JUDGE RUSSELL AT REIDSVILLE

Gets Cordial Reception, Declares Strongly in Favor of Local Option.

Reidsville, Ga., Sept. 4.—Judge Richard B. Russell, candidate for Governor, spoke to a fair sized crowd here today during the noon recess of the City Court.

In all of its essential details Judge Russell's speech was the same that he delivered at Lyons. He declared in favor of local option, and answered many questions which were asked him from the audience.

The speaker said he strongly favors the construction of a state road to the sea. He declared for better public highways throughout the state generally, for extended and improved public school facilities and for free text books in all elementary branches of education.

Judge Russell was accorded a cordial reception. He has many warm personal friends in Tattnall county who will give him their hearty support. The prohibitionists in this section naturally did not approve of all of the features of the speaker's platform, but he has caused to be pleased with his day's campaigning in Tattnall county.

The meeting was held in the court house. Col. A. S. Way presided over the gathering and the Hon. H. H. Elders introduced Judge Russell. The City Court was adjourned out of courtesy to the speaker who came here to address the voters on the issue of the campaign.

Judge Russell said: "I think that the present prohibition law is a failure. There was as much or more liquor shipped to Georgia in the year 1910 as there was before prohibition went into effect. If I were going to pass a prohibition law I wouldn't let the few people of the city buy all the liquor they wanted and pay for it either cash or time, and make the poor man do without it. The poor man has as much right to buy good liquor as the man paying a hundred dollars a year to belong to a locker club."

"It is not a just law and certainly is not a prohibition law when a man can go to the locker club and buy any kind of whiskey he wants."

"He says that he has a right to know as he has received notification that he is an honorary member of six locker clubs; he is in favor of local option, that it should be left to each county as to whether they should have whiskey, and that he is in favor of laws being passed that make the place of delivery of liquors the place of sale. He believes that the question should be put before the people."

Seemed to Give Him a New Stomach.

"I suffered intensely after eating and no medicine or treatment I tried seemed to do any good," writes H. M. Young, Editor of The Sun, Laake View, Ohio. "The first few doses of Chamberlain's Stomach and Liver Tablets gave me surprising relief and the second bottle seemed to give me a new stomach and perfectly good health." For sale by all dealers.

1910-T1 CROP BRINGS A BILLION

It Was the Most Valuable Crop Ever Raised in America. Average Price Was 14.00 Cents Shown by Hester's Report. The 1910-11 Crop Was 12,120,095 Bales, He Says.

New Orleans, Sept. 5.—"No American cotton crop ever grown has sold for as much as the one just marketed, the total value, including the seed, having been \$1,030,000,000."

This remarkable statement is contained in the detailed statistics of last season's cotton crop issued today by Col. Henry G. Hester, secretary of the New Orleans Cotton Exchange.

With 1,700,000 bales less than contained in the bumper crop of 1908-09, the crop just marketed netted the South \$254,000,000 more. The 13,511,000 bale crop of 1906-07 brought \$222,000,000 less than the past season's crop.

As a whole the crop averaged within a shade of strict middling, and the farmer was paid an average of 14.60 cents per pound, or \$75.60 per bale.

Secretary Hester puts the crop of 1910-11 at 12,120,095 bales, an increase over that of 1909-10 of 1,510,427 and a decrease under that of 1908-09 of 1,705,692.

The increase in Texas over last year was, in round figures, 582,000 bales in the group of "other Gulf states" embracing Louisiana, Mississippi, Arkansas, Tennessee, Missouri, Oklahoma, Utah, Kansas, Arizona, California and New Mexico it was 704,000, and in the group of Atlantic states, including North Carolina, South Carolina, Georgia, Florida, Alabama, Kentucky and Virginia, 224,000.

Report by States.

Mr. Hester's report of the crop by the different states is given as follows, in thousands of bales:

Alabama, 1,207, against 1,078 last year.
Florida, 68, against 66 last year.
Georgia, 1,853, against 1,927 last year.
Louisiana, 273, against 282 last year.
Oklahoma, 924, against 569 last year.
Mississippi, 1,329, against 1,121 last year.
North Carolina, 794, against 676 last year.
South Carolina, 1,231, against 1,184 last year.
Tennessee, 424, against 316 last year.
Texas, 3,269, against 2,676 last year.

Total crop bales, 12,120, against 10,610 last year.
The consumption of American cotton of all kind he puts at 4,678,000 bales, against 4,665,000 last year.

He puts the world's consumption of American cotton at 12,034,000 bales, an increase over the year before of 1,123,000 bales.

In the South Mr. Hester makes the consumption 22,313 over last year, and 196,237 under the year before last.

Attack Like Tigers.

In fighting to keep the blood pure the white corpuses attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see the plump, bloated, red, salt, phlegm and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and expel poisons from the blood. "They are the best blood purifier," writes C. T. Budahn, of Troy, Calif. "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them. 50c. at W. H. Ellis Co.

MORE MONEY FOR ALTAMAH BRIDGE

Will Cost Thirty Thousand. J. L. Highsmith, Advocate of Bridge, Is Coming to Savannah.

(Savannah News.)

J. L. Highsmith, of Baxley, who has taken a leading part in the move to build a bridge across the Altamaha river, near that place, notified Chairman F. C. Battey of the Road Committee of the Savannah Automobile Club yesterday that he will come to Savannah Wednesday with a contractor who is ready to build the bridge.

It is Mr. Highsmith's idea to create further interest in the bridge here and to secure further subscriptions to the stock to be issued to those who subscribe for the undertaking. Already \$1,200 has been subscribed here but the subscriptions have not yet tallied up to what must be had in order to build the bridge and the effort now is to get more money pledged by Savannahians.

Atlanta has subscribed \$5,000, according to Mr. Highsmith, and it is believed that Savannah should do even more than Atlanta because the interests of this city in the bridge are so much greater than those of Atlanta. The statement of Mr. Highsmith is that the bridge can be built for about \$30,000, and that considerable other subscriptions will have to be made before this amount is reached.

