DEMOCRATIC PARTY REMAINS IN POWER

Wilson and Marshall Again Elected

LABOR VOTE COUNTED

Biggest Fight For Votes Was Waged in New York, Ohio, Indiana and Illinois—Weather Fine and Full Vote Was Brought Out

Woodrow Wilson and Thomas R. Marshall have been elected president and vice-president, respectively, of the United States. Although it will be several days before all the returns are in, enough is known to make it practically certain that after figures will not materially change the result.

Wilson and Marshall Again Elected

Woodrow Wilson and Thomas R. Marshall have been elected president and vice-president, respectively, of the United States.

LABOR VOTE COUNTED

Biggest Fight For Votes Was Waged in New York, Ohio, Indiana and Illinois—Weather Fine and Full Vote Was Brought Out

Mr. Wilson's vote was 5,238,014. Taft's, 3,484,956 and Roosevelt's, 1,118,507. In the campaign just ended, however, there were cross currents that never before had been entered, problems that never have arisen.

Some of those related to the exact vote value of the Progressive party to Republicans and Democrats of the labor vote to the Democrats; of the Socialist vote to the same party; of the vote of the record of the Wilson administration; of the influence of the Republican criticism of the Wilson administration; of the influence of the Democratic criticism of the Wilson administration; of the influence of the Democratic criticism of the Wilson administration.

Never in the history of national elections was so much interest shown in the result. The Democratic party realized that it had to fight for its very existence while the supporters of Mr. Hughes were sanguine up to the last minute. Immediately after the result was definitely known there was a deluge of congratulatory letters for Mr. Wilson and Mr. Marshall. Each remained up late to get the returns.

Chairmen of both national committees claimed handsome majorities in the electoral college for their candidates, but the actual figures made good the claims of neither. They did, however, show a steady trend toward President Wilson and his associates.

When the Republican landslide in New York became known and was quickly followed by the heavy Republican victories in New England, there was a veritable stampede to announce the election of Mr. Hughes and the defeat of President Wilson.

As every hour saw the Hughes lead melting down it became clear to the president was not to be defeated. He calmly and then at daylight became apparent that the battle was being fought out in the doubtful states with an advantage decidedly in favor of Mr. Wilson.

Not since a next day's revision of the returns seated Grover Cleveland in the contest of 1884 has the country been compelled to wait so long to know the result. It took three full hours after the polls had closed before Wilson and Mr. Hughes were declared the victors.

Congress returns were equally uncertain, but on their face the Republicans had not been able to overthrow the Democratic majority. Although they did succeed in reducing it in the House, in the Senate the Republicans appeared to have gained seven seats.

Democracy had not been able to overcome the Republican majority. Although they did succeed in reducing it in the House, in the Senate the Republicans appeared to have gained seven seats.

THE STATESBORO NEWS, STATESBORO, GA. GEORGIA 78,900. Big Wilson Majority and Large Vote For Dorsy.

Reports from all parts of Georgia show the election of the entire state and a Wilson majority of from fifty to seventy-five thousand.

Hugh Dorsy received a majority for governor and the returns indicate that he has carried practically every county in the commonwealth.

There was little of no election excitement anywhere in the state. Interest centered on the national result rather than the voting in Georgia. In spite of the favorable weather conditions, the vote does not appear to have been an unusually heavy one.

While no detailed reports were available, most of the counties making no effort to send in complete returns, it is confidently believed that more than five of the constitutional amendments were ratified by substantial majorities.

It is confidently expected that President Wilson's majority in the state will exceed that of four years ago, making a very creditable showing for those in charge of the Democratic campaign in the state.

In only two of the congressional districts did the Democratic returns have serious opposition. Seventh and the Ninth, and returns indicate the triumphal re-election of the congressmen in those districts.

Republican candidate in the Ninth, J. C. Adams, seems to have carried only two of the counties in the district. Even Meekins, which frequently goes Republican, having been carried by Bell.

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy nose, cold, splitting tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour and poisonous toxins; thus clearing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roads begin to appear in the cheeks.

A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation.

It and you are assured that you will look better and feel better in every way shortly.

ANNUAL MEETING OF FARMERS UNION AT PALATKA, FLA.

The National Convention of the Farmers Union meets in Palatka, Fla. from Nov. 21 to Nov. 24. This will be the greatest convention in the history of the union.

The people of Palatka will give the delegates and visitors a free ride on a Clyde Line Steamer, on the St. Johns river in Crescent City, where a free barbecue will be given the convention and visitors. All railroad fares when they put on a special rate of one and one-half cents a mile. A large delegation will leave Atlanta on November 20, on train number 6 over the Southern.

