## The Bulloch Herald—Page 8

Statesboro, Georgia, Thursday, January 17, 1957

**Bill Thornton**  
Continued from page 1

gun. In July, the gasoline and oil meter assembly was moved, inventory received and training established. In August and the first of September, all supporting machinery was received and set in working condition, operators hired and training begun.

"The plant at present has 270 people producing more products than ever before. The schedule is not complete," Mr. Thornton said.

He revealed that at present the Rockwell management is in the process of installing a parking meter assembly and building a 3,000 square foot addition to house a parking and heat treating operation.

He stated that all of the employees are from the Bulloch County area. "The people have adapted themselves very rapidly to the needs of an industrial enterprise," he added. "They are daily accepting more and more of the responsibility for the work they are producing."

"Somebody with its system of promotion from within," Rockwell said, "has been able to replace its management and staff of the Statesboro Division with local personnel who, forming them of the position taken by the club on these bills, meeting of the Woman's Club included a movie on Georgia authors and musicians, with comments by Mrs. E. L. Barnes, regional librarian. A group of voices were presented by Mrs. Patricia Redding and Miss Pat Lamb, voice pupils of Mrs. Gilbert Cone. The program was in charge of Mrs. E. L. Barnes and Mrs. C. B. Holland, chairman of the fine arts committee."

At the beginning of the meeting Mrs. A. Sutherland gave a New Year's prayer and led the group in the Pledge of Allegiance to the flag. The hymn of the month, "Jesus, Lover of My Soul" was sung by Mrs. Gilbert Cone and Mrs. C. B. Matthews, with Mrs. E. L. Barnes at the piano.

The club plans a morning coffee to honor the wives of the staff members of the Rockwell Corporation on Tuesday, February 12, at 10 o'clock at the Recreation Center.

The social hour was in charge of the program committee with Mrs. E. L. Barnes and Mrs. James P. Collins, chairman.

Mrs. Jackie Rowell, chairman of the Mothers' March on Polio, announced this week that the annual march will be a "grand success" this year when they go knocking on every door in the county on Thursday night, January 31, to ask for family contributions to the annual March of Dimes to help "Finish the Job" in the fight against polio.

Mrs. Rowell said, "let's make this the greatest fund raising campaign in history. The Mothers' March on Polio is the greatest of all campaign vehicles in America. It's the thrilling climax to the March of Dimes. History is your make do your part!"

The captains who have volunteered to help are Mrs. M. B. Bonville, Mrs. Wendell Rockett, Mrs. J. G. Altman, Mrs. Frank Gettis, Mrs. C. M. Alston, Mrs. Buddy Barnes, Mrs. Gene O'Brien, Mrs. Jimmy Guntter, Bud Tillman, Mrs. Marshall Thigpen, Mrs. Harold Jones and Mrs. Jim Denmark.

Mrs. Rowell urges all to turn the front porch light of their homes on the night of the march—January 31, and have contributions ready when the knock or doorbell is heard.

A. S. Hunnicutt will represent Bulloch County cotton growers at the bales and half per acre club meeting at Rock Eagle Wednesday, January 30. Mr. Hunnicutt grew 21 bales in 1956 on 13 acres to qualify as a charter member in this new organization. Those desiring to produce a bale and a half or more cotton on their entire crop will be given keys and honored by the agencies sponsoring this program Wednesday.

## Only 10 per cent of small fry have polio shots

This week Dr. Hubert U. King, medical director of the Bulloch County Health Department and William Granger, chairman of the Bulloch County chapter of the National Foundation for Infantile Paralysis, address an open letter to the parents of children in this county. The full text of the letter is as follows: "An extremely serious situation exists in Bulloch County today."

"Only a little better than 10 per cent of our youngsters eligible to receive the Polio Vaccine have been completely immunized with three shots to date."

"What accounts for this situation? How can we explain the apparent lack of interest on the part of parents who just a few short years ago were praying for some reliable protection against the ravages of this disease?"

"It is difficult to explain. Surely the public has been well informed by the press and radio as to the effectiveness of the Salk Polio Vaccine. Doctors, scientists, teachers, polo workers, and many others have recommended the vaccine and have worked to promote the vaccination program. The use of the vaccine for two years has proven its effectiveness beyond the shadow of a doubt. Yet this apparent apathy remains!"

