## WOMEN FROM 45 to 55 TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Westbrook, Me.—"I was passing through the Change of Life and had pains in my back and side and was so weak I could hardly do my housework. I have taken Lydia E. Pinkham's Vegetable Compound and it has done me a curing of the iron. I feel better than I have for years. I will recommend it to my friends and give you permission to publish my testimonial."—Mrs. M. L. LAWRENCE, Westbrook, Maine.

Manston, Wis.—"At the Change of Life I suffered with pains in my back and loins until I could not stand. I also had night-sweats so that the sheets would be wet. I tried other medicine but got no relief. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use for six months. The pains left me, the night-sweats and hot flashes grew less, and in one year I was a different woman. I know I have to thank you for my continued good health ever since."—Mrs. M. J. BROWNELL, Manston, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled in such cases. If you want special advice write to Lydia E. Pinkham Medical Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Million a Night for Fun. A million dollars a night. That's what a proprietor of a Broadway hotel in New York figures that the natives and visitors spend for revel and pleasure. It sounds fabulous, true. But here's how he spends the million: Dinners, \$125,000; suppers and wine, \$125,000; theaters, \$175,000; cafes, flowers and other incidentals, \$100,000. "If there isn't a million spent in the Broadway district in a night," he says, "what is left wouldn't enable a man to have a steam yacht and a country home."

Mother Knows What To Use. To Give Quick Relief.

HANFORD'S Balsam of Myrrh

For Cuts, Burns, Bruises, Sprains, Strains, Stiff Neck, Childs, Lame Back, Old Sores, Open Wounds, and all External Injuries. Made Since 1846. Price 25c. and \$1.00. All Dealers or C. C. Hanford Mfg. Co., ST. LOUIS, MO.

W. N. U., ATLANTA, Mo. 15-1914.

MEMORIES of the Old South in Every Can of French Market Coffee

The romance of the days of Andrew Jackson, of Henry Clay, of the picturesque pirate chief, LaFayette, and of the beautiful women and brave men of the old South, clings around every cup of delicious old French Market Coffee.

Enjoying its unmatched aroma and wonderful smoothness, French Market Coffee is the picture of the quaint stables where belles and beaux congregated after every festive occasion for the crowning pleasure of a good-night cup of this most popular of all beverages. The French Market Coffee that you get from your grocer, in perfectly-sealed packages, is identical with the French Market Coffee served in the old French Market in New Orleans.

Try it once and you'll agree there is only one real old French Market Coffee—only one coffee with a history. Roasted by our unique, hygienic process.

French Market Mills (New Orleans Coffee Co., Ltd., Proprietors.) NEW ORLEANS

Directions—We recommend that you make French Market Coffee in your usual way. If you find it too strong reduce quantity and add more water. French Market Coffee makes more cups of good coffee to the pound than any other brand, thereby reducing your coffee bill. (100)

WINTER SMITH'S CHILL TONIC FOR MALARIA and as a general Tonic. Not sold by your druggist, will be sent by Parcel Post on receipt of price. Arthur Peter & Co., Louisville, Ky.

## SEED-EATING RODENTS

RENEWING THE FARM FLOCKS

Beats to Keep Over Both Yearling Hens and Pullets in Proportion of About Half and Half.

Under the ordinary farm conditions it is best to keep over both yearling hens and pullets, in proportion of about half and half.

As a breeder I consider the yearling hen superior to the pullet, as the eggs are usually larger and will produce better developed chicks. In fact, the vigor of the offspring is not decreased if the hen is kept three or four years.

Considered as a breeder alone, her value does not depreciate as long as she produces good chicks. But we must judge her value also by the total amount of her egg yield, and we know eggs she will produce.

Experiment station results and practical experience go to show that it seldom pays to keep hens after they are two years old, except for breeding uses.

Notwithstanding the fact that pullets will lay more eggs than yearling hens, I believe it pays to keep as many yearling hens in the flock as pullets.

Many who keep a farm flock do not consider the cost of raising the pullets to an egg-producing age, while the yearling hens are making a profit for them.

Keeping about the same number of yearlings as pullets enables me to market about one-half of the older birds during the summer when they are in good condition, and will bring the highest price.

In this way I have plenty of room for the young pullets early in the fall, and get them into their houses and ready to begin laying before the cold weather comes on.

By planning my egg-producing flock in this way, I am able to supply regular customers, and maintain a fairly uniform egg production during the entire year.

After the older birds are marketed, the yearlings alone must be depended upon to supply the customers until the pullets begin to lay in the fall.

I have found it unsatisfactory to depend upon pullets alone to maintain a regular production during the whole year.

Then again, if an incubator is not used for hatching it is imperative that we keep over a few yearling hens, if we are to secure early hatches to supply the increase to the flock.

