DEATH OF LESLIE RUSHING.

The friends of Mr. and Mrs. P. N. Rushing, of the 44th district, will regret to learn of their losing one day last week. The cause of his death was typhoid fever. He was about one and a half years old at the time of his little son, Leslie, the death of whom, it was about eight years old at the time of his death.

NEW TOPICS OLD STYLE

By the suggestion of a friend, who is a drummer and sells goods at Statesboro, I came here to fit glasses to such eyes as may be in need of them, and I ask the public not to class me with common traveling great eye-doctors who know very little about the eyes, their refractive errors, or corrections, but come and give me a trial on your eyes, no matter how they have failed to improve your vision. I make a specialty of all the aristocratic shapes in glasses and mountings, do my own cementing for bifocals, drilling and everything. Will be pleased to have you call on me at The Cash Camera.

DWELLING BURNED.

On Monday a tenant house on the farm of Mr. Horace Hagins, in the 48th district, caught fire and was consumed. The origin of the fire was caused from a defective fire. The sparks from the burning building set the woods on fire and it was with difficulty that the property of the neighbors was saved.

CITY SCHOOLS TO CLOSE.

The commencement exercises of the Statesboro Institute came to a close last night, the exercises beginning on Sunday, when Dr. Talliaferro, pastor of the First Baptist church of Dublin, delivered the commencement sermon to a large and appreciative audience, one that packed the large auditorium to its full capacity. Dr. Talliaferro delivered a very able discourse and those who missed it missed a genuine treat.

On Monday evening a musical recital was given by Miss Ruth Kennedy, the principal of the music department of the school. Again a large audience greeted and cheered the different selections.

The exercises came to a close Tuesday evening when the diplomas were awarded to the graduating class, of two young men and seven young women. After these diplomas were delivered Col. R. Lee Moore came on the stage and in a few well selected words presented to Prof. Mulloy and Miss Maude Atkins, assistant principal, two handsome presents from the graduating class.

Hon. Pleasant A. Stovall delivered the commencement address. A large audience filled the auditorium, notwithstanding the fact that the day had been a very busy one in town. Col. Stovall delivered one of the most eloquent literary discourses that has been heard here in some time. His address was well received and highly appreciated by all who heard it.

This morning the most of the faculty who live in other towns are departing for their homes. Prof. Mulloy, who goes to Tifton, will remain with us about one week more to close up his affairs here.

PUBLIC BUILDING BILL INTRODUCED.

Congressman Chas. G. Edwards introduced a bill in the lower house of the National Congress on yesterday providing for an appropriation of seventy-five thousand dollars for the erection of a post office building in the city of Statesboro. The building is to be located on the site already secured by Congressman Edwards, and located on South Main street.

Mr. Edwards states that he has strong faith in the success of the bill, and while it may not get through during the present extra session yet he has got it on the way, under consideration, and will be in a position to push it when the regular session opens in December.

The importance of Statesboro demands a good public building, and it is believed that when Mr. Edwards brings the matter properly before the Appropriation Committee, as he will do, we will be included in the next general appropriation bill for public building purposes.

It has long been Mr. Edwards' ambition to build this structure in Statesboro. He has been telling us about it and he will stick to it until he gets it, this means we are going to win when Charlie Edwards gets something behind a proposition you are for something to happen.

That was why.

Mexico's New President

Atlanta Journal.

The selection of Senor de la Barra as provisional president of Mexico augurs well for the security of that troubled republic.

There is perhaps no other man so thoroughly fitted to steer the government through its present critical period of transition.

Throughout the revolution he was Diaz's chief adviser. He is familiar with the details of the chief executive's office. For some weeks past, indeed, he has been virtually at the head of affairs. He knows, in logical consequence, the steps that must be taken to keep the government firmly on its feet until an election can be held.

At the same time de la Barra enjoys the confidence of the revolutionary party, and with the masses of the people he is sympathetically popular. He is respected for his gift as a statesman and trusted for his well proved integrity.

The provisional president thus serves as link between the old and the new order. It was the possibility that just this link might be lacking which gave rise to fears that Mexico might not weather its trying transitional season. These apprehensions, however, are greatly allayed both by the self-restraint which the people have thus far shown, following the retirement of Diaz, and by the character of the man who is now at the head of the state.

Senor de la Barra is broadly schooled in matters of government and diplomacy. Though only forty-eight years old, he has played a continuous and important part in his country's development. For five years he was a member of the Mexican congress. He has represented his nation in a number of international conferences and also in Belgium and the Netherlands.

In 1909 he was sent as ambassador to Washington. There he was widely popular and did much to cement friendly relations between his own country and ours. His selection as provisional president will doubtless restore Mexico to peace and to international confidence.

NIAGARA LOOKS FOR NEW INVASION.

Army to Be Recruited. Dr. Julian Irias is Expected to Head Revolution.

