## New tax program for city to go into effect

Statesboro's long-awaited tax equalization program will be put into effect in the year 1958, Mayor W. A. Bowen announced this week.

"After more than two years of careful and painstaking study," Mayor Bowen said, "the results of the reappraisal survey conducted by the Board of Tax Assessors are ready for use. Every piece of real property in the city of Statesboro has been examined, and appraised at 100 per cent of its market value, and will be placed on the tax digest of the city of Statesboro at its market value. The millage rate will be cut from the present 17 mills to 6 mills. It is not the intention of the equalization program to raise taxes, but to do exactly as the name suggests—equalize the tax structure. Under the new appraisal, every person's property will be returned for taxation at the same percentage of value—a conservative present-day market value—and the millage rate will be reduced by approximately two-thirds. Every property owner will pay a fair share of taxes, in proportion to the actual value of his property. Some tax bills will be raised, others lowered, but the average tax bill should remain approximately the same."

J. G. Watson, city clerk, announced at the same time that the tax books of the city of Statesboro will be open from January 2 through March 31 for the receiving of tax returns. The Board of Tax Assessors will receive returns at City Hall on Mondays, Tuesdays, and Thursdays, from 9-12 a. m. and from 2-4:30 p. m., and on Wednesdays from 9-12 a. m. No returns will be taken at any other time, and no personnel are authorized to receive returns other than the tax assessors. It is essential that every owner of property in the City of Statesboro, including residents of the newly annexed areas, file a tax return for 1958.

## Statesboro up, county down in population

According to population figures estimated by the Georgia Health Department as of July 1, 1957, Statesboro has gained 803 citizens to push its population up to 6,900 while Bulloch County lost 1,439 down to 23,310. These changes have taken place since the last official census in 1950. However, the health department's estimate does not take into account the annexation of the new areas into the city limits yesterday, January 1.

Jim Montgomery, writing in the Atlanta Constitution, suggests that the migration from Georgia farms appears in some respects to "be beefing up the economic life of many communities located in counties that are steadily losing population."

He believes that those who are leaving the farms in counties like Bulloch are finding jobs in plants like the Rockwell Statesboro Corporation which moved here to find more productive workers in non-metropolitan areas.

"The result," says Atlanta economic consultant Phil Hammer, "is the creation of new markets—new consumers for goods and services sold in the small towns."

Neighboring towns showing a similar trend as that in Statesboro and Bulloch County are Waynesboro's population estimate is up 539 to 5,000 while

## 1958 auto tags now on sale at B. C. tax office

Winfield Lee, Bulloch County Tax Commissioner, this week announced that the sale of 1958 auto tags will begin here today, Thursday, January 2, in the county courthouse.

He said that applications for the tags are now available at the courthouse and at service stations in the county. He added that tags will be sold only to persons who live in Bulloch County.

The tax commissioner pointed out that all 1957 taxes must be paid on automobiles and trucks on which owners are applying for 1958 tags. The application itself, is a sworn affidavit that these taxes have been paid, Mr. Lee said.

He suggests that applications should be completely filled out and signatures notarized when presented at the auto tag window in the tax commissioner's office.

"False swearing or forgery on tag applications subjects a penalty of up to \$1,000 fine and imprisonment of not less than one year, nor more than five years, or both," Mr. Lee pointed out. "This is a ruling of the Department of Revenue," he said.

Tag prices are the same as last year he said.

E tags—1 to 3,000 pounds, 1954 models and previous years, \$3.00.

D tags—1 to 3,000 pounds, 1955 and current models, \$5.00.

## Businesses grow 16 per cent in city and county

The number of business concerns in the Statesboro area increased about 16 per cent last year in comparison with 1955, while Bulloch County, as a whole, also increased 16 per cent, according to Wm. M. Gordon, district manager at Atlanta, who bases this statement on figures in the current Dunn and Bradstreet Reference Book.

He said this increase showed up in the requests for financial information going out to approximately 400 business concerns in Bulloch County. In 1955, 342 requests were mailed to firms in this area.

Gordon said his company is mailing out approximately three million such requests in the nation as a whole, an annual practice which is helpful in keeping its credit reference files up to date.

When the principal of a business or his accountant returns a financial statement, it becomes a part of the credit report on the business. The credit report includes a history of the business, a description of what it does, a financial section, and a record of how the concern pays its bills.

On the basis of the information in the report, a rating is assigned, and the businessman is listed in the Dunn and Bradstreet Reference Book. Gordon said the Reference Book is indispensable in conducting credit inquiry, pointing out that 95 per cent of all commercial transactions in the country are made on credit terms.

## Editorials

### We hope it accomplishes its objective

This week Mayor Bill Bowen emphasizes the assurances he made during the latter part of 1957—that the new tax equalization program, to become effective this year, is "not to raise taxes, but to do exactly as the name suggests—equalize the tax structure" of the real property in Statesboro.

