PERILS OF PAULINE

Star Theatre—Every Tuesday Night

SYNOPSIS OF PREVIOUS EPISODES:

Harry Marvin and his adopted sister, Pauline, have been left orphaned by the death of their father, who left half his fortune to Harry and half to Pauline, to be held in trust for her by his secretary, Owen, till she marries. He makes the proviso that should she die before marriage, the fortune should go to Owen. Owen, a villain, is in the power of a tough character, by the name of Hicks, who persuades him that it would be a good idea for something to happen to Pauline so that Owen would inherit the fortune and split with him. They have already tried two or three times to have Pauline apparently accidentally killed, but Harry has always intervened.

STORY OF THE FIFTH EPISODE:

Harry has been trying to get Pauline to consent to marry him at once, but on one excuse or another, she has always put him off. Believing that a little jealousy would help, Harry starts a flirtation with Miss Sampson, one of Pauline's girl friends. This arouses Pauline's jealousy and makes her so cross that she goes to a large reception alone, although both she and Harry had been invited. Here she meets Signor Baskinelli, a noted pianist. Signor Baskinelli is much attracted by Pauline's charms, and in his violent Italian way, makes love to her. She, however, repulses him. Owen and Hicks see the play and propose to Signor Baskinelli that he run off with Pauline. They make arrangements with some tough characters, and then Signor Baskinelli invites the party for a trip through China. On this trip they see some strange things. Pauline is detained in a Joss house. As she comes out some tough characters attempt to seize her, but Harry hears her scream and rushes back and puts them to rout. Pauline flees while Harry is fighting, and is seized by some Chinamen. She is tied up and placed in detention. Harry misses her and in his search of the Joss house, discovers her place of detention. He demands her release, but it is only after a great struggle with the Chinese inmates that he has any success whatever.

Mother of Judge Strange Again Stricken With Paralysis

Judge H. B. Strange was once more called to the bedside of his mother who has suffered another stroke of paralysis. Mrs. Strange is beyond the allotted time of three score and ten and fears are held that she will not survive this repeated attack.

MR. J. M. BECK

Has Fine Yield Sweet Potatoes

Mr. J. M. Beck brought to the News office samples of some especially fine sweet potatoes grown on his place. The yield is four and five to the vine all of an equal size and of splendid color. Mr. Beck is particularly pleased with this year's crop which he believes will produce a greater net profit than any season heretofore.

FINE FIGS FROM TREES

In Yard of Mr. P. G. Franklin of 44 Main St East

The News was presented and indebted for a basket of most delicious figs from a tree in the yard of Mr. P. G. Franklin, No. 44 East Main St. They are of the dark red California variety exceedingly large and especially sweet flavored. The tree is bearing abundantly and will afford Mr. Franklin a satisfactory supply for preserving purposes.

HAVE YOU WEAK LUNGS?

Do colds settle on your chest or in your bronchial tubes? Do coughs hang on, or are you subject to throat troubles? Such troubles should have immediate treatment with the strengthening powers of Scott's Emulsion to guard against consumption which so easily follows. Scott's Emulsion contains pure cod liver oil which peculiarly strengthens the respiratory tract and improves the quality of the blood. The glycerine in Scott's Emulsion keeps the tender membranes of the throat. Scott's is prescribed by the best specialists. You can get it at any drug store. Scott & Borden, New York, N. Y.

A BIT OF ADVICE

First, Don't Delay—Second, Don't Experiment.

If you suffer from backache, headaches, or dizzy spells, if you rest poorly and are languid in the morning; if the kidney secretions are irregular and unnatural in appearance, do not delay. In such cases the kidneys often need help. Doan's Kidney Pills are especially prepared for kidney trouble. They are recommended by thousands. Can Statesboro residents desire more convincing proof of their effectiveness than the statement of a Statesboro citizen who has used them and willingly testifies to their worth?

S. F. Olliff, merchant, Statesboro, says: "I can conscientiously recommend Doan's Kidney Pills to others, who may be in need of a kidney medicine. I have given them a thorough trial and they have done me more good than anything else I ever took for kidney trouble."

