School seems to be getting back to normal about now. You can tell by looking at different types of Bulletin Boards such as: "Bright Ideas for Radiant Success." Practice is Important. Think About It Much. Thinking About It is no good. Unless you keep in Touch, and "If you don't Read, You Won't Know." It's the wise bird who listens."

Blue Devils win season finale 14-12

By JACK PAUL

The Statesboro Blue Devils used today's toe of Jim Hines to kick two extra points which proved to be the margin of victory over the Ware County Gauchos, 14-12.

The Blue Devils drew first blood when speedy Billy Cone sprinted six yards on a reverse play in the second quarter. A 21-yard pass from Ricky Veto to Kenny Waters was the big play in the 40-yard drive.

Then in the third quarter end Donnie Meeks, playing his best game of the season, blocked a Gator punt and the Devils had the ball on the Ware County 35. Billy Cone raced for 18 yards. Veto got one, Cone three more. Hines slashed for eight yards in three carries and Hines powered ten yards up the middle for the score.

Ware County, led by halfback Ray Tibble, came back and scored twice in the final period, but the Devil defense felled both extra point attempts.

In the game Jim Hines amassed 124 yards which ran his career total to 967 yards and Billy Cone picked up 76, bringing his total to 660 yards.

All-state Candidate Wayne Wiggins led the defensive charges.

THURSDAY, NOVEMBER 15

Read I John 4:1-6
Be zealous to be found by him without spot or blemish and at peace. (II Peter 3:14, RV.)
One day while riding on a train in Japan, I began talking with a young married man, the father of two small children. We got on the subject of happiness. Finally he said, "You who have faith forget how unhappy one can be. If you could remember the unhappiness of those of us without faith, you would be more zealous in trying to help you."

I then tried to recall my life without Christ. His uncertainty, lack of purpose, its burden of loneliness. However, my life had been changed when Christ and I became one. Life took on new meaning; it became purposeful. I entered into fellowship with Him. To be like Him became my goal. In the place of loneliness, I found Christian friends abound. I began to enjoy the fruits of peace.

NOVEMBER 8, 1956
The week of November 12-17 has been proclaimed by May-

the square

BY DR. JOHN MOONEY

With the approach of Alcoholism Information Week it is worth while to look again at the disease of alcoholism which, currently rated as the number four health problem in this country, may in truth be the number one problem.

It is entirely possible that a better understanding of the drinking habits of the American people might reveal that alcoholism is a greater hazard to health and a more frequent cause of death than heart disease or cancer.

Reprinted here are some excerpts from a pamphlet distributed by the National Council on Alcoholism.

Why People Drink.

"When a thing gets out of hand it usually becomes a problem. This is true of a flood-swollen river or a car in a traffic jam.

It is also true of drinking: Alcoholics beverage isn't a bad thing in itself. But like a river at flood stage or a car in a traffic jam, it can lead to problems if misused.

Some 70 million Americans drink. The great majority of them drink for purposes of sociability, relaxation and pleasure. For them drinking is a personal choice; a matter of individual taste. Moderation, common sense, and a respect for both self and others determine when and how they drink. The person who can stop at one or

two drinks is not an alcoholic, even if he or she occasionally indulges in excess. Nor is the steady but moderate drinker. What The Alcoholic Is.

He is one of an estimated 4 1/2 million Americans whose drinking interferes with his daily life.

He is a sick person. He can no more control his compulsion to drink than a diabetic can control his reaction to sugar. When he sobers up, the alcoholic intends to stay sober. But a single drink can start him on the same downward spiral.

He and 4 1/2 million others, who have lost the freedom of choice in determining when they will drink, how much they will drink, constitute one of the Nation's top health problems.

What The Alcoholic Is Not.

The alcoholic is not necessarily a week-weekly person. In most cases he is a compulsive drinker; once he takes his first drink he can't stop drinking, no matter what the consequences to himself, his family, his friends or his job.

The majority of alcoholics are not "skid-row" types. They are not found in the Monday-morning court lineup, in the red-headed and shocked through back streets, or discovered in the emergency ward of the city hospital. Quite the contrary. The club room is located at 32 Siebold Street, Telephone No. 4-2200.

Senior Citizens Today

BY MRS. DON RUSSELL

Senior Citizens today need to be carefully considered what they as an older person might do to help the still older person who may be a shut-in or disabled and unable to get out and attend organized meetings.

In helping others we may also be helping ourselves for what greater joy is there than in doing for others and receiving the reward of their smile and appreciation.

In meeting with groups it helps people to forget their problems of the day and be carefree for a time. Off into our problems are no longer problems when we have had an opportunity to share our thoughts with another. Revive our interests, create new interests, and make new and interesting lives for ourselves.

Recreation so often is thought of as child's play. In today's world recreation is far more inclusive. Any free time activity engaged in voluntarily doing something for the sheer joy of satisfaction in so doing is recreation. Some of the activities may include, music, reading, singing, arts, crafts, dancing, sports, gardening, photography and many, many other things of like nature.

