LOCAL AND PERSONAL

Geo. B. Wilson, of Enal, was in the city Tuesday.

FOR RENT—Small house on East Main street. Apply to L. T. Denmark.

Mr. Joe Ben Martin went to Savannah Wednesday to attend the Baby-Big wedding.

We make a specialty of Wire Fencing and have just received two carloads of all sizes and the prices are right. Statesboro Buggy & Wagon Co.

Mrs. Geo. E. Hancock, of Jacksonville, Fla., is visiting her aunt, Mrs. M. C. Jones, and other relatives in the county.

We make a specialty of Wire Fencing and have just received two carloads of all sizes and the prices are right. Statesboro Buggy & Wagon Co.

Mr. B. F. Manil was called to Charleston, S. C., two weeks ago on account of the illness of his mother, who, it is regrettable to learn, died last Saturday.

We make a specialty of Wire Fencing and have just received two carloads of all sizes and the prices are right. Statesboro Buggy & Wagon Co.

J. T. Brown, of Trappell-Mikell Co., will return to the city on the 21st from New York, where he has been buying spring goods for his firm.

Mr. and Mrs. W. B. Martin, of Dublin, stopped in Statesboro Tuesday on their way to New York, where Mr. Martin is going for the purpose of buying new spring goods for his Dublin store.

I am now prepared to do all kinds of repair work on all makes of sewing machines. I guarantee to give satisfaction on all work. If I don't give perfect satisfaction your money will be refunded. You can find me at G. A. Boyd's store, or phone me at 104. J. E. Boyd, P. O. box 233.

Card of Thanks

We take this method of thanking our many friends who were so good and kind to us in our recent loss by fire. We especially thank these: Mr. J. F. O'Hair, Mrs. J. W. Rountree and Mrs. D. B. Turner, who spent so much of their valuable time for our good. We pray that God's richest blessings may be the reward of each and everyone. J. E. BARNES and FAMILY.

Money to Loan—Applications received for loans of \$100 to \$10,000 on improved and unimproved town property and farm lands. Interest 8 per cent straight. Interest payable annually or semi-annually. Time, one to ten years. Applicants for loans will please give description, location and valuation of property offered as security for loan. State requirements and valuation of same.

We want county representatives to receive applications for loans, appraise property and serve as our exclusive representative. Attorney or real estate man preferred. Applications for loans and applications for agencies positive-ly required to furnish at least two character references and forward postage, five two cent stamps, for application blanks, full particulars and prompt reply. Write Southern Ohio, Southeastern Mortgage Loan Assn., Fourth Nat'l Bldg., Atlanta, Ga.

Church Notice

All Baptists living in town, whether affiliated with the Statesboro church or not, who are interested in the furtherance of the song service and who will come with the intention of hereafter joining in the service, will be welcomed at the choir practice to be held at the First Baptist church next Tuesday evening, Feb. 23, from 6:15 to 7:15. The services of Mrs. Tisdale, as directress, have been secured at a stated salary and the tuition, regardless of numbers, will be free to all comers. Be on time and come provided with pad and pencil.

C. C. D'LOACH CELEBRATES

54TH BIRTHDAY SUNDAY

Four Generations of DeLoaches Present Besides Large Number of Friends

Mr. C. C. DeLoach, who resides 13 miles south of Statesboro, celebrated the fifty-fourth anniversary of his birth last Sunday. A great feast was spread and all present will long remember the many good things to eat, which were so plentiful and in such great variety it was impossible for anyone to partake of each and every dish.

The invited guests began to arrive at about eleven o'clock in the morning and shortly after that hour all had gathered and congratulations were tendered.

There were present Mr. DeLoach's mother, Mrs. J. A. V. DeLoach, representing one generation, while Mr. DeLoach represented another. Then came his married children, six in number, and their children, sixteen in number, making four generations in all, as follows: W. C. DeLoach and family of five, Mrs. W. M. Hagins and family of six, Mrs. J. N. Rushing and family of three, Clevy C. DeLoach and family of five, Mrs. G. Russie Waters and family of five, Arnold DeLoach and family of three. There were three unmarried children, Miss Minnie Lee, Arthur and Nannie Lou.

