WARSHIP CAUSES MEXICO'S PROTEST.

Railways of Mexico to their foreign correspondents.

"After a most careful investigation," runs the statement in part, "we can say on best authority that the Mexican government is absolutely safe to handle the internal disturbances, and that steps are being taken not only to dispose of this situation but that intention exists to carry through certain administrative reforms which should mean much for restoring politically satisfactory conditions in the interior."

Senator Linnenton made a positive denial today of the reports that he had been conferring with the Maderos and their associates here with a view of bringing about a cessation of hostilities.

"There can be no negotiations with insurgents or consideration of their alleged grievances except that they first lay down their arms," he added. "Therefore I can only emphatically deny that there have been such negotiations in New York on behalf of any government in which I or any other representative has taken part. As I have previously stated, also, if the insurgents were to surrender absolutely, my government would then undertake to study the broad questions involved in the alleged grievances of the insurgents."

FIFTEEN AMERICANS KILLED BY MEXICANS

George Zimmerman, a Texan, fighting with insurgents, confirms story. He also says that five times 20,000 U. S. soldiers can not maintain neutrality.

Lexington, Ky., March 17.—That the fifteen Americans fighting with the insurgents captured at Casas Grandes, Mexico, last week by Federal troops and supposed to be held as prisoners there now have been killed, is stated in a communication received here from Smelter, Texas, today from George Zimmerman, of this city, serving as a major in Madero's army. Zimmerman says that only three men escaped from Casas Grandes following the battle there. All were members of the dynamite squad, in which he served. His communication follows:

"Smelter, Texas, March 4.—This will be mailed twelve hours after I recross the border with men and machine guns. I was one of three of the dynamite squad when we escaped from Casas Grandes last Tuesday. The rest of the Americans were captured and killed. President Madero personally promoted me from lieutenant to major on Wednesday. I came here for recruits and arms. Five times twenty thousand United States soldiers can not maintain neutrality. I intend advocating raising the black flag in retaliation for the Diaz proclamation of summary execution. We will win inside of 90 days. (Signed) George Zimmerman, Major Provisional Army."

China to have consulates in Mexico. Mexico City, March 13.—Shi Ni Shun, Chinese charge d'affairs, today made the announcement that his country has decided to establish consulates in the more important cities of Mexico.

Cat and examine my line of Dry Goods. Notions, etc., before you buy elsewhere. L. W. Clark, Portia, Ga.

Let's all pull together and make Statesboro a greater Statesboro.

Try one barrel of our Lion Brand Flour, absolutely first class, ground from the best wheat and every sack of which bears the guarantee of the manufacturer. If not good your money is refunded. Our price \$5.35 per barrel. Statesboro Grain Co., W. L. Street, Prop.

DR. HOLLAND SLIGHTLY IMPROVED.

Slightly improved, yet in a precarious condition is about the correct status of the case of Dr. M. M. Holland, who suffered a stroke of paralysis a week ago. Dr. Holland is lying at his home still in a paralyzed condition. He has regained consciousness, and seems to recognize his friends when they approach the bedside. He holds his left hand out and will grasp the hand of a friend or a member of the family, and attempt to speak, but so far no words have been uttered by him that could be understood. He has attempted to write his words down, but so far has failed to do this. The physicians state that they have noticed a slight indication of life in his right leg that has been paralyzed. Ticking him under the right foot has brought some signs of feeling, and this is in itself a hopeful sign.

At one time during the week about all hope was lost, and today he is in a desperate condition though the case holds out a little more hope than it did at one time. The physicians all agree on one thing and that is, should he partly recover he will never be able to go about and attend to business as he has done heretofore. All of his numerous friends are hopeful that he may yet recover.

DRY WEATHER WIDE SPREAD.

The drought that is prevalent in this section exists over a wide section of country. It prevails all over southwest Georgia, and with the exception of a small area in Middle Georgia, reaching down this way as far as Emanuel county, the drought extends all over the state. A party who has recently visited North Georgia, states that the fire is sweeping down the mountain sides and the streams in that section are all dried up.

The farmers are unable to plant their corn and the time is approaching when cotton will be ready to plant. Truck growers are catching it pretty heavily and the oat and grain crop is suffering intensely. If rain don't come pretty soon the present crop of grain will be a failure.

FORDHAM WILL RUN FOR TREASURER.

The friends of Mr. J. M. Fordham are speaking of placing him in the race for county treasurer at the next election. They say that Mr. Fordham is fully competent to fill this place and the fact that he has been unfortunate in losing one leg, they feel like it would be the proper thing to do to give him this place, he is not able to go out and earn a living and the fees from his office would help him to earn a living.

JOSHUA HODGES FALLS DEAD.

Sitting at the dinner table of his son-in-law, Mr. Jasper Hollingsworth, about eight miles from Statesboro, on yesterday, Mr. Joshua Hodges died suddenly. He was stricken with heart failure and died before assistance could reach him. Mr. Hodges had been to Statesboro and was returning home, stopping over with his daughter for dinner, and was seized with an attack of heart failure as described above. The deceased was about sixty years of age and was one of Bulloch's best and most highly respected citizens. The funeral and interment was at the family burial ground yesterday afternoon. One singular feature of the case is this: The third case of heart failure that has occurred in this immediate section within the past year so far.

Bids Wanted.

Bids will be received at the office of the City Recorder in Statesboro up to April the first for the erection of a single story brick building size 50x15 feet, twelve feet high. Specifications will be found on file at the office of the Recorder. Building to be located on the city lot between the Statesboro Buggy and Wagon Company's stables and the county jail.

For Rent.

One 5-room house well finished, papered and ceiled. For further particulars apply to the undersigned.

F. N. RUSHING, 3-17-21, ex. 14.

Free Dyspepsia Sample

Sufferers from indigestion are waking up to the fact that "peppermint lozenges, charcoal and 'dyspepsia cures' are only makeshifts in the cure of so troublesome a complaint as chronic indigestion. What is required is something that will not only cure the indigestion, but also the stomach and bowels, and thus these simple remedies cannot do. There is something more to the cure of indigestion than the sweetening of the breath, and yet a remedy that only coats the digestive ingredients will not cure permanently, as the basis of indigestion is poor blood circulation, and that requires a scientific laxative. We know of no remedy that combines these requirements better than Dr. Caldwell's Syrup Pepsin, which has been sold for a quarter of a century.

