Statesboro, Georgia, Thursday, October 28, 1915.

Vol. 15 No. 34

Not Paint.

The worst mistake in painting is not putting off. That costs about 10 percent; you keep your money a year and pay 10 percent for it. Paint would have to come down 25 percent to make 10 percent on the job, for wages do not go down. The worst mistake is "cheap" paint. It costs from 50 percent to 100, first cost, and another in wear. What a "cheap" paint is! "Put-off" is bad-enough; "cheap" is ten times worse.

Announces for Tax Collector

Mr. P. H. McEivlen, of Ancon, publishes his announcement in this issue of the NEWS for the office of Tax Collector which he has previously held. Mr. McEivlen is one of Bulloch's well known citizens and has many friends who have for some time been urging him to offer his name and stand for election. One of the treasured memories which Mr. McEivlen possesses relating to his former service is a letter from Wm. A. Wright, Compt., General, commending Mr. McEivlen for his excellent work as Tax Collector; this letter is published in another column.

OLDER BUT STRONGER

To be healthy at seventy, prepare at forty, is sound advice, because in the strength of middle life we too often forget that neglected colds or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years.

To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-purifying properties of Scott's Emulsion which is a food, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. No alcohol in Scott's.

HELP THE KIDNEYS

Statesboro Readers Are Learning the Way.

It's the little kidney ills—The lame, weak or aching back—The unnoticed urinary disorders—That may lead to dropsy and Bright's disease.

When the kidneys are weak, Help them with Doan's Kidney Pills.

A remedy especially for weak kidneys.

Doans have been used in kidney troubles for 50 years. Endorsed by 30,000 people—endorsed at home.

Proof in a Statesboro citizen's statement.

Mrs. J. F. Aiken, 2 Inman St., Statesboro, says: "I have had Doan's Kidney Pills a fair trial and from the good results I had, I know that they are good kidney medicine. I recommend them to others suffering from kidney complaint."

Price, 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Dr. Aiken had.

DEFENSE PLANS TO BE NONPARTISAN

Wilson Expected to Win With Aid From Republicans.

MAY ACIDE BY THE GAUCUS.

If the Measure Had Originated on the Republican Side It Would Have Passed, as Practically All Democrats Would Oppose It—President, However, Has Majority in Own Party.

By ARTHUR W. DUNN.

Washington, Oct. 23.—[Special.]—Only a Democratic administration could carry through any such program of expenditures for national defense as will be submitted to congress when the session begins. If it were proposed by a Republican administration it would get severely a Democratic vote and would meet with a great deal of opposition by Republicans from the interior of the country.

The proposed plan would meet with a great deal more opposition had it not been for the fact that many Democrats put themselves in the president's hands in advance of any announcement as to what he proposed to do. Many of them have declared their intention to support any plan which the president submits.

It is quite possible that the president will have a majority in his own party for his defense program.

Will They Abide the Caucus?

But there is some question whether the Democrats who oppose the large military expenditures will abide by the decision of the caucus. It is expected that this as well as other administration measures will be made the subject of caucus consideration. It is a good guess that a great many Democrats will not accept caucus direction in this matter, and it is possible that in view of the necessity of Republican support for his program the president will not make it the subject of a party caucus, but rather a great nonpartisan measure.

Canal Uncertainties.

The first time that it was necessary and desirable to send an American warship through the canal the slides became an impediment, and it had to go through the Suez to the Adriatic station. The cruiser Brooklyn is to take the place of the Saratoga as the flagship of the Asiatic fleet and was under orders to proceed by way of Panama to the far east. Now her route is to go through the Suez canal. There are men connected with the navy who do not like the idea of having a warship go into the war zone at this time, although others think there is not the slightest danger of a neutral ship encountering any mines or submarines while in the Mediterranean or Red sea.

Not a Dead One.

During the last few months of his term and for several months after he retired the stand just element in the Republican party contented itself with saying that "Roosevelt is a dead one." When Bryan resigned from Wilson's cabinet and ever since certain Democrats and Republicans also have been saying that "Bryan is a dead one." It takes a great deal to kill a popular political idol. Jim Bryan was an example, for he was a presidential possibility in five different national conventions. When a man once gets hold of the people it takes a great deal to shake his grip. Bryan is not a

"Dead One" by any means. An Example of Neutrality. There is a statue of Frederick the Great of Prussia at one corner of Lafayette square, opposite the White House grounds. Just recently on a German anniversary some admirers placed a large wreath of flowers at the foot of the statue, and it remained there for a day or two. We are strictly neutral in Washington.