Bluefields, Nicaragua, June 3. Three days after the explosion which wrecked the La Loma barracks overlooking the city of Managua in which many soldiers were killed, the natives are expecting an invasion under the leadership of Dr. Julian Irias, former delegate on the Atlantic coast side, of Madrid, and also from Costa Rica.

Warnings have been sent everywhere over the republic to recruit the army as rapidly as possible. The authorities are counting on the support of the Atlantic coast side of the country. The situation is under control and tranquility prevails.

Official advices from Managua indicate that the dynamiting of the barracks was done by former revolutionists.

Castro Not on S. S. Legasepi. San Domingo, Republic of Santo Domingo, June 3.—Investigation shows that ex-President Castro of Venezuela was not on board the steamer Legasepi when she left Puerto Plata for Cuba.

CROP IN GOOD CONDITION.

Moultrie, Ga., May 26.—Weather conditions have been ideal in this county for farm work, and as a result crops are the most promising ever seen in the southern part of the state. Oats are being gathered, and the yield in this county is the heaviest on record. Corn is in a most satisfactory condition, while cotton appears to be several weeks ahead of last year's crop.

BEACON SHOES

\$3.00 and \$3.50

Beacon Shoes contain more real shoe-quality for the price than any other shoes on top of earth. By "shoe-quality" we mean Fit, Style, Wear and Comfort. Beacon Shoes are made over a last modeled after a perfect human foot—this gives them Fit and Comfort.

They are Union Made by the famous Goodyear Welt process—this gives them Style and Wear.

It would be hard for Skill, Leather and Machinery to produce a more graceful, practical or serviceable shoe than the Beacon, no matter how many extra dollars were added to its price.

If you think it worth while to wear better, more satisfactory shoes, and save a good round sum on every pair, come to Our Store and look at a pair of Beacon Shoes. You will be convinced, even before you try them on.

AGRI. SCHOOL ELECTS FACULTY

Sentiments of Board Expressed in Resolution.

Annual Meeting Board of Trustees Held in Savannah Yesterday. Work of Past Year Reviewed.

The regular annual meeting of the Board of Trustees of the First District Agricultural School was held at the office of the chairman, Hon. J. Randolph Anderson, at Savannah yesterday.

It was the most enthusiastic meeting of the board ever held since the establishment of the school. A general note of joy prevailed among the trustees. Then it was the best attended meeting ever held. Ten out of twelve of the trustees were present, the other two being prevented by sickness. All felt good over the outlook for the school under the administration of President Dickens.

The heavy debt has been about paid off, much money spent on improvements, and the enrollment last term ran up to the high mark of 181. Prof. Dickens reported strong probability of 200 or more boarders next term.

To care for the increase the president was instructed to employ two and possibly three more teachers for his faculty. Another evidence of satisfaction was in the fact the entire faculty was re-elected for the new school year.

New Buildings.

The trustees provided for the erection of a large dining hall with living rooms on second story to cost some \$4,000. Work has already begun. Prof. Rowan, our mechanical professor, has drawn the plans and will superintend the construction, which will be done largely by students who are remaining for the summer. A new shop will also be built and possibly some cottages.

The Thanks of the Board.

One of the events of the meeting was the voluntary and enthusiastic expression of the trustees in so many words in a resolution. The resolution shows how highly satisfactory the good work of Prof. Dickens and his faculty is to the board. These men recognize the strong hold he has upon the people of the district, and felt that an official expression was merited.

The Resolution.

The resolutions as adopted are as follows: Whereas, it is a pleasing fact, known all over the first congressional district and over the whole state, that under the administration of Professor E. G. J. Dickens, president of the First District Agricultural School, the said school has in the short period of nineteen months of his labor at its head, passed from the smallest to the largest of the eleven district agricultural schools of the state, having reached the splendid enrollment of one hundred and eighty-one for the term just closed; and whereas, he has so managed its affairs as to bring it from under heavy indebtedness and at the same time spent several thousand dollars in improvements, and yet today practically out of debt; and whereas, we, the trustees of said school recognize the strong place Professor Dickens and his accomplished wife holds in the

hearts of the large student body and the faculty as well as the district; and whereas, we now recognize the fact that the school under his management is solving the purpose for which it was established, and more, that we must enlarge to accommodate the hundreds of students who want to attend the school, and whereas, this board fully appreciates the great work and ability of every member of the faculty and the farm superintendents, therefore, be it resolved

His Hard Work.

1. That the thanks of this board of trustees are formally extended to President and Mrs. Dickens for their untiring work and labor of love for the school, for his business judgment and ability, for his methods of economy, by which he has so successfully made such a fine showing in dollars and cents.

2. That we recognize the beautiful Christian character of Professor Dickens, which itself has lifted the moral dignity of the institution to a very high plane and sent out such a loyal student body who will reflect great and continuing credit upon the school.

3. That this board of trustees reaffirms strongest co-operation and support to Professor Dickens in his work with the school.

