

School Days - School Days

Of all the seasons of the year, few there are that bring back nostalgic memories of childhood more than the opening of school doors, the smell of books, of pencils and of chalk dust. The little feet that leave for school on their first journey into educational opportunity as well as those who with a sigh and uncertainty for their future register for their last nine months term all deserve and need our best support.

Despite the shortcomings of our present

Politicians And Strange Bedfellows

We will never cease to marvel at what we don't know about politics. Neither do we lay claim to any special insight on the true background of many a political maneuver nor indeed of what the people of Georgia actually want and expect of their candidates.

It would however be a credit to our State and all of its citizens if we could conduct a campaign on a positive level rather than one in which the personal character and integrity of others was smeared and that conniving and mis-deeds were not charged to the imagination in office. The we may someday see but certainly such has not been the case in the present campaign.

It seems that as long as men can get up and holler "nigger" and vow with his life to preserve our southern traditions he is going to be heard and followed by many. And if indeed he would wave a magic wand and this could be true then he would need to be heard but too often the very act or meaning of the maneuver can be interpreted to bring about results that are diametrically opposed to his thinking or to his platform but in the doing makes him the heir to a political advantage.

Take for example the recent release by the press services in which one Rev. Wyatt Tee Walker of the Albany movement and chief aide to Dr. Martin Luther King endorsed former Governor Marvin Griffin. Rev. Walker, in his statement said that "it would be wise to vote for Marvin Griffin because the worst of the two men always helps us." It was pointed out that this represented his own private opinion and did not reflect the position of Dr. Martin Luther King nor the Southern Christian Leadership Conference.

But here is the prime example. Could it be that the very man who would have us believe that there is "no quarter" in the integration movement would in the end only serve to bring it about much sooner? We have followed the campaign from the beginning; of charges and counter-charges of corruptness, graft, dishonesty and the block vote; of political lambasting of McGill, Lane, Allen, King as well as Cheney. T. V. Williams, Jones, Roy Harris and many others.

An item of interest appeared this week in one of the publications in which the writer took to task the character and the administration of Governor Rufus B. Bulloch, Governor of Georgia in the years following the War between the States. He too hailed from Richmond county and since his administration was no credit to the state (according to the writer) then he would have us believe by inference that we would fare no better from the present aspirant - Mr. Sanders.

Now indeed. If we were to believe only a small portion of all that has been said, it would seem confusing to say the least. But when all of the dust has settled, all that is going to be said has been said and the chips are down, then we have enough confidence in the right thinking people of our state to believe that we will come up with the right man to stand at the helm of our state for the next four years.

Trustees of A. J. M. College re-elected E. C. J. Dickens principal for period of five years. Inman Foy left yesterday for East Point to attend Georgia Military College for the ensuing term.

Ernest Smith returned yesterday to Statesboro to re-enter Gordon University for the coming term. The new postal law forbidding delivery of mail on Sunday was enforced in Statesboro for the first time Sunday.

Postmaster General Hitchcock issued order increasing rural carrier salaries from \$1,000 to \$1,100 effective September 30th. Two valuable horses belonging to A. and W. E. McDougald were killed on the S. & S. track by a passenger engine near their homes yesterday evening.

Upon appeal of J. R. Miller, county Democratic executive committee orders run-over primary two weeks hence to settle contest between Miller and A. A. Turner in first primary. Turner had led Miller by one vote.

Home the preacher drove his points! How many of the congregation were like the first pig—too lazy or too indifferent to seek the best things, and contented with what was available without effort? How many were like the second—willing to give a little more time and thought to the materials they used, but not careful enough in their selections? How many were like the third—prepared to seek and to use only the best as found in Jesus Christ!

PRAYER: Help us, O God, to build nothing into the house of our lives but the best and the best of Thine own enduring qualities. Direct our lives and our labors; Through Jesus Christ our Lord. Amen.

VOTE AS YOU PLEASE BUT VOTE!

By Georgia Junior Chamber of Commerce
One of the most treasured rights of an American citizen, is his right to vote, and yet, how many of us exercise that privilege. As September 12th approaches, how many of us are completely aware of the qualifications of each and every one of the candidates we must choose from in order to vote intelligently.

Every American citizen has the important responsibility to be familiar with the qualifications and platforms of each person running for public office. This means knowing what the candidate has already done, and what he plans to do, if elected. In many of the races, too small a percentage of the registered voters have voted, and yet many of the ones who did not vote, are among the first ones to criticize. Your vote is your "voice" in government, but it can only be heard if it is cast.

This counts for your neighbors. Ask them to join you in being better informed. Read the newspaper, watch the political programs on television, and attend the political rallies in your area. An informed voter is an intelligent voter.

