ONE OF THREE THINGS WILL HAPPEN

Straws Show That Prediction Made by Statesboro News May Soon Materialize.

The Statesboro News has been forecasting a little for the past thirty days or more on what may happen in local railroad circles. It has believed that certain signs indicate, certain results, and judging from the way the straws are pointing nowadays there is something going to happen.

As stated in our last issue there is an unusual amount of activity in local railroad circles. The visit of President W. J. Oliver and party looking over the S. A. & N. had been clearly forecasted by this paper. The fact that he went to Savannah and held a conference with the officials of the Seaboard Air Line and Savannah & Statesboro railway, meaning here as he did fresh from a conference with officials of the Georgia and Florida in Augusta and Richmond, means that the Savannah, Augusta & Northern will soon change hands.

Mr. Oliver gave out a statement here that he would either extend the line or sell it. Now that is exactly what we have been saying he was going to do; not extend but sell, or in other words be absorbed. As for extending the line, Mr. Oliver has no more intention of extending it beyond its intersection with the Georgia and Florida than he has of taking wings and flying. The S. A. & N. will soon fill the missing link between the Georgia and Florida line and Savannah.

One of these things is going to happen.

The News makes the following forecast:

First, the G. & Fla. Ry. will buy the S. A. & N. and use the S. & N. for a long time of years, giving us a through line from Augusta to Savannah. In this event all of the S. & S. offices will be abolished in Statesboro.

Second, the Seaboard Air Line will take over the S. & S. and S. A. & N. and put these lines under the supervision of Mr. Vismaslaw, superintendent at Savannah, and operate the lines as a part of the Seaboard. If this deal goes through it also means a loss of the general offices of the S. & S. to Statesboro.

Third, the S. & S. will take over the S. A. & N. and give us a through line from Midville to Savannah. All train crews would have to move to Midville, but the general offices would remain in Statesboro.

One of the proposed deals is certainly going through, but we can not say as to the exact date, as the fiscal year with all roads ends on June 30th, and we may expect to hear of the change some time between now and June 30th, 1911.

The visit of Mr. Baoot, who is the operating officer of the S. & S. to Portsmouth, is suggestive at this time. The visit of Mr. W. B. Moore, who is auditor of the S. & S. to New York just at this time, also bears the earmarks that a man was wanted in New York who had on the tips of his fingers the figures bearing on the value and earning capacity of the Savannah and Statesboro railway.

It may be that the consolidation of the lines may be delayed until summer on account of the fact that June 30th is the ending of

WELL OUT
SEA ISLAND ACREAGE

The committee appointed to superintend a canvass of the county, circulating petitions asking to agree to reduce their acreage in Sea Island cotton, met in the court house on Saturday and went over the reports. While the work had not been absolutely completed yet the greater portion of the growers had been reached, and the result of the canvass was very satisfactory to the parties in charge of the movement. Nearly 50 per cent as compared with last year's acreage, will be cut off this year. A great many sections are not going to plant it at all, and it is being cut out in every section of the county. In the Sink Hole district, where more Sea Island cotton is raised than in any three other districts in the county the reduction will be forty-three per cent. In other sections it will be reduced more than this. The next two weeks will tell the tale, and all eyes are on the farmers to see if they really mean it.

The Sea Island cotton growers met en masse at the court house at Statesboro Saturday morning at ten o'clock. Chairman A. M. Deal called the body to order. The canvassers of the several districts reported the results of their canvassing. More than six hundred pledges were secured from the leading farmers to reduce the acreage from 15 to 100 per cent, making the general average of 45 per cent throughout the county. It is highly probable the acreage will be cut 50 per cent, as the work is yet unfinished.

A strong sentiment is found to exist among the farmers to erect a manufacturing plant to manufacture Sea Island cotton. Some farmers signifying their willingness to subscribe stock to the amount of \$500.00. All seem to be willing to take some. Yet need not be surprised to find in the near future, an up-to-date, well equipped Sea Island cotton factory owned and operated by the producers of Sea Island cotton.

ALFALFA IS GROWING GOOD NEAR WAYCROSS.

Waycross, Ga., April 2.—At his farm six miles from Waycross, one of Ware's new settlers, W. E. Macey, of a Middle Western state, has alfalfa growing, and is so well pleased with his initial experiment that he is clearing a large acreage of alfalfa.

It has been contended for a long time that alfalfa, one of the

greatest foods for stock known, could be raised successfully in South Georgia and some farmers in various sections have from time to time proven this contention. In Ware a number of farmers have grown a little alfalfa, but it remained for the new settlers to grasp the importance of the product.