In addition to the immediate family relations there were present, E. W. DeLoach and family of five, C. W. DeLoach and family of

five, W. W. DeLoach and family of four, Dr. C. E. Stapleton and family of four, Brooks C. Lee and family of four, J. L. Alderman and family of three, J. S. NeSmith and family of four, L. O. Rushing and family of three, C. A. Zettewer and family of five, Arthur Howard and family of five, Mr. and Mrs. J. C. Denmark, Mr. and Mrs. Lester Alderman, Mr. and Mrs. Felix Parish, Mr. and Mrs. C. A. Wilson, Mr. and Mrs. J. S. Denmark, Miss Daisy Averett, Miss Minnie Maudie Denmark and Mr. B. W. Rustin.

After dinner Mr. Rustin arranged the whole DeLoach family in a group and made pictures of them to be used as souvenirs.

The occasion was a grand one in every respect and all present had a most enjoyable time.

The News extends hearty congratulations to Mr. DeLoach and joins his many friends in wishing him the pleasure of many more birthday parties.

FOR CLERK OF COURT.

February 18, 1915.
To the Citizens of Bulloch County: It was the opinion of a great many people that I would be in the race for clerk of the superior court at the last time, but I decided to wait another term, and this is to advise my friends and the people of the county at large that I will be in the race for clerk at the next election.

I have been connected with the office as deputy clerk or assistant for the past few years, and feel that I am competent to give the people good service in the capacity.

I realize that it is very early to begin a political fight, as the election is more than a year off. However, I wish to get the fact well in the mind of the people that I will be a candidate, and trust when the time comes that there will be enough votes cast for me to insure my election.

Will have more to say later. Respectfully,
DAN N. RIGGS.

SCHOOL BUILDING TOO LARGE FOR TOWN FEW YEARS AGO

Two Small to Accommodate Present Enrollment

PUPILS WILL BE TURNED AWAY NEXT SESSION FOR LACK OF ROOM.

Statesboro did herself proud when she built her present school building, for it is a beautiful structure on beautiful and commodious grounds. At that time it was thought that the building was large enough for a long, long time to come, and by many as being "entirely too large for Statesboro."

Every one was justly proud then in pointing out our ample school facilities and boasting of our auditorium.

But how fast the little tots grew that were too small to go to school then. And how many new people have moved to Statesboro, whose children must go to school! We look around and see so many girls and boys of school age that we can hardly realize that we are in the same old Statesboro of a few short years ago. We wonder how all these girls and boys can find room in one school building. So the News sent its representative one day last week to look into the matter.

Professor H. D. Meyer was very busy, but found time to show our representative over the school and give a lot of information.

At chapel, which is held in the auditorium, all available space was taken up by the children and was crowded. After chapel the different grades were visited.

The second grade, the largest in the school, has 54 pupils in it. Just think of it, 54 children under one teacher! How many mothers there are who consider life a burden whose families number only six or eight!

There are two sections of the third, fourth, fifth, seventh and eighth grades. In the third grade room there is a part of the fourth grade—in the fifth grade room there is a part of the seventh grade, the overflow of the fourth and seventh grades having to be quartered somewhere. There are 37 in the graduating class for this session.

There is a great number of children in Statesboro now of school age who are not in school. Next year there will be the largest enrollment our school has ever had. What are we going to do with them?

It is plain that we must have a new building and that real soon. With a high school building in addition to that when we now have there would be ample accommodation for all and there is no other way out of this difficulty.

Professor Meyer is doing splendid work (so are the teachers) and is liked by every boy and girl in school, but he cannot do as

much under the present crowded condition as he could under different and more favorable conditions.

A new high school building is a necessity, as everyone, who will take the time to investigate will agree.

We cannot afford to let the boys and girls of Statesboro grow up in ignorance for the lack of school facilities, so let's think about the new school building—and get it.

THREE MEN ARE KILLED IN BATTLE WITH INDIANS

Battle Started Soon After Midnight, Whites Attacking

Salt Lake City, Utah.—Cec white man and two Indians were killed in a battle between whites and Indians near Bluff.

