Vol. 15 No. 8

THE INTERNATIONAL CORRESPONDENCE SCHOOL
SCRANTON, PA.

Placing An Exhibit of Their System in Statesboro—Now Shown in Trapnell-Mikell Company's Display Window

Mr. N. H. Vaughan, Manager from Scranton, Pa., and Mr. A. L. Salyer, from Savannah, representing the I. C. S. of Scranton, Pa., will conduct an exhibit of that institution in the display window of Trapnell-Mikell Co.

The International Correspondence Schools have done more to prepare working people for success in their lives of work than any one single agency. The history of success is a history of success. From all parts of the world come thousands of grateful letters telling how the training has enabled young people without employment to get good starts in chosen occupations; how others have changed from unbecomingly congenial work; how it has enabled men in nearly all trades and professions to do superior work—made them worth more to their employers and enabled them to obtain what is always the result of superior training: better positions and, consequently, higher salaries.

The result obtained by I. C. S. students are due to the unique methods of teaching the science of the trades and professions by mail; the immense organization and large capital, which enables them to provide everything necessary for the success of the home student; and to what are now famous the world over—the incomparable textbooks. I. C. S. carry specialization further than any other institution in existence, requiring the students to study only those subjects that are of practical value in their chosen work.

There are some 282 different courses conducted by this school and no matter what a person may desire to take up as a study the I. C. S. can supply the information. One of the departments that is proving very popular in the south is agriculture. The gentlemen in charge of this work will remain in Statesboro for three days and will be pleased to explain the system of the I. C. S. in detail.

Cheapest accident insurance—Dr. Thomas' Electric Oil. For burns, scalds, cuts and emergencies. All druggists sell it, 25 and 50c.—Adv.

It Will Pay You To Let Us Examine Your EYES

If you have any doubts as to their efficiency—if you have the slightest reason for believing they are becoming defective.

Prompt action, combined with RICH glasses, will in almost all cases, arrest the further development of the trouble and bring genuine relief.

Our examinations are exceptionally thorough and absolutely exact—our charge moderate.

STATSBORO-BROOKLET

Ball Game Last Tuesday Unfairly Reported to Savannah Papers.

The ball game played on Tuesday last at Brooklet and as reported to the Savannah Morning News was entirely in error and unfair to the extreme. The Statesboro team is organized and is out this season to play clean wholesome ball devoid of any favoritism and rough neck principles. From the beginning of the game in Brooklet Tuesday it was apparent that the umpire had fully decided to steal the game by unfair decisions and at the close of the seventh inning when the score stood 5-4 in favor of Statesboro with feeling of our antagonists becoming so unkindly aroused against the Statesboro team it was then decided to retire to avoid any possible trouble. There was no Brooklet pitcher by the name of Powers as reported in the Savannah Morning News.

The Statesboro team is now ready to book a schedule season and will be glad to hear from those interested in clean ball playing.

Let Rustin take it.—Adv.

LOST—Automobile Lamp Number 1594 Ga. and Racket Reward if returned to Bruce Olliff 21 North Main St. Statesboro.

KEEP THE KIDNEYS WELL

Health Is Worth Saving, and Some Statesboro People Know How to Save It

Many Statesboro people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health—the slightest delay is dangerous. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers. Here is a Statesboro citizen's recommendation.

Mrs. J. F. Aiken, 2 Inman St., Statesboro, says: "I have given Doan's Kidney Pills a fair trial and from the good results I have had, I know that they are a good kidney medicine. I recommend them to others suffering from kidney complaint."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Aiken had Foster-Milburn Co. Props., Buffalo N. Y.—Adv.

RIMES SCHOOL QUARTERS DESTROYED BY FIRE AGAIN

Second Fire Within a Few Weeks—No Doubt of its Being of Incendiary Origin

For the second time the Rimes school house has burned. Only a few weeks since the school house which had been newly painted and was a real credit to the district was totally destroyed by fire scarcely before the paint had dried; there was then a loss of practically eight hundred dollars in the building and contents. Because of this fire there was no cessation in the school term; preparations were commenced the same day to install the school in the E. L. Miller house which was then vacant and all went well in the temporary quarters with the hope of the pupils that they were securely housed until the end of the term at least.

Last night at twelve o'clock Supt. Olliff was called by phone and advised that the Miller house was on fire and would be a total loss and to send the sheriff with his dogs as it was then believed that a pure case of arson had been committed.

Supt. Olliff succeeded in getting in touch with Sheriff Mallard who at once started with his dogs and arrived at the Miller place about 2 A. M. but nothing definite has developed as yet as to any evidence of who may be suspected of having done the dastardly deed.

The Miller property was valued at about \$600 with \$350 insurance upon the building. This second attempt to rob the district of its school facilities has failed however, as the Miller estate house was immediately placed at the disposal of Supt. Olliff and school was opened this Wednesday morning as usual.

A box supper will be given this Saturday night for the benefit of the school all the proceeds will be applied to a fund to be used as may later be found most advantageous. A liberal attendance will be appreciated.

FOR SALE—Legal blanks of all size without description. Statesboro News.

HIGH SCHOOL NOTES

The Criterion has gone to press. We are going to have a good annual this year in spite of the war. We succeeded in getting up a large number of advertisements and thank the progressive citizens for helping us. We have more pictures this year and more good material. The books will be from press about the twentieth of May.

The school will celebrate Memorial day with appropriate exercises. Judge Hines, of Atlanta, will deliver the Memorial day addresses and a treat is expected. The school will furnish music and recitations.

Only three more weeks of school. Study hard and pass your grade. Parents see that your child keep right up with the work to the last—the last day counts for as much as any day in the year.

Commencement programs are being arranged—at a meeting of the senior class all the proper committees were appointed. These seniors will direct the commencement festivities and a successful season is expected. The following are the chairmen of the different committees:

Program—Verna Zetterower
Decorations—Tom Denmark
Usher—Hobson Donaldson
The S. H. S. base ball team is "going good" now. They defeated the F. D. A. S. Monday. They have won games from Brooklet, the Statesboro team, the Federals and the F. D. A. S. The new suits added greatly to the appearance of the team and thanks is due to all those who helped them to get them.

A box supper will be given this Saturday night for the benefit of the school all the proceeds will be applied to a fund to be used as may later be found most advantageous. A liberal attendance will be appreciated.

FOR SALE—Legal blanks of all size without description. Statesboro News.

REDUCED PRICES on National Mazda Sunbeam Lamps. A. J. Franklin, Builder's Supplies.