Dr. Caldwell's Syrup Pepsin is a laxative tonic, a scientific blending of natural ingredients for the cure of constipation, indigestion, liver trouble, sour stomach, sick headache and similar complaints. Its ingredients will so strengthen and tone the stomach and bowels naturally and when that has been accomplished your trouble is over. Parity Stuart, Staunton, Va., was a long-time sufferer, as was O. Truck, Blacksburg, Mo., and they both found their cure with this remedy. They became convinced that pills and tablets, salts, "dyspepsia cures," etc., were at best only temporary relief. They first accepted Dr. Caldwell's offer of a free sample bottle, which he willingly sends to anyone who forwards name and address. Later, having convinced themselves through the free sample, they bought several bottles of their druggist at fifty cents and one dollar a bottle.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and address it to you in detail. For the free sample simply send your name and address on a post card or otherwise. For either request the doctor's address is Dr. B. Caldwell, R. 590 Caldwell building, Monticello, Ill.

GET OUT EXTRA EDITION.

The News is again delayed today on account of having turned aside to help a brother publisher out of the ditch. A neighboring newspaper has had its outfit disintegrated, and came to us and we got out their issue for them this week. This in part explains why we were thrown late with today's paper.

OUR GLAD

helps others to enjoy the services at the First Baptist church on North Main street, why not you? Come and be with us next Sunday. The pastor's subject for the morning hour will be:

"Thoroughly, thoroughly, then."

INFANT'S DEATH.

On Monday night at their home about five miles from Statesboro, the six months' old girl infant of Mr. and Mrs. J. E. Winsky died after an illness of two or three weeks, with pneumonia.

The funeral was held at Bethlehem church this afternoon where the interment was made. The bereaved parents have the sympathy of a large number of friends in their loss.

For ready to wear goods for the ladies, call and see our line. We carry the latest styles in this line, and our stock is the prettiest in town.

FIRE BULLET THROUGH HIS BRAIN

S. T. Chance* in Despondent Mood Committed Suicide by Shooting Himself in the Head.

On Monday morning about ten o'clock, Mr. S. T. Chance committed suicide at his home in the eastern section of the city. He was at home alone at the time the deed was committed, four small children being at school and two sons away on business.

It seems that the deed had been well planned, walking across the road in front of his home he seated himself on a slight embankment with his feet hanging in a ditch side of the road, placed the muzzle of a thirty-eight Iver Johnson pistol in his mouth and pulled the trigger, the ball passed through his brain and went out the back of his head. A colored woman living a short distance away heard the shot of the pistol and saw Mr. Chance fall back. Messrs. J. F. Williams and J. B. Robbins were coming in from the country and drove up soon after the shot was fired, though they did not hear the report of the gun. He seemed to be breathing his last and they drove hurriedly to town and gave the alarm.

When he was reached he was dead, lying on his back with his feet hanging in the ditch, the pistol lying between his feet, an examination of the pistol showing that only one was shot was necessary to do the work. An empty vial and a capsule box also empty, lay by his side, it being evident that he had already taken poison to destroy his life before he fired the fatal shot. This showed that he had fully made up his mind to do the deed. The remains were carried in the house and an undertaker called. No inquest was deemed necessary for the reason there seemed no doubt as to the cause of his death.

Mr. Chance was about 58 years old. He came here from Quitman, Ga., about 20 years ago, and was well known here. He was a native of Burke county. During his long stay in this city he was regarded as a conservative business man. About three years ago he sold out his interest here with the exception of the home where the deed on Monday was committed, this belonging to his wife and moved to Gainesville, Ga., where he engaged in the furniture business. The business there did not prove to be profitable. In fact it is said he lost heavily by his Gainesville trip. Later he moved his family back to Statesboro. In addition to his financial losses at Gainesville he came back home broken down in health and spirits. This is thought to have had a depressing effect on his mind, and soon after his return here he lost his wife. This seemed to further pile up the burdens already bearing upon his reason, and the deed on Monday was an ending of his earthly troubles. He had threatened to commit suicide several times, and bought the pistol used for the deed, for this purpose, about two months ago. The family succeeded in getting the pistol away from him, but he insisted strongly for the pistol that it was

CLAXTON BIDS FOR LINE

Movement on Foot in Sink Hole District to Induce Shearwood Railway That Way. Parties in town today from the Sink Hole district state that a movement is on foot to induce the Shearwood Railway to divert its line from the direction of Pembroke and build in the direction of Claxton running via Enal, crossing the creek at the Sink Hole bridge, and running through the heart of the Sink Hole district to Claxton.

A party of well to do farmers living along the line of road will be on hand at the meeting, called at Mr. Morgan Nesmith's place Friday morning at nine o'clock, to take the matter up with the management of the road. They say if the promoters of the new line are inclined to tap the richest farming section in Georgia they will come across, and tote their end of the stick by subscribing for stock.

It is pointed out that by taking this route that the road running from Brooklet to Claxton would traverse a rich farming section every inch of the way.

It is hinted that the visit of Messrs. J. H. W. C. and Rogers Perkins, owners of the R. & G. railway, and ex-Senator John E. Fox, who owns considerable interests at Egypt, may have something to do with this new movement. It is known that the Shearwood line has been seeking a connection with the Central for some time, and it is their ultimate purpose to reach that line as well as the Seaboard. It may be that the Perkins interest might induce them to connect at Adabelle, thence a line to Glenville would be opened up. At Egypt they will have connection with both the Central and the Brinson railway for Sylvania, Waynesboro and Augusta.

Just what this movement will develop no one can tell.

BANK OF STATESBORO, Statesboro, Georgia.

CAPITAL AND SURPLUS \$110,000.

Your Bank Account will be appreciated at this Bank.

BEN PERRY WILL NOT ASK REAPPOINTMENT.

Assistant Treasurer Will Go Into Business After Change in Department.

(Atlanta Constitution.) Benjamin F. Perry, assistant state treasurer, announced yesterday that he would not be a candidate for any office in the treasury department under the recent

ly elected state treasurer, W. J. Speer, who succeeds the present treasurer, J. Pope Brown.

Mr. Perry states that after the expiration of his term of office he will devote all his time to the Atlanta Realty Owners, a firm organized about one year ago in Atlanta by Hon. J. Pope Brown and others, and of which Mr. Perry is secretary and treasurer. The office of the company is located at 1012 Empire building.

Mr. Perry has been assistant state treasurer since 1907, having accepted the appointment under the late treasurer, Captain Robert E. Park, succeeding Captain C. T. Furlow, who resigned. When Mr. Brown was appointed to succeed Captain Park Mr. Perry was kept in his position as assistant.

