# ONE NEGRO SHOT; OTHERS CLUBBED

Saturday Night Disturbance Resulted Seriously for Blacks.

A lively and exciting scene was witnessed on the streets of Statesboro Saturday evening when two or three negroes departed from their "good behavior," and as a result Charlie Robinson was sent to the hospital from the effects of a pistol shot, fired by policeman Rahn, and several others have knots on their heads from the effects of sticks and clubs.

The trouble is said to have started when A. K. McLenore, one of Statesboro's well known citizens, attempted to collect an account from Tom Moore, colored. The negro had a large stick in his hand and attempted to use it on Mr. McLenore, but left without carrying out his threat. Later in the evening O. L. McLenore, one of the brothers, went with policeman Rahn to the home of the negro and had the negro locked up. After he was put in jail Mr. McLenore and officer Rahn were returning to the business section when Charlie Robinson, colored, met the two white men and jumped on Mr. McLenore. The negro is said to have had a knife in hand and a lively scuffle followed. They became separated and it is said the negro threw a large stone at Mr. McLenore, knocking his hat off. The negro then turned and was shot, the ball taking effect in the right kidney. He was taken to the hospital for treatment.

Later another negro was arrested and as he was being taken to jail some of his relatives attempted to interfere. One negro walked up with a hand in his pocket. That hand was grabbed and when taken out was gripping a knife. Instantly he was knocked to the ground by a bystander and as he got up he felt another blow on his head. He made his escape, but later returned when all was quiet and had considerably to say to one of the policemen. He was advised to go home, but his mouth finally got for him another blow on the head with the policeman's club. He got up and continued to "chew the rag," and was knocked down again. He then took the policeman's advice and went home.

A little later a policeman and a citizen were standing on the sidewalk talking when a negro came riding down the sidewalk on a bicycle, which is against the law, and ran over the citizen, knocking him down, and running the wheel between the officer's legs, when with out warning a club was laid with heavy force on the back of his head, knocking him down, and as he rose from the front of his head met the club half way. He jumped on his wheel and rolled away.

**Negro Shot By Officer Dies.**  
Charlie Robinson, the negro who was shot by Policeman Rahn Saturday night, died Monday night. The negro was shot by the officer while in a fight with O. L. McLenore. It is claimed he had a knife in his hand and threw a rock at Mr. McLenore, knocking his hat off, and as he broke away was shot. He was buried Tuesday morning.

## TIME TO ACT

Don't Wait for the Fatal Stages of Kidney Illness. Profit By Statesboro People's Experience

Occasional attacks of backache, irregular urination, headaches and dizzy spells are frequent symptoms of kidney disorders. It's an error to neglect these ills. The attacks may pass off for a time but generally return with greater intensity. Don't delay a minute. Begin taking Doan's Kidney Pills, and keep up their use until the desired results are obtained. Good work in Statesboro proves the effectiveness of this great kidney remedy.

Mrs. M. G. Scarborough, Statesboro, says: "One of the family had backache and dull, nagging pains across his loins. The trouble bothered him mostly while at work, which caused him to stand in great pain. Doan's Kidney Pills were recommended to him and he got a box. They rid him of the aches and pains and I have not heard him complain since."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Scarborough recommends. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

## SON SHOTS FATHER; CLAIMS SELF DEFENSE

Lawrence Connolly Probably Fatally Wounded By Bill Connolly

Lawrence Connolly, one of the oldest citizens in Bulloch county, was shot early yesterday morning by his son, Bill Connolly, news of which reached Statesboro a few minutes after it occurred. The families live together in the father's home about five miles west of Statesboro, and it is understood that ill feelings have existed between the father and son for some time. The father is 80-odd years old and the son 38.

Just what brought on the tragedy is not known but it is understood the son claims self defense; that his father had a gun, and even after he had been shot chased him around the house and then went in the house and abused the son's wife. Up to this time no arrest has been made. It is understood there were eye witnesses to the shooting who openly declared that the son shot the father in self defense.

The son used a shot gun, emptying a load of bird shot in the father's right shoulder. The first news that reached Statesboro was that the father had been killed, but it was later reported that he was probably fatally wounded. The Connollys are well known in Statesboro and the section in which they live.

The genuine Palm Beach suits are sold at \$4.98 at M. Seligman's—Adv.

## Announcement.

Garfield, Ga., May 15.—I wish to inform my former patrons and friends of Port and surrounding community that I will resume my regular weekly appointments at Port office. You will continue to find a neat and sanitary office for your accommodation. I guarantee all my work to be satisfactory, and give special attention to, and apply modern methods in the treatment of loose, spongy and bleeding gums.

Respectfully,  
E. N. BROWN, D. D. S.

**Child Badly Burned With Carbolic Acid**

The little son of Mr. and Mrs. Hugh Dougherty was the victim of a painful accident a few days ago. Mrs. Dougherty had gone to a neighbor's home and left the children playing on her piazza just across the street. In the meantime Mr. Dougherty had sent some carbolic acid to his home and the little negro boy handed it to the children. The little son opened the bottle and the contents were spilled over him. The little fellow was blistered about the arms, stomach and legs and suffered considerable pain. For two or three days the little one was unable to walk.

## Superintendent's Talks to Schools

On Subjects of Interest to the Teachers, Pupils and Patrons

The Enterprise school closed last Thursday with a splendid program by the children of the school. Quite a large crowd were in attendance to do credit to the occasion. A dinner such as the good wives of the farmers of Bulloch county can prepare for such an occasion. Prof. Rowan was present to deliver an address in the afternoon on the main cause and put him out just as he was making ready to deliver his address.

The Pretoria school closed last Friday with a very interesting program which took all the forenoon to render. Many beautiful songs and interesting dialogues were rendered. Miss Annie Mae Alderman gave some beautiful selections in the way of piano music. Rev. J. F. Singleton was the orator for the afternoon. He gave a very able and instructive talk just before the crowds were dismissed. More dinner than "John saw"—enough to feed the multitudes and then fill many baskets. This occasion will long linger in the hearts of the children and friends of this good school and community.

Next week will be a week of school closings. By the end of the week, the term for the year of 1915 will have been history. We feel like we have gotten some real good results from this year's work. Our teaching force have been worthy of their hire. We thank them for their faithful efforts. Some time they will look back and see that as the result of their labors much good has been accomplished.

On the 22nd inst. an interesting program will be rendered at the famous Smith, Allen and Deal school near Statesboro. This entertainment will be worth seeing. Prof. VanOsten will render the musical part of the program which of itself is a forgone conclusion that that part will be worth while. Let every one go out and enjoy this evening's program.

The box supper given by Miss Leona Groover, teacher of the Emitt school on the evening of the 15 inst., was a success. The sum of forty dollars was raised for the purpose of placing in the school a library. This will be added immediately.

The next meeting of the board of education will be the first Tuesday in June which is the regular quarterly meeting. This will throw our next pay roll a little late. Remember that the next pay-roll will not be ready until after this meeting, and in the meantime get your annual reports properly filled and filed in this office, or you will find that you will be irregular and that you will be put to the trouble of waiting indefinitely for your cash. Too, that school register must be properly filled and filed as before requested.

Will be ready to give you a free exhibition at your school during the months of June, July and August. Will show to you our schools as they were found when the educational survey was made by Prof. Duggan. If you will arrange the date and get the advertising matter well distributed, I will be pleased to come to your school and show these pictures and give with it a lecture, using slides, on sanitation and kindred topics.

## Some More of That New Religion

Times change and people change with it, but true religion is the same today as it was in the days of long ago, and we should be happy to know that there is still much of it in our world.