Mr. Battey will meet Mr. Highsmith and the contractor when they arrive Wednesday and show them around or arrange to have this done by someone else. It is Mr. Battey's idea that the people of Savannah should respond very liberally to the move, as the building of the bridge will remove a great barrier to Savannah's progress which has always existed and which cannot be overcome except by the bridging of the Altamaha.

Mr. Battey thinks the responses to the appeal for subscriptions to the stock in the bridge should be generous. Mr. Battey believes that the bridge would in time become a paying proposition, but is rather inclined to the belief that the counties between which the bridge is to be built will take it off the hands of the stockholders within a comparatively short time.

SMITH TAKES UP W. & A. PROBLEM.

To Settle Rates Dispute, Lessees to Be Given Hearing Soon by Governor.

Atlanta, Sept. 1.—Gov. Hoke Smith has now under advisement the matter of annulling the lease of the Western & Atlantic Railroad as now held by the Nashville, Chattanooga & St. Louis. He and the attorney general have been going over the matter carefully.

The lease states that the road shall charge rates per ton mile for through freight no higher than those fixed by the state Railroad Commission for local business. The Governor is given authority to nullify the lease, if its terms are violated.

The complaint against the state road was made by the Atlanta freight bureau, alleging that the road was using a combination of Georgia and Southern classification. The complaint which was made when Gov. Brown was in office, was found to be well founded, but no action was taken at that time.

It is reported that Gov. Smith will call upon his lessees to show evidence why the state should not charge local classification for the entire trip from Georgia to Chattanooga. It is probable that a day will be set for a hearing before the Governor in the near future.

DEATH CLAIMS ROGER Q. MILLS.

Statesman and Soldier. He Formerly Represented Texas in U. S. Senate.

Corsicana, Tex., Sept. 2.—Former United States Senator Roger Q. Mills, of Texas, a leader in state and national Democratic politics for many years, best known perhaps as the author of the Mills bill, died at his home here today, aged 79.

He was a noted Confederate soldier and one of the best known statesmen in Texas, although born in Kentucky.

He entered the war as lieutenant colonel of the Tenth Texas infantry, later succeeding to the command of that regiment. At Arkansas Post in January, 1863, he distinguished himself by withstanding for weeks a superior force of Union troops.

His congressional career began in 1872 as representative-at-large from Texas, followed by four terms as congressman from the old Fourth district. He was elected United States Senator in 1892, serving until 1899, when he resigned.

Thirty Years Together.

Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guesswork in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and it's the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it forty years. It's the most infallible throat and lung medicine on earth. Unequaled for lagrippe, asthma, hay-fever, croup, quins, sore lungs. Price 50c. \$1.00. Mortgage Foreclosure on Land State of Georgia, Bulloch County.

In the Superior Court, April Term, 1911.

A. A. Daughtry, Mortgagee.

vs.

C. M. Anderson, Jr., Mortgagor.

It being represented to the Court by the petition of A. A. Daughtry that by Deed of Mortgage, dated the 19th day of November, 1908 C. M. Anderson, Jr. conveyed to the said A. A. Daughtry a certain lot of land, lying in West Statesboro, said county and state, bounded north 120 feet by Denmark street, east by land of J. E. Brannen, south by land of Tom Tisby, and west by land of Charlie Alderman, containing one-half acre, more or less—wherein mortgage was recorded on page 501 of Book No. 20, in the Clerk's office of said county; for the purpose of securing the payment of a promissory note made by the said C. M. Anderson, Jr., to the said A. A. Daughtry, on November 19, 1908, for the sum of four hundred and twenty dollars and no cents, with interest thereon at 8 per cent. per annum and 10 per cent. attorney's fees, which promissory note is now due and unpaid, or show cause, if any he has to the contrary, or that in default thereof foreclosure be granted to the said A. A. Daughtry, holder of said mortgage, and the equity of redemption of the said C. M. Anderson, Jr., therein be forever barred, and that service of this rule be perfected on said C. M. Anderson, Jr., according to law.

This 25th day of April, 1911.

14 CENTS ASKED FOR COTTON

Farmers' Union Votes to Hold for This Price. Fifteen Cents After October. Little of the Proceedings Is Made Public.

TO FIGHT SPECULATION.

They Propose to Get Behind the Scott Anti-Gambling Bill to Prohibit the Use of Mails or Interstate Commerce for Furthering Contracts When There's No Intent to Deliver.

Shawnee, Okla., Sept. 6.—This year's cotton crop will be sold for fourteen cents during September and October, 15 cents thereafter. This was the agreement reached tonight by the cotton growers of the South attending the National Farmers' Union here.

Little of the proceedings of the union was made public today, although aside from the price the farmers ask for their cotton, good roads, parcels post and dabbles in cotton futures will be discussed by the convention.

Members of the union say parcels post will be favored by the farmers and that the delegates will organize for the Scott anti-gambling bill, prohibiting the use of mails or interstate commerce for the furthering of contracts for the delivery of cotton, where there is no intent to make actual delivery.

The report of the livestock commission urges diversified farming and stock raising and tains the statement that "one million additional milk cows and an equal number of mother sows properly distributed through the South would easily add \$10 per bale to the price of the cotton crop."

The congressional immigration committee recommends increasing the tax head excluding illiterate adults from America and the fixing of foreign steamers for bringing to this country undesirable that could be rejected on the other side.

WORK BE RESUMED ON S. A. & N. RAILROAD.

W. J. Oliver of Knoxville and Frederick C. Stevens of New York So Announced Yesterday.

(August Chronicle.)

Plans were made public here yesterday by W. J. Oliver, of Knoxville, well known, under the country for large "red-takings as a contractor, and F. C. Stevens, of New York, best known as former superintendent of public works of N. Y. state, of the proposed resumption of construction work on the Savannah, Augusta and Northern Railroad, by which it will be extended to Savannah on the south as its port and to some point beyond Knoxville in the West or Middle West or a terminus in that part of the country.