PLANTATION FOR SALE

Plantation in one of the largest cotton producing counties in the state. Large enough for fifteen plows. Is situated near a new railroad and has plenty of negro labor on it which is easily controlled and is cheap. Will sell very cheap and on terms. Land is as good as Bulloch county land and can be bought for one-half the price of Bulloch county land. Address "L" care of Statesboro News.

BULLOCH COUNTY'S WATER-MELON CROP

Likely to Be a Bumper One—Georgia and Florida Growers Distributors Association Organized.

Watermelon buyers and distributors representing the largest and most reliable firms now engaged in the business, firms that handle 75 per cent to 85 per cent of the entire crop in the state of Georgia and Florida, have held a two day's session in Atlanta, at which time, the Watermelon Distributors' Association was formed. This association was formed for the purpose of improving the situation in the watermelon business both from the standpoint of the producer and the distributors.

As a result of the conference of the watermelon men improved loading rules will be furnished the growers. It is hoped by an improvement in the methods of loading, sorting and shipping to insure better prices for the growers and eliminate much of the loss now in incident to the traffic due to the lack of standardization of methods of packing, sorting and distributing.

During the second day of the conference, representatives of the Shippers' Association, the Railroads and Government Reports from the Department of Agriculture, held a joint session, at which the distributors outlined the improvement in methods contemplated by them. The representatives of the shippers improved packing methods with a view of bringing about a reduction in the losses now sustained by the growers and the carriers jointly and took under advisement certain methods recommended by the District Association.

The assembly was addressed by the government experts, who called attention to the great economic loss involved in damages to perishable products due to improper packing, delays in transit and other causes. They stressed the point of co-operation between the growers, the distributors, the carriers and the government with a view of eliminating these losses, for as they very ably pointed out, these losses fall not alone on the railroad against which the claims are suffered but that all interests suffer jointly and, therefore, all should co-operate with the effort that the carriers have been making to eliminate these losses to a large extent by improvement in methods and a scientific study of the causes with a view of adopting such standard practices as will curtail these losses.

There was a hearty spirit of co-operation displayed by all the interests represented at the conference and many expressed themselves as feeling that much good would result therefrom.

Mr. S. T. Grimshaw, superintendent of the Savannah & Statesboro Railway and Mr. D. F. Brady, commercial agent, attended the meeting of the watermelon buyers and railroad officials and report they are highly pleased with the co-operation manifested and predict much good will result to the melon growers from this meeting. All indications point to good prices for melons this season as the outlook is that Florida and south Georgia will harvest small crops.

Starting Something.
"Say, d'yer see me flats and me strong right arm? Well, I'd just as leave start something as not."

"All right. What will you charge an hour for cranking automobiles?"—Exchange.

AN APPEAL FROM THE GA. EQUAL SUFFRAGISTS

An open Letter to the State's Citizens, Politicians and Press.

Atlanta, Ga., Apr. 28th.
To the members of the Georgia Legislature, to the Press and to You Sir, Greetings.

The Equal Suffrage Party of Georgia believing "that the right of citizens of this state to vote shall not be denied or abridged on account of sex," desire to place before you, our plea for our own enfranchisement.

We feel that you cannot justly deprive us of the affairs of the government, which we are taxed to maintain, and to whose laws we are held amenable. In respectfully asking your favorable consideration of this question, which we are not permitted to decide for ourselves, we are not asking for the adoption of any partisan issue, nor for any untried experiment.

In twelve states, women are enjoying the free use of the ballot and from each of these states, through her press, her legislature, her governors, Senators, Clergymen, Judges, representatives, and chief educators, the statement is sent forth that only good has accrued to the people and state from the enfranchisement of women.

There have been anonymous writers who have distributed misrepresentations of the facts, but no two men or women in all these states will assert their own names and addresses, that equal suffrage has produced any bad results.

The evils predicted, have not come to pass, the benefit claimed for it have been secured or are in process of development.

Every person knows that the enfranchisement of the women of the South will enormously increase white supremacy. Quoting the U. S. census of 1914, we find the proportion of white women to negro women and of white women to the whole negro population as follows:

There are 8,788,901 white women in the South and 4,816,565 negro women, less than half—and the white women of the South outnumber the ENTIRE negro population by 494,927. In Georgia there are 210,560 more white women than negro women.

Every person knows that the enfranchisement of women is inevitable. Everybody realizes that the progress of Woman Suffrage like all the great movements in the advancement of the human race, profound, irresistible and vital—is seemingly beyond the power of any human agency to retard or control.

By order of the Legislative Committee of the Equal Suffrage Party of Georgia.

EMILY C. McDONALD, Pres.

OIL THE STONE ROADS.
We know now that the whole secret of holding alone roads lies in filling them. With modern methods of oiling under pressure a surface can be maintained even under exceedingly heavy traffic. The oiling prevents the "dusting" of the roads and their consequent deterioration, which is very rapid without oiling under fast moving automobile travel. Of course, if the traffic is so heavy that it breaks down the top course of the road, that is a different matter. Roads of other than stone construction are needed to meet this condition.—John N. Carls, Commissioner of Highways of New York.

CIRCUIT COURT IN SESSION THIS WEEK

A Number of Divorce and Other Civil Cases and a Few Criminal Cases Disposed of.

April term Superior Court convened Monday, J. I. Summerville, judge of the Waycross Circuit, presiding, Judge R. N. Harden being sick.

Monday and Tuesday were taken up with the trial of divorce cases, the following being disposed of:

Lizzie Johnson vs Will Johnson second verdict for the plaintiff.

Alex Dupree vs Etta Dupree, second verdict for the plaintiff.

Mrs. Virginia A. Fair vs James H. Fair, second verdict for plaintiff.

Lilly Hayes vs Philip Hayes, jury refused to find for the plaintiff in the case.

Viola Lewis vs Harmon Lewis, verdict for the plaintiff, being the second verdict.

Mrs. R. W. DeLoach vs R. W. DeLoach, verdict for the plaintiff.

Mrs. Lula Arnett vs Robt Arnett, verdict for plaintiff, being the second verdict.

Joseph M. Fordham vs Marietta Fordham, verdict finding for the plaintiff and also removing the disabilities of defendant.

L. E. Price vs Myrtle Price, verdict for the plaintiff.

JOHN BUNNY, WHO MADE MILLIONS LAUGH, DIES

The Most Popular of Picture Screen Comedy Actors

New York, April 26.—John Bunney, whose antics as a moving picture comedian have made millions laugh, died at his home in Brooklyn today. He had been ill for three weeks from a complication of diseases.

