Our Grand Jury looks at the hospital

The October term of the Bulloch County Grand Jury took Judge J. L. Renfro at his word when he suggested in his charge on October 28, that they do something beside return indictments.

The Grand Jury, among other things, visited the Bulloch County Hospital and in its presentments, published this week, strongly recommends that something be done to bring our hospital up to the standards of other hospitals of 100-bed capacity.

Their visit revealed sufficient evidence to prompt the county's strongest body of citizens to recommend that the hospital board make efforts to improve the services of nurses, to improve quietness in the hospital and to improve the efficient management of the hospital.

It went further and recommended that the board give consideration to secure "some well-informed person of hospital management to work here some sixty or ninety days to help get our hospital on a self-supporting basis."

The presentments reveal that "we are extremely proud of our hospital and its facilities, but we hear much criticism and several members of this body have had unpleasant experiences."

For years the hospital has been a subject of criticism by many citizens of our county. Many have come to us relating unhappy experiences. We have refrained from airing them in our columns because some who complain loudest are reticent to allow themselves to be quoted. And at the same time many have reported complete satisfaction with the services they experienced when having to use the hospital, and were generous in their praise of the hospital.

Dogwood week

The dogwood trees in our community have just about colored themselves out. For a short period they presented a beautiful picture in red as they went through the preliminary stages of losing their foliage before winter sets in. The lovely colors were in wonderful contrast to their white beauty in the spring as they created delight and awe in the eyes and souls of our community.

Members of the Hoe and Hope Garden Club intend that these seasonal periods of loveliness shall be with us for a long, long time to come.

Last year they inaugurated "Dogwood Week" and had the support of the Mayor and the City Council. During that week the members of this garden club sold dogwood trees at a low price to make them attractive to homeowners as an incentive to buy and plant about their homes.

Not being satisfied with depending upon homeowners to spread this beauty they proposed to plant trees along our streets in plots where they will be the most effective.

We commend these ladies on their project and suggest that

The hospital is a county-owned asset, operated for the citizens of this county. It is being shared with the citizens of other counties. It is operated for and made available to the doctors in Bulloch, Evans and Candler counties. There are those in the county who express concern over the high fees charged by the doctors for operations performed in the hospital while the citizens of the county pay from their taxes the hospital deficits when they occur.

There are those beside members of the Grand Jury who are loud in voicing their complaints about the high cost of the hospital in relation to the services they receive.

If these complaints are justified then something should be done.

And since the Grand Jury recommends that efforts be made to improve its services and management, then let moves be begun immediately to work to that end.

Members of the Grand Jury for the October term of Superior Court are Emory S. Brannen, H. H. Smith Jr., J. R. Bowen, Lemuel Bonnett, W. Reginald Newsome, T. E. Daves, A. B. Garrick, Lamar Smith, Delmas Rushing, C. B. McAllister, Sylvester Parrish, A. C. Tankersley, Mrs. Mammie H. Bonduant, H. L. Atwell, Hudson E. Allen, J. L. Dekle, Felix DeLoach, Jesse H. Akins, Herman Nessmith, D. P. Averitt, W. Linton McElveen, W. W. Robertson, T. W. Rowse, H. G. Anderson, Luther E. Price, Willie A. Hodges and H. C. Mikell.

These citizens, for the October term, made up the strongest body of authority in our county government and their recommendations carry weight and are not to be lightly considered.

Warning enough

To the amateur gardener and the city engineer the sight of burning leaves is a sad sight, but for different reasons.

The amateur gardener sees valuable mulching materials, valuable ingredients to make his soil rich and productive going to waste.

The city engineer sees it ruining the pavement under the ash.

The amateur gardener can't do anything about it. But the city engineer this week is warning all homeowners in the city against the practice of burning leaves and other debris on city streets. He says in his warning that the practice is a fire hazard, that it mars the appearance of the streets and damages the pavement.

He offers two suggestions and points up his suggestions by volunteering the information that the police department will make cases against those who continue to burn leaves on the pavement. That's warning enough.

This Week's Meditation

By The Rev. L. E. Houston Jr.

