## Engines of Air, Land and Sea Death-Sweep Battlefield

London, Oct. 26.—The correspondent of the Daily News, who has been in an armored train to the banks of the Yser, in the northwest He says:

"The battle rages along the Yser with frightful destruction of life. Air engines, sea engines and land engines death-sweep this desolate country vertically, horizontally and transversely.

Through it the little frail human engines crawl and dig, walk and run, skirmishing, charging and blundering in little individual fights and tussles, tired and puzzled, ordered here and there, sleeping where they can, never washing and dying unnoticed. A friend may find himself firing on a friendly force and few are to blame.

"Thursday the Germans were driven back over the Yser; Friday they secured a footing again, and Saturday they were again hurled back. Now a bridge blown up by one side is repaired by the other; it is again blown up by the first and left as a death trap till the enemy is actually crossing.

Actions by armored trains, some of them the most reckless adventures, are attending daily. Each day accumulates an unwritten record of individual daring feats, accepted as part of the daily work. Day by day men push out on these dangerous explorations, attacked by shell and fire, in danger of cross fire, dynamite and ambuscades, brave and pious support to the threatened lines.

As the armored train approaches the river under shell fire the ear cracks with the constant thunder of guns abed. It is amazing to see the angle at which the guns can be swung.

"And overhead the airman are busy venturing through fog and puffs of exploding shells to get one small fact of information. We used to regard the looping of the loop of the Germans overhead as a hair-brained piece of impudent defiance to our infantry fire. Now we know it means early trouble for the infantry.

### Wait Point

There are painters and waiters. What am I going to do? Paint of wait? How much am I worth with my property waiting? How much if I paint? Will my house be worth more or less if I paint?

Say it costs \$2 a gallon Devoe—I wouldn't paint any other—and \$30 or \$40 more for putting it on. That's \$50 or \$60 a gallon job. The money is gone. It is in the house. Is it all in the house? Suppose I were selling; what should I get for that house fresh-painted and what should I get for it needing paint? I wonder why men paint before selling. DEVOE.

### Gives Mercer \$5,000

Macon, Ga., Oct. 22.—Tom Watson, Georgia editor and one time Populist candidate for the presidency, has given the Mercer University \$5,000 in cash, interest on which is to educate freshmen who need help. This announcement was made at Mercer chapel this morning. It also was stated that Tom Watson had provided in his will that Mercer receive his library when he dies.

### What the Kidneys Do

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 400 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—headache, dizziness, backache, rheumatism, gout, gravel, disorders of the eyesight and hearing, drowsiness, irregular heart, debility, drowsiness, dropsy, deposits of the urine, etc. But if you keep the kidneys right, the danger is overcome. Doan's Kidney Pills have proven an effective kidney medicine.

S. F. O'Neil, consultant, Statesboro, Ga., says: "I can conscientiously recommend Doan's Kidney Pills to all who may be in need of a kidney remedy. I have given them a thorough trial and they have done me more good than anything else I ever took for kidney trouble."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. O'Neil had. Foster-McMillan Co., Props., Buffalo, N. Y.

### Preparedness For War

We trust that Representative Gardner's resolution providing for a commission to inquire into this country's preparedness for defense or offensive war will bear fruit and become promptly materialized.

One thing is certain, and that is that this is a subject which should engage the attention of the American people. There is a great deal of talk and a great deal of thinking on this matter and the work of a commission giving a report of a careful examination of our preparedness for war cannot be a mistaken work.

The condition of the whole world today proclaims the distressing fact that the time has not come when any nation can afford to go carelessly armed. Those who cherish hopes of peace often feel a great abhorrence of armaments; this is a natural sentiment no doubt, but it is not practical.

We know that as yet the world has not evolved sufficiently from savagery to render it safe for any nation to remain inadequately prepared for war and while we may strive for peace and work for it in the only lasting and really effective way—which is by keeping our treaties and acting with a spirit of fairness, good will and courtesy in our relationship with other nations—it is none the less imperative that we should be prepared for emergencies, or at the very least, be sure that such investments as we are making in fighting forces are good investments, whether they are large or small.

Leaving out the question of the extensiveness of the military establishment, necessary for the defense of the long coast lines of this country, it is essential to find out if what we already have in the way of armaments and forces is ready and effective. Land forces of ten thousand men may be better prepared than land forces of times larger. A navy of ten ships may be better prepared for efficient and reliable work than a navy of one hundred. Besides, not until we get some idea of how prepared and how efficient our present establishment is can we gain any intelligent estimate of how much we need.

The war in Europe cannot be set aside and ignored as having no relationship to ourselves. It is setting a war gauge which it is dreamer's folly to miss realizing. Preparedness for war last year is not preparedness for war today.

We have now to consider what it means to be prepared for modern war as it is now being demonstrated in Europe. It is a serious question at this time whether our expensive fortifications in certain of our harbors can rightly be considered as defenses at all. The ease with which the German siege guns overcame the Belgian fortification bring us to a realization that no nation can afford to stand still in the matter of defenses.