Members of his family were with him when he died. For a week he apparently had been on the mend.

A strenuous month of work, it is believed, resulted in his death.

John Bunney was 52 years old. He had been before the footlights twenty-nine years before he entered the moving picture field four years ago. He had leading roles with many old stars, among them Annie Russell. He had attained country-wide popularity as an actor before he achieved his great success on the screen.

Mr. Bunney was born in New York city of English parents and was educated in the Brooklyn public schools and was a clerk in a general store until he went on the stage at the age of 19. In the moving picture world he was regarded for a time as the country's leading comedian and was said to be receiving more salary than the president of the United States. He will be buried in Brooklyn.

There have been anonymous writers who have distributed misrepresentations of the facts, but no two men or women in all these states will assert their own names and addresses, that equal suffrage has produced any bad results.

The evils predicted, have not come to pass, the benefit claimed for it have been secured or are in process of development.

Every person knows that the enfranchisement of the women of the South will enormously increase white supremacy. Quoting the U. S. census of 1914, we find the proportion of white women to negro women and of white women to the whole negro population as follows:

There are 8,788,901 white women in the South and 4,816,565 negro women, less than half—and the white women of the South outnumber the ENTIRE negro population by 494,927. In Georgia there are 210,560 more white women than negro women.

Every person knows that the enfranchisement of women is inevitable. Everybody realizes that the progress of Woman Suffrage like all the great movements in the advancement of the human race, profound, irresistible and vital—is seemingly beyond the power of any human agency to retard or control.

By order of the Legislative Committee of the Equal Suffrage Party of Georgia.

CONTRARY.
Some men want to make hay in February and cut ice in August.—Omaha World-Herald.

SUNDAY SCHOOL MEETING IS OVER

Convention at Americus Was a Great Success—Augusta Will Be Place For Next Session.

Americus, Ga., April 23.—Two thousand Sunday school delegates attending the annual state convention here bade adieu this afternoon. The convention accepted the invitation of Augusta for the next annual meeting. Prominent among the speakers addressing the convention this morning was W. S. Witham, of Atlanta. Dr. Chester W. Daniel, pastor of the First Baptist church of Atlanta, addressed a big assemblage in the pews for separation of state and nation. Other prominent speakers this morning were: Frank M. Etheridge, of Jackson, Ga.; W. G. Irving, of Moultrie; Troy Beattie, of Athens; Harold Miller, of Milledgeville; R. W. Campbell, of Macon; L. C. Hall, of Milledgeville. "The Sleeping Giant" was the theme of an address delivered by J. H. Terrell, of Albany, while Frank James, secretary of Sunday school work for the Christian church in the southeast states, spoke of the necessity of trained leaders. Dr. Jos. Broughton, of Atlanta, presided at the afternoon session. John W. Alexander, of Chicago, superintendent of the International Sunday School Association, addressed an audience of 2,000 in the evening on the subject: "The World's Greatest Educational Institution."

Members of his family were with him when he died. For a week he apparently had been on the mend.

A strenuous month of work, it is believed, resulted in his death.

John Bunney was 52 years old. He had been before the footlights twenty-nine years before he entered the moving picture field four years ago. THURSDAY, APRIL 29, 1915.

Do it today—For its a long,
long way tomorrow.

A jury is to decide on the sanity
of Harry K. Shaw. Who will
decide on the sanity of the jury
when they have passed upon his
case.

That little poem of "April
Showers Bring May Flowers"
appropriately set for 1915 should
read, April flowers that got no
showers.

Quite frequently an editor is
criticized for expressing his opin-
ions. And then he is criticized
for not doing so. Fact is, he is
criticized either way—and both
ways—and just amble along as
blissfully indifferent as a duck
in a summer shower.

Atlanta has a chimpanzee ape
at the Grant Park Zoo that is
learning to talk. His name is
Charlie, and when Charlie says,
"Oo-oo-who-wha," it means that
"I am very hungry." When he
says "Who-wha," it means
"Please go away." When he says
"Un-uh-uh," it means "I am tired
and want to go to sleep." They are
losing a trick over in Atlanta, they
should teach him to say Come to
Atlanta the water is fine, and "We
n yer sleep." What's the matter
with that Rotary Club!

The editor of the Metter Ad-
vertiser got his foot pretty badly
hurt in a job press the other day.
It would not have been as bad as
it was but it is such a long way
from Sills' foot to his mouth, that
it was some time before the latter
heard about the trouble at the
base and could give the signal to
stop—Savannah Press.

Quite different with the editor
of the Savannah Press. Its such
a short, short way from his feet to
his mouth that he could have
squealed before he was hurt.

THE REWARD OF FIDELITY.

That indelicately reaps its reward
regardless of color, creed or race
was publicly shown in an un-
usual manner last Sunday in Au-
gusta at the funeral service of
Robert Young, a negro janitor who
had for more than fifty years been
in the employ of Augusta's vari-
ous city administrations, and thru
his faithfulness and integrity had
served each in a loyal and honest
way. Young was stricken ill and
died last week, and any greater
honor could not have been bestow-
ed upon a white citizen than was
done to this negro janitor when
Mayor Linwood C. Hayne and
members of the city council, to-
gether with practically all munici-
pal officers, attended the funeral
in a body, occupying the front
pews of the church which was re-
served for them. Besides the rep-
resentatives of the municipality,
there were also a number of pri-
vate citizens present, who wished to
express by their presence the high
esteem in which "Bob" Young was
held not only as a faithful and
efficient employee of the city, but
also as a peaceable and law-abid-
ing citizen.

The incident should be taken as
an example by every individual of
the negro race in America who if
following in the footsteps of Robert
Young would soon deplete the
chain gangs of Georgia and make
of themselves citizens worthy of
the recognition that this man re-
ceived when his life's work had
ended.

DOES THE BILLY SUNDAY
METHOD ENDURE

The Rev. Dr. Samuel W. Pur-
vis was one who from the begin-
ning of the Billy Sunday Revival
meetings in Philadelphia very ven-
erably questioned the perma-
nent sincerity of the deluge of
converts that would thru their
emotional excitement follow the
sensational leader in his religious
methods. Since those eleven
eventful weeks of Mr. Sunday's
Tabernacle meetings in the city of
Brooklyn a systematic com-
pilation of records and figures dis-
close the fact nearly one-third of
those converts who "Hit the trail,"
so-called, probably to keep within
harmony with all surroundings,
have fictitious names or were re-
peaters who made various trips
down the saw dust-route.