EXPERTS IN THE UNESSENTIAL

Just this morning I offered my daughter a piece of Chicklet chewing gum only to have her impatiently refuse because it was unlike the kind to which she was accustomed.

Here in a twenty-one-month-old child, I found the same resistance to change which we all about us. Isn't it funny? (Or is it just human?)

Change is an integral part of our society, and more important it is here to stay. Witness the automobile models for 1958. Every piece of advertising emphasizes the changes made and the advantages over the previous model.

Nowhere has changing attitudes and conditions affected our outlook more than in the church. To be sure, this important institution in the framework of our world stands for the enduring, the changeless, and the eternal. But, at the same time, it must be "geared to the times" in its methods and plans if it is to effectively reach needy people with the message of Christian redemption.

This is pointed up in our new approach to the field of Christian vocations. Before, we left the decision of becoming a minister or missionary entirely in the hands of our youth and God. Today we certainly don't tamper with God and His calling people to serve Him, but we are attempting to show our young people the many and varied opportunities which are theirs in some sort of church-related vocation.

If my little girl can learn to like all kinds of chewing gum, she may well be on the way to becoming an expert in the field of human relations.

Spotlight on Statesboro B.P.W. Career Women

Alma Hopper is a charter member of the Statesboro Business and Professional Woman's Club. She has been a faithful and valuable member, serving on many committees and in an official capacity. In May of 1957, she was installed as first vice president of the Statesboro club. Her experience, ability, friendliness, sense of fairness, understanding, and keen interest in the Federation, its members and its purposes qualify her for capable leadership.

Miss Hopper is an employee of the Georgia Department of Labor, in the Statesboro office, having become associated with this department in 1949. Recently she was awarded a cash prize and a citation of merit as second place winner in a contest among personnel of the Georgia Department of Labor. The award, known as the Harold A. Miller Award, is made on general excellence in promoting programs in the fields of employment security and service to the public, and the winner is selected annually from the membership of the Georgia chapter, International Association of Personnel in Employment Security, a professional organization with membership throughout the United States, its possessions, Canada, and other countries.

Recognizing her interest in Farm planning should include an adequate grazing system to obtain livestock feed as cheaply as possible. This recommendation is from J. R. Johnson, agronomist, Agricultural Extension Service.

This Week's Meditation

By The Rev. L. E. Houston Jr.

I witnessed such an effort just the other day when some fifty or sixty youth assembled to hear instructors explain the requirements, only to be told the winter winds to whirl them away to become a part of the earth's soil.

We had read about the amethyst mines in the mountains around Hiwassee and our curiosity led us to inquire from a gentleman at one of the service stations who sort of stumped us with the information "I'm sorry I can't tell you anything about them, you see I'm sort of new here. Been here only seventeen years, but Mr. Paris over there at the hardware store might help you."

Well, Mr. Paris did, he sent out word to Todd Kimsey and Todd came for us and took us in his jeep over to his home on the lake. We got out and walked down to the water's edge. He instructed us in what to look for. There was chlorite, kyanite, rutile, and what he explained is the quartz, amethyst, white, brown, blue and pink corundum, agate, pyrites or "fools gold," magnetite and hematite, and iron ore compounds, quartz, mica, picrolite, magorite, ruby smargarite, garnet and asbestos.

And you would be right, but not in the way you would be thinking. We did have "rocks" and you see we were looking for rubies, sapphires, and amethysts. All started when we drove up into the North Georgia mountains to watch nature at her annual business of painting the leaves of the trees red, gold, pink, yellow before she allowed the winter winds to whirl them away to become a part of the earth's soil.

MISS ALMA HOPPER

The Editor's Uneasy Chair

It was an overcast day. The wind had a tinge of impending bitterness which goes with approaching winter.

We were walking along the shores of Lake Chatuge at Hiwassee, in the mountains of North Georgia. Our head was lowered and our eyes were searching among the millions and millions of rocks left exposed in terraces by the changing water level of the lake.

Ahead of us was Todd Kimsey, teacher of science in the Towns County High School at Hiwassee.

If you and you had been observing us you would have allowed "they got rocks in their heads."

And you would be right, but not in the way you would be thinking. We did have "rocks" and you see we were looking for rubies, sapphires, and amethysts.