Lowering the Death Rate of Children Makes Large Families Un-necessary

By VIRGINIA C. GILDERSLEEVE, Ph. D., Dean of Barnard College

THE chief reason why our sex has been so strenuously thrusting itself toward the front of the stage is that for the last fifty years or so, because of rapid social and economic changes, we have been storing up a great reservoir of unused feminine energy.

To enumerate briefly some of the reasons for this storing up of surplus feminine energy: Fifty years ago the home was an industrial organization which supplied enough work to absorb all its feminine members in directing and laboring, in bearing and caring for children, in educating young girls who had no other mode of training save this home apprenticeship.

THIS LABOR HAS BEEN DONE AWAY WITH BY THE REMOVAL OF WORK FROM THE HOME TO THE FACTORY.

Even more important in releasing feminine energy has been the fall of the death rate and the birth rate. There is no longer need for such a high birth rate to keep population sufficiently numerous. In large families of former days many children did not survive infancy. Who that has ever known the tragedy of one of these brief lives can regret that changing conditions have at least partially done away with the fearful drain on woman's vitality of bearing and losing children?

FAR BETTER IS IT THAT THEY SHOULD PERFORM THEIR VITAL AND PRECIOUS SERVICE OF PERPETUATING THE RACE THROUGH A LOWER BIRTH RATE AND THE DEVOTION OF SOME OF THEIR ENERGY TO THE REDUCTION OF THE PERCENTAGE OF INFANT MORTALITY.

NO EXTRA SESSION IS NOW IN SIGHT

President Will Not Take Risk Unless Necessary.

DEMAND IS NOT POPULAR.

Comes Largely From a Few Members of Congress Who Are Demanding an Extra Session—Talk of Embargo Often Heard, but is Seldom Considered Seriously by Majority.

By ARTHUR W. DUNN.

Washington, Aug. 3.—[Special.]—Extra session talk appears on every pretext. The last time it was sprung the assertion was made that President Wilson wanted congress to take early action to improve our national defense. It may be asserted with considerable positiveness that only the threat of war and the necessity for congressional action in case of war will bring congress in extra session. President Wilson does not want congress in session, siding in affairs of state which he feels abundantly able to handle himself.

Another reason why an extra session will not be called at this time is because it would create the greatest amount of speculation and conjecture. Most people would assume that war was imminent if an extra session should be called. The president is not going to take any such risk unless it is necessary.

Demand is Not General.

The demand for an extra session is not general. For the most part it comes from those whom the president has least cause to consider as good advisers. Few members of congress want an extra session, and those who advocate it are men who would like to stir up things, such as putting an embargo on goods going to England as long as she interferes with our shipping, forcing action in Mexico, wanting to know what Japan really means to do in China and whether we intend to hold up a great navy and strengthen the army. These are subjects the president proposes to handle in his own way for a time.

Talk of Embargoes.

How freely people talk about embargoes on this or that article; how simple it seems as a means of bringing a nation to terms or stimulating certain lines of activity! But it is a fact that an embargo is always unpopular and leads to all sorts of complications. It was tried in the early days of the government in dealing with foreign questions and found to be vexatious. Only recently we found that placing an embargo on arms going into Mexico proved to be a troublesome proposition. The fact that embargoes work injustice to innocent persons make them unpopular.

The demand for an embargo on munitions to the allies is futile because the plants would be established in Canada and the output would soon be as great as at present. An embargo on goods to England would injure more people in this country than are now injured by the interference by England with our shipping.

Has a Familiar Sound.

There is not much going on in politics these days, but from time to time there emanate from different quarters in New York, chiefly interviews with New Yorkers, statements that New York

will probably present Governor Whitman for vice president at the next national convention. When the New York machine wanted to get rid of Governor Roosevelt, it presented him for vice president. The talk of Whitman for second place has two meanings, one is that they want him out of the way in New York and the other that they do not think him available for president.

Uncle Sam May Get His Bit.