Backsliding among emotional
converts to christianity is an after-
math to the efforts of a great many
evangelists and is the sad and
lamentable end of the work of
some of these exceedingly good and
Christian men. The more frequent
these evangelistic gatherings under
sensational circum-tance the
greater the number of deplorable
features that follow. When Chris-
tianity and religion loses its digni-
fied reverence in any form in which
it is applied, and becomes com-
mercialized, it loses its power to
perform the functions and teach-
ings of the Bible toward the moral
betterment and up-lift of man-
kind. We are too prone to live in
wordly pleasures and what not
from Monday until Saturday night
and then begin to lengthen our
faces in an assumed solemnity for
the seventh day only.

The Billy Sunday meetings are
not without their good qualifi-
cations in some respects, but from
the vast amount of money involved
and the various sources and chan-
nels thru which it flows coupled with
the ordinary and unelevating as-
sociations that the evangelistic songs
are now applied as popular music
for cabaret dance halls and vaude-
ville artists, there arises in conse-
quence a very grave question at
times as to our zealous Chris-
tian methods.

Billy Sunday reminds us of the
methods of the acrobatic Giuseppe
Crotore, the band master, who
when he realized that the Ameri-
can public wanted to be amused,
started to amuse them with his
hair waving and circus stunts that
for a time brought in the shekels
galore but the public did not care
for it as a steady diet and the band
master's return concert tours did
not net the financial results that
were hoped for; the real earnest
music lover wanted the work of
the dignified student interpreter
and the sensational was relegated
to the background.

A HEINOUS OFFENSE
(From the Savannah Morning News.
Editorial.)
If it is true that the two fires in
the forty-fourth district of Bulloch
county, one of which destroyed the
school building there two
weeks ago and the other the
dwelling to which the school was
removed, were the work of incendi-
aries, there is somebody in that
county who ought to go to the
penitentiary for a long term.
There is nothing that can excuse
the intentional burning of a school
building, and yet in the last few
years there have been at least two
or three fires in Georgia in which
school houses were destroyed, it
was thought, by incendiaries. In
addition to the fact that such ac-
cuses a decrease in community
assets, they tend to deprive chil-
dren of their right to receive at the
hands of the state the foundation
of an education. Arson is a seri-
ous crime under any circum-
stances, but when its victims are
school children it is particularly
reprehensible.

Admiral Peary asserts that a
hundred years hence the United
States will either be obliterated as
a nation, or we will occupy the
entire North American continent.
In either case, it won't worry us a
particle—a hundred years hence

THE MERCHANT AND
THE COMMUNITY

Fifty years ago the town
merchant sat in his store
and waited for business to
come to him.

Today the successful mer-
chant is a hunter—he must
go out gunning for cus-
tomers—and his ammu-
nition is his stock in trade and
his gun is the local news-
paper.

Country people of today
are as intelligent and up-to-
date as their city cousins,
and they gauge the mer-
chant by his own actions.
If he is a hustler—if he
keeps his store clean, his
goods neatly displayed, his
advertisement running regu-
larly in the local paper—
he attracts the public eye,
and the public follows its
eye.

But a clean store, neatly
displayed goods and news-
paper advertising are not
the only requisites to a suc-
cessful mercantile career.
The country merchant
should not bank too much
on the fact that he is a nec-
essity.

He should be progress-
ive—constantly bidding for
trade—devising means of
bettering the condition of
the consumers, and ac-
quainting them of the fact.

He should consider their
welfare, as well as his own.
The merchant should
have one iron creed; and
that creed should never be
broken. He should treat all
customers alike, never mis-
representing his goods, and
keep his shelves well
stocked with truth.

He should be considerate
of other business men in
the community, for their
rights are as great as his
own. They do not own the
town, and neither does he.
He should join whole-
heartedly in movements for
building up and expanding
the business interests of the
community, for success is
only found in the topmost
round of the ladder.

The merchant who has
built up a reputation as a
public spirited man, as one
who labors for the well be-
ing of the whole commu-
nity, never lacks for cus-
tomers at his store.

They migrate toward his
door as naturally as the
birds fly south in winter.
Some merchants gain the
confidence of the people, for
the people know that the
same intelligence and fair-
mindedness which he ex-
erts in behalf of the com-
munity will be extended to
his customers in commer-
cial life.

Statesboro is located in a
splendid community, and
has the brightest kind of a
future ahead of it.

But it depends upon us
alone.

Our citizens are well sup-
plied with brains, and those
brains are capable of ac-
complishing great results.

Individually we can do
much, but collectively we
can revolutionize trading
conditions of the commu-
nity.

The money that is being
daily sent away for goods

JUST Phone 152 AND
THE MAN WILL CALL

might just as well be spent
at our local stores—and
would be, if the merchants
arose to the opportunity be-
fore them.

It is the easiest thing in
the world to keep the money
at home, for consumers
are not fools.

Just keep the goods the
people want, and of the
quality they want.

Sell those goods at a fair
margin of profit, thereby
competing in quality and
price with the outsider.

Then advertise persistently—
keep the home goods
constantly in the mind of
the consumer—awake him
to the fact that it is as much
to his interest as it is to
yours to keep his money in
circulation at home.

When you CONVINCED
the consumer that he
HAVE the goods that he
wants, and that they can
be purchased here JUST
AS CHEAPLY as elsewhere
he will keep his money at
home BY TRADING AT
HOME.

The people WANT a live
community, and are willing
to SUPPORT live business
men.

IT'S TIME TO ORGA-
NIZE A CHAMBER OF
COMMERCE, A CLEAR-
ING HOUSE FOR STATES-
BORO MERCHANTS.

Did you ever notice the fidelity
of a good dog? An object lesson
to some men.

We commend the modesty of
Jesse Willard. He declines to usurp
the whole front page.

Failure to ADVERTISE is
about like setting a bull dog on a
customer at your store door.

A Card to My Patrons.
To My Friends and Customers.

Since the closing of the door of
competition in photography in
Statesboro, reports have become
current that my prices would be
increased. To this I wish to
stamp A POSITIVE DENIAL.

There has been and never will be
any change whatever in the scale
of prices that has been in effect
since I have been in business in
this city. Regardless of a CLEAR
FIELD or COMPETITION, I
quote to the public the LOWEST
PRICES possible compatible with
satisfactory work to be given my
customers. Signed,

RUSTIN,
THE PHOTOGRAPHER.

I Ever Caused to be Published.—Read
Every Word—And Then Marvel

On a personal visit to Mr. Henry Ford, I broached
the subject of a possible August 1st rebate.