SUCCULENT FEED FOR SHEEP. Most Flockmasters Have Been Slow in Experimenting With Silage—Must Be Fed Properly.

(By E. L. SHAW.) The use of this succulent feed for sheep has been the attention of most farmers only during the past few years. Although a few shepherds feed silage many years ago with good result, most flockmasters have been slow in giving it a trial.

Owing to the wonderful increase in the use of silage on farms, and owing to the other succulent feeds, such as roots, farmers are constantly raising the question regarding the feeding of silage to sheep. A great deal has been said of its bad effects upon sheep, but these have arisen either because an inferior quality of silage was fed or on account of carelessness on the part of the feeder in not feeding it properly.

A good quality of silage is extremely palatable and can be fed to all classes of sheep with good results. It must be borne in mind, however, that silage which is either very sour, moldy or frozen should not be fed.

The amount of silage reported in feeding trials varies from one to five pounds per head per day. The amount to feed depends upon the class of sheep and the character of the other feeds comprising the ration. As a general rule from two to four pounds per head per day is considered as much as should be fed.

Success With Ducks. Ducks have fewer insect enemies than chickens, but the rodents seem instinctively to recognize them as a savory feast, and they must be carefully housed at night where they are protected from them. Though quite helpless when young, as they grow older the great bill is a formidable weapon. They thrive best on soft food, corn meal, bran and ground oats being a good combination. Keep sand or gravel in the drinking trough constantly.

Preventing Diseases. The easiest way to prevent disease is to remove the cause.

Best for Croup, Throat, Bronchitis, Tonsillitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion,

Best for Croup, Throat, Bronchitis, Tonsillitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion,

Entered at Statesboro post office as second class mail matter.

### The War With Mexico.

It begins to look like the American government was again destined to be plunged into a bloody war with a foreign foe. The refusal of Provisional President Huerta to salute the American flag at Tampico, as an apology for an insult offered our colors by the arrest of some American blue jackets is the immediate cause of the trouble.

That there is already a deep-seated desire on the part of the authorities now in charge in Mexico to involve the United States in their internal troubles there is no doubt. President Huerta will doubtless welcome a scrap with the United States.

Then there are those in this country who would look on an exchange of a few shots in the country beyond the Rio Grande with favor. It is probable that two results will come out of the clash of arms between the United States and Mexico, and they are these: Mexico will be snuffed again and the Wilson administration will escape defeat at the hands of the people of the United States at the next election.

When a foreign foe assaults Mexico, then we will see Mexicans of all creeds and station unite in a fight against that country. Then Huerta will in the end surrender to a powerful nation, who will be compelled, by her standing among the great nations of the world to deal with the present regime in Mexico in terms of dignity and honor.

Whereas, on the other hand, if Huerta is whipped by Villa's gang, Huerta will pay the penalty of defeat with his head as will the other leaders who are behind him.

The people will join in one accord to return the present administration to power that they may be able to finish up the affairs of the government brought about by the cause of the war with Mexico.

Of course, there is no doubt as to what the result in a war between a strong nation and a weak and tottering republic like that of Mexico. But there will be lots of bloodshed and the expenditure of millions of dollars. Many a soldier will lose his life down in Mexico, either by a Mexican bullet or disease contracted down in that pest-ridden country.

Now that American blood has been shed on Mexican soil in an engagement between American and Mexican soldiers, there is no doubt left that a bloody war is inevitable. Whatever may have been the causes leading up to the shedding of this blood makes little difference now.

Admitting that the provocation for this trouble was perhaps the slightest that ever drew two nations together in bloody combat; yet, when the blood of American soldiers have been spilled at the hands of a foreign foe, every true American breast swells with patriotic emotions, and the demand that the American flag shall be protected and American lives be avenged.

Let us hope that the matter will take a peaceable turn, and that Huerta will embrace the opportunity to seek the protection of the American flag and American arms, in order to escape the vengeance of an internal foe, but who knows. It may be that the same patriotic spirit will run through the Mexican republic as we must feel at home, and a reunion of forces against the invading army may bring on complications and other and stronger powers become involved.

Again, we repeat that playing with the dogs of war is a dangerous business, and you can never tell where it will end.

## Will Governor Brown Run?

The question of whether or not ex-Governor J. M. Brown will make the race for the senate or not is not important in itself. The question as to whether he will support Gov. Slaton or not is also of minor importance. But in his probable entry there will be an issue raised which may dominate the other issues in the campaign, viz: That of the entry of the labor union vote as a factor in state politics.

It looks now as if "Little Joe" was crooning himself for the race, and that he was going to enter the race against Gov. Slaton. The labor unions have assailed the ex-governor and have written a card and threats to write another card which is scheduled to appear in next Sunday's paper.

