\$1.00 Per Year

Statesboro, Georgia, Thursday, September 16, 1915.

Vol. 15 No. 28

TO OUR PATRONS Greeting:

Your presence will be appreciated at our annual autumn millinery and wearing apparel exhibit.

THURSDAY, FRIDAY AND SATURDAY
September Sixteenth, Seventeenth and Eighteenth.

Cordially yours,

Brooks Simmons Co.

MIDLAND RAILROAD

Station and Superintendents Office in Jaekel Hotel

The Midland railroad will maintain their uptown office in Statesboro in rooms now being prepared in the east end of the hotel Jaekel. Very commodious quarters are well toward the finishing touch and these will house the local agent, Mr. Sam Moore who will operate the ticket office and local business from this point in these official quarters. Mr. C. E. Clark the superintendent will also have his personal office in the rear of the ticket office. The Midland train time schedule in effect between Statesboro and Stevens Crossing is published on another page of this issue.

Statesboro High School Opening

The fall and winter term of the Statesboro High School opened most auspiciously Monday September 6th. There were upwards of a hundred or more pupils than were in attendance last season. A delightful music program was rendered under the direction of Mrs. Quattlebaum. Rev. Mr. Harden offered a reading and prayer.

A most interesting and particularly valuable talk was given the students by Mr. G. S. Johnston, chairman of the school board. Others who addressed the assembly were C. A. M. Deal and former superintendent, J. L. Renfro and Representative Fred Lanier.

Col. Johnston introduced the new principal, Mr. B. B. Earle, who talked interestingly on the home and school and dwelt especially on the necessity of co-operation between the faculty and student. The outlook is particularly bright for a successful term of the Statesboro High School which has already gained an enviable reputation throughout south-east Georgia.

The amount of coal taken from the ground in July last in Rhodesia went ahead of all previous records.

HAVE YOU BEEN SICK?

Then you realize the utter weakness that robs ambition, destroys appetite, and makes work a burden. To restore that strength and stamina that is so essential, nothing has ever equalled or compared with Scott's Emulsion, because its strength-sustaining nourishment invigorates the blood to distribute energy throughout the body while its tonic value sharpens the appetite and restores health in a natural, permanent way. If you are run down, tired, nervous, overworked or lack strength, get Scott's Emulsion today. It is free from alcohol. Scott & Bowne, Bloomfield, N. J.

W. H. RUSHING

Well Known Register Citizen
A Statesboro Visitor

W. H. Rushing, who at the last election was a candidate for the office of tax collector, running a very close race, was a Statesboro visitor Thursday shaking hands with his friends and making new acquaintances. Mr. Rushing states that business conditions are on the improve in and around Register and they anticipate a fairly good fall trade in his home town.

Little Grace DeLoach.

Grace, the five year old daughter of Hon. R. J. H. DeLoach of Experiment Station, Ga., died at the home of her aunt Mrs. C. W. Ennis, Wednesday, after a short illness which at first was not thought serious. Funeral arrangements were unannounced waiting the arrival of her parents enroute from San Francisco.

Paint Now

If your property needs it; don't wait. There are two parts of a job; the paint and the work; the work is more than the paint. The cost of paint is about two fifths; the work three fifths. Paint won't come down in a hurry; too many jobs put off. Men are waiting for \$2 or \$3; they don't know it; they think they are waiting for \$20 or \$25. Why don't men use their heads? DEVOTE.

Mrs. C. B. Clanton

Mrs. C. B. Clanton, daughter of Mr. and Mrs. J. G. Mitchell, died at the home of her parents Wednesday morning at 8 o'clock. Her home was near Stillson. The funeral was held Thursday at 4 p. m. from the Methodist church attended by many and sorrowing friends.

WHAT'S THE REASON?

Many Statesboro People in Poor Health Without Knowing the Cause

There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from nervousness, dizziness, weakness, languor and depression. Perhaps the kidneys have fallen behind in their work of filtering the blood and that may be the root of the trouble. Look to your kidneys, assist them in their work—give them the help they need. You can use no more highly recommended remedy than Doan's Kidney Pills—endorsed by people all over the country and by your neighbors in Statesboro.

Mrs. G. H. Mock, 48 N. Main st., Statesboro, says: "Whenever my back gives out and I am feeling run down from kidney trouble, I use Doan's Kidney Pills with fine results. My work is made easier after using this medicine. Another of the family has used Doan's Kidney Pills with fine results. We recommend them highly." Price, 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Mock had. Foster-Milburn Co., Props., Buffalo, N. Y.

THE COTTON SITUATION

As Viewed by the State Department of Agriculture

Atlanta, Sept. 13.—Estimates of the Georgia cotton crop made by the state department of agriculture, over the signature of Commissioner J. D. Price, are but a small fraction under those made by eastern agencies of well known bias. It is a remarkable fact that while the eastern people are publishing estimates of 68.5 per cent of an average crop, Commissioner Price's estimate was 67 per cent, or just one and one-half per cent under them. The state department believes that, if anything, its estimate is a little too high.

"After visiting many counties in the state, in southern, middle and northern Georgia," said Commissioner Price, "I am more than satisfied that my estimate of the cotton crop is, if anything, a little too high. I am gratified to note that the northern and eastern people who spare no expense in the matter of getting their estimates, are only 1.5 per cent above me. They figure 68.5 per cent of an average crop, while my estimate was 67 per cent.

"The price of cotton right now, as compared with last fall, looks good to me, and while I am not over optimistic about it, I am gratified to note that the regional bank and its associates are going to lend money to farmers on cotton at 6 per cent, in case the farmer prefers to borrow at this rate of interest instead of selling at present or similar prices.

"Fortunately, we are not confronted with the same conditions which we had to contend with last year, when there was no price and no money to be had except at exorbitant rates of interest. Conditions now are better. There is plenty of money and the bankers and business men generally seem to be friends of cotton.