"Mr. Ford," I suggested, "Is there anything I can say
to our people with regard to the Ford Motor Company's 300,
000 car rebate plan?"

"We shall sell the 300,000," was the quiet reply—"and
in 11 months, a full month ahead of August 1st!"

"Then a refund is practically assured?"

"Yes—barring the totally unexpected. We are 50,000
to 75,000 cars behind orders today. Factories are
sending out 1800 daily."

I then said to Mr. Ford: "If I could make a definite
refund statement we would increase our local sales 500 cars."

"You may say," was Mr. Ford's deliberate and signifi-
cant reply to this—"You may say that we shall pay back to
each purchaser of a Ford car between August 1, 1914 and
August 1, 1915, barring the unforeseen, the sum of \$50.
You may say that I authorized you to make this statement!"

superintendent's
Talks to Schools

Subjects of interest to the
teachers, pupils and patrons

The most successful box supper
season was the one given by
Kate McCorkle, teacher of
lines school that has twice
destroyed by fire. We got
out in the public road and
ended with the evening's en-
tertainment. The net results of
was \$112 cash, raised for
the purposes.

Teachers will not forget that the
Saturday, next Saturday, is
for the Teachers' Institute.
The same program form last
year will be rendered this meet-
ing every teacher be present
ble. Too, this will be pay-
those who are due an ac-
knowledgment.

On May 7th Prof. J. J. Zetter-
over, Jr. will give a box supper
purpose of raising funds for
improvements. The young
ladies of the community are in-
vited to the occasion. Of
course, the men are invited, too,
and it is hoped that the meet-
ing will be a success. Will
meet at 7:30 Friday night.

The addition to the Mill Creek
school has been completed, now
placing this school among the best
in the county. Prof. C. M. A.
best has worked a very hard day
and receiving the co-operation of
the patrons and friends of the
community has made this im-
provement in the face of hard
times and war. All concerns ed
to be highly congratulated in this
splendid achievement.

About seven schools closed last
Friday with appropriate ex-
ercises. Those to close are Clito, Bragg,
Ivanhoe, Brannon, Central. Only
a few more weeks now and all the
schools will end for the term.
School closings will be the order
of the day for the next month.

Prof. Duggan spent Friday in
Statesboro on important official
business. He expressed regret
that he could not meet his many
friends again while on this visit.

It will probably be a good long
time before we will be able to have
him with us again. The Bulletin
of the Educational survey is now
on the press and will soon be
placed in the hands of our citizens.

The second day's inspection of
schools by the board.
First school on Thursday by the
board was the Sand Fork school.
They expressed themselves as be-
ing well pleased with the progress.

MISS LEONA GROOVER, Teacher.
Presbyterian Church, Sunday
May 2, 1915.

10 a. m.—Sabbath school.
11 a. m.—Preaching.
Subject for the morning sermon
—"The Conversion of a Sinner."

No evening service because of
services at the Primitive church,
where the co-gregation is asked to
worship.

Let every member of the Sunday
school bring a new pupil, and be
in place at 10 a. m.

Baptist Church

Next Sunday is Roll-Call and
Covenant day at the Baptist
church. Each member is expected
to answer to his or her name.
Come and bring another member.

Sincerely,
J. F. SINGLETON, Pastor.
April 26th 1915.

Dyspepsia is America's curse.
To restore digestion, normal
weight, good health and purify

For the Country Girl

From the Atlanta Constitution.

No advance movement in federated club work is more significant than the organizations being formed for the country girls. The farmers' daughters are beginning to recognize the fact that they are a part of a large social class that has worth and dignity; that their work is honorable and their future promising, and that the country has attractions that are peculiarly its own, and together they will discover and enjoy them.

Attention devoted by the United States government to the welfare of the agricultural classes is ever increasing. The farmer is taught the best means of crop cultivation by lectures, demonstrations and bulletins. The farmer's wife profits by her share of the instruction. And now the farm girl comes in for her share of the attention, and clubs are rapidly being organized for her benefit.

When the well trained girls are persuaded to stay on the farm many of the problems that confront rural home life will be solved, especially those regarding the boys.

Last year more than 50,000 girls were enrolled in the garden and canning clubs of the United States. Think of the number of girls made happier themselves and more valuable to this and the next generation through this great work, and contrast with the 50,000 girls claimed by the "great mysterious world of oblivion"—50,000 who simply dropped out of existence! We can safeguard the girls by giving the active and intelligent occupation for their hands and brains; by cheerful and comfortable homes, and recreation of a suitable kind. Give them a wholesome viewpoint from which to look at life; from this viewpoint will come a wholesome living that will insure the greatest contentment and satisfaction that this life has to offer. In the country club organizations the girl learns to work systematically and scientifically. Take, for example, the raising of tomatoes; she will learn to manage a hotbed or cold frame; she will learn the best variety of tomato to grow, how to plant, cultivate, spray, fertilize, stake and prune. She will learn about the soil and the length of the tomato season; how to harvest her crop, how to sell, and the best method of preserving her surplus crop for winter use. Finally, through association with other

girls in the canning club, she will learn confidence in her own abilities, expression and accuracy.

After such training no girl wants to go back to the old haphazard way of doing things. Her mind will have a discipline that will enable her to choose what she should do, concentrate her thoughts upon her work and use her intellect as well as her hands to such advantage that her work must be successful.

The giving of rewards in country club work is most commendable, as it not only stimulates a girl to do her best, but can be a means of further education. Cities are becoming more and more interested in the work of the rural communities, encouraging the workers by arranging places of exhibit, supplying money for prizes and co-operating with the federal state agents in the advancement of the work. Interesting trips and scholarships at colleges are rewards worth contending for.

We do not know what powers lie dormant in the minds of our girls until we try to develop them. The isolated life of the country tends to individualism that retards the growth of a girl's intellectual and social nature.

Country club work is the remedy for this. It gives something for a neighborhood of girls to have in common; sociability is created and fostered by meetings where plans of work and methods are discussed; the good natured rivalry inspires and stimulates a desire to excel. Together with the country club, the telephone, parcel post, electricity and good roads will give the farm girl equal advantages with the girl in the city. Outdoors work teaches a girl to rely upon herself and her own resources, and if she is working toward independence, gives her the ability to be self-sustaining by opening up a way for her to work out her ideas. Every idea seeks to realize itself in action, and the club work is profitable in ideas. The girl will grasp them and carry on her work, first for the pleasure and profit of it, and then because she realizes that through it she is serving her fellow-beings.