Premises Republican Support. Congressman Phil Campbell, who would be one of the Republican leaders in the house if Jim Main permitted any man to achieve such a position, says that the Republicans will support a policy of national defense. Although from Kansas, which is not in danger of immediate invasion, Campbell thinks a measure of preparedness is essential.

Young Dr. Wiley.

The man who made pure food famous, young Dr. Wiley, celebrated his seventy-first birthday recently. At a recent press club entertainment he looked like a man of forty-five or fifty years, without a wrinkle in his face, with a clear, bright eye and the air of a man who is good for twenty-five years yet.

Came Too Late.

There are quite a number of women suffragists who think the declarations of the president and his cabinet members on the subject of woman suffrage came too late to have much effect upon the elections this fall, although they were better pleased to have them than to have no word at all. That a few administration advisers will be inclined to cast their votes for suffrage seems likely, but the effect would have been better, according to the suffragists, if the administration declarations had been made several months ago when the women visited the White House and asked for help in the campaign they were making.

When You Take Cold

With the average man a cold is a serious matter and should not be trifled with, as some of the most dangerous diseases start with a common cold. Take Chamberlain's Cough Remedy and get rid of your cold as quickly as possible. You are not experimenting when you use this remedy, as it has been in use for many years and has an established reputation. It contains no opium or other narcotic. Obtainable everywhere.—Adv.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your stuffed nostrils open right up the air passages of your head clear and you can breathe freely. No more yawning, sniffing, blowing, headache, dizziness. No struggling for breath at night; your cold or catarrh disappears. Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuff-up with a cold or nasty catarrh.

LANGSTON'S LOGIC

Philosophical

"There is a number of us who creep into the world to eat and sleep; and if our tombstones, when we die, don't tell us that we lived, there's nothing better can be said, than that we've eaten up the bread, drunk all our drink and gone to bed." Thus writes some writer long ago, whose name I do not know his name, he was some doct or philosopher. Some folks don't ever stop to think what life is for, till on the brink of death's cold stream they tremble and look toward another land. They eat and drink and gather gold, and hoard up treasures manifold, and seem to measure life's success, by how much more they possess; if they can shine and make a fuss, they do not care a copper cent, for what becomes of all the rest, if rich or poor, or cured or blest. They wise no tears from orphan's eyes, and do not heed the widow's cry, and all absorbed in selfish greed, they spurn the outstretched hand of need. They hasten on with ruthless tread, to the great city of the dead, and when their life's account is read, before the judgment bar of God, they'll hear their names called "foolhardy."

Women love a clear, rosy complexion. Burdock Blood Bitters is splendid for purifying the blood, clearing the skin, restoring sound digestion. All druggists sell it. Price \$1.00.—Adv.

"Dope" on shooting is plentiful. And shooters know where the right dope comes from—and that it leads straight to Remington-UMC.

THE Remington-UMC Pump Gun and Autoloading Gun—these are the shotguns of today. Adopted everywhere, for use in the field and over the traps—shot by more of the men who are setting the pace in the sport than any other make of guns in the world.

In the matter of Shells—where is the sportsman who does not know the Remington-UMC "Speed Shells," Steel Lined—all the drive of the powder kept back of the shot, and showing results that flatter any make of gun?

For the right dope—see the Remington-UMC Dealer. He displays the Red Ball Mark of Remington-UMC—the sign that his store is Sportsmen's Headquarters of the town.

HOW TO DRESS.

The Advice of a Famous Actress Not to Be Followed Too Closely.

"Dress your character, not your figure." Is the advice of a famous actress—and rather surprising this advice seems at first hearing. But think it over well and the excellence of the idea will appear to you. Every woman has a certain individuality of her own—a temperament, if you will—that makes her a little, or perhaps a good deal, different from all other women. It is this individuality—this temperament—that woman should dress up to, according to the actress, in order to make the personality more marked and convincing.