Mr. Oliver and Mr. Stevens accompanied by W. A. Seymour and T. A. Wright, arrived in Augusta yesterday morning and spent the day here in conference, part of the time with several prominent business and professional men, more or less interested in the construction of the new railroad. Mr. Seymour is the personal representative of Mr. Oliver as an engineer, and Mr. Wright is his legal counsel.

Mr. Stevens is the millionaire who backed Mr. Oliver financially in his effort to secure the \$5,000,000 contract on the Panama canal and who will probably furnish or secure the finances for the present railroad project. Mr. Stevens said yesterday when asked if he represented his own interests or other large interests,

said that he represented both his own and the interests of others. He is a man of large affairs as well as of large wealth.

In discussing the plan for the development of the property, Mr. Stevens said that the line from Statesboro to Stevens' Crossing, now in operation will be extended to Savannah by one of three arrangements, that is by building its own line, or making truckage arrangements with the Statesboro and Savannah railroad, or by building a connecting link to the Brinson Railroad and using its tracks into Savannah.

Northward from Stevens' Crossing the road is graded to Louisville, but this may be changed so as to include Midville in which case some of the work will have to be regraded, and the construction of this distance will be completed and put into operation. The engineering firm of J. G. White & Co., has been engaged to make the necessary surveys from Louisville to Norwood, 40 miles northward on the Louisville and Nashville Railroad. The surveys will then be extended toward Knoxville and will locate the line to touch either Elberton, where a connection will be made with the Seaboard Air Line and also with the Southern Railway toward the north, or it may be run to Athens where it will also cross the Seaboard. From whichever point is decided upon, the surveys will be carried on to Knoxville, where the connection will be made with the Knoxville, Sevier and Eastern road.

Mr. Stevens is impressed with the agricultural and other possibilities of the country through which the proposed railroad will pass and says they will build a road that will serve all varieties of interests along the route. When asked if he had any other developments pending in the South, he said he was connected with a tropical company that was thinking of making Savannah a port of inlet for its products.

FLOOD IS DEVASTATING THE CHINESE EMPIRE.

Loss of Life Runs Into Thousands It Is Estimated. Property Loss Is Heavy. Cotton and Rice Crop in Valley of the Yangtze-Kiang Obliterated.

Pekin, China, Sept. 5.—The great flood which is devastating a part of the Chinese empire extends from Ichang, in the province of Hupeh, to Shanghai, on the coast, a distance of about 700 miles. The banks of the Yangtze-Kiang have been obliterated, except in the highlands and around the walled cities and towns. So far the loss of life can only be estimated to be believed thousands of persons have been drowned. Farmhouses and brush have been submerged throughout the valley, or are floating on the river. The loss to the rice crop is extensive. Foreign property has been seriously affected and the cotton and rice crops in the Yangtze-Kiang valley have been completely destroyed. The consequent famine will doubtless be more severe even than of last year. The Liaohing, in Manchuria, also is flooded. Many have been drowned and a serious famine in that section is certain.

GOV. SMITH'S OPPORTUNITY.

Gov. Senator Hoke Smith now has an opportunity of showing the people of the state one good reason for his having remained in the governor's office instead of going on to Washington as he was expected to have done when he was elected to fill the place made vacant by the death of Senator Clay.

That opportunity lies in the enforcement of the contract between the lessees of the State Road and the state of Georgia. It is reported that the governor now has that case under consideration.

The Railroad Commission brought this matter to the attention of ex-Gov. Brown more than a year before his retirement from the governor's office. They reported to him that the N. C. & St. L. Ry., lessees of the Western & Atlantic, were not living up to their contract with the state and asked him to compel the lessees to comply with their contract, even if the extreme penalty was necessary, that of annulling the lease, which the contract calls for.

The failure of the lessees to carry out their contract lies in the fact that they agreed in the lease to haul interstate freight to points along the line of the state road between Atlanta and Chattanooga at the same rates as that fixed for intrastate shipments, this they have refused to do. The remedy for that, as set out in the contract, is the annulment of the lease. This Gov. Brown refused to do, and sent it back to the Railroad Commission who had no power to enforce its terms under the contract, that being left with the governor.

If Governor Smith will call the lessees with a strong tone of voice with that old familiar style of his own, dealing with them "perfectly fair but very firm," in our opinion these lessees will crawl up on their forepaws to him, they will call him governor and senator both in the same breath. And last of all they will hasten to comply with the terms of their contract.

If Governor Smith will do this he will have performed a service to his state and for his people that will justify any delay he has made in going to Washington. It may be that he will do it, he now has the matter under consideration, and we hope to hear something drop soon.

IMPORTANCE OF THE ALTA MAHA BRIDGE.

It begins to look like the people behind the movement to construct a steel bridge across the waters of the great Altamaha river mean business. They are going out raising money. Atlanta is reported to have headed the list with five thousand dollars and Savannah will do as much. Popular subscriptions are coming in from all sections of the state and the building of the bridge now seems to be a certainty.

What has made it possible to carry through this gigantic undertaking is the fact that the Altamaha is the great barrier to the round-state automobile course. A bulk of the funds come from people interested in this matter. For years past there has been a crying demand for the spanning of this stream, and as the country builds and develops this need is more urgent, and now that the dream of all the years is blossoming into a realization, is cause for an offering of thanks on the part of our people.

THE FARMER CAN FIX THE PRICE.

The recent rise in the cotton market goes to show that when the spinners see the producers of the fleecy staple are in dead earnest they will come across.

A meeting of the National Farmers' Union at Shawnee, Okla., this week resolved that the present crop should be held for 13 and 14 cents until November, then 15 cents should be the minimum. The spinner knows when the farmer gets on his fighting clothes and really means business.

There is no reason on earth that the present crop should be sold below 13 cents. The crop will not be a large one and the demand for cotton is annually increasing. The mills have bought only as they were compelled to buy and they have got to have the raw product.