"There is one very important feature of the situation brought about by the reduction in acreage and the reduction in the use of high grade fertilizers. As pointed out by Mr. Anderson of the Macon Telegraph, have you stopped to think that if the war continues, our facilities for obtaining potash to make high grade fertilizers will be worse next year, because we have no supply of potash on hand, and, necessarily, the crop will be as short or shorter than this year, which points to a good price for cotton. It is at least fortunate that the reduction in yield raises the price to where the farmer realizes as much money as if he had a big crop.

"Now, Mr. Farmer, it is up to you to raise your home supplies and be independent. Have the buyer come to you and ask what you will take for the cotton you have on hand, instead of being worried to death as to who will buy it and what price he will give. Plenty of hog and hominy is the solution of the whole problem.

"The long-dreaded boll weevil has at last appeared in south Georgia. Some fifteen or eighteen counties are already infected. The state board of entomology, of which I am chairman, has called a meeting at Thomasville, in connection with business men and present chambers of commerce of that section, to devise plans to prevent the spread of this pest, to minimize, insofar as possible, its effect upon our next crop. It is important that every step to this end be taken, as the work of the weevil will affect directly or indirectly everybody in the state. Neither this

RUSSIAN TROOPS DRINKING TEA UNDER BURNING SUN IN POLAND

In this illustration are shown Russian troops in Poland. These men are sitting at long tables drinking tea. They were passing through this district and the tents were not erected when the photographer snapped this picture. The heat in Poland is intense, and a tent in spite of a plague of flies is preferable to sitting under the burning sun.

IRREGULARITIES IN ACCOUNTS

Of Keeper of Public Buildings of the State Department

Atlanta, Sept. 13.—An audit has been ordered of the books of the keeper of the public buildings and grounds of the state in order to definitely determine whether there is an actual shortage as rumored.

According to a statement to-day of Executive Secretary Raymond Stapleton, there is a shortage of approximately \$2,000, but it was admitted that there was no definite information at hand to bear out the assertion and none can be had until a complete audit of the books is made. The books are those in charge of the assistant keeper of public buildings, C. E. Holcombe. Some rumors placed the alleged shortage as high as \$11,000. It was stated by Pierce B. Latimer, keeper of public buildings, that the investigation of the assistant keeper's accounts was begun Sept. 2. It was said at the Governor's office that the only action to be taken, if any at all, would be of a civil nature.

department nor the state board of entomology will spare any pains or effort in assisting the farmers of Georgia to successfully combat this pest."

Knew Their Parts.

N. C. Goodwin, at an annual luncheon in a Los Angeles rose garden was joking about divorce evil, according to the Pittsburgh Dispatch.

"I know a man," he said, "an actor man at that, who was about to marry for the seventh time, think of it! His bride, too, had already had, despite her youth, four husbands. Dreadful, eh? Well, this engaging pair put at the bottom of the handsomely engraved wedding invitations they sent out a postscript reading: 'P. S.—Be sure to come. This will be no amateur performance.'"

OVERCROWDED HIGH SCHOOL

Statesboro is in Urgent Need Of a New School Building or Greatly Increased Facilities of the Present One.

The dire need of greater school room is certainly one of the most important subjects that our citizens and municipality can grapple with and no time should be lost in planning ways and means to alleviate the present overcrowded condition of the High School. The News was really surprised to learn that it was necessary to refuse admission to several from the various grades especially the first third and fifth, the all important grades that should offer opportunity for every child in any city. That this city has not kept pace with the increased population in her school facilities is little short of criminal negligence.

A town's biggest asset is its educational offerings to a prospective settler, and to one who may be an old resident, to have their children denied admission for lack of school room is an unpardonable condition. Upon hearing of several children being returned home after school opening the News investigated and found that the enrollment of about 600 pupils (far in excess of last term) that it had been found impossible to properly place all the lower grades and that some teachers had no one teacher can successfully handle that number of pupils under the system now in effect.

Statesboro is forging ahead at a pace possibly not appreciated by those who are unobservant and it is no little dream to say that we have reached that period when this most vital subject should have our undivided support for a new and modern High School building and facilities that would attract students for preparatory courses. Mr. Citizen it is YOUR duty to look seriously into the matter and not permit a recurrence of the present conditions to blot out our progress.

PROFESSIONAL FARM DEMONSTRATORS

The movement that has taken root to bring to Bulloch county a professional farm demonstrator on the plan as reported exclusively in the News last week in relation to the proposition advanced by Mr. John Kyrgess Giles of the U. S. Department of Agriculture if adopted can be but far reaching in its direct benefits.

Our American farmers are reluctant to accept advice or adopt modern devices as taught by our scientific students and demonstrators produced from our agricultural colleges; at the suggestion of such a procedure the average farmer will at once remark—"what can that man teach me about farming on this land that I've been tilling all my life? and there's the rub, excepting that it should be spelled out—that the average farmer is wallowing in. Right now Bulloch county needs these practical and scientific demonstrators as a permanence more than at any period in her history.

The boll weevil is invading Georgia and we need advice from experienced hand and heads—men who have given much time to the eradication of the pests; we need these men for the maintenance of our agricultural leadership and the preservation of our rich land productivity. Statesboro and Bulloch county is the logical location for the headquarters of this demonstration bureau. The county commissioners and the city administration cannot do a deed of greater benefit to the community than to subscribe the amount required to meet the appropriation of the U. S. government for the establishment of this most commendable undertaking.

NEW DISPLAY WINDOW

In the Store of Mrs. Josie Rogers.

T. J. millinery stor of Mrs. Josie Rogers is being fitted with a new and remodeled display window that will add greatly to the appearance of the place and incidentally afford valuable and attractive view of the goods carried by Mrs. Rogers.

NO VACANCIES FOR STUDENTS

At the G. N. & I. at Millidgeville

It is with great regret that notification is herewith sent you that all the vacancies in the Georgia Normal and Industrial college have been filled. There has not been room for even one-half of the new students who applied for admission to the college this year.

The state has not erected buildings fast enough to keep up with the recent rapid growth of the college and hundreds of satisfactory applications cannot be accepted because of a lack of room. It is then with reluctance that the statement is made that no more students can be accommodated. That the legislature will soon enlarge the accommodations of the college so that a greater number of Georgia girls can be admitted in future years.