A few days ago I read an account of a great revival in a certain town in Georgia where the preacher stressed the importance of rectifying all wrongs and there was a hustling around among the people paying up old debts and righting other wrongs. I suppose those people had taken a dose of the old time religion.

I also read sometime ago where a man had received a check from another man, saying that he had once stolen a chicken from him and said check was to pay for it with interest. I presume that man had been converted and could not rest until he had made restitution for God will never forgive any one until he or she resolves in their heart to rectify all wrongs if in their power to do so.

The law of restitution is still in force, and will remain in force until the day of judgment. When Zachens got converted, he told the Saviour if he had wronged any one he would restore four fold. He had genuine religion.

I have said before and still say that if we have in our world today, a new kind of religion, or at least what some people call religion, that will not stand the test at the judgment day. Yes, the devil is going around seeking whom he may devour, and has made some folks believe that they have religion before they learn the religious alphabet.

Yes, there are lots of people who think they have the old time religion and at the same time would cheat you in a trade if they can, and some refuse to pay their debts if they can take the advantage of some technical point of law to do so, and run business in the name of someone else, or own property in the name of wife or someone else to keep from paying an honest debt, and at the same time would be willing to prosecute a hungry fellow for stealing a chicken or a piece of meat I have lived some time in this wicked world and have noticed many things, and I verily believe there are a lot of folks who think if they join the church and pay the preacher and other institutions of the church, they are all right, no matter how they get the money they give so they keep out of jail. The Bible tells us not to be deceived for God is not mocked.

**Bitten By Dog**  
A little son of Mr. Henderson Hart, a farmer living on route 7, was badly bitten by a dog last Saturday. Fearing the dog had rabies Mr. Hart brought the child to Statesboro for examination, but no signs of hydrophobia was found. The child was severely bitten on the leg. Dr. L. W. Williams dressed the wounds.

Rank Errors in Sixth Inning Cause One-sided Game

What promised to be a fast and close game of ball was turned into a farce in the sixth inning by rank errors on the part of Statesboro, resulting in the one-sided score of 12 to 4 in favor of Millen.

## MILLEN WINS OVER STATESBORO

Rank Errors in Sixth Inning Cause One-sided Game

What promised to be a fast and close game of ball was turned into a farce in the sixth inning by rank errors on the part of Statesboro, resulting in the one-sided score of 12 to 4 in favor of Millen.

Had the proper support been given Lively he would have won his game four to nothing, as none of Millen's runs were earned.

Millen scored one run in the first, second and third innings each on errors while Statesboro was blanked. In the fourth inning Statesboro made a bid scoring two runs. Statesboro scored again in the fifth.

The fatal sixth arrived. Two men were retired on easy pops. Three easy chances to retire the third man was botched, and the lid came off, resulting in six runs being made on one hit.

Millen comes here Thursday evening for one game. A good crowd is expected, as interest and rivalry is now at fever heat between these teams, and a hard fought game will be the result.

## Money in Strawberries.

Although Bulloch County is noted as a "cotton county," C. A. Wilson, one of our well known and prosperous citizens, has proven beyond doubt that there is a great deal more money in truck than there is in the fleecy staple. In fact Mr. Wilson is going to make more than four times as much money on one acre planted in strawberries than the average cotton grower will on one acre. For instance if a cotton planter makes a bale to the acre and sells it for 12c, he receives \$60, and fell far short of that price this season, from which must be deducted the fertilizer, labor and ginning charges, which consume more than half the bale. If Mr. Wilson's record will make him wish he had never seen a cotton patch.

Mr. Wilson as an experiment planted an acre in berries and the result is doubtless amazing to him. From the patch he has already sold up to the beginning of this week thirty-five bushels at \$2.00 per bushel, bringing him \$70.00, and the end is not yet. He says the berries are loaded and he expects to sell at least 100 bushels for the next sum of \$200. And from this there are no picking or ginning charges. After he picks enough to supply his customers he pays his pickers off in berries, allowing the twenty-five or thirty hands he hires each morning to pick for themselves as much as they need for their families. He has actually sold in the past ten days thirty-five bushels, nearly doubling a bale of cotton.

Mr. Wilson looks just as prosperous as his berries will in time make him. Each morning he can be seen coming to town in his automobile with berries and other truck for market.

PUBLIC OPINION  
TURNS TO WILSONPresident Grows In Popularity  
and Carries His Party.

## NEWSPAPERS A BAROMETER

All the Nation Stands United and Back  
of the Executive During Grave Crisis.  
Congress Expected to Provide  
Several New Battleships at Its Next  
Session, in Obedience to Demands.

By ARTHUR W. DUNN.

Washington, May 26.—[Special.]—The rise and fall of the tide of popularity is not so regular nor can it be so closely observed as the rise and fall of the sea, but men who make political observation a study know when the popularity of a man is going up or down and the same in regard to the popularity of a political party.

Naturally, the best barometer is the newspapers, as they do voice public opinion to a wonderful extent. They tell what the people are thinking. Then constant interviews with public men, travelers and a little common sense do the rest.

## Democrats on the Up Grade.

Thus it has been observed during the past month that the Democrats are on the up grade. They were in a slump following the election last fall and during the winter. The short session of Congress did not make a good impression upon the people of the country. Even the personal popularity of President Wilson was somewhat on the wane. The speech at Indianapolis contributed considerably toward uniting the factions of Republicans and strengthening the opposition to the president.

But there has been a turn for the better in Democratic politics. The improved business conditions have had more to do with it than any other factor. Men ceased to a great extent to blame the Democrats for hard times when it appeared that times were on the mend, that mills were being reopened, that men were getting employment and that the general conditions were much improved. At all events, the Democrats are not so morose and sad as they were two or three months ago.

## United in Patriotic.

No doubt the conditions abroad and our relations with foreign governments have had a great deal to do with restoring a better feeling in regard to the Democratic party. That party shares the advantage which the administration gets when foreign foes threaten. The whole people draw closer together and naturally extend support to the man in the White House, upon whom rests the great responsibility. The war clouds have been an asset to the Democrats.

## Jeff Talbott: "I Told You So."

Congressman Jeff Talbott of Maryland is one of the few old Confederate soldiers in the house of representatives. He is a big navy man. He would vote for half a dozen big ships and other navy equipment in proportion if he had the chance.

"I told you so," remarked Jeff when in Washington recently. "I told them they ought to build four ships a year; that they ought to have more men; that we want a navy which is something to none. You just wait. We'll get that navy in the next Congress. The country needs the necessity of a navy now and will have it."

## Dixie Roosevelt.

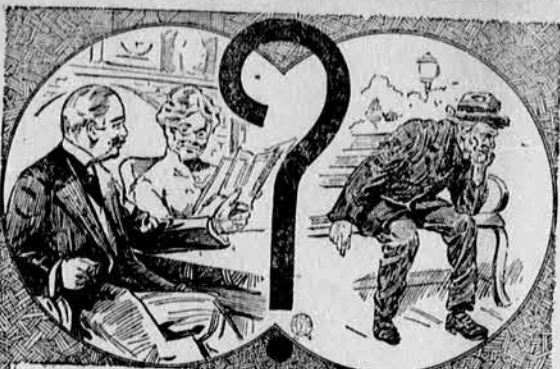

If you want to find real dislike for Roosevelt go among what are called the conservative Democrats of the south, those men who feel they are commissioned to defend the constitution; also those men who are the warmest supporters of President Wilson. It doesn't take long to start something with these men by saying a few words about T. R. Not even in Georgia, where Roosevelt's mother came from, is there much admiration for him save among the most radical element.