Mr. Perry came to Atlanta from Canton, where he was editor of the weekly newspaper at that place for many years. His efficiency and industry is

largely due the present systematized condition of the treasury department and his services in discharging the duties of the office have been invaluable. Mr. Perry has many friends throughout the state who wish him success in his new field of employment.

It will pay you to give our shoe department a look before buying.

THE RACKET STORE.

CORRECTION.

In an account of the death of Mr. Thomas Jones last Tuesday we made the statement that the deceased left a wife and several children. His wife died about two or three months before, and the children are left without father or mother.

Best quality Bleaching, special for 10c. yd. THE RACKET STORE.

RAINFALL FAILED TO MATERIALIZE.

The hearts of the farmers were made to rejoice Sunday night when the heavy clouds began to hang over us, but after only a very light shower they have all passed away, and the drought from which this section has been suffering for some time still continues.

MARCH 23d and 24th

PROTECT YOUR FARM FROM FIRE

Why take further chances burning your house and farm buildings to the ground with old lamps and lanterns? Let me figure on installing for you an electric lighting plant consisting of small gas engine, dynamo and set of "Chloride Accumulator" storage battery cells. A postal card will bring full information.

W. H. SINGLETON, MACON, GA.

NEW SPRING MILLINERY

is now being opened.

MRS. JOSIE ROGERS

Upstairs in the new Pretorius Building, on East Main Street, has just returned from market with an up-to-date line of Millinery for Ladies and Children, and is prepared to please the most fastidious taste. She has secured the best trimmers and salesladies and will be pleased to have the ladies call.

ATTENTION, FARMERS!

I am again representing the Southern Gypsum Company for the sale of their famous

Pierson Land Plaster.

This is the greatest producer known for peanuts. You will absolutely have no crop when this is used. The peanut grovers of Virginia and North Carolina use it altogether for growing peanuts, and say they cannot make good, sound peanuts without it. It has been used by hundreds of the best farmers in Bulloch county the past two seasons, who can testify to the great benefits derived from its use. It is used as a top dressing, by sprinkling it on the vines after the peanuts begin to bear.

It is recommended to sow in the evening or early in the morning, or just after a shower, as it is found that much benefit results from its adhering well to the leaves. A gloomy, hazy day is also a good time for the job. Application, about 200 lbs. per acre. Try it and be convinced that this is the greatest thing you ever used for making peanuts.

I will have some one to represent me at all the principal shipping points in the county. I will make my order about the 1st of May, so get your orders in by that time. Circulars and testimonials sent free on application.

D. G. LEE, Statesboro, Ga.

SCREEN YOUR HOUSE!

Keep out the flies and mosquitoes by screening your doors and windows. Summer is nearly here. Protect your family from typhoid and other diseases chargeable to the deadly house fly. A few dollars spent for screens will save you many dollars in doctors' bills.

I make screens to order. Full equipment of machinery. We will call and measure your doors and windows. Prices as low as on screens manufactured elsewhere. I use only best materials. Satisfaction guaranteed. Patronize a home industry. Give me a trial.

HENRY K. HULST, Statesboro, Ga. Vine Street, near Cotton Warehouse.

New Black Smith Shop.

The undersigned having opened a new blacksmith shop in the old court house building on West Main Street, take this method of asking a share of the patronage of the people who need work in our line.

We are equipped with all the tools and machinery to do first class work, both in repairing and horse shoeing.

We promise prompt delivery and honest work and fair prices, and to that end invite a share of your business.

Respectfully, COX & HARTFORD.

A merciless murderer is Appledict's with many victims, but Dr. King's New Life Pills kill it by prevention. They gently stimulate stomach, liver and bowels, preventing that clogging that invites appendicitis, curing Constipation, Headache, Biliuness, Chills, etc. at W. H. Ellis Co.

Fine Hogs For Sale.

Tamworth Hogs, the breed for the South, largest and most profitable breed. They are great grazers and foragers. Their meat can be produced more cheaply per pound than with any other breed in existence. The Tamworth is of value in its use for crossing on hard bred. Pigs 8 to 10 weeks old \$15.00 each, or in pairs \$25.00.

H. V. FRANKLIN, Register, Ga. R. F. D. No. 1, 3-10 twice a week.

Cotton Seed.

I have on hand a limited amount of Sea Island cotton seed which are very fine. These seeds were secured from the Agricultural Department at Washington last year and will produce 125 pounds lint per acre. These seeds can be had at \$1.00 per bushel from R. H. Warwick at Brooklet, Ga.

G. P. GROOMS, Statesboro, Route No. 6.

"Pean For Sale." For your Seed Peas write C. P. DANIELS' SONS, Waynesboro, Ga.

Notice.

I gave Mr. Dan Denmark a note made the 28th of February, 1911, and due November 1st, 1911, for \$30.00. Said note was obtained from me under false representation and I will not pay same.

MRS. S. C. LATZAK, 3-3-4, e. i. Pembroke, Ga.

Lost.

On Tuesday night last from Bremen settlement, my mule. Is a dark iron gray male, weighs between 900 and 1,000 pounds; five years old. Any information of, or if found, please notify me at the residence of my wife, Mrs. LOVE PARRISH, Route 3, Statesboro, Ga.

If you need a good pair of shoes at a real low price come and see me. L. W. Clark, Portals, 1-17-11.

BIG MOVEMENT OF FERTILIZERS.

Southern Railway Shows 40 Per Cent Increase in Georgia.

(Atlanta Constitution.) That the farmers of Georgia are taking hold of the teachings of the scientists of the State Agricultural college, and are preparing for a season of great activity, is indicated by figures as to the fertilizer movement in the state, just compiled by the freight traffic department of the Southern Railway Company for the period extending from January 1 of this year in comparison with the same period in 1910.

Statistics from the fifteen principal points on the lines of the Southern in Georgia show that in the period named this year there have been shipped to Georgia points 35,712 tons of commercial fertilizers as against 25,907 tons for the same period of 1910, an increase of 10,105 tons, or practically 40 per cent.

By agricultural experts this is regarded as a most favorable indication. It is believed that this increase in the use of commercial fertilizers is due to the determination of the farmers of Georgia to secure a larger yield per acre more than to any general increase in the acreage under cultivation.

Local Firm Will Continue Valuable Agency.

W. H. Ellis Co. of this city have just closed a deal whereby they will continue to be agents for ZEMO—the well known remedy for Eczema, Dandruff, and all diseases of the skin and scalp.