SUPERINTENDENT'S CORNER

The schools have opened and are now down to business. It looks as if we are to have a record attendance this term. Schools in some communities have enrolled almost every child of school age and many that are above.

You can't beat this; Listen, the citizens of the Tyson Grove school district have begun the building of a teachers' home on the school grounds—a real, sure enough home. This is a step forward in the right direction.

Nothing more pleasing to the Board of Education than this movement. What other school district will be second? By the way, be sure to stop by and take a look at the Tyson Grove school when you are in that community. It will interest you.

The first box supper of the season certainly was a success. A musical program that was interesting was rendered by the music pupils of the Clito High school before the boxes and the voting contest were auctioned off. Col. Figue and Mr. Walter McDougald proved to be the real article when it comes to pulling off a real box supper stunt.

The net total was \$120, with which the following will be placed around the school premises and new single patent desks will be purchased. Get the name in front. Its teachers are the kind that it takes to build a school and they will be their salvation.

Prof. Erwin says he is going to make this the first State Standard school in Bulloch county. He is looking like he is going to do it. Watch Clito. Stop in and see the school and notice the real spirit that is alive here. Can't keep Clito down any longer.

Only about four more schools to begin. Then all will be running on full time. This is the earliest that we have ever been able to begin before. We will be able to have our children on the farm when they are most needed. Too, we have a compulsory law that requires that every parent send his children at least 15 weeks of each term. Better get your children in school so as to get this required time before the State authorities get in after you for a violation of its laws.

I hope that no man in the county will be guilty of this misdemeanor. Get the children in school and if possible, keep them there the whole term. It will pay you and will be their salvation.

A box supper will be given at Leeland on the night of the 17th inst. Let every body attend and enjoy the occasion. You will be given a good time on a special rate of one and one-half cents a mile. A large delegation will leave Atlanta on November 20, on train number 6 over the Southern.

The Georgia delegation will be headed by J. J. Brown, the next Commissioner of Agriculture. While in Palatka a free ride in automobiles will be given everyone attending this convention, to St. Augustine, Fla., the second oldest town in the United States. People who are not members of the Union are urged to attend, and will be accorded the same entertainments as visitors. Ladies are especially invited to attend, and a large number will go. This will be a convention of important business and this trip will be a profitable one as well as a great pleasure trip.

Prof. L. D. Vining assisted by Miss Mae Morris is making a splendid showing at the Pauline. This is one of our big consolidated schools that has been doing some real good work. Let us hope that this will be the best term in its history. It can be with the help of all concerned.

ALL GOING TO SEE SUN BROS. CIRCUS NEXT TUESDAY

With the coming of Sun Brothers' World's Progressive Shows to Statesboro Tuesday, Nov. 21st, parents are promising their children that they will take them to the show without fail. Each uncle and maiden aunt are looking up their nephews and nieces and all are anxious that "the children have a good time."

The Sun Brothers' Shows are now rounding out a quarter of a century of successful amusement endeavor and for the current season have added many entirely new features and big sensational displays. In plain words, the show is newer, brighter and better than ever.

The aggregation will arrive here via special railway service bringing a magnificent, rolling stock equipment. The wild beast section and the big free horse fair are also among the prominent attractions with this show.

THEN AND NOW

The mail of a newspaper often brings in some gems of thought. A salesman of the P. & O. company contributed the following conversation, which should go far toward weakening the steam of the most vicious calumny howler.

"Good morning, Hi."

"Say, Si, what's the price of that wagon you've got?"

"\$90.00, Hi."

"\$90.00? Why, my father bought the wagon thirty years ago for \$60.00."

"Yes, Si, he did, and bought it of me, but as money was scarce at that time, and I wanted some corn, your father delivered to me 300 bushels of corn in payment for the \$60.00 wagon, and you can use more corn at this time, and I will make the same trade with you today as I did with your father some thirty years ago on the same wagon, and will give you from my stock in addition to the wagon at—"

For Croup--Mothers--Always Keep this Handy

The day of the Croup scare is over for those parents who wisely keep Foley's Honey and Tar Compound in the home ready for instant use.

W. C. Allen, Zoanley, Mo., writes: "I have raised a family of four children, and have used Foley's Honey and Tar Compound with all of them. I find it the best cough and croup medicine I have ever used and I have used it for eight or ten years, and can recommend it for croup."

If you are awakened by the hoarse, brassy cough that means croup, give Foley's Honey and Tar Compound promptly and it will put you at ease in 15 minutes.

380 acres about 35 miles from Savannah Central of Georgia Railway in mile of station and on good public road. 4-horse farm in cultivation, 4 good settlements with good houses and one with good dwelling. Enough more good land can be cleared to make a 10 or 12 horse farm. The soil is of the best grade of black loam and is very productive. Plenty of saw mill timber for keeping up the place and in addition there is about \$800 or \$1,000 worth of turpentine timber. UNUSUAL GOOD STOCK RANGE for both HOGS AND CATTLE, and has every facility for trucking and poultry farming in addition to general farming.