Woman's Baptist Missionary Union Meeting

The Woman's Baptist Missionary Union of Bulloch County Association will be held with Statesboro Baptist church Oct. 8th and 9th.

The women of Statesboro Baptist church extend a cordial invitation to the women of Bulloch county association to meet with them and help by their presence and co-operation to make this the greatest meeting ever held by the W. B. M. U. of this association. An interesting program has been arranged for each day. Several of our state workers will be present. Ample arrangements will be made to entertain all those in attendance. We are anxious for every church and society in our county to be well represented. We insist on your coming, will you.

W. M. S. Statesboro Baptist Church.

Liberal Advances on Cotton

The JOHN FLANNERY COMPANY, Savannah, Ga., have the best facilities for storing and hauling cotton, make liberal advances on consignments, and hold cotton when ordered.

STATESBORO DOLLAR DAY

In another part of this issue the Board of Trade announces Statesboro's initial Dollar Day Saturday, Oct. 9th, an event that is planned to become a semi-annual fall and spring affair under the auspices of this commercial organization. The importance of the occasion is of no small calibre; its intent is to bring to our midst on that particular day one or more of Georgia's gifted and best informed men with whom our farmers and business men may meet and converse and who will address us publicly, giving us the advantage of their wide experience in travel and observation, that we may profit thereby.

The Dollar Day feature and title under which the occasion will be promoted by the Board of Trade is meant to convey to the public that the dollar will go farther and have a greater purchasing power on that special day than at any other time. That our merchants generally will offer such substantial reductions in their goods and wares that attendance upon the event will be well worth one's time and money, aside from the educational feature and the knowledge to be derived from the talk of these public speakers.

The Statesboro newspapers are giving the event prominent publicity, and reducing the advertising rates to the merchants so that they may prominently display their announcements in keeping with the reductions in prices they will make; in short, it is to be, and is destined to become, a semi-annual get-together day, when you will learn what your neighbor is doing and will tell him what you are doing, and, withal, have the opportunity to listen to valuable advice as given by the best speakers that may be obtained who are familiar with the needs of the hour as the Board of Trade are pleased to state that they have succeeded in obtaining the presence of Hon. C. J. Haden, president of the Georgia Chamber of commerce, of Atlanta. Mr. Haden, as president of the Chamber of Commerce, secured a \$25,000 donation from the Harvester Company of America to be applied to the GEORGIA DIVERSIFIED FARMING CAMPAIGN that is being promoted by the Chamber of Commerce with some forty speakers who will attend upwards of 3,000 meetings throughout Georgia. With Mr. Haden will come Hon. J. D. Price, commissioner of agriculture of the state of Georgia. Mr. Price is one of the best informed men on the subject of diversified farming that there is in the entire south.

The Board of Trade will dispense free lemonade and provide band concerts thru the day. You will profit in more ways than one by visiting Statesboro on Oct. 9th.

A Historic Wonder.

Some time ago Jones attended a fashionable reception in a big New England town and, not having met all of the people present, the most prominent ones were pointed out to him by a friend.

"The young lady beside the palm reader," said the friend, indicating a statuesque blond, "is Miss Smith. She has great histrionic ability. As a matter of fact, at amateur theatricals she is simply a wonder."

"You don't really mean it?" responded Jones, gazing at the fair charmer.

"Yes," smiled the friend, "she can make the most painful tragedy a source of genuine amusement."—Philadelphia Telegraph.

A Swedish Custom.

Swedish mothers put money into their child's first bath, believing that this brings future wealth.

The Statesboro News

AN INDEPENDENT NEWSPAPER.

Published Every Thursday by THE STATESBORO NEWS PUBLISHING COMPANY

THOS. D. VASSTEN, Managing Editor

SUBSCRIPTION PRICE: ONE YEAR - ONE DOLLAR

Entered at the Postoffice in Statesboro, Ga., as Second-class Mail Matter

THURSDAY, SEPT. 16, 1915.

Looks like 12 cents for the great white staple.

The voters put the state out of the "licker" business over in S. C. the other day by a two to one shot. The boot legs will be longer here after.

America is rapidly becoming the world's pawn shop for stocks, bonds and valuable securities in exchange for our metal, yellow, lead and otherwise in use extensively across the big pond.

Preparedness being the watch word, Bulloch county should get busy to have its scrap with Mexican General Bol Weevil and his pestiferous army who has invaded Georgia and rapidly advancing to the sea.

Someone touched a lighted match under the political kettle over in Emanuel county indicated by the announcement in the Forest-Blade; it'll require some money to supply fuel until the next primary and inasmuch as you have the lead and must give us a handicap later, here's to you Bro. Rountree.

If the price of cotton continues soaring upwards our farmers will discard their Fords and use air ships or (Buy-planes) to go up after the price. Gosh! we hope the Macon Telegrapher don't see this.

Did you ever see a friend or stranger toss a discarded news paper, wrapping paper or paper box on the street? It in itself was a little thing and not of any consequence. But when everybody, or a great many bodies, do the same it litters up the public places and gives the town an appearance of backwardness and slothfulness and decay which operates as a detriment in the minds of all progressive people, especially when those people are from a distance. But instead of throwing down the papers, and kicking off refuse into the street, suppose each citizen should make a practice of keeping the town clean, and bright, and attractive, wouldn't it be good for the eye to see? It's easy to do--if we want to do it.

AN APOLOGY

THE NEWS is due its subscribers an apology on our issue of last week regarding the very limited amount of reading matter presented therein. Truth is we didn't have room in the paper last week to make the most feasible excuse for this lack of reading because of the very great amount of advertising that our local merchants and business men piled in upon us at the last moment before we were ready for printing; and it was also the cause for us being several hours late in issuing. The delay and the omission of reading matter is excusable because of the liberal advertising, and is an indication of activity and renewed business life among our merchants and we are glad to see it, and we know that our readers all join in the same glad feeling. The very liberal amount of local advertising that appeared in our paper is mute acknowledgment of the value of the NEWS as an advertising medium in Bulloch county and the city of Statesboro.

ENCOURAGE THE SCHOOLS

Another season of instruction for the youth of the community is before us.