The extraordinary leap that this clean liquid external treatment for skin affections has made into public favor in the last few years proves its wonderful curative properties and makes it indeed a valuable addition to the fine stock of remedial agents carried by the W. H. Ellis Drug Co. They have a limited supply of samples. One of which will be given free to any skin sufferer who wishes to test the merit of the medicine. A booklet "How To Preserve The Skin," will also be given to those interested. ad. mch. 25, tfe.

BRUNSWICK NEWS UNDER INDICTMENT.

Alleged That Paper Carried Advertisements of Lotteries.

Savannah, Ga., March 18.—The Daily News of Brunswick, Ga., has been indicted in the United States Court here for violation of the postal laws by publishing advertisements of an alleged lottery.

It is alleged that on May 8, 1909, and on different dates in August, 1910, and September 1 and 2, 1910, the News inserted advertisements and notices of lotteries, drawings and gift enterprises made by lot or chance. January 25 last the paper advertised a drawing for a lot at the Brunswick Grand Opera house and that issue was excluded from the mails. An editorial explanation which followed is also contended to have been a violation of the law.

As long ago as December, 1907, it is claimed, the News advertised a jewelry drawing for a Brunswick merchant with the list of winners and was warned at that time that the law had been violated.

New Pressing Club.

I have just opened a first-class pressing club in the rear of my store on West Main street, where I am prepared to serve the wants of the people of the city and community in short order, and guarantee satisfaction in every case. Clothing will be called for and delivered. Give me a share of your patronage.

Regarding Its 1st Mortgage Bonds

DAVID H. MOFFAT CALLED BY DEATH.

New York, March 18.—David Moffat, of Denver, president of the Denver Northwestern and Pacific Railway and president of the First National bank, of Denver, died suddenly today in his apartments at the Hotel Belmont.

2,000,000 IRISH NOW IN AMERICA

Immigration From Ireland Uniformly Steady During the Last Decade.

Washington, March 17.—Two million in round numbers, is the approximate Irish-born population living in the United States. While these are not the official figures of the thirteenth census, it is a close estimate, based upon the 1900 census and the immigration and emigration of Irish-born immigrants during the ten years following.

Tabulation of the figures of the 1910 census had not progressed far enough to permit the director of the census to give today the number of Irish in the country and it may be three months before the statistics are ready.

There were exactly 1,619,449 Irishborn in the United States in 1900. They were located in every state of the union. New York had the most, there being 425,555 in the Empire State; Massachusetts came second with 249,918; Pennsylvania third with 205,905; Illinois fourth with 114,565, and New Jersey fifth with 94,844.

Immigration from Ireland for past ten years has been uniformly steady, averaging about 37,000 yearly. From June 30, 1889, to January of this year 427,741 Irish immigrants entered the United States. During that time there were many non-immigrant Irish-born entering and leaving the United States.

The population of Ireland, estimated for 1909, was 4,374,158. A census of Ireland will be taken April 1, of this year. On that date in 1901 the total population was 4,458,775, of whom 2,200,040 were males and 2,258,735 were females.

Ireland's population has steadily decreased for sixty years; 1891 it was 5,798,967, a decrease of 11.8 per cent from that of 1851; in 1891 it was 4,704,750, a decrease of 11.8 per cent from that of 1851; in 1891 it was 4,704,750, a decrease of 9.1 per cent from 1881; and the decrease from 1891 to 1901 was 5.2 per cent.

Important Announcement.

W. H. Ellis Co., the druggist, just received a fresh supply of ZEMO and Zemo Soap.

Zemo is a remarkable remedy, a clear liquid, for external use. The first application will instantly relieve the most intense itching, quickly removes blotches, pimples, blackheads, eczema, dandruff, tetter and other forms of skin or scalp humors whether on infant or grown person. Zemo Soap is the new antiseptic skin soap, is the purest and sweetest of medicinal and toilet soaps, relieves and quickly cures prickly heat, rashes, hives, chafing and other forms of skin affection so prevalent among infants. Especially adapted for persons with a delicate or tender skin.

W. H. Ellis Co., the druggist, has a limited supply of samples of Zemo and Zemo soap. A sample of each will accomplish wonders and will demonstrate their great merit to those who have any form of skin or scalp eruption.

(INCORPORATED.)

J. R. MILLER.....Editor

Published by

Entered as the post office at Statesboro, Ga., second-class mail matter.

Tuesday and Friday.

THE STATESBORO NEWS PUBLISHING COMPANY.

DR. HOLLAND'S

CONDITION UNCHANGED.

The condition of Dr. Holland remains unchanged as far as can be ascertained. The attending physicians state that it is impossible to prophesy just what the outcome of the case will be. They say it is possible that he may recover to the extent that he can go about again, but will never be a strong man, and it may be that he may linger in his present condition for months and months, and then again it may be that the end may come at any moment. The fact that he is able to take nourishment encourages the physicians to think that he will survive for some time at least, though they are slow to give out any news that carries with it a single ray of encouragement.

CARD OF THANKS.

The undersigned takes this method of extending his sincere thanks to the good people of the community for their many acts and expressions of sympathy during the illness and death of his wife. Their kindness will ever be remembered.

Respectfully,

J. S. MILLER.

For Sale.

R. LEE MOORE.

NEGRO GIVEN

SOUND THRASHING.

There was "something doing" around in the rear of Smith's stables this afternoon, when a sound thrashing with a buggy trace as a tracer was used to a successful finish on John Barnes, a negro well known about town. It seems that John had used his credit at the store of Mr. E. C. Oliver to the point where it had become necessary for Mr. Oliver to call on him at his house on Hill street and request an order from him on the party Barnes was employed with. The negro at first agreed to sign the order, and went back into his house with the apparent intention of making ready to come up town, but remaining there for some time Mr. Oliver asked if he was ready to accompany him up town; a reply, accompanied by an oath that he wasn't going to do any such thing came in response. Mr. Oliver, resenting the insult the negro gave him, made a dive at him. He was met at the door by the negro, who was full of fight to the running over stage. Mr. Oliver succeeded in landing a few well directed blows on the negro, who got away to come back with an axe in his hand. Mr. Oliver was forced to retreat out of the yard, not being armed. Several attempts were made to induce the negro out and up town before they were successful. Finally Barnes decided to accompany Oliver up to the store, where the order was signed. When this was done, Mr. Oliver took him in the collar and invited him back to the rear of Smith's stables for a further discussion of the matter about the axe. He was taken back and when the oil of a buggy trace had been thoroughly rubbed against the rear end of his anatomy he promised to be a better nigger from this on. It is asserted by those who were present that if he is not a better nigger he will at least be a wiser one.