The strikes in various factories where war munitions are being manufactured is simply the result of a desire of every person who can to get his bit out of the war in Europe. Men see the manufacture of powder, shells and all other kinds of war material growing wealthy on account of the large profits they are making and they want a share of the good stuff. Our government has been looking on and some of the officials wondering how the nation might get a share. It cannot levy an export tax, but the time is coming when it must re-enact the war revenue tax, and it can lay a pretty good stiff tax upon all "munitions." It can carefully avoid a suggestion that it is export tax by making the levy on all such articles manufactured, by taxing all articles that go into the making of war materials. This may be attempted during the coming session.

"They Are Kicking In."

"They are kicking in," was the comment of a man who had just read the latest utterances of Roosevelt and Bryan. One is talking in the churches about turning the other cheek, and one is talking to the crowds and reporters, but both are kicking into the game. They don't propose to be left out of the big time next year. You just mark my word, and if there is no war you can't keep them out. One will be the candidate of the peace people and the other of the war people. Wilson? Oh, in case there is no war Woodrow will fall between the two stools.

Substitution of the Sword

For Law the Great Menace of Civilization

By THOMAS CARMODY, Former Attorney General of New York

It was wisely said many years ago that he is a great benefactor who can make two blades of grass grow where one grew before, BUT A GREATER BENEFAC-TOR IN OUR DAY IS HE WHO CAN MAKE A CITIZEN STAND WHERE A SOLDIER STOOD BEFORE.

There stands upon the threshold of this great subject the horrible example of law defied by force, of the world reeling before the law of the sword.

MAN, AS A PART OF CIVILIZED SOCIETY, MUST BOW TO LAW EVERYWHERE ON EARTH, NO MATTER WHAT HIS WEALTH OR TITLE, BUT NATIONS ARE NOT COMPELLED TO BOW TO IT ANY- WHERE ON EARTH, PROVIDED THEY HAVE THE PHYSICAL POWER OF RESISTANCE.

How Customs Vary.

The public wants Buick Sixes—so many of them that we shall build nothing else in 1916

PIONEER BUILDERS OF VALVE-IN-HEAD MOTOR CARS

BUICK SIX-CYLINDER

\$985

Regardless of the car you buy or the price you pay, nowhere can you get greater value

More enduring than chrome vanadium steel, more wonderful than the finest workmanship, is the idea that can dominate an industry.

In this day when more Buicks are being built than ever before it is interesting to remember that the distinguishing characteristic of the Buick, the Valve-in-Head Motor, has existed as an idea for twenty-five years and been built into Buick cars for thirteen years.

From 1903 to 1907 the Buick Valve in Head was a two cylinder engine. From 1908 to 1914 four cylinders dominated the field and the Buick Valve-in-Head Four dominated other types. The Buick Valve-in-Head Six was first put on the market in 1913. Four cylinders were also continued but the Valve-in-Head Six had stired the imagination of the car-buying public. The demand from the start outpaced the production.

This demand has become so overwhelming that now—for 1916—the

Four gives way to Sixes. Two chassis, both Sixes, with roadster, touring car, coupe, sedan bodies. The Six has been made standard because in the Six the Valve-in-Head idea has its greatest opportunity for service.

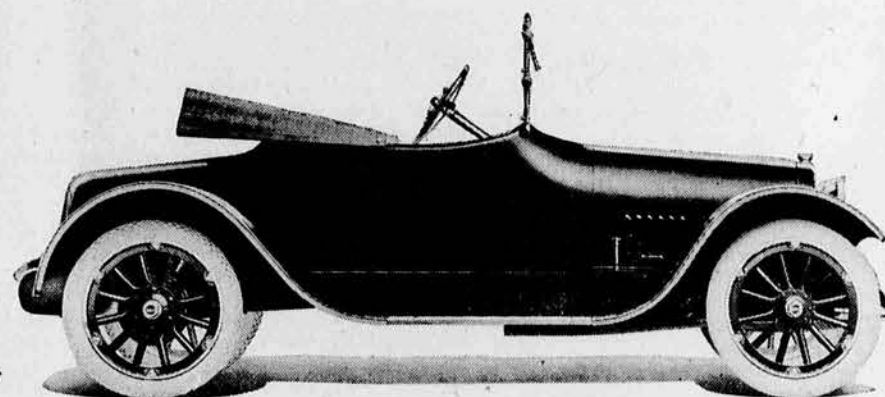

Also since the first appearance of the Buick Six there has risen an insistent demand for smaller Buick sixes.