Let us meet it as becomes an enlightened people who seek to give their offspring an education which will enable them to successfully cope with the many obstacles that will beset their pathway through life.

"But that is up to the teachers--what can we do?" you say.

We may perform our own duty in the premises by extending to the instructors our loyal support and encouragement, both by act and word.

We may impress upon our children the necessity and importance of absolute obedience to the will of the teacher.

We may instill into their young minds the knowledge that unless they improve their educational advantages and opportunities of today, the commercial advantages of tomorrow will pass them by.

This is a day of education, and the man whose mind has received proper training will be found invariably in the ascendant, filling the important positions of life, accumulating the financial competence which their uneducated brothers seek in vain to the end of their days.

It is vitally necessary that our children of today receive every educational advantage possible to bestow upon them, and this may only be accomplished to the full extent by working in harmony with both teacher and pupil.

Be not hasty in condemning the teacher for trivial things, but rather bear in mind that the child who comes home with complaints often voices conditions which exist mainly in its too vivid imagination.

Remember the teacher has reached the age of discretion--the child has not. The reasoning capacity of the one has been extended and broadened and developed to a degree, while the other it is just beginning to bud.

The future life of the children of our community will be smoothed and sweetened by your loyalty to the teacher today, and in your own decline of life you will view with pride the results of wisdom properly applied.

Hives, eczema, itch, or salt rheum sets you crazy. Can't bear the touch of your clothing. Doan's Ointment is for skin itching. All druggists sell it; 50c a box. Adv.

Knew the Game.

She--Oh, dearest, let me comb your hair. Dearest--No. She--Well, let me rub your forehead with eau de cologne. Dearest--For heaven's sake, where's the butt. Give it to me and I'll pay it. --London Telegraph.

The Busy Woman.

"Is she a woman of affairs?"

"Yes--everybody's. She's the neighborhood gossip."--Judge.

How's This?

WE have thoroughly renovated our eight stand Ginnery putting in new saws and brushes.

WE are now prepared to give BETTER service than has ever been obtainable in a cotton oil mill in this section.

OUR Gin Superintendent is one of the most capable ginner in the State of Georgia.

WE will pay the HIGHEST MARKET PRICE for sound, dry, cotton seed at all times.

NOTE--We will have constantly on hand a large supply of meal and hulls for sale.

WE respectfully solicit your patronage.

STATESBORO COTTON OIL CO.

COTTON GROWERS

ATTENTION

Money is plentiful and rates of interest are as low as for many years, and we are prepared to make loans on cotton--say 75 per cent of the market value--at 6 per cent. interest, when stored in warehouse here and properly insured. This does not mean in a small way--we are prepared to handle A QUARTER OF A MILLION DOLLARS of this class of loan.

We do not, however, encourage such loans as long as cotton is in active demand at fair prices, but should the demand slack off and become as it was a portion of last season we are prepared to put money in circulation in this manner.

Farmers, Merchants and Bankers Should Fight for 12c. Cotton

"12c Prices are Justified by the World's Demands, by the Crop Outlook, by the Financial Condition of the Country and by the Opportunities Now Afforded by the Federal Reserve System"--A Campaign to Save \$250,000,000 to Southern Growers

(By CLARENCE POE, Editor of the Progressive Farmer)

I beg space in your columns, price ought at the very least to reach 12 cents a pound for middling. Mr. Editor, to present a subject of the utmost importance to all our southern country. There is no doubt in thoughtful minds but that the south's cotton crop is going to be worth \$750,000,000 to the men who own it next spring, but it is worth only \$500,000,000 to the producers at present prices--and it is to save the southern growers and to our southern country this extra quarter of a billion dollars that the united energies of press and people should now be directed. The fundamental facts seem to me to be clear:

1. Cotton, even though the new crop of 1915 has started coming on the market, is still selling on the basis of prices fixed by last year's 17,000,000-bale crop. These prices must soon be adjusted, however, to fit the conditions of a 12,000,000-bale crop (or, roughly a 10,000,000 or 11,000,000-bale crop), and this adjustment is inevitable.

2. The world's demand for cotton is increasing at a rapid rate. The United States government estimate (16,134,930 plus 791,464 bales) is 16,926,394 bales. The world's demand for cotton is increasing at a rapid rate. The United States government estimate (16,134,930 plus 791,464 bales) is 16,926,394 bales.

practically 17,000,000 bales. This was over 2,000,000 in excess of the 1913 crop.

Now what happened with this bumper 17,000,000-bale crop in spite of all the demoralized conditions of trade and finance--the crop of which it was said last fall we should not export 4,000,000 bales? The facts are that the world used so much of it that the total world's visible supply of all cotton in mid summer this year was only 5,435,165 bales against 3,522,276 bales a year before.

Other words, with a 17,000,000-bale southern crop to handle, the world's visible supply increased only 1,900,000 bales. What is going to happen this year then, with the south offering 5,000,000 or 6,000,000 bales less--and the production of other countries also decreased? And this query brings me to another point:

3. THE WORLD'S CROP PROSPECTS JUSTIFY TWELVE CENTS. Mr. W. P. G. Harding of the Federal Reserve Board in the summer secured reports from consular officials all over the world indicating a total cut in the world's cotton crop this year of 5,000,000 bales. Egypt and India reporting "radical reduction in acreage." Since that time the prospects have further declined.

But even if we accept this early over-estimate of the crop we see that if last year's crop, being 5,000,000 bales bigger than this year's, yet increased the surplus only 2,000,000 bales, then this year's crop will leave a 3,000,000 bale deficit--to be drawn from the surplus.

The trader can easily see for himself therefore, that if we have only a 10,000,000 bale crop, the factories of the world would utter

ly drain the market dry, leaving it subject to such conditions as occurred a few years ago when speculators carried the prices to 17 and 20 cents a pound.