In a mile of this place over 12 bales of cotton have been raised to the plow this year on land no better than this, but don't forget that this place is independent of cotton because the market is at its door for any other crop, in addition to being an ideal place for stock raising.

If handled within one week can be had for \$14.00 per acre with a small cash payment and ten years on balance.

SOUTHERN FARMS CO. INCORPORATED

R. L. COLSON, President. 1104 Savannah Bank & Trust Bldg. SAVANNAH, GA.

AN AFTERMATH OF THE ELECTION WITH VIEWS ON A VITAL SUBJECT

The South waited with bated breath mixed with keenest anxiety this time a week ago.

The good old state of California saved the situation and we look forward now to four more years of Wilson peace and prosperity.

In like manner the people for 50 years past have relied upon the old time-tried Pacific Mutual Life Insurance Company of California, a proven, staunch friend during panics, accidents, sickness, old age and death.

Have you seen the matchless monthly income policy which includes indemnity against sickness and accidents?

If you are between 16 and 60 and in good health it will pay you to talk it over with Milton Reed who is making Statesboro headquarters, and be assured without impurity of a clean cut explanation of good life insurance contracts, backed up by 18 years of successful selling and satisfied customers.

Dr. Mooney and Whitehead, Statesboro; Dr. McElveen, Brooklet, and Bowen of Portal, are the able and efficient medical examiners appointed in Bulloch county to date.

SPECIAL FARM OPPORTUNITY

We have 60 acres as fine land as there is in Bulloch county. Five miles south of Statesboro on main road. If you are interested come and let us show you that what we say about this special is all true.

A BIG BARGAIN IN LITERATURE

We wish to call special attention to the club of magazines advertised in connection with our paper. This is by far the biggest magazine bargain that we have ever offered our readers. And as a hint to the wise of it at once, since we have already been advised by the publishers that on account of the tremendous increase in the cost of white paper our regular subscription price of these magazines will be increased in the near future. Send in your order now and get a double bargain.

The Statesboro Music Club at its regular November semi monthly meeting the home of W. W. Raines on South Main street Monday was well attended by a number of enthusiastic members who entered into the discussion of promoting a community Christmas Tree and musical choral fest on Christmas night, Dec. 25.

It is the plan of the club to have all the churches and Sunday schools co-operate in the matter of choral singing and such presents as they may wish to distribute in connection with their Sunday school class work.

A music program will be selected within the week and this will be given to each of the church choir directors and choral rehearsals will be held at the High School so that with this splendid choral body Statesboro should bring out several hundred singers to celebrate this world event.

In order that every child in Statesboro may be remembered on this day there will be distributed to each a bag of fruit and candy; the details of the event will be explained at the rehearsal to be announced soon and it is earnestly hoped that every citizen will lend their assistance to make this occasion one of community joy and good wishes to man and woman kind, that it may cement more firmly community spirit of uplift, forbearance and Christian-like fellowship one to another; this should be the spirit of true Christmas celebration, not the shooting of guns, fireworks and general hilarity that seems to obtain on this great day of the world's history and to this end of good will toward men it is requested that all people of Statesboro be in readiness of mind in making the event successful and one that may become an annual affair in our community.

During the evening of this club meeting Monday night an interesting music program and music study was observed; the chief topic of music study was the "Peer Gyn Suite" very interestingly and ably illustrated in reading, song and instrumental music by Mrs. A. W. Quattlebaum. Misses Mattie Fletcher and Julia Carmichael. A copy of the year book was distributed to those members present who included—

Miss Sallie Zetterower, Miss Ouida Brown, Miss Louise Hughes, Miss Julia Carmichael, Miss Jameson, Mrs. W. E. McDougald, Mrs. W. E. McDougald, Mr. T. D. Van Osten, Miss Nan Simmons, Miss Josie Cone, Mrs. W. G. Raines, Mr. W. G. Raines, Miss Laura Bruce, Miss Mary Lee Jones, Miss Gertrude Donaldson, Mr. F. M. Rowan, Mr. Cox, Miss Blanch Poole, Miss Hill, Miss Ruth Kenneby, Miss Parrish, Miss Emma McElvyn, Miss Mattie Fletcher, Miss Irene Arden, Miss Barron, Miss Whitie, Mr. Camp, Mr. Harris Quattlebaum, Mrs. Killen, Mrs. A. Ask Your Grocer For CHEEK-NEAL'S COFFEES Best by Every Test

NEW YORK, November 15.—Little did our grandmothers dream when they sat together and worked and quipped at their quilting bees that the quilting they did then would furnish material for dress trimmings for the women of today.