But an instinctive carrying out of this advice with no heed to the promptings of reason may result in disaster. For example, there is always the woman who weighs 200 pounds or thereabouts, but whose personality is distinctly kitchensink. Is she to dress her character—or her figure? There is also the little woman who ought to belong to the cuddly, appealing class, who yearns to be impressive and stately. If she insists upon wearing the garments of the grander woman she may spoil her chances of being fascinatingly charming.

The actress in her part always is

dressed in conformity with the character she is portraying, but her costumes—and here is an important point—are made to suit her figure lines while expressing a special sort of personality. Therefore if the delightful fashions of the 1830 period suit your type exactly, but are a bit trying to your too solid figure, adopt the fashions, but see to it that they are so out and so arranged that the lines of the silhouette are right. This is true draperies or ornamental modes. They all may be worn, when they suit the personality, if their lines are cleverly adapted to the figure that is to sustain them.

Estimating the Probabilities.

"My daughter is having her voice trained," said Mr. Cunnox.

"Is she a soprano or a contralto?"

"I dunno, I suppose she'll decide to be which ever costs the most."—Washington Star.

Eczema spreads rapidly; itching almost drives you mad. For quick relief, Doan's Ointment is well recommended. 50c at all stores.—Adv.

FOR THE FOOTBALL GAME

Fur Trimmed Suits and Frocks of Serge With Flying Mufflers and Warm Top Coats.

NEW YORK, October 26.—[Special to the News.]—The early days of November with their brisk, crisp, winds call up not alone Thanksgiving with its festive and palatable dainties but football and various other vigorous out-of-door sports. While, perhaps, the majority of us are not as much given to these out-of-door amusements as we should be for our own good, still we do take an interest where our own college or school is concerned and dress for them, and root for them, with fine enthusiasm.

For the Football Game.

A good warm suit or a one-piece serge with top coat of tweed, hosiery, a warm novelty plaid, or other attractive coating is the most satisfactory thing for the game, accompanied by a quantity of good warm rugs for feet and knees.

PREPAREDNESS

Possibly it may be as well to
prepare for a commercial war as a
physical war, for certain it is that
if America does not watch her
step she may, through this com-
mercial intoxication under which
she is just now inoculated, owing
to the fiery fury, in which the
principal European countries are
waging war, at its end, find herself
face to face with an enemy of for-
eign commercial competition build-
ed on the low wage basis of the
Oriental countries that will vitally
affect our economic life.

It is a well known fact that

China and Japan can undersell the
American producers of pig iron to
as low as \$4.50 a ton. The ambi-
tion of the little brown men of Ja-
pan knows no limit; to treat Ja-
pan's commercial aggressiveness
with indifference is sheer folly; she
has shown what she can do in
manufacturing cotton goods.
Records disclose that America has
lost to Japan a cotton business
which in 1906 was \$28,900,000 as
against \$1,194,500 ending with the
fiscal year June 30th 1915—a loss
of \$27,806,070 in nine years. The
same government records show a
falling off of \$4,901,478 last year in
cotton goods to China as compared
to the previous years report. The
following table of Oriental wages in
the various occupations may be
of interest to Americans:Carpenters, 26 cents a day; black-
smiths 29 cents; plasterers, 26
cents; bricklayers, 35 cents; farm
laborers 23 cents; Tailors, 25 cents;
male weavers, 21 cents; female
weavers, 20 cents; cotton mill
males, 20 cents; females, 8 to 15
cents; children, 8 cents; coal min-
ers, 30 cents; women in coal mines,
18 cents; children under 14, 74
cents.In the plants operated by the
government of Japan the following
is a scale of wages:In the ordinance department,
35 cents a day; torpedo depart-
ment, 36 cents; steel works, 38
cents; ship building department,
steans, etc., males, 36 cents; fe-
males, 14 cents; powder mill,
males, 31 cents; females, 14 cents;
steel foundry, males, 34 cents;
females, 15 cents.A European commercial army
equipped with such arms and an
influx of cheap foreign laborers to
America's shores after this bloody
carriage is at an end, is a problem
that the government and thinking
men might do well to consider
NOW while the subject of prepara-
tiveness is the paramount question.