The Six is a natural, logical, efficient form for the Valve-in-Head type. Never before has the Valve in-Head idea had such inadequate materialization.

This year the Buick factory is arranged for Sixes exclusively. The production will be large. Demand necessitates a steady stream of Buick trains leaving the factory during the season.

And the power, Economy, Dependability and comfort of 1916 Buick Sixes justify this demand more than ever. Study the specifications and you'll see why.

HORSE POWER—Built regularly in 45 and 55 horse power, Six-Cylinder Valve-in-Head motor with two size chassis, WHEEL BASE—115 and 130 inches REAR AXLES—Genuine full floating with spiral bevel gear drive. About Georgia and Georgians

Items of Interest Concerning People and Things in the State

Atlanta, Aug. 4.—A bill that will make possible the improvement of streets and pavings in all the towns and cities of Georgia of over 1,000 inhabitants is attracting considerable attention in the legislature.

It is a measure introduced by Representative John S. Dorsey of Cobb county to give all municipalities in Georgia of over 1,000 inhabitants the same paving rights for which the city of Atlanta is asking.

The substance of what Atlanta asks is the right to pay paving by levying the full cost of the paving against the property which benefits from it, but arranging so that the cost can be paid by ten annual installments, and providing that the good condition of the paving must be guaranteed by the contractor for a period of five years and a fund set aside by the city to maintain it for the subsequent five years.

Mr. Dorsey's statewide bill follows this in substance, but leaves each municipality free to say whether it shall make use of the right involved. It is believed that the passage of the measure will aid materially in putting forward the general good roads movement in this state.

Atlanta, Aug. 4.—Many negroes in Georgia and other cotton-growing states are interested in a bill which has been filed in the federal courts to gain compensation for work performed by slaves during the years from 1850 to 1865 in the production of cotton in the Southern states and the preparation of this cotton for the market.

William G. McAdoo is made the defendant in his official capacity as secretary of the treasury. The bill sets forth that the secretary of the treasury has possession, and the defendant now holds certain money which was a part of the fruit of the labor of the plaintiffs, amounting to \$88,072,388, under the internal revenue tax on raw cotton and that this sum is not the legitimate property of the United States and should be paid to those by whom the labor of the cotton yielding this revenue was produced.

Another paragraph of the bill reads: "Plaintiffs and such of them as claim here as heirs be subject to a system of involuntary servitude in the above named states and other states commonly known as the southern states, in order to awaken further public interest and to have the secretary of the treasury disclose the source from which the sum held by him was derived. The suit will be heard, if at all, in the district supreme court at Washington.

Atlanta, Aug. 4.—The Georgia Anti-Saloon League leaders are fighting hopefully and determinedly to bring their measures to an issue on the floor of the house despite adverse committee reports.

Referring to the conditions under which the services were rendered the petition says: "That the system of involuntary servitude by which plaintiffs were dominated, forced plaintiffs and their ancestry against their free will and by coercion and fears of bodily injury or destruction, to render said work."

The petition asks that the case be referred to a master in chancery to take proof of the claims of the parties interested, and that a bill of discovery shall be issued to ascertain among whom the money shall be distributed, and the amount that each shall receive.

They believe they will win their fight, but have stated in the event they lose they will set about a state-wide movement to elect a new legislature next year, is viable to prohibition in Georgia.

They insist that the legislature as a whole go on record one way or another on the question of whether the beer saloons and the locker clubs shall go or stay.

They say they don't propose this year to let rules and committees block action on the measures and that their appeal is to the assembly as a whole. FARM CO-OPERATION.