Mr. Macey is located in a new settlement recently settled here, among whom are S. E. Couch, J. E. Weaver, D. E. Mudge and C. Honeck.

SPURIOUS DIMES FLOATED IN TEXAS.

Hundreds of Counterfeit Pieces Discovered Along Mexican Border. Contained Real Silver.

San Antonio, Texas, April 2.—For some time many cities of Texas have been flooded with counterfeit dimes. When these were tested they were found to contain more silver than the genuine coins from the government mints, but the workmanship is poor. The coins were made from Mexican dollars, and these contain more silver than the American dollar.

It is said, too, that the counterfeiters succeeded in getting 15 American dimes out of one Mexican dollar, or, in other words, they could make \$1.80 of circulating medium with 50 cents worth of silver.

It is estimated they put fully \$10,000 of this spurious coinage into circulation in the past four months. Secret service men have been trying to locate the persons who manufacture these coins, and have been led a merry chase for several months.

Yesterday, however, they were more successful and arrested two Mexicans, Celso and Bernabe Felix, brothers, who reside in El Paso. The fact that the two men were living high and spending a good deal of money caused suspicion to be directed to them.

STORM ALABAMA JAIL AND LYNCH NEGRO.
Man Charged With 'Criminally Assaulting White Woman Is Speedily Strung Up and Body Riddled With Bullets.

Union Springs, Ala., April 2.—Aberdeen Johnson, a young man

gro, was lynched on the outskirts of this place early this afternoon by a mob which came from Goshen, Pike county, this state.

The lynching followed the storming of the Bullock county jail here. The sheriff of Bullock county was handcuffed and tied in the jail after the mob dispersed with the prisoner.

Johnson was charged with assaulting a white woman who lived near Goshen. After being strung up to a tree his body was riddled with bullets.

The crime was committed a month ago. Johnson was captured this morning about eight o'clock near Union Springs and placed in the Bullock county jail.

News of the capture quickly spread and a mob was formed early this morning at Goshen. They took the Central of Georgia train to Union Springs, arriving there about 10 o'clock. The mob was slow in forming their plans and the sheriff of Bullock county called up the governor at Montgomery immediately but while the soldiers were gathering in their armories there, the mob had stormed the jail and secured the prisoner.

DIES AFTER FORTY VISITS TO CORPSE

She Fulfilled Conditions of Will But Horror Was Too Much for Her.

Chester, Pa., April 4.—Forty visits to the vault where lay her husband's body, visits made on successive days, as decreed in the husband's will, to assure that he would not be buried alive, so distressed Mrs. Mary Abbott that she died last Monday.

She had paid her last visit to the temporary tomb. The husband, Henry Abbott, was then buried, and the widow, an invalid, weakened by the torments endured for forty days, collapsed.

She was taken home agonized, stricken, soon fell into convulsions and died.

Abbott, who was a retired hotel proprietor, died six weeks ago, leaving \$150,000 to his widow, with the terrifying proviso that she faithfully observe Mrs. Abbott stood the ordeal fairly, well until two weeks ago. Every day she went to the vault and gazed upon that still face. Gradually the strain preyed upon her nerves. Friends noticed yesterday she was suffering agonies of mind. When she left the vault after her last look at her husband's features she almost fainted. By apparent effort she bore the ordeal of the burial rites. Then came the fatal collapse.

Mr. Abbott's wishes are explained as follows: For the last quarter of a century he had been a director of the Chester Rural Cemetery Company and took an active interest in the corporation. About ten years ago he was in the burial grounds when the body of a man was discovered for removal. The coffin was opened in his presence and he was horrified on seeing that the body was lying dead.

"The man was buried alive," gasped the director. The cemetery superintendent explained that the body had evidently been jostled out of the natural position while the coffin was being carried to the hearse or the grave, but Mr. Abbott would not be convinced.

"I'll see that this does not happen in my case," was the parting words of Mr. Abbott to the superintendent, and that day he sent for his lawyer and directed that his will contain a codicil preventing his burial for forty days after death. He died on a ferryboat between Philadelphia and Camden. Mrs. Abbott was a second wife. She was 50 years old. Her husband's estate now reverts to children by his first wife.

On yesterday the four-year-old son of Mr. and Mrs. Riley Jones died after an illness of several weeks with pneumonia. The remains will be buried tomorrow at the family burial ground.

PLAN TO FLY FROM AIKEN TO CHARLESTON

Aviator Coffey Proposes to Carry a Passenger.