Those who are promoting country club work say that it is difficult to get the country girl to take the initiative and push the work along. There is plenty of natural ability, but because of lack of training in that direction

there is a hesitancy to assume the responsibility of organization and management of a club.

Once started, clubs develop a working leadership. The best way to bring out this quality is to make the farm girl feel her importance to the community of which she is a part. Let her learn through federation that some of her life should be devoted to the welfare and social uplift of her neighborhood.

Such an influence in a community will have a tendency to give an uplift of soul, and a sense of joy and satisfaction in life worth striving for.

Through organizations for the country girls the best yet to come in agriculture and industry, economics and thrift, education and civics.

About Georgia and Georgians

Items of Interest Concerning People and Things in the State

Atlanta, Ga., April 28.—Georgians may have an opportunity to see the famous Liberty Bell, emblem of the birth of national independence, without traveling either to Philadelphia where it is kept in Liberty Hall, or to San Francisco where it will be taken for exhibition at the Panama Pacific exposition.

Local chapters of the D. A. R. and the U. D. C. are untiring in an effort to have the Bell brought to Atlanta and exhibited for a day on kits day across the continent, so that everybody, and especially the school children, can see it.

Atlanta, Ga., April 28.—Georgia Masons are very much interested in an article which has appeared in the Annuity Messenger, telling of how a citizen of Latvia with the Masonic sign saved fifty of his fellow citizens from being shot to death by German troops.

The group of citizens, of whom the Mason was one had been lined up before the firing squad, when he gave a Masonic sign. It happened that the officer of the firing squad was a member of the order, and the entire group was released. The Annuity Messenger also carries the interesting fact that the Masons' Annuity, which aids the widows and orphans of Masons, has paid out up to January 1, 1915 nearly six hundred thousand dollars, and has assets of over eight

hundred and twenty thousand.

Atlanta, Ga., April 29.—Senator Hoke Smith's confidence in the immediate outlook for better conditions in the South, expressed on his recent trip to Atlanta, has done much to encourage the feeling in this section that hard times are over in Dixie whether the European war keeps up or not.

"The dangers which hung over us last August in a commercial way, caused by the war, have been removed," said Senator Smith, "and our foreign trade is steadily increasing. The balance is now in favor of this country, and our domestic trade is taking on new force and vigor as a result of changed conditions."

"We may well look forward to the coming year with hope and confidence. If the war ends this fall, next year should be one of the best years in the history of the country, and even if the war does not end, our business has been so adjusted to changed conditions that prosperity is assured."

Senator Smith also called attention to the fact that the federal reserve banks have been a great boon to the country, and to the south in particular.

Atlanta, Ga., April 29.—The "buy at home" movement which has attracted attention all over the

south is being indorsed by practically every community large and small in Georgia and surrounding states. It does not mean "buy in Atlanta," unless you live in Atlanta. It means patronize the merchants of the town where you do live.

It is an all-southern movement to keep southerners from sending their money for hats and shoes and agriculture implements and articles of every day use to some mail order house or through some agent which takes the money completely out of circulation so far as your own money is concerned.

The movement urges the individual to buy at the general store if he lives in a village or rural community, to buy in his home stores if he lives in Newnan or Griffin or Jackson rather than to come to Atlanta; to subscribe to the local paper; to advertise in the local paper where you live; to support local institutions and help the people who are a part of the community and who in turn make up the sum total of prosperity or lack of prosperity which reacts upon every individual.

Atlanta, Ga., April 28.—Mrs. C. N. Elliott who gave her husband a buttermilk shower bath because she didn't like his looks, and who is now suing him for alimony, was following a classic method of improving him, though she probably didn't stop to reflect on it when she dashed the pitcher of milk in his face.

Cleopatra, the famous beauty of the Nile, was accustomed to bathe daily in the milk of wild asses, whole droves of which were kept to provide it. Caesar Borgia, the famous Italian cardinal of the middle ages, was accustomed to bathe in milk, on the advice of his physicians, to ameliorate a fiery skin disease from which he suffered in the spring of every year, and he medical properties of milk as at bath have been recognized by the ablest physicians from the time of Galen to Woods Hutchinson.

The husband, J. R. Elliott, however, failed to take this calm and scientific view of his wife's act, and filed a suit for divorce, which has now resulted in the cross bill for alimony.

Bilious? Feel heavy after dinner? Bitter taste? Complexion sallow? Liver perhaps needs washing up. Doan's Regulator for bilious attacks. 25c at all stores.—Adv.

STIRRING TALES OF EUROPEAN WAR PORTRAY ACTUAL COMBAT

Riderless Steeds at Night Stop on Hearing the Rattle of the British Rifle Bolts.

APPENDIX are human interest stories from the battle front in Europe. They depict actual scenes on the firing line.

"Papa Was Very Sad!" The Revue Bleue prints the diary of a German sergeant major who had charge of the telephone service in the Verdun district, in which the following telegram sent by the German crown prince to his wife on Sept. 3 was preserved:

After a hard fight we have forced the possession of the Meuse, always finding the enemy fortified in new positions. This means terrible losses, but we advance. Now, last night at Marville, was very sad. Von Wiedel has been killed. Stony is beautifully situated, but has been severely treated. I am staying at a pretty house belonging to an old lady. Remembrance. GULLAGHER.

Horse Sense. A remarkable instance of horse sense when a number of riderless steeds, broken loose in the night, ignored a challenge to halt, but stopped on hearing the rattle of rifle bolts, is related in a letter from the front.

"We were on patrol along a dark road way," says a British trooper, "when we were startled by the thunder of hoofs. The sound of galloping came nearer and nearer down the road until the

the outskirts of the town I found shelter in the home of a Jew, who concealed me in a snug little corner on the roof until nightfall. A Polish peasant nearby supplied me with civilian clothes and I was thus enabled to continue on my journey to find my regiment. I had no shoes and marched from village to village in my bare feet. Finally I came to Fryszak, where I was again befriended by a sympathetic Jew, who gave me shelter and something to eat.

"Twice I was arrested by Russian soldiers as a spy, but I was fortunate enough to prove that I was a Galician farmer suffering from tuberculosis, who was working in the snow for the benefit of his health. Of course, the many hardships had left me very much emaciated, so that I really did look as if I had consumption. I passed through Jasko and Delin and finally reached Laskiska, but everywhere there were Russians, and it did not seem as if I would ever pass through their lines. "So I tramped back again to Dulka and from there returned again to Jasko. Finally I fell in with an old gentleman who was traveling to Hungary on a Russian passport, and I went with him as his valet, reaching the frontier in safety.