MISS ALMA HOPPER

handful of tiny pebbles we were thrilled to learn that we had some garnets. We could hardly believe it for they were just like all the tiny rocks we had picked up and tossed at stray cats in our backyard.

Finally with the wind beginning to bite we gave up our search for sapphires and rubies, and Todd drove us over to the school house to show us the collection gathered together by members of a science class.

It was a wonderful lesson in how a teacher generated a thirst for knowledge in the youth committed to his care during those formative years of their lives.

There in the quiet of the school lab Todd Kimsey, born and reared in these mountains, told of his wandering to other parts of the world, only to feel the constant pull of his home in the mountains. Finally he yielded and now is devoting his talents and love for the youth of his mountain community to a living of science.

He showed us a collection of rocks gathered by the "Rock Hounds" in the ninth grade of the Hiwassee School. He

I didn't realize until not so long ago that there could be a special kind of torture for flower growers and home-styled landscape experts. You could certainly place me in the category with the latter and if you will bear with me for just a little while I would like to unfold for you a sad, sad tale.

YOU SEE, it all started three years ago when we moved into our new home on Vista Circle. Having built our home in the middle of a broomstraw patch it was necessary for us to think in terms of doing something about it.

Then came an answer to our prayer. Just right across the street from us what would happen. Here we could buy our shrubs on credit, ask for free advice and so fix up our little place just like we wanted it.

FOR THREE long years now things have gone along quite well. We have made good progress in our yard and are kinda proud of the effort we have put forth. Alas, this wonderful feeling could not last forever.

As we have increased our labors, even enjoyed cutting our grass, believe it or not, we have grown to love every tree, shrub and blade of grass. Along with the sweat has gone a good bit of money into our little love nest and finally we have decided that with three little

DO YOU weary of doing good? Yes, there is another drive on. It's one you mustn't grow weary of doing good for.

THE BOY SCOUTS organization has done many a deed toward turning boys into the right paths of manhood.

The work begins with the nine-year-old boy as a Cub. Here he is in a Den where a mother and some father, possibly, supervise the activities. At eleven years of age the boy becomes a Scout. The world is wide open for his activities. He works with a Scout Master or under one. He has dozens of fields he may choose from which to broaden his world and for each of these he earns a badge. He may progress through many stages and Eagle Scout is not even the end. Explorer Scouts are for the older boys.

MISS ALMA HOPPER

beautiful plants I've ever seen. It will be in bloom for several days yet.

There is, of course, some consolation in living across the street from a nursery. You do have the privilege of stepping over across the road for a few minutes of quiet to enjoy the beauty of flowers seen at their best in the early morning. Then too, you can share the thrill the nurseryman feels as he watches a new seedling burst into bloom for the first time.

For those who grow camellias there must be at least ten varieties there must be at least three which it seems that they just must have.

You just can't imagine the ache inside when you see a new variety of camellia for the first time it is placed on the market. There it is, a brand new one, just released this year and you just feel like to buy the finest bloom yet produced. You can think of just the right spot in your yard for it but then you remember the grocery bill has to be paid, the kids need some new pajamas and the wife has her eye on a new pair of shoes.

IT ISN'T JUST the camellias which cause the lump in the throat either. There are hundreds of other things you would like to have. The sasanquas, now in bloom in the nursery, are beautiful and if you haven't seen the new Shio-no-saki blooming in the Turner's yard you have missed seeing one of the most

darkened the room and switched on a black light lamp. He placed fragment after fragment of rock which glowed in warm colors of precious gems as the black light flooded each in turn. We watched in awe. As he paraded the pieces in the collection under the light he explained the business of cutting and polishing of gems, pointing out fractures in some, imperfections in others. He told of some of his "Rock Hound" students who have found beautiful rubies and sapphire specimens and lovely pieces of amethyst. Many of his students have private collections.

His enthusiasm and interest and his magnetism has attracted the very young "Pebble Pups" who have collections in the making. He proudly stated that his own daughter, Ann, has a collection "but she is more interested in the stone after I cut and polish goes into her collection."

