U.S. HOSTAGE MAY BE FREED:

The Bush administration responded cautiously to an announcement by the pro-Iranian Islamic Jihad for the Liberation of Palestine that it might release one U.S. hostage from captivity in Lebanon. The statement said the hostage would carry a letter detailing what is expected of President Bush. The statement's call for concessions is counter to Bush's vow not to trade for hostages.

ELECTRIC CAR A GO AT GM:

General Motors Chairman Roger B. Smith said GM wants to be the first automaker to mass produce an electric vehicle that performs as well as current internal combustion engine vehicles. Smith said GM has completed its business plans for an electric vehicle and is working to complete production plans and marketing and service arrangements.

JUDGE APPOINTS EASTERN TRUSTEE:

U.S. Bankruptcy Judge Burton Lifland appointed on Wednesday a trustee to manage Eastern Airlines. Parent Texas Air Corp.'s Chairman Frank Lorenzo was fighting the move, which had been proposed by Eastern's unsecured creditors. Lifland appointed Martin Shugrue, former president of Continental Airlines as trustee. The decision climaxed a four-day hearing on the matter.

LIFLAND CRITICAL OF TEXAS AIR:

Several reasons were cited Wednesday by Judge Burton Lifland, for his decision to appoint a trustee to manage Eastern Airlines. Reasons: Continued and growing losses by the company. Lifland also criticized parent Texas Air's management for: not acting to protect creditors' interests, and hindering the airline's successful reorganization.

COLORADO DECIDES SMOKING ISSUE:

Colorado's Secretary of State Natalie Meyer is expected to decide Thursday whether anti-smoking activists have enough signatures for a ballot referendum to pay for a no-holds-barred advertising attack on smoking. Meyer, who awaits a judge's review of questions on the signature petitions, thinks other states are watching Colorado.

THERAPY INCREASES SURVIVAL:

Giving patients in advanced stages of colorectal cancer the right kind of therapy following surgery can increase their survival chances significantly. Experts say surgery alone is sufficient for patients in early stages of the disease. They say five-year survival with treatments rose to 70 percent, from 55 percent for colon cancer, and to 60 percent, from 45 percent for rectal cancer.

CHILD PORN BAN UPHELD:

The Supreme Court, in a 6-3 ruling, upheld an Ohio law prohibiting the possession of child pornography. The law, similar to statutes in 19 other states, bans the possession of material depicting nude children, also to producing or distributing it. Critics say the ruling chips away at privacy and could be abused to restrict everything from family photos to the Coppertone ad.

QUAKES RETURN TO BAY AREA:

Dozens of temblors measuring up to 5.5 on the Richter scale shook the Bay Area, terrifying residents recalling last October's deadly quakes. The latest temblors knocked out power and shook buildings, but no one was hurt. The quakes came exactly 84 years after the 1906 quake that destroyed most of San Francisco, and six months and a day after last fall's earthquake.

Battle of Bands results in tie for first

By KEVIN HUDSON
Staff Writer

The first annual Earth Day "Bands Battle for the Earth" contest, held by the Student Government Association (SGA), resulted in a tie for first place. **Gunpowder Plot** and **Greasy Peter** shared that honor, with **Love, Agnes** taking third.

The first place bands will each get a \$100 check, and the third place winner will receive \$50. In addition, each member of the winning bands was presented with a GSC Earth Day T-shirt, designed by Kerry Freeman.

The contest, which was held last Monday, also featured **Old Man's Beard** and **Someplace Else**. All of the participating bands were primarily made-up of GSC students.

Approximately 700 students attended parts of the free show that was held in the Williams Center Auditorium. The battle was originally scheduled to end around 11:00 p.m., but thanks to bands working together so well in changing the stage set-up between shows, it was

over just after 10:00. "There was a lot of unity among the bands," said Sean Schuur, SGA President. The show seemed to exemplify the theme of working together during Earth Week.

The Judges were Russell Dewey of the Psychology Department, and Dorsey Williams as a student judge.

Gunpowder Plot consists of Ben Andrews, vocals; Chris Chesser, guitar; Brad Jeffcoat, guitar; Josh Allen, bass; and Gene Odom, drums. They have been together three and a half years, and were the returning champions from the College Activities Board's previous battle of the bands. Gunpowder Plot featured such songs as *Blinded by the Light* and *Maelstrom*.

Greasy Peter used dry-ice steam and strobe lights to help their act stand out from the rest as they performed songs such as *Green Thumb* and *Too Fast*. Elmer Perdue, the band's lead singer, announced a name change for the band at Wednesday night's awards ceremony. The new name will be Placidyl Domingo. The other members of the nine-month-old band are

Gunpowder Plot performs at the Rockin' Eagle. (File Photo)

Mark Selvidge, guitar; Ryan Kelly, guitar; Christie Price, Bass; and Doug Nurnberger, drums.

Because Gunpowder Plot and Greasy Peter tied for first place, there was no second place award. The third place award which was won by Love, Agnes (formerly

Lambert, bass by Doug Gross, and drums by Stuart Lusk.

Old Man's Beard has played at GSC events for one and a half years. The band includes: James Daniel and Dennis Smith on guitars and vocals, Brian Buske on bass, and Kevin Duncan on drums.

After some initial Technical difficulties, Someplace Else received great audience response from their song *Landrum Blues* which explores the mysteries of GSC's Landrum cafeteria. David Hylton on vocals and guitar, Barry Buskirk on bass, and John Durrence on Drums make up this four-month old band.

According to Campus Police, there were no problems at the concert.

Sound Production was produced by Marty Sheridan Digital Sound Studios with assistance by Chris Chesser. In his closing comments, Schuur thanked WVGS radio station for the publicity it provided and for getting the bands together. Schuur commented that hopes the next Student Government will carry on the Earth Week Battle of the Bands as an annual event.

Pictured are the 17 delegates of the GSC Model U.N. team. The delegation placed in the top 25 of 168 teams

participating in the conference in New York City. (Special Photo)

GSC participates in Model U.N.

By Clint Rushing
Editor

NEW YORK - Dr. G. Lane Van Tassel, head of the GSC Political Science Department, and the 17 students who comprise the 1990 GSC Model United Nations Delegation traveled to New York City last week for the 1990 National Model United Nations Conference.

Representing the nation of Brazil, the delegates spent the week of April 9-15 in committee meetings and caucuses debating and giving speeches on economic, social, and political issues of the world from a Brazilian point of view.

Issues such as the role of women in society, nuclear non-proliferation, narcotic drug trafficking, occupied territories in the Middle East, and funding for United Nations peace keeping forces were among the many topics debated on in the respective committees.

The GSC delegation placed in the top 25 of the 168 colleges and universities which participated in the conference.