"I reached my regiment after another two mile walk in the snow and was able to report important information on the situation of the Russians, so that, after all, my being taken a prisoner was a blessing in disguise."

A Gallant New Zealander. Cecil Humphries, a New Zealander, has won the double distinction of gaining the distinguished conduct medal and of being promoted from private to sergeant on the battlefield.

He was on a visit to London when the war began. Joining the army service corps as a clerk, he was made a corporal and shortly afterward a sergeant before he was sent to France. Humphries' ardent desire to "have a go" at the enemy prompted him to apply for a transfer. By forfeiting his stripes

FREEMAN HARDISTY RE-
CEIVES APPOINTMENTAs Official Representative of
I. O. School of Scranton,
Pennsylvania

Manager N. H. Vaughan, of the International Correspondence Schools, who conducted an exhibit here last week for that institution, has officially appointed Mr. Freeman Hardisty, one of their wire students, as student representative in Statesboro and vicinity.

Mr. Hardisty has been appointed on account of his sterling qualities. He has been a successful student, receiving a high percentage on all lessons sent in to the expert instructors for correction.

Manager Vaughan, after making a thorough investigation, found that the business men of Statesboro, not only recommended Mr. Hardisty very highly, but informed him that he had made a wise selection for this appointment.

Any who are interested in a course of instruction through the I. O. S. will please see or communicate with Mr. F. R. Hardisty.

EVER WATCHFUL

A Little Care May Save Many
Statesboro Readers Future Trouble.

Watch the kidney secretions. See that they have the amber hue of health. The discharge not excessive or infrequent. Contains no "brick dust like" sediment.

Doan's Kidney Pills are especially for weak kidneys. Let a Statesboro citizen tell you how they work.

Mrs. Horace Waters, 91 E. Main St., Statesboro, says: "I have given Doan's Kidney Pills to one of my sons who had been bothered by kidney weakness since childhood. He had very little control over the kidney secretions and it was a constant source of annoyance both to him and me. A short time ago, Doan's Kidney Pills were brought to my attention and they were used. They strengthened his kidneys and made him stronger. I believe that Doan's Kidney Pills will eventually rid him of the trouble."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Waters recommends. Foster-Milburn Co. Props., Buffalo, N. Y.—Adv.

STATESBORO TO HAVE NEW ICE
DISTRIBUTING PLANT

Statesboro-Millen.

With apparent defeat staring them in the face at the end of the first inning of the Statesboro-Millen ball game Tuesday, our home team won from Millen 14 to 11 after the gamut up hill fight of base ball that has been witnessed in many summers. Visibly smothered by a grim lead of eleven runs in the first, dismay was plainly stamped on the face of every member of the Statesboro team; errors galore and rank misplays seemed to be the order of the day with the Statesboro boys, but in the beginning of the second inning they gained their equilibrium and by first class air tight ball playing carried the victory they gained in the final test.

Excitement reached its greatest height in the seventh inning when with two men out and two on bases, a double right field by Denmark tied the score. Davis followed with a single which won the game for Statesboro. This is the kind of ball playing Statesborians will support. Let's help the home team to a good ball park.

KILLS HIS WIFE IN SAVANNAH HOSPITAL.

C. D. Burke, of Millen. Afterwards takes Carbolic Acid and Shoots Himself—Probably Insane.

(From the Savannah Morning News.) Savannah, Ga., May 4.—Driven insane by what is believed to have been domestic trouble, C. D. Burke of Millen, shot and instantly killed his wife, aged 35, in Savannah Hospital, shortly after noon yesterday, and then shot himself. Believing the last shot he fired was not effective Burke drank a portion of carbolic acid from a bottle he had obtained for the purpose. He probably will recover.

An operation was performed at night on Burke, from which he rallied. He regained consciousness after the shooting, when he denied absolutely he had shot his wife.

When asked why he did it he said:

"Did what?"

"Why did you kill your wife?" he was asked.

"Me! Kill my wife! I didn't do that, did I?"

When told that he did, he said, "Not me. That would be terrible."

To other questions asked him along the same line he made practically the same reply.

The Burkes had been visiting their daughter, Miss Inez, who has been ill at the hospital for ten days. Burke said to his wife, according to a statement of his daughter to the police: "You've ruined my home." He then walked out of the room, saying, "Come."

As his wife walked out of the door Burke opened fire with a 32-calibre revolver. The first shot pierced her heart, causing instant death. Crazy by the sight of his wife stretched out on the floor, Burke fired three more shots into her body, all taking effect near the waist line, one on each side and one near the center of the body.

Deliberately walking into the room, with the pistol still in his hand, he faced his helpless daughter, lying in the bed. Evidently he intended to kill her, but she said: "Why did you do it?"

The question probably caused Burke to waver in his determination to kill his daughter.

He again walked into the hall, shooting himself through the left side and, it is thought, at that time drank the contents of the bottle. He fell by the side of his dead wife. Sounds of the shooting, together with the screams of the daughter in her room, attracted the attention of the attendants of the hospital and the patients.

Police headquarters were immediately notified, Lieut. Bryant, Chief Detective Murphy and Motorcycle Officer Morse answering the call. Dr. Highton, the coroner was called. The hospital attendants, when they ascertained Burke had taken the acid, used a pump in taking the fluid from his stomach. It was then thought he would die. Bicycle Officer Dorsey heard the shot and started an investigation.

Dr. Highton examined the body of the dead woman, after which he ordered it removed to an undertaker's where it was prepared for burial.

The only interview obtained from the daughter was that by the police. To them she said jealousy was the cause of the shooting. She told them she knew there was a man in the case, but refused to mention his name although stating she would do so if she were

W. M. N. OF BULLOCK COUNTY ASSOCIATION

At Olive Branch Baptist Church May 29th

The W. M. N. Association of Bulloch county will convene Saturday May 29th at Olive Branch Baptist church at 1:30 P. M. All members are earnestly requested to attend as several interesting subjects will be brought forth and ably treated. The following program has thus far been announced:

Devotional Exercises, led by Mrs. J. M. Pope.

Roll call of societies

Enlargement of Our Training Schools—Mrs. H. S. Blitch.

Mary P. Willingham School—Mrs. H. B. Strange.

Our Baptist Hospital—Miss Mattie Cone.

How to Make the Society Meetings Interesting—Mrs. H. M. Geiger.

General Discussion and Address.

compelled to testify in an inquest or court proceeding.

While in the hospital the daughter became a mother of a boy. Asked by the police if the father knew her condition she replied that he did but had never worried about it.