The Georgia Jaycees urge you to exercise your rights and responsibilities. -- VOTE INTELLIGENTLY ON SEPTEMBER 12th. Take a friend to the polls with him. In Savannah, each voter is already doing, and what he plans you. You'll be glad you did.

Storm Warnings Bring Reminder To Prepare For Power Failures

Riding out a severe storm, such as a hurricane, in a powerless, storm-blackened home is no picnic. However, there are steps you can take now to prepare yourself to cope with some of the discomforts and inconveniences resulting from storm-born power failures.

- 1. Lantern
- 2. Cookstove
- 3. Heater
- 4. Portable refrigerator

The propane lantern lights instantly by merely turning a valve and striking a match. The brilliant flame light is fully protected by a heat-proof glass that the lantern may be safely used outside, even in

severe winds. There's no filling or spilling of dangerous liquid fuel, no chance of flashbacks or flare-ups. Also, the fact that there are no batteries to run down means you can store your Bernz-O-Matic propane lantern indefinitely and it is always ready for instant use.

The cookstove and heater will also prove useful during emergency power failures which can stretch into days in severely hit storm areas. The portable refrigerator is ideal for keeping baby's formula safely cooled as well as protecting meat and other perishables during extensive electrical blackouts.

There's a built-in bonus too, with all of these storm-proof appliances, points out the Otto Bernz spokesman. They are all ideally suited for use on family camping trips when the fair weather flags are flying.

Chapin succeeds Howard (Bo) Callaway, president of Callaway Gardens. The appointment was made by W. Cam Mitchell, president of the State Chamber.

"The State Chamber of Commerce is fortunate to have a man with the tourist promotion know-how of 22 years, heading our tourist activities," Mitchell said. The main objective of the Travel Council will be to remind Georgians that Tourism is an industry amounting already to over \$300,000,000 annually and is an industry that in some ways can be developed with little or no cost. For example, courtesy, friendliness, and kindness can be worth a fortune to the tourist industry. An organized program is being formulated to spell out this objective.

Chapin, a native of Chattanooga, Tenn., is a graduate of Princeton University and has been associated with Rock City since 1948, becoming president in 1950. If you live by high principles you will not have to tell anybody. Advertisers who get results seldom cut their budget appropriations.

MRS. MARJORIE MURPHEY (former Secretary in State Parks Dept.) Charge: Embezzlement. Plea: Guilty. Sentence: 2 to 3 years, suspended.

W. C. MASSEE (former Asst. Supt. Purchases) Sentenced 3 to 4 years probation.

JAMES B. MCGREGOR (former sales tax official) Sentenced 2 to 20 years, reduced to 1 year - served 5 months. JOSEPH W. RAY (former sales tax official) Sentenced to 1 year - served 5 months before parole.

W. E. COLEMAN (former sales tax official) Sentenced 6 to 7 years. Reduced to 2 to 3 years - served 8 months before parole. JIM JONES (former Revenue Dept. employee) Sentenced to 14 years. Now on parole.

TRUE FACT: Cash Kick-backs on State Purchasing. The following excerpts are from an affidavit of W. C. Massee, Assistant Supervisor of Purchases during 1956-1958, of record in Office of the Governor of Georgia.

"GEORGIA, FULTON COUNTY. I, William C. Massee, who after being duly sworn depose and state as follows: "... In January of 1958 Mr. E. Thurston Brown brought me a requisition from the Department of Public Welfare for materials for certain metal buildings. Mr. Brown told me that he had been to Mr. Shaw and that Mr. Shaw said that I was to handle the transactions concerning metal buildings from then on out.

"... Brown stated to me that Shaw had told him that he (Brown) had to pay 10% of the total purchase order in order to get the business and that this 10% was to be split three ways between Mr. Shaw, Marvin Griffin and myself.

"... I sent out the invitations to bid to the three vendors whom Mr. Brown had named and on January 24, 1958, after receiving the bids, I issued a purchase order to Mr. J. A. Reece, Cumberland Wonder Building Company, for \$55,200.00. Mr. Brown then came by my office and I gave him the vendor's copy of this purchase order. He later came back and handed me \$5,500 cash in \$20 bills, which was 10% of the purchase order. I took the \$5,500.00 into Mr. Shaw's office, telling him that this was \$5,500.00 and 10% of the transaction from Thurston Brown. Mr. Shaw in turn handed me back one-third of the \$5,500.00. He said that he would keep a third and that he was going to take the Governor his third.