Charleston, S. C., March 30.—Great interest has been stirred up here through the announcement from Aiken that Aviator Frank Coffey, who had charge of the Wright Brothers' aviation school in Augusta, would shortly attempt a flight with a passenger, probably Thomas Hitechock, Jr., the multi-millionaire, who is keenly interested in aviation, from that village to Charleston. Mr. Coffey is reported to have secured information about landing places and wind conditions at Charleston and to have looked after the necessary preliminary arrangements. Should Mr. Coffey carry out his intention, it will be the most notable flight in the

South, no other aviator having thus far undertaken to fly so far (130 miles) cross-country with a passenger. It is also stated here that Mr. Coffey plans to make the flight without a stop. Part of the country over which he and his companion will have to fly is very rough and a landing in these places would be very hazardous.

JAS. H. TILLMAN DEAD IN ASHEVILLE.

Former Lieutenant Governor of South Carolina Passed Away at 9:45 Last Night After Long Illness.

Asheville, N. C., April 2.—With only his physician and a young nephew with him at the end, Col. James H. Tillman, the multi-millionaire, who is keenly interested in aviation, from that village to Charleston. Mr. Coffey is reported to have secured information about landing places and wind conditions at Charleston and to have looked after the necessary preliminary arrangements. Should Mr. Coffey carry out his intention, it will be the most notable flight in the

most immediately. For many years Col. Tillman was one of the political leaders in South Carolina. He was a nephew of United States Senator Benjamin R. Tillman.

In 1903, following editorial criticisms in the Columbia States, he shot and killed on the streets of Columbia, the editor of that paper, N. G. Gonzales. A jury later acquitted him of the charge of murder. The body will be sent to the old Tillman home, Edgefield, S. C., for burial.

Undesirable Confirmation.

Senator John Kern of Indiana, tells this story, says the Indianapolis Star, about his late predecessor, the late Senator Dan Voorhees:

Voorhees frequently made the claim that more Democrats than Republicans had been enrolled from Indiana in the Union army during the Civil War. On one occasion, he made the assertion in connection with a speech in Sullivan county.

"I guess anybody will admit that considerably more than half the people who went into the Union army from Sullivan county were Democrats," he declared, with emphasis.

A Democrat down in one of the front rows had taken a drink or two before he came to the meeting, and he confirmed Voorhees' statements.

"Yes, it's true," he shouted. "God damn it, they drafted us."

SOUTHERN LAW PRACTICE.

"It's queer the way the laws in some of the Southern states differ from our laws up here," said Col. Allan T. Brinsmade, just back from a long trip through the South, says the Cleveland (O.) Leader.

"In Norfolk, Va., I sat one day recently beside a federal judge when a criminal case was being tried. The charge was, I think, robbing the United States mails. At 5 p. m. the judge turned aside and, speaking very quietly said: 'The jury will now retire.' 'A recess, I suppose,' I observed.

"No, he said. 'The jury is about to retire to consider the evidence and give its verdict.' 'But you did not charge the jury,' I remarked in a puzzled way.

"We do not charge the juries in this jurisdiction," he replied. "Five minutes later the jury filed in with a verdict of acquittal. From what I had heard of the evidence the verdict would, in all likelihood, have been guilty had the judge charged the jury.

"In Savannah a day or two later I was in a court room where a divorce case was being tried before a jury. The wife, who was the plaintiff, was given the verdict.

"So she gets her divorce," I remarked to a lawyer friend.

"N. not now," he replied. "In this state when in a divorce case the verdict goes to the plaintiff, the case must be tried again at the next term of court. If the plaintiff wins again the decree is granted.

"If, however, at the first trial the defendant wins the case is all over. Queer law that, but the judge said it was working well—that after the first verdict in favor of the plaintiff a reconciliation was often brought about."

A Specific Order.

A nice old lady recently called at the cutlery department of a large Market street store and told a salesman that she wished to buy a good razor for her husband.

"What kind of a razor do you wish, madame?" courteously inquired the salesman as he prepared to show her his wares.

"I really don't know," replied the woman. "I suppose I'll have to ask your advice. Tell me what kinds you have."

The salesman forthwith told his prospective customer that he had razors suited to every shaver, whether his beard was downy or strong, and also that the blades were made of various widths and weights. On receiving this information, the old lady pondered the matter and then said:

"Suppose you give me something for a man 62 years old, who weighs 210 pounds."—Philadelphia Record.

The Guilty Party.