A CARD TO THE FARMERS

FROM MR. B. R. OLLIFF.

Register, Ga., March 20, 1911.

Did you ever come to realize that Bulloch county alone can to a great extent control the price of Sea Island cotton? Did you know the metropolitan—Bulloch county—produces about one-eighth of all the Sea Island cotton grown in the world? These are facts. Are you tired of producing a staple without profit to you, that takes you more than a year to prepare the soil and grow and house the crop? Well, if you are let's reason together a little about this matter. Will it not pay us more to plant less, and plant more corn, hay and peanuts and raise hogs. The average farmer has to work his children from late summer till mid-winter in order to house his crop of Sea Island. This deprives the children of days that ought to be spent in school, and if the farmers will plant—if we must plant cotton—what we do, let's plant in the short staple. We can gather it by the first of November and then let our children get two months schooling in the fall of the year. Then we can operate the public schools for seven months in each year.

Sure, we want to plant some Sea Island cotton. That is what I am driving at. Let us plant fewer acres and produce fewer bales, and we will get just as much money for a half crop as we will for a "bumper" crop. It is not better to produce five bales at 35c. per pound, than ten bales at 20c. per pound?

It ought to be an easy matter to all come together on this very important subject. Let every man who plants the Sea Island crop in half for this year, 1911, and see if he does not realize just as much from his crop as we do on an average when we plant a full crop. Try it and be convinced.

We have a ready market for anything else we can produce. We do not near supply the local markets with things we can profitably produce. Think for a moment how many bushels of Irish potatoes are shipped in to our county. How many tons of hay and how many bushels of corn. It amounts to the thousands and the money is gone from our county. The more money we have here in circulation the better for us and if we all will get to producing all we need for our home uses and less cotton, we will have more, and less worry. We can better control labor and will have less need for it. If you knew you could sell four bales of Sea Island cotton for six hundred dollars, would you insist on growing eight for the same sum? That is what we will have to do if we plant a full crop this season. No two ways about it.

When men volunteer to give their time and money to assist you, will you not yield to reasoning? We all know if it is good for one man to cut his crop, it is good for another. Don't you think that the men who are urging us to cut our crops are thoroughly convinced from experience that our only hope is to supply the demand, not "glut" the market? The spinner says he does not want our staple. We don't. Then why produce it? The spinner does want some and must have it, and if we will grow a little let us fix our price; not the spinner. The farmer has to haul his produce to the buyer and beg him to make him a price. Doesn't this beat the band? Others grow rich off of our produce, and we haul it to them. They allow us just enough to keep living and producing. This is true, fellow citizens, and will continue to be true until we fix a price, and a limit on production. If the world needs a hundred thousand bales of Sea Island, let it inform us of its needs and then let us grow it and

MONDAY

OPENING DAY

The curtain rises next Monday on the most pretentious Spring Fashion Display ever planned by us. Our buyers have been busy as beavers for the past two months arranging the details of this wonderful style show, and it is with much pride and pleasure that we extend a formal invitation to all to come and see the many rich and exclusive creations and novelties to be found here only assembled for the Spring Trade.

As an inducement to have you come and see our Magnificent Spring Display, without extra expense, and also as a means of finding out the real value of this advertisement, we will **REFUND YOUR RAILROAD FARE** to Augusta and return, provided you bring this advertisement with you and that your purchase amounts to \$48.00.

NEW DRY GOODS STORE

MR. B. GOLDWASSER, together with MR. L. ASHENDORF as General Manager, are opening a new dry goods store in the White building on West Main street, in Statesboro.

Mr. Ashendorf will be manager of the business, and will keep an up-to-date stock of DRY GOODS, NOTIONS, SHOES, LADIES' READY-TO-WEAR GOODS and, in fact, a first class dry goods store.

Our stock will be in good shape by Saturday, and the public are cordially invited to pay them a call and inspect their goods and get some good bargains.

REMEMBER THE PLACE:

In the new big white building on West Main Street.

Sunday Evening.

2:30, Consecration Service.

3:00, "Junior Leagues and Their Importance," Miss Julia Johnston.

3:30, Organization of Senior and Junior Leagues.

7:30, Sermon "Our Vision: Our Desire: Our Purpose," Rev. W. F. Smith.

LEWIS JACKSON

SHOT BY NEGRO.

On Sunday morning, about two o'clock, a negro friole just over the line in Jenkins county, Lewis Jackson, well known in Bulloch county, was shot to death by a negro, Jackson had attended the friole given by the negroes and is said to have been the only white man present at the time of the shooting. Jackson served a term on the Bulloch county chain gang several years ago.

There was a report in circulation here this afternoon to the effect that a mob had lynched twenty-five negroes at or near Seaboard, near the scene of the above tragedy on last night. One report stated that only one negro had been killed for the murder of Jackson, and other reports gave various other numbers of the killed, but as far as could be learned there was no foundation for the report.

Cow Feed.

Just received a car load each of cotton seed, meal and hulls, also a shipment of wheat shorts and fine feed. Can ship in any quantity.

R. H. WARNOCK, Brooklet, Ga.

FAVORITISM BY

EXPRESS COMPANIES.

(Atlanta Constitution.)

The well-established fact that strong, systematic opposition to the parcels post system had been engineered by the powerful express companies of the country, working through the country merchants, has long been a matter of common knowledge.

The successful argument used with rural merchants was that if Uncle Sam should begin carrying small parcels at cheaper rates it would benefit the big mail order houses in New York and Chicago.

There was a certain merchant in Moultrie, Ga., who subscribed to this doctrine. He was convinced that a general parcels post would benefit the big city merchant and hurt him. Therefore he opposed it.

But recently he had an awakening. He found that the big merchants were already the favorites of the express companies and were enjoying preferential rates. For instance, a box of collars sent him "collected" cost 35 cents, while the same collars sent "prepaid" cost the manufacturer only 14 cents.

The Moultrie Observer comments as follows upon the incident:

"The merchant was curious to know why the discrepancy occurred and made inquiry of the express officials. He was told that the big shippers in the cities had special rates. Of course, if the wholesale house in Baltimore has special rates the big mail order houses of Chicago and elsewhere have still lower rates, for they send one thousand packages where the wholesale house sends one by express. From 35 cents to 14 cents is a pretty sharp discount to give the big merchant

A Cold, LaGrippe, then Pneumonia.