The battle began soon after midnight when the whites attacked more than 100 Indians in an effort to arrest Tse Ne-Gat on a charge of murder. The whites were led by United States Marshal Nebeker.

Creeping up to the Indians' encampment under cover of darkness, the whites surrounded the Indian camp and at a prearranged signal opened fire. The Indians replied and when the whites endeavored to rush their trenches, drove them back. Joe Akin, of Dolores, was killed and another white man wounded. Two Indians were taken prisoners and two killed.

Nebeker telephoned that the Indian camp was surrounded and that he expected its capture soon.

JACK JOHNSON HAS REACHED HAVANNAH ON WAY TO JUAREZ

Havana.—Jack Johnson, the negro pugilist, accompanied by his trainers, arrived here Monday from Cienfuegos. He appeared in good condition and said his only anxiety now was to reach Juarez in time for his match with Jesse Willard on March 6.

Johnson declared he was determined to push ahead in spite of chaotic conditions in Mexico. It was said that before leaving for Tampico, however, he might give an exhibition bout here with Sam McVey or Jim Johnson.

FIRST COUNTERFEIT OF FEDERAL RESERVE NOTE

Washington.—The first counterfeit of a federal reserve note has made its appearance. It is a \$5 note of the federal reserve bank, printed from poorly executed plates, the secret service says, on two pieces of paper, with silk threads between. The note is a quarter of an inch shorter than the genuine, and Chief Flynn of the secret service says it is such a poor piece of work it should be detected readily.

EVELYN STRIKES MINE AND SINKS

BERLIN IS FIRST TO REPORT SINKING OF AMERICAN SHIP

BRYAN GETS BUSY

Captain of Crew and 27 Men Are Saved

FIRST UNITED STATES SHIP SUNK

Not Sunk Within Limits of German War Zone

Berlin.—The American steamer Evelyn, which sailed from New York January 29 with a cargo of cotton for Bremen, struck a mine off Borkum island, in the North sea, yesterday. The vessel sank. Her captain and 27 of her crew were saved.

It has not been learned of what nationality was the mine which destroyed the Evelyn.

WRECKED NEAR GERMAN COAST. The Evelyn is the first American vessel to meet with disaster as a result of the sea warfare of the European nations. She did not sink within the war zone included in the German admiralty's decree. Borkum island lies directly off the German coast, at the mouth of the Ems river, and is German territory.

Maritime records give the complement of the Evelyn at 25 men, so that it is probable that all on board the vessel were rescued.

The Evelyn was a single screw steel steamship and was commanded by Captain Smith. She belonged to Harris, Irby & Voce, of New York, and was taking a cargo of cotton to Bremen. She was 252 feet long and 1,185 tons net.

She was built in Southampton, England, in 1883. Her home port was Philadelphia.

The Evelyn was last reported as arriving at Rotterdam on February 12.

BRYAN'S STRUCTURE AMBASSADOR. Washington.—Secretary Bryan announced the receipt of a telegram from the American consul at Bremen reporting "the loss" of the American steamer Evelyn. The cause was not stated. The crew was saved. American Consul Fee's telegram was given out by the state department, which was as follows:

"Steamer Evelyn, Captain Smith, agents Bull & Co., New York, blown up early Friday at Borkum. Crew saved. Ship and cargo lost."

Secretary Bryan repeated the American consul's telegram immediately to Ambassador Page at Berlin, with instructions to learn all possible facts concerning the occurrence and give every care to the crew if landed in their respective jurisdictions.

RAILROAD IS INSPECTED

Statesboro People Wonder What W. J. Oliver Is Planning.

The visit of L. E. Wooten, Judge J. W. Lindsey and an engineer, representatives of W. J. Oliver, the contractor and railroad builder of Knoxville, Tenn., to Statesboro put the people of this place to guessing as to what their visit meant. Mr. Oliver built the Savannah, Augusta & Northern railway for a northern syndicate and afterwards bought it in, operating it for some time. Later arrangements were made with the Savannah & Statesboro railroad to operate it, and since then the Savannah & Statesboro has had a service from Atlanta and Augusta over the Georgia and Georgia & Florida railways to Savannah.