Certainly, the quilting trimming is a very novel idea from the fertile brain of our modern designer. It is generally used in beds at the lower end of the fashion.

The sketch above illustrates the conventional diamond shaped design material for instance, a very good imitation character are also utilized. In this attractive one-piece frock of satin, the belt and the lower edge of the skirt are quilted. Some suits of satin and silk have been seen with quilting on the collar, cuffs and pockets.

Imitations of the quilting idea have also been carried out in heavier materials. For instance, a very good looking full length coat was worked with heavy navy blue silk in the diamond shaped quilted design on a mustard-colored background. The large square pockets were entirely covered with this work, a touch of it was on the cuffs, and the collar also had some of it. Mustard is one of the very popular colors for separate coats. Numbers of them are seen at present, some unrelieved by any trimming, and other black fur.

The woman who has not invested in a one-piece frock this season must feel very much out of the swim of fashion. As the days go by, more and more of these frocks are seen in serge, broadcloth, wool jersey, velours, velvet and velveteen. When a top coat is not necessary, a shawl or cape of fur is the usual accomplishment. Straight lines continue to be the most approved in this type of dress, for the fashion these days is to be slim, and no better way of obtaining this effect is to be had than by wearing dresses of this type. Fashion dispenses these youth-giving styles most liberally at present, and it is no wonder that women have taken so kindly to them for they make them look young and slender.

For producing straight effects, nothing gives better results than the long unbroken panel and consequently the panel is now enjoying its day of popularity. A smart effect is shown here in the dress of black velvet with a satin panel, extending from neck to hem. The bulk of pockets add to the style of this dress and do not detract from the slender effect. Panels are not all stitched.

A transportation line has just one thing to sell and that one thing is service. The line that sells poor service is a poor line. The line that sells good service is a good line.

IT IS THE OBJECT OF THE CENTRAL OF GEORGIA RAILWAY to sell its patron the very best service. Our service is not a thing supplied by any one employee, nor does it consist of special attention to any one individual patron. It means good, efficient, courteous attention from our working force to all the people, of as near this idea as is humanly possible.

We try to render such service all the time. We are not content with having given the people of the South good service; we want to make it better; we wish to go the limit in making travel easy for the whole people.

If you are going on any trip, that we, for our nearest representative know about it. It will be good exercise for his talents to practice courtesy and efficiency on you.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY Sage Tea and Sulphur Darkens So Naturally that Nobody can tell.

Hair that loses its color and lustre, or when it falls, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks as soft, beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the color has returned, but what really delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after its applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart to a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

WORK OF THE CANNING CLUB GIRLS The club girls are coming to be a financial factor in Bulloch county as may be seen from the following figures:

Average cost of production per one-tenth acre \$ 10.98

Average cost of canning per one-tenth acre 4.09

Average profit per one-tenth acre 18.15

Total value of all club products \$449.50

This does not include the vast amount of preserves, jellies, grape juices, pickles, and vegetables they have put up from the farm and orchard. It includes only the products from the one-tenth acre. The farm and orchard products will easily outvalue the club products as there are more of them, due to the fact that quite a number of girls lost their tomatoes from disease and drought.

The value of the home products added to the club products will bring the figures to a thousand dollars or above. It actually means a thousand dollars kept at home that would have been spent outside for food products.

From a financial standpoint the club work is very profitable, not counting the invaluable training it gives the girls as well as insuring the health of the family by providing pure wholesome food for them.

Georgia imports thousands of dollars worth of canned peaches, tomatoes, beans, asparagus and other food products which can be produced here just as easily as any other place in the world. Georgia is in the best peach belt in the world. Then why import canned peaches? Tomatoes, beans and asparagus thrive here as they do in but few other places. Then why import canned beans, tomatoes, and asparagus? We must face the facts squarely. There seems to be no legitimate excuse for this method of doing things except that we have been brought up with the idea that it is strictly "Mr. Factory's" business to do all of the canning. Georgia can supply the home market with its own products. It meets the present crisis in a creditable manner.

The canning club is rapidly revolutionizing this phase of southern life. With more experience and the addition of the poultry plant even greater things may be expected of the Bulloch county girls next year.

POLLY ANN WOOD, County Home Demonstration Agent, Statesboro, Ga.