And now having pointed out that twelve-cent prices are justified because the 1915 crop is certainly 8,000,000 and possibly 500,000,000 bales short of the world's demand, meaning that factories and munition will consume all the present yield with the greater part if not all the world's visible surplus. I also wish to call attention to the fact that--

4. AMERICAN PROSPERITY JUSTIFIES TWELVE CENTS. The American Bankers Association has just been meeting in Seattle, Washington, and what was the message that the President of this greatest organization of financiers brought to the country? He predicted, says a press dispatch, that "an almost unbelievable prosperity is rushing on the nation," or to quote his exact words:

"When bank reserves, which are greater now than they have ever been in the history of the country, are distributed, the nation will enjoy almost unbelievable prosperity. The volume of money on hand is so great that it cannot find a natural outlet. The movement of the tremendous crops, with the attendant financial activity, will still further increase the bank reserves."

And manufacturers are no less optimistic than bankers. The Factory Magazine of Chicago recently took a poll of 163 Eastern and Middle Western manufacturers as to the prospects for business in the fall. Forty, or practically one fourth of the total number, declared conditions "exceptional," 23 "fine," or "above normal," 60 "good," 18 "fair" and "fairly good," only seven "dull and poor," and only one "much below normal and very poor."

FOUR FINAL SUGGESTIONS.

Let me conclude this argument for twelve-cent prices with four specific suggestions:

1. Let press and people spread the news that the crop is really short--certainly 3,000,000 and possibly 5,000,000 bales short of the world's needs.

2. Hold for twelve-cent with-out borrowing if you can. But remember "it is committing business suicide" to refuse to borrow if you can thereby hold your crop.

3. Not only should cotton bring twelve-cent but cottonseed prices should break all records. Our export trade in cotton seed oil has jumped over sixty per cent in one year--from 192,000,000 to 318,000,000 pounds. And if good prices were paid for seed of a 17,000,000 crop, what sort of prices should we not demand for seed from a crop of only 10,000,000 or 12,000,000 bales?

4. With \$500,000,000 for her new cotton crop, the south will barely "pay out." With 750,000,000 the whole section will have a jubilation and abundant prosperity. Bankers, merchants, and all classes, therefore, should join our farmers in the fight for twelve-cent prices now and for a state warehouse system in every state to help insure fair prices in future years.

TO THE PUBLIC:

We have been in business almost five years; during which time we have built up and enjoyed a splendid trade with a line of customers who we have learned to appreciate and do appreciate.

Our past experience has taught us beyond a doubt, that we can sell merchandise much cheaper for the cash than we can by charging it on our books; so from now until the first of January we are going to demonstrate to you the purchasing power of your DOLLAR, and show you (if we have an opportunity and we hope we will) where you can save from ten to twenty-five per cent on your fall and winter purchases by trading with us for the cash.

During the time we have been in business we have accumulated a great many accounts, which amount to more than we think we should attempt to carry and continue to do a credit business as we have in the past.

In order to overcome this, reduce our accounts, and at the same time reduce our indebtedness we have decided on the following plan.

Beginning next Monday, September the 20th and continuing until January first next, we will sell strictly for cash and cash only. That is we will charge no goods to anybody during that time. This applies to all of our friends and customers alike. This does not mean that we would not be willing to charge our customers as we have in the past, but in order to get our business in the shape we want it, we feel that this is the only plan by which we can accomplish the desired results.

For the reason that most of our customers pay cash for their purchases during the fall and winter season, we feel sure it will meet with their approval, for they will be able to supply their wants with much less money by continuing to trade with us for cash. We are going to offer special inducements to the trade to trade with us for cash.

Everything will be marked in plain figures, at a very low price, and we will have one price for all. It will be marked as cheap as we can sell it and there will be positively no CUTTING OF PRICES. IT IS NOT RIGHT TO CHARGE ONE PERSON MORE FOR AN ARTICLE THAN YOU CHARGE ANOTHER. YOUR DOLLAR IS WORTH AS MUCH AS OURS OR ANY OTHER PERSON'S AND IT SHOULD BUY JUST AS MUCH GOODS AS THEIRS. AND IT WILL AT OUR STORE. ALL WE ASK IS AN OPPORTUNITY AND WE WILL PROVE IT BEYOND A DOUBT.

You know our past reputation for giving our customers full value for their money. We do not under any circumstances, intend to sacrifice our past reputation for giving good, reputable, stylish and quality merchandise like we have given in the past. We are only going to give you more of it for the same money, or the same for less money.

In doing this we do not intend to intimate that our customers who we have been selling regularly on charge account, would not, if we charged them with the merchandise, pay for it in a reasonable time. We are doing this for our mutual benefit. YOU will benefit by being able to buy for less money, and WE will benefit by being able to turn our goods into money, collect our accounts and be in better shape to serve you next year than ever before.

No doubt you are familiar with the lines we carry. And right here we wish to inform you that we have never since we started in business, had a larger and better selected stock of merchandise than you will find on display in our store this season. It is more complete and up-to-date. We will be in a position to fill your wants for less money than you have heretofore been called upon to use. All we ask is for you to come in, let us show you and you will be convinced.

Now please bear in mind that there will be no charging during this time.

Feeling and trusting that we will have the pleasure of seeing and serving you often during this season, and wishing one and all a bountiful harvest, we are,

Yours for Better Times,

T RAPNELL-MIKELL CO.

Society

This Department Edited by MISS IRENE ARDEN. Telephone No. 7.

Miss Sidney Smith has returned after a visit to her parents in Savannah.

Miss Kathleen McCroan, who has been visiting relatives in Wadley, has returned home.

Miss Zella Rigdon left Monday morning for Cox college where she will attend school.

Mrs. Lee Jones was called to Dawson last week on account of her mother's illness.

Miss Dreta Sharp, of Ogeechee, was the guest of Mrs. J. W. Williams a few days last week.

Mr. and Mrs. T. M. Arden, of Gayton, were the guest of Mr. and Mrs. D. D. Arden on Sunday.

Miss Maude Aiken returned to Besse Tift where she will resume her work as teacher in the college.

Mrs. Brooks Simmons, who has been visiting her sister, Mrs. Harris, in Sandersville, returned home on Saturday.

Miss Gladys Daniels, who has been the guest of Miss Nannie Moll Olliff, has returned to her home in Savannah.

Mrs. Herman Bussey, who has been visiting her parents, Mr. and Mrs. Walburg Waters, returned to her home in Columbus.