Gov. Brown will make a straight fight against labor unions participating in politics and will be regarded as the enemy to organized labor. Then the war will begin to fly. The labor unions will retaliate and the ex-governor will write cards, and the war will go merrily on. The question hangs now on as to how the other candidate will be affected by the entry of this new candidate and this new issue into the senatorial race.

### OUR NEWS COLUMNS.

Nothing of news interest can be suppressed from the columns of THE NEWS. While we reserve the right to exercise our own judgment and desire in the editorial discussion of any questions, we also realize that our news columns are bought and paid for by the several thousand readers in Bulloch county and contiguous territory. Therefore, for us not to give fair and unbiased news mention to events and incidents worthy of such would be to commit bold and outrageous robbery upon those whose money we have accepted as subscribers.

THE NEWS is free and untrammeled. "If you don't believe it, try it."

### Sixteen Years Ago Spanish War Order Was Signed.

Washington, April 20.—Official Washington recalled with a thrill that today is the sixteenth anniversary of the signing by President McKinley of the congressional resolution calling for intervention in Cuba to establish the independence of that country.

On the same day that President McKinley signed the resolution the Spanish minister left Washington; this was April 20, 1898. The next day Spain handed Minister Woodford his passports, and the following day Havana was blockaded by the American fleet. On April 24, 1898 Spain declared war. Other famous April war dates are: Mexican war began April 24, 1846.

Civil war began April 12, 1861. American revolution began April 10, 1775.

Black Hawk Indian war began April 21, 1831.

Pensacola Compound White Pine and Spruce Balsam for that touch. Lively's Drug Store.

### Last Minute War Bulletins.

Washington, April 21.—The navy department announced that Admiral Badger, who is on the flagship Arkansas, has been ordered from Vera Cruz to Tampico. The ships which arrived with him—the Louisiana, New Hampshire, Vermont, New Jersey, South Carolina and Michigan—will be divided, according to his discretion.

Pensacola, April 21.—With 300 marines, several aviators and two aeroplanes aboard, the battleship Mississippi left here today under a full load of steam for Tampico. The tender Dixie, attached to the torpedo boat Astilla, which left yesterday for Mexican waters, also sailed today for Tampico.

Washington, April 21.—Consul General Canada, at Vera Cruz, reported to the state department tonight that several Americans, including some women who had refused to go aboard refuge ships, are now in hotels within the firing line.

Eagle Pass, Tex., April 21.—At a mass meeting of Mexican citizens in Piedras Negras today, 500 volunteers were organized and armed to resist what they called the expected invasion of the United States. Federals occupy Piedras Negras.

Washington, April 21.—One battalion of marines of the second advance base regiment from the Pacific and marines attached to other ships, as well as a portion of the sailors, probably about one-half of each ship's company, comprises the force that engaged the Mexicans at Vera Cruz today.

Douglas, Ariz., April 21.—A special to the Douglas, Arizona International from Tombstone, says news reached there today that fifteen members of Troop B Tenth Cavalry, were being held by constitutional troops at a point just below the border between Naco and Hereford, Arizona.

The troops who were on border patrol, wandered across the line last night without being aware of the fact. It is reported they were surrounded and taken prisoners by a large detachment. Troop A Tenth Cavalry left Fort Huachuca today to investigate.

The News wants someone in every district in the county to be its correspondent, if you are interested write THE NEWS for particulars.

The banks of Statesboro will be closed on Monday, April 27th, in observance of Confederate Memorial Day.

Mr. and Mrs. W. P. Donaldson are preparing to make a visit to Jacksonville, taking advantage of the reunion which will be on in that city.

Advertising pays only when it is read. The News is read by more Bulloch county people than any paper published.

### Dekle-Brammen.

On Tuesday morning, at the residence of Rev. L. A. McLaure, Miss Birdie Dekle and Mr. William A. Brammen were united in marriage. Rev. Mr. McLaure officiating.

The bride is one of Statesboro's pretty and accomplished young women. She has been in the sales room of the Statesboro Mercantile Co., for some time, where she made many friends. The bridegroom is a prosperous young merchant of Silston, a son of Judge John F. Brammen of this city, and numbers his friends by the number of his acquaintances. The happy young couple left on the eight o'clock train for Atlanta where they will spend a few days, when they will return to their home at Silston. The News joins their many friends in congratulations.

A good many people are already going down to Savannah taking advantage of the cheap rates to the Drainage Congress. A good many of them will need drainage of some kind after they have tanked up.