They have sold this crop ahead to be manufactured into cotton goods for the world's consumption. There is no use dodging the question, there is a demand for every pound of American cotton at thirteen and fourteen cents.

The world's naked millions have got to be clothed, and now the farmer is beginning to look a little after his own affairs, it raises the price.

The governors of six cotton producing states are calling on their people to HOLD, the Commissioners of Agriculture of fourteen cotton producing states call upon them to stand pat. The Farmers' Union, bonded together in all the states where cotton is being produced, educated as they are through their organization, say all the planter has to do is to stand square and the fight is whipped.

Now it is up to the individual planter to come across and co-operate with all these forces and November 1st will see fifteen cents cotton.

The South has a monopoly on the cotton producing business but hasn't sense enough to take advantage of it. If a few Down East Yankees had half such a monopoly as these Southern cotton planters have they would have all been millionaires long ago.

The floods and storms have brought down the crop yield, and the crop is not going to be a large one, and the thing to do is to sit steady in the boat. Don't crowd your product upon the market and glut it to the extent that the price will be hammered. Sell only as you have to sell and you will get more for it.

THE SLOT MACHINE SHOWS ITS HEAD AGAIN.

Attention is called to a communication in this issue contributed by one of our subscribers, calling for help from the slot machine evil.

When this communication was brought to the office we were told that it had been delayed by reason of the fact that the News had been expected to raise this cry. This is not the first complaint that has come to our ears, a number of fathers have said, "the machine is ruining my boy, it is taking every nickel he can rake and scrape, and learning him the first lessons as a gambler."

Just what sort of a gambling contraption this is we are not in a position to know, not having seen it, but judging from the complaints, it is one of the hundreds that are constructed on the same scale.

The Statesboro News has not undertaken the job to run all the nuisances out of town. If we did we would have our hands full and maybe have to high ball ourselves. While we have made it hot for some things akin to this particular nuisance in the past, and were successful in ridding town of them at the time, yet we recognize the fact that there are lots of folks here who get red-headed with us every time we touch these evils. They hunger and thirst after them like a child would a suck bottle.

In this great country of ours where there are avenues open for all lines of legitimate trades and occupations it is a wonder that any citizen would want to conduct a business that he knows is dragging his neighbor's boy down to ruin, but there are lots of them who do it, it all keeps a half hundred of them out of town is they are afraid of the Grand Jury taking a hand in the game, and that means go down in your jeans or go to the pen. Neither proposition brings a very comfortable feeling.

We would suggest that instead of rushing into print, that our slot machine-ridden fathers first take "young America" to one side and rub the back sides of his trousers with a good application of hickory oil, the same as our forefathers used, and then take the other

IS MEXICO CAPABLE OF POPULAR GOVERNMENT?

The disgraceful occurrence in the streets of the City of Mexico enacted last Sunday, when one of the candidates for the presidency of the Republic attempted to address his fellow citizens leads us to wonder if those hot, headed devils down there are capable of governing themselves anyway. A people who are not willing for both sides of a question to be given a fair hearing with an open and free discussion are not yet prepared to take care of themselves. A country that cannot protect itself against such lawless mobs as that which stoned Gen. Reyes last Sunday ought to have some strong hand like Great Britain or America to give them a few slaps and keep them under subjection.

Then again a candidate for the Presidency who goes out campaigning on Sunday, making political speeches is about on a level with the dirty devils that stoned him while he was making the attempt. A country whose national sport is looking at one bull gore another to death is hardly expected to behave themselves well even at a political gathering on the Sabbath day.

The Mexican people, like their cousins in Spain, may divide on all other questions, but there is just one question they are all united upon and that is hating the American people.

STATE FAIR NOTES.

The Georgia State Fair has closed contract with Moultrie Concert Band to furnish music for the coming state fair. Macon is one of the cities in Georgia that believes in patronizing Georgia concerns and industries as far as possible, and for this reason, and also because of the fine reputation obtained by the Moultrie band it was selected above fifteen or twenty other musical organizations, some of which were out of the state. The directors believe they have obtained the best band in the South, and think themselves very fortunate in securing it.

During the Georgia State Fair in Macon this fall the Georgia Swine Breeders Association will hold its annual meeting and at the same will give a fine show at the fair grounds. More than 500 fine swine will be shown by the different live stock raisers of the state who belong to this organization, and it promises to be one of the real attractions of the fair.

Secretary Harry Roberts of the Georgia State Fair, has returned from an Eastern trip during which he visited many of the big amusement places of the East and secured a number of fine attractions for the fair. He believes that the fair will have the best midway this year in its history, and is also arranging for a large number of high class free acts.

The Chattanooga Manufacturers' Association has arranged to send its big forty car-load exhibit to the state fair, and will send at least 100 leading manufacturers on a three days' visit to Macon at the same time. This exhibit represents investments of more than \$200,000.00 and will be one of the big features. The importance of the Georgia state fair is eloquently attested to when a big exhibit like this is shipped from a sister state. An entire building has been given over to it.

The Georgia State Fair is fortunate in securing the permission of the United States government to bring cattle across the quarantine line and then re-ship them back to other states in the event that they are not sold. This will give the fair an opportunity to bring many fine exhibits of live stock from the Middle Western states this year, something that has been impossible in the past.

Application for Charter.

STATE OF GEORGIA—Bulloch County.

To the Superior Court of said County:

The petition of W. T. Womack, Mallie Denmark, B. L. Hendrix, B. T. Mallard, A. L. Smith and T. C. Pennington, all of said state and county respectfully sheweth:

1. That they desire for themselves and such other persons as may be associated with them, to be incorporated under the corporate name and style of **Farmers Drug Company.**

2. That the principal office of said company will be at Portal, Bulloch county, Georgia, but they desire the right to do business elsewhere within and without the state, at pleasure.