## Recalls Cleveland's Comptroller.

Secretary Garrison wanted to send troops to the various camps where young men from colleges and schools are taught something of military life and given a smattering of training. The college camps were long ago heartily approved by President Wilson and have been commended by nearly every person who has given the subject attention. But Secretary Garrison has been met by the opinion of the comptroller of the treasury, who has the absolute veto power in the expenditure of public money, who says that army appropriations cannot be expended for such purposes. Now, Garrison is a mighty good lawyer, and he thinks the money can be used. But he is powerless against the comptroller.

This recalls a case during the last Cleveland administration. A comptroller decided against something which Cleveland was anxious to go through. He sent for the comptroller and argued with him for a time about it, but to no purpose. Even the president cannot override the comptroller, said the official, with a somewhat superior smile.

"So I understand," replied Cleveland. "but he can get a new comptroller. And that ended the argument. The comptroller saw a way out, and Cleveland had his way, which is a habit of presidents."

## Why the Home Paper?

Have you ever asked yourself why you take your home paper, or why it is necessary to have a home paper at all? Do so, and you will start a train of thoughts that will be illuminating to you.

The big city daily comes to you and gives you the important news of the outside world, but you and the home people are too small for a place in its columns.

About its only thought of you is the money it gets from you.

It deals in world matters and is of value to you because through it you obtain much of your knowledge of the greater affairs of life.

But it utterly ignores you and yours.

Hence the local paper, and likewise your reason for taking the local paper.

You cannot exist without a knowledge of the affairs of your home community.

You must know of the plans and of the work of the local authorities, and you must know of the doings of the churches, and the lodges, and of your neighbors, and of the community in general.

You cannot obtain this knowledge from the big city paper, but you can and do find it in the columns of the home paper.

You buy the big city daily because you must know of the progress of the world, for your mind is developing day by day and demands this greater fund of information.

But your mind craves even a more intimate knowledge of affairs that are vital to the interests of you and yours, and these things you find only in the home paper.

To the great city daily you are but as a single pebble upon the beach, a drifting sand of the desert.

But to the home paper you are one of us, an important factor in the community, a force with which to be reckoned.

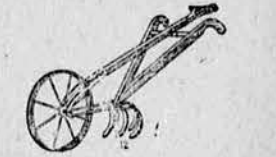

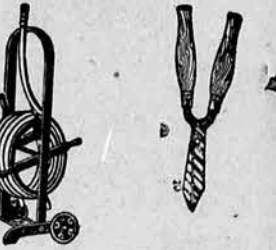

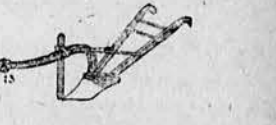

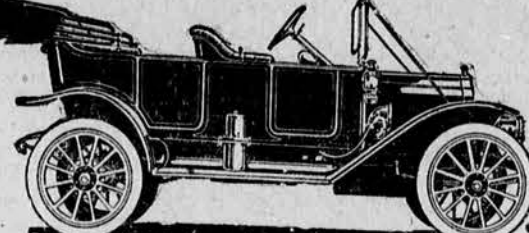

A disrupted and disintegrating community means a shrinkage and loss in property values and a stagnant public mind. Hence the home paper has an ever watchful eye to the interests of the community and of yourself, for only in the preservation of the community and of yourself can the home paper hope for a continued existence.

The home paper is YOUR FRIEND, and you know it.

And because you are loyal to your friends and to the community you believe in the home paper and its ceaseless work for home and home people.

Your interests and those of the home paper are identical, and you need it as much as it needs you.

And the man who recognizes the necessity for a community of interests becomes a builder, and not a destroyer.

About Georgia  
and GeorgiansItems of Interest Concerning  
People and Things in the StateAtlanta, May 26.—The Georgia  
Weekly Press Association meeting this  
year will be held in Savannah in July.  
State wide interest is keen and pros-  
pects are for one of the largest crowds  
in the organization's history.Atlanta, May 26.—With his admin-  
istration of the affairs of Georgia nearly  
terminated and only a couple of weeks  
yet to run, Governor John M. Slaton is  
probably the busiest man in the state.  
He and his official family at the capitol  
are working overtime to turn the  
financial and other affairs of the com-  
monwealth over to the incoming ad-  
ministration in shipshape order.In his farewell message to the legis-  
lature, which he has already begun to  
make notes on, he will not only review  
briefly and concisely his administration  
and the work that has been done, but  
will make recommendations and  
suggestions for the future, which, if  
carried out, will serve to put Georgia  
in an even stronger position than she  
now holds.During his administration Governor  
Slaton has brought order out of chaos  
in the state's financial affairs and busi-  
ness. The main purpose he had in  
mind when he was inaugurated was to  
make Georgia's financial system equal  
to that of any state in the union. He  
found an antiquated and demoralized  
system of taxation, and a heavy deficit.  
He has put Georgia's financial system  
in better shape than it was ever before,  
a tax equalization law, wiped out the  
deficit, and at the same time has been  
able to cut the tax rate one half of one  
mill.Today it is his expressed desire and  
purpose to leave every department  
with which he is connected in the best  
possible shape, and to that end he is  
now working night and day. He goes  
out of office on the 26th of June.Atlanta, May 26.—The recognition  
which prominent Georgians have re-  
ceived under the Wilson adminis-  
tration under no appointment which  
will be learned with more general in-  
terest than that now announced of  
Shirley A. Baker, of Jessup, Ga., who  
has been commissioned to represent  
Uncle Sam in far-off Alaska, where he  
will be chief inspector of fisheries for  
the United States Fish Commission.Mr. Baker spent a few days in Savan-  
nah last week, and is now on his way  
to Alaska to assume his duties. The  
appointment was secured through the  
influence of former State Senator  
William J. Harris, of Georgia, who is  
now United States Federal Trade Com-  
missioner.Atlanta, May 26.—This is the story  
of how a Georgia terrapin came back  
after twenty-five years. One day in  
the good year 1890 Harry Lee Jarvis  
was strolling over his plantation near  
Varnell Station, above Atlanta, and  
encountered a highland tortoise, or  
what is commonly known as a terrapin,  
and pronounced "tarry pin" by the  
portions of the population who know  
and love him best.Mr. Jarvis was accompanied by Mr.  
W. H. Prater, a prominent planter of  
that section. Mr. Prater did what  
quite a number of now celebrated men  
have done before—he carved his in-  
itials and year on the unresisting ter-  
rapin's lid and let him go. And the  
terrapin last week did what quite a  
number of now celebrated tortoises  
have done—he came back.Yesterday Mr. Prater was directing  
the clearing of a ditch on his own  
farm and one of his workmen picked  
up a terrapin with the initials W. H.  
P. and the year 1890 carved on his  
shell. Mr. Prater says the terrapin  
did not seem to have grown much, but  
looked hale and healthy as when they  
had first met. He denies, however,  
the report that the terrapin recognized  
him.Atlanta, May 26.—The roller skat-  
ing pad has taken hold of Atlanta  
again, reviving the scenes of some ten  
years ago when everybody who wasn't  
crippled wanted to skate.Eczema spreads rapidly; itching

the face of all these things our good

ing the present week many of our  
schools have closed with very appro-  
priate programs and dinner, lemonade  
and every kind of a thing on the map  
that is needed to make such an occa-