COMING NEXT TUESDAY— SUN BROTHERS' CIRCUS

Strange sights and still stranger animals will be among the many things that will be witnessed when the big show train of the Sun Brothers' Progressive Shows arrives in Statesboro on Tuesday, Nov. 21st. This is the date of the appearance here of this well-known amusement enterprise. Long before dawn, the railroad yards will be the center of attraction for the younger generation of town and many a household will be started from its peaceful slumbers at an unseasonable hour by the tinkling of the alarm clock under the pillow of the small boy. In fact, a few comfortable beds will be left undisturbed throughout the entire night, their usual occupants preferring to remain awake and thus run no risk of missing the opportunity of witnessing the arrival and unloading of these great shows. The Sun Brothers' Shows for this season have an all new equipment and brand, new types of acts and performances in all its departments, in fact it can truthfully be said that it is an all new show and only recognizable in the thing of its past seasons is the adherence to its old time policy of never allowing at any time or place any gamblers, sure thing men, confidence games, fortune tellers, dancing girls or anything in the nature of a popular diversion. The shows have never been tolerated with this show but with this year's counterpane, two complete performances will be given here during their engagement and the assurance is made that both performances will be presented without any curfew whatsoever. Many new and novel free out-of-door acts will be given this season and they will be of an unusually entertaining and "thriller" character.

THE BIG FAIR

BULLOCH COUNTY FAIR OPENS NOV. 21

TUESDAY

GRAND EXHIBITION OF AGRICULTURAL PRODUCTS, LIVE STOCK AND POULTRY. THE MANAGEMENT GUARANTEES THIS FAIR TO BE LARGER AND BETTER THAN ANY FAIR EVER HELD IN THE COUNTY.

We will present to the people of Bulloch and adjoining counties, on Tuesday, Nov. 21st, the best showing in the way of a real agricultural and live stock fair, shown in any of the county fairs this fall.

IN ADDITION TO WHAT BULLOCH COUNTY IS GOING TO FURNISH, OUR REPRESENTATIVES HAVE JUST RETURNED FROM THE STATE FAIR AT MACON WHERE THEY BOOKED THE CREAM OF THAT GRAND EXHIBITION OF GEORGIA PRODUCTS.

Houston, the blue ribbon county, will have the larger part of her magnificent agricultural display at the Statesboro Fair. This is the county that won the one thousand dollar prize at Macon. Jackson county, the winner of the second prize, will be here; so will Wilkes, the winner of the third agricultural prize, then the best from all the balance will be here. These displays carry the cream of Georgia products, and consist partly of the following: Fifty bales of hay, no two bales alike; fifty different varieties of corn, all colors and sizes of ears, one hundred varieties of Georgia forage and field grasses, fifty varieties of oats, fifty of wheat, fifty of field peas, giant pumpkins, and a thousand things too numerous to mention. The sheaf grain display will be the finest ever seen anywhere away from the State Fair, and it will be as fine as the State Fair for the reason that all of it is coming here from Macon.

This display will be installed under a large water-proof tent and will be shown as a Georgia Agricultural, educational exhibit. It will not compete for any of the prizes at the Fair.

BIG APPLE DISPLAY COMING

The Habersham County Apple Display with five hundred bushels of the best apples in the world has been booked for the big fair at Statesboro next week. These apples are the same kind that won the first prize at the International Apple show at Portland, Oregon, last year.

BIG POULTRY DISPLAY

A special representative who will have charge of the poultry department will take active charge at once, and see to the listing and entering of the mag-

nificent poultry show, which will also be shown under a large water-proof tent, several hundred patent poultry coops have been secured to hold the poultry.

LIVE STOCK DISPLAY

A special man will take charge of this department, and pens will be furnished for the hogs and cattle. Already quite an extensive array of this has been entered. One party at Mannasas will bring a large lot. Fifteen head of Duroc Jerseys have been booked from Dover. Another party is coming from Donaldsonville and one from north Georgia, besides a lot from the Augusta fair now going on, then a large lot of Bulloch county stock will be shown of course. The out of county stock will not compete for prizes along with the local stock.

BIG MIDWAY COMING—The railroads entering the city are already besieged with routings of shows and midway attractions booked for the Big Fair Next Week. The best from the Midway at Dublin, Millen, Macon, Augusta and Walterboro, S. C., will be here. It will be clean and entertaining.

FIRE WORKS AT NIGHT—On Wednesday evening a grand display of fire works will be given at the Fair Grounds. These will not be shown on Tuesday night on account of the circus, which will be just across the street from the fair grounds. Don't let the circus keep you away from the fair, however.