3. That the objects of said corporation are pecuniary gain and profit to its stock holders, and the particular business it proposes to carry on and the corporate powers here sought are: To conduct a general business, wholesale or retail, or both, in chemicals, drugs, medicines, tobacco, optical and surgical instruments, toilet articles, fancy goods, stationery, and other articles of general merchandise of any and all kinds whatsoever; buy and sell personally any and every kind and description: To manufacture and to sell chemicals, drugs, medicines, and any other articles whatsoever; to act as a general or special agent for the sale and distribution of such articles and things heretofore enumerated; To conduct, publish and sell periodicals; To conduct and operate soda fount and ice cream parlors, and to manufacture and sell all articles and things as are usually sold therein, and generally to do and perform all acts necessary and proper for the carrying on, furtherance and maintenance of said business in all of its branches, so as to produce gain and profit to its stockholders.

4. Petitioners desire the right to sue and be sued, to plead and be impleaded, to have and use a common seal, to make all necessary by-laws and regulations, and to do all things that may be necessary for the successful carrying on of said business, including the right to buy, hold, and sell real estate suitable to the purposes of the corporation, and to execute notes and bonds of incorporation.

5. That the petitioners pray to be incorporated under the Name and Style aforesaid, with powers, privileges and immunities allowed by law. And petitioners will ever pray.

TIFFIN FAIR HAS BRIGHT PROSPECT.

As the time for the opening of the South Georgia Land and Agricultural Exposition draws near reports from various South Georgia counties indicate much interest in its success.

The railroads have arranged to advertise the exposition as they have never advertised any public occurrence in South Georgia before, and they will make arrangements to carry enormous crowds. Reports from agents located at points in North Georgia, North and South Carolina and Tennessee and other states indicate that the attendance from these sections will be very heavy. Thousands of people will take advantage of the excursion rates to come to the exposition and invest in lands. The land owners and real estate men who wish to meet the interested home seekers from other states will have the best opportunity ever presented.

No county can probably present its lands to the interested and intending purchaser without a representation of its products at the exposition.

Tifton people are making arrangements to entertain everyone who desires accommodations and the public is assured that there will be no over-charges; all rates will be normal.

As the work progresses at the exposition and the buildings near completion they show an attractiveness that will win the compliments of the people.

ALL FOR

SEABOARD TRAIN SERVICE AS HAGEN SEES IT.

The following editorial comment is clipped from yesterday's issue of the Savannah Morning News. Mr. Godbee, voices the sentiment of the great majority of the people of this section in the effort to get better passenger service on the Seaboard Air Line:

(Tattnah News.)

Seaboard Train Service as Hagen Sees It.

In the effort for the improvement of the wretched train service between here and Columbus—a service for which the Seaboard Air Line is responsible—we are getting a glimpse of what business men in the territory outside of Savannah affected by this service think of it. Yesterday we published a statement from a Hagen banker. Hagen is a town only fifty miles from Savannah, and yet, according to Mr. Godbee, cashier of the bank of that town, it takes 39 hours to get from Savannah an answer to a letter—so long as it does to get from Atlanta an answer to a letter.

Does the Seaboard Air Line think it is doing justice to Savannah when it provides a train service that permits towns within 50 miles of her to communicate by mail with Atlanta, nearly 300 miles away, as quickly as with her? Can it pretend that it is giving Savannah an adequate train service under such circumstances? And if it admits that it isn't giving Savannah a square deal what reasonable excuse has it? We are sure it doesn't claim that Savannah hasn't been kind to it. It can point to no instance when Savannah hasn't been ready to do all in her power to further its interests. What possible reason then can it have for this handicap of Savannah's business, this miserable train service which withholds from Savannah business men the facilities for doing business in the territory so closely tributary to her. It looks almost as if there were a settled purpose to keep Savannah's business men out of that territory. It certainly isn't trying to aid them in doing business in it.

And that territory is growing and developing and developing all the time. Mr. Godbee, speaking for the hundreds of business men—business men who are as anxious to get in closer mail touch with Savannah as Savannah business men are to get in closer mail touch with it, says:

"I have watched with deep personal interest the fight that you gentlemen are making for better train service between Savannah and Columbus.

The inadequacy of the present service is more keenly felt each season. The growth of business in this section has increased rapidly in the last four or five years, following the cutting of the timber and thus opening up thousands of acres of land to the farmers and the natural sequence of banking, merchandising and manufacturing."

Yes, that territory has been growing, and is growing and developing, but has the mail service between it and Savannah been improved? What has the Seaboard Air Line done to help the people of that territory to get in closer touch with the chief port of the state—the city in which the products of that territory are marketed? Has it done anything? Does it propose to do anything? And yet it pretends to be a live, up-to-date, progressive railway system.

Doesn't it believe that it would be more profitable to it to have the reputation of being such a railway system than that of a system that doesn't seem to know that the country, particularly the South, is moving, developing and growing? Wouldn't it pay the

Seaboard Air Line better to assist in developing the country by giving it an adequate mail service than by withholding such a service on the plea that there is no money in it? We believe that all progressive business men would answer in the affirmative. We are certain that the business men of the territory in question and of Savannah would.

LONG CHASE IS OVER.

And Youths Must Be Tried for Death of Savannah Negro. Boggs and Worley Arrive in Atlanta in Care of Officers Who Trained Them—Got Worley in Detroit.

Atlanta, Ga., Sept. 2.—After a chase lasting weeks and trailing two youths to Savannah, Augusta, Birmingham, Decatur, Cincinnati and Detroit, Deputy Sheriff Meldrum, of Savannah, and Detective Thomas Hewitt, of Augusta, ran down and arrested Henry Boggs, alias Jones, and Johnnie Worley, alias "Gold Tooth," believed to be slayers of Albert Turner, the wealthy Savannah negro, found dead early in August near Savannah.

It was learned that these two young men hired Turner to take them out from Savannah in an automobile. The negro had sold some property that day and the youths thought he had \$500 on his person. However, the money was left at home with Turner's wife. The boys are said to have slain the negro and thrown his body in an old well, then drove the car to Oliver, where they sold it for \$100. The two officers trailed them all over the country, Wednesday Boggs was arrested in Decatur and Worley in Detroit. The officers left Atlanta to-night with the suspects in charge. It is said the case is very strong against them and there seems no doubt of their conviction. The slain negro was worth several thousand dollars and was prominent in Savannah. Boggs and Worley live in Decatur, Ala.