"Doing the U.N. is a chance to experience the philosophy of other

nations; it's a chance to observe how nations with opposing views on political and social issues interact with one another in a neutral atmosphere," said the team's head delegate Glenn Fletcher.

The main activity in which model U.N. participants partake are simulations of actual United Nations committee meetings. Delegates must be skilled in speech writing, public speaking, and probably most importantly, cooperating with other delegates.

The GSC delegates spent six months researching Brazil inside and out. Over the past two quarters the class invited several faculty members familiar with the country to visit and share their experiences of their travels to Brazil. "Aside from the classroom lectures and discussions, we spent a lot of time going through United Nations documents at the University of Georgia," said Scott Hickman, a senior delegate majoring in political science. "The week was a great experience because it pulled us out

Earth Week a success

By SANDY HANBERRY
News Editor

Earth Week festivities continued on course this week as students, faculty, and the business community banded together in an effort to increase public awareness of environmental issues.

The Student Government launched the conservation effort long before Earth Week by beginning the "Golden Trash Can" recycling contest during Winter Quarter to raise money for the High Hope Children's Center.

The SGA also sponsored an Earth Day Logo Contest which was won by Kerry Freeman. Throughout Earth Week tee-shirts bearing Freeman's Logo were on sale. Left-over shirts may still be purchased through the SGA.

During Earth Week GSC stores sold Earth Week mugs and students signed the greenpledge.

The week of events began on Monday with five local bands competing in the battle of the bands-Bands Battle for the Earth. In the Awards ceremony held in conjunction with Wednesday's student forum with president Henry the winners of the battle of the bands were announced.

It was a tie between Greasy Peter and Gunpowder Plot. Each of the winning bands received Earth Day shirts and \$100 in prize money.

During the Student Forum students asked president Henry questions about the future of GSC. During the session Henry estimated that there would be a new permanent classroom building in

place by 1994. He also stated that there was a definite possibility for a mass transit system on campus by Fall 1992.

Students also voiced environmental concerns including the impact of the growing number of students on the campus environment.

Henry stated that steps are being taken in that regard including looking into land acquisitions or

CAMPUS BRIEFS

George-Anne staff reports

***International Day** - Come celebrate diversity on Wednesday, April 25, outside the Landrum Center. The Campus Activities Board is sponsoring an International Awareness Day event from 5 p.m. to 7 p.m., featuring international fashions, music, crafts and delicious food samples.

There will be free T-shirt giveaways and ice cream. Everyone is invited to celebrate in this grand

occasion. For more information contact the CAB office - Room 103 in the Williams Center - or phone 681-5442. Please join the celebration.

***Photo Contest** - You could be a winner! Check the Recreation Department bulletin in Hanner. SRPS is sponsoring a "Caught Ya Playing" photograph contest. If your picture appears on the bulletin board, you are the winner. A different picture will be selected weekly. The contest will last throughout the quarter.

GSC News Service

Beginning April 30, the severe warning systems of Bulloch County and GSC campus will be linked for the simultaneous sounding of tornado watch and warning alerts.

Following the Civil Defense Policy Revision guidelines adopted by the Bulloch County Board of Commissioners on March 20, both Statesboro and GSC sirens will sound in unison anytime there is

either a tornado watch or warning in effect for the area.

The sirens will sound for a three-minute period if a tornado watch is issued, meaning conditions that could spawn tornadoes exist.

A tornado warning, an actual sighting, will be signaled by a three minute sounding, followed by a pause, and another three minute sounding.

"If a watch signal is sounded, it means that we should be keeping an

eye on the sky and tuning in our radios for weather information," said Ted Wynn, GSC's coordinator of environmental safety.

"It should mean to everyone that we need to be prepared and on the lookout for severe weather."

"A warning signal followed by a pause and another signal will serve to notify campus that a tornado has been sighted in the area and that everyone should immediately take cover."

Police Report

By KEVIN HUDSON
Staff Writer

April 15

•Thomas J. Moore and Ronnie E. Lee were arrested and charged with Theft by Taking when an officer observed them tampering with a bicycle on the bike rack at Winburn Hall.

April 14

•Robbie G. Thompson reported twenty-one windows shattered at the Student Union Building.

•Jason D. Higdon reported someone had thrown a rock through the window of his dorm room in Veazey Hall.

•Antiny White reported someone had thrown an unknown object through a dorm room window at Veazey Hall.

April 12

•A housing employee reported someone set fire to a bulletin board outside of room 207 Oxford. Two memorandums were burned and some damage occurred to the wall.

April 11

•Christina Brisendine reported someone took a bra from the front of her car while it was parked in the Johnson Hall parking lot.

•Gregory George reported two textbooks missing from the library.

•Fatima Jones reported a jacket missing from the lobby of Deal Hall.

April 10

•Eileen Sconyers reported someone damaged two vending machines and four outdoor lights at the Newton Building.

•Officer Barnes reported finding a broken window at the Student Union Building. A brick had apparently been thrown through the window.

•James F. Fouche reported someone broke the windshield of his automobile while parked in the service and delivery area of the Carroll Building.

April 9

•Contrella S. Evans reported someone damaged the hood of her vehicle while parked in the In The Pines Apartments parking lot.

April 8

•Julie A. Jancuski reported several articles of clothing missing from her room in Johnson Hall.

•Robert G. Gault reported someone took a TV and a VCR from his apartment at the In the Pines Apartments.

April 7

•Deborah D. Stark reported a bicycle missing from the bike rack at Warwick Hall.

April 6

•A housing employee reported a case of simple battery stemming from an incident at Johnson Hall. The case has been turned over to judicial affairs.

CAB looking for new officers

By MATT MAYBERRY
Staff Writer

The Campus Activities Board is looking for new faces and fresh ideas. The search is on to find nine people with the enthusiasm and talent to become CAB's new officers.

Positions up for election include: Student Director, Publicity Coordinator, Concerts Chair, Multicultural Programs Coordinator, Coffeehouse Chair, Special Events Chair, Indoor Recreational Coordinator, and Secretary.

The Student Director oversees the work of the other members and their committees and acts as a coordinator for the workers and the work done.

Priority is given to applicants who have previously served on the Campus Activities Board. However, students with previous leadership experience at GSC are en-

couraged to apply.

The Publicity Coordinator is responsible for advertising and promoting all CAB events.

The Concerts Chair is responsible for working with the Concerts Committee to plan major concerts and small indoor and outdoor concerts. Examples of concerts at GSC have been R.E.M., Fetchin Bones and Guadalcanal Diary, and .38 Special.

The Films Chair orders all movies, reserves facilities, and supervises ticket sales.

The Multicultural/Ethnic Programs Coordinator encourages involvement of minority/multicultural students in CAB events, plans CAB sponsored activities for Black Awareness Month and International Day, and other activities which promote awareness of other cultures and ethnic groups.