cerns AllNot many towns have a curfew
law and if they do it is rarely ever
enforced. McRae has a curfew
law and unlike most laws of this
nature it applies to adults as well
as children and youngsters. It is
now unlawful for a boy or girl un-
der the age of eighteen to be on the
streets of McRae without a lawful
excuse after eight p. m. It is un-
lawful for a man of any age to be
found on the streets after 11 p. m.
without a valid excuse.The fact that hubby can't go to
town and remain later than 11 p.
m. on the pretense of being away
at lodge will no doubt be good
news to the wife. And hubby is
not the only male adult of the
family thus affected. Sou has
been wondering if the right cop
will accept as a good and valid ex-
cuse for being out late the plea
that he has been to see his best
girl. If the cop happens to be un-
romantic he may decide that a young
man has no right to stay out late
even for the purpose of calling on
his best girl, and in that case he
will have to be going along about
10:30 instead of ———. —Telfair
Enterprise.Those "Lawful" excuses will be
("Awful") excuses to listen to;
we'd hate to be the judge on that
curfew bench. —Cincinnati Enquirer.The court of appeals has decided
that a person may keep a barrel of
liquor on his premises provided he
does not keep it to sell. With the
prospects of a "drought" after the
extra session, a ruling like that
may be intended to "save lives."

CARE OF YOUR HANDS.

Some Hints on How to Protect Them While at Housework.

"But I don't like to do housework—it spoils my hands." This is a complaint frequently laid at the door of domestic tranquility. But is it always necessary to have unsteady hands simply from performing the various tasks of housework?

Sweeping is generally hard on the hands because it makes callous places where the broom or mop handle is held. Dishwashing is hard because of the grease and the hot water which roughen and open the pores. Scouring of any kind, as cleaning a bathroom, is also bad in its effect, but the secret of well kept hands is the use of different kinds of gloves—gloves and a good oil or cold cream.

Have three kinds of gloves—first, a couple of pairs of the large white cotton, so called temper's gloves; next, a very good pair of rubber gloves, and last a pair of yellow oilskins, which are more difficult to find in stores, but which are used by certain workmen and can sometimes be found in the stores.

Before using any pair of gloves oil your hands thoroughly with cold cream or with almond oil, of which keep a small bottle standing on your kitchen shelf. After covering your hands plentifully with the cream, draw on the white gloves and proceed to sweep or dust. The friction of the work causes your hands to be moist, so that the cream is absorbed.

Similarly, before washing dishes, cream your hands; then pull on the rubber gloves and wash as usual. The oilskin gloves keep especially for very dirty tasks, like bleaching the stove, scouring the garbage can, etc.

After taking off any pair of gloves when through with work, wash your hands in pure soap and water and rub in an astringent, such as benzoin. This helps close the pores and keeps the skin from being chapped.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She made up a mixture of Sage Tea and Sulphur to bring back color, gloss, thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is falling, gray or dry, scraggy and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wych's Sage and Sulphur Compound," thus avoiding a lot of fuss. While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wych's Sage and Sulphur, no one can tell, because it does it so naturally, evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by repeating all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

A DANCE FROCK.

This Charming Design Attracts by Its Graceful Lines.

FOR THE DEBUTANTE.

This beautiful gown is of white tulle and silver metal cloth over a foundation of fine green pussy willow satin. The simple bodice of tulle has a crush grille of metal cloth and is beautifully finished with a garland of flowers extending from the left shoulder across the bodice, trailing over the right front. A rich lace finishes the bottom of the short skirt, over which the tulle falls in four points finished with narrow silver trim.

KNITTED COIN PURSE.

An Attractive Gift That Will Please a Young Girl.

Materials and directions for making coin purse: 1 ball crocheted silk of desired color. 1 steel crochet hook, No. 7. 1 brass ring one inch in diameter. Ch. means chain; S. C. means single crochet; D. C. means double crochet; S. S. means slip stitch.

The purse is begun at the lower edge and worked round and round. Ch. 75, join to a ring. First Row—Ch. 3, * skip 1 Ch., 1 D. C. in next Ch., Ch. 1. Repeat from * around ring.

Now make 1 D. C. in loop of Ch. 3 at beginning of previous row, * Ch. 1, 1 D. C. in next Ch., Ch. 1. Repeat from * until the work is 10 rows deep.