He told about Dan Paris, the son of H. D. Paris who runs the hardware store in Hiwassee, who has a collection and Dan is just in the first grade in the first grade school, Gail Jackson, daughter of J. W. Jackson, a seventh grade student, has a beautiful collection, though she divides her interest

in her 4-H club work, having recently won a county-wide biscuit-baking contest.

One of the older "Rock Hounds," Gene Smith, who expects to enter the U. S. Coast Guard soon, has one of the fine collections in the community. He has his collection up for display in his parents' restaurant, "Smitty's Cafe." Gene gave us an "Apache Tear," an intriguing black stone which assumes the shape of a tear as one looks at it.

It was here that we became aware that the entire morning was gone. As we prepared to leave Todd gave us a handful of rocks into a glass jar and said, "here take these and I'll make a 'Rock Hound' of you."

Standing beside our car as we pressed the starter button, Todd extended us a sincere invitation to come back to see him and check his rock handling again. And we might do just that.

As we left this young man we kept thinking of his role in that community. With two college degrees and a feeling for educating the young, he has elected to devote his time and talents to those closest to him—the people of that mountain community around Hiwassee.

And in our opinion, formed during those three or four hours under his influence, the community is a better one because of him.

BRIDE-ELECT HONORED WITH LOVELY SHOWER
On Friday evening, November 1, Miss Barbara Deal, bride-elect of November 27, was honored with a kitchen and linen shower at the home of Mrs. Eunice Collins on East Main Street.

The living room was decorated in a pink and white color scheme. A lovely arrangement of pink and white gladioli flanked by white candles was reflected in the mirror over the mantel.

A miniature bride and groom, with pink and white streamers fanning out in all directions, was used as a centerpiece for the bride's table.

The hostess greeted the guests as they arrived and introduced them to the honoree, Miss Jackie Mikol, who sat at the bride's book. In the gift room were Miss Elaine Roberts and Miss Jean Williams.

Mrs. Inman Akins, Mrs. James Brunson and Mrs. Charles

MR. AND MRS. GARDEN CLUB
The Mr. and Mrs. Garden Club met Wednesday night, October 23, at the home of Mr. and Mrs. T. E. Brown on Vista Circle.

Mrs. Hugh Turner is president. Following brief announcements and discussions, Mr. and Mrs. Z. L. Strange gave talks on the planting and care of annuals and perennials.

Arrangements for the meeting were done by Mrs. E. C. Godfrey, one of which started with an unusual root found in the woods which was the basis for pyroanthems. Another, combined with zinnias and marigolds. The original arrangements elicited favorable comments from the members.

Delicious refreshments were served.

Those present were Mr. and Mrs. A. A. Scruggs, Mr. and Mrs. Hugh Turner, Mr. and Mrs. Z. L. Strange, Dr. and Mrs. Hunter Robertson, Mr. and Mrs. E. C. Godfrey and Dr. Farkas.

MRS. G. C. COLEMAN JR.
FETES HALF-HIGH CLUB

Mrs. G. C. Coleman Jr. was hostess Friday afternoon to the Half-High bridge club at her home on Lee Street.

Vases of pale lavender chrysanthemums and yellow roses were used in her decorations.

Halloween cake and coffee were served before the games. Later Halloween pumpkin candy and cake were served.

Miss Maxine Foy received embroidered pillow cases for high. For half-high, Mrs. Jim Watson received silver earrings. A combination pin cushion and tape measure, for low, went to Mrs. Ed Olliff. Mrs. Joe Robert Tillman was given a better warmer dish for cut.

Other players were Mrs. Jack Wynne, Mrs. Ellouvy Forbes, Mrs. Tina Hill, Mrs. Robert Lanier, Mrs. Zack Smith, Mrs. Johnny Deal, Mrs. Sam Brown and Mrs. Gus Sorrier.

MISS QUEEN COLLINS
MISS MARJORIE CROUCH ENTERTAIN AT A TEA

Highlighting the social calendar of the week was a tea given by Misses Queen Collins and Marjorie Crouch at the home of Miss Queen Collins in Pittman Park Sunday afternoon between the hours of 3:30 and 5:30.

Flower arrangements of gladioli, chrysanthemums, and heather and potted plants were used throughout the house.