SUGAR IS STILL SOARING.

Raw Sugar Market in New York Excited. Prices Advance Twenty Points. Biggest Gains That Have Been Made in Years.

New York, Sept. 5.—The raw sugar market was very strong and excited today and prices scored an advance of twenty points, one of the largest individual advances made in years, and at the same time new records were established, both here and abroad. Sales of centrifugals were made on the basis of 556 against 536, the closing quotation of last week.

Very little sugar was offered at these figures and some offers were made at ten points above. The strength was due to reiteration of bad crop news, indicating very small crops both here and abroad.

Refiners in the independent field marked up refined quotations from 10 to 15 points per hundred pounds or 645 to 650 for standard granulated.

LIQUOR REVENUES SHOW \$12,000,000 INCREASE.

Louisville, Sept. 5.—In his address before the annual meeting of the National Federation of Storekeepers and Gangers which convened here this morning, Commissioner of Internal Revenue Royal E. BROWN WILL TELL WHERE HE STANDS

Announcement Is Expected From Former Governor Soon. Decision of Gov. Smith to File Resignation by Oct. 15, Effective in 30 Days, Will Make the Campaign Livelier.

Atlanta, Ga., Sept. 4.—The seeming positive assurance that Governor Hoke Smith will file his resignation before the 15th of October, as predicted a week or two ago, has so clarified the political outlook that it is not improbable that Governor Joseph M. Brown will make known his intentions regarding the coming campaign within the next two or three weeks.

It is stated that Governor Smith's resignation will be so drawn that it will not take effect until November 15. The filing of the same however, will enable the state executive committee to make plans for holding the primary to elect the new governor, and it is probable that the same will occur before the Christmas holidays.

Brown's Friends Confident.

Former Gov. Brown has not yet stated that he will be a candidate, but his friends feel certain that he will be. He has done nothing in the way of promoting his boom but has been so showered with appeals and demands that it is not believed he will find his way clear to stay out of the race.

While he may make his intentions known earlier, it is not believed that he will undertake any active campaign until there is a vacancy, or, at least, the positive sight of one.

The former governor has been loth to enter the contest, but his friends say that in view of the fact that the bulk of the adherents of the "Brown side," as well as hundreds from the other side, implore him to run that he cannot refuse with good grace to do so.

He continues to receive large numbers of appeals to run and pledges of support if he does run. Knowing men in nearly every county in Georgia have assured him that he has a clear majority of the voters in their localities.

Letter From Columbus.

A citizen of Columbus writes him:

"There are a lot of former Smith supporters in this section and over the state who state that they are for Joe Brown against the field."

A very prominent clergyman in another city has written the former governor as follows:

"I learn this morning, but not officially, that you have decided to run for governor. Nothing would please me better than to be assured that this report is true. I have been over the state some and find that there is a strong sentiment in your favor. The general opinion is that you will receive an overwhelming majority. Your old friends are loyal to the core, and hosts of others are now strong for you. No one can tell what the future may develop, but everything looks Brown to me. I assure you of my hearty support."

A prominent lawyer of Oconee county writes:

"Nothing could induce me to overstate or overestimate your strength here, for I feel I would wrong you if I did so, and I desire you to know that I feel this way about it; so, in perfect candor and sincere friendship, I desire to say that I never saw a man so strong in this county as you now are. It would be utterly useless for any other candidate to try to carry this county. The change has been the greatest I have ever seen. It would be incredible if I did not see and hear it every day. I have no doubt that you can carry two-thirds of the votes in this county by a simple announcement of your candidacy."

It is probable that the writer of the above knows 99 per cent of the voters of Oconee county personally.

From Colquitt County.

From Colquitt county comes the "I and all your former friends and supporters here in Colquitt county will be delighted to see you enter the race for governor again."

"Should you run, my county will cheerfully give you a greater majority than she rolled up for you last year, which majority then numbered 412."

A business man of Brechen Harlan county, has the following to say:

"The present political situation and candidates in the field are not

at all satisfactory to the people of Georgia. I firmly believe you are stronger than you ever were. I assure you of my support."

Such letters have been piling in on the former governor for nearly two months. He has been so busy with his private affairs that he has had little time for political matters, and has done nothing more than answer the communications.

However, he may give the matter determining attention in the next week or two.

Notice of Election to Determine Question of Issue of School Bonds.

GEORGIA—Bulloch County.

To the qualified voters of Brooklet, Georgia:

Pursuant to the call of the mayor and council, notice is hereby given that an election will be held in the town of Brooklet, at the usual place of holding municipal elections, on the 3rd day of October, 1911, between 9 a. m. and 4 p. m., sun time, to determine the question whether bonds shall be issued by said town of Brooklet, in the amount of seven thousand dollars (\$7,000.00), in denominations of \$350.00 each, to become due and payable in five quadrannual installments of \$1,400.00 each, to bear date of December 1st, 1911, and to bear interest at six per cent per annum, payable annually, such bonds to be issued and sold for the purpose of purchasing and paying for the site and the new school building thereon now erected in said town and for completing the erection of the said building and for equipping same for school or educational purposes; the revenue necessary to pay the interest on the said bonds and to pay the principal thereof to be raised by the assessment, levy and collection of an annual ad valorem tax on all the property, real and personal, in said town, the amount to be thus raised annually by taxation being such amount as will be sufficient to pay the annual interest and provide the sum of \$350.00 for a sinking fund to be used in the payment of the principal installment due and payable at the end of each quadrannual year.

Of the aforesaid principal debt, \$1,400.00 shall be paid on December 1st of each of the following years: 1916, 1920, 1924, 1928.

and 1932, so that the entire debt, principal and interest, shall be fully paid on or by December 1st, 1932.