4. That this board expresses its sincere appreciation of the entire faculty for their ability and faithful work for the school, for the staunch and unspotted character of each member of our faculty.

5. That our thanks are hereby extended to the many citizens of the district who have so loyally patronized the school.

6. That we especially record our gratitude to the good people of Statesboro and Bulloch county for the generous support given Professor Dickens, his faculty and the school, especially for the manner in which they provided for the great and successful dinner given at our commencement.

Adopted by the Board of Trustees at its annual meeting June 5, at Savannah, and ordered made a part of our records, and further ordered that a copy of this resolution be furnished Professor Dickens and each member of his faculty, and to the press of this district for publication.

VALDOSTA JURY INDIOTS ROAD FOR VIOLATION.

THE ANTI-SALOON LEAGUE ACTIVE.

Anticipating a fight from the
whiskey forces, the members of
the Georgia Anti-Saloon League
are making themselves heard all
over Georgia, and the begin-
ning of a very warm fight seems
to be in sight.

It is understood that the whis-
key people are fairly well sat-
isfied with conditions in Georgia.
They are operating the open sa-
loon in practically all the cities
they did business in prior to the
passage of the state wide prohibi-
tion law in 1907. They are
doing an immense jug trade busi-
ness out of Savannah, Augusta,
Macon and other wholesale cen-
ters, and more than that they are
shipping a lot of home chemical
mixed stuff that never was in
a hundred miles of a distillery,
cheap, poisonous stuff, sold at a
big price to people in the rural
districts. Therefore the saloon
interest has nothing to grumble
about over present conditions.

But the prohibitionists are far
from being satisfied. We have it
straight from reliable sources
that a campaign will be waged to
repeal the present near beer li-
cense. More than that, it is pro-
posed to amend the present state
wide prohibition law with a pro-
vision that means a change of
venue in the trial of liquor cases
from communities that are so no-
toriously soaked with liquor sen-
timent that a jury cannot be had
that will convict in the face of
absolute proof of guilt. In other
words the offenders are to be
brought back to Georgia soil for
trial. Those counties that have
openly and wantonly ignored a
state statute not being termed as
"Georgia soil."

A great army of temperance
people, both men and women,
will through the legislative halls,
and the tiger will be bruised in
his lair.

The public generally without re-
gard to whether they believe in
the law or not, want it enforced.
There are exceptions to this,
however, in the communities
where its sale is licensed in the
very throats of the law itself.

The people of the state want a
change. They either want the
law amended so that it can be
forced without question, whether
it is violated in a community
where it is not recognized or
whether it is in counties where
jurymen will observe the oath
they take as binding when re-
ferred to liquor cases along with
all other violations of the state's
laws.

If it could be amended in the
manner named, so that there
would be assured a verdict in ac-
cordance with the evidence show-
ing the guilt of the violator, we
would then have an enforcement
of the same; then people would
have an opportunity to see
whether prohibition was good or
not, in which case the law would
remain permanently on the books.
Otherwise the law is unsatisfac-
tory and will be changed in some
manner.

It seems that the program to
have that "all paved automobile
highway from Savannah to Au-
gusta through Screven and Ef-
ingham counties" is having a
rather rough experience. The
grand jury of Screven county
have recommended that the en-
tire road forces be put to work on
this automobile road. The coun-
ty commissioners passed an order

to that effect. Now that was
smooth sailing and let the Savan-
nah Morning News to almost say
it was already done; in fact they
made the head lines read that
way but the body of the article
stated that it was to be only "a
near" proposition, not just yet
but soon.

But these fellows had not reck-
oned with that large body of
"hay seeds" lying back in the
rural sections of Screven county
who have a way of expressing
themselves in a manner that calls
down the house, as it were, and
they have learned that there are
about as many stumps in the
proposition to put all the road
forces on the automobile route
for a term of years as Harvey
Granger met on the Charlotte
Endurance Run.

The commissioners are begin-
ning to show signs of tender feet,
and now it is said the scheme is
to be abandoned altogether.

That spring chicken served to
the autoists didn't have a very
exhilarating effect on the com-
mon "hay seed" who is making
himself felt about this time.

But when we look back over
the proud boast of the "all the
way paved route for automobili-
sts through Screven to Augus-
ta," and see how far we are away
from it we are almost moved to
tears.

Of the South, Gov. Wilson with
enthusiasm commented that the
only trouble with the South was
in keeping pace with it, owing
to its rapid advancement.

From his observations in the
West he said he believed both
Democrats and Republicans held
party ties lightly. There was a
trend in both strongly toward
progressivism, he thought, and
a demand for direct legislation as
a means of getting the govern-
ment back into the people's
hands.

WILSON PRAISES SOUTH'S ADVANCE

Governor at Washington, Com-
mends Democratic Action on
Wool Tariff.