### Wednesday Will Be.

On next Wednesday, April 29th, at the Franklin Drug Co., a magnificent display of Nunnally's candies will be made. They will have with them Mrs. Holland of Atlanta, an expert candy demonstrator. We respectfully invite all the ladies of the city and community to attend this demonstration. All who attend will be served with Nunnally's delicious candies free. We want everybody in the town and community to know how good Nunnally's candy is.

Respectfully, Franklin Drug Co.

### Candy Day.

On next Wednesday, April 29th, at the Franklin Drug Co., a magnificent display of Nunnally's candies will be made. They will have with them Mrs. Holland of Atlanta, an expert candy demonstrator. We respectfully invite all the ladies of the city and community to attend this demonstration. All who attend will be served with Nunnally's delicious candies free. We want everybody in the town and community to know how good Nunnally's candy is.

Respectfully, Franklin Drug Co.

Mr. H. J. Proctor came up from Silston today and spent awhile in town.

## THE STATESBORO NEWS

(Read by more Bulloch County People Than Any Paper Published.)

### Parcels Post Great Success.

The government checking of the parcels post office development is an interesting figure. In compliance with an order from the post office department Postmaster Anderson kept a record of every parcel handled under parcel post rates at the Statesboro post office for the period of fifteen days, and the record shows that 1,066 packages were received and 830 dispatched during the fifteen days on which a record was kept. The force in the post office says that owing to the fact that the farmers are busy now the movement was lighter than usual and hardly a fair average for the business handled at the office.

There were a good many packages approaching the weight limit, 50 pounds, one instance being two boxes of Oregon soap. The total number handled, in and out, being 1,896 and as stated above 1,066 of this number were received. This shows that the local merchants are getting it in the neck. They are sitting down and allowing the mail order houses to come in and take business away from them right in front of their doors. The average merchant in a small town, believing that money expended for advertising is thrown away, is allowing Chicago, Atlanta and Savannah to come in and skim the cream off the milk. These concerns fill the mails with advertising matter and are getting the business. Getting more and more of it every day.

The record is that foreign houses are doing three times as much business through the parcels post as the home merchants in the local territory.

It seems that the farmers in Bulloch county are not taking advantage of the convenience offered them by the government and that the Statesboro and Bulloch county merchants are not on their job for reason past business. We see no reason why our merchants could not get a much larger per cent. of this business as the rate of delivery on our rural routes is much less than from the northern houses.

### Edwards Makes Announcement.

In this issue appears the formal announcement of Congressman C. G. Edwards, who places his name before the voters of the ten counties in the First congressional district. Mr. Edwards has many friends in Bulloch who will rally to his support, and that he will make a good showing here is not disputed. He is still at his post of duty, which is commendable to the voters, in fact the best campaign argument that could be offered to well-thinking people.

### Corn For Sale.

I have fifty or seventy-five bushels of good corn in the ear for sale. Parties needing corn will please notify me. J. L. Wilson, Statesboro, Ga., Route No. 6.

### Wood For Sale.

I have a lot of fine, seasoned fire and stove wood for sale. Prompt delivery made, and all orders given immediate attention. O. L. McLenore.

### Stray Cow.

Strayed from my place in Statesboro; a short time ago, a large sized cow, buckskin colored, with both horns sawed off. Either has young calf or will have one soon. Any information as to her whereabouts will be gladly received. O. C. Parker.

### The Best Hot Weather Tonic.

GROVER'S STOMACH REMEDY enriches the blood, builds up the whole system and well known for its refreshing effect of the hot summer. See.

### Alfalfa Pays in Jenkins Co.

Mr. A. W. Belcher, of Brooklet, returned on Sunday from a trip to Millen, where he was called on account of the death of a relative. Mr. Belcher brought back with him some fine specimens of oats and vetch, the finest that has been seen here this season. Mr. Belcher states that a farmer in Jenkins county is making a decided success raising alfalfa in Jenkins county, having cut three tons of hay from one acre last year, that being the first year. The crop is now ready for the first cutting, and will be ready for the second cutting in about two weeks.

## ADDITIONAL MEXICAN WAR NEWS

Washington, D. C., April.—After a spirited debate of more than two hours the house tonight passed the administration resolution, approving President Wilson's purpose to use the armed forces of the nation to obtain from Huerta the fullest recognition of the honor and dignity of the United States.

The vote was 337 to 37. The resolution was passed at 9:25 and went to the senate.

The senate resumed its session to consider the resolution at 9:45 o'clock. The house recessed at 10:30 to await the action of the senate.

A bill to appropriate \$50,000,000 to be expended by the president, was introduced by Senator Chamberlain, chairman of the military affairs committee, to which the bill was referred.

The senate passed the volunteer army bill, for taking into the regular service militia regiments in time of war. The bill already had passed the house.