The clerk of said town will open the registration book of said town thirty days before the date of said election, which he will keep open at the Bank of Brooklet each day except Sundays and legal holidays until five days before the election, when said book will be closed.

In said election, every voter favoring the issue of said bonds will cast a ballot bearing the words "FOR BONDS," and every voter opposing the issue of said bonds will cast a ballot bearing the words "AGAINST BONDS."

This the 31st day of August, 1911.

ANOTHER NUISANCE FOR STATESBORO.

Editor News:

The good citizens, fathers and mothers of Statesboro, are again pestered by these young boys and their little baby boys. They take their hard earned money and feed it into another damnable slot machine and cultivate the desire to get something for nothing. It seems as though there is no end to these machines, it just simply pulls them there in crowds. I again ask the good people of Statesboro if they intend to sit idle and let such examples and temptations be put before the young boys while they are young and are easy to be led astray. Now is the time to train them as you want them to go, so that they will be a credit to you, and not a disgraceful gambler, as they will be if such is allowed to be run in town. I haven't a boy, but I feel that it is my duty to call the attention of those that have them, before it is everlastingly too late. Let's everybody that has boys and those that haven't any, that feel an interest in the up-growing generation, get together and see if there can't be some remedy for such nuisances as this slot machine that we have in our midst.

CITY SCHOOL OPENS WITH FINE ENROLLMENT.

On Wednesday morning when Prof. Wright and the other members of the faculty opened the fall term of the Statesboro Institute they met the largest number of pupils who ever enrolled as students on the first day of the Statesboro public schools.

There were somewhere in the neighborhood of three hundred and fifty certificates issued and several more to be issued later.

Revs. McLaurin, Eden and Denis assisted in the opening exercises by reading passages from the Bible and leading in prayer.

They were followed by Messrs. McCroan and Booth of the Board of Trustees. Prof. Wright delivered a short but fine address setting out the plans under which the school would be run during the term which was then open.

After this Hon. Rafe Simmons who was present, arose and delivered one of his characteristic addresses. Mr. Simmons made a good speech and was liberally applauded by the large crowd of patrons and pupils.

The school is now well under way and all the places in the faculty are filled. This bids fair to be the most successful fall in the history of the school.

WILD CAT FOUND IN FOWL HOUSE.

Mr. Wiley Waters, living on Mr. N. M. Fluke's place, about 2 miles from Brooklet, was awakened by his chickens making a terrible noise. He went out with his gun to the scene and at once discovered a large cat. He shot it and his aim was good. The varment was as large as a good sized dog. Mr. Fluke and others knew of the cat being around in the vicinity, as very often young pigs would be missing.

BROOKLET HIGH SCHOOL OPENS.

The fall term of the Brooklet high school opened on Wednesday. There was a large crowd of patrons out to witness the opening exercises, and the enrollment is the largest in the history of the school. Revs. Carmichael and Richardson conducted the devotional services, while Prof. J. E. Brannon, County School Commissioner, and Prof. J. L. Newbern, principal of the school, delivered addresses.

Brooklet has a state-wide reputation as being a first class educational center, her people taking an active interest in the school. The handsome new school building is now in use for the first time.

TRUSTS WILL OWN FARMERS.

Says President Brooks, If Farmers Don't Co-Operate and Conserve Theirs.

Shawnee, Okla., Sept. 5.—That the farmers of America will be owned and controlled by trusts within the next thirty years if they do not co-operate and conserve their efforts was the warning issued today by President L. J. Brooks, of Tennessee in his response to the address of welcome at the opening session of the National Farmers' Union.

United States Senator Thomas P. Gore, who followed Brooks, took up the cudgel for cooperation and his speech was confined mostly to amplifying the statements of Brooks.

"You farmers will be buried deeper in misery than ever if you do not co-operate," declared the blind senator. "More attention must be given to business if you are to be successful."

Former State Senator Campbell Russell in his address of welcome on behalf of the Oklahoma Farmers' Union denied a statement recently made by the secretary of the State Bankers Association that the cotton crop of the state for 1911 will net the planters \$75,000,000. "Every intelligent farmer knows that this year's crop will do well to bring \$45,000,000," said Russell. "That is if the present prices are maintained."

Secretary A. G. Davis of the National Union, is receiving a number of letters and telegrams from farmers in the cotton belt urging the delegates to pass a resolution to hold cotton for 13 to 15 cents.

All of the remaining meetings will be executive. More than 300 delegates are in attendance. Every delegate represents 5,000 farmers.

A great number of telegrams from commercial clubs, newspapers, business men and bankers of cotton growing states were received today pledging support to any "holding plan" the national union may adopt. While nothing official has been given out regarding the price that farmers will be asked to place on their cotton, it is said the convention probably will agree on from 13 to 15c.

Reports from the upper section of the county and the lower section of Emanuel are to the effect that that section was visited by one of the heaviest rains ever known, one day during the week. Much damage was done to the crops.

BROTHER DROWNS RESCUING SISTER.

12 Year Old Willie Lee Swims to His Death at Life of Hope.

Savannah, Ga., Sept. 11.—Giving up his life to save his sister, Willie Lee, a 12-year-old boy, Sunday swam to his death in the Isle of Hope river, while the screams of his mother, who witnessed the tragedy from the shore attracted help that rescued the girl.

The girl, Ethel Lee, is 16 years old. She and her brother were bathing in the river in front of Major C. S. Hardee's place near the eastern end of the bluff, when the girl, getting out too far, stepped into the deeper water of the channel and went down. The boy, who was looked upon as an excellent swimmer, immediately went after her.

J. G. Hardee had just come in with a boat, accompanied by his son, J. G. Hardee, Jr., and Julian Baronsch Schley. They were walking up from the water when the mother's scream announced the danger to her children. J. G. Hardee ran out on the wharf, near the end of which the children were struggling in the water, and swam out after them. The girl was fighting desperately to keep her head above the water, and time and again was seen to push her little brother's head up, as he struggled to keep the head above water.