UNHEARD-OF PRICE FOR TURPENTINE

Spirits Quoted in Savannah at \$1 and \$1.01 Per Gallon.

Savannah, Ga., March 18.—At the 12 o'clock call at the Savannah Board of Trade today spirits of turpentine were quoted firm, \$1.00 to \$1.01 a gallon.

This is a hitherto unheard of price and there is no telling now how high it will go before the new crop begins to arrive next month.

The price of rosin is also the highest ever known.

Naval Stores Operators Elated.

Pensacola, Fla., March 18.—Spirits of turpentine leaped to \$1 per gallon in today's market. Wholesale operators and factors elated as this increase in price was predicted early this week.

Scarcity of the product is given as the cause and producers are expected to clean out their stocks at the present prices.

Turpentine operators in western Florida are boxing trees and when they begin shipping the price is expected to drop. The production in this section of the state has been exceptional good.

Has Millions of Friends.

How would you like to number your friends by millions as Bucken's Arnica Salve does? Its astounding cures in the past forty years made them. Its best Salve in the world for sores, ulcers, eczema, burns, boils, scalds, cuts, corns, sore eyes, sprains, swellings, bruises, cold sores. Has no equal for price 25c at W. H. Ellis Co.

THE INVASION OF MEXICO? (Atlanta Constitution.) The lack of any authoritative information from the white house or the war department as to the purpose of this government in mobilizing 20,000 American troops on the Mexican frontier

was sure to inspire the maker of pipe dreams and the critics of American.

Dispatches from Berlin tell of the publication in practically every paper in that country of sneering comments on the alleged duplicity of America's action, and demands for some unequivocal statement from an official source.

Another publication is to the effect that Major General Leonard Wood, "ambitious to disport himself as a field marshal, and fearing he would never have another chance," induced President Taft to make this demonstration.

A more absurd report could hardly be imagined. The recent expressed in Germany is further confirmation of the most reasonable explanation of the whole movement.

President Diaz of Mexico is an old man. He may decide to abdicate at any moment. In that event the long-sought opportunity of the insuranceist would come.

The recent state of unrest and possibility that at any time the Mexican government might cease its inability to protect foreign citizens or property, would bring about a condition where prompt action was necessary.

In such case the United States is the one to undertake intervention to protect the lives and property of its own citizens and those of foreign countries.

The extensive preparations that have been made are sufficient notice to the world that Uncle Sam is on the job and Monroe doctrine is still vibrant with life.

There will be no invasion of Mexico unless it is authorized by congress, or such a condition is brought about as to make immediate action necessary. The commander-in-chief of the army and navy of the United States, William Howard Taft, act, and act promptly.

The talk by certain alarmists of an invasion by our army to suppress a revolution against a despotic government is premature and unseasonable. It belongs to the silly season.

Should this impression get

abroad in Mexico, it will have the effect of preventing the very thing these alarmists seek to bring about. There will be news from Campeche to the hills of Sonora.

The presence of our troops along the Mexican border will do more than anything else to prevent the action that the critics of President Taft's predict.

A Pierce Night Alarm is the hoarse, shrill cry of a child, suddenly attacked by croup. Often it aroused Lewis Chamblin of Manchester, O., (R. R. No. 2) for their four children were greatly subject to croup. "Sometimes in severe attacks," he wrote "we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup and for coughs, colds or any throat or lung trouble." So do thousands of others. So may you. Asthma, Hay Fever, La Grippe, Whooping Cough, Hemorrhages, try before it's too late. \$1.00. Trial bottle free. Sold by W. H. Ellis Co.

NEVADA THROWS DOWN IN GRANTING DIVORCES.

Reno, Nev., March 17.—The popularity of the state of Nevada as a place to secure quick action in divorce cases was increased last night.

The legislature let the bars down further than they have been when both houses passed a bill making a residence of six months the only requirement in divorce actions.

The privilege of leaving the state "when necessary" is to be accorded to all who are establishing a residence.

The bill now goes to the governor.

TYBEE ISLAND IS A GOOD ASSET

(By Harry Stillwell Edwards.)

Just your eye over a map of the Georgia coast, fellow Georgians, and read the names of the stands that shut away the surf from the mainland. There are Tybee, Warsaw, Ossabaw, St. Catharine, Sapelo, St. Simons, Jekyll and Cumberland. Now reflect—there is only one of them reached by railway and only one reasonably certain to remain open to you.

The others are private property and will eventually, in all probability, pass into the hands of the leisure class. Some of them have already, and trespass signs are as thick as hogs in a shallow bay.

The time may come when the Georgian who wants to bathe in the sea, as all good Georgians do annually, and fish, will have to hunt other coasts. Tybee is at present their only hope.

In the modern movement for conservation of nature's gifts that seem to associate themselves with the life of the people, as a whole, the birds, forests, streams and mineral deposits, our coasts have been overlooked and we are confronted with a future wherein perhaps 50,000,000 of people will be shut away from nature's greatest and most inspiring work by the private lawn and flower garden.

The same policy that many years ago wisely set aside Indian and other springs in this state for public use should have made the best islands of our coast public property, but did not, and it now rests with the people to do the best thing that remains possible, and do it quickly.

A Glance Southward.

While we have been raising cotton and corn and building skyscrapers on our southern neighbor, Florida, has been laying foundations for a prosperity that cannot be estimated. And she has drawn many thousands of money spenders, home builders and creators of value right through the heart of Georgia, where the climate is better, the soil more diversified and productive and the scenery infinitely more beautiful. Why? And how? By genius, leadership and enterprise.

The order was taken in the matter of the administration on the estate of the late Michael K. Jones, at the instance of J. G. Jones and W. G. Jones, administrators of the estate. It appears from the petition filed by the administrators that Mr. Jones, at the time of his death last September carried an accident policy in the continental Casualty Company of Chicago, for \$5,000.

The policy contained a double indemnity clause for certain cases, one of them being loss of life in an automobile accident. Mr. Jones was killed near the late of Hope on LaRoche avenue on Sunday, Sept. 4, last year. Proof of death and claim for the \$10,000 was filed promptly by the administrators of the estate. But, according to the representations made in the petition the Casualty company denied liability on several grounds. One of the grounds assigned was the fact that the automobile was being operated in a manner that was a violation of the state auto law.

The petitioners examined into the circumstances and came to the conclusion that there was grave doubt whether the terms of the policy had been violated. Doubt whether the double indemnity clause would be paid.