Some time ago it was announced that George Brinson contemplated building a road from Swainsboro, in Emanuel county, to Savannah, and rumor had it at that time that Mr. Brinson would try and get the Savannah, Augusta & Northern. It is reported that Brinson's new project is within a few miles of Statesboro, and as no work has been done in the direction of Swainsboro from Statesboro the same rumor has arisen, that Mr. Brinson is interested in the visit of the three representatives of Mr. Oliver here. They made a trip over the line today, accompanied by Superintendent Grimshaw, of the Savannah & Statesboro.

In the meantime several other complaints were heard from farmers who had missed eggs from their vehicles.

It was learned that the same man had sold several dozen eggs to L. T. Denmark.

The matter was investigated and resulted in the arrest of Freeman, who was lodged in the county jail.

In the meantime several other complaints were heard from farmers who had missed eggs from their vehicles.

DRAMATIC CLUB A BENEFIT TO STATESBORO

And Should Get All Possible Encouragement

It is possible that many of Statesboro's citizens do not know what our dramatic club is doing, and as March 5th is the date upon which the club will present "The Servant in the House," it is well that the public should be informed that to patronize it is to help, not the individual member of the club, but the city, for the proceeds will go, as in the past, to assist the civic league in its work, and to a fund the club is now directing toward the building of a club house, which will be for the purpose of not only holding their own meetings but may be used by other clubs or societies.

"The Servant in the House" is costing a great deal more than any of the previous plays given by the club, and it is going to require a liberal patronage on the part of the public to even defray expenses, and there should be much more than expenses cleared, for the play is a splendid one, and will certainly be excellently rendered, in addition to the cause being worthy.

Considerable excitement prevailed in the business center Wednesday afternoon when fire was reported at the Averitt Auto Co's garage and an alarm was given.

It proved to be gasoline burning on the car belonging to Dr. L. W. Williams, which was being overhauled and the motor washed with gasoline.

The flame was quickly extinguished and no damage was done, but for a few moments the entire car was enveloped in a blaze. The man who was washing the car stated to a News representative that the blaze started all of a sudden and he could not account for it unless it was caused by a short electrical circuit.

IN JAIL FOR EGG STEALING

C. S. Freeman Looked Into Country Vehicles for Eggs, Which, It is Said, He Sold

T. E. Baker, from near Brooklet, drove to town last Saturday and brought in his buggy nine dozen freshly laid eggs. Upon arriving in town he hitched his team to a post and walked about town for a short while. After learning the market price, he returned to his buggy for his eggs but learned that they had disappeared.

Enquiry was started among the dealers to ascertain who had recently bought nine dozen eggs and it was learned that the Mercantile Company had just completed such a transaction with one C. S. Freeman.

In the meantime several other complaints were heard from farmers who had missed eggs from their vehicles.

It was learned that the same man had sold several dozen eggs to L. T. Denmark.

The matter was investigated and resulted in the arrest of Freeman, who was lodged in the county jail.

AUTOMOBILE CATCHES FIRE WHILE CLEANING MOTOR WITH GASOLINE

Short Circuit Cause of Accident—No Damage Done

Considerable excitement prevailed in the business center Wednesday afternoon when fire was reported at the Averitt Auto Co's garage and an alarm was given.

It proved to be gasoline burning on the car belonging to Dr. L. W. Williams, which was being overhauled and the motor washed with gasoline.

The flame was quickly extinguished and no damage was done, but for a few moments the entire car was enveloped in a blaze.

The man who was washing the car stated to a News representative that the blaze started all of a sudden and he could not account for it unless it was caused by a short electrical circuit.

SECOND AMERICAN STEAMER TO MEET DISASTER IN NORTH SEA

HITS MINE OFF GERMAN COAST—SINKS AT ONCE

Ship Recently Left Charleston Carrying a Cargo of 4,600 Bales of Cotton

Berlin, Germany.—The American Steamer Carib has gone to the bottom off the German coast in the North sea as a result of striking a mine.

At the time of the disaster the Carib was not using the route laid down in the German marine instructions.