Then make 1 S. C. each in next 2 spaces, * Ch. 30, make 1 slip stitch in brass ring, Ch. 30, skip 1 space in edge of purse, 1 S. C. in next space. Repeat from * until you have made 8 slip stitches in ring, being careful not to twist the strands of Ch. 30, then Ch. 30, skip 1 space, 1 S. C. each in next 2 spaces, Ch. 4, lay the last Ch. 30 made over the edge on which you are working and make 1 D. C. in next space (the Ch. 30 will come through the space just made). * Ch. 1, make 1 D. C. in next space, Ch. 1, lay the next 2 strands of Ch. 30 over edge, make 1 D. C. in next space. Repeat from * which brings the double strands through every other space across edge, with a single strand each in first and last spaces, Ch. 4, turn.

Make 1 D. C. in last space of previous row, * Ch. 1, 1 D. C. in next space. Repeat from * to end of row, making 1 D. C. in third Ch. at beginning of previous row, Ch. 4, turn.

Repeat this row until you have 6 rows in all.

Finish by making 3 D. C. in first space, * 1 S. C. in next space, 3 D. C. in next space. Repeat from * across edge, making both ends to correspond. Cover the ring with S. C.

Hold the two edges at the bottom to gather, fasten thread in first space, * Ch. 3, 1 S. C. in next space, working through both edges. Repeat from * to end of row.

To make the fringe, cut thread into strands, 5 inches long, tie 6 strands into every loop of Ch. 3 on lower edge, then cut, so that the fringe is a full inch long.

Ironing Made Easier.

If on ironing day the iron stand is nowhere to be found do not waste time and patience hunting for it, but use a block of wood in its stead. The result will surprise you, for the iron will keep hot nearly twice as long. The block retains the heat, while the openwork iron stand allows it to escape. A heated brick will be found even hotter than the block. To make ironing less tiresome take a rug or piece of carpet and fold it twice, thus making a pad to stand upon. The feet will be less tired after ironing a few hours. When necessary to iron some clothes in a hurry and you have no time to dampen them in the usual way try wringing a clean Turkish towel in lukewarm water, spread over the article you wish to dampen, roll up for a few minutes or wring all together and the moisture from the towel will make the article ready for ironing in a very short time.

PELLAGRA

(From the Columbia State, Columbia, South Carolina.)

Investigators of pellagra who have been experimenting with hundreds of patients in Georgia and Mississippi bring home to us South Carolina conditions which require serious consideration. The investigators think that the rise in the cost of food beans directly upon the prevalence of pellagra and they say that since the industrial depression began in the latter part of 1907, families of wage earners, especially in cotton goods and lumber industries, have not been able to have on their tables the well-balanced meal which are the best defense against the dread disease. The Southern poor, in a word, are not getting so much meat, eggs and milk as they ought to have, because prices of these foods have greatly risen.

What are we going to do about it? Since 1907, the owners of cotton mills in South Carolina have lost proportionately far more than have the owners of lands and houses. From the point of view of the share holders in textile concerns, the outlook for raising the scale of wages seems none too bright. Only last week the temporary suspension of a cotton mill that a few years ago was one of the richest in the South was reported. Time was when the failure of a cotton mill was of no more significance than was the failure of a mercantile firm, but in a day when a large proportion of the whole number of cotton mills in South Carolina are financially embarrassed, the question is not so much about raising wages as whether the industry will survive.

Yet we cannot afford to have an underfed race of people. Better no cotton mills than diseased mill operatives, and if economic conditions threaten the health of our race the correction of the conditions should be effected at any cost. The problem is not confined to the mill district. The economic status of many thousands of South Carolinians is probably even worse than is that of the mill operatives. They are scattered in the rural districts, and they cannot be studied in groups. It may be set down that their food supplies are not superior to those of the mill people.

At the bottom of the trouble is the negro. Lately emerged from slavery, the negro can and does live on less than the white man requires. Unfortunately the great proportion of the white people care little how the negro lives, so long as he furnishes the labor. The wage of the negro directly or indirectly, affects the wage scale of every other class of labor in the South. Our commercial fabric and our civilization are built on cheap negro labor and, of course, we do not escape the evils attendant upon it. Save for the fact that the landless white man cannot always successfully compete with the negro on the farm, there would be no native cotton mills operatives.

Obviously the only way of improving conditions in the South is to begin at the bottom, and that means that we should train and educate all our people, negroes and whites, so that they would produce more and earn better wages and be better citizens. So long as we cling to the barbarous notion that the negroes shall be held in ignorance and remain cheap laborers, our poor whites will be dragged down to their economic level. Economic laws draw no color line.