BEST OF ORDER WILL BE PRESERVED—The man who goes out to the fair expecting to make a fool of himself and cut up his dices because the grounds are out of the city limits, will be found employing his time asking somebody to bail him out of the county jail. A batch of blank warrants will be at the fair grounds, a magistrate on hand to issue them and two officers to serve them the minute you get on a jag and begin to make a scene with yourself you will be nabbed and run into the county jail, where you will appear in the City Court. It is against the state law to get drunk in public or use profane language in the presence of ladies, and the fair management not only expects but demands that those who attend the fair carry themselves in the bounds of law and decency. A half dozen plain clothes men have been engaged to keep a weather eye on any who may attempt to sell whiskey around the grounds, if any one attempts to sell anything intoxicating, he will be caught and arrested and sent promptly to jail. So our friends need have no worry about good order. Bulloch county people can always be depended upon to carry themselves in the proper manner.

Come out to the big fair. While it is gotten up hurriedly you will find it the best one Bulloch has ever had.

TRANSPORTATION FACILITIES—The different railroads entering the city have been asked to allow a reduced rate, which they will probably do. The fair grounds are close enough in for most people to walk. For those who want to ride a line of jitneys will be running between the court house square and the fair grounds.

NOTICE—The meeting indicated by this program is an interdenominational meeting, and every worker in every white Sunday School in Bulloch county is urgently requested to attend. The Bulloch County Sunday School Association is auxiliary to the Georgia Sunday School Association,

which is a cooperative effort on the part of all denominations to improve Sunday School conditions and Sunday School workers. It advocates the latest and best methods of Sunday School work and stands only for those interests that are common to Sunday Schools of all denominations. The plans and methods suggested by this association are practical for all Sunday Schools, as they do not touch on church doctrines. The work is by way of suggestion, not by authority; therefore it helps many, it hinders none. The object is helpful and brotherly cooperation, not organic union. The officers of the Association are leading Christian business men of all evangelical denominations.

W. C. Parker, County President. Hinton Booth, County Secretary. The third annual Georgia Go-to-Sunday School Day, February 11, 1917. Special programs for Sunday Schools and advertising matter furnished free on application to the Georgia Sunday School Association, 1619 Hurt Building, Atlanta, Ga.

MRS. HOMER C. PARKER

Mrs. Homer C. Parker, wife of Homer C. Parker, City Attorney, died at their home Wednesday night at 8:30 following an illness of some time which culminated in asthmatic poisoning and death ensued. Mrs. Parker was the daughter of E. K. Mallory of Macon who is now somewhere in Florida and it has been impossible to get in touch with him up to the hour of our going to press. A brother, Mr. Nelson Mallory, and two sisters, Mrs. Jekite Lewis and Miss Martha were at the death bed of Mrs. Parker together with her husband and family.

Mr. Parker's sisters Mrs. Mathewson and Mrs. Skelton were expected to arrive during the day and being delayed efforts were made to have them detain at Millen and join the funeral party on route to Macon where the remains were taken Thursday for interment. Besides her family relatives in Macon, Mrs. Parker is survived by her husband, Homer C. Parker and three small children, Misses Martha and Helen and an infant boy six weeks old. Much sympathy is extended to Mr. Parker in his sad affliction by many personal friends and acquaintances.

S. & S. MAKES RATE TO STATESBORO OCCUPY THE FAIR NEXT WEEK

Special rates are announced by the Savannah & Statesboro railway for the fair to be held in Statesboro next week. Tickets will be on sale from Nov. 21 with final limit to and including Nov. 26th at 4 cents per mile round trip.

The management of the fair present a page advertisement in this issue setting forth the attractions they offer. An extensive fruit display from Habersham county is promised showing five hundred bushels of the best apples in the world and a really meritorious agricultural exhibit is promised. Special poultry and live stock exhibits have been arranged for and these following immediately on the heels of the Georgia Products Day will be doubly interesting.

An absolutely clean and moral amusement feature in the nature of the usual Midway which is the customary jolly part of a county fair is of course one of the features and in this instance the management guarantee only clean and wholesome shows and perfect order will be maintained in every department. While the exhibition is to be held outside of the city limits arrangements have been made with the county authorities for sufficient police protection to assure an exhibition devoid of rowdiness in any manner.

A fireworks display will be given Wednesday night and arrangements

Speedy and Easy Riding

There's little comfort in most low priced cars. You can't use their speeds. They jostle you—they ride roughly—they don't hold the road.

The \$635 Overland is different. It is not only the speediest of low priced cars—

But you can use the full speed of its powerful motor when you need it.

It has long 42-inch, easy riding, shock absorbing cantilever rear springs. In addition the 75 B Overland is a longer car—104-inch wheelbase. And it has 4-inch tires.

Its smoothness and ease of riding at any speed would do justice to a much larger and heavier car.

Come in and let us demonstrate. That's the best kind of proof.

WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, dizziness, dreamlike sleep, irritability and unaided corrected leads straight to a breakdown.

To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutrient gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol, Scott & Bown, Manufacturers, N. Y.

CHILD'S BONNET.