In Ohio in some of the wide
awake counties farmers have
united to retain, by law, officers
whose business it is to spray all
orchards every spring. This is
wholly preventive. They spray
when the trees are dormant, and
they never spray on a sunny hot
day with a liquid spray since it
burns the plant to do so. This
officer knows how and when to
spray and which sprays are ef-
fective for each kind of insect.
For instance, poisons which are
effective for one sort of pest do
not hurt stinging or boring or
sucking insects. In this way a
competent or expert man earns
his salary and the farmer need
not trouble his head with these
details.

Liquid Manure.
Liquid manure is a stimulant and
not a substitute for manure of a more
solid character. It is taken up by
straw or other bedding material.
Solid manure on heavy soils should
be applied liberally in the autumn and
turned under. Liquid manure is ben-
eficial when applied while the plants
are making growth or in early stages
of flowering or fruiting. Flowering
plants receive the greatest benefit
from liquid manure before the buds
show color, vegetables when about half
grown, foliage plants when new growth
has become well advanced and fruit
trees when the fruit is half developed.
Plants that are to receive treatment
with liquid manure should first receive
an application of pure water.
Liquid manure is prepared from the
excrement of horses, cows, sheep, pi-
geons or chickens or from commercial
fertilizers. The first two are generally
used. For use in the garden a supply

of this useful liquid can be had by
arranging a barrel as shown in the il-
lustration.

The barrel is placed on a platform or
table high enough to permit a pail or
watering can to be set under the
spigot. A metal pail is pierced on the
side and bottom, and the fertilizer
placed in the pail, which is suspended
in the barrel with rope or wire, and
the barrel is then filled with water. A
bag can be used in place of the pail
and will permit of stirring somewhat
by turning the bag and raising and
lowering it until the water has ex-
tracted the fertilizer material, when it
will be ready for use, first diluting the
liquid with water until it is of the
color of weak tea. Chicken and pi-
geon manure is very strong, and only a
peck should be used to thirty-two
gallons of water.

Always apply liquid manure directly
to the roots of the plants, being care-
ful not to wet the foliage or flowers.
Pot plants should not be treated often-
er than once a week.

GLASS OF SALTS IF
YOUR KIDNEYS HURT

Not less meat if you feel Backache or
have Bladder trouble—Salts
fine for Kidneys.

Meat forms uric acid which excites
and overworks the kidneys in their efforts
to filter it from the system. Regular eat-
ers of meat must flush the kidneys occa-
sionally. You must relieve them like you
relieve your bowels; removing all the
acids, waste and poison, else you feel a
dull misery in the kidney region, sharp
pains in the back or sick headache, dis-
eases, your stomach sour, tongue is
coated and when the weather is bad you
have rheumatic twinges. The urine is
cloudy, full of sediment; the channels
often get irritated, obliging you to get
up two or three times during the night.
To neutralize these irritating acids and
flush of the body's urinous waste
get about four ounces of Jad Salts
from any pharmacy; take a table-
spoonful in a glass of water before break-
fast for a few days and your kidneys will
then act fine and bladder disorders dis-
appear. This famous salt is made from
the acid of grapes and lemon juice, com-
bined with lithia, and has been used for
generations to clean and stimulate slug-
gish kidneys and stop bladder irritation.
Jad Salts is inexpensive, harmless and
makes a delightful effervescent lithia-
water drink which millions of men and
women take now and then, thus avoiding
serious kidney and bladder diseases.

LANGSTON'S LOGIC

The Female Pharisee

Rud Kipping once upon a time this
gospel did exhort that the female of
the species is more deadly than the
male; but Rudyard wasn't talking of
the rare and radiant things, the female
myths of Tommy Moore, who soared
on gauzy wings; their heads blushed
with aureoles, so heavenly and bizarre
—but real women, flesh and blood just
females as they ARE. The women
Tommy wrote about, the female so
divine, he only saw 'em in his dreams,
or when inflamed with wine. Tho'
Rudyard knew the real thing it made
him seel-nose to tell the naked truth
about the female Pharisee. The one
who sits up in the choir and howls:
beat the band, who shrieks of love to
God, and yet she scorns her fellowman.
She loves to bring the fallings of her
neighbors to your view, and by her
attitude she says, "I am holier than
thou." If her sister from the narrow
path of virtue chance to stray, does she
ever lend a hand to help back to the
narrow way? Does she essay a kindly
word the erring one to cheer?—nay,
word the erring one to cheer?—nay,
say, Pauline; she freezes her with icy
glance and sneer. She hideth not her
fault she sees; it giveth cheer to her
to spread the news to all the world,
from Dan to Beersheba. If a brother
chance to stumble, can he look for
charity? can he ever get forgiveness
from the female Pharisee? Nay; this
female, unforgiving, she doth snub
him with a frown, and she knocks
him and she kicks him, just to keep
the fellow down. And when this fe-
male Pharisee is called upon to go,
we'll write upon her tomb, "Praise God
from whom all blessings flow."