Despite the bad season for our work,  
we are and are making it a success.  
If the seasons seems to have to be  
aged. Remember that every girl has  
had to face the same misfortune.A few of the girls have complained  
of not getting a good tomato plant,  
others their plants being injured by  
the hail. To these my advice is to re-  
plant in string beans or plant for a  
fall crop. It is not compulsory to have  
the entire plant in tomatoes. Replant  
the missing places in beans or some  
vegetables that would be good to eat.  
It would be a good idea to have some  
late tomatoes.If your fathers fail to get a stand of  
corn and cotton, does he give up and  
say that he will not plant any more be-  
cause he failed the first time? If he  
did someone would go hungry. Fol-  
low his example and replant. Tomatoes  
will make less time than cotton.  
I saw a number of farmers re-  
planting cotton last week. If you are  
determined to succeed, it is by no  
means too late to do so yet.There are a few of the girls whom I  
have not visited, due to the fact that I  
have been unable to place them or  
say that he will not plant any more be-  
cause he failed the first time? If he  
did someone would go hungry. Fol-

will make less time than cotton.

a silver traveling cup, a silver mesh  
bag or card case, an aluminum roaster,  
and some other things. These scholar-

#### SAVANNAH'S MAY FANTASY

Savannah does herself proud  
last week in her touch of Georgia  
historical events, her gorgeous  
pageants, and her Plaza of Mirrh.  
Perhaps there can be but one sin-  
gle criticism and that, that there  
was a lack of music both day and  
night throughout the entire cele-  
bration; this necessary feature  
would doubtless be more freely sup-  
plied with a repetition of the event;  
and right here let us say that it  
certainly ought to become an an-  
nual affair. The signal success of  
this initial, (essentially Savan-  
nah's) historical play of epoch  
making Georgia, should encourage  
the promoters to make it a yearly  
May Week event which all Geor-  
gia and other South-eastern sec-  
tions would soon come to antici-  
pate with eagerness and elat.

Probably no other city in the  
South is so admirably adapted to  
stage a spectacle embracing page-  
ants, large assemblage of people,  
and such delightful and artistic  
groupings of street dancing as is  
Savannah, with her broad asphalt-  
ed thoroughfares and numerous  
parks so beautifully shaded. The  
opportunity for such brilliant  
electrical effects which on this oc-  
casion was so artistically displayed  
by the Savannah Electric Co.,  
with the canopy of lights from  
State street to Forsyth Park was  
quite the feature and surprise of  
visitors and Savannahians alike.

One more big asset that Savan-  
nah has to offer in bidding for  
patronage for a May week celebra-  
tion is Tybee. May—just the  
period of the year when every one  
is anxious to take a dip in the old  
ocean. All those features coupled  
with the interesting subject of  
General Oglethorpe's life in Geor-  
gia upon which to build and elabo-  
rate should make Savannah May  
Week Fantasy, an event that will  
compare with the N. O. Mardi  
Gras and soon become a main side  
in popularity. By all means let it  
be an annual spring celebration

#### AMERICA "FIRST" IN WAR ALSO

The New York World quotes  
some war history as follows:

The British newspaper press,  
which is discussing the issue be-  
tween the United States and Ger-  
many with characteristic short-  
sightedness, a few words of in-  
struction and admonition may  
properly be addressed.

We are not contemplating war  
with Germany very seriously as  
yet, for we cannot believe that its  
policy is so infatuated that it  
practices certain to justify war will  
be persisted in. But if, unhappily,  
this country should find that its  
honor and interests can be  
maintained as against Germany  
only by war, we shall engage in  
the conflict on the same principles  
that has guided our course as a  
neutral. That principle is ex-  
pressed in the words "America  
First."

We went to war with Great  
Britain in 1812 at a time when the  
country was fighting France, but  
we acted for ourselves. We did  
not ask the permission of anybody  
in Paris. We made no formal al-  
liances. We did not think about  
and we did not care what the ef-  
fect of our hostility to Britain  
would be upon France, and, so far  
as known, the Bonapartist press  
of that time did not presume to  
advise us concerning the methods  
by which we could be of most ser-  
vice to its master.

The trouble between the United  
States and Germany today is not  
unlike the quarrel between the  
United States and Great Britain  
then. We are no less determined  
than we were a century ago. Now  
as then the difficulty has its origin  
in a general European war. Now  
as then it will be argued out, and  
if inevitable, fought out, with the  
sole purpose of establishing those  
rights.

For some of the embarrassments  
encountered by us in foreign wa-  
ters Great Britain is clearly respon-  
sible. It has not lawlessly taken  
life, but for a time it lawfully took  
property. With neither the will  
nor the power to declare a true  
blockade of Germany, it has sub-  
jected our commerce to vexatious  
restraint and loss, making amend-  
ments at times, but persisting never-  
theless.

If Germany forces war upon the  
United States, we will respond in  
our own name, under our own  
colors, and with our own arms.  
We do not fight for Britain, for  
France or for Russia. We fight as  
Americans for America.

It is generally the man who  
doesn't know any better who does  
the things that can't be done.  
You see the famous fool doesn't  
know that it can't be done, so he  
goes ahead and does it.—Charles  
Austin Bates.

People have got to work. It is  
credible for them to do so; their  
bodies and their minds are ben-  
efited by it, and those who can and  
will work will be advanced by it.  
—Robert B. Lee

#### Newspapers the Greatest Advertising Mediums

"I consider the newspaper the great-  
est advertising medium in the world,"  
said Mr. Frank Proctor, head of the  
Frank Proctor Co., of New York,  
in a recent address before the East City  
Club in that city. His reasons show  
keen appreciation of one phase of the  
psychology of advertising. He says:

"The advertising value of any me-  
dium is in exact proportion to the re-  
ceptivity of the reader's mind. What  
a man takes a newspaper and sits down  
to read he puts himself unconsciously  
in a receptive mood. Mentally he ad-  
justs himself to it. He is ready to re-  
ceive impressions of news, finance, mu-  
sic, art, sciences and announcements  
through the advertising pages."

"His mind is receptive—in a position  
to receive impressions. Just as soon  
as you get away from that receptivity  
you lose the efficiency of advertising  
and I very often, at the expense of my  
popularity with street car men, tell  
them that I do not consider their me-  
dium at all equal to newspapers for the  
reason that when a man is in a street  
car his mind is more or less engaged  
upon other things. He is talking with a  
friend or he is reading his newspaper  
and the extent he is mentally en-  
grossed does the advertising in the  
street car lose its efficiency."

"One point further down from that  
we get to the point and billboard busi-  
ness that is seen when a man is still  
less receptive. He is walking on the  
street and his mind is on other things.  
This a publication which is seen by a  
man when he is in a receptive mood  
is most likely to be productive."

It would be difficult to apply any  
more fitting description to Mr. Pro-  
ctor's logic than to say it is simply a  
very good brand of common sense. That  
his verdict is worth considering is  
especially emphasized not only by the  
fact that his agency is one of the largest  
in the country and Mr. Proctor's expe-  
rience in advertising, but that that expe-  
rience has included all forms of advertising  
and given him thorough knowledge  
of the value of all mediums. After  
carefully weighing them all, he  
says: "Newspapers are the greatest."

#### GREAT CHANGE IN AMERICAN SPIRIT

We Looked on War With Hor-  
ror a Few Months Ago.

ATTITUDE DIFFERENT NOW.

Much Speculation as to What This  
Government Could Do in the Event  
of a Declaration of War—Would We  
Send Expedition or Merely Give Aid  
by Supply of Ammunition?

By ARTHUR W. DUNN.