Washington, D. C., June 3.—
On his way home from an ex-
tended trip through the West
and South, Gov. Woodrow Wil-
son of New Jersey arrived here
tonight from Columbia, S. C., to
remain here until tomorrow af-
ternoon, when he will go in to
Trenton. The Governor had sev-
eral callers tonight and it is prob-
able there will be some important
conferences tomorrow with Dem-
ocratic statesmen. He commended
the action of the Democratic
councils on the wool schedule and
said it was a step in the right
direction.

From his observations in the
West he said he believed both
Democrats and Republicans held
party ties lightly. There was a
trend in both strongly toward
progressivism, he thought, and
a demand for direct legislation as
a means of getting the govern-
ment back into the people's
hands.

Of the South, Gov. Wilson with
enthusiasm commented that the
only trouble with the South was
in keeping pace with it, owing
to its rapid advancement.

DIES ON HOUR HE FORETOLD.

Trenton, N. J., May 28.—Just
as he predicted more than a
month ago, Frank Lufar, of
Lambertville, Pa., died on Thurs-
day at noon at Francis Hospital,
in this city. The case is one of
the most remarkable that has
come to the notice of local medi-
cal practitioners.

Lufar was in perfect health,
apparently, when he solemnly
told his relatives that at noon
on May 25 he would breathe his
last. They only laughed at him.
Then he was taken ill with some
minor trouble and went to the
hospital. His ailment was slight,
but his prediction had been
made known to the doctors and
nurses, and Lufar's case was
watched with much interest. He
reiterated time and again that
at noon on May 25 he would die.

May 25 arrived and Lufar was
seemingly in good condition. At
11:30 o'clock he was talking
with the attendants apparently in
the best of spirits. They were
watching him with the greatest
care at this time. At 11:45 he
began to grow pale and weak,
and at 12 o'clock the man breath-
ed his last. Death was due to
acute dilation of the heart, an en-
tirely different ailment than the
one from which the patient was
suffering when admitted to the
institution.

FLEES FROM NATIVE LAND

Once Powerful Mexicans Slip Away to Foreign Shores as Mexico's Army Nears Capital—8,000 Men Close to Mexico City—Gen. Diaz Reaches Havana—Gen. Reyes Will Go to Capitol This Week.

San Antonio, Tex., June 3.—Jose Yves Limantour, former Minister of Finance of Mexico, and Guillermo de Landy y Escandon, former governor of the federal district of Mexico, passed through here this afternoon en route to St. Louis. Thence they will go to New York and Canada, probably leaving for Europe some time in the fall.

Neither of the refugees was averse to discussing conditions in Mexico. While disclaiming they are exiles, they let it be understood that at the present it was best that they leave Mexico. Both admitted the situation in Mexico now was uncertain, but they hoped to see matters right themselves and the elections conducted in a manner to insure continued peace.

"Mexico has just as great a future as ever," said former Minister Limantour, ex-Gov. Landy concurring in the statement.

Ex-Gov. Landy said the conditions in the federal district were peaceful. He said former President Diaz and his family would return to the republic.

Madero's Army Near Capital.

Mexico City, June 6.—Under the command of M. Asunzolo, 8,000 men of the "Army of Liberation" are expected to arrive at the outskirts of the capital tomorrow. Ostensibly they are being brought here from Cuernavaca for the purpose of assisting the federalists in maintaining order upon the arrival of Francisco I. Madero, Jr., but if they had not this excuse, doubtless another would be found, for the troops in the South are determined to have a part of the festivities attended upon the coming of the ex-chief of the rebels.

This determination to bring them to the city was reached this afternoon after a conference between Alfredo Robles Dominguez, the military head of the revolutionary forces in the South, and President de la Barga. Word was sent to Asunzolo and at 10 o'clock the march to the capital was begun. They should arrive tomorrow. Instead of entering the capital immediately they will be quartered in Tlalpam and other outlying suburbs. The forces being moved are said to number 5,000 cavalry and 3,000 foot soldiers.

Limantour Off to France. Gen. Bernardo Reyes will not arrive in Mexico City until Thursday, not wishing to enter the capital until after Francisco I. Madero, Jr., who is due Wednesday. Reyes is due at Vera Cruz Monday. It is expected he will go at once to Orizaba and there spend the intervening three days.

This morning Rodolfo Reyes, son of the general accepted the post of sub-secretary of justice. The departure of Jose Yves Limantour, ex-Minister of Finance, appears to have been modeled after that of Gen. Diaz. He slipped away quietly Thursday night and the fact of his going became known here only today. He boarded his private car at Atzacapotzaco, a suburb. Accompanying him were his family and the former Governor of the federal district, Guillermo de Landy y Escandon, who also was accompanied by his family. Their final destination is France.

SMITH-OLLIFF.