WAGON HAULS FOR
FARM PRODUCTS

Great Benefits Accrue to Farm-
ers From Better Roads.

RAILROADS CUT DISTANCES.

Cotton States Have the Longest Hauls
to Market and New York State Has
the Shortest—General Improvement
Marks Recent Years.

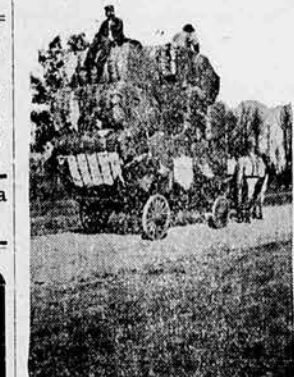

It would require about 6,358,000 days
for one wagon, or that number of
wagons for one day, to haul from the
corn crop of the country the portion of
the corn crop that is marketed in an aver-
age year. It would require one wagon
6,857,000 days to haul the average
wheat crop to the market or to ship-
ping points and 2,532,000 days to haul
the cotton crop.

These figures are contained in a farm
bulletin just issued by the department
of agriculture, which deals with the
subject of wagon hauls for farm prod-
ucts. According to this bulletin, the
average distance of the farms of the
United States from market is over six
miles, while those farthest away from
market average more than eight miles.

The average distance of farms in
New York state from the market is
five miles, while the average for the
more remote farms is seven miles. This
means that for the general aver-
age New York farmers are one and
one-half miles and those more remote
ly located 1.7 miles nearer market than
farmers generally throughout the coun-
try.

It would require one farm wagon
55,400 days to haul to market an aver-
age wheat crop in New York state,
while the marketed portion of an aver-
age corn crop could be hauled by one
wagon in 3,400 days.

The bulletin is based on reports re-
ceived from county and township crop
correspondents by the bureau of crop

HAULING COTTON TO MARKET.

estimates. These reports show that
the longer hauls to market generally
are in cotton states or in the Rocky
mountain region. The smaller loads
also are in the cotton states. The aver-
age size of a wagon load of cotton is
three bales, or 1,500 pounds, while the
average wagon load of wheat is 53.5
bushels, or 3,220 pounds.

However, while the size of the cotton
load is much smaller than that of the
corn load, the value of the former is
greater. The average value of a load
of cotton, based on farm prices Dec.
1, 1913, was \$183; wheat, \$43; corn,
\$28.

The bulletin states that wagon hauls
are much shorter this year than 1909,
when the last similar inquiry was
made.

"Railroad building," it is stated,
"during the past nine years has
brought some farms nearer to shipping
points and markets and has helped to
shorten the average distance hauled
and to increase the average number of
trips per day."

"During the seven years following
1909 more than 22,000 miles of new
railroad were built, and several thou-
sand more miles have been added since
1912, so that there are at least 15 per
cent more miles of steam railroads in
the United States now than in 1909."

"In addition to this new mileage of
steam railroads the hauls of some
farmers have no doubt been shortened
by new freight carrying electric rail-
roads."

The figures indicate a considerable
rise in the average cost per day to the
farmer in hauling his products. How-
ever, this higher cost per day is offset
partly or wholly by the larger quanti-
ties hauled per day in 1913 compared
with 1909.

Highway Legislation in Arkansas.
Among the enactments affecting
road work made by the legislature of
Arkansas is a proposed amendment to
the constitution which will have a
very marked effect upon road work of
the state, according to reports.