Washington, May 25.—(Special).—It  
was not so many months ago that  
America—meaning the United States—  
was looking with horror on the con-  
flagration in Europe and public prints  
were denouncing the fact that nations  
plunged into such a relentless war, an  
unnecessary war, and one which could  
accomplish no good. And now the  
time comes when our people are ready  
to fight, ready to back up the president  
in his note to Germany. It is good to  
see that all the efforts of the peace people  
in the last five or ten years had gone  
for naught, and even our extreme peace  
loving secretary of state signed the  
note to Germany.

It may as well be understood that  
nations get into war rather easily  
when something happens which touches  
the national honor.

Saving on Rural Routes.

It was a great surprise when Post-  
master General Burleson announced a  
great saving on rural routes, an in-  
crease in service and no cutting down  
of the already excellent General  
Jackson says he has relinquished all  
post, grant and special privilege from  
the rural service and established routes  
of his agency. He has relinquished all  
privilege and the public right to send  
the postmaster, with the result that  
rural routes have been eliminated, yet  
saving the service.

The automobile is also playing an  
important part in the curtailment of  
expense as one carrier can cover a dis-  
tance of fifty miles in the same time  
that took him to cover twenty-four  
miles, so routes can be consolidated  
and give the same service for three-  
fourths of the money.

Would We Send an Expedition?

A great deal of advice is being  
upon the president, the secretary of  
war and the secretary of the navy and  
other officials, telling them just what  
to do in case we are involved in war  
with Germany. There are a mighty  
large number of able military and  
naval strategists now abroad, and they  
do not hesitate to give their opinions—  
without the asking.

Perhaps some germ of good advice  
may creep into all the mass contrib-  
uted, and something is necessary, for  
no one knows just what the United  
States would do in case of war with  
Germany. Would we send a fleet and  
expedition? Would we send a few  
thousand of our soldiers to drive into  
the tunnels and trenches of northern  
France and get picked off by German  
sharpshooters or destroyed by German  
artillery or snuffed out by German gas  
explosives?

Feeling Against England:

These are the secondary questions  
which come up for consideration in all  
this talk of war.

There is in the makes of correspond-  
ence which is being received—and it  
must be acknowledged that public sen-  
timent is strong in these countries—  
a strong feeling expressed  
against England. Many people tell  
the administration that they do not think  
we have been treated right by England  
and that our commerce has suffered  
more from the British methods than  
from anything Germany has done. It  
is evident that there is a strong feeling  
against having the United States be-  
come an ally of Great Britain in the  
present struggle in Europe.

Presidential Reg.

Just now the presidential bees are  
not humming so the people can hear  
them, though they may be plain  
enough to a dozen aspirants in dif-  
ferent parts of the country. It is hard  
to make politics prominent in the face  
of the great European war and our near-  
ness to it.

Interpreting the Note.

The men who wrote the constitution  
of the United States no doubt thought  
they were writing that fundamental  
law in plain terms, yet it has been  
the subject of thousands of disputes  
and interpretations. As regards our  
twenties, they are never beyond the  
realm of great dispute as to what  
they are intended to mean—purpose  
so. And it appears that a little of  
doubt creeps into great state papers,  
for there are many disputes among  
diplomats, lawyers, journalists and  
others who ought to know as to just  
what Wilson's note to Germany ac-  
tually meant. Some said it meant war,  
some said peace; some said it afforded  
Germany a fine chance to retire grace-  
fully; some said it made impossible  
terms for Germany. Altogether it was  
a much discussed document.

Southern Republics.

There have been many different con-  
ferences in which the southern repub-  
lics have participated with the United  
States, but none at a time when it  
seemed such a good time for the entire  
American continent to get together.  
The coming conference ought to pro-  
duce good results.

#### A PRIZE MARRIAGE

At the L. T. Denmark Rack-  
et Store--And they Lived  
Happily Ever Afterwards

Little Dr. Cupid, that fellow  
who can so successfully tie the  
knot of connubial bliss had no fear  
of publicity in his handiwork,  
when on last Saturday May 22 he  
led to wedlock at the Rack-  
et Store in the presence of a large and  
really deeply interested concourse  
of friends and well wishers Miss  
Laura Nesmith and Mr. Herman  
Bunch. 100,000 Booster coupons  
were the prescriptions that this lit-  
tle Dr. Cupid wrote and it ap-  
pears to have had the ingredients  
that was wanted to bind the two  
hearts. Rev. T. J. Cobb read the  
marriage ceremony. The Rack-  
et Store presented a wedding pres-  
ent, and the hundreds of people  
who attended the wedding wished  
the happy couple joy for ever and  
ever.

#### SEEN IN THE BOUDOIR

Petticoats, Undermuslins and  
Negligees Turn From Their  
Straight and Narrow Way to  
Follow the Lead of Fullness.

(Special to the Statesboro News.)  
New York, May 26.—No easy  
time will miffy have with her  
lingerie this summer, for lingerie  
having forsaken its straight and  
narrow way shows no signs of  
slackening its mad rush toward  
fullness. It is useless to deceive  
yourself by thinking you can make  
your petticoats and slips of last  
season do for this. The old tube-  
like undermuslin are out of the  
question with the voluminous  
skirt of the present mode. Far  
better bow to fashion and buy a  
hoop skirt.

If hoop skirt sounds far-fetched  
to you, it's only because you have  
not seen the dainty creation mas-  
quading under the old name.  
They are useful and graceful, these  
skirts with the reel, and they are  
actually going to wear them with  
flimsy frocks this summer. One  
store features several in white and  
pale shades of ecru de Chine with  
a flexible wire inserted above a  
deep lace flounce. As the skirt  
measures only two yards where  
the wire is placed, it acts the same  
as a stiffly starched skirt, without  
the bulk and clumsiness. Another  
house, in the very heart of the  
shopping district, heretofore noted  
for its conservativeness, shows a  
model of ribbon and net, conspic-  
uously placed in the boudoir window.  
This in itself is not a petticoat,  
but merely a foundation coming to  
the knee, formed of a shirred  
piece of net three inches wide,  
stiffened on either side and sus-  
pended from a waistband with  
half-inch ribbons.

# The Signal for the Real Start in The Statesboro News Prize Subscription Contest

IS FLASHED TO EVERY PART OF THIS COMMUNITY.

And There'll be no Let-up Now Until the Ballot Box is Turned Over to the Judges—  
Greatest Circulation Campaign Ever Conducted in this Vicinity—A Fortune  
in Prizes and Every Bonafide Contestant will be a Winner

NOW! ARE YOU READY? For several weeks we have been telling you about this great contest and now the real work starts and everyone has a fair and equal chance. It does not cost one cent to enter this contest—send in your name or that of your friend and do it today. Now is the time to get in on one of those handsome prizes—send your name to the Campaign Manager, Statesboro News.

This wonderful offer is made by The News for the people who will get out and work. Be sure and read every word that is printed about this contest—IT'S IMPORTANT!

THINK—A HANDSOME SAXON SIX FOR GRAND PRIZE—a \$785.00 CAR purchased from the **Averitt Auto Co.** Wouldn't you like to own it? Is there a man, woman, boy or girl in this community who wouldn't? Wouldn't you work just a little bit? Wouldn't you make some extra effort to win this car, and at the same time knowing that if you didn't win that you would be paid for your work anyway?

PIANO WORTH \$300.00 FOR SECOND PRIZE—Should you miss the automobile, think of the next reward—this handsome upright piano. Work? Certainly you will work, and this is the time to start, RIGHT NOW.

SEEING NEW YORK—A delightful trip by sea. This is yours if you fail to win the Saxon Six or the piano—third prize—round trip with all expenses, meals, private berth and hotel and amusement expenses for ten days, just the time to be in New York when this contest closes, everything going on then, THINK. Win this third prize and have this trip without one cent of expense to you.