"Who signed Magna Charta?" asked the school inspector thundrously, says the Housekeeper. The village class sat mute.

"Who signed Magna Charta?" roared the inspector again.

"Please, sir," wailed little Billy Smith, "it won't me?"

The inspector snorted. The class was the most ignorant it had ever been his lot to examine. He strode from the room and office and met the schoolmistress. Angrily he narrated the last incident.

"Who'd ye say said that, sir?" queried the mistress.

"William Smith," snorted the inspector.

"Bill Smith," repeated the teacher. "Then don't you believe 'im, sir. Ye's the biggest liar here. Ye may take my word for it, 'e done it."

"Have you any remedy for our over-crowded prisons?"

"Yes—look up the honest men instead of the crooks."—Chicago Post.

IT TAKES THE RING

TO KEEP THE GIRL

The custom of giving an engagement ring at betrothal time comes down to us from traditional times, and has endured because of its pretty and symbolic meaning. It still has a beautiful significance, and whether you wish a Diamond or some less costly gem, you will find our store the proper place to make your selection.

This is the one time of all that you must be sure you are getting something reliable, and when it comes from us you can rest assured it is good. Our Spring Stock is being selected up to date. Also, I have added some addition to my optical plant, in the way of new grinding machinery. Proper attention to the examination of the eyes.

SEE IS GLAD TO SEE HAREM SKIRT.

One Step Nearer Trousers. Dr. Mary Walker at Semi-Centennial of Donning Pants.

New York, March 30.—Dr. Mary Walker today celebrated a semi-centennial all her own. It was just fifty years ago, according to the newspaper records, that Dr. Mary Walker, then a handsome young woman, adopted masculine attire. Ever since 1861 she has always appeared in public clad in trousers, frock coat and high hat. She has bravely outlived the criticism and merriment caused by her action and her clothes are now accepted as a matter of course by the statesmen at Albany, to whom she is a familiar figure.

When she first began to wear pants Dr. Walker declared that all American women would speedily follow her example. While disappointed in this belief she finds encouragement in the harem skirt, which, she points out, is a revival of the bloomers invented by Mrs. Amelia Jenks Bloomer back in 1864 and which had a short vogue in this country. While the harem skirt is an improvement over skirts, says Dr. Mary Walker, it is not nearly as good as the trousers.

Dr. Walker asserts that corsets and skirts are responsible for much of the disease and sickness in this world, and that men suffer as well as women, since no woman can be perfectly healthy and bear healthy children under the present regime.

That women are free, legally, to adopt masculine attire whenever they wish is the declaration of Dr. Walker, who brands as a falsehood the old story that she had a special law passed by Congress giving her the right to wear pants. All a woman has to do, she says, is to adopt men's clothes and keep on wearing them until the clamor subsides. There is no law to prevent, she asserts.

Women have legs as well as men, declares Dr. Walker, and they ought to have them protected as well as men.

A Fierce Night Alarm

is the hoarse, startling cough of a child, suddenly attacked by croup. Often it aroused Lewis Chamblin of Manchester, O., (R. R. No. 2) for their four children were greatly subject to croup. "Sometimes in severe attacks," he wrote "we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup and for coughs, colds or any throat or lung trouble." So do thousands of others. So may you. Premier Canalejas Finds Himself Without His Trusted Advisers.

Madrid, April 1.—The cabinet of Premier Canalejas resigned today.

New Haven, Conn., March 30.—When the intestate estate of the late Mrs. N. H. Globensky, of this city, was presented in the probate court here, in order to comply with the state law, it was necessary to name the heirs, and two of those mentioned were President Taft and his brother, Charles. According to Connecticut law the husband secures one-half of the estate and the heirs-at-law the remainder. Mrs. Globensky's maiden name was Caroline Elizabeth Taft, and according to the paper filed in court, she was a first cousin to President Taft. While the value of the estate is not given, it is believed to be small.

ROPE-SKIPPING CONTEST PROVED FATAL TO GIRL.

Eight-Year Old May Tamplin Third Victim in New York in Two Weeks.

New York, March 31.—The third death in New York City, during a fortnight, from excessive rope skipping by school girls, is being investigated by the coroner's office. May Tamplin, 8 years old, is the latest victim. She died late yesterday after engaging with several of her fellow pupils in a rope skipping contest for the championship of her school. She won the honors, hurdling the rope 698 times, but was taken to her home almost unconscious from exhaustion.