The Coffeehouse Chair plans entertainment activities such as comedians, magicians, and hypno-

tists.

The Special Events Chair coordinates special events such as the Back to School Street Dance, Alcohol Awareness Volleyball Tournament, Video Buttons, and Spring Fling.

The Indoor Recreational Coordinator works with Game Room personnel, College Bowl Team, Bowling Club, and Billiards team. He/She coordinates indoor recreational tournaments, and ACU-tournaments, including foosball table, tennis, billiards and video games.

CAB is also for a looking for a secretary.

All CAB members must maintain a minimum 2.0 cumulative GPA in order to remain on the board. Also, all members are expected to attend NACA Southeast Regional Conferences, ACU-I Regional Conferences, and Leadership Development retreats sponsored by GSC.

sophomores," said Dr. Van Tassell.

The political science department is currently accepting applications for next year's Model U.N. delegation. They may be picked up from Dr. Hashmi's office in the political science department. The application deadline is April 27th.

Model UN

of our little corners and showed us a model of the world."

Each delegate had the chance to be selected as chairman of his respective committee at the conference. Selections of chairs were contingent upon the delegate's previous experience and performance in the model U.N. One GSC delegate, senior Amee Adkins, was selected to chair her committee, the Commission on Narcotic Drugs.

When not in committee meetings, the GSC delegation had free time to explore the city and meet other delegates from other colleges in the United States as well as from other nations. "It was great meeting so many people, especially being from Georgia Southern. The delegates from the northern universities were so enthralled with our accents it was hilarious," said Susan Fudge, a junior delegate majoring in Social Science Education. "Overall it was a marvelous learning experience; to see so many factions of our world meld together in a conference like this one was quite a spectacle."

In the history of the Model U.N. class at GSC, there have been 20 delegations. "This is the twentieth year for Model U.N. at GSC, I feel that as a group, compared to the past groups, this year's delegation was exceptionally good because of the large and challenging assignment. There were 16 committees with 12 first year members to cover the majority of the committee work, many of them being freshmen and

Earth Day

limiting freshman enrollment.

After the forum, Tom McLean, SGA vice president, presented the Golden Trash Can Award to the Criminal Justice Club for their collection average of nine pounds of aluminum per club member.

On Tuesday people joined together to clean up the GSC lakes and succeeded in collecting nine bags of garbage from the area.

Tuesday night Savannah and state businesses gave lectures and answered questions on environmental concerns. Represented were Georgia Power, Union Camp, The Sierra Club, and GSC. Perhaps the most impressive announcement came from Union Camp which announced its plans to cut its overall waste products through the use of more modern equipment from 16 million pounds in 1990 down to 3 million pounds in 1991.

On Wednesday President Henry presided over the planting of Woody, the Earth Day Tree, adjacent to the path between GSC the lakes Ruby and Wells.

Earth Day is officially set for Sunday. The SGA and the George-Anne challenge GSC faculty, staff, and students to be environmentally conscious not only during Earth Week but throughout the year.

Fees

GSC has recommended to the Board of Regents a \$40 increase for residence halls. For The Pines, a \$40-\$60 increase was recommended.

For a private room, there will be a \$20 increase, except for Lewis Hall, which will stay the same price.

Dr. Armstrong also said that an increase for food services was recommended.

For students wanting three meals per day, seven days per week, there will be a \$35 increase, for two meals per day, seven days per week, a \$30 increase, and for two meals a day five days per week, there will be a \$25 increase.

Oratorical competition held here tomorrow

By SANDY HANBERRY
News Editor

GSC will host the Ninth Annual Oratorical Competition on Saturday. The competition, which will begin at 9:30 a.m., will bring more than 600 high school students to GSC to compete in their choice of foreign languages, German, French, Spanish, or Latin.

The contest has grown from 75 contestants in 1981 when it began, into one of the few competitions of its nature in the nation and the only one in the state of Georgia.

According to Judith Schomber, GSC Assistant Professor of Spanish and director of this year's oratorical competition, "the contest gives students a chance to compare their language skills with those of other students. It also gives high school students the idea that there is competition outside of sports."

This year's competition will have students from Georgia and South Carolina. The students will compete in the competition according to their level of language experience.

There will be nine different lev-

els of competition including one for native speakers. At each level students will recite from memory two poems, one mandatory and one of their choice from a selection of three poems.

The competition also involves many language specialists in the judging process. Judges, who work on a volunteer basis, include GSC faculty and alumni, members of the Statesboro community, area high school teachers, and Augusta and Savannah State faculty members.

The awards ceremony which will take place at 1:30 will be presided over by GSC President Nicholas Henry he will give a short speech and present the awards.

The competition is the conclusion of an organization effort that began in the Fall.

Schomber believes that all the effort and planning that goes into the event is worth it. "When you draw 650 students you can definitely say it's a success. It is definitely worth it with all the intangible benefits and good will we generate."

EARTH TIPS

Recyclables

■ Ask for paper grocery bags instead of plastic; don't bag small items.

■ Buy eggs, milk and cereals in cardboard cartons.

■ Separate newspapers, glass, plastics and aluminum for recycling; urge local officials, friends, and relatives to recycle.

■ Take used motor oil to a reclamation center.

■ Buy and urge local governments to buy recycled products.

Tomorrow:
Chemical substitutes

Source: GNS research

Frank Pompa, GNS

EARTH TIPS

Automobiles

■ Use high-quality, multigrade oil for better fuel efficiency.

■ Avoid options that cut fuel economy; a light-colored car with tinted glass reduces the need for air conditioning.

■ Tune engine every 5,000 to 10,000 miles to keep engine running cleanly.

■ Radial tires require 4 percent less fuel to use.

■ Moderately paced driving boosts gas mileage; accelerate and brake slowly.

Tomorrow:
Electricity

Despite critics' bashing, soaps remain popular

By YOLANDA WALLACE
Features Editor

Several things are obviously popular in college students' lives: clean laundry courtesy of Mom, cash courtesy of Dad, full refrigerators, and cars. Another item that should also appear on the list is, believe it or not, soap operas.

Years ago, soap operas were considered to be nothing more than entertainment for "housewives stuck at home taking care of snott-nosed brats all day." Since then, however, it has been revealed that soaps are watched not only by women who work out of the home, but also by professional people and college students.

Professionals often set their VCRs to tape their favorite soap so that they can watch that day's episode when they get home. Some students are so fanatical about their soaps that they often arrange class schedules around the show they'd rather skip class for than miss watching.

NBA stars revealed in a recent *USA Today* poll that spend their long afternoons before game time watching soaps. *All my Children* was named the most-watched soap. The New York Knicks' Kenny Walker and the Orlando Magic's Otis Smith were named "Biggest Soapheads of the NBA." Both said they watch five soaps a day.