The hostesses were assisted in serving by Mrs. Geneva Dunham and Mrs. L. V. Tillman. Poured tea and coffee. Chicken salad and open-face sandwiches, individual cakes embossed with pink rose, lady fingers, nuts and

RITA CREECH WEDS LAMAR UNDERWOOD
RITA CREECH WEDS
Miss Rita Montane Creech became the bride of Richmond Lamar Underwood Sunday afternoon, November 3, at the Statesboro Primitive Baptist Church.

Elder T. Roe Scott performed the impressive double ring ceremony.

White gladioli and chrysanthemums on a white column flanked by spiral candelabra with lighted candles against a background of woodwork and palms decorated the bridal area.

In front of the altar, ward and emerald palms were centered with a seven-branched candelabrum. Family pews were marked with white satin bows.

Mrs. W. S. Hanner, organist, accompanied Miss Will Jean White, soloist. Selections used were "I Love You Truly" and "Because."

Mrs. Lamar Underwood is the daughter of Mr. and Mrs. Mike Collins Creech.

Mr. Underwood is the son of Lt. Col. and Mrs. John Douglas Underwood of Laurel, Md.

Ushers were W. J. Webb and James Lamb. Andy Underwood of Laurel, Md. served as his brother's best man.

Miss Hilda Creech, her sister's maid of honor, wore a rose taffeta cocktail dress with empire bodice featuring a round neckline in front with a V-neck in the back. A white bitter sweet velvet cummerbund culminated in the gracefully full skirt.

A band of matching velvet and ruffled net made an attractive head dress. She carried a crescent bouquet of white fugi mums.

Misses Gilda Cowart and Jo Ann Cartee, bridesmaids, wore apple green cocktail dresses and carried bouquets, identical to those worn by the maid of honor.

The blonde bride, entering with her father by whom she was given in marriage, was lovely in her wedding gown of ivory net and Chantilly lace over slipper satin. The charming square neckline was accented with glowing iridescents in a design on the moulded bodice which fastened down the back with lace-covered buttons. The fitted sleeves ended in petal points. The fabulous elegance of the floor-length skirt was enhanced by four panels of lace flounced with accordion pleated net. Her tiered finger-tip veil of imported illusion was attached to a half hat of lace with iridescents and edged with seed pearls. She carried a lace covered prayer book topped with a white orchid.

The bride's mother wore a rose lace dress with a yoke and design of beads and pearls. She wore a rose feather hat with rhinestone trim.

The groom's mother wore an oriental print silk dress with aqua jacket and black accessories.

Both wore white carnation corsages.

RECEPTION IN SOCIAL ROOM
Immediately following the ceremony a reception was held in the social room of the church. Mrs. Dedrick Waters met the guests. Mrs. William O. Brown kept the bride's book. In the receiving line with the bride and groom were their parents and lady attendants. Mrs. Edwin Mikell and Mrs. Louis Anderson directed the guests to the table where refreshments were served. The bride's table, overlaid with a linen cut work cloth, was centered with three-tiered wedding cake topped with a miniature bride and groom, and encircled with ivy. Silver candelabra with silver evergreenes held dainty arrangements of white stock and Pinocchio mums. Silver compotes of nuts and trays of decorated individual cakes were at the end of the table.

Mrs. Robert Fisher and Mrs. Mary Wilkinson were assisted in serving by Mickey Creech, Wanda and Brenda Brown, nieces of the bride. Roberta

BLACKWOOD BRIDGE CLUB
On Tuesday evening Dr. and Mrs. Don Hackett entertained the Blackwood Bridge Club at their home on Donehog Street. Lovely roses were used in the decorations. A congealed salad, assorted cookies, thimble tarts and coffee were served.

For ladies' high, Mrs. J. I. Clement received a flower container. High score prize for the men was won by Hayden Carmichael, Dr. Ralph Tyson won a box of Candy for cut and for ladies' cut, Mrs. J. B. Searee Jr. also received candy.

Those playing were Mr. and Mrs. Joe Lombard, Mrs. J. I. Clements, Mrs. J. B. Searee, Miss Lizzie Norman, Mr. and Mrs. Hayden Carmichael, Mr. and Mrs. Clem Rath, Dr. and Mrs. Ralph Tyson and Dr. Hackett.