The Chamberlain bill, making an appropriation for the president's provides:

"That the president of the U. S. be, and he is hereby authorized to expend in his discretion for the national defense and for each and

every purpose connected therewith the sum of \$50,000,000 out of any moneys in the treasury not otherwise appropriated, which sum shall remain available until expended."

This is identical to the bill passed before the war with Spain.

Pensacola, Fla., April 20.—Twenty torpedo boats of the United States navy late today weighed anchor and started on their way to Tampico to participate in the naval demonstration planned against General Huerta. An hour later the cruiser Birmingham the fastest vessel in the navy, also departed for the Mexican port.

**Tabloid War News.**

Developments Monday in the Mexican situation were:

United States Commander Hughes instruct Mexican officials to order all merchant vessels out of Vera Cruz harbor, which means the harbor is practically blockaded.

President Wilson called cabinet for long discussion on the crisis.

The president told correspondents the United States was not going to make war on Mexico; that the issue was with a man who calls himself president of Mexico—Huerta.

Huerta, through Minister Rojas, gave out a statement defending his position.

Second division of the army in Texas was ordered to go on transports at Galveston and await sailing orders.

A war fund of \$50,000,000 is provided for in a bill introduced in the senate by Senator Chamberlain.

President Wilson appeared before a joint session of Congress this afternoon to inform the statesmen of the situation.

Volunteer army bill, which has already passed house, is adopted by senate.

Torpedo flotilla at Pensacola receives orders to join Atlantic fleet and hasten to Mexico.

National guard throughout United States ready to volunteer for service.

Twelve best known aviators in world volunteer for United States service in Mexico.

Panama canal is ready to take Atlantic fleet through to Pacific side.

United States Consul Canada warns all women to leave Vera Cruz and places merchant vessels at their disposal for flight.

Rear Admiral Badger, at sea.

given wireless news of Wilson's action. Will reach Tampico Wednesday.

## REFUSAL BY HUERTA THRILL TO COUNTRY

Washington, April 20.—Only one event in American history is comparable to the thrill that shot through Washington when Huerta refused to do homage to the Stars and Stripes, harrowing, of course, the circumstances and climaxes that preceded and marked the civil war.

The blowing up of the Maine in Havana harbor in 1898 is the one comparable event, and this epochal occurrence heralded as the "daring deed of a designing dastard," occasioned no more patriotic fervor than did the announcement of Huerta's defiance of President Wilson's ultimatum.

Washington had been on edge for the announcement, but Washington was much in doubt as to the nature of the denouement. The speculation caused by the doubt increased the sub-surface excitement, evidences of which were manifest in all part of the city among all sorts of persons.

Although the Mexican situation and the president's unyielding position were the topics of talk before and after church services, in the hotels, on the cars, in the club, and everywhere else in Washington, the center of activity on the eventful day shifted at intervals from the white house to the state, the war and the navy departments, just across the street.

The salute to the flag which Huerta refused will not be satisfactory repatriation. It is understood a declaration of apology, as well as a salute and a guarantee that the rights and dignity of the United States would be respected, could alone cause a withdrawal of the American forces.

While American marines and blue jackets were fighting, the senate debated the whole Mexican situation before crowded galleries. The joint resolution that passed the house supporting the president's proposal to use the army and navy to obtain repatriation was being debated in the senate at midnight with prospects of an all-night session. Many republican senators wanted the resolution broadened to authorize steps to obtain repatriation of all offenses committed against the Americans in Mexico.

The president acted on the authority of the executive, in accord with precedent, because he believed an emergency existed.

He gave Rear Admiral Fletcher authority to seize the Vera Cruz customs house to prevent the launching today by a German merchant vessel of a big consignment of arms and ammunition for the Huerta government.

## Works Wonders for Sick Women

STELLA-VITAE cured this woman, who had suffered for 25 years. Give it a chance to cure YOU!

WHAT STELLA-VITAE HAS DONE for one woman is well told by Mr. J. L. Hendrix of Pecos, Texas, who gratefully writes us:

"For twenty-five years I had from time to time terrible attacks of what I called 'female troubles,' and tried various patent medicines and the only remedy that gave me relief was STELLA-VITAE. It is a wonderful medicine, and I believe that it has cured me."

STELLA-VITAE acts directly upon the female organs and functions. It tones and strengthens the muscles and tissues, builds up and restores the whole system when run down and wasted by disease, poisons and adjusts the delicate nervous organization to that harmonious balance so necessary to perfect womanly health.

STELLA-VITAE regulates the functions peculiar to women, stops wasting and relieves dangerous suppressions, banishes the errors of those periods so dreaded by weak, nervous, run-down women.

STELLA-VITAE does not force nature, and is of remarkable benefit at all times and under all conditions. Its use during pregnancy benefits both mother and child.