The vessel belonged to the Clyde line. She was of 2,250 tons net and left Charleston Jan. 27th for Bremen. She was under command of Captain C. E.

The Carib was built in 1892 at Port Glasgow, Scotland. She was 288 feet long and 36 feet beam. She carried a cargo of 4,600 bales of cotton.

ONE LIFE LOST IN HOTEL FIRE

Birmingham, Ala., Suffers From Flames in Business District of the City

Birmingham, Ala.—Fire in the business section here early Tuesday did property damage estimated at more than \$200,000. Four firemen were so badly hurt they had to be sent to a hospital. Buildings destroyed included the Windsor hotel and the Buick and Thomas block.

An unidentified charred body was found later in the ruins of the Windsor hotel, which is believed to be that of one of the hotel's guests. Search is now being made for other possible victims.

FOR THE YOUNG PEOPLE

TRAINING RULES FOR YOUTHS

Old-Fashioned Movements Supplemented by Program of Hygienic and Corrective Exercises.

Notable among the achievements of the board of education of New York city has been the introduction of the new course of study in physical training for boys. This emphasizes the old-fashioned one-two-three movements with a consistent program of educational hygiene and corrective exercises. New boylike athletic movements are brought into the gymnasium and the boys engage in a course of moderate athletic training, including hygiene, which is the basis of all athletic training. These movements are utilized for constructive school purposes.

The 10,000 boys who assembled last June in Central Park to exhibit physical training were given the following set of training rules:

Go to bed at nine o'clock after a thorough wash and a cold splash over chest and trunk; teeth and gums well scrubbed. Clothes and books ready for tomorrow.

Bedroom windows open top and bottom.

Rise not a minute later than seven o'clock. Go through two-minute drill and hygienic exercises for demonstration. Clean face and neck and scrub hands. Finish up with a big cold splash and hard rub all over. See that feet and legs are clean and rub them hard to get them into good condition. Brush teeth and gums thoroughly.

Breakfast and all meals: No coffee. No milk. Eat milk, a little at a time. Chew all foods to a pulp. Ask your teacher what foods to avoid.

No smoking. Cut out all habits you know are bad.

Exercise in the fresh air, equivalent to a slow mile run a day. Walk ten miles a week. If you lose weight you lose vitality; stop work.

Before school look yourself over. "Am I clean from head to toe? Are all my clothes clean and in order down to the skin? Do I stand like an athlete?"

The boy has no use for hygiene, but he has for athletics, and the school interested in hygiene makes use of this fact to gain its end.

CHILDREN KNOW GOOD CORN

United States Department of Agriculture Outlines Twelve Lessons Covering Important Points.

(Prepared by the United States Department of Agriculture.) School teachers in the corn states, or, for that matter all over the country, who wish to emphasize the importance of corn in the spreading movement for better corn growing are provided with the outlines of 12 lessons in a new publication of the United States department of agriculture, *Farmer's Bulletin No. 617, "School Lessons on Corn."* These lessons cover such important points as kind of corn, the best way to plant and cultivate corn, diseases that the crop suffers from, selection of good seed corn, and the ways of telling good corn from bad. To help the children to become good citizens, the following scorecard is suggested:

The pupil should bring to school samples of corn and under the super-

Score Card for Corn.

Points.	1	2	3	4	5	6	7	8	9	10
1. True to type.	1									
2. Purity of color in grain.	1									
3. Uniformity of grain.	1									
4. Purity, maturity, germinating power.	1									
5. Type of ear.	1									
6. Shape of ear.	1									
7. Uniformity of kernels.	1									
8. Length of ear.	1									
9. Circumference of ear.	1									
10. Furrows between rows.	1									
11. Spaces between kernels at base.	1									
12. Proportion of corn to cob.	1									
Total.	12									

vision of the instructor mark each ear in accordance with the scale indicated. For example, an ear the shape of which was absolutely perfect would be credited for this with ten points out of a possible hundred. If the shape was somewhat defective the credit would be less, the exact number of points depending upon the pupil's judgment.

In order to understand fully the meaning of all the points listed in this scorecard teachers are advised to write to their state agricultural colleges for an explanation of the official scorecard used there.