This morning at seven-thirty o'clock at the home of the parents of the bride, Mr. and Mrs. E. L. Smith, on South Main street, Miss Myrtle Smith and Mr. Charles T. Olliff were united in marriage. Rev. L. A. McLaurin officiating. Only a few intimate friends of the contracting parties were present at the marriage. The happy young couple left on the eight o'clock train for Asheville, N. C., where they will spend their honeymoon.

Both of the contracting parties have a large number of friends in this city and county, the bride is one of Statesboro's most charming young women, pretty and accomplished. The bridegroom is one of Statesboro's enterprising young business men. They will make Statesboro their future home.

LIGHTNING PLAYS FRANKS AT BROOKLET.

On Sunday night, during the storm that passed over Brooklet, lightning struck the store of Mr. R. H. Warnock, demolishing the roof and running through the store, scorching some furniture and doing some other small damage. The roof is being repaired. Fortunately there was no one in the store at the time the building was struck.

Wins Fight for Life.

It was a long and bloody battle for life that was waged by James B. Mershon, of Newark, N. J., of which he writes: "I had lost much blood from lung hemorrhages, and was very weak and run down. For eight months I was unable to work. Death seemed close on my heels, when I began, three weeks ago, to use Dr. King's New Discovery. But it has helped me greatly. It is doing all that you claim." For weak, sore lungs, obstinate coughs, stubborn colds, hoarseness, the gripe, asthma, hay-fever or any throat or lung trouble it is supreme. 50c & \$1.00. Trial bottle free. Guaranteed by W. H. Ellis Co.

MASHERS ARE SENT TO THE WORKHOUSE.

New York, June 5.—A workhouse sentence was the unusual penalty for the male participants in four street corner flirtations, imposed in the night court here last evening. "I intend to do everything in my power to put a stop to women being insulted on New York streets," declared the presiding magistrate.

F. S. Rexford, 615 New York Life Bldg., Kansas City, Mo., says: "I had a severe attack of a cold which settled in my back and kidneys and I was in great pain from my trouble. A friend recommended Foley Kidney Pills and I used two bottles of them and they have done me a world of good." W. H. Ellis Co.

This evening, anchoring off the customs house. The Ypiranga was quickly surrounded by a great fleet of tugs, launches and harbor boats bearing throngs of prominent Cubans and representatives of foreign countries, desirous of paying their respects to the distinguished visitor. Gen. Diaz, his wife and the members of his party were grouped on the captain's bridge as the ship entered, exchanging salutations with those on the flotilla.

The former president seemed to be in excellent health. He decided not to land in Havana.

TOOK CARBOLIC ACID FOR PAREGORIC DOSE.

Birmingham, Ala., June 5.—Rev. N. R. Schramm, a Baptist minister, is dead as a result of mistaking carbolio acid for paregoric. He preached at Corey, the model industrial town, last night and returned to his home at Wyham, nearby, not feeling well. He went to the pantry to get some paregoric and instead got hold of the carbolio acid bottle and took a big dose. Physicians were sent for and despite efforts to save him, the aged minister succumbed early this morning.

LUMBER YARDS SWEEP BY ELBERTON FLAMES.

Elberton, Ga., June 5.—The plant of the Elberton Planing Mills, together with carloads of rough and dressed lumber, was destroyed by fire Saturday. The fire was discovered about 1:30 o'clock and burned furiously for two hours. Good work of the fire department confined the fire to the planing mill building, an old wooden structure, the lumber yards and kilns and the plant of the Sunny South Granite Works.

SOON WILL CHOOSE NEW ATLANTA-SAV. ROUTE.

Round the State Tour Gets Many Converts.

Atlanta, Ga., June 3.—R. M. Martin, secretary of the Dublin Chamber of Commerce, H. G. Stevens, Sam Bashinski and Judge C. W. Brantley, members of the Dublin committee, left here this morning by the route along the Central of Georgia for Macon and Dublin.

Chairman Frank G. Corker of the Dublin committee will remain here for a day or two. Secretary Martin says the Savannah-Atlanta route will be selected definitely in two weeks.

It may be predicted confidently however that it will go by the Central of Georgia to Macon through Jeffersonville, Dublin, Adrian, Swansboro and Statesboro.

Chairman Corker and all the members of the committee are enthusiastic over the proposal of a round-the-state tour in which the participants shall reach Savannah for the big races in November.

The Dublin committee says it will push the project for all it is worth.

PLOWING THE FIFTY-THIRD YEAR.

Editor Statesboro News: I will say to the agricultural boys that I am not in the race to try to beat them farming, but am doing my own plowing. Fifty-three years ago my father made me plow, and he made five bushels of corn to the acre, and laid by in August. I have twenty acres in my farm this year, and this is the forty-third crop I have made for myself. I laid by one little patch of corn the twenty-fourth of May. I have twelve acres that is now tasseling. I am now ready to lay it by. Last year I sold one hundred bushels of corn at my crib door for one hundred dollars cash. This year my intention is to get an average profit of fifty dollars per acre on my little farm, and if I get plenty of rain my prospect is good. I am sixty-three years old the 28th of next August. There are nine of us in the family to support. I am selling corn now, and will be able to spare fifty dollars worth of bacon and lard. I am real feeble to plow, but I like it. Go ahead, boys, we have a noble county.