We guarantee the first bottle of STELLA-VITAE to benefit you. If it does not you get your money back. It is done, your dealer will refund it. Send for a bottle for \$1.00.

Try STELLA-VITAE on this "all to gain and nothing to lose" basis. Try it TODAY. If you are sick there is no time like NOW for trying STELLA-VITAE.

She Made Up a Mixture of Sage Tea and Sulphur to Bring Back Color, Gloss, Thickness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also cures dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any store for "Wells' Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, one strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy. Wrong Label. Grocery clerk—Is it, is it, what? Colored Auntie—Missus sent me for two cans of medicated milk.

**Backache Warns You**

Backache is one of Nature's warnings of kidney weakness. Kidney disease kills thousands every year. Don't neglect a bad back. If your back is lame—it is time to stop or rest—if there is irregularity of the secretions—suspect your kidneys. If you suffer from aches, dizziness and are tired, nervous and worn-out, you have further proof.

Use Doan's Kidney Pills, a fine remedy for bad backs and weak kidneys.

A KENTUCKY CASE. G. W. Smith, Ky., says: "My wife, Catherine, had made me an invalid. We had been bed for weeks at a time and after a while I felt that death would come and my misery. I could hardly find my way about the house. I had a very bad case of kidney trouble. I had been told that Doan's Kidney Pills were a good remedy. I bought a box and took them. Before long I was a well man and Doan's Kidney Pills cured me."

Works Wonders for Sick Women

STELLA-VITAE cured this woman, who had suffered for 25 years. Give it a chance to cure YOU!

WHAT STELLA-VITAE HAS DONE for one woman is well told by Mr. J. L. Hendrix of Pecos, Texas, who gratefully writes us:

"For twenty-five years I had from time to time terrible attacks of what I called 'female troubles,' and tried various patent medicines and the only remedy that gave me relief was STELLA-VITAE. It is a wonderful medicine, and I believe that it has cured me."

## GOOD ROADS

WORK ROADS IN THE SPRING

Mistake to Put Off Task Until August or September. When Surface is Dry, Declare Experts.

It is a great mistake to put off working roads until August or September, according to road experts of the United States department of agriculture. The roads should be worked when the soil is damp so as to make the soft bakes when it dries out. If the roads are worked when they are dry, it takes more power to draw the machine and besides dry earth and dust retain moisture and quickly rot after rains. The use of clove, soda, weeds or vegetable matter in building earth roads should be avoided because they also retain moisture.

If the working of the roads is deferred until the latter part of the summer when the surface is baked dry

and hard, they are not only difficult to work, but the work is unsatisfactory when done. Earth which is loose and dry will remain dusty as long as the dry weather lasts, and then turn to mud as the rains begin. By using the road machine in the spring while the soil is soft and damp, the surface is more easily shaped and soon packs down into a dry hard crust which is less liable to become dusty in summer and much less in winter.

Repairs to roads should be made when needed and not once a year after crops are laid by. Because of its simplicity, efficiency, and cheapness, the splitting drag or some similar device is destined to come into more and more general use. With the drag properly built and its use well understood, the maintenance of earth and gravel roads becomes a simple and inexpensive matter. Care should be taken to make the log so light that one man can lift it with ease, as a light drag can be drawn by two medium sized horses and responds more readily to various movements of hitching and the shifting position of the operator than a heavier one. The best material for the drag is a dry cedar log, though elm, oak, hickory or ash are excellent. Oak, hickory or ash are too heavy. The log should be from seven to ten feet long, and from eight to ten inches in diameter. It should be split carefully as near the center as possible and the heaviest and best slab chosen for the front. The log is split, but not sticky, the drag does the best work. As the soil in the field will bake if plowed wet, so the road will bake if the drag is used when the soil is wet. If the roadway is full of holes or badly rutted the drag should be used once when the road is soft and slushy.

The earth road can best be crowned and ditched with a road machine and not with picks and shovels, scoops, and plows. One road machine with a suitable power and operator will do the work of many men with picks and shovels, and in addition will do it better. If the road is composed of fine clay or soil it will sometimes pay to resurface it with top soil from an adjacent field, which has and or gravel mixed with it. This method, called the "top soil method," is now in successful use in Clarke county, Georgia.

Storm water should be disposed of quickly before it has had time to penetrate deeply into the surface of the road. This can be done by giving the road a crown or slope from the center to the sides. For an earth road which is 14 feet wide the center should be not less than six inches more than 12 inches higher than the outer edges of the shoulder. The narrow road which is high in the middle will become rutted almost as quickly as one which is too flat, for the reason that on a narrow road the traffic is forced to use only a narrow strip. Shoulders are often formed on both sides of the road, which prevents storm water from flowing into the side ditches, retaining it in the rut and softening the roadway. These ruts and shoulders can be entirely eliminated with the road machine or splitting drag.