What we need to find out first of all is, whether we are getting the worth of the money we are at this time spending in these things. It is estimated that the people of the United States are spending, through their general government, the sum of \$250,000,000 on their military forces.

If we are getting the full worth of this money it is well spent—if we are not, it is a most iniquitous and abominable waste that should at once be stopped.

The United States cannot afford to remain in a condition of unpreparedness for war. Our people desire to spend no unnecessary dollars in this way. It is therefore important to cut out useless expenditures and to make a painstaking study, first of the fitness and efficiency of our present equipment, and secondly, of our needs.

### Malaria or Chills & Fever

Prescription No. 666 is prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, and if taken as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c.

### GERMANS CAN LAND IN CANADA

Washington, Oct. 25.—Germany's right to land troops in Canada was denied, and thus secured at least a temporary foothold on the American continent, was upheld today by Count von Bernstorff, the German ambassador. He declared that as Canada was sending soldiers to fight against his country it would be no infringement on the Monroe doctrine if Germany should invade Canada.

Discussing his note to the state department giving assurances that Germany would attempt no South American colonization in event of victory, the ambassador said only South America was referred to. There never has been any question raised, he said, as to possible German attempts to seek colonization in any other part of the American hemisphere.

### Mrs. Godbee's Appeal Denied

Augusta, Oct. 24.—The extraordinary motion for a new trial in the case of Mrs. Edna Perkins Godbee versus the state was denied by Judge Hammond. The motion was filed by Attorney E. K. Orestreot for Mrs. Godbee, who presented affidavits to show that Juror R. R. Durden had remarked before the trial that "he would sit on the jury a week or so on the defendant." The juror denied having made any such statement. The case again will be appealed to the supreme court.

Mrs. Godbee was convicted in September, 1918, for killing her former husband and his young wife in the postoffice at Millen, Ga., and sentenced to serve a life term in the penitentiary. The case was appealed and the supreme court affirmed the verdict of the lower court.

Georgia Man Rescued From Dreadful Affliction in Time

Resident of Woodstock Finds Himself Restored After His Physicians Fail.

T. A. Lewis, who lives on route 8, Woodstock, Ga., was the victim of stomach troubles for a long time. He tried the treatments of many doctors. He tried all sorts of remedies. His sufferings were a serious handicap to his work. Then he tried May's Wonderful Stomach Remedy. Just as it was about to be done for his ailment. He took the full treatment; then wrote:

"I had taken your wonderful stomach remedy and am feeling better than I have in years. Your remedy does just what you claim it will do. I tried several doctors, but they did me no good. I am glad that I have found your wonderful remedy. I have recommended it to some of my neighbors who need it."

Mr. Lewis' experience is just like that of thousands of others who have been delivered from stomach troubles. May's Wonderful Stomach Remedy clears the digestive tract of mucus and acridities and restores normal action of the stomach, liver and intestinal disorders. Many declare that it has saved them from dangerous operations; many are sure it has saved their lives.

We want all people who have chronic stomach trouble or constipation, no matter how long standing, to try May's Wonderful Stomach Remedy—one dose will convince you. This is the medicine so many of our people have been taking with surprising results. The most thorough system cleanser we have ever sold. May's Wonderful Stomach Remedy is now sold here by W. H. Ellis Co. and druggists everywhere.

### Dublin Man Makes Good in Macon

Scattered throughout Georgia there are lots of people who are acquainted with genial, good natured Tom Hooks, and will always remember his hearty hand shake and the genuine hospitality which he dispenses.

These and others who like to see a man make good will be glad to know of his success in the management of the New Lanier, of which he is now owner. Since going to Macon early in the year Tom, as he is known to everybody, has turned things upside down, remodeling the hotel throughout, installing rich and handsome furniture, until he can now boast of one of the best hostleries in Georgia.

The Lanier has long since been known as a hotel of refinement, and enjoys probably the largest lady patronage of any hostelry in the state. It caters especially to people living in nearby cities, and those who visit Macon from this section will find the Lanier a most convenient, comfortable and homelike place to stop at.

Tom is always there to greet you and see that you are well cared for while his guest.

### A Pathetic Story of the War

A pathetic story of the European war is told by the Swiss correspondent of the Berliner Tageblatt.

It concerns a woman living near Zurich. She was born in Switzerland. She married young in life, her husband being a German. They were frugal and accumulated quite a property, as properties go in the old country. Two fine sons were born to them and the lady grew up to be a worthy man.

On the death of her husband, the woman again married. Her second husband was a Frenchman. He, also, proved an excellent mate, and the home continued one of happiness and prosperity. To the second union, also, two sons were born. There were no daughters in the household.

When the war came on, the boys went to the front. The sons of the German father enlisted with the Kaiser's men. The boys born to the French father rallied to the colors of France.

All of these brothers have been slain in battle. They fought against each other on the French frontiers. The mother in her old age is bowed in grief, her greatest sorrow being the possibility that her sons might have been instrumental in the death of another of her boys.—Augusta Chronicle.