WANTS CHANGE TO COM. GOVERNMENT

Atlanta, May 31.—The agitation for commission government for Atlanta is reaching a point where there is a prospect of results.

Atlanta talked about the commission form of government more than a year ago, and then dropped it like a hot brick just about the time the legislative session began.

A few months ago a well-known local dry goods firm began to use heavily of its advertising space in the city dailies in advocating a commission government for Atlanta. The firm spent thousands of dollars in printing editorials on this subject, in big advertising type, and without referring to anything it had for sale. It was a kind of advertising new to Atlanta, and it attracted attention not only here but in other sections of the country.

Now two of the Atlanta daily newspapers have come out editorially for a commission government, and it is believed the other will follow shortly, giving the proposal the backing of a united press.

There is considerable sentiment in Atlanta against it among some of the most prominent citizens, but there does not appear to be any question that, if put to a vote, it would carry overwhelmingly.

Or course there is a certain political element which has more or less power, that doesn't want it, and that element holds its own in the City Council through which a proposed charter amendment providing for any new form of government would have to pass before submitted to the Legislature.

But it is probable a demand will be forthcoming in a few days that the question be submitted to the people, and it is not apparent how the politicians can get around so easily. And if the people vote for it, it will have to go before the Legislature enactment.

WARNING TO RAILROAD MEN.

E. S. Bacon, 11 East St., Bath, Me., sends out this warning to railroaders: "A conductor on the railroad, my work caused a chronic inflammation of the kidneys, and I was miserable and all played out. A friend advised Foley Kidney Pills and from the day I commenced taking them, I began to regain my strength. The inflammation cleared and I am far better than I have been for twenty years. The weakness and dizzy spells are a thing of the past and I highly recommend Foley Kidney Pills." At W. H. Ellis Co's.

"Are you busy these days?" asked the doctor. "Busy!" exclaimed the undertaker. "I'm simply rushed to death."—Philadelphia Record.

MRS. MCGILL BROKE DOWN

Gives the Real Facts in Regard to Her Case and Tells How She Suffered.

Jonesboro, Ark.—"I suffered a complete break down in health, some time ago," writes Mrs. A. McGill, from this place. "It was very weak and could not do any work. I tried different remedies, but they did me no good. One day, I got a bottle of Cardui. It did me so much good, I was surprised, and took some more."

Before I took Cardui, I had headache and backache, and sometimes I would cry for hours. Now I am over all that, and can do all kinds of housework. I think it is the greatest medicine on earth."

In the past fifty years, thousands of ladies have written, like Mrs. McGill, to tell of the benefit received from Cardui.

Such testimony, from earnest women, surely indicates the great value of this tonic remedy, for disease peculiar to women. Are you a sufferer? Yes? Cardui is the medicine you need. We urge you to try it.

PAROON SYSTEM URGED BY GOV.

In order to give the state of Georgia some efficient method to examine the cases of prisoners petitioning for pardon and so that the prison commission may be relieved of the work in digging up the records, Governor Joseph M. Brown, so it is understood, will in his farewell message to the state legislature recommend the creation of the office of pardon official.

The pardon official may take the title of assistant attorney or any other title that may be deemed proper, and his duties will consist solely of examining all cases for pardon or commutation brought to the notice of the state and to bringing to the attention of the proper officials the cases which in his estimation are worthy of consideration.

In other words, the duties of the pardon official will be those now exercised by the prison commission, and will remove from the commission a function never quite properly placed.

The volume of business has become so great in the office of the prison commission that for this body to devote its time to examining applications for pardon and commutation to any extent degrades the efficiency of the organization.

Governor Brown has always held that any case for pardon or commutation should come to the state executive only after it had been thoroughly investigated, and he believes that the office of pardon official will be exactly what is needed to secure results in this direction.

Saved Child From Death.

"After our child had suffered from severe bronchial troubles for a year," wrote G. T. Richardson, of Richardson's Mills, Ala., "we feared it had consumption. It had a bad cough all the time. We tried many remedies without avail, and doctor's medicine seemed as useless. Finally we tried Dr. King's New Discovery, and are pleased to say that one bottle effected a complete cure, and our child is again strong and healthy." For coughs, colds, hoarseness, lagrippe, asthma, croup and sore lungs, its most infallible remedy that's made. Price 50c and \$1.00. Trial bottle free. Guaranteed by W. H. Ellis Co.

IN MEMORIAM

To Little Lesley Rushing.

Died at the home of his grandfather, the late Mr. John B. Rushing, 11 miles south of Statesboro, Ga., Bulloch county, May 16, 1911, Little William Lesley Rushing, aged 10 years, 11 months and 7 days.