For more than two years the City has been carefully studying the problem of property valuation here and now the results of the survey conducted by the Board of Tax Assessors are ready for use.

Under the new appraisal every person's property will be returned for taxation at the same percentage of value—a conservative present-day market value—and the millage rate will be reduced

from seventeen mills to six mills. The end desired is that every property owner will pay his or her fair share of property taxes.

We commend our city officials for the effort they are making to equalize the tax burden being carried by property owners in our community.

Property owners need some relief. They are considered the prime source of revenue on the local government level and they carry a heavy load. They feel that they are supporting many services which benefit others who do not share in the cost.

So anything to equalize the property tax burden will be welcome.

Our hope is that the new equalization program accomplished its objective.

### The New Year

The old year is dead, the new year is born. Humbly, fearfully, we sink on our knees, and slowly, in answer to our prayers, comes back something of the old faith of our childhood, and we rejoice that we are granted one more New Year's day on which to "begin again"—not in our childish way, with utter disregard of the past, but trustingly, patiently, knowing that we must ever carry with us our past, and rejoicing that, with God's help, we may make the future better because of the past. Then, as we rise from our knees, we look bravely forward to the veiled figure that stands at our threshold; we know nothing of what it brings, we know only that it is God's new year. May He bless it to us all!

### Polio—The 2nd look

The decline in new polio cases in 1957 was truly one of the year's greatest blessings. But while we're saying "hat's off!" to the Salk vaccine, let's take a closer look at the polio picture. Is it really over? Can we now sit back and say "goodbye" to one of the most dread, costly and tragic of human diseases?

Tens of thousands of disabled polio patients know better. And so do March of Dimes volunteers now conducting the annual fund drive here and throughout the country. They can show you how visible polio is on the national scene.

The volunteers will also tell you about the 57,800 polio patients who needed care and rehabilitation in 1957. That took \$21,700,000 in March of Dimes funds. What is especially significant is that only 4,800 of them contracted polio last year. The rest—\$3,000—were victims of former years who still needed help. They'll need help this year too, many of them. The March of Dimes has allocated \$21,100,000 for their care and rehabilitation.

These are not statistics. They're real people. The child with the crutches standing on the sidelines watching others play—that's polio. In hospitals and respirator centers, you can hear it in the steady breathing of the iron lung bellows and you can see it in the thin arm dangling at the side.

The March of Dimes continues to carry on its important role in

serving humanity. The success of its current campaign will be measured in the success stories of polio's remaining victims—those who have not only survived the disease but are learning to live worthwhile lives again. The March of Dimes deserves all-out support.

### Welcome!

On this New Year we join the citizens of Statesboro in a resounding welcome to our neighbors in their new status as official residents of the City of Statesboro.

On January 1 the citizens of the areas including Jewell Drive, the Pine Air sections, JEF road, Fletcher Drive, Carmel Drive, Edgewood Acres and Andersonville, came into the city limits of the City of Statesboro.

With them they brought approximately 1.4 square miles of additional area to enlarge the land area of the city to about 4.5 square miles. Their numbers increased the city's population to approximately 10,000.

To make these new citizens feel "to home" in Statesboro the city now includes them in their street lighting service, garbage pick-up, and fire and police protection. They are also scheduled to be included in the city's new sewerage expansion program.

With the admission of these areas into the City of Statesboro they merely "formalize" their responsibilities as citizens of not only Bulloch County, but now as citizens of Statesboro.

We welcome them and say, "Make yourselves to home."

### We sail our cap

For the members of the Southeast Bulloch High School basketball team we sail our ivy league cap with the buckle in back, into the blue yonder over their victory with Augusta's Richmond Academy here Saturday in the G.T.C.-Jaycee annual Christmas basketball tournament.

The boys from S.E.B.H. whipped the city boys from Augusta 66 to 55. They had to defeat Nichols in the first round and the Blue Devils from Statesboro High School in the second round for the privilege of defeating Richmond Academy in the finals.

We commend Coach George Roebuck and his boys of the Southeast Bulloch High School on their fine tournament record.

## THE JOURNEY'S START

### This Week's Meditation

By The Rev. L. E. Houston Jr.

#### NO FROTH IN 1958

IN FURTHERING my economic education the other day, I read an article by Mr. Roger Babson entitled, "Tight Money Called Only a Symptom." Now I'm interested in money, (and who isn't?) especially the "tight money market," since my congregation is on the verge of a building program.

THE THING that impressed me about Mr. Babson's article was not what he said about economics, but how he related our present financial condition to our spiritual development. He wrote: "The real reason why money is 'tight' today is because most people have gone haywire materially seeking money, entertainment, and more

gadgets, including stylish clothes, autos, TV sets, and all the other things their neighbors have." He believes firmly that a nation's material and spiritual development go hand in hand.