The width of the earth road will depend on the traffic. As a rule, 25 or 30 feet from ditch to ditch is sufficient if the road is properly crowned. Ordinarily the only ditches needed are those made with the road machine which are wide and shallow. Deep narrow ditches wash rapidly, especially on steep slopes. The earth road should not be loosened, dug up, or plowed up any more than is absolutely necessary.

**KIDNEYS CLOG UP FROM EATING TOO MUCH MEAT**

Take Tablespoonful of Salts if Back Hurts or Bladder Bothers—Most Forms Urlic Acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissue clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.

**BOTH VERSATILE AND STRONG**

Young English Author Especially Gifted With Talent Along Many Lines Other Than Writing.

Eldrid Reynolds, the young English woman who is the author of the novel "Whispering Dust," belongs to an old Yorkshire family, and numbers among her ancestors Elizabeth Fry, the prison reformer, the poet Bloomfield and James Ward and George Morland, both noted as painters. Miss Reynolds spent her childhood on the wide, heather-covered Yorkshire moors and the wild Cornish coast. The passion for space, freedom and the immensities which she voices in "Whispering Dust" is doubtless the result of her early environment.

The book itself is the result of a winter on the Mediterranean and in Egypt, but the heroine, who after thirty years of cramping duties as "a creature's daughter, and a creature's niece" longs to accomplish something, can be by no means identified with the author. Miss Reynolds has accomplished a great deal in less than thirty years. She created stories before she could read, wrote, acted and produced plays for home and school before she reached her teens; published her first story at sixteen and her first novel, "Red of the Rock," at twenty. She has a decided talent for drawing and singing and her favorite recreations, canoeing, amateur theatricals, photography, painting, drawing and singing.

**HUSBAND SPENT EVERYTHING**

In an Effort to Bring Wife's Troubles to End, and Finally Succeeds.

Myra, Ky.—Mrs. Sarah Branham, of this town, gives out the following statement for publication: "I am 37 years of age, and suffered untold agony with womanly troubles for 11 years. For 7 years, I was all run down, and was told that I could not live, but my husband spent everything he had, but I got only temporary relief."

A merchant recommended Cardui, the woman's tonic, to my husband, and he got me 6 bottles at one time. I began taking it, and before the first bottle was gone, I began to feel better.

I took all of the 5 bottles, and I am today as sound and well as any woman, and fat and hearty."

Such testimony as the above, which is given unsolicited, speaks for itself. Can't you see, lady reader, that you are doing yourself, your family, your friends, an injustice by not, at least, trying Cardui, if you suffer from any of the many ailments so common to women?

Cardui is composed of pure, harmless, vegetable ingredients, which have had no effect. After that, the regular use of Resinol Soap is usually enough to keep the skin clear and healthy.

Resinol Ointment and Resinol Soap have been prescribed by doctors for the past nineteen years, and sold by all druggists.—Adv.

Unreasonable. Sonny—Pa, what is mean temperature? Pa—Zero weather in May.

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. The favorite family laxative. Adv.

Lost—I saw Ethel yesterday, and we had the loveliest confidential chat together.

Lucy—I thought so; she wouldn't talk to me today.—Judge.

## HARRIS TO RUN FOR GOVERNOR

Polk County Friends Say He is a Probable Candidate and are Pleased.

Cedartown, April 19.—The home folks, in Polk county, of Hon. W. J. Harris, of Cedartown, were made happy over his appointment last year by President Wilson as director of the census, and they are now enthusiastic over the probability that he will enter the race for governor. His own destination is well known, and he comes from a useful and honored family. His brother Prof. J. C. Harris, is superintendent of the Rome public schools; another brother, Major P. C. Harris, of the United States army, was recommended by President McKinley for promotion for gallantry at the battle of Santiago; another brother, Dr. Seals Harris, of Mobile, Ala., is the editor of the Southern Medical Journal. His wife is the daughter of the great southern hero, General Joe Wheeler. Mr. Harris was elected to the state senate from the 38th district without opposition and has served acceptably as chairman of the state Democratic executive committee. He is president of the Georgia Fire Insurance Company and has the business experience and judgment well calculated to make him a really great chief executive of Georgia. His home county of Polk will be solidly and enthusiastically for him.

Leon Hagins came near losing his life on Sunday afternoon when an overturned automobile. In trying to make a quick turn the auto turned over and caught the young man under it. Fortunately assistance was at hand and he was released from where he was pinned under the machine. He is able to be out again and seemed to suffer only from some bruises.