"Foley's Honey and Tar is the best cough remedy I ever used as it quickly stopped a severe cough that had long troubled me," says J. W. Kuhn, Princeton, Neb. Just so quickly and surely it acts in all cases of coughs, colds, a grippé and lung trouble. Refuse substitutes. W. H. Ellis Co.

W. J. OLIVER BUYS INTERURBAN LINES.

He Will Also Control Lighting Plant of Three Carolina Towns.

Salisbury, N. C., April 1.—A transaction involving \$1,000,000 was closed here last night, whereby 51 per cent of the stock of the street railroad, electric light and power and gas companies of Salisbury, Concord and Spencer, N. C., was sold to William J. Oliver, of Knoxville.

The purchase also includes the electric interurban line of 22 miles connecting Salisbury with Spencer, where the Southern railway has large shops.

Mr. Oliver will make extensive improvements to the properties. Report of Purchase Verified.

Charlotte, N. C., April 1.—A statement made by the president of the Salisbury-Spencer Street Railway and Power Company verified the statement that W. J. Oliver, of Knoxville, with three associates, have acquired a controlling interest in the systems named in the Knoxville dispatch.

The company, besides owning the city plants in the three towns, own other properties in the places. The statement is further made that construction of the interurban road between Concord and Salisbury will begin at once.

Playing the Fiddle.

Mr. James P. Turner, chancellor of the Roman Catholic archdiocese of Philadelphia, has a trait in common with the late Archbishop Ryan, which enables him to decline to do something without leaving a sting, says the Philadelphia Times.

Like his late chief, he usually tells a story and then escapes committing himself. Since the balloting for a successor to Archbishop Ryan he has been importuned, cajoled and otherwise up for a word that would give an idea as to what was the result of the balloting. As he is sworn to secrecy he must keep quiet.

To a group of newspaper men he said:

"Once there was an assistant to a man who held a responsible position. This assistant took upon himself much of the credit for his employer's popularity. One day he complained, saying: 'I'm tired of playing second fiddle.'"

"The trouble with you is that you are trying to play first violin before you have learned how to play that second fiddle. No employer's kindly but firm admonition."

MOTOR CAR AGENT IS HORSEWHIPPED.

J. W. Heidt, of Pooler, Severely Beaten by Wm. C. Howland.

Savannah, Ga., April 1.—William C. Howland, a lumber inspector, in the employ of the Granges & Lewis Company, this afternoon assaulted with a horse-whip and subjected to a severe beating, J. W. Heidt, of Pooler, local agent for the Metz runabouts. The encounter took place on a public street, and was witnessed by a large number of people.

Howland and his son, William, were on Bull street in a buggy, when Heidt drove up in his automobile. It is stated by those who witnessed the encounter that the auto bumped into the buggy.

It is further stated that Heidt immediately offered to pay for whatever damage had been done, but Howland, senior, got out of his buggy, and, whip in hand, proceeded against the automobile man. Heidt was lashed pretty severely before his opponent desisted.

Heidt was asked by spectators why he did not defend himself. He replied that Howland should take some one his own size to fight. Howland immediately offered the whip to his son, saying, "Here is someone who is your own size." However, the young man did not take up the quarrel.

ATTENTION, FARMERS!

I am again representing the Southern Gypsum Company for the sale of their famous

Pierson Land Plaster.

This is the greatest producer known for Peanuts. You will absolutely have no pops when this is used. The peanut growers of Virginia and North Carolina use it altogether for growing peanuts, and say they cannot make good, sound peanuts without it. It has been used by hundreds of the best farmers in Bulloch county the past two seasons, who can testify to the great benefits derived from its use. It is used as a top dressing, by sprinkling it on the vines after the peanuts begin to bear.

It is recommended to sow in the evening or early in the morning, or just after a shower, as it is found that much benefit results from its adhering well to the leaves. A gloomy, lazy day is also a good time for the job. Application, about 200 lbs. per acre. Try it and be convinced that this is the greatest thing you ever used for making peanuts.

I will have some one to represent me at all the principal shipping points in the county. I will make my order about the 1st of May, so get your orders in by that time. Circulars and testimonials sent free on application.

LEAL NOTICE.

State of Georgia, Bulloch County.—In the Superior Court of said County, April term, 1911.—To J. T. Myers, J. L. Walker, W. Strickland, J. A. Davis and J. E. T. Bowden, J. O. Strickland having presented his petition to the Clerk of said Court, seeking the establishment of a deed said to be lost or destroyed, whereof he alleges that you are the makers, annexing to his petition a sworn copy thereof, a copy of which said copy is hereto attached.