The vitality or germinating power of the seed must only be judged after tests have been made in accordance with the methods outlined in *Farmers' Bulletin No. 253.*

John Did His Duty. "It is the duty of every one to make at least one person happy during the week," said a Sunday school teacher. "Now have you done so, Johnny?"

"Yes," said Johnny, promptly.

"That's right. What did you do?"

"I went to see my aunt and she was happy when I went home."

"Ladies' Home Journal."

Horah for Jane

Now if I linger in the Hall - Said Jane "I can not think of all. So in Room I'll go and sit. And try and ruminate a bit!"

PLEASURE FOR THE CHILDREN

Figure Toy Attracts Attention and Creates Amusement by Simulation of Cries of Wild Beasts.

In illustrating and describing a figure toy, the invention of J. W. Murray of St. George, N. B., the Scientific American inventors relate to toys and has particular reference to devices in which certain figures, such as, for instance, figures of ferocious animals are employed. Among the special ob-

jects of this invention is to attract attention and create amusement by the simulation of a cry of wild beasts having a keeper, certain mechanism being employed whereby the animals and the keeper will be given certain movements.

This struggling world would be happier if there were more of good cheer. We used to be told that Eugene Field, one day wandered into a basement restaurant, sat down at a table, put his chin in his hands and gazed moodily into space. A waiter came to him and asked him to order. He ordered a moderate long list of dishes that were ready to be served.

"No, no," said Field, dejectedly. "I require none of those things. All I want is some sliced oranges and a few kind words."

Whether or not the incident be true, it is suggestive. Unquestionably, deeds weigh far more than words, and yet it is almost tragic to think how much happier and better this struggling world would become if kind words were more often heard. We all, every day, come in contact

with those who are in Eugene Field's state of mind. They are in our own homes; mothers and fathers and children. They are behind the counters of stores; they are employees on trains; they are servants in kitchens; they are everywhere, and their name is legion. A word of appreciation would brighten the whole day and would make it easier for them to keep on trying—YOUTH'S COMPANION.

Spontaneous From the Heart. Furnace heat and electric light cannot take the place of the sunshine. The first will make you warm, and the second will furnish abundant illumination, but a certain health giving element will be lacking. Formal courtesies and the helplessness prompted by a sense of propriety, cannot take the place of the kindness which comes warm and spontaneous from the heart—Girls' Companion.

Those Foolish Questions. "Can you swim, little boy?" "Yes, sir."

"Where did you learn?" "In the water; where d'yer suppose?"

THE LIONESS KNEW

By JOHN BREWSTER.

Rita, the big lioness, had been acting in an ugly manner. They say that lions can detect the character of their trainers; that a drunken trainer is in imminent danger of destruction; and that a lioness who is not properly trained should be sent to the cage. They say too, that a good woman can tame the wildest beast. Perhaps that is a legend, though.

Mademoiselle Charmeuse had been born Lily Leigh. Her parents were honest farmer folks who had been in Shawnee county. But there had been a maternal grandfather who ran away to sea. It is not only that that inheres the roving disposition. When she was seventeen Lily had shaken the dust off her shoes at the back of her head and departed in the wake of a traveling show, to graduate as Mademoiselle Charmeuse, the world-famous equestrienne. Afterward, when she was married and the show increased in size and splendor, she became Mademoiselle Charmeuse, the renowned lion-tamer.

Some folks think that lions are almost as bad as gypsies. That is not the case. There are no more moral and respectable people alive. Nobody ever breathed a word against Mademoiselle Charmeuse's reputation. Goldini, the proprietor, and the motherly Madame Goldini, treated her like a daughter, even if they had picked her up in an illegal manner, struck by her pretty face and daring. But when Madame Goldini grew too stout to continue to tame the lions, and Rita, the lioness, began to grow too fat, she was sent to the circus, and the welfare of the circus troupe, in comfortable middle life, Mademoiselle Charmeuse was thrown much more into the hands of Goldini.