Georgia's Opportunity.

Georgia must appeal to the senses first and to the business instinct later.

It is up to us to make a showing of something more than building sites, mountain scenery, skyscrapers, farm lands and bumper crops. Get the rich man first. Then show him!

To compete with Florida we have got to give tropical forms, the line of flowers and the ocean surf curling on silver sands under blue skies—and comfort.

These are the things that appeal to the rich, the overworked, the chilled and the weary. We have been too long offering as inducements the things that people are fleeing from. The lesson taught by Florida and Los Angeles is to restore man to the normal and talk business when he is well or rested. His money works while he rests, and his money and influence will work for the land that brings him life.

Plan for the rich; the others will follow.

A Summer and Winter Resort.

Georgia has some notable resorts but not one that combines the Florida idea. Tybee Island, beyond Savannah, famous already for its splendid surf and health-giving breezes, presents the best starting point for a new movement in Georgia to compete with her southern sister and preserve some of nature's best gifts for her own people.

It is today within a night's ride of 8,000,000 people, and only needs improved approaches and accommodations to become the greatest resort on the Atlantic south of Atlantic City.

And to begin this movement all communities must lay aside rivalry and back the forces which in Savannah have become operative.

What Savannah Is Doing.

It sometimes happens that men live too near to opportunities to fully appreciate their value, and Savannah has illustrated this truth in its attitude toward Tybee. This great city, the greatest of the South Atlantic coast, and in some respects unapproachable is justly proud of its shaded streets, parks, public roads, buildings, climate and its situation and importance as a port of entry. It has never made a claim that the facts failed to justify; but it failed for generations to realize that Tybee was and is its best asset.

That is, the community failed. Some men there were who saw deeper into the future, and some of those built the 18 miles of railway and found the only spot where a locomotive headlight, shines on the ocean wave from Georgia's coast. Others there were who procured the building of Fort Screven, with its modern equipment and object lessons in landscape gardening. And others still who sought to provide places of amusement.

These were desultory efforts and devoid of system. They were not and are not parts of any plan.

But there has been an awakening at last, and Savannah has made spades trumps. Savannah has caught the Flagler idea, and the new spirit is making itself felt. She has set a pace in public improvements that is absolutely new in the south, Florida excepted. The tourist is obliged to take off his hat to the people who induced the city to sewer, pave and beautify the great extension near the automobile grandstand covering, apparently several hundred acres. For this work stands a striking example of taste and modern progress.

It has been stated that Tybee is Savannah's best asset in the coming fight for tourist business. It is more. Just now it is Georgia's best asset. Tybee's need and the great preliminary is a broad roadway out of Savannah to its surf; not a bicycle path, a tramway, a country road, but a wide boulevard, raised above the possibilities of flood, divided into sections for motor cars, pedestrians and carriages, paved and palmetto-lined; a piece of road building in which the best that is in engineering, science and horticultural art may be combined.

Savannah needs an 18-mile park extension to the surf. Such an approach to the Tybee surf would bring to it daily, both winter and summer, the best of Savannah of Georgia, and the tourist class, complete the general plans for motor highways to which all sections are now building and place both mountain and surf in easy reach of the family.

This is an enterprise to which Savannah may profitably devote herself at any cost, but it is not a task for Savannah alone. It is an enterprise that for mixed reasons belongs to the state and the general country.

Savannah to the Surf.

The general government has built and maintains in Fort Screven one of the most important military stations on the Atlantic coast, a station absolutely

necessary to the south's greatest Atlantic port and the Georgia interests focusing there.

It is at present an isolated station, approachable only by a single line of railway that a single stray shell in time of war could put out of commission.

The full plan of this great fort with its garrison of four hundred and the modern and expensive equipment demands a military road out of Savannah over fifteen miles of lowland and tidal marsh. Three miles' extension over dry land reaches the Tybee beach. Governmental and local interests combine. Here then is work for the Georgia, Alabama, Tennessee and Carolina delegations in congress, and work for the people whose representatives they are.

But in the plans for an automobile highway leading out of Boston southward, Savannah is the natural terminus.

It is so with the system of roads developed through the enterprise of the Constitution and other Georgia papers.

Savannah has made it so, through her enterprise in providing a 40-mile race course that has no equal on the continent, and pulling off twice the great annual motor car contest.

To every car owner, present and prospective, the road to the surf appeals like the echo of a dinner horn over a Georgia farm. To the friends of good roads and modern highways it appeals.

To those enterprising newspapermen and clubmen who have sought road development by the around-the-state tours, it appeals.

And it appeals not only to the universal sense of proportion and beauty, but to common sense.

For roads that do not lead somewhere that people want to go and go often cannot be maintained.

In the case of Tybee there will be an all the year around demand for the Tybee boulevards; a demand from every Georgian who can afford to travel and from the great stream of winter travelers who, as a rule, have hitherto used only railways in Georgia, and used them to get through.

Here is an enterprise in which all the cities and towns of our section may unite and the entire press engage with friendly rivalry. You may make of the way to Tybee a second Alexandrian avenue of palms, a Champs Elysees, a miniature Riviera, a Persian garden. You cannot afford to make a mistake—the mistake called neglect.

Harry Stillwell Edwards.

Warning to Railroad Men.

Look out for severe and even dangerous kidney and bladder trouble resulting from years of railroading. Geo. E. Bell, 639 Third St., Fort Wayne, Ind., was many years a conductor on the Nickel Plate. He says: "Twenty years of railroading left my kidneys in terrible condition. There was a continual pain across my back and hips and in my kidneys gave me much distress, and the action of my bladder was frequent and most painful. I got a supply of Foley Kidney Pills and the first bottle made a wonderful improvement and four bottles cured me completely. Since being cured I have recommended Foley Kidney Pills to many of my railroad friends." W. H. Ellis Co.

UNHEARD-OF PRICE FOR TURPENTINE

Spirits Quoted in Savannah at \$1 and \$1.01 Per Gallon.

Savannah, Ga., March 18.—At the 12 o'clock call at the Savannah Board of Trade today spirits of turpentine were quoted firm, \$1.00 to \$1.01 a gallon. This is a hitherto unheard of price and there is no telling now how high it will go before the new crop begins to arrive next month.

The price of rosin is also the highest ever known.

Naval Stores Operators Elated.

Pensacola, Fla., March 18.—Spirits of turpentine leaped to \$1 per gallon in today's market. Wholesale operators and factors elated as this increase in price was predicted early this week. Scarcity of the product is given as the cause and producers are expected to clean out their stocks at the present prices.