After a series of overdrawn plots that resulted in satires galore in the '70s and a brief decline in ratings in the mid-'80s, soaps are back and more popular than ever. The latest exploits of Lucinda, Reva, Eden and Cruz are discussed in hushed tones like the problems of real people.

Soap conventions are sold out in malls across the country, magazines covering daytime and primetime dramas are popping up left and right. The made-for-TV movies of *All my Children's* Erica Kane, Susan Lucci, regularly receive massive viewing audiences, though Lucci is batting 0-for-10 in the Emmy race. American soaps shown internationally regularly receive higher ratings than the native shows. And *TV Guide* includes not one, but two weekly features on soaps, the Soap Opera Guide and

Soaps Insider.

Not bad for a medium that began over 40 years ago as an advertising ploy to sell soap and detergent. Hence the name "soap operas."

The Soap Opera Guide updates any action fans might have missed during the week before. "Victor was outraged the week of March 26 after learning that Nikki had married Jack. Rex agreed to a divorce after seeing 'Katherine' carousing with the hired help. Then Clint wasted no time going to the press with news about the impending divorce. At the farmhouse, Morey began to take the bait offered up by the real Katherine. Nan regretted giving up her baby now that Jeff is back."

Got all that, *Young and the Restless* fans?

Soaps Insider dishes gossip on soaps, characters, and the actors who portray them. Recently, the column rated the theme songs of all 12 daytime serials. The best? A three-way tie between *Another World*, *Generations*, and *the Young and the Restless*.

World's theme: "Okay, it's silly, it's soupy and it's definitely a triumph of style over substance, but this song warbled by country stars Crystal Gayle and Gary Morris is a smash."

Generations: "This perfect, piquant, Scott Joplinesque rag—composed by Michael Gore of *Fame* fame—is just a little slice of heaven."

The Young and the Restless: Nadia Comaneci used this theme in the '76 Olympics—she sure knew how to pick 'em. It's a classic." The Y & R theme went on to hit the top 40 later in 1976 under the title "Nadia's Theme."

According to the reviews, however, the themes from *General Hospital*, *Santa Barbara*, *One Life to Live*, and *the Bold and the Beautiful* won't be so lucky in 1990.

Hospital rated only one-fourth of a note on a four-note scale. "Is it just my TV or does *GH's* ghastly, garbled theme sound like it was recorded in somebody's garage? Hands down, this ear-splitter is the worst of the bunch, and I can think of several things I'd rather do than listen to it. Like pass a kidney stone."

Chamber ensemble to perform

By WENDY WRIGHT
Special to the George-Anne

"Atmospheric, exciting, elegant, thoughtful,"—all of these adjectives describe Aequalis, the Boston-based trio that will be performing at 8 PM April 24 at the Foy Recital Hall.

Consisting of Fred Bronstein, piano; Elizabeth Mohr, cello; and Michael Parola, percussion, Aequalis has emerged as one of the finest contemporary music ensembles in the world.

Combining traditional and contemporary music, the ensemble embodies a wide variety of selections in their repertoire that appeals to all audiences.

Gilbert Kalish describes the chamber ensemble as "outstanding instrumentalists and extraordinary chamber musicians. . . They have done some of the most difficult contemporary scores with stunning success."

Musician Bronstein holds degrees in music from Boston university and the Manhattan School of Music. He completed his Doctor of Musical Arts degree at the State University of New York at Stony Brook. He currently tours with the

Aequalis chamber ensemble as a pianist and soloist and has received critical acclaim for his contribution to 20th century music.

The *Philadelphia Inquirer* said Bronstein performs Davidovsky's "Synchronisms for Piano and Tape" with care and delicacy, matching the timbre of piano notes to the electronically-generated sounds on tape.

Cellist Mohr received her Master of Music and Doctor of Musical Arts degrees at Stony Brook and taught as a visiting Artist-in-Residence at the University of Idaho. She has been noted for bringing technical refinement and musical sensitivity to her special performances. The *San Francisco Chronicle* hailed Mohr's performances as "splendid, with a forward singing tone and true intonation."

Parola received his Bachelor's degree from the State University of New York at Purchase and his Master of Music and Doctor of Musical Arts at Stony Brook. He studied timpani with Richard Horowitz of the Metropolitan Opera.

Upon completion of his education, he went on to perform as conductor and percussionist in the New York area where he premiered

works by composers such as Elliott Carter, Donald Martino and Charles Wuorinen. Carter described Parola's timpani performances as "outstanding" and delivered "with great flair."

Campus Life Enrichment Committee (CLEC) Executive Director Leslie Tichich said, "This is one of the finest touring chamber ensembles that specializes in 20th century music. We hope everyone will take advantage of the opportunity to hear this excellent group of players."

Anyone wishing to enjoy a special preview of this event is invited to attend a lecture/demonstration by Aequalis Tuesday, April 24, at 9 AM in Foy Recital Hall.

While they last, free tickets for the CLEC event are offered weekdays April 16-24 from 8 AM-5 PM at the information window in the Administration Building.

Tickets are available to GSC students, staff and faculty with the presentation of their IDs. Any remaining tickets will be distributed at the door the night of the performance. The show starts promptly at 8 PM and all ticket holders are encouraged to be there by 7:50 to ensure seating.

Special to the George-Anne

The *Ogeechee Poetry Journal*, GSC's only poetry magazine, is accepting submissions from community poets and from GSC faculty, students, and alumni through May 1.

We at the journal hope that it will provide an arena in which poets of varying background and experience may share their insights. "Poetry lifts the veil from the hidden beauty of the world," commented Percy Shelley, "and makes familiar objects be as if they were not familiar." We are looking for pieces which open doors to new worlds of perception and imagination.

For students, further motivation to submit poetry to the *Ogeechee* is the prize money involved. The two pieces that the editors judge to be of surpassing fineness will receive awards of \$50 and \$30, respectively.

Due to space considerations, please limit submissions to 40 lines.

Address your manuscripts to GSC, *Ogeechee*, Department of English, Landrum Box 8023, Statesboro, GA, 30460.

News Briefs

From George-Anne staff reports

*Mezzo-soprano Levita Carter will give a junior recital Sunday, April 22, at 7 PM in Foy Recital Hall. Admission is free.

*The Aequalis chamber ensemble will perform Tuesday, April 24, at 8 PM in Foy Recital Hall. The concert sponsored by the Campus Life Enrichment Committee (CLEC) will have an admission charge. Tickets are available at the information window in the Administration Building until the day of the performance.

*Congratulations to the new Gamma Beta Phi inductees and officers. Keep up the good work.