## Why Can We Make This Stupendous Offer?

Because the News is fast establishing itself in the confidence of the people; it is a paper that you can be proud of—proud to have come into your home, newsy, clean make-up, and gives you the news when it is news.

So far as we can ascertain, the people have never had an opportunity like this; never before a line-up of

prizes such as **The News** is offering contestants right now. WORTH WORKING FOR? Foolish question No. 56,589,487. Well, rather; and it's not only the prizes—you are sure of being paid for your work if you don't win a prize and you are a bonafide contestant you will be paid a percentage of your total collections based on the amount that you turn in for subscriptions.

## HOW TO ENTER

Fill out the nomination blank and send same to the Campaign Manager or bring it which is better. Each contestant is entitled to one nomination ballot good for 1,000 FREE, and when first dollar is turned in you get 9,000 more votes, 10,000 in all.

NOTICE—IF YOU HAVE ALREADY BEEN NOMINATED OR HAVE ALREADY TURNED IN YOUR FIRST DOLLAR THE CAMPAIGN MANAGER WILL ISSUE YOU THE 10,000 VOTES. Contestants do not have to be subscribers to the paper—it costs nothing to win—to enter—to stay in to the close. YOUR NAME WE WANT AND WE WANT IT TODAY.

## See Display Ad Page

Be sure and read this—this shows the prizes that are to be won by contestants securing the largest number of votes at the close of the contest. Remember this is a friendly struggle—you have the same chance as the other fellow—it takes work—yes it takes votes to win and you get these votes by working. It will be great fun—do you good to get out and mix with the people. You won't be turned down because you won't let anyone turn you down. Set your heart on what you want, THEN GET IT.

## How To Win A Prize

The object of this unheard offer is simply to get subscriptions for the NEWS—to build this paper bigger and better. The way to secure votes is to get your friends and neighbors and other people's friends to subscribe for the NEWS one year, two years, or more. Also you can collect the coupons which will appear in this paper each week until further notice—these will count when neatly trimmed and sent to the Campaign Manager. Secure votes for getting advertising contracts for the NEWS or for getting contracts for JOB Printing for the NEWS. Candidates can work anywhere—there is no restriction. Write your friends, telephone them—no matter where they live get this good news to them and tell them that you want their subscription.

## Who May Enter

No employee of the NEWS will be allowed to participate in the contest in any way, but any white person, male or female, of good repute may enter the contest. The contest will be free and fair for all and you will always regret it if you don't enter today—right now at the start and make every day and hour count.

## We Will Send Representatives

Out out the nomination blank and send or bring to the Campaign Manager. If you send it and request an interview the Campaign Manager will be

"Johnny on the spot" and explain detail to you, just how easily you can win one of the prizes given by the NEWS. If you decide to enter then he will supply you with receipt book and all other information. If you don't want to enter, get a friend in the race and then help them.

## Time Will Pass Quickly

The few weeks will soon be over and if you want to be sure it is important that you start right now—"Easy Picking" for the "Early Bird." Those who get out now with a determination to win will find the fields ripe and green and it will be easy sailing. Of course, people are not going to chase you to hand you their subscriptions, but the subscriptions are there and it is up to you to get them. Organize your friends—just as politicians do and see what this will do for you. You want the support of everyone that you can get and see that they DO SUPPORT YOU. You won't gain anything by PUTTING OFF, it's a terrible bad habit and has cost many a person fortunes.

## Awarding of the Prizes

The Handsome Saxon Six valued at \$785.00 will be the first grand prize and awarded to the contestant receiving the largest number of votes at the close of the contest.

The \$300.00 Upright Piano will be second prize and awarded to the contestant securing the second largest number of votes at the close of the contest.

The third prize—that delightful trip to New York is explained elsewhere, will be awarded to the contestant securing the third largest number of votes at the close of the contest.

Then if you don't win a prize you will be paid for your work anyway. **At once on the closing hour three judges, prominent men of this city, will count the ballots and announce the winners.**

## How Votes Are Secured

With every subscription to the NEWS, when asked for, is given a coupon good for a certain number of votes according to length of subscription, this is explained elsewhere. These coupons must be dated before the closing hour of the contest. Votes are allowed on both old and new subscriptions. Also on advertising contracts and job printing contracts that are accepted by the management of the NEWS.

**Nominations are open, the Campaign Manager is on the ground and everything is now ready for real work, clip the coupon—do it right now—put your name there or the name of a friend, but DO IT.**

## Everything Free In the Contest

Information just as much as you want, the Campaign Manager is here to help every contestant in the race—he shows no favoritism—he treats you all alike. See him and see him now—he can give you some valuable pointers from his experience in this work. He himself learns things in every contest and he can tell you some amusing stories of the contest work. **START AND START TODAY, don't let the other fellow beat you to it.**

## Regular Scale of Votes That Will Prevail During This Contest:

1-Year subscription . . . 1,000 votes	4-Year subscription . . . 10,000 votes
2-Year subscription . . . 3,000 votes	5-Year subscription . . . 15,000 votes
3-Year subscription . . . 6,000 votes	

## Read About the Contest Each Week. The Campaign Manager Will Have Some Interesting News for Those Interested

Your success in this contest is going to be entirely on your own shoulders. If you win it will be because you worked and deserved to win; your friends will support you if you work. No way that you can do more telling work than by keeping posted on everything pertaining to the contest; read every word that gets into the paper; see the manager often and find out every bit of information that will help you; ask any questions you like except as to the standing of any other contestant; you won't get an answer to this; no information of this nature will be given out at any time during this contest, and contestants should bear this in mind right from the start.

## HOW TO WIN A VALUABLE PRIZE

Send in your nomination. You will find a nomination blank is good for 1,000 votes, which gives you a fine start.

Then enlist the aid of your friends and neighbors. Use your telephone. Let everyone know that you are a candidate before they promise to help a more enterprising candidate.

Be ambitious and determined to win. If you have friends you cannot see at once, write them.

You can get votes and subscriptions anywhere, from the other districts as well as your own.

Votes will be given on new subscriptions and renewals of old subscriptions that are paid and renewed.

Call or send to the Contest Office for receipt book. The Contest Office will be glad to have you call so that he can explain anything you do not understand. Telephone or write if you cannot call and a representative will give you full details. Secure every vote coupon possible, but work for the subscription ballots. They count most.

Ask your friends to help you. If you belong to a church society or organization, let your fellow members know that you expect their help. It will be freely given if you ask before it is given to some other candidate.

Don't forget that the children can do the most effective work in collecting coupons, as well as secure many paid-in-advance subscriptions.

Should your brother, father, sister or friend belong to any organization, get them to secure the votes and assistance of the members of the association.

Do not let a day pass without securing some subscriptions and votes. The steady, persistent work is what will make you the winner of a valuable prize. Keeping everlastingly at it: always brings success.

Anyone, anywhere, can vote for any candidate. Candidates can secure votes and subscriptions anywhere.

It is easier to ask questions than to correct mistakes. Do not hesitate to ask questions. The Contest Manager is at the Contest office to help you.

SOME BALL

Statesboro-Hagan

You fans who let the hot weather keep you away from the local diamond last Tuesday don't know what you missed; there is ever a lot of glory in defeating as well as glory in being defeated and taking it gloriously and that is what happened with the Statesboro-Hagan game Tuesday. Our local team done themselves proud by holding down that Hagan group of two hundred pounder athletic sports and tucking to their banner a five to three decision. It was a closely contested game from start to finish and good clean ball playing devoid of rowdiness and those characteristics that oft times make the great American sport fall to a standard that is not sport.