The amendment has been adopted by
both branches of the legislature and
has been approved by the governor,
but must be voted upon by the peo-
ple of the state at the next general
election. It permits counties to issue
bonds for the construction of roads up
to an amount that can be cared for by
a three mill levy on all taxable prop-
erty within the several counties, the
life of the bonds not to exceed thirty
years.

It is reported that no opposition to
the adoption of the amendment is ex-
pected.

AVERITT AUTO COMPANY

Advise us They are Unable to De-
liver the Saxon "Six" Automobile
Before the End of October on ac-
count of Factory being Sold up.

THIS ANNOUNCEMENT

Means a setting a head the Closing Date of this Great
Subscription Campaign—Also Means a Possibility of a
Greater Grand Prize.

When the letter from the
Averitt Auto Co. Reached us,
we at once conferred with
them relative to the 5
passenger 1916 model 6
cylinder Buick car and we
have made arrangements
with them by which they
agree to deliver one of these
cars on or about September
20th. We are going to
make this an added feature
in this great contest and
give the winner of the
grand prize this car pro-
viding the total subscrip-
tion list for the contest
reaches 3000 subscribers.
Remember this does not
in any way interfere with
the present offers regard-
less of this offer the same
prizes will be given. The
\$785 Saxon six grand prize
—upright grand piano, val-
ue \$800.00, second prize
Sea trip to New York City
and ten days entertainment
in the City third prize and
a commission to every non
winner in the contest. The
offer means that if the
\$3,000.00 mark is reached
the winner gets the Buick
instead of the Saxon six.

Another Reason for
Postponement of
Closing Date that
will be of Inter-
est to Every
Contestant

We have been receiving
letters almost daily from
present subscribers and
people who want to sub-
scribe, but they say they
have no money until the
crop begins to move—this
will mean a wonderful
field for contestants to work
beginning about the 1st

of September—it will mean
a possibility of contestants
securing dollars then where
they cannot only secure
promises now. With plenty
of money in the country
and crops moving and sell-
ing there will be hardly
any question of the sub-
scription list running up to
3000 subscribers when we
agree to give the 6 cylinder
3 passenger car as grand
prize. Another interesting
feature comes up also and
that being that the New
York Sea trip will be much
more pleasant at the later
date as the whole City will
be ablaze with life and ev-
erything will be open for
the winter season.

Candidates should wel-
come this good news with
open arms, but should not
make the mistake of just
"letting the boat rock." During
this month when things
are quiet and when the
possibilities of much re-
turn is limited is the time
to do some steady telling
work, get around and see as
many people as you can—
tell them what you want
—get their promises of sup-
port—their promise to let
you have their subscription
when the time comes—
make a list of these prom-
ises—try and get dates if
you can—and then watch
and keep in touch with
these people. While you
are getting no results right
now that count, you will
see the time when the labor
that you put forth now will
bear fruit—when you can
make the rounds and just
pull in the subscriptions.

Special Bargain Offer for two Weeks
Thursday August 19th at 9 P. M.

This offer is made so that every dollar turned in for
subscriptions will share in the extra vote offer—read
carefully and then clip this and keep for reference.

Dollar Subscription earns you 9,500 Extra Votes.

Advertising and Job Print-
ing Contracts will be worth
just Five Times the regular
Voting Scale during the
next two weeks ending on
Thursday August 19th.

Now getting down to brass tacks
how do you feel about it. By the
time the crops begin to move and
the people have money we will be
in pretty good position to know of
the possibilities of boosting the
subscription list to 3000—we have
already told you what this means
to the winner of the grand prize.
Hitting the 3000 mark means
working right now and adding
each day subscriptions we can't
lay down and all start work when
the time is ripe and there is money
in the country—that would be

like starting all over again now—
the game is to take every single
subscription that can be gotten
right now—every dollar counts 1
—two counts 2 and first thing you
know you have a dozen or two
dozen—don't take many of these to
run to 100 and it doesn't take
many hundreds to pile up towards
one thousand. You can get
your share and not only do this
but making it possible for the
"picking to be easy" later in the
fall. This paper stands ready to
give every contestant in this race
all the assistance and advice that
is at their command—don't hesi-
tate to ask for it—come in and
talk with us—we certainly have
an attractive proposition and if
you can go out and get subscrip-
tions we will make it a profitable
job for you.