Earth Day activities leave much to be desired

Earth Week began April 16 and will be observed until Sunday. You knew that, didn't you? Of course you did. For weeks now, the print and news media have been blitzing us with all sorts of information—TV specials, news shows, long news articles and editorials—about the proceedings.

Tell me, though, have you REALLY been employing good habits this week or have you continued to use styrofoam cups, plastic plates, aerosol cans, petroleum-based fuels, and all sorts of other products that are bad for the environment despite the numerous warnings, pleas, and demands you've had to the contrary?

Don't worry, you're not alone. Earth Day and Earth Week are wonderful ideas that we at the George-Anne support wholeheartedly, but we're also wondering whether these two temporary observances 20 years after the initial ones will really be effective in bringing about changes in the way we live our lives and dispose of our trash.

Probably not. Energy conservation and the preservation of our earth for future generations is life-long process of dedication and hard work, not simply seven days of feeling good about ourselves or being made to feel guilty about not foregoing plastic products in favor of paper ones.

More than likely, however, many of us were sick of the ads for Earth Week weeks ago. And if we watch any of the specials this weekend, we will do it because we like the musical guests and want to hear their music, not their message.

People don't like to be preached at or beaten over the head with ideas. The ideas behind both Earth Day and Earth Week are well-intended and necessary, but the execution leaves a bit to be desired.

Recycling opportunities in Statesboro...

By J.J. Gregory

G-A Columnist

According to the Environmental Protection Agency, Americans are responsible for 50 percent of the waste generated in the world per year. The United States also consumes 50 percent of the world's natural resources. If the other nations in the world did this, we would exhaust our natural resources in two weeks. This proves that Americans are the most wasteful people on the globe.

If hi-tech resource recovery "is not the way to go," we'll have to find other alternatives. Recycling in the home appears to be the most important. It takes on the average 16 minutes a week to recycle. Who doesn't have that much time?

There are many recycling opportunities in Statesboro. Newspaper drop boxes are at the following locations: Auto Glass Specialists on 407 South Main Street, behind the main post office on North Main Street, and the Pittman Park Methodist Church on Fair Road.

Sweet Fur Metals 839-3829 and Stubbs Wrecking Yard 681-3473 will buy aluminium cans and car batteries. Stubbs will also buy glass. The GSC student government is also sponsoring a can drive every Monday from 1-4 p.m. at Johnson Hall parking lot. High Hope, an organization that works with the handicapped, also recycles. For more information contact Kathy Kicklighter at 489-8711.

Do we want Bulloch County to be known as the home of the GSC Eagles or the home of the south's largest regional landfill? Do we want to be responsible for thousands of tons of waste from other communities? Patrick Kessings of the Georgia Environmental Protection Agency defined the word "landfill" as meaning, "out of sight out of mind," this landfill is in the sight of the public and in their minds.

Express your opinion; it can make a difference. Contact Statesboro Mayor Thurman Lanier at 764-3194 and chairman of the Bulloch County Board of Commissioners Robert T. Cox at 764-6245.

The GEORGE-ANNE is the official student newspaper of Georgia Southern College, owned and operated by GSC students and utilizing the facilities provided by GSC. The newspaper is the oldest continuously published weekly newspaper in Bulloch County and Statesboro, Ga. The ideas expressed herein are those of the editor or the individual authors and do not necessarily represent the views of the Student Media Committee, the administration, the faculty and staff of Georgia Southern College, or the University System of Georgia. The GEORGE-ANNE is published twice weekly during the academic year and twice during summer quarter.
OFFICE: Room 110, F. L. Williams Center • MAIL: The GEORGE-ANNE, Landrum Center Box 8001, Georgia Southern College, Statesboro, Ga. 30460. • PHONE: 912/681-5246 or 912/618-5418

Nuclear Proliferation: Mankind is the loser

Last quarter in my Model United Nations class, Dr. Zia Hashmi, Director of the International Studies Program here at GSC, came to lecture to us on nuclear proliferation. What he had to say really got me thinking and pondering the issues of nuclear weapons, treaties and non-proliferation of such. And the more I think about how totally senseless a nuclear war would be for this world, the more I realize that this issue is argued in vain every day. Nonetheless, I'd like to discuss some of the facts Dr. Hashmi shared with the class.

When nuclear weapons are mentioned, most people immediately think of the United States and the Soviet Union, and rightfully so. Sure there are other nations which have nuclear technology; and sure other nations are involved in nuclear arms proliferation; but the two superpowers are perhaps the most recognizable names in the game.

So check these facts out. The United States and the Soviet Union are virtually neck and neck in terms of strategic nuclear forces: Intercontinental ballistic missiles (ICBM), Nuclear Submarines, and strategic bombers.

First the ICBMs. Note the fact that the United States' MX missile,

From The Editor's Desk Clint Rushing

what Ronald Reagan ironically termed the "Peacemaker," contains 10 nuclear warheads. With each warhead containing 3,000,000 tons of TNT, one MX contains more explosives than all explosives used in World War 2 from 1939 to 1945 (2.7 million tons of TNT in WW2 vs. 3 million tons of TNT in the MX). A missile as accurate and deadly as this should not be mass produced, and what an issue this seems to be for the past 40 years or so! The United States owns 1000 ICBMs to the Soviet Union's 1378. Considering the potential damage that one MX can do, why should either nation own more than one?

As far as the second category (SLBMs) is concerned, the United States has a considerable edge over the Soviet Union, if one can call the ability to destroy the world an edge. Collectively, the Poseidon and Tridents carry 5,312 nuclear warheads for the United States. For the Soviet Union, the Serb, Sawfly, Snipe,

Stingray, Sturgeon, and Skiff carry a mere 3,602 nuclear warheads. Again I ask, why so many?

Thirdly there is the category of strategic bombers. Of the 349 bombers owned by the United States there is a capability of transporting 5,238 gravity bombs and cruise missiles. The Soviet Union's 170 bombers can carry significantly less of a load of air launched cruise missiles, but who the hell cares? The point I'm making is that after a nation produces enough nuclear arms to destroy another nation, it's time to stop the production. What do these nations think, that one is going to have the capability to destroy the world more times over than the other? The numbers I have presented here are mere figures of example; the potential for destruction is the true issue, not that the United States has more missiles than the Soviet Union.

All in all, the United States has roughly 30,000 nuclear warheads to the Soviet Union's 20,000. It only takes 400 nuclear warheads to destroy either nation. Why produce 30,000?

Stepping away from the issue of number of nuclear arms and moving to cost of nuclear arms, it is a disheartening realization that the United States has spent one third of

its annual budget (roughly 300 billion dollars) on defense during the past 10 years!

I, along with thousands of other lobbyists in the United States, can think of much better utilization of funds than building nuclear weapons, and here is why: Since the United States and the Soviet Union already have enough nuclear weaponry to destroy the world several times over, there is no point in producing any more. After an initial attack, neither nation can protect themselves against the attack; there can be no winner!