In any community there should be opportunities for seniors or citizens to participate in creative and meaningful activity and social experiences with friends. With age comes the blessing of leisure hours so long awaited. Let us then put into action our interests, create new interests, and make new and interesting lives for ourselves.

Is Courage one of your attributes?

By LILLIAN MORRIS
Is courage one of your attributes? Surely it is. Everyone possesses some type of courage. Perhaps you are not known as the bravest person around, but most likely your adequacy or inadequacy will never be put to a test. Nevertheless, courage is necessary in carrying on our daily life.

"The fact that certain things have worked in the past does not mean that they are proper to meet changing conditions of the future."

"But I always thought that conservation was the preservation of traditions and customs which have proven successful and desirable for experience."

"To a certain extent that's true. But sometimes we find that traditions are hard to shake loose. It is hard to change entrenched habits. Therefore, we need to constantly dig deep into our minds and objectively measure the merits of traditional ideas. We need to lay them out on the table and examine them. If they are good, we keep them. If these ideas block progress, then they should most assuredly be discarded."

"In other words in order to be progressive, one must continuously attempt to change the fabric of our society?"

"No, change simply for the sake of change does not mean progress. We should alter our basic ideas and traditional methods only if we have a better plan or superior ideas to replace them. Also it should be remembered that there may be a need for a change, but the proposed change may not satisfy that need—it may not solve our problem, but create additional hardships."

"In short conservatism does not mean adherence to the STATUS QUO, set traditions or ideas; it means adherence to the philosophy—the philosophy of Burke, Randolph, Locke, and Calhoun."

"The Supreme Court of the

United States give a man the right to open his wife's letters, fair—and never to the country store?"—W. C. Dugan, Vanceburg (Ky.) Lewis County Herald.

Lucy Lake Smith honored on ninth birthday

Lucy Lake Smith was honored on her ninth birthday with a delightful birthday and winter roast Saturday afternoon, with her friends arriving promptly at her home near town. The party guests climbed aboard a long wire trailer which was padded with hay and drawn by a tractor with her father at the wheel. They went merrily along the road through the woods to the lovely pond. They, under the supervision of Lucy Lake's mother, Mrs. Hubert Smith, kindled a fire and roasted wieners. For fun they fed ducks, walked logs and romped in the pasture.

Lucy Lake's guests were Mrs. Mary Watson's fourth grade of the Mattie Lively Elementary School.

Belle and Freddie Blitch, who are neighbors, and little four year old Debbie Smith, who is a daily visitor in the home and master Allen Battle of Ellaville, visiting his grandmother, Mrs. Jones Allen were also included in the party.

Four pain colors blossom into twenty-six colors

Softly muted tints, bright bold accent shades and subtle "in-between" tones highlight the new wall paint colors making a difference in paint stores here this week.

"For all their apparent simplicity, there is considerable mystery involved in the new Oyster White takes on the appealing tint of Lavender Lake. Other colors created from it include: Yarrow, White Pear, Gingham Blue, White Grass and Bone White.

"Three of the four new basic colors we are introducing are almost neutral. The fourth is a deep turquoise shade. Merely by mixing these with selected tinting colors, the four become twenty-six. And the mixed colors run the decorating gamut from deep Ba-cote to a delicate tan called Wild Honey."

Deadline to qualify as candidate in city election is November 21

As of Friday, November 16, at noontime, the incumbent mayor, W. A. (Bill) Bowen, was the only person to qualify as a candidate for the office of mayor. Mr. J. A candidate who wishes to qualify for a place on the City Council must take the specific place he seeks on the city council at the time he pays the qualifying fee and becomes eligible to participate in the election as a candidate. Candidates must qualify with Mr. Julian Hodges, city clerk, at the city office on Schold Street.

Local postmasters take care of getting the cards to the state statisticians and the Statistical Reporting Service in Washington, which conducts the survey.

USDA to make survey Bulloch farms

How many cattle, hogs, sheep and chickens are on Georgia farms? How much milk do the cows give and how many eggs do the hens lay?

The mammoth task of answering these and other questions about livestock on Georgia farms is now facing the Georgia Crop Reporting Service.

To begin seeking the answers, the service will send some 10,000 questionnaires to livestock and poultry producers. These cards will be delivered this week as the first step of the annual production survey conducted by the U. S. Department of Agriculture.

Statesboro's milk shed is found ok

An inspection of the Statesboro Milk Shed has been conducted by personnel of the State Health Department. The purpose of the inspection was to determine the percent compliance of the shed in the interest of the U. S. Public Health Ordinance covering milk.

An inspection of each dairy which sends milk to the shed was made. The local pasteurization plant was also inspected.

The Bulloch County Health Department has been notified the inspections revealed that the Statesboro Milk Shed has a 95.12% compliance with the U. S. Public Health Service Ordinance.

The above high percentage of compliance assures the milk consuming public that the milk supply is produced and delivered to them in a safe and clean manner.