Mr. Wesley Cone, who is engaged in business at Jacksonville, is the guest of his parents, Dr. and Mrs. Cone, for several days.

The approach of fall called many of our boys and girls to college, some new pupils and some old ones. Those leaving for college this week are: Miss Mary Lee Jones, to Wesleyan; Miss Cora Mae Blitch, to Agnes Scott; Misses Lillian Franklin and Mamie Hall, to Besse Tift; Miss Alma Rackley, G. N. & I. C.; Mr. George Donaldson to Georgia; Messrs. Inman Donaldson, Horace Smith and George Parish, to Tech; Messrs. Julian and Albert Quattlebaum, to Georgia; Miss Evelyn Wood to Shorter.

A delightful entertainment was given at the home of Mr. and Mrs. M. E. Alderman last Wednesday night in honor of Miss Bessie Hagins. Progressive conversation and ruck were played and a delicious ice course was served. Those who attended were: Misses Mamie Barnes, Clyde Hendrix, Cleo Lee, Dessie Waters, Tessie Barnes, Gertrude Allen, Allie Mae Hendrix, Pennie Allen, Bessie Hagins, Sally Allen, Messrs. John Olliff, Homer McGivern, Charlie Robinson, Hudson Allen, Brooks Denison, Hudson Waters, Leon Hagins, Lonnie Davis, T. Calvin Deurmark, Dedrick Waters, Frank Cox, John Fennel.

Brooklet

Mr. R. H. Warnock has begun to move his stock of goods to his new store on Parker avenue. This store is one of the new brick buildings that have just been completed and is certainly a credit to the town of Brooklet.

The Warnock drug store has moved on the opposite side of the street in the new brick building the bank has just had completed.

The Brooklet High school is still progressing nicely. They have the largest enrollment for the fall term in the history of the school. Another thing that speaks so well for our school, is the large number of boarding pupils that are here.

Indeed if this continues a few more years a discussion for a dormitory will be in order.

Miss Florence Clanton, of Savannah, is the guest of Miss Kidron Bland.

Miss Sequel Lee has returned from an extended visit with Miss Lois Horton, of Ivanhoe.

Master Fred Shearouse has had a severe case of the measles for the past few days but we are glad to say he is now convalescent.

Mr. and Mrs. W. C. Cromley and Mrs. Marshall Robertson are visiting Mr. and Mrs. Willie Hodges, of Halcynodale.

Misses Ota Franklin and Earl Wood, of the faculty of Brooklet High School, spent the week end in Statesboro with relatives.

Miss Marion Robinson Has opened her private school and Kindergarten. 11 Inman St. 9-16-1-t-c.

SALTS IF BACKACHE AND KIDNEYS HURT

Drink lots of water and stop eating meat for a while if your bladder troubles you.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of sluggish and clog you must relieve them, like you relieve your bowels; relieve you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithium and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithium-water drink.

ONE WEAK SPOT

Many Statesboro People Have a Weak Part and Too Often It's the Back

Many people have a weak spot. Too often it's a bad back. Twinges follow every sudden twist.

Dull aching keeps up day and night. Backache is often from weak kidneys.

In such case a kidney medicine is needed.

Doan's Kidney Pills are for weak kidneys. For backache and urinary ills. Statesboro people recommend the remedy.

Mrs. M. G. Scarborough, Statesboro, says: "One of the family had backache and dull, nagging pains across the loins. The trouble gave the most bother while at work, because the sufferer had to stand a great deal. Doan's Kidney Pills were recommended, and we got a box. They rid the patient of the pains and I have not heard any complaint since."

Price, 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Scarborough recommends. Foster-Milburn Co., Props., Buffalo, N. Y.

FARMS FOR SALE. I have two horse well improved adjoining farms for sale on easy terms. Two miles from Denmark station near good school. For further information, write R. C. LESTER, 9-23-m-p, Brooklet, Ga. R. 1.

See Trappell-Mikell special announcement on another page in this issue.

NEW AUTO TIRE COMPANY Extensive Vulcanizing Plant—Largest in South

Among the new several enterprises that are springing up every day in Statesboro we now have an exclusive tire supply house and vulcanizing plant. The Averitt-Derst Tire Co. is the new concern with Mr. D. Percy Averitt of the Averitt Auto Co., (which will in no manner be affected by the deal) as the senior member and, Mr. J. W. Derst, formerly of Savannah, and who for several years has been located in Akron Ohio, among the various rubber tire manufacturers and who is endowed with all the knowledge in connection with the business. Mr. Derst will personally have supervision of the retail business and repair department. The firm will carry a large supply of the Southern Tire & Rubber Co.'s goods.

Probably the most important adjunct of this concern is their vulcanizing plant which is none other than the Bryson plant of Savannah which they have purchased, it being one of the largest in the south, having been installed in the Bryson plant in Savannah by the Akron Williams Co. and the biggest equipment of this Manufacturing Co. of tire machinery. The depot of this firm will be located on Courtland street, next door to the Zetterower stables, phone 103.

DR. BASCOM ANTHONY At the M. E. Church Next Sunday Night 7:00 P. M.

Announcement is made that the Rev. Bascom Anthony will hold service at the M. E. church next Sunday evening; the hour of meeting has been changed to conform to the usual fall and winter period. Services will begin at seven o'clock. A cordial invitation is extended to the public to hear Dr. Anthony.

WHY YOU ARE NERVOUS The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dream sleep, irritability and unless corrected, leads straight to a breakdown.

To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutrient gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol, Scott & Bowers, Bloomfield, N. J.