It was her task, together with Nero, the big Dalmatian, to put the lions through their paces at every country place where they exhibited. Goldini himself seldom entered the lion cage nowadays. He was growing fat, like his wife; besides, the lions had begun

to appear restless under his lash. Goldini knew what was the trouble. He knew it in his own soul. He loved Rita, the lioness, and the lioness loved him. Rita sprang for him, toward the door. She retreated again, but the lash of the whip caught her across the nose, and, swerving, she quivered herself against the bars. She quivered herself against the bars before she could turn again the girl had stepped backward to safety through the open door.

She found herself lying in the center of a crowd of strangers. Her first thought was of Nero. Then, remembering, she began to weep hysterically. Her second was of Goldini. He had slammed the door and left her to die! Goldini's animal malady had broken out once more. And it was at the turning point of the girl's career. For a gray-haired woman, she was clapping her to her breast. The girl looked into her face a full minute before she realized who this was.

A gray-haired woman, she was clapping her to her breast. The girl looked into her face a full minute before she realized who this was.

Through the silent crowd the gray-haired, black-bonneted woman led the lioness to the short skirt with the spangles.

(Copyright, 1914, by W. G. Chapman.)

Catching the Curate. The bachelor community of a certain suburb was greatly scared by the advent of a fearsome type of the desecrated husband-hunting. After throwing each of the local bachelors into ecstasies of terror lest he should be the recipient of her attentions, the lady finally managed to capture the curate. Local bachelordom was so immensely relieved at its escape that it united in presenting the curate without any difficulty the first time that wonderful food was tried.

"I am now strong and in better health than for a great many years ago," said the curate, "and I am gradually growing stronger. I rely on Grape-Nuts for much of the nourishment that I get. The results have certainly been wonderful in my case and prove that no stomach is so weak it will not digest Grape-Nuts."

"My baby got fat from feeding on Grape-Nuts. I was afraid I would have to stop giving the food to him, but I guess it is a healthy fat," named given by Postum Co., Battle Creek, Mich.

Look in plays for the famous little book, "The Road to Wellville."

There's a Reason. "Ever read the above letter? A new one appears from time to time, and is genuine, true, and full of human interest."

Winchester Revolver and Pistol Cartridges. Winchester Revolver and Pistol cartridges in all calibers prove their superiority by the targets they make. Shoot them and you'll find they are ACCURATE, CLEAN, SURE.

LIMITED CHOICE OF VIANDS

Guest Who Didn't Care for Salmon Was in Fair Way to Have Hot Breakfast.

In some parts of the Canadian back country the recurrence of boiled salmon, broiled salmon, salmon cutlets, and salmon steak for every meal bore heavily on the monotony of the table. To the native palate, a trifling change brought on it, this constant reappearance of the selfsame dish is a matter of course; but to the newly arrived tourist it grows at last into a feeble joke.

"Is there nothing else for breakfast?" said one victim of colonial hospitality, as a whole fish and a few vegetables were laid before him on the table.

"Nothing else!" replied the host, in surprise. "Why, there's salmon once more for six, ain't there?"

"Yes," responded the guest, mildly; "but I don't care for salmon."

"Well, then, fire into the mustard," was the rejoinder.

Truly Spoken. Rash, fruitless war from wanton glory was, is only splendid murder—Thomson.

Few men are wise enough to render one little word sufficient.

A REBELLION Food Demanded.

The human body will stand a lot of abuse, but sometime it will surely rebel and demand proper food in place of the pasty, starchy, greasy stuffs on which it has been made sick.

Then is the time to try Grape-Nuts, the most scientific and perfect food in the world.

A lady of Washington says: "Three years ago I was very ill with catarrh of the stomach and was given up to die by a doctor. I laid in bed four months and my stomach was so weak that I could not keep down medicine or hardly any kind of food and was so weak and emaciated after four months that I could hardly lift my head and put on my chair."

"But weak as my stomach was, it accepted, relished and digested Grape-Nuts without any difficulty the first time that wonderful food was tried."

"I am now strong and in better health than for a great many years ago," said the lady, "and I am gradually growing stronger. I rely on Grape-Nuts for much of the nourishment that I get. The results have certainly been wonderful in my case and prove that no stomach is so weak it will not digest Grape-Nuts."