Now, therefore, you are hereby called upon to show cause, if any you have, at the Superior Court, to be held in and for said county, on the fourth Monday in April, 1911, why the copy sworn to should not be established in lieu of said lost or destroyed original.

Witness the Honorable B. T. Hawkins, Judge of said Court, this 21st day of March, 1911.

A. E. TEMPLES,
Clerk Superior Court, B. C., Ga.

State of Georgia, Bulloch County. The indentures, made this the 9th day of June, in the year of Our Lord nineteen hundred and seven, between J. T. Myers, J. M. Cox, J. L. Walker, W. Strickland, J. A. Davis and J. E. T. Bowden, of the County of Ware and Bowden, of the County of Ware and State of Georgia, as parties of the first part, and J. O. Strickland, of the County of Bulloch and State of Georgia, as party of the second part, Witnesseth: That the said parties of the first part for and in consideration of the sum of Six Hundred and Fifty (\$650.00) Dollars, cash, in hand paid at and before the signing and delivery of these presents, receipt whereof is hereby acknowledged, have granted, bargained, sold, aliened, conveyed and confirmed unto the said J. O. Strickland, his heirs and assigns, all the following described property, to-wit: Two (2) lots or parcels of land known as Lots Nos. Six and Seven (and 7), in block No. Two (2), according to a survey made by C. J. Thomas, Surveyor General of the State of Georgia, and said Lots, situate and situated in the City of Statesboro, County of Bulloch, and State of Georgia.

To have and to hold, the said bargained premises, together with all and singular, the rights, members and appurtenances thereunto appertaining or in any wise belonging, to the only proper use, benefit and behoof of the said J. O. Strickland, his heirs, executors, administrators, and assigns, unto the said J. O. Strickland, his heirs, executors, administrators, and assigns, against the said parties of the first part, their heirs, successors and assigns, and against all and every other person or persons, warrants and defaults, and by virtue of these presents shall and will warrant and defend.

In Witness Whereof, the said J. T. Myers, J. M. Cox, J. L. Walker, W. Strickland, J. A. Davis and J. E. T. Bowden, the parties of the first part, have hereunto set their hand and affixed their seals and delivered these presents, the day and year first above written.

DYING HE SINGS

FOR MOTHER.

(From the Washington Post.)
Wilkesbarre, Pa.—With arms and leg burned off by electric wires, and so terribly injured that his death was certain, John Grady, of Nanticoke, this morning sang his mother's favorite song, as he was carried in the house, to prevent her being suddenly shocked and alarmed by his unexpected return.

It was "The Top of The Morn," and when the aged woman came to inquire why he was returning home he told her he had been slightly burned. He saved her from a sudden shock and died 2 hours later.

He was repairing wires when he was electrocuted by a current of 4,000 volts being accidentally turned into the wires. Before he could be released, both arms had been burned off near the elbow and one leg off near the knee. Despite his dreadful injuries he never lost his courage.

Warning to Railroad Men.
Look out for severe and even dangerous kidney and bladder trouble resulting from years of railroadings. Geo. E. Bell, 639 Third St., Fort Wayne, Ind., was many years a conductor on the Nickel Plate. He says: "Twenty years of railroadings left my kidneys in terrible condition. There was a continual pain across my back and hips and in my kidneys gave me much distress, and the action of my bladder was frequent and most painful. I got a supply of Foley Kidney Pills and the first bottle made a wonderful improvement and four bottles cured me completely. Since being cured I have recommended Foley Kidney Pills to many of my railroad friends." W. H. Ellis Co.

WINE SUBSTITUTE.
Rudyard Kipling wrote a story recently for a Philadelphia magazine which dealt with an English woman's club, its meetings, etc., says the Philadelphia Times. In the story Kipling makes the following remarks: "Again the wine was served. Each member partook of the flowing wine. The servants again filled the bottles."

The story was read by the local editor. Finding so many references to liquor and drinking, he carefully scrutinized the story once more, deciding that there was too much wine for his publication, whereupon he decided to cable Mr. Kipling. In the cablegram a request was made to the writer to tone down the story, also suggesting that something else be substituted for the wine.

Kipling answered by cable: "Use condensed milk."

Entitled to a Pension.
A Philadelphian who had recently returned from a visit in Washington, put his hand in his pocket during a conversation at the University Club the other night and pulled out a slip of paper, says the Philadelphia Times. "My is was an official in the pension department," he said, "and he told me of some pretty funny applications he used to get. This was one of them, and I thought it was so rich I copied it. Read it for yourselves."