How Catarrh Is Contracted Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucous membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden. Many persons who have this loathsome disease will remember having had frequent colds at the time it was contracted. A little forethought, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable every where.

HEAVY MEAT EATERS HAVE SLOW KIDNEYS

Eat less meat if you feel backache or have bladder trouble—Take glass of Salts.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which cures the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of heat, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will set fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot hurt; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

BULLOCH COUNTY ASKED TO JOIN

Evans And Tattall In The Eradication Of Cattle Tick.

Reidsville, Ga.—At a mass meeting of the citizens of Tattall county here, recently closed, to discuss ways and means of eradicating the cattle tick, a committee from the Evans county Farmers Club was present and requested that Evans, Tattall and Bulloch counties join in the fight. Resolutions were adopted endorsing the movement of the Evans County Club and pledging the efforts of the mass meeting to swing Tattall into line.

An executive committee, composed of three from each of the eight militia districts in the county and six from the Reidsville district was appointed to look after the work, and also make arrangements for the early organization of the farmers' bureau for Tattall county. It is believed this is the first movement of the kind in Georgia. A meeting of the executive committee is to be held in this city November 2, when definite plans will be made for the organization of the farmers' bureau, the eradication of the cattle tick and the inauguration of a new standard of farming.

FOOT BALL MONDAY

Statesboro Locals Will play F. D. A. S.

A game that will be looked forward to with more than usual interest will be the clash of the Statesboro locals and the F. D. A. S. Monday at the old ball park at 3 p. m. The late scrimmages that the F. D. A. S. have had put them on their mettle, and with the practice and experience they have acquired they are now in line for some good work. The line up of both teams is about on an equal footing as to weight and a fast and strenuous exhibition is anticipated. An admission of 15 and 25 cents will be charged to be applied to the necessary expenses in keeping the sport alive.

Halloween Entertainment

On the evening of Friday, Oct. 29th, a Halloween entertainment will be given by the young folks of Portal in the High School building. In connection with the entertainment boxes prepared by the young ladies will be sold to the highest bidder; and delicious punch will be served at a low cost. The proceeds of which will go for improvements in and about the school building. Young and old are invited. No admission fee charged.

Gov. Glenn's Lecture.

Ex-Governor Glenn, of North Carolina, lectured to a large and representative audience at the first Methodist church Statesboro last Friday night on the subject of "Prohibition."

The exercises were opened with prayer by Rev. J. F. Singleton, after which a short but appropriate speech of introduction was made by Rev. Beacom Anthony. Gov. Glenn spoke in the interest of the Anti-Saloon League, and for about an hour and a quarter he held the undivided attention of his large audience. His address was replete with wit, humor, pathos, and the most convincing logic, and fully justified the press encomiums which have been lavished upon him as a platform orator.

This audience was fully in sympathy with the sentiments which he expressed in favor of prohibition, and at the conclusion of his speech made a generous contribution to the cause of the Anti-Saloon League, in whose interest Governor Glenn is making a canvass of the country.

WHAT CATARRH IS

It has been said that every third person has catarrh in some form. Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good. To correct catarrh you should treat the cause by enriching your blood with the oil-ford in Scott's Emulsion which is a medicinal food and a building tonic, free from alcohol or any harmful drugs. Try it.

B. R. OLLIFF ANNOUNCES

His Candidacy for Another Term as Superintendent of County Schools

Mr. B. R. Olliff publishes his card in this weeks issue of the News as a candidate for the office of County School Superintendent. Mr. Olliff will finish his first term of that office with the close of the four year service now nearing its end. In Mr. Olliff's regime there have been many innovations and some very marked improvements in the rural school facilities in Bulloch county; notable among these are the great agricultural department of school gardening, the Boys Corn Club, and the Girls Canning Club. The very recent prize contest of the girls recent work shown at the court house is proof enough of the true value of this department. Prof. Olliff's influence was largely instrumental in securing the present farm demonstrator, Mr. Whatley, who is now connected with Bulloch county in this work.

