Dear Ms. Durden,

I am sending this note along with several issues of the Voices Journal from the American Academy of Psychotherapists. I understand that you are looking to complete your collection for this journal, and I hope that the journals in this box will help you with that process. I am impressed with your efforts, as I believe that this journal is a worthy one, both for its historical offerings as well as its current ones.

Warmly,

Lori Oshrain