The Statesboro News
Statesboro, Ga.,
Gentlemen:—

Upon advice from the factory we are forced
advise you that we will not be able to deliv-
er the Saxon 6 car until the last of October,
as orders booked will take up the entire out-
put until that date. We can now ever deliver
to you about Sept. 20th to Oct. 1st, a 1916
Model 6-cylinder Buick, the car that has set
the whole automobile world talking--of course
you understand the Buick is a much higher
priced car. Please let us know in regard to
the matter as soon as convenient.

Yours very truly,
AVERITT AUTOMOBILE CO.

This letter will necessitate
the postponement of the
closing date, as we must
have a definite date of
delivery of the car before
announcing the closing
date.

JOHNSON AND FREEMAN

Convicted of the Murder of Cuyler Green

I. L. Freeman and Will Johnson whom Sheriff Mallard so cleverly ensnared two weeks ago immediately after they had murdered old Cuyler Green were yesterday convicted by a jury who returned a verdict of guilty in the present term of the Superior Court now in session with Judge Hardeman presiding. The verdict was murder in the first degree without recommendation against Johnson and with recommendation for Freeman. Judge Hardeman sentenced Johnson to hang September 14th and Freeman to life servitude. Will Rhodes charged with being an accessory to the crime is awaiting trial. At the coroners inquest these men confessed to the crime but before being brought to trial decided to enter a plea of self defense which however was of no avail.

JUDGE REMER PROCTOR BUYS FARM TRACT NEAR TOWN

Mr. J. F. Fields, Real Estate Agent sold for Mr. J. S. McKell a 114 acre tract of farm land to Judge Remer Proctor who purposes to later on develop it in special cultivation on plans that are not yet fully matured. Judge Proctor believes that land values will substantially increase and he considers that he has made a good investment.

Death of Mr. Joe F. Olliff

Mr. J. F. Olliff, one of Statesboro's prominent and well known citizens who always took part in the progress and uplift of his home community died Friday morning July 30th after a short illness of but a week. Mr. Olliff was at one time chief of police of Statesboro. A family reunion which has been a custom for many years on the occasion of his mother's birthday was to have been held the day prior to his death but was in consequence of his illness postponed. Besides his mother Mr. Olliff is survived by his wife and six children: Homer and Joseph Olliff; Miss Jessie and Mary Lee Olliff; Mrs. G. A. Boyd; Mrs. W. P. Jones residing at Cordeiro, Ga. Mr. Olliff had eight sisters all of whom also survive him. Mrs. Mattie Barnes and Mrs. E. D. Fletcher, of Statesboro; Mrs. J. N. Jones, Ocala, Florida; Mrs. J. R. Miller and Mrs. James Newsome, Savannah; Mrs. Roger Cason, Bulloch county and Mrs. A. E. Wilson of Statesboro. Interment was in Eastside cemetery.

Card of Thanks

The family and relatives of the late Mr. J. F. Olliff wish thru this source to cordially extend their heartfelt thanks and appreciation to the many friends who rendered them their assistance and words of sympathy during the illness and death of their beloved husband and father.

OLDER BUT STRONGER

To be healthy at seventy, prepare at forty, is sound advice, because in the strength of middle life we too often forget that neglected colics, or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years. To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-nourishing properties of Scott's Emulsion which is a food, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sciatica. No alcohol in Scott's.

Paint Better

Better isn't enough; paint best. A man bought "cheap" paint; saved 20c, or 30c, or 40c, or 50c a gallon, didn't he? Yes, and bought 50, or 60, or 80 per cent more gallons; how much did he make on his paint? And he paid for painting those gallons—a fair day's work is a gallon—how much did he make on the labor part of his job? He lost a quarter or a third of his money.
How long will it last! not his money, the paint!