I don't believe that I want to live on a planet in which the smoke, soot, and dust resulting from a nuclear war blocks the sun and creates a "nuclear winter," as Carl Sagan predicts.

Mankind will be the loser in a nuclear war. There is a war memorial in Hiroshima which reads: "May your soul rest in peace because this evil shall not be repeated." To be able to believe these words is a hopeful thought; but to actually put faith in them is a common display of man's ignorance. For, this confidence that nuclear war will not occur is typical of the attitude of fools who try to wish it away.

Environmental issues resolved only in Christianity

By Marcus Toole

Specialist to The George-Anne

The mismanagement of the environment is a plague which threatens the future of mankind. Like other social problems, the destruction of the environment is a result of the short-sighted excesses of our modern culture, and the sinful nature of human beings. In this covenant, the "solutions" to excessive environmental exploitation offered by society's philosophies and institutions never address the root cause of our ecological problems (the sinful selfishness of man) and consequently invariably end in failure. Only Christianity can offer a solution to man's sinful nature; therefore, environmental issues can only be resolved satisfactorily if the issues are addressed from a Christian point of view. It is not my intention to offer solutions to specific problems of the ecology in this article, but I do wish to present a biblical perspective for how man should interact with nature.

The best way to develop a Christian perspective of the environment is to study the covenants which God has made with man throughout redemptive history. This does not mean that we should ignore scientifically derived information about the biosphere, for such information enables us to determine the ecological ramifications of human activities. However, how we use this information depends on our religious and philosophical convictions which, for Christians, must be based on Biblical teaching.

The Creation covenant (Gen 1:26-31; Gen 2:15-17) was presented to man by God directly after man's creation. It dictated to man the conditions under which man will continue to receive the full

Guest Column

blessing of God and presented the ideal scenario for how man was to interact with nature because man did not yet have an innately sinful nature. In this covenant, God blessed man by commanding him to multiply, subdue the earth, and exercise dominion over the other organisms on the earth. This covenant has been interpreted to mean that man has a license to exploit the earth without any restrictions. Three factors nullify this interpretation of scripture: 1. Man didn't have a sinful nature yet, so he would not have been inclined to exploit the environment for selfish gain. 2. God gave man special permission to eat plants (except the fruit of the tree of knowledge of good and evil) but not animals in the creation covenant. There is no mention of Adam and Eve killing animals before the fall. Some may question this statement, for Christians do not agree on how to interpret Gen 1:29-30. A full explanation for my interpretation of this passage is presented in *The Genesis Record* by Henry Morris. 3. Man was ordered to cultivate the garden and protect it as a steward. This covenant teaches that man is to exercise dominion over the earth as a benevolent steward and not as an exploiting parasitic master! There is no room in the Creation Covenant for the humanistic view which affirms the boundless exploitation of the earth or the pantheistic view which dictates that all creatures should be treated as equals to man.

Unfortunately, the perfect conditions for the Creation Covenant

ended when Adam rebelled against God by eating the fruit of knowledge of good and evil which caused man to die spiritually and initiated the degeneration of all nature (Gen 3 Rom 5:12-14 Rom 8:22). However, immediately after the fall, God promised that the woman's seed will crush the head of Satan indicating the future restoration of man and nature. This expectation was amplified by a procession of redemptive covenants between God and man in the Old Testament.

Each redemptive covenant in the Old Testament had environmental implications. For example, the Noaic Covenant reconfirmed man's position of dominion and gave man the right to eat animal flesh, but God made the animals afraid of man because He knew that sinful man will abuse his dominion position (Gen 9). Laws were instituted in the Mosaic covenant which protected nature (ex.; Lev.; Num.; Deut.). For example, God's people were forbidden to destroy all the vegetation around enemy cities during warfare, and they were required to allow cultivated land lay fallow periodically (in other words they were not allowed to plant crops in cultivated fields every year.) All the covenants of the Old Testament looked forward to the redemption of both man and earth throughout the coming Messiah.

The life, death, and resurrection of Jesus Christ accomplished the restoration fore-shadowed in the Old Testament. Christians already benefit from this redemption as well as the portions of the earth which are under the control or influence of Christians. This fact is implied in John 3:16: "For God so loved the WORLD that He gave his only begotten Son that whoever believes on Him shall not perish but

have everlasting life. The restoration of the earth has begun already through the activities of Christians; however there is a sense in which its redemption will not be complete until Christ returns to establish the new heaven and the new earth (Is. 65:19-23; Rev. 21). This aspect of redemption is best illustrated in Rom. 8:19-21 (NASV): "...For the anxious longing of creation waits eagerly for the revealing of the son's of God (Son's of God refers to Christians, John 1:12). For the creation was subjected to futility, not of its own will, but by Him who subjected it, in hope that the Creation itself also will be set free from its slavery to corruption into the freedom of the glory of the children of God...The whole Creation groans in childbirth together until now.... we ourselves groan within ourselves waiting eagerly for adoption as soon, the redemption of our body...." Like redeemed man himself, the earth will not be completely freed from the consequences of man's sin until the second coming of Christ.

However, there is a since in which Christians have already been restored to a prefall condition (Rom, 5:6,7). Therefore, Christians are expected to exercise responsible dominion over the earth. Remember, nature is a gift from God, and Luke 11:23 indicates that Christians will be held accountable for how they manage both their material and spiritual gifts. Finally, Christ restated the Creation Commandment to subdue the earth to Christians; However, we are to accomplish it through preaching the Gospel (Matt. 28:19-20). "...Go therefore and make disciples of all the nations, baptizing them in the name of the Father, Son and Holy Spirit, teaching them to observe all that I commanded you....".

Strong Points

By **MICHAEL STRONG**
Sports Editor

"She's always had the best lessons, went to all the camps, she's spoiled," someone said. It was a reference that I overheard made about a tennis player recently.

I've heard it made to many other people before, never about me of course, but others. In a variety of sports: tennis, basketball, volleyball, and soccer.

I have seen the time and effort put into such a person. I have also seen the amount of money invested and it boggles the mind. I have seen the running around done by parents, the juggling of schedules, and the frustration that accompanies all of that.

Parents do this for a variety of reasons. Some do it just to see their children happy, some do it because they never got that chance, and some do it hoping that a greater good will come from it.

The problem is that many of the kids become used to that special treatment and forget why they should be thankful for such treatment. I wasn't ever the best at anything I played when I was younger, but for the most part I wasn't necessarily thankful either. (Thank you Mom and Wayne) They begin to assume that they should get this treatment in all areas and that as long as they play their respective sport well, they'll get that treatment.