Neither side succeeded in scoring until the fourth inning when Statesboro made a three run tally that warmed their hearts and sent a wave of gloom to the visitors. There were no further scores until the seventh inning when Hagan scored one on an error. In Statesboro scored two runs while Hagan followed suit in her half of the same inning but to no avail in the final effort.

This was decidedly the best game of the season, the local team showing marked improvement over their former work. If the local fans want good ball playing they must support the game better than the attendance upon this game; it was far too slim to encourage the home boys or any visiting team. We are now getting good clean ball playing so come out and BOOST for the home boys. Next game Friday with either Waynesboro or Graymont.

BALL NEWS

Waynesboro Defeats Statesboro Friday

On last Friday May 21st Waynesboro, defeated Statesboro on the former's diamond in a close and exciting game, the score being 4 to 3 and 8 to 2. These were considered by all the Waynesboro fans as the best game that has been played on their diamond this year. And on next Monday May 31st the deciding game will be played on the Statesboro grounds it now being a tie of two to two. Waynesboro will bring with them the strongest and fastest team that the home boys have faced this year and assure you that the game will be interesting and ask that all local fans will come out and yell for our home boys. Admission 15 and 25 cents. Ladies free.

Horse Kicks Little Girl

Mattie, the little daughter of Mr. and Mrs. S. B. Hedleston, was the victim of a painful if not serious accident Saturday night, in which she came very near losing her life. She accompanied her father to the lot to catch the horse and when they were returning the little one climbed upon the fence and as the horse was led by her she jumped off, frightening the horse, causing it to kick, striking the little girl over the eye. A long gash was cut in her head, requiring several stitches. It is not thought the sight is affected, but the wound is a very painful one.

Adjudged Insane

Peter Williams, son of Richard Williams, a negro, was adjudged a lunatic in the Bulloch county court on ordinary and ordered sent to Milledgeville this week.

WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamlike sleep, irritability and unless corrected, leads straight to a breakdown.

To correct nervousness, Scott's Emulsion is exactly what you should take. Its rich nutrient gets into the blood and the rich blood feeds the nerves, while the whole system responds to its refreshing tonic force. It is free from alcohol, Scott & Borne, (London, N. Y.).

MAKE WORK EASIER

Statesboro people are pleased to learn how it has been done. It's pretty hard to attend to duties with a constantly aching back; with annoying urinary disorders. Doan's Kidney Pills have made work easier.

So thousands have testified. They're for bad backs. They're for weak kidneys. Statesboro people greatly recommend Doan's.

Daniel E. Rignold, 44 Bulloch St., Statesboro, says: "Whenever I feel that I am in need of a kidney medicine, I use Doan's Kidney Pills and they never fail to remove the aches and pains in my back. At times while at work, I have to do a great deal of stooping and lifting and this is hard with a lame and aching back. Doan's Kidney Pills always strengthen my back and fix me up all right."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Rignold had. Foster-Milburn Co., Props., Buffalo, N. Y. Adv.

THE FRANKLIN DRUG CO. IMPROVEMENTS.

New and Up-to-date Soda Fountain and Ice Cream Container Just Installed

The Franklin Drug Co. have anticipated the hot summer season and the requirements of their patrons by a decided improvement in their cold drink department by the installation of a new and, perfectly sanitary soda fountain and ice cream container secured from the famous Robert N. Green & Sons, Philadelphia, Pa. All appliances in connection with this latest development in summer drink dispensers are of the most modern and up-to-the minute in essential detail that is possible to produce. The syrup cups are marble tops with non-rustable metal pumps and are absolutely sanitary in every detail.

The ice box with its eight coolers surrounding the ice cream receptacle and water cooling apparatus is a special patent of Robert N. Green & Sons. These boxes are used exclusively in the Green fountains. The entire system of service is visible thus adding to the pleasure and confidence of the patrons in an assurance of cleanliness and safety first appliances.

The day of harsh physics is gone. People want mild, easy laxatives. Doan's Regula have satisfied thousands. 25c at all drug stores.

Mr. Pickelty came home from his club one morning about 5 o'clock. He entered his happy home, crept up the stairs softly so as not to awaken his spouse, then felt for the switch to turn on the electric light. He could not find it and in the darkness stumbled over a chair.

"What's that?" came a voice from the bed.

"Where in the deuce are the lights in this house?" snarled Pickelty, trying in his bluff to put a bold face on the matter.

"Lights?" cried Mrs. Pickelty, sitting up. "Pull up the blinds!" Judge.

GROWING AND SHIPPING WATERMELONS

The Melon Distributors Association—Rules and Regulations That Were Adopted At the Atlanta Convention April 20th.

In conformity with the rules and regulations adopted by the Melon Distributors Association at their convention in Atlanta April 20th, Supt. S. T. Grimshaw along with all other transportation lines has been supplied with copies which is reprinted in this issue of the News in the following article. To derive the maximum result from this season's crop local growers should be guided by the rules and adhere to them in every detail thus securing a clean way bill for their product and as a natural consequence the highest market price.

RULES ADOPTED BY THE MELON DISTRIBUTORS' ASSOCIATION

defining standard cars and establishing rules to better enable buyer, grower and jobber to intelligently understand each other in transaction of WATERMELONS.

Standard cars of melons shall be as follows:

FIRST. Cars shall be ventilated on sides and ends. No car shall be deemed standard loaded without such ventilation.

SECOND. Melons should be carefully handled, stacked and packed tightly, four tier high in 36 foot length cars. If less than 36 foot length cars are furnished sufficient melons shall be added on the fifth tier to make up deficiency in count and weight. Melons shall be loaded five tier deep over the entire car where they average 20 pounds or less with enough additional melons to insure proper weight where short length cars may be used.

THIRD. No car shall be deemed standard loaded unless properly padded around the side and ends to the full height of the melons. The floor shall be properly bedded with either pine straw or other suitable bedding. In no event will saw dust or shavings be accepted.

FOURTH. Melons shall be graded as follows:

20 lbs. average, min. wt. 16 lbs., max. 24 lbs.  
22 lbs. average, min. wt. 18 lbs., max. 26 lbs.  
24 lbs. average, min. wt. 20 lbs., max. 28 lbs.  
25 lbs. average, min. wt. 20 lbs., max. 30 lbs.  
28 lbs. average, min. wt. 24 lbs., max. 32 lbs.  
30 lbs. average, min. wt. 26 lbs., max. 34 lbs.  
32 lbs. average, min. wt. 28 lbs., max. 36 lbs.  
35 lbs. average, min. wt. 28 lbs., max. 40 lbs.

FIFTH. Melons shall be fresh clipped from vines and loaded into cars within 24 hours from time clipped. No ill shaped, diseased, specked or otherwise imperfect melons to be loaded in standard cars. Melons to be taken from healthy vines only.

SIXTH. It is recommended that loaders haul melons in padded wagons thereby preventing unnecessary bruising. Care is also recommended in the handling of melons from wagons to cars as properly loaded and carefully selected cars always command a premium.

UNCLASSIFIED CARS

All cars not loaded in accordance with rules for loading standard cars shall be known as "UN-CLASSIFIED."

APPOPLEXY KILLS JUDGE R. T. DANIELS

One of the Country's Best Known Odd Fellows Dies Suddenly at Fitzgerald Meeting

Fitzgerald, Ga., May 28.—Just as he closed an eloquent address to 1,500 Odd Fellows attending the grand lodge here, Judge Robert T. Daniels, sovereign grand sire of the order in America, was stricken with apoplexy on the platform and died early last night without regaining consciousness.