EVERGREEN GARDEN CLUB HOLDS NOVEMBER MEETING
Mrs. J. S. Anderson was hostess Friday afternoon, November 1, to the Evergreen Garden Club at her lovely home in Pittman Park.

Yellow chrysanthemums were used in the decorations. The guests were served pecan pie and coffee.

Dr. Zolton Farkas of Georgia Teachers College, guest speaker on the program, spoke on bulbs, with emphasis on tulips, hyacinths and iris.

A question and answer period was restricted to the planting and care of camellias and azaleas.

Members present were Mrs. Anderson, Mrs. Horace Forshee, Mrs. Harry Warren, Mrs. Joe Neville, Mrs. Sam Haun, Mrs. Ken Herring, Mrs. Hal Waters, Mrs. Jerry Howard, Mrs. Seaman Williams, Mrs. U. Z. Brown, Mrs. E. C. Anderson, Mrs. Ed Cone, Mrs. W. M. McGlamery and Mrs. Herman Bray.

LUNCHEON HONORS BRIDE-ELECT
Miss Mary Jo Hodges was the central figure of a lovely luncheon Saturday, October 26, at 1 o'clock at Hodges Party House with Mrs. Maurice Brannen, Mrs. George Bean, Mrs. James Rushing, Ann Fulmer and Sylvia Zatterow as hostesses.

Bronze dahlias, in a bronze bowl, centered the table. Silver bridled bells were attached to the bride place cards.

The hostesses presented Mary Jo a butter spreader in her honor. Mary Jo was smartly attired in a black and white dress worn with a white feathered hat.

The guests were Miss Hodges, her three aunts, Mrs. Marvin Peed, Mrs. J. R. Ross, and Mrs. Thomas Simmons. Miss Mary Lanier, Wendell Hendricks, Laurel Tate, Lanier, Carolyn Hart, Rena Dixon, Evelyn Jones and Claudia Tinker.

MISS BILLY OLLIFF HOSTESS TO ACE HIGH CLUB
On Friday evening Mrs. Billy Olliff entertained the Ace High Bridge Club at her home on East Grady Street.

Dahlias and chrysanthemums were used in decorating.

Lemon cheese cake, nuts and coffee were served. Here the games, later pyramid slatted, waffles, potato chips and Coca-Cola were served.

Mrs. Eddie Rushing, scoring high, won a cameo change purse. Eddie Rushing, with men's high received a brass wall thermometer. Floating prize, Christmas pins, went to Mrs. Hal Waters. Hal Waters won cut prize, a box of Christmas cards.

Others playing were Mr. and Mrs. Fred Hodges, Mr. and Mrs. Seaman Williams, J. E. Owens, Remer Brady, and the hosts, Dr. Zolton Farkas of Georgia Teachers College, guest speaker on the program, spoke on bulbs, with emphasis on tulips, hyacinths and iris.

A question and answer period was restricted to the planting and care of camellias and azaleas.

Members present were Mrs. Anderson, Mrs. Horace Forshee, Mrs. Harry Warren, Mrs. Joe Neville, Mrs. Sam Haun, Mrs. Ken Herring, Mrs. Hal Waters, Mrs. Jerry Howard, Mrs. Seaman Williams, Mrs. U. Z. Brown, Mrs. E. C. Anderson, Mrs. Ed Cone, Mrs. W. M. McGlamery and Mrs. Herman Bray.

STATESBORO HUNTING CLUB OPENS SEASON
Thursday afternoon, October 31, members of the Statesboro Hunting Club met at their club house approximately six miles from Midway, Georgia, for the preparation for the opening of the deer season on November 1.

After storing their equipment and partaking of a hearty meal, the members gathered around an open cut fire for a session of recounting tales of previous hunts and prospects for the present year. Plans were also made and points drawn for the first drive of the season.

On the opening day one buck was downed by Edwin D. Banks and another by Walter Mallard. On the second day Henry W. Banks, Ben Cassidy and Bobby Stubbs each scored a buck. This was the first hunt where Ed Olliff, I. Seaman Williams, J. E. Owens, William G. Tyson, Allen R.