One feature of Mr. Olliff's service that he is particularly gratified over is his success in making it possible for Bulloch to have a rural high school service in various localities, and among many of these schools there has been added painted single desks, and where buildings have been old and weather-worn they have been painted both on the exterior and interior. Upwards of \$12,000 was added to the county schools since 1913 thru the hearty co-operation of the patrons and the board with whom there has never been the slightest contention. The parents have been loyal to a unit in the uplift and advancement of the schools generally, and Prof. Olliff is especially thankful for such support as he has had in his work, and if again honored with the gift of the office will, as he has in the past, endeavor to progress to even a greater degree than has been recorded in his first term.

NEW CORNISH PRESIDENT OF THE S. A. L. BASE BALL

A Statesboro Visitor.

Mr. N. C. Cornish, president of the Sally League, was a News carrier Monday and stated that it was his first visit to the capitol of Bulloch with which he was very deeply impressed. Mr. Cornish is connected with the U. S. Ought to Paint.

I ought to have painted last year, but I hated to pay \$2 a gallon. I've got to paint this year; it'll take a little more paint; I suppose I'll have to pay \$2.50 a gallon; and a little more work, I suppose I'll have to do. My job would have cost last year about \$50; it is going to cost this year \$55.

\$5 gone. I suppose it'll be the same again, if I wait again. What if I paint now? \$2.50 on the job! I shan't wait; what a fool I was! DEVOTE.

Of Register Announces For Office of Tax Collector.

Mr. W. H. Rushing of Register, Ga., is numbered among the candidates whose names appear in the special department allotted to these announcements. Mr. Rushing is a well known Bulloch county citizen who in 1912 made a very close race for the same office he again is offering for the coming primary. Mr. Rushing is a progressive and successful farmer and has a host of friends who have for some time implored him to seek the office he now aspires. His long and honored acquaintances will no doubt bring a legion of supporters to his banner.

Mr. Rushing will later have from time to time interesting data to present to his friends and the public, and he will appreciate the support of all those who stood so loyally by him during the last campaign.

October Term Superior Court in Session.

Bulloch Superior court October term convened Monday Oct. 25th, 1915, with Judge R. N. Hardeman of Louisville presiding. WOULD BE CITY'S STAR ATTRACTION

Declares P. D. Daffin of Dale Boulevard Idea

URGES SCHEME STRONGLY

An Unbroken Avenue of Palmettos to Thunderbolt

(From the Savannah Morning News)

"My dreams of a life time are about to be realized in the consummation of a project which comprehends the transformation of Dale avenue into an unbroken boulevard of palmettos all the way to Thunderbolt."

In the foregoing manner did P. D. Daffin, "the secur of our party," go on record yesterday as favoring the Dale avenue boulevard idea officially advanced by County Commissioner Oliver T. Bacon. Mr. Daffin said, "You cannot quote me too strongly on the subject."

Cost of Palmettos—It is Mr. Daffin's idea to extend the two rows of palmettos now planted for about a mile to Thunderbolt, the city to bear the expenses of the work and the county to bear the rest of it. The trees will cost \$5 a piece, and there will be in the neighborhood of 600 to the mile.

"My idea, of course, is to extend the grass plot all the way to," said Mr. Daffin. "The scheme has already been carried out under my direction from Bull street to Waters road. The city would have to extend it to about the eastern end of Daffin Park."

Such a boulevard would be with equal, certainly in this country, and probably in the world, according to Mr. Daffin. "It would attract people from everywhere," he continued. "It would be the one big attraction of Savannah. Just think of a five or six mile avenue of palms, with unbroken driveways on either side, the whole thing brilliantly illuminated."

Would Outshine Everything "Neither Florida nor the Bermudas, homes of the palms, has anything like it. Savannah has set the pace for the other cities that are known for their beautiful thoroughfares. The majestic grandeur of such a boulevard cannot be well imagined. We should, by all means, carry the project out. It means more than anything perhaps than has yet been attempted here."

Mr. Daffin also suggests that it would be a good idea to incorporate in the scheme the planting of Japanese bushes in between the rows of palms. They would, he declares, add much to the beauty of the boulevard.

Now that Savannah is reaching out for tourist business it is particularly appropriate that such a scheme as this should be carried out, Mr. Daffin says. It would do more than anything else to attract tourists to Savannah. This city, he says, would become deservedly famous for this one thing.

