it, to make these wheels go, but when you stop to think about it, a very small amount does a great deal of work. Just think for a moment. A small coin put into circulation will wipe out many debts and purchase be turned in to the man who first set it going. This is the idea back of National Pay-Up Week. For example, we will say that Mr. A, who is a merchant, owes Mr. B, a garage man, \$5.00 Mr. B in turn owes Mr. C, the butcher, \$5.00. Mr. C owes Mr. D, a farmer, \$5.00 for a load of feed, and Mr. D, the farmer, owes Mr. A, \$5.00 for groceries. A pays his bill to B, who passes it on to C, who in turn gives it to D, and D returns it to A. Four accounts are paid with the same \$5.00, and it is returned to A for use in payment of his account to the whole sale house which in turn pays its help and its places of supply, and so it goes. Any of the four men can start the ball rolling. The only thing necessary is for one of them to share by the United States of the Islands of St. Thomas, St. Croix, and St. John, lying to the east of Porto Rico, and comprising the Danish West Indies, is provided for in a treaty signed today for the United States and Denmark. It will be submitted to the United States senate and the Danish parliament, whose ratifications are necessary.

No serious opposition is expected in the senate, where action will be sought at the present session. The members of the senate foreign relations committee are understood to be virtually unanimous in their approval. Senator Lodge, the ranking republican member, issued a statement tonight, declaring the action in favor of acquisition of the islands as being "unavoidable."

It is the dollar that is as good as "old wheat in the mill" but which does not move on when it is most needed. It is the debts people owe that they could easily pay but simply neglect to pay that cause the trouble. It is not the cleanest account that worries you or any other man.

The Power of a Moving Dollar.

When National Pay-Up Week publicity gets into action it focuses the attention of careless folk on the subject of community payment and gets them to realize that these few dollars that they owe to local people have an enormous number of idle brothers, sisters, aunts, uncles, nieces, nephews, cousins, and other near kin which might be doing a lot of good in business circles but are loafing around on a dead end.

It is the circulating dollar, the busy, rolling dollar, that make the life-blood of local business. That same rolling dollar may pass in one day through fifteen or twenty different hands and pay off \$15 to \$20 in small debts. The problem is just to get it rolling.

National Pay-Up Week solves that problem. It impresses the perfectly good but indifferent, careless, forgetful debtor with the fact that he is imposing upon a man who has done him a favor when he persistently neglects to pay his small debts. Not only is he imposing upon one man, but he is imposing upon the community. He is imposing by keeping lazy dollars that should be doing useful, beneficial work by circulating.

It makes them realize that if every body gets in line and pays off that debt, or as much as he can, thousands of dollars are taken out of the lazy class and put into busy business at the same time. Everybody is benefited, directly or indirectly.

Pay-Up Week comes in the time of year when business needs just a little added impulse to make it go faster than it ever did before. National Pay-Up Week gives every man a polite means of letting every other man know that he is indebted to him and that small favors are appreciated. All good people will take the hint and act upon it.

Expect Many Congressmen To Be Returned

Crisp Opposed but Stands Good Chance of Re-election.

Atlanta, Ga., August 10.—Lawmakers and politicians from over the state, who are in Atlanta, are watching the various congressional races with unusual interest and many of them have expressed the opinion that many of the old congressmen will be returned to their seats, despite the opposition that they seem to have. Particular attention has been called to the race in the Third district where "Charlie" Crisp has opened his campaign for re-election. Mr. Crisp is opposed by Thomas G. Hudson, and from reports that have been received, there appears a considerable "pop" in the race. Hudson is trying to assail the record of Crisp, while the latter has some very warm things to say in reply to his opponent. Mr. Crisp, according to his friends here and many of his constituents who have been in Atlanta, declare he has made a good record in congress and should be returned. He is not, however, "letting any grass grow under his feet" in the special making campaign among the voters.

TREATY FOR PURCHASE WEST INDIES SIGNED

Goes to Senate For Ratification.

Washington, D. C., Aug. 9.—The treaty for the purchase of the Islands of St. Thomas, St. Croix, and St. John, lying to the east of Porto Rico, and comprising the Danish West Indies, is provided for in a treaty signed today for the United States and Denmark. It will be submitted to the United States senate and the Danish parliament, whose ratifications are necessary.

No serious opposition is expected in the senate, where action will be sought at the present session. The members of the senate foreign relations committee are understood to be virtually unanimous in their approval. Senator Lodge, the ranking republican member, issued a statement tonight, declaring the action in favor of acquisition of the islands as being "unavoidable."

It is the dollar that is as good as "old wheat in the mill" but which does not move on when it is most needed. It is the debts people owe that they could easily pay but simply neglect to pay that cause the trouble. It is not the cleanest account that worries you or any other man.

When National Pay-Up Week publicity gets into action it focuses the attention of careless folk on the subject of community payment and gets them to realize that these few dollars that they owe to local people have an enormous number of idle brothers, sisters, aunts, uncles, nieces, nephews, cousins, and other near kin which might be doing a lot of good in business circles but are loafing around on a dead end.

It is the circulating dollar, the busy, rolling dollar, that make the life-blood of local business. That same rolling dollar may pass in one day through fifteen or twenty different hands and pay off \$15 to \$20 in small debts. The problem is just to get