"My baby got fat from feeding on Grape-Nuts. I was afraid I would have to stop giving the food to him, but I guess it is a healthy fat," named given by Postum Co., Battle Creek, Mich.

Look in plays for the famous little book, "The Road to Wellville."

There's a Reason. "Ever read the above letter? A new one appears from time to time, and is genuine, true, and full of human interest."

Winchester Revolver and Pistol Cartridges. Winchester Revolver and Pistol cartridges in all calibers prove their superiority by the targets they make. Shoot them and you'll find they are ACCURATE, CLEAN, SURE.

LIMITED CHOICE OF VIANDS

Guest Who Didn't Care for Salmon Was in Fair Way to Have Hot Breakfast.

In some parts of the Canadian back country the recurrence of boiled salmon, broiled salmon, salmon cutlets, and salmon steak for every meal bore heavily on the monotony of the table. To the native palate, a trifling change brought on it, this constant reappearance of the selfsame dish is a matter of course; but to the newly arrived tourist it grows at last into a feeble joke.

"Is there nothing else for breakfast?" said one victim of colonial hospitality, as a whole fish and a few vegetables were laid before him on the table.

"Nothing else!" replied the host, in surprise. "Why, there's salmon once more for six, ain't there?"

"Yes," responded the guest, mildly; "but I don't care for salmon."

"Well, then, fire into the mustard," was the rejoinder.

Truly Spoken. Rash, fruitless war from wanton glory was, is only splendid murder—Thomson.

Few men are wise enough to render one little word sufficient.

CALOMEL IS MERCURY, IT SICKENS! STOP USING SALIVATING DRUG

Don't Lose a Day's Work! If Your Liver Is Sluggish or Bowels Constipated Take "Dodon's Liver Tonic"—It's Fine!

You're bilious! Your liver is sluggish! You feel lazy, dizzy and all knocked out. Your head is dull, your stomach is empty, your bowels are constipated. Don't take salivating calomel. It makes you sick, you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into your bile ducts, breaking it up. That's when you feel that awful nausea and cramping.

If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of Dodson's Liver Tonic. Your druggist or dealer sells you a 50-cent bottle of Dodson's Liver Tonic under my personal money-back guarantee that each spoonful will clean your liver.

Its Kind. "This man threw a lamp at his wife."

"Then I tried for him for light as usual."

Some men court, then marry, then go to court again.

Many an ill natured wife has developed into a good natured widow.

She stepped into the cage and at once Rita began to act strangely. Perhaps she knew; or perhaps the unrest in the girl's soul communicated itself to hers. The lions lashed her tail and retreated, growling, to the opposite end of the cage. The other three lions began to growl in sympathy, and crouched beside her, snarling at the sight of the girl's whip and utterly ignoring the stands on which they were supposed to stand in a pyramid.

Nero was uneasy, too. Nero, at Rita's mistress's heels, growled back at Rita, and crouched also, motionless, where they exhibited. Goldini kept her eyes on Rita; she knew that the other lions would follow her example.

She saw, dimly, the crowd of eight or nine outside the cage, seated upon their wooden benches. But she saw them as a whole, not as individuals. She was not alone, for her mind was set on dominating the lioness, and, though it was easy to escape, she knew that she would never be able to do anything with Rita again.

She advanced, flicking her whip, and Rita, growling, poised herself to attack. This was the crucial moment. Suddenly the girl heard Goldini's voice.

"Come out!" he screamed, half opening the cage. "It is no good! Come!"

At that moment, just as the girl's attention was distracted, though it was but a momentary wavering of an eyelid, Rita leaped. At the same instant the other lions sprang into the air.

Rita's tawny body flew across the cage. But at the same moment Nero stopped the momentary attack, but he turned it. Lioness and dog rolled in a tussle upon the floor.

The same instant Goldini screamed and slammed the door of the cage.

The girl heard shrieks of panic among the audience. She was conscious of the men's employes pulling frantically at the door of the cage. Before her she saw the dead body of the faithful hound, and the lioness was in his own soul. He loved Rita, the lioness, and the lioness loved him. Rita sprang for him,