GOV. HARRIS ISSUES PROCLAMATION

For a Georgia Products Dinner Day November 18th

Atlanta, Nov. 3 (Special).—Governor Nat E. Harris yesterday afternoon issued a proclamation urging the people of Georgia to observe Georgia Product Day, Thursday, November 18th, by joining in dinners of Georgia products, and by means of exhibits, parades, or other inspiring features, to stir the people to the need of upbuilding the state by raising their own foodstuffs and keeping at home the millions annually sent to other sections for products that can be raised as well, or better in Georgia. The governor's proclamation is peculiarly appropriate at this time when all authorities agree that much higher prices for food products will prevail during the next two or three years, on account of the European war. The proclamation is as follows:

Whereas, Nature has shown that it is possible to raise in Georgia a sufficient variety and quantity of staple articles of food necessary for the subsistence of our people; and

Whereas, It is a most worthy object to bring a knowledge of this fact to the attention of the people in order that the raising of food products in our state in larger quantities may be encouraged in every way and by all our citizens; and

Whereas, For the last two years the eighteenth day of November has been known as a day for GEORGIA PRODUCT DINNERS, and has been so celebrated by a great number of public gatherings in many parts of our state; and

Whereas, The farmers of the state have been invited to exhibit their products at the Capital City of Atlanta on November 18th, 1915, the purpose of the invitation being to further encourage the growing and marketing of food crops; and

Whereas, It is of the deepest concern for the welfare of our state to encourage these and all other movements which tend to make the people of Georgia independent in their supply of food product;

Now, Therefore, I, Nat E. Harris, governor of Georgia, by request of sundry citizens of our state, do hereby designate November 18th, 1915, as GEORGIA PRODUCTS DAY, and urge all our people to join together in Georgia products dinners, exhibits, parades, and all well intended enterprises of such character, for the upbuilding of our commonwealth.

Given under my hand and the seal of the Executive Department, this second day of November, in the year of our Lord, nineteen hundred and fifteen, and of the independence of the United States the one hundred and fortieth.

N. E. HARRIS, Governor.

U. S. HEALTH SERVICE PROVES PELLAGRA ORIGIN AND CURE

Eleven Mississippi Convicts Pardoned for Submitting Themselves to Tests

Jackson Miss. Nov. 1.—Eleven convicts at the Rankin, Mississippi state prison—seven of them serving life sentences—today were granted full pardons by Governor Brewer as a reward for submitting to prescribed tests by United States public health service authorities to determine the cause and the cure for pellagra. A twelfth member of the prison "pellagra squad" was released a few months ago because of a physical break down.

The granting of freedom to the eleven prisoners followed an official announcement by the Mississippi state board of health that experiments conducted at the convict farm under the direction of Dr. Joseph Goldberger and his assistant had demonstrated that pellagra is produced by an unbalanced ration and that Dr. Goldberger was convinced the disease could be cured if the patients were given proper food. The results of the experiment are considered by prominent physicians in this section as of exceptional importance in the prevention and treatment of the disease, which in recent years, it is declared, has been increasing the death rate in Mississippi and several other southern states.

Physicians stated that steps will be taken to introduce the diet treatment for pellagra in various sections where the disease is prevalent.

The experiment was begun February 15, 1915, with twelve prisoners, each of whom was promised a pardon if he would follow during a stated period a diet prescribed by Dr. Goldberger and four Jackson physicians showed, it was announced, that six of the prisoners in the squad have pellagra in a pronounced form and that two others show symptoms suggestive of the disease.

In issuing the pardons Governor Brewer told the prisoners they were free to leave the convict farm if they desired, but he urged them to remain several weeks and be eleven convicts granted their freedom six were serving life sentences for murder, one a life sentence for criminal assault, one had ten years yet to serve for manslaughter, two about five years each for embezzlement and one about four years for bigamy.

The "pellagra squad" was under the personal supervision of Dr. G. A. Wheeler, assistant surgeon of the United States public health service, who remained on duty constantly from the beginning of the test. The prisoners were given the usual prison fare from February 15 until April 30 after which time they were placed upon the diet prescribed by Dr. Goldberger. Up to April 23 none had shown symptoms of pellagra. Throughout the period the state authorities maintained secrecy regarding the experiment, because of the fear that relatives of the prisoners under observation might institute habeas corpus proceedings or take other legal steps to have them released from the "pellagra squad."