Another problem is that they become insulated from the real world. I don't necessarily mean that they are complete introverts, but they do sometimes get a warped sense of reality. They don't understand the politics in life and feel that everyone gets treated like they do, thus expect to be treated that way by everyone. It's depressing.

The parents who have labored long and hard to get that child to the position that they think that child is in are astonished to discover that the child is a spoiled and unfocused brat. They have little idea of what they want to do or worse yet need to do.

One specific case is of a girl who plays soccer. She always had the best shoes, went to all of the camps, played with the select teams in her state. She made the Olympic Development team for her region. She plays for her high school and is the best player on the team. But, lesser players are getting more acclaim than she is because she is one of those isolated kids who was offered a chance to take the limelight for her final two seasons, but refused to take it because she would be embarrassed.

Her parents invested all of that money in her soccer career hoping she would earn a scholarship to a college somewhere. She can't get that scholarship if she doesn't attract some attention from the local media. The only way that would happen is if she dominated her division which she can do. She has the ability, but she also has a coach who doesn't make the wisest decisions. This girl's mother was offered the position of assistant coach on the team, something that would have put her in a position to get that much needed attention, so that she could get a scholarship. She doesn't understand how vital that scholarship is to her future and she may blow it. Why? Because she "would be embarrassed."

Soccer is no longer just a game for her and it's time she wake up and see it. Her parents helped her to become the player she is because they love her and felt that this could help her in life. She now needs to turn around and give back to her parents, but she was too "embarrassed" to do it. I hope now that she might realize the predicament she has placed herself in.

It's now or never time...sis!

Newly ranked Eagles split with Clemson; pitcher ties record

By **PAUL FLOECKHER**
Assistant Sports Editor

In the heart of their eight-game road swing, the GSC baseball Eagles split a doubleheader with the Clemson Tigers, losing 13-0 Tuesday and winning 9-6 Wednesday.

In Wednesday's contest, the Eagles rebounded from their first shutout in 66 games to pound five Clemson pitchers for nine runs and 14 hits.

Eagle first baseman Mike Yuro led the hit parade with a triple, a run-scoring double and two singles in five trips to the plate.

On the mound, sophomore Joey Hamilton surrendered six runs and 15 hits, but nevertheless picked up his 12th win and seventh complete game of the season.

With the win, Hamilton tied the school record for victories in a season. He joins five other pitchers, including Russell Hendricks (1989) and Keith Richardson (1987).

GSC wasted no time jumping on Tiger starter Dave Tripp. After successive singles to left-center by Doug Eder and Todd Greene in the top of the first, Rob Fitzpatrick blasted a three-run homer over the left field wall.

Fitzpatrick's shot lifted him into a tie with Greene for the team lead in home runs with 13. The senior catcher hit 13 all of last season.

The Tigers picked up a run in the bottom of the first, but GSC used three extra-base hits in the third to go up 5-1.

Greene lined the first pitch of the inning to right-center for a ground-rule double. It was the 10th two-bagger of the season for the true freshman from Martinez.

Two batters later Chad Sumner hit a triple into the right field corner that scored Greene easily. Yuro's double off the wall brought Sumner home with GSC's fifth run.

The Eagles added single runs in the fourth and fifth to pad their lead to 7-2. With Chris Abner on third with one out in the fourth, Greene hit a grounder to second baseman Jeff Miller. Miller's throw beat Abner to the plate, but Abner slid under catcher Eric Macrina's tag.

Yuro's triple and Steve Siebert's nubber down the first base line gave the Eagles their five-run cushion in the fifth.

The Tigers pulled as close as 7-4, but GSC locked up the win with a run in the eighth and another in the ninth.

Jack Stallings' Eagles rebounded to defeat Clemson

Siebert opened the eighth with a walk on a 3-2 pitch, then Chris Petersen advanced him to third on a perfectly executed hit-and-run single to right. Abner grounded into a 6-4-3 double play that scored Siebert.

In the ninth, Fitzpatrick reached on an error, advanced to second on a fielder's choice and stole third. Yuro grounded a single to left, completing his 4-5 day and scoring Fitzpatrick.

Tripp (5-5) took the loss for the Tigers.

Riding a 16-game winning streak, the Eagles entered Tuesday's game ranked 25th in the nation by Baseball America and 29th by ESPN/Collegiate Baseball.

However, GSC was no match for the 30-11 Tigers.

Clemson pitcher Tim Parker went the distance for the Tigers, allowing no runs and striking out nine to improve his record to 5-2.

The Eagles were held to a season-low four hits, collecting only a double by Rob Fitzpatrick and singles by Steve Siebert, Doug Eder and Chad Sumner.

Eagle starter Scott Ryder held Clemson scoreless until the fourth inning, when the Tigers scored three runs, two of which were unearned.

With one out, Sumner let Jim Crowley's grounder to third go through his legs for a two-base error. The next batter, first baseman Eric Macrina, dropped a single to left to bring home the game's first run.

Following a walk and two singles, Clemson was on top 3-0. The damage might have been worse for GSC, but Chris Petersen's relay throw to Fitzpatrick nailed Mike Spiers at the plate to end the inning.

The Tigers picked up right where they left off, though, after the Eagles went down 1-2-3 in the top of the fifth.

Ryder retired the leadoff batter on a ground out, then Tiger shortstop Tim Rigsby wound up with a triple on a fly ball that right fielder Todd Greene misjudged. Joe DeBerry, son of Air Force football coach Fisher DeBerry, drove home his teammate with a single past the drawn-in infield.

The Tigers scored once more in the fifth to increase their lead to 5-0. Crowley's single to left and Ryder's wild pitch put runners on second and third, and Macrina responded with a sacrifice fly that scored DeBerry.

Clemson blew the game open with an eight-run eighth, highlighted by a home run by Crowley and a two-run single by leading hitter Brian Kowitz.

Ryder allowed 10 runs (eight earned) and nine of Clemson's 12 hits before being relieved by Dave Masi with two outs in the eighth. The junior righthander struck out seven Tigers and lost for just the third time in 11 decisions.

GSC returns to Trans America Athletic Conference action this weekend with three road games against the Stetson Hatters. The Eagles, 14-1 in the conference, have already clinched first place in the TAAC Eastern Division.

GSC golfers host Eagle Invitational

By **ALLEN ALLNOCH**
Managing Editor

The GSC golf team, coming off a disappointing finish in the TAAC Championships this week, will get no rest as they tee it up this morning as hosts of the Bank South Eagle Invitational at the Sheraton Savannah Resort and Country Club.

The Eagles shot a three-day total of 930, 12 shots behind winner Stetson, to finish sixth out of eight teams at the Par 72 Sonterra Country Club in San Antonio Monday and Tuesday.