He was attended immediately by Dr. I. B. Clark, of Atlanta, who is attending the session, and, with the aid of Past Grand Master, J. H. Dozier, was hurried to the Lee Grant Hotel in an ambulance.

Dr. E. J. Dorminy was called in and a trained nurse was secured. His family at Griffin was promptly notified, his brother with family physician, with Mrs. Daniel, hastened to his bedside by automobile, reaching Fitzgerald late this afternoon.

His death cast a gloom over the grand lodge proceedings and the news rapidly spread over Fitzgerald. The fifteen hundred delegates attending the grand lodge are leaving the city greatly affected by the death of the leader of American Odd Fellowship.

Judge Daniels was inaugurated grand sire of the sovereign grand lodge last session in Atlantic City, and has since traveled over Canada and the United States, visiting various grand jurisdictions, and had been received everywhere as possibly the most popular and brilliant grand sire who was ever at the head of this the largest fraternity in all America, and its two and a half million members will receive the news of his tragic end with a profound sense of grief and loss.

He was judge of the superior court, and the combined duties as judge and grand sire had overtaken his strength and undermined his vitality. He was sought as a gifted speaker from every section of the country, and had many plans for the sovereign grand lodge in San Francisco in September.

Yesterday morning he spoke of his great work with no pretension of his approaching fate, and at the close of his stirring address to his brethren, he staggered to his chair, stricken and pallid.

While the active head of the sovereign lodge of I. O. O. F., Judge Daniel found time to devote to the work of the Red men, and at the time of his death was past great inexperience, the only Georgian ever to hold this office, the highest in the gift of that fraternity.

The Red Men of Georgia were planning special entertainment for him at the state council of Red Men to be held in Atlanta next month.

Judge Daniel had no children but is survived by his widow, one brother, Milton J. Daniels, of Griffin, and one sister. A delegation of Atlanta friends will go to Griffin to attend the funeral services.

Fitzgerald, May 28.—Atlanta will be the next city to entertain the grand lodge of Georgia, I. O. O. F., which closed its seventy-

THE F. D. A. AND M. SCHOOL Closing Commencement Exercises Attended by Much Interest

SENIOR CLASS F.D.A. of GEORGIA

—Photo by REXIN, Statesboro—

(1) Miss Margaret Lou Moore; (2) Miss Tera Proctor; (3) Howard A. Prather; (4) Miss Willie Ranterson; (5) James Ewell Akin; (6) Miss Mattie Coleman; (7) Frank H. Sharpe; (8) Miss Mattie Irene Sowell; (9) Miss Merle L. Moore; (10) Miss Rosa Phillips; (11) Miss May Belle McElveen.

The commencement exercises of the First Agricultural School were held Monday May 31st at 10:30 A. M. More genuine enthusiasm of students and visitors alike was perhaps in evidence, than has occurred for some several years at this function. Hon. J. Randolph Anderson of Savannah, delivered the Baccalaureate Address which was listened to with marked attention and highly appreciated. Mr. Anderson's address covered every phase of the schools progress and its needs as well. His words in part were:

"To those of us who have watched over the struggles and trials of this institution it is a matter of great pleasure and satisfaction to realize that in spite of all the difficulties it has to contend with from lack of sufficient funds for its support, it has accomplished and is accomplishing a wonderful amount of good for the people of this district and has established itself as one of the leading educational institutions of its kind in the State. This is due in largest measure to the untiring devotion, the noble and sacrificing efforts of the members of the faculty, without which it would have been impossible."

"It is a pleasure and a privilege to take part with you today in the closing exercises of this school and I am sure it warms the hearts of all these older people here as it does my own, to see so many bright young faces of those who are preparing to take their stand and do their part in promoting the welfare and upholding the fair name of Georgia in the years that lie before us."

"Thomas Jefferson in speaking of the need for education said: 'If a nation expects to be ignorant and free in a state of civilization, it expects that never was, and never will be. And again, in speaking of the uplifting of mankind, he said: 'If the education of man is to be progressively ameliorated, as we fondly hope and believe, education must be the chief instrument in effecting it.'"

Jefferson was probably the first man in this country to suggest a plan for the education of the people generally. The system whose adoption he proposed was substantially the following. Elementary Schools, District High Schools (Colleges) and a University at some central and healthy location in the State.

"His idea was that the Elementary Schools should teach reading, writing and arithmetic, geography and history, and that the tuition should be free. He also suggested a plan by which the District High Schools and the University the tuition should be partly free.

"Georgia today is paying out from her state treasury for her common schools a large amount in proportion to her revenues than almost any other State, yet we are not getting as good results as are other States of our rank and wealth. 'Truth is the time has come when we must seriously take stock of our situation and decide what we are going to do.'"

"Ways and means must be provided for keeping our people abreast with the enlightenment of the age. The question is, how is this best to be accomplished. The experience and example of other leading States of the Union show us that it should be done through the assistance and co-operation of the Counties and that no unit smaller than the county should exercise the power of taxation for this purpose. All the people of a

ANGER AHEAD FOR THE FARMERS

Unless They Organize Thoroughly to Handle Crops—Grass Is Badly Effecting Crops All Over the State

Douglas, Ga., June 2.—(Special)—Returning to the headquarters of the Georgia State Farmers' Union from an extensive tour of Georgia, President J. J. Brown gave out an interview for the press in which he sounded a strong warning to the farmers.

President Brown is one of those optimistic men who does not believe it right to let optimism overshadow true situations, and who believes that to take hold of an emergency before the emergencies arises is the better part of valor.

President Brown stated that he had never found the cotton fields of Georgia so full of grass as they are at this time. "There are thousands of acres," he said, "that are planted in cotton that are now being plowed up and replanted in peas, sorghum cane and other things, because the grass has gotten ahead of the farmers and they realize that there would not be any yield of the staple to speak of."

Asked to what extent the crop in this state would be cut this year, Mr. Brown said:

"Well, in the first place the acreage was cut, I believe, at least 30 per cent; about 45 per cent less fertilizer was used than last year. The crops on the average throughout the state are in the worst condition they have ever been at this time of the year, and for these reasons, I believe that the crop will yield at least 40 per cent less than did the 1914 crop."

These conditions of bad fields and poor stands were worse in middle and South Georgia, said Mr. Brown. He believes that the grassy condition would in itself reduce the yield 25 per cent this year over last.

The officials of the State Farmers' Union are anxious to enroll fifty to seventy five thousand members before the marketing of the crop and in order to do this, the Union is making very liberal terms for initiation.

One thing stands out at this time that is very encouraging to the work of organization and that is that the business organizations of the state are co-operating in every way possible to aid the Union. This has not been true in years gone by, but both the business people and the farmers have discovered that they must work together. The business interests have learned the lesson that when the farmers fare badly, the business of the state goes to pieces, and on the other hand, the farmers are awake to the fact that their place in the business world is to make and market products, not to sell groceries, do banking, and the Union is now organizing and teaching a new method or methods of bringing into closer relationship all the interests of the state.

Continuing the speaker said that in order to meet the situation and handle it with the least possible injury to all, it would be absolutely necessary that the farmers organize in every malitia district of the state.

"It will be impossible for the State Farmers' Union to supply organizations to do this work all over the state in due time to meet the marketing conditions," said President Brown, "we urge upon every community to have someone to be secretary, Fred Rickerson, Douglas, Ga., for terms and a commission to organize their respective communities."

Prof F. M. Rowan Principal, in well chosen remarks presented the