Turpentine operators in western Florida are boxing trees and when they begin shipping the price is expected to drop. The production in this section of the state has been exceptionally good.

Has Millions of Friends.

TYBEE ISLAND IS A GOOD ASSET

(By Harry Stillwell Edwards.)

Cast your eye over a map of the Georgia coast, fellow Georgians, and read the names of the islands that shut away the surf from the mainland. There are Tybee, Wassaw, Osibaw, St. Catharine, Sapelo, St. Simons, Jekyll and Cumberland. Now reflect—there is only one of them reached by railway and only one reasonably certain to remain open to you.

The others are private property and will eventually, in all probability, pass into the hands of the leisure class. Some of them have already, and trespass signs are as thick as hedges in a shallow bay.

The time may come when the Georgian who wants to bathe in the sea, as all good Georgians do annually, and fish, will have to hunt other coasts. Tybee is at present their only hope.

In the modern movement for conservation of nature's gifts that seem to associate themselves with the life of the people, as a whole, the birds, forests, streams and mineral deposits, our coasts have been overlooked and we are confronted with a future wherein perhaps 50,000,000 of people will be shut away from nature's greatest and most inspiring work by the private lawn and flower garden.

The same policy that many shames ago wisely set aside Indian and other springs in this state for public use should have made the best islands of our coast public property, but did not, and it now rests with the people to do the best thing that remains possible, and do it quickly.

A Glance Southward.

While we have been raising cotton and corn and building skyscrapers our southern neighbor, Florida, has been laying foundations for a prosperity that cannot be estimated. And she has drawn many thousands of money spenders, home builders and creators of value right through the heart of Georgia, where the climate is better, the soil more diversified and productive and the scenery infinitely more beautiful. Why? And how? By genius, leadership and enterprise.

Look at the Florida coast from Fernandina to Key West and at Georgia's from Savannah to Fernandina! They do not seem to belong to the same age.

If Flagler had had the Georgia islands on the Florida coast he would have tied them together with steel rails and have made them the playground for the whole of the United States and Canada! Flagler followed this modern idea of advertising—read a breakfast food ad and you will understand—he appealed to the senses, knowing that business, good business, would follow!

Georgia's Opportunity.

Georgia must appeal to the senses first and to the business instinct later.

It is up to us to make a showing of something more than building sites, mountain scenery, skyscrapers, farm lands and bumper crops. Get the rich man first. Then show him!

To compete with Florida we have got to give tropical forms, the line of flowers and the ocean surf curling on silver sands under blue skies—and comfort.

These are the things that appeal to the rich, the overworked, the chilled and the weary.

We have been too long offering as inducements the things that people are fleeing from. The lesson taught by Florida and Los Angeles is to restore man to the normal and talk business when he is well or rested. His money works while he rests, and his money and influence will work for the land that brings him life.

Plan for the rich; the others will follow.

A Summer and Winter Resort.

Georgia has some notable resorts but not one that combines the Florida idea. Tybee Island, beyond Savannah, famous already for its splendid surf and health-giving breezes, presents the best starting point for a new movement in Georgia to compete with her southern sister and preserve some of nature's best gifts for her own people.

It is today within a night's ride of 8,000,000 people, and only needs improved approaches and accommodations to become the greatest resort on the Atlantic south of Atlantic City.

And to begin this movement all communities must lay aside rivalry and back the forces which in Savannah have become operative.

What Savannah Is Doing.

It sometimes happens that men live too near to opportunities to fully appreciate their value, and Savannah has illustrated this truth in its attitude toward Tybee. This great city, the greatest of the South Atlantic coast, and in some respects unapproachable is justly proud of its shaded streets, parks, public roads, buildings, climate and its situation and importance as a port of entry. It has never made a claim that the facts failed to justify; but it failed for generations to realize that Tybee was and is its best asset.

That is, the community failed, some men there were who saw deeper into the future, and some of those built the 18 miles of railway and found the only spot where a locomotive headlight shines on the ocean wave from Georgia's coast. Others there were who procured the building of Fort Screven, with its modern equipment and object lessons in landscape gardening. And others still who sought to provide places of amusements.

These were desultory efforts and devoid of system. They were not and are not parts of any plan. But there has been an awakening at last, and Savannah has made spades trumps. Savannah has caught the Flagler idea, and the new spirit is making itself felt. She has set a pace in public improvements that is absolutely new in the south, Florida excepted. The tourist is obliged to take off his hat to the people who induced the city to sewer, pave and beautify the great extension near the automobile grandstand.

covering, apparently several hundreds of acres. For this work stands a striking example of taste and modern progress.

It has been stated that Tybee is Savannah's best asset in the coming fight for tourist business. It is more. Just now it is Georgia's best asset. Tybee's need and the great preliminary is a broad roadway out of Savannah to its surf; not a bicycle path, a tramway, a country road, but a wide boulevard, raised above the possibilities of flood, divided into sections for motor cars, pedestrians and carriages, paved and palmetto-lined; a piece of road building in which the best that is in engineering, science and horticultural art may be combined.

Savannah needs an 18-mile park extension to the surf. Such an approach to the Tybee surf would bring to it daily, both winter and summer, the best of Savannah, of Georgia, and the tourist class, complete the general plans for motor highways to which all sections are now building and place both mountain and surf in easy reach of the family.

This is an enterprise to which Savannah may profitably devote herself at any cost, but it is not a task for Savannah alone. It is an enterprise that for mixed reasons belongs to the state and the general country.

Savannah to the Surf.

The general government has built and maintains in Fort Screven one of the most important military stations on the Atlantic coast, a station absolutely

necessary to the south's greatest Atlantic port and the Georgia interests focusing there.

It is at present an isolated station, approachable only by a single line of railway that a single stray shell in time of war could put out of commission.

The full plan of this great fort with its garrison of four hundred and the modern and expensive equipment demands a military road out of Savannah over fifteen miles of lowland and tidal marsh. Three miles' extension over dry land reaches the Tybee beach. Governmental and local interests combine. Here then is work for the Georgia, Alabama, Tennessee and Carolina delegations in congress, and work for the people whose representatives they are.

But in the plans for an automobile highway leading out of Boston southward, Savannah is the natural terminus.

It is so with the system of roads developed through the enterprise of the Constitution and other Georgia papers.

Savannah has made it so, through her enterprise in providing a 40-mile race course that has no equal on the continent, and pulling off twice the great annual motor car contest.