SPEAKER CHAMP CLARK VISITS HIS OLD HOME.

Louisiana, Mo., Sept. 11.—Speaker Champ Clark, of the house of representatives, is being entertained today by the home folks, all Pike county and the greater part of the population of the Ninth Missouri congressional district joining to make his homecoming from Washington an epoch in Missouri history.

It was here that Mr. Clark landed from a steamboat thirty-six years ago as a young attorney from Kentucky. Republicans as well as Democrats of the district were placed on the various committees for arrangements of the day's affair.

Two afloat, while a strong ebullient swept them down the river. As Mr. Hardee came near them both disappeared again, but a portion of a partly deflated "water wings" which the girl wore had floated to the top. Following this Mr. Hardee came to the point where a moment later the girl's head appeared. The girl had loosened her grip on the boy, and he had become separated from her.

Mr. Hardee swam with the girl to the shore and Julian Schley, wading out to him, took the girl to shore as Mr. Hardee plunged back for the boy.

But the brave little swimmer had disappeared, not to be seen again until three hours later, when his lifeless body was recovered.

30 AMERICANS IN CENTER OF RIOTS.

Fear Is Expressed for Safety of Missionaries. No Word for Three Days. Believed They Are Being Escorted to Safety by Chinese Troops. American Warships Cannot Reach Scene.

Peking, Sept. 9.—For three days no messages have been received from hundreds of foreigners gathered at Chung To province for safety from the mobs which have been running riot in the surrounding districts for some time past. The Chinese viceroy ordered the foreigners to leave the city and it is believed they are now making their way towards the Yang-Tse-Kiang, about 300 miles away, by boat or river, through a country where anti-foreign placards have been posted for many weeks.

It is understood the foreigners are under escort of the Chinese troops but it is considered questionable if these troops would oppose their own people should an attack be made on the foreigners. There are British gunboats on the Yang-Tse-Kiang, and the forces which extend from Ichang to Chung King. The American ships were ordered up river but were unable to proceed above Ichang many hundred miles from Chung King. The Americans among the refugees number 30.

With the exception of a representative of an American tobacco company, most are Baptist missionaries.

The flood situation in China is the most serious in years. From Hankow, come reports that the troops are driving the flood refugees from the cities. The English papers in Shanghai say: "We suppose that half the population of the Yang-Tse valley must be supported through the coming winter or starve. Probably this is the most appalling disaster in the history of China."

HARDMAN MAY RUN FOR GOVERNOR.

As a Prohibitionist, Commerce Statesman Says He Is Considering It.

Atlanta, Sept. 9.—Dr. L. G. Hardman, of Commerce, former member of the senate and several times a member of the house and one of the authors of the present state prohibition law, practically stated in an interview today that he will be in the race for governor.

"You may state that I have the question of entering the race for consideration," he said.

"My ideas are that Georgia needs, above all else, an efficient administration in which the interests of all classes of people and all industries, great and small, shall be protected.

"I would bend my best efforts to the improvement of the progress of agricultural affairs in way qualified for this work through the lifelong interest I have taken in agriculture. It will be recalled that I was the author of the first bill providing for the teaching of agriculture and civil government in the Georgia schools.

"If I enter the race it will be as a prohibitionist for I have always been identified with prohibition and am still its advocate. My connection with the prohibition bill is well known."

BEATTIE A GAY SINGER.

Richmond, Va., Sept. 10.—Between puffs of the perpetual cigarette, Henry Clay Beattie, Jr., who has been sentenced to pay the penalty of wife murder in the electric chair on November 24, tonight was the gayest of the gay field county jail. Hearing two of his guards singing in the court house yard, a short distance away, over her boys, and let me join in with you," Beattie's clear tenor rose high above the voices of his companions as the three sang, "Wait Till the Sun Shines, Nellie."

41,000 BALES IN SAVANNAH CARGOES.

Four British Steamers Loaded With South's Cotton Clear for Foreign Ports.

Savannah, Ga., Sept. 11.—With 41,000 bales of cotton, four steamships flying the British flag cleared Sunday. The valuable cargoes are for Liverpool, Bremen and Manchester.

The four vessels are: Dominion, for Liverpool, about 15,000 bales; Anglo Bolivian, Bremen, approximately, 6,000 bales; Anchor, Manchester, approximately, 10,000 bales.

The present season in the cotton business, beginning on September 1, has been remarkable for the way the crop has moved, for the fact that the crop is two weeks earlier than usual, and that the foreign exports are unusually heavy for this early.

It is said in shipping circles that the first half of this month will very nearly shatter all records for the unusually large amount of cotton which has been shipped. For the first ten days of the season the movement has been very free, and the great number of bales which leave Sunday will swell the total to a remarkable extent.

"LITTLE JOE" WILL BE SURE CANDIDATE.

Will Announce in Very Few Days, Is Inside Tip. Pressure Too Strong. Unbroken Stream of Letters Urging Him to Run.

Atlanta, Ga., Sept. 9.—It has been stated here today on what is regarded as the best authority that Joseph M. Brown will announce for governor within a few days. While he has not said so himself to newspaper men here, it can be accepted as a fact that he will declare that he is going to enter the race is so pronounced that he cannot decline it. He is receiving still, it is said, an unbroken stream of letters urging him to run. The most of these letters are, of course, from his old friends and former supporters, but many of them come from those who have opposed him in his former races. They urge that he has a good record as governor, and that he is the only governor they tell him that he will make a winning race.

Mr. Blank's Mistake

"I made a bad mistake today," said Blank to his wife. "I went to pay that subscription to the daily, which was \$5. I found out afterward that I handed the agent a \$10 bill and didn't notice it until he was gone—guess he didn't either. I suppose the fellow is honest and I'll get my money back, but it'll be some trouble." "I've been telling you," said his wife, "that you should deposit your money in the bank and then pay by check. Then you won't be making such mistakes and having so much trouble."

Was she right? She was. We invite one and all to open a checking account at our bank.