## Arden Gets Letter from Hell

Mr. D. D. Arden, master mechanic of the Savannah and Statesboro railway, at this place, had about half the wind knocked out of him one day this week when he fished a rather peculiar looking letter out of the postoffice, and, being curious to know from whence it came, noticed the postmark "Hell" on the envelope. Mr. Arden dropped the missile, but on further examination it seemed to be rather harmless, and wasn't sizzling with the odor of brimstone. He ventured to open it, and found it to be a letter from an old friend from whom he had not heard from in many years.

The letter started out by saying, "I am in hell, and strange to say, I like it first rate. There is not near as much fire and brimstone here as you might suppose." Going further, the departed friend goes on to say that the place is not anything like it has been painted; that they have a delightful climate there and the folks are all nice and clever, and living in Hell is very nice, at that particular point.

The town referred to is Hell, a small town in the northern part of Norway and the friend is over there building railroads. Strange that any town would want to carry such a name, but this one has it, and is perhaps the only one bearing that name this side of the great terraces, where the wicked all leap into everlasting fire and brimstone.

## Negroes Will Hold Fair.

The negroes of Statesboro and vicinity held a meeting one day last week and have decided to hold an agricultural fair during the coming fall. We understand that officers of the fair association have been selected and the work of putting on the fair has been started.

Bulloch has some successful colored farmers and a showing made by them would not only interest members of their own race but the white people would turn out and see what the colored brethren could show.

## School Contest at Metter.

On Saturday, one of the largest crowds ever seen at Metter gathered in our sister city to witness the exercises of the contest between the members of the First Congressional District Accredited High School Association.

A special train went up, carrying most of the crowds from Statesboro and intermediate points. The train was loaded down when it left Statesboro, making it necessary to cut out all other stops between Statesboro and Metter. The special doubled back to Register, however, making an extra trip for accommodation of the people along the line of road.

As sumptuous dinner and barbecue was spread by the people of Metter and vicinity, and everybody who attended report a very large time. The following is the result of the award of the medals:

Ready writing, first prize, Miss Lewis, of Millen; second, Miss Annie Blitch Parrish, of Statesboro. Piano, Miss Eva Boykin, of Savannah; spelling, George S. Kimball, of Statesboro; declamation, Lester Jenkins, of Sardis; running broad jump, Levy Newton, of Claxton, 17 feet, 2 inches; running high jump, George Schrenk, of F. D. A. S., 4 feet, 10 inches; standing broad jump, Keller Sands, of Claxton, 8 feet, 11 inches; chinning the pole, Albert Quattlebaum, of Statesboro, 25 times; potato race, Charlie Weatherbee, of F. D. A. S., 100-yard dash, Pat Smith, of F. D. A. S., 11 seconds; 220-yard dash, Levy Newton, of Claxton, 34 seconds; 440-yard dash, Ewell Atkins, of Statesboro, 61 seconds; half mile relay race, Clark Sims, of Statesboro, 1:51, with Algie Collins a close second.

Good order prevailed and the best of feeling was manifested throughout the contest.

One feature of the meet was the number of candidates present. Col. J. W. Overstreet, of Savannah, was present, telling the voters why he should go to Congress from the First district.

## Mad at Paint

25c a gallon for paint is about \$2.50 on the average job, and lots of men waited last year for that, but they didn't reckon; they got mad; wouldn't pay it.

There are times to get mad and refuse to pay; but when one's property needs protecting is no time to get mad and not paint.

Besides, it costs more to get mad and wait than to paint.

Getting mad doesn't do any good to your property; paint does it good by keeping out water; no water no rot; no paint, some water and rot; and a little rot is more than enough to make a man liberal towards his painter and paint.

Paint costs not a cent. All the paint in the world, so long as it keeps out water, costs not a cent.

Ship your Chickens and Eggs to the undersigned; we will pay the highest market price for them. Enterprise Grocery Co., Price and Henry streets, Savannah, Ga.

## School Closing at Bradwell Saturday, May 9th.

PROGRAM.

Educational Address—By Hon. J. W. Overstreet, at 1:30 p. m. Field exercises will begin at 3 o'clock, prizes will be awarded and all public schools may enter contests.

Ice cream supper from 4:30 till 10:00 p. m. C. D. HART, OLIVE DENMARK, Principal. Assistant.

## Card of Thanks.

Mr. and Mrs. Harlie L. Trappell wish to thank their many friends for their kindness during Mrs. Trappell's illness at the sanitarium and feel under many obligations to them. We also thank Drs. Patrick Floyd and Williams for their faithful and prompt services, and in our feeble way pray God's blessings upon them all.

Yours truly, MR. AND MRS. HARLIE L. TRAPPELL.