Solomon's Knot Stitch Makes a Fetching Topknot.

Use mercerized silk crochet cotton and steel crochet hook No. 6 or one a little coarser.

First Row.—Twenty-three chain, 1 tr in fourth ch from needle, 1 ch, 1 tr in next ch; repeat to end of ch, making 20 tr in all; turn.

Second Row.—Make a chain stitch about a quarter of an inch long and work one double crochet in top of each stitch in back thread close to needle and then another long stitch and one double crochet in back of thread of this, then one double crochet between first 2 tr of previous row. Repeat to end of row and turn.

Third Row.—1 long ch, 1 d c in back stitch near needle and repeat once, then insert the hook under the two threads of first loop and work 1 d c, then insert hook under second two threads of same loop and 1 d c and repeat until you have 15 rows. You chain and turn.

Twenty-second Row.—Insert needle under first two threads of the first loop and make 1 c, then under second two threads and 1 d c, 4 ch and repeat this to end of row.

Twenty-third Row.—One long ch, 1 d c in back of needle, repeat once, one 1 d c under first 4 ch, another long ch and d c in back on Solomon's knot, one d c under same 4 ch. Repeat to end of row and turn.

Twenty-fourth Row.—Two Solomon's knots, one d c in first two threads of first loop, 1 d c in second two loops of loop. Repeat to end of row.

Twenty-fifth Row.—Same as 24th, then fasten off.

Now work around back of bonnet.

First Row.—Insert hook under the 10 chain at corner of bonnet. Make 2 Solomon's knots, one d c in knot along back of bonnet, 2 Solomon's knots, 1 d c in first loop of ch. Repeat this until you come to center, then 1 c in both holes to join them together and work to end. Two more rows of Solomon's knots stitch and finish off. Take 2 yards ribbon, run both ends up the sides of bonnet and tie in bow at top. The remainder of ribbon forms strings. This makes a lovely baby's bonnet for either summer or winter. In pink, blue or white silk linings can be worn inside for winter.

STRIPES FOR SKIRTS.

Lines Are Again to Be Long and Straight, Albert Full.

Taffeta and velvet stripes in one tone coloring are used for the skirts of some of the prettiest short evening frocks, and wide stripes in silver or gold and color are also liked. With these striped skirts, which call for little or no trimming, though they usually show a softening frou-frou of tulle about the bottom, go new bodices chiefly of the tulle or chiffon, with just a little of the velvet or metal to repeat the skirt note.

A successful model of this sort is a yellow and silver evening frock, whose taffeta and silver stripe skirt is surrounded by a bodice of yellow tulle, silver embroidered and made with waltzlike lines drooping over the skirt top.

Another pretty model that departs but little from the traditions of the past season, though it is a trifle longer than the summer dance frocks by virtue of frills of tulle and is not widely distended, though very full, has an overskirt of apricot tulle striped widely in the same shade and draped a little at the sides over a full underskirt of apricot tulle. The bodice is of tulle and lace, and a narrow band of mole fur bordering the skirt front and sides is continued to form a girdle across the back.

Use Paper Clips.

When sewing long seams use wire paper clips to fasten the edges of the cloth together and no basting will be necessary. Turn up a hem the desired depth and place the fasteners at the bottom edge to hold it in place.

KING OF SPAIN ORDERS FOUR MORE WILLYS-KNIGHT CARS

A highest compliment to American manufacturing supremacy was paid recently by Alfonso, King of Spain, when he ordered four Willys-Knight cars, two touring cars and two limousines—through the European headquarters of the Willys-Overland Co., Toledo, Ohio.

This order is all the more notable because of the fact that King Alfonso ordered one Willys-Knight touring car last spring through his ambassador at Washington. This car, especially equipped with wire wheels, was forwarded to him last April.

Reports from Madrid after the car had been delivered, indicated that his Spanish Majesty was highly pleased with his new purchase.

Yet no official word was received until the arrival the other day of the cablegram from the European headquarters of the company, ordering four more four-cylinder Willys-Knight cars, to be dispatched at the very earliest opportunity.

This royal endorsement of the Knight-motored car, manufactured by the Willys-Overland Company, can be taken as a supreme triumph for American builders of Knight-sleeve valve motors. Such a large single order means, without doubt, that King Alfonso considers the Knight-motored car, as made in Toledo, Ohio, at least the equal in accomplishments of the renowned Daimler, Panhard, Mercedes, Mimeriva and various other European Knight cars that sell from \$4,000 to \$8,000.

MOTHERS HAD WHOOPING COUGH Mothers who have used Foley's Honey and Tar would not be without it. Mrs. Sam C. Small, Clayton, N. It is a fine thing to have in the house in case of whooping cough, croup, coughs, colds. The first doses help loosen phlegm, heal inflammation, clear air passages, stop racking coughs. Sold by Bulloch Drug Co."