"It was just one of those things," said head coach Doug Gordin. "All we can do is learn from it and put it behind us. We played poorly last year (in the TAAC) and then came back to finish third in the Schenkel and first at Auburn, and I think we can make a comeback like that this year."

The Eagle Invitational is being played this year in place of the Chris Schenkel Invitational, which was cancelled in February due to scheduling problems with teams from the Atlantic Coast Conference and the southwest. This year would have been the twentieth anniversary of the Schenkel.

Teams participating in the two-day, 54-hole event will be Florida, currently ranked Number 2 in the nation, Georgia, East Carolina, Stetson, Tennessee, Florida State, Miami, Alabama, Auburn, South Carolina, Ohio State, Mississippi State, Mississippi and Tulsa. In all, eight of the teams are nationally ranked or receiving votes in various golf polls.

"A tournament is a tournament," Gordin said. "Obviously we would like to be playing in the Schenkel, but we're going to be up for this tournament. When we get to Savannah, we're not going to be thinking about the TAAC, we're going to be thinking about this tournament. It's going to be a good golf tournament played on a good golf course."

GSC Athletic Director Bucky Wagner and Bank South-Savannah President Thomas C. Hester announced last week that Bank South will serve as corporate sponsor for the Eagle Invitational.

"Golf enthusiasts in southeast Georgia are truly fortunate to have the opportunity to attend top-quality professional golf tournaments in recent weeks, and now we can watch top-quality college stars at the Bank South Eagle Invitational," Hester said. "We at Bank South are delighted to be part of the tournament and especially pleased to bring it to Savannah."

The Eagles are led by junior Bo Fennell, who is averaging 73.9 strokes per round through eight events and 24 rounds. Fennell was the top GSC finisher in the TAAC Championships, placing fifth with a ten-over-par score of 226 (76-73-77).

Senior Mitchell Partridge follows Fennell with a 75.4 stroke average. Last season, Partridge won the TAAC, held at Innsbruck Golf Club in Helen, Ga., but he could only manage a tie for 21st this time around, shooting 81-77-79 for a 237 total.

GSC's best team finish this year was seventh out of 15 squads at the Southeastern Intercollegiate Invitational at Montgomery, Alabama.

Sports Briefs

College Information Network

STEWART TRIES FOR TWO IN A ROW:

Payne Stewart will try to become the first to win back-to-back tournaments in more than a year when he tees off Thursday in the first round of the \$1.25 million K mart Greater Greensboro (N.C.) Open. Stewart beat Larry Mize with an 18-foot birdie putt on the second playoff hole Sunday at the MCI Heritage Classic and is confident he can continue to play well at Forest Oaks this week.

BERGER WINS TOUGH MATCH:

The Jay Berger of the United States, the No. 1 seed in the Philips Open tennis tournament at Nice, France, was pushed to a tiebreaker in the third set before beating France's Henri Leconte 6-3, 1-6, 7-6 (7-3) in a second-round match Wednesday. (From the USA TODAY Sports section.)

OLD RIVALRY RENEWED:

The Boston Bruins and Montreal Canadiens renew their six-decade-old playoff rivalry Thursday in the Adams Division final. History is not on the Bruins' side: Since the Montreal-Boston rivalry started in 1928-29, the Bruins have a playoff series record of 3-21 against Montreal. The Canadiens have won 19 of the last 20 series

dating to 1946. The only Bruins triumph was in 1988.

ORIOLES END LOSING STREAK:

The Baltimore Orioles ended a three-game losing streak Wednesday, beating the Toronto Blue Jays 8-5, in American League baseball. In other games: Tigers 8, Yankees 4; Red Sox 7, White Sox 5; Royals 7, Indians 0; Brewers 11, Rangers 6; Twins 4, Mariners 3.

REDS WIN, NOW 8-0:

Paul O'Neill went 4-for-4, including a three-run homer Wednesday night, helping the Cincinnati Reds move to 8-0 with an 11-7 win over the San Diego Padres, in National League baseball. In other NL games: Dodgers 6, Giants 2; Phillies 4, Expos 3; Cubs 8, Mets 5; Cardinals 3, Pirates 0; Astros 10, Braves 5.

CAVALIERS CLOSE TO PLAYOFFS:

The Cleveland Cavaliers reduced their magic number to clinch an NBA playoff spot to one game with a 100-93 win against New Jersey, Wednesday. In other NBA games: Celtics 133, Magic 112; 76ers 124, Pacers 113; Hornets 98, Heat 91; Spurs 102, Jazz 93.

BOZ COULD BE DONE:

Seattle Seahawks officials say linebacker Brian Bosworth's career might be over because of an arthritic condition in both shoulders.

Track team races by competition at the first track meet of season

By **SANDY HANBERRY**
News Editor

The GSC cross country team continued to show signs of the progress it has made on when it competed Saturday April 7 in the South Carolina State Track Meet.

Approximately 20 college track programs were represented. GSC, competing in its first track competition in many years performed extremely well.

GSC won the distance medley by out sprinting a strong Florida A&M team on the last lap of the 2.5 mile competition. As a result of its victory GSC captured the school's first track trophy in modern school history. The distance medley team consisted of: Jason Moody, Terrence Sorrell, Mark Herndon, Gene Sapino.

This victory continued the winning tradition the team began this fall by winning its home, the GSC, invitational, defeating a strong Georgia State team for the first time ever, and placing third in the TAAC, GSC's highest cross country finish ever.

GSC also had other firsts this fall. Coach Del Presley was named

TAAC Cross Country Coach of the Year and the team had two All-Conference runners, Mike King and James Sapino. GSC placed third in the two mile relay.

The women's team also performed well. Alicia Hewes won the 3000 meters in a time of 11:24. Beth Thomas placed third in the 3000 and second in the 1500 meters.

Next Saturday the team will travel to Beaufort S.C. to compete in a 5 and 10 kilometer road race.

The spring season is an integral part of the team's training as it prepares for the Fall season.

Next fall the men's team will return its top seven runners the women's team which placed second in the New South Conference will also return a strong contingent of runners to college competition in the Fall season.

Del Presley, who has coached the cross country team since 1986 has given up his position to Jim Vargo, GSC mathematics instructor and winner of this year's Savannah Half-Marathon, in order to continue his work as the Director of the GSC Museum.

SGA Constituion
(Proposed Alterations)

Article IV
Elections

Section 1: At Large Senators and Executive Officers

A. Elections will be held campus wide during the fifth week of Spring quarter. A majority vote is required to win. Runoffs, if necessary, will be held one week following the election.

C. The term of office shall be for one year, beginning the first day of Summer quarter and ending the last day of Spring quarter, unless there are runoffs, in which case the term of office shall begin as soon as the run-off election(s) has been certified.

E. The amendments to Section 1 A and Section 1 C are to take effect in the 1989 - 1990 term of at-large senators and Executive officers.