Burke is a contractor and carpenter at Millen and his wife assisted by her daughter, kept a boarding house there.

Miss Burke arrived in Savannah Sunday spending the night with her daughter. Burke arrived early Monday morning. He first went to the home of his brother-in-law, D. A. Murray, No. 218 Huntingdon street, west, to inquire for his wife. He was informed she had gone to the hospital again.

Burke promised to return with his wife at 1 o'clock for dinner. He then left for the hospital. While there he talked with his wife and daughter after which he and his wife took a walk in the park. What took place there is not known though it is thought they were discussing their family troubles.

They had only been back in the daughter's room a short time when Burke made the statement about raving his home and called his wife into the hall. Circumstances surrounding the shooting shows Burke deliberately planned the tragedy with the full intentions of killing both his wife and daughter and then end his own life.

He purchased the carbolic acid at a drug store shortly after he reached Savannah. He also bought a bottle of grape juice. He said he wanted to use the acid to wash out the mouths of his dogs. Nothing was thought by the clerk at that time of the purchase.

Mrs. Thompson, of Allenhurst, a patient at the hospital, was in a small room at the end of the hall when the shooting occurred. She heard the four shots fired and thought they were all the pistol contained. She waited then stepped out into the hall just as Burke fired the fifth shot into himself. She screamed and ran into her room.

D. A. Murray, brother of Mrs. Burke, was walking along the street when he overheard two women discussing the shooting. He heard the name Burke. He stopped them and when he found it was his sister he went to his home where he notified his wife after which he went to the Savannah Hospital. He said he did not know of any strained relations

between his sister and her husband.

Besides her husband and daughter, Miss Inez, Mrs. Burke is survived by two daughters, Leta and Idell, and one son, Waldon, all of the home, one sister Miss Irene Murray of Millen, and three brothers, D. A. Murray of Savannah, and Elbie and Carl Murray whose present addresses are not known by members of the family.

The body was prepared for burial at a local undertaking parlor after which it was sent at night to Millen where the funeral will be held today. It was accompanied by William Burke, brother of the man who did the shooting and D. A. Murray, her brother.

Excitement in Millen Over the Circumstances

Millen, Ga., May 3.—Mrs. Corrie B. Burke, who operated a boarding house here, left for Savannah Sunday morning to visit her daughter Inez, who is seriously ill in a hospital there. Her husband left this morning for the same purpose it was supposed at the time of his departure.

There was no suspicion attached to his visit to Savannah. Members of the family when approached about the shooting or any motive they think might have caused it. It is the general opinion here that family troubles caused Burke to kill his wife. Mr. Burke was a contractor and carpenter and well

known in Millen.

The dead woman's father, Mr. Murray, who has been ill at Millen, died Tuesday at his home. The body will be brought to this place and a double funeral will be held Tuesday, the father and daughter being buried at the same time. Much excitement was caused in this town when the news of the shooting reached here as none of the residents had any idea there would be such serious end to any troubles the Burkes might have.

Savannah, May 5.—C. D. Burke who killed his wife Monday, died last night as the result of a self-inflicted wound and the carbolic acid he drank in the effort to kill himself. He rallied from an operation performed Monday night but grew worse Tuesday afternoon when hopes for his recovery were abandoned.

Officer H. H. Price who was placed as a guard over Burke Monday night talked to him during the night. He asked him why he killed his wife also if he wanted to see any of his relatives. Burke replied he did not kill his wife and did not care to discuss her. He also requested that his father be notified of his condition.

Burke is believed to have been insane at least while doing the shooting. He was guarded while in the hospital by police as the police did not care to take a chance of his making his escape.

The body will be taken to Millen for interment. Burke is sur-

FOUR-YEAR-OLD CHILD RUN OVER BY STREET CAR

Margaret Elizabeth, daughter of Hon. R. J. Travis, of Savannah, Killed

Savannah, Ga., May 4.—Margaret Elizabeth, the four-year-old daughter of Col. and Mrs. R. J. Travis, was run over and fatally injured by a car on the A. and B. belt at Fortieth and Drayton streets shortly after 6 o'clock last night. She died in Telfair Hospital an hour after the accident.

The little girl was horribly mangled. The right front truck of the car passing over her left hip, literally grinding it to pieces. The lower edge of her stomach was also crushed. A trained nurse was standing at the corner of Drayton and Fortieth streets waiting to board the car. She gave the child first aid treatment.

A physician who was summoned arrived in ten minutes after the accident. He took the child in his automobile and rushed her to the hospital. The extent of the injuries being determined, the physicians realized that the little patient had only the barest chance to live. She was given every attention, but she could not be saved. She was conscious from the time of the accident until she died.

There has been much talk about a large new German gun, such as 80-centimeter (19.4-inch) and 55-centimeter (21.6-inch) guns of a howitzer type, calculated to shoot twenty-five miles, but ordnance experts here say that weapons of such a calibre and type would not be used in twenty-five mile firing. These men insisted upon it that the weapons used in the attack on Dunkirk were of no greater calibre than twelve inches. The latest German guns of this calibre could easily cover the distance from the German line to Dunkirk if fired at an angle of 45 degrees.

The United States has coast defense guns which exceed the range at which the German guns are supposed to have been fired. The guns are the latest American model, and they could duplicate the German feat, if mounted on carriages so constructed as to enable the weapons to fire at an angle of 45 degrees.

Elaborate computations of what might be accomplished by firing American weapons at an angle of 45 degrees have been worked out.

Plotted on a diagram arranged in blocks 5,000 yards to the inch, the lines, representing the trajectories of these American 12-inch coast defense weapons, the one of 55,000 yards range, the other of 41,000 yards range, and both fired at the high angle of 45 degrees, appear colossal when compared with the trajectory of the best American mortar fired at the same angle.

The range of this mortar gun, when fired at 45 degrees, would be 19,000 yards, or nearly 11 miles, and the highest point of its trajectory would be 5,500 yards, or about three miles. The trajectory of the 12-inch coast defense, having a range of 55,000 yards, is four times higher, and the range is almost three times greater than that of the mortar gun fired at the same angle.

Such long range firings was accomplished in the attack yesterday on Dunkirk could not be done by weapons like the German 42-centimeter gun, which is primarily a howitzer and has a short muzzle. This long range firing could only be accomplished by high power naval or coast-defense guns, built primarily for direct firing and for penetration through hardened steel armor at long ranges.

The German 42-centimeter guns have a range of about 19,000 or 20,000 yards. The trajectory of missiles fired from them more nearly resembles that of mortar firing.