CASE OF BUBONIC PLAGUE

Discovered in New Orleans

—Only One In a Year Since the Rat Eradication Campaign

After the lapse of nearly a year a case of human plague occurred in the city of New Orleans on the 27th of August. This case was confirmed as true bubonic plague on Sept. 8th. The epidemiological investigation as to the exact source of the infection has not yet been completed but it is believed that it was probably received in the city of New Orleans. Up to date over 91,000 buildings in that city have been rat-proofed and over 435,000 rodents have been captured in traps alone. The occurrence of this case demonstrates the difficulties surrounding the eradication of the disease and indicate that had it not been for the active co-operative efforts of the United States Public Health Service and of the Departments of Health of the state of Louisiana and the city of New Orleans, the outbreak would have reached greater proportions and would have been longer continued. It also points out to other cities the necessity for ridding themselves of the rodent carriers of the disease and of thoroughly rat-proofing all of their buildings. No fear is felt that this case will be followed by an outbreak. Officers and men of the Public Health Service, well trained in the control of the disease, are on the ground and with the health authorities of the city of New Orleans are taking every precaution to prevent the spread of the disease from the city and within it.

W. P. G. HARDING ACCUSES BANKS OF CHARGING HIGH INTEREST

From 6 1-2 In N. C. to 120 In Arkansas the Range

Raleigh, N. C., Sept. 20.—Facts concerning high interest rates charged by national banks throughout the country, particularly in the South, were disclosed by W. P. G. Harding, of the federal reserve board, in a speech tonight before the Raleigh chamber of commerce. Mr. Harding was explaining the reserve board regulations granting preferential rediscount rates to notes secured by staple commodity warehouse receipts provided the maker has been charged not more than 6 per cent interest, and defending the action of Secretary McAdoo in depositing \$15,000,000 in the southern federal reserve banks to aid in financing the cotton crop.

"The controller of the currency," he said, "has information from sworn reports to this office regarding the maximum and average interest rates charged by national banks throughout the United States. From the report of June 23, 1915, it appears that there are five national banks in Alabama whose maximum rates of interest average 28 per cent, the rate in one case being 60 per cent, in another 34 per cent. The average rate of interest which one of these banks was charging on all of its loans amounted to 12 per cent, another 10 per cent. In Arkansas one national bank admitted making a loan of 60 and another 25.

"In Georgia there was eleven banks where the average maximum rate of interest was about 30 per cent. The maximum rate charged by one of these banks was 40 per cent and the average on all loans was 15 per cent. No bank in South Carolina admitted charging more than 15 per cent. In Texas a number of banks reported rates in excess of 100 per cent and many of them stated that their average rates on all loans were 1 per cent per month or more.

"These high rates, however, are not confined exclusively to the South, for the reports show occasional rates of 50 per cent in the East and North as well as in the far West and South. Twelve per cent seems to be regarded still as not extraordinary by the country bankers of Minnesota, Wyoming and California. Owing either to the rigid usury laws of North Carolina or to the natural shrewdness of its citizens, the average interest rates in your state are lower than elsewhere in the South. While one bank in North Carolina admitted making a loan at as high as 50 per cent its average rate on all loans was less than 6 1/2 per cent and the average rate for loans by all national banks in your state was slightly over 6 per cent."

Mr. Harding said that Secretary McAdoo in making crop deposits in the southern reserve banks could not be charged with discrimination in favor of one section, for he had offered to deposit treasury funds with federal reserve banks of other sections, which deposits have been declined.

"I fully agree that from a purely banking standpoint, and eliminating all other considerations, the deposits were not essential," said Mr. Harding. "The situation as a banking proposition could have been cared for by the southern reserve banks, either by an expansion of their note issues or by rediscounting with other federal reserve banks; but the human equation has

GERMANY WENT TO WAR BECAUSE SHE WANTED PEACE

So Says A Captured German Sergeant to Petit Journal of Paris

(From the N. Y. Herald) Mr. Maurice Leclercq tells in the Petit Journal of some very interesting opinions on the causes of war expressed to him by a captured German sergeant. The son of a great industrial magnate in Westphalia, this non-commissioned officer, presumed to be well posted on various questions relating to the world conflict. He started by stating that the industrial and commercial classes in Germany had long wished for peace.

"Why do we want peace?" he said. "The answer is very simple. In order to get a chance to produce, trade, establish business connections and new markets all over the world. In short, in order to develop outside our own country. The peace we have before war from day to day only, a peace of the present hour, without any guarantee for the future. Such peace was good enough for us at home, but it was insufficient to secure our development outward. For us Germans, and only for us, because there are no other nations depending exclusively on foreign expansion, as we do, that peace was precarious. We had to have the kind of peace corresponding to our wants, a peace giving assurance for the future. Since we could not get it in any other way, and we were bound to have it at any price, our Emperor engaged in this general war as a means of attaining our aim after its ending. All of Germany realized the necessity of it and gave its approval of the course taken."

"What have we lost in the present war? All the fruits of our development so far attained, you say. What if? If we had continued under the conditions of that insecure peace I have alluded to for another five or ten years our loss would have been five to ten times greater in that respect, whereas the outward development we are going to build up after this war will not be menaced by any danger. Yes, we are sure of gaining what we are fighting for and it is only a pity that the war did not come a few years earlier, when neither Russia nor France was sufficiently prepared for it. We would then have had on England on our hands, and peace would have come pretty soon. But we were so naive once to dream of gaining French friendship with out war, and to-day we are the victims of that delusion."

to be reckoned with, particularly when it comes to dealing with southern farmers. The federal reserve system still is new. On the other hand, the farmers know about the government of the United States.

"In my opinion the secretary, who was born and reared in the South and is familiar with the southern temperament, felt that, by announcing his intention to deposit government funds with southern banks to assist in moving the cotton crop simultaneously with Great Britain's declaration and contraband against cotton, he was availing himself of the psychological moment for restoring confidence. As far as cotton is concerned, the recent advance in the price of that staple seems to afford ample justification for the course pursued."

ESTABLISHMENT OF FARM DEMONSTRATION WORK

A Certainty—Board of Education and County Commissioners Practically Agree

That Bulloch county will have a farm demonstration as outlined in our issue of last week under the co-operation of the U. S. Department of Agriculture and the Georgia State College of Agriculture is now practically a settled fact. Mr. J. K. Giles who was in Statesboro last week and explained the proposition, came again and met with the Bulloch county officials at the court house Tuesday. The county officials met all requirements of the government and the business of an early establishment of the station was at once entered into. The necessary funds to meet the government appropriation was assured and in anticipation of this being done Mr. Giles brought in company with him Mr. J. T. Hart the demonstrator who will be assigned to this district.