The deceased was the oldest and only son of Mr. F. Norman Rushing and Mrs. Pinky DeLoach Rushing. They had recently moved to the late Mr. John Rushing's to care for his aged mother and little sister, who had just been bereaved of a loving husband and father.

Little Lesley was a ray of sunshine in the home, and there is a place made vacant that will long be left in the hearts of those that linger, and carried even down to the grave by loved ones who will so much miss him whom God saw fit in His infinite love to call to that eternal rest, there to sing praise and glorify His great and holy name forever.

He was in bed for 36 days with typhoid fever. Though his loving mother and dear little sister had recently recovered from very severe attacks of the same disease, he had seemed to realize from the time he was taken that death and eternal rest was his portion.

He constantly asked for the Bible to be read, and requested the prayers of his dear, loving mother. It was not only while confined to his death bed that he was a lover of the good things of the Bible, but before he could read but little he delighted in listening to the reading of the Word of God, and so attentive was he that at intervals he would ask for explanations. A good portion of his time was spent at his grandfather DeLoach's, where from a walking babe, he had delighted in staying. Of late years when there, when grandpa would enter the house the little fellow would be off in a moment and come back with grandpa's spectacles and Bible, and request that he read some for him. His last visit from home was to Grandfather DeLoach's only a few days before he took his bed. At that time he had grandpa to read in Genesis, first chapter, the creation of heaven and earth, etc.

On the day before his death he requested his mother to read for him where the widow's son was raised from the dead by Elijah, found in 1st Kings, 17th chapter, beginning at the 17th verse, also where Elijah and Elisha were parted asunder by the chariot and horses of fire, and Elijah went up into heaven by a whirlwind, found in 2nd Kings, 2nd chapter, from 1st to 12th verse. He did not seem to suffer but very little, when questioned as to how he was feeling, the response invariably came back: "I feel all right."

He expressed much love for his dear mother, frequently saying: "Mamma, I love you so much and want to live here with you and papa and little sister." He would talk of all his people and friends and want to see them, expressing love and gratitude for them all.

On the afternoon of his death it seemed as though he was doing very well, and his loving mother had sought rest on a bed in the sick room, and asked that she be shown something that would give her increased hope of his recovery, but instead she saw him climbing a fiddle ladder, and when he had ascended almost to the top, he called back and said: "I will soon be in heaven, and then I will sing and play forever."

He was cared for untiringly by his dear parents, assisted by friends, and for the last two weeks assisted by Miss Carrie Johnson, a train-d nurse, who gained much of his love and affection. All that was in human power was wrought, yet medical skill is as naught when the De-

Savior beckons come to that eternal shore.

His last words on earth were: "Mamma, I love you so much. Send for the doctor and let him tell you that I am going." And his little voice was stilled, but for two hours or more he lay with a beaming smile upon his face.

The physician came and administered, but there was a Most High Physician abiding near, and in just a few moments, at the quiet and calm hour of 8:45 p. m., with a smile upon his lips, his spirit passed peacefully over the river of death, into that great beyond, where all is love.

He leaves to mourn his loss, besides many, many dear kindred whose heart was wrapped in love for him whom God saw fit to call; also a grateful father, to call; also a grateful father, and a very dear little sister.

But why should we weep when we feel that he has breathed his life out sweetly in Jesus, and death is but a drowsy.

So live that when thy summons come to join
The innumerable caravan which moves
To that mysterious realm where each shall take
His chamber in the silent halls of death.

Thou go not like the quarry slave at night,
Scourged to his dungeon, but, sustained and soothed
By an unfaltering trust approach thy grave
Like one that wraps the drapery of his couch

About him and lies down to sleep.
The soul that lies down to sleep,
Sleeth in peace, to rise no more.

He answered at the angel's call,
With a smile upon his face,
And a look of love that fingers yet,
That time cannot displace.
A heart that lived in love—
When God summoned his soul
To the realms of joy above.
Consign him to rest within the tomb,
Such lives should leave no trace of gloom.

Let nature guard his peaceful sleep,
And stars on high their vigils keep.
We feel the essence of his breath,
The urn may crumble, the flower be dead,
But character his luster will shed.

Sleep on dear son, to us you are
Life
Like a brilliant crown.
Resplendent as the heavenly stars.

That nighty twinkle down,
Your memory will be ever dear,
And we will think of you
As one who gave life
To all that's good and pure and true.

Some may think we'll soon forget thee
And our wounded hearts be healed;
But they little know the sorrow
That is within our hearts concealed.

Forget thee? O, when life shall cease
To thrill this heart of mine;
And not till then shall I forget
One look or tone of thine.

CONVENTION DATE TO NAME PRESIDENT.

Madero Said to Be Certain of Nomination by Party—Vice President Is Not Yet Decided On.

Mexico City, June 9.—Within 15 days a general convention of delegates from all parts of the country representing the political party which has emanated from the revolution will be called here to nominate candidates for president and vice president president to the elections to be held October 8, next.