The letter was as follows: "The way I got my war injury was a kick from a hog. The hog was a sow hog and our captain wanted her for forage. We was chasing the sow and she crawled threw a board in a rail fence—it was a big board, and I got it over the board and I got stuck, and tried to wiggle out. I throbbed the rails off and one hit me on my head and necked me senseless. I do not think the sow had nothing to do with my line for duty for I did not catch the hog. Which she never was caught."

BY ALL MEANS BUILD COTTON FACTORY.

(Communicated.)
This is the age of trusts and combines. All the cotton factors of the world seem to work together in harmony. They meet, fix a price to pay for the raw material for their needs and buy it at their price. They realize that their interests are the same, so they combine and control to their mutual good, and to the injury of the producers of the staple.

Every time we farmers start a new crop it is a leap in the dark, because we don't know what the trusts are going to allow us for our staple—especially the long staple crop of cotton.

There is a remedy. It is an easy one if just pushed. Our cotton is worthless till it is spun into thread. Then it is in shape to be of benefit to the consumers throughout the world. We don't any more know what becomes of our Sea Island cotton than a pig knows when Sunday comes. We can't find out. The factories will not allow any one to enter to inspect or find out anything about what becomes of the Sea Island cotton after it gets into the hands of the spinner. They prefer to keep the people who produce the staple ignorant of what becomes of it. They don't want the producer to know anything about what it profits them to spin our cotton into thread and weave it into silk. So long as they can control and run things their way, they have no reason to worry or complain, nor do they. They guard their interests as business men should, probably, and tell no tales out of school.

I don't think that one hundred thousand bales of Sea Island cotton should "glut" the market to the extent that there be no market at all. The spinners know it is made—they know they have the only factories in the world that can use it—they know they will get it for what they want to pay for it, or they think they will. They always have. Those spinners look upon the people in the south of the U. S. A. as being unable to operate and maintain a manufacturing plant of this kind. They think that we are too poor to establish such a plant. They know we have never come together and they think we never will. But if they saw we were really going to put in a big, up-to-date mill right here where it is grow, they would sit up and take notice. They would begin to get good. We would immediately get better prices.

Right here in Statesboro is where we need a Sea Island factory, and I am fully convinced it is coming to be right here. Two hundred and fifty thousand dollars will put in the plant and I believe the farmers of Bulloch county alone will subscribe that amount. Because there is profit both ways to them. Their stock in the factory will pay them big dividends and cotton will sell a good deal higher because of competition. I honestly believe that ten dollars in stock in our factory—notice, I am coming up to the real thing—will cost the farmer less than nothing. Why do I believe it? First, because if the foreign spinner will not pay us a good price for our cotton, we will make it into articles such as the world must have and sell it at a profit. Do this at home. Thereby having two chances where we now have only one.

Where is the money coming from? Right from the farmers themselves. Let every farmer who makes a bale of Sea Island take some stock in the factory. The stock will earn him money. There is money in a cotton factory. Mr. S. L. Nevill stated not long since, he saw an account of dividends declared by some factories up East, and those dividends were twice the amount of the whole cost of the cotton crop for that year. Think of it. Net profit of \$14,000,000 with only

\$7,000,000 invested in material. \$14,000,000 all clear profit. It is easy to see that we farmers are not getting what we ought and will get when we get out after it right.

I want every farmer who is not willing to take \$100's worth of stock in a Sea Island cotton factory at Statesboro to write me a letter and tell me his reasons. I feel sure I can find more men who will take from ten to fifty dollars of stock than I will find men to take one. At any rate, let us begin to plan and think about this. It is coming before you for your consideration pretty soon.

Very truly,
B. R. OLLIFF.

REMARKABLE \$20,000,000 RAILROAD IS COMPLETED.

New Guggenheim-Morgan Line Is 197 Miles Long.

Cordova, Alaska, March 30.—The spike completing the Copper River and Northwestern Railroad between Cordova on the tidewater and Kennecott where the Bonanza copper mountains is situated, was driven today. Trains will be in operation over the entire line within two days and the first ore will be shipped from Kennecott for the Tacoma smelter on Monday or Tuesday next.

Work on the railroad, which is 197 miles long and cost \$20,000,000, was begun Nov. 15, 1907. The railroad is owned by the Alaska Syndicate, which is popularly known as the Guggenheim-Morgan Syndicate, which also owns the Alaska Steamship Company and copper mines. Construction of the road was one of the most remarkable engineering feats of modern times.