Mr. Hart will be located in his living quarters at the F. D. A. and M. college; he is a married man and his wife will join him just as soon as she can arrange their private business in connection with some extensive farming interests they have at their home. Mr. Hart is a native of Union Point, Green county. He is a graduate of a four year course at the Georgia State College and after that taught at the University of Madison two years and at Tifton two and one-half years at both of which schools he had charge of the agriculture department. He is a successful and practical farmer. Bulloch is fortunate in securing so able a man as Mr. Hart has proven himself to be in his past work of agriculture development, and his scientific knowledge will be of inestimable value to the farmers of our county at a moment when knowledge is golden.

TO FIGHT BOLL WEEVIL

Enthusiastic Meeting in Macon

Wednesday of Georgias Prominent Officials And Business Men.

Arousing meeting of intensely interested farmers and business men was held yesterday at the hotel Dempsey in Macon. It was called by President Haden of the Georgia state chamber of commerce who presided. The meeting was attended by dozens of very prominent men. Among those who spoke were President Ogden Persons, of the state senate, who declared:

"Resolved, That we approve the campaign on boll weevil inaugurated by the state board of entomology and urge the active co-operation of the state department of agriculture, the United States department of agriculture, the state college of agriculture, the Farmers' union and other farmers' and business organizations within the state.

Word Cures. Curing by "words" was common in the early ages. They cast out the disease spirits by exorcism. Ulysses, mythology has it, stopped a hemorrhage by words. stryke words evidently. Cato cured sprains by the same means.

These speeches were made in no spirit of pessimism or discouragement, but solely in an earnest effort to wake up the business men of Georgia to the gravity of the situation confronting them. It

MR. JOHN T. JOHNSON DIES

Was General Superintendent C. of G. Ry.—Remains Sent to Columbus

John T. Johnson, General superintendent of the Central of Georgia Railway and one of the best known railroad officials in the South, died in a local hospital in Savannah at 5:30 Tuesday. His death was directly due to peritonitis, which developed in acute form following an operation for appendicitis Monday afternoon. Mr. Johnson left his office at 7 o'clock Saturday night apparently in the best of health. Monday morning he did not go to his office and 11 o'clock summoned his physician, who immediately removed him from his home to the hospital. Mr. Johnson was in every sense a self made man. His rise in the railroad world was rapid. Commencing as a trainman he advanced steadily until he reached the next to the highest office in one of the leading railroads of the South. He was looked upon as a railroad executive of exceptional ability. Believing in deeds rather than words, he was regarded by some as taciturn, although his intimate friends knew him as a delightful and companionable gentleman.

Mr. Johnson was 53 years old, he was born in Hannover county, Va., in December 1862. He entered railway service in 1879, being employed first as a trainman on the Chesapeake and Ohio Railway. From 1881 to 1886 he was a conductor on that railroad. In 1886 he became a conductor for the Central of Georgia. In 1889 he was promoted to yardmaster, which position he held until 1891, when he was again promoted, this time to trainmaster. He was a superintendent in 1898 and in 1908 superintendent of transportation, holding this office from January 1, 1904 to March 27, 1908. On March 17, 1906, he was appointed general superintendent, which office he was holding at his death.

Mr. Johnson was an able railroad man and easily one of the best known officials in the country. He ranked next to President W. A. Winburn since the recent death of Mr. T. S. Moore, general manager of the system, and was regarded as the right hand man of the Central's chief executive.

It was felt that Georgia, after all the time and money that had been spent in preparation for the weevil's advent could not pass through the same experience which had cost other southern states so dear, and treating upon the weevil and better farming campaigns; the former as follows:

"Resolved, That we approve the campaign on boll weevil inaugurated by the state board of entomology and urge the active co-operation of the state department of agriculture, the United States department of agriculture, the state college of agriculture, the Farmers' union and other farmers' and business organizations within the state.

These speeches were made in no spirit of pessimism or discouragement, but solely in an earnest effort to wake up the business men of Georgia to the gravity of the situation confronting them. It

Report South Atlantic States Business Condition

NORFOLK.—Collections continue slow and trade in practically all lines is still below normal. Dry goods and notion houses find business only fairly active and sales small. Heavy hardware and mill supply concerns report some little improvement, however. In the lumber market the situation compares favorably with this season last year, and box shock manufacturers are doing better than for months. With the setting in of fall better conditions are expected.

LYNCHBURG.—Trade conditions continue to show improvement in this district. Special foundries are working full time, and labor in other industries is better employed. Shoe houses report an increase both as to number and to size of orders, while dry goods and kindred lines continue to move in very satisfactory volume. Collections, considering the season, are holding up as well as could be expected.

WINSTON-SALEM.—Furniture manufacturers report marked improvement in conditions during the past three weeks. The same applies to tobacco, and as a whole all lines of trade are doing an increased business, with brighter prospects than for the past several months.

PROF. J. C. LANGSTON TO LECTURE AT BROOKLET

At School Auditorium Friday Night—Subject "The European War"

Prof. J. C. Langston of Statesboro has accepted an invitation to deliver a lecture at Brooklet this Friday night at the school auditorium. Prof. Langston was requested to talk on the European war and accordingly has given this subject mature thought the last week or more and a most interesting discourse is assured his hearers. Prof. Langston has kept closely in touch with current events across the ocean and besides is rich in historical knowledge of various countries now engaged in the worlds most tragic struggle. A large party of Statesboroites are contemplating motoring down to attend the lecture.

Weekly Talks to Canning Club Girls

BY MISS POLLY WOOD

Dear Girls: The canning club contest will be held in the county school superintendent's office on the 15th day of October. This makes it necessary for your exhibits, booklets, and record books to be in by Oct. 12th. It will take two or three days to arrange everything.

I would like for you to send in your record books the week before. If you have no exhibits, end your record book any way. I need these in making out my annual report. I would also like to know the number of girls that have made uniforms.

Girls, I hope you will work very hard these remaining days. I will begin work Oct. 4th. If you need my help in any way, you will find me at the office of the county school superintendent.