Juan Sanchez, Arizona, private secretary to Francisco I. Madero, announced today that he probably would resign that position within the next few days to direct arrangements for the convention and manage the political campaign that will follow. He declared that unquestionably Madero would be nominated for the presidency, but he was uncertain as to who would be the choice for vice president.

Dr. Francisco Vasquez Gomez, at present minister of public instruction, was Madero's running mate in the elections last June, out of which the revolutionary struggle grew, and so far it generally has been taken for granted that he again would be the candidate.

On the other hand supporters of Senator Terrell assert with much confidence that the senator has a majority in the legislature and are confident that he will be elected to fill out the term which he was appointed to fill by Governor Brown following the death of Senator Clay.

Senator Terrell is now in Washington, but it is stated that he will arrive in Atlanta within the next few days and will open headquarters at the Kimball house and will have personal charge of his campaign before the legislature.

S. G. McLendon, former chairman of the railroad commission, is also in the race for the senate, and is conducting an active campaign in the interest of his candidacy.

While Senator Terrell and Mr. McLendon are the only announced candidates for the senatorship, various other names have been mentioned in this connection, but none have as yet announced for

place. It is understood they are awaiting developments and it is further understood that in so far as a few of the probable candidates are concerned their announcement for the senatorship is contingent upon a positive announcement from Gov. Smith that he would not be a candidate for the position and would not accept it should it be offered him.

Since the governor-elect has made no such announcement, the political prospects of a number of prospective candidates for the senate remain considerably muddled up.

Battle Royal for Governor.
Should it develop that Governor Smith's friends are correct in their poll of the legislature and should he be elected to the senate and resign the office of governor there promises to be a battle royal for the job which his resignation will make vacant.

In anticipation of such a contingency there are already a number of prospective candidates feeling the pulse of the people and there will probably be a half-dozen in the race should there arise a vacancy in the gubernatorial office.

It is practically a foregone conclusion that Thomas G. Hudson, commissioner of agriculture, will be a candidate and his friends are already asserting with much positiveness that he will be elected.

Judge Richard B. Russell, of the court of appeals, is also conceded to be a candidate should the opportunity arise.

Dr. L. G. Hardman, of Jackson county, is also said to have under consideration the question of entering the race.

It has been reported that Governor Brown would also be a candidate for the office should there be a vacancy and some of his friends have informed him that they intend to put him in the race whether he wishes to run or not.

John M. Slater, of Fulton county, president of the senate, is also a prospective candidate should the occasion arise for an election to fill the governor's office. If Governor Smith is elected to the senate, Slater, by virtue of his office as president of the senate, to which he will undoubtedly be elected, would assume the office and would be required by law to call an election within 60 days to fill the vacancy.

But whatever aspect the senatorial situation may assume, as the time for the legislative session approaches, it is a very live question and is the topic of conversation where two or more politicians are gathered together.

SMITH LISTENING FOR SENATE CALL

Governor Elect in a Receptive Mood, So Say His Friends.

Reported He Has Told Some Supporters He Would Be Willing to Take Senate Place. Battle Royal for Governor Should He Be Elected.

(Atlanta Constitution.)
When the legislature, which convenes on June 28, begins itself with the election of a United States senator to fill the unexpired term of the late Senator Clay, which is now filled by appointment by Senator Joseph M. Terrell, Governor-elect Hoke Smith will be in a receptive attitude, according to statements made by his governor's friends and which appear to bear the label of authenticity.

For quite a while the belief has prevailed in most sections of the state that Governor Smith, while possibly not avowedly a candidate for the United States senate, would nevertheless accept that position if it was conferred upon him by the legislature.

Has Decided to Accept.
According to statements made Saturday by friends of the governor-elect, who claim to be in close touch with the situation, Governor Smith is confident that he can be elected to the senate by a good majority, and having reached that conclusion, has also decided to accept, and it is stated that he has said as much to some of those with whom he has discussed the question.

Governor Smith has made no public statement of his views or his intentions and has declined to discuss the senatorial situation when approached by representatives of the newspapers.

From every section of the state, however, reports come in that the general understanding is that the governor-elect is in the race for the senate; that he believes he can be elected; that he will accept the place if it is offered him and that his supporters in the legislature are marshaling their forces to elect him if they can.

Governor Smith believes he has a majority in both houses of the legislature," said a well-known supporter of the governor Saturday, "and he is convinced that he can be elected to the United States senate. And if he is elected he will serve."

Say Terrell Has Majority.
On the other hand supporters of Senator Terrell assert with much confidence that the senator has a majority in the legislature and are confident that he will be elected to fill out the term which he was appointed to fill by Governor Brown following the death of Senator Clay.

Senator Terrell is now in Washington, but it is stated that he will arrive in Atlanta within the next few days and will open headquarters at the Kimball house and will have personal charge of his campaign before the legislature.