WAS LORRIMER'S SEAT PURCHASED

Senate Committee at Last Gets to Bottom of Matter. Lorimer's Election Cost Hundred Thousand Dollars.

Springfield, Ill., April 5.—H. H. Kohlsaat, publisher of the Chicago Herald, today told the senate bribery investigating committee that Clarence S. Funk, general manager of the International Harvester Company, was the man who informed Mr. Kohlsaat that a "slush fund" of \$100,000 was put up to elect William Lorimer to the United States senate.

To the first question of Attorney J. J. Healy, Mr. Kohlsaat identified a telegram sent by him to Chairman Helm saying his confidant called at the Record-Herald office and was willing to appear before the committee.

"When I arrived at my office Mr. Clarence Funk called and told me he would be less than a man if he held me to my confidence," testified Mr. Kohlsaat.

All Agreeable.

"Mr. Funk told me that he talked with Cyrus R. McCormick, president of the company, and told him he thought he ought to release me, whereupon Mr. McCormick said:

"Good; that is exactly what I want. I do not care for the consequences to the International Harvester Company."

"I met Mr. Funk about thirty days after the confession of White. He did not seek me out at all. Mr. Funk told me the man who came to him told him they had an opportunity to elect Lorimer with a fund of \$100,000. They sent it down and Mr. Funk told me they were looking for reimbursement."

Mr. Funk was the next witness called. His attention was called to a conversation with Edward C. Hines, shortly after the Lorimer election. The witness said:

Cost \$100,000 to Do It.

"The conversation took place in the Union League Club house. It was an accidental meeting. He said he had been waiting to see me and we sat in the lounge room. Hines said to me without preliminaries:

"Well, we put Lorimer in, but it cost \$100,000 to do it."

"He said: 'We had to act quickly, so that it became necessary for us to put up the money. Now we are seeing some of our friends to get it fixed up.'

"He gave me to understand that they wanted to be reimbursed, and I asked him why he came to us, and he said: 'You are interested as much as any one in having the right kind of a man in Washington.'

"I told him that we would have nothing to do with it."

A Flat Denial.

Chicago, April 5.—Edward Hines late today denied absolutely the story told the committee of the legislature which is investigating the election of United States Senator William Lorimer, that he, Hines, had solicited a fund of \$100,000 to reimburse those who had "put up" for the senator's election.

Cyrus H. McCormick, president of the International Harvester Company, confirmed Mr. Funk's statement before the senate bribery investigating committee that the Hines incident had been discussed by officials of the International.

COCA-COLA WINS FIGHT

Judge Sustains the Motion of the Defendants that Caffeine is Not an Added Nor Deleterious Ingredient.

Chattanooga, Tenn., April 6.—Judge Sanford took his seat on the bench of the federal court shortly before 1 o'clock this afternoon he delivered his opinion in the matter of the motion for peremptory instructions in the case of the United States government vs. 40 barrels and 20 kegs of Coca-Cola, which has been on trial here for the past three weeks.

This motion was argued yesterday, consisting of 5,000 words. In his opinion Judge Sanford sustained the motion on certain points to the effect that caffeine is not an added nor deleterious ingredient, but overruled the motion on points relating to the misbranding feature holding that these were questions for the jury to pass upon.

Thereupon counsel for government moved to dismiss the case without prejudice on the points relating to misbranding. The court then directed the jury to return a verdict for the defense, which was accordingly done. Government counsel entered a motion of appeal to the United States circuit court of appeals at Cincinnati.

MR. WILLIAMS AND PARTY HERE

Capt. J. P. Williams and party composed of Mr. R. A. McTier, Mrs. Edith Taylor and Miss Cook arrived from Atlanta on Wednesday afternoon and are quartered for a few days in Mr. Williams' magnificent home on South Main street.

The trip to Statesboro was made partly for business and partly for pleasure. The quietude of his home here gives him a rest from the whirl of the business life in a great city. Mr. Williams is enjoying exceedingly good health, which is gratifying to his many friends here and elsewhere.

J. P. Williams is one of Georgia's most successful captains of industry. Coming here in early April, he had hard work and great business ability he has built up a great fortune. He is perhaps today one of the wealthiest men in the state, only a few surpass him in wealth. He can perhaps point to more men he has started out on life's journey than many others. Mr. Williams is an active man for a man of his years, and takes a lively interest in the affairs of the business world. Mr. McTier is his confidential business manager, and keeps in close touch with him. The party will go from here to Savannah.