"Perhaps some of this seeming apathy is not apathy at all, but rather, fear. Fear which stems from the unfortunate experience with a small batch of the vaccine in the spring of 1955 early in the program. As regrettable as this incident was, it has resulted in one of the most rigidly controlled and carefully produced vaccines on the market today. Some of the country's leading medical experts serve as advisors on control and production of the vaccine to the U. S. Public Health Service which is directly responsible for its production and testing to insure its safety. As a result, no similar accident has occurred, and over 15 million children have received polio vaccine."

"The Bulloch County Health Department is currently immunizing school children in the county. However, some schools will not be reached until near the end of school which coincides with the beginning of the polio season. So in order to obtain full effect from the vaccine and be fully protected against polio, parents are urged not to wait until the public health nurses visit your child's school—especially if the recommended time between shots has already elapsed. The time to begin protection for this summer—is now!"

"The Health Department and Bulloch County polio chapter strongly urge your serious attention to this matter. In addition, your full support of the 1957 'March of Dimes' is earnestly needed to continue the fight against polio—a fight which is far from over. Your support of the 'March of Dimes' will make possible continued research, medical care and rehabilitation of polio patients, and the reduction of this disease from one of our most devastating diseases to one of minor importance. Your action in securing polio shots and support of this drive will insure a happy future to thousands of Americans who will be spared this crippling disease, and to other thousands not so fortunate who mean the return to a normal and happy life free of braces, crutches, and wheelchairs."

"Please stop and think—act and give!"

The following information is presented in order to answer some of the more frequent questions asked about the Salk Polio Vaccine and the vaccination program:

1. Who is eligible to receive the Salk Polio Vaccine? Under the state and local health department program, only those between six months and through nineteen years of age are eligible. In addition, expectant mothers (any age) are eligible.

2. If there is a surplus of polio vaccine, why can't adults receive it through the health department? The vaccine supplied to state and local health departments is regulated by federal law. The age limit is set at six months through 19 years of age by this law. As such, only Congress can change the age limits. This may occur during the present session of Congress.

3. In the meantime, how may adults get the vaccine? All adults, regardless of age, can obtain the vaccine through their family doctors. The vaccine is now commercially available and may be obtained through the family doctor. Of course, there is a nominal fee for this vaccine and for giving it. This fee varies slightly from community to community.

4. How many shots are necessary? There are two shots given about a month apart to start. These give some—but not complete—protection or immunity. Full protection can only be expected after the third shot which is given about six to seven months after the second.

## Stilson News

Stilson Presbyterians plant corn for the Lord; net \$155.51

By MRS. W. H. MORRIS

In 1955 the members of the Stilson Presbyterian Church started a project of planting corn for the Lord. At that time six families participated in the planting with a total of three and one-fourth acres planted, and a total of 142 1/2 bushels, with a net total of \$155.51, of which \$83.51 of the total went to world missions. However this year only three of the six families planted corn for the church. They were The Thomas Hayes family, the H. N. Shurling family, and the W. H. Morris family, with two acres planted and the total amount of \$76.80 went to world missions for 1956 on January 13. Last Sunday another check for world missions was turned in to the church for \$28.43, making the total \$105.23. The \$28.43 will go for this year. In 1957 we hope to have each family plant corn for the Lord's work.

James Morris and Johnny Sanders of Stilson are now employed at Rockwell Statesboro Corporation. Johnny started work on January 7, and James January 8. They both enjoy working at Rockwell.

Extension daymen at the College of Agriculture estimate that at least 10 per cent of the calves born in Georgia die of sickness and disease before they reach milking age. They say internal parasites cause much of the loss, and add that the use of portable pens—moved to a new area every week—has proved successful on many farms in raising calves free from parasites.

**New Task-Force 57 Chevrolet Trucks**

Six heavily loaded Chevy trucks ran all the way up the rugged Alcan Highway in less than 45 hours! That's cutting more than a full day off the normal running time! They ran right around the clock, stopping only to refuel.

But the important fact about this run was that it proved new Chevy trucks through and through. The Alcan Highway is a supreme test of every truck component. Engines had to

prove their power up high-climbing grades and through washouts. Frames and suspensions flexed their muscles over axle-deep ruts and miles of pounding gravel. "And not a single truck turned back or dropped out due to mechanical failure," states the official AAA report of the test. Every model public its over-all economy by its ironclad ability to stay on the job! Stop by; we'll talk about it.