### Mighty Hard Times

The Times are hard—of course they are. Who made them hard? Do not the people make times good and bad? Whose to blame? Why are we to blame. Just suppose we had all of that money we have invested in automobiles in the last few years, amounting to about two hundred thousand dollars in Bulloch county. That money would take care of a big lot of distress. Just suppose we had all of that money we have spent foolishly for Sunday excursions, loafing, extra miles, etc., Bulloch county would not care how long they fought in Europe. But we had our chance and threw it away, and now we think it is the duty of the government to save us from our folly. It will never do it. You have got to save yourself by changing your course in life, or you are a goner without and. No use to advise you, but you will learn in the hard school of experience, and then you will know something.

## In the Progressive Column

Statesboro is to undergo a marked change. It long has been known as an inland cotton market, but in the future it expects to be equally as well known as a market for cattle. If its expectations are realized it will become, instead of a one crop market, a market for a great variety of crops. The raising of meat animals on a large scale in Bulloch county means the raising of grain and hay.

A dispatch from Statesboro in the Morning News yesterday told of the purchase of 3,300 acres in that county to be devoted to raising cattle and cattle feed, while other tracts are to be used as pastures for cattle and hogs and for growing winter feed for them. There is no reason to fear that Statesboro will be any less prosperous after the change than she has been, or that her growth will be any less rapid or the agricultural section any less productive of profit. On the contrary, because diversified crops are more dependable in the long run than any one crop, her growth should be more rapid and her prosperity more abundant.

It is welcome news that such a large acreage in one of the largest cotton producing counties in the state is to be devoted hereafter to other crops. The chances are a hundred to one that Bulloch county will not regret the change. A bad year in cotton will never hit her so hard again and the failure of any one crop will not hurt her seriously. She is setting an example that other counties would do well to follow.—Savannah News.

NOTICE

There can no longer be any doubt of Great Britain's ability to raise a huge army within a short length of time. Ninety days after the war began she has 1,500,000 men, 800,000 of whom have responded from civil life to call for volunteers. That she could raise as many more if they were needed cannot be denied, because the strain of war has not been felt in her provinces as it could be felt if it were necessary to demand such an army. To instance, we have had in the field before the war ends. During the War between the States one person out of every ten, north and south, was a soldier. If the British empire found it necessary to call one of every ten persons in its vast dominions to the colors it would have an army of 50,000,000 men. How vast are its resources in the raw material of which soldiers are made is apparent.—Savannah News

## \$40,000 - FORTY THOUSAND - \$40,000

Stock of merchandise, manufactured and made for the trade and consumers for the Winter of 1914 and 1915, will be offered to the buying public at a great sacrifice.

SALE OPENS

## FRIDAY, NOVEMBER 6th

And Closes When Stock is Satisfactorily Reduced

### Terms for this Sale is CASH and Cash Only

And here is the whole truth why we are going to sacrifice our entire stock of winter merchandise just at this very moment, and at the beginning of the cold winter months, when we all, small and large, must supply ourselves and families with the real necessities of life. Under present financial conditions we are not calling your attention to luxuries of life, but to the actual necessities that you are compelled to have, to keep the wolf from the door.

**Now Our Obligations Are Heavy and Must be Met,**

Let the sacrifice be small or great. Second, we contracted for at least 75 per cent of our stock before the greatest war of the world, now going on, was declared,

**And Based on an Average of Cotton at About 12 1-2c Per Pound.**

Third, now since the great war has so completely reversed the financial conditions in the cotton section, we are compelled to throw our highly complimented stock of merchandise, well selected and bought, on the mercy of the public

**On a Basis Equal to 6c, 7c and 8c Cotton.**

And please remember this is a boni-fide cash raising sale and nothing charged to anybody, and no exceptions made. Now listen, we will give you way above the market price for you cotton in trade. And if you will notice the bargain tags on each article you will readily see the great double saving you will get by selling us your cotton at way above market prices, and buying at bargain sale prices.

**Sale Opens FRIDAY, Nov. 6, and Closes When Stock Has Been Reduced to Normal Size.**

This Sale means merchandise at prices equal to 6c, 7c and 8c cotton. Now we have tried to make this circular very plain so that you may see just what we are going to do, and the public knows us from reputation that we will do just as we advertise. This is no hot air sale that you usually see on every corner. Time and space won't allow us to quote prices on every thing in stock. We only mention a few specials out of hundreds of bargains in each department on opposite side to give you some idea of this sale. You will have to come personally to see what we are going to do at this great sale.

**Nothing Sent Out C. O. D. or on Approval.**

Our stock is complete in all departments, in all the very newest styles, consisting of Dry Goods, Notions, Millinery, Ready-to-Wear Clothing, Shoes, Hats, Gents' Furnishings, Trunks, Bags and Suit Cases. From the cheapest that's any good to as good as you want. Stock won't be replenished, so come early and get first choice.