Colored. Jones had just returned from his annual trip in his yacht and was recounting his experiences. "I never saw such a storm in all my life." "Pardon me, my friend; since you say the storm no doubt you can tell us what color it was." "Certainly. The wind blew and the storm rose."—Chicago News.

Points About Planting An Orchard

T. M. McHatten, Prof. Horticulture, Ga. State College of Agriculture. Orchards should be planted in Georgia before Christmas, though they are sometimes planted later. Get the plants delivered about the last of November. When they arrive feel or bank them till ready to set out. This is done by digging a trench on the north side of a hill or house, putting the roots of the trees therein and covering them.

Peaches and trees that grow to similar size should be set about 20 feet apart each way, pears twenty-five feet apart; apples 35 to 40 feet apart and pecans 60 feet apart.

Dig a hole about two feet square and two feet deep, pecans 3 to 4 feet deep. Put the top soil and some well decomposed barnyard manure, or a pound or more of cottonseed meal or bone meal in the bottom of the hole mixing well. Prune off all twisted and broken roots from the trees, set in center of the hole and begin to fill with top soil. Pack down thoroughly as the dirt is being thrown in. Fill higher than the surrounding surface. The tree will show how deep it has been in the nursery. Do not set in the orchard more than one inch deeper than that.

Varieties for Georgia. It is impossible to give a list of fruits adapted to all sections of Georgia. The following varieties will, generally speaking, be found to do fairly well:

- Apples:—Yellow Transparent, Red Astrachan, Brilliant, Kinnard, Ben Davis, Stayman Winesap, Terry, Yates and Winesap.
- Peaches:—Mayflower, Greensboro, Carmen, Wadwell, Hilley, Elberta, Lemon and Stinson.
- Pomegranates:—Large Sweet, Spanish Ruby and Acid.
- Pecans:—Alley, Bradley, Stewart, Schley and Teche.

- Pears:—Kieffer.
- Plums:—Abundance and Wild Goose.
- Grapes:—Diamond, Ives, Delaware, Niagara, Concord, Diana and Scuppernon.
- Figs:—Lemon, Brown Turkey, Celestial and Green Ischia.
- Strawberries:—Lady Thompson, Aroma, Klondike and Missionary.

Short courses are to be offered by the College of Agriculture to the members of the boys' and girls' clubs who attend the Southeastern Fair at Atlanta.

GRANT SIX The Public Demanded 20,000 Grant Sixes This Year

BUYERS caused Grant production to jump to 20,000 cars because of the fact that the Grant Six is without question one of the greatest automobile values of the year.

Knowledge of intrinsic features increases daily. Opinions are decided about even the seemingly unimportant details of automobile construction. You know what you want in a car.

Come and see the 1917 Grant Six before you buy any car and look it over carefully. Check up details of construction. You will understand quickly why buyers forced the production of 20,000 of these cars.

Selecting the Laying Stock

WM. S. DILTS, Poultry Instructor, Ga. State College of Agriculture. When young pullets are large enough to be put in the laying house for the winter, the whole flock should be gone over and the poorest birds culled out, fattened and marketed. Select only strong, vigorous birds, calling out all sick birds, weaklings or cripples. Only birds of good size, fully matured and of high constitutional vigor should be kept over. The bird with high constitutional vigor is always alert and active in her movements. She seems to be contented and happy. Such a bird should have a broad, deep, well-developed head; bright, clean, amny eyes; a short, well curved beak; well colored face, comb and wattles. The body should be broad and deep for the breed, with a full, well rounded breast. Her shanks should be stocky, with legs set well apart. Her toenails should be short and straight, showing that she is a worker. The best layer generally has the best appetite. She goes from the roost early in the morning in search of food and remains at work, scratching until late, after the loafers have gone to roost.

EVANGELS OF GREATER AND BETTER GEORGIA

That the county farm agent is the hope of Georgia farmers in combatting the boll weevil and saving agriculture in the state from decay, is eloquently voiced by President C. J. Haden of the State Chamber of Commerce, who describes the county agents as the "Evangelists of a Greater and Better Georgia." President Haden is very anxious to save the tenant class of farmers from the disasters of the boll weevil. The county agents, by holding group or field meetings, of farmers in every community, has opportunities that is possible for no one else to have, for helping the tenant farmers through the distress that confronts them. Such meetings are being held and have been held for several years, and Georgia's tenant class of farmers has been prepared for the boll weevil as probably the tenant farmers of no other state, which has been invaded by the weevil. Those counties which do not have county agents, of course, are not so well prepared.