"... I issued a purchase order on March 27, 1958 to Mr. J. A. Reece, Cumberland Wonder Building Company, in the amount of \$73,092.00. I gave the vendor's copy of the purchase order to Mr. Brown who in turn brought me \$7,300.00 in cash in \$20 bills as the 10% commission. I went

to Mr. Shaw and gave him \$2,500.00 and told him I would like to take the Governor his part of the money. Mr. Shaw did not object to my doing this. I then went up to the Governor's office and there were a lot of people milling around. I informed Governor Griffin that I would like to see him in private.

He and I moved back into the men's room that is directly in back of the Governor's office. I told Governor Griffin that here was \$2,500.00 from Thurston Brown and handed him the \$2,500.00 in cash. Governor Griffin thanked me and I left and went back downstairs.

TRUE FACT: Rigged Bids Cost Georgia Taxpayers Plenty The following are a few items among thousands bought each year in the operation of the State business and its institutions:

ITEM	Cost During Griffin Administration	Cost During Vandiver Administration	SAVINGS
Wheel Type Tractors	\$2245.00	\$1242.00	\$1003.00 each
Unbleached Sheetting	.34 per yd.	.24 1/2 per yd.	.095 per yd.
Plastic Sheetting	1.14 per yd.	.32 per yd.	.82 per yd.
Felt Bedroom Shoes	2.40 per pr.	1.49 per pr.	.91 per pr.
Two Ton Flat Trucks	3378.90	2322.69	1056.21 each
State Patrol Uniforms			65.00 pr.

TRUE FACT: Broken Promises While running for Governor during the summer of 1954 Griffin promised the people if he was elected Governor there would be no tax increase. Despite his promise one of Griffin's first acts after becoming Governor was to call for a tax increase of over 60 millions of dollars a year.

When reminded of his promise to the people, Griffin's reply was that he did not care what he had said last summer.

TRUE FACT: Griffin Years Damaged Our Reputation READER'S DIGEST, April 1960 - "NEVER IN GEORGIA'S HISTORY HAD SO MANY STOLEN SO MUCH." Said one embezzler - "Everybody around me was stealing - big-shot officials and little people like me. So I stole, too..."

WALL STREET JOURNAL, June 4, 1959 - "Widespread corruption in Georgia highlights costly problem. Charges cite payments for non-floating boats and non-working workers."

WE WILL NEVER know just how much the Griffin administration really damaged Georgia in its bid for new industries and new jobs.

TRUE FACTS: What Roy Harris Really Thinks of Marvin Griffin Roy Harris is now campaigning for Griffin, yet in the July 11 issue of his Augusta Courier he had this to say about his "friend"...

The story of Marvin Griffin presents a real tragedy... the graft and corruption during his administration will haunt him the rest of his days... It is hoped that Marvin Griffin won't run in 1962... Probably he thinks he should be entitled to a second chance. We need leadership in Georgia the next few years... A man who has been smeared by his first team, and his own cronies, will be a cripple. In this game, we need a man with no crippling handicaps...

That's what Roy Harris really thinks about Marvin. We say -- Let's not make the same mistake twice.

Planting Oats

Oats for grain should be planted between October 1 and November 1.

Make sure you use a certified seed variety and for the correct variety for this section, why don't you contact my office?

If you plant your oats for grain use two bushels per acre. For grazing you need to use four bushels per acre.

One final reminder, plant treat cut into 4-inch slices, pig in egg, then roll in Corn Flakes Crumbs until well-coated; dry on rack a few minutes. Four oil into skillet to a depth of 1/4 inch. Heat. Brown agriplant slices lightly on both sides in heated oil; place in shallow baking pan without overlapping. Sprinkle with seasonings, oregano, parsley and Parmesan cheese. Top each slice with a slice of Mozzarella cheese. Four tomato sauce over all. Bake in moderate oven (350° F.) about 20 minutes, or until cheese melts and sauce bubbles.

Yield: 6 servings, about 2 slices each.

Committee on Influenza Research.

All citizens in the so called "high risk" groups namely elderly persons, all persons with chronic diseases and pregnant women are urged to take the immunizing vaccine early in the fall. No vaccine is available at the Bulloch County Health Department at present.

Individuals desiring to be immunized against Asian Influenza are being advised by the Bulloch County Health Department to see their private physicians.

Health of Dairy Calves

If you are planning to have a healthy group of calves from your dairy cows there are certain things that must be done.

Today, let's concern ourselves with the housing for these calves. The calves should be raised in individual calf pens, and the pens should be constructed so that they can be easily cleaned and disinfected.

By all means keep the pens clean and sanitary, and do not paint the pens with a lead paint, and don't leave those paint cans in the pens.

You should avoid wet bedding and dampness in these pens, and keep the bedding well ventilated, BUT avoid drafts.

There are many more things to consider in raising a good bunch of calves but these are certainly important for you to consider now.