PERHAPS HIS most disturbing assertion was that present-day church attendance is largely the "froth of religion." This statement rattled my "ministerial feathers" for a moment until I realized he was striking a vulnerable spot in our religious life. Many of us are grateful for the definite upswing in religious interest and church attendance in recent years. Yet, like Mr. Babson, we know the crux of the matter lies deeper than "filling the pews" every Sunday.

Until our religion affects honesty in business; until it transforms politicians into statesmen; until it brings sincerity to our efforts in the field of human relations; until it rebuilds the dignity of the family circle; it is only the "froth of religion."

WE ARE NOW two days into the new year. I wonder if you included in your list a resolution to keep your religion in force seven days a week? Please, no froth in 1958!

### Spotlight on Statesboro B.P.W. Career Women

NELL GODBEE is the youngest of a quartet of daughters of the late Judge and Mrs. John F. Brannen of Bulloch County, all of whom at different times have been teachers.

Mrs. Godbee received her high school education at Statesboro. She is a graduate of Wesleyan College, Macon. Subsequent to college graduation, she served as director of public welfare in Dodge County, and for eight years taught in the Griffin schools. Three years ago, she and her husband, John R. Godbee, came back to Statesboro and are now living in the home in which she was born, at 134 North Main Street.

MRS. GODBEE is now teaching the fourth grade in the Matie Lively School. She says that "teaching is something that is born in you—something you never stop loving," and that "you have to have a great love for children—and the feeling that you want to help them shape their lives. Because she has this love and feeling for her pupils, she doesn't just teach

them the three R's—she teaches them to be good Americans, to do their best work, and to be kind to one another. Her hobbies are ceramics and music, and these hobbies she shares with her class, firing their handwork in the kiln in her home, and teaching them to play musical "tonettes." Each Spring she has a program to demonstrate their skill.

IN ADDITION to her activities in her profession, Mrs. Godbee takes an active part in the Statesboro Business and Professional Women's Club. For the year 1958-59 she was Parliamentarian and chairman of the committee on the scrapbook which won second place in the state; she was one of the delegates to the state convention in Savannah; she was the club's delegate to the Southeastern Regional Conference in Birmingham, Ala., in August 1957, and made ceramic ashtrays for favors at the Georgia luncheon. She is chairman of the scrapbook committee for the year 1957-58, and co-chairman of the National Security committee.

THE CHILDREN SHOWN with their teacher, Mrs. Nell Godbee, are (reading from left to right) Fran Allen, Cissy Olliff, and Phoebe Beasley.

## The Editor's Uneasy Chair

NEW YEAR'S DAY, like Christmas, means many things to many people. According to traditions and religious practices of the various countries, it is observed the world over, as a time for paying past debts and looking forward to new beginnings. However, in this age of installment buying, to many, many people, it becomes just the first of another month when another installment is due.

IN FRANCE and Scotland, New Year's Day, instead of Christmas, is the day for the exchange of gifts, while Christmas takes the form of a religious festival.

According to the Gregorian calendar, New Year's Day is January 1. The Chinese New Year's celebration, which continues for several days and ends with the Feast of Lanterns, is one of China's principal feasts; the Jewish New Year is called Rosh Hoshanah.

a Christmas offering.

Here it is. It is a take-off of the tired chain letter gimmick. If you can use it, Judson gives his permission.

"Dear Sir:

"This letter was started by a man like myself in hope that it will bring relief and happiness to tired and bored working men. Unlike most chain letters this does not cost a cent. Simply send a copy of this letter to five of your friends who are actually tired and bored. Then bundle up your wife and send her to the man whose name appears on the top of this list, deleting his name from the copies you send your friends. You will receive 16,748 women. Some of them are bound to be a ball of fire and a big improvement over what you had. Have faith and do not break the chain. One man did and got his old lady back.

"Tommy Manville, King Faroux, Joe Dimaggio, Connie Vanderbilt, Artie Shaw, Xavier Cugat.

"PS. At the time of this writing a friend had received 256 women. They buried him yesterday. It took three undertakers to carry his body to get the smile off his face.

"P.S. Don't send a copy of this to Liberate. You may get his brother, George."

Rev. Wood  
speaks at Pittman  
School P.T.A.

The true meaning of Christmas is God's gift of his Son and through Him "Peace on Earth," to those who partake of God's will, was in essence the thought brought out by the Rev. Miles Wood, minister of the Presbyterian Church as he brought words of inspiration to the parents and teachers of the Marvin Pittman School Wednesday night December 18.

Mrs. Emmitt Scott presided over a short business meeting. Mrs. Marshall reporting for the membership committee said they were getting favorable reports from the near hundred notes which her committee had sent out to prospective members. The attendance award will remain in the 4th grade room. This room having won the attendance award in November also.

Mr. Pafford, principal, gave a report on the visiting committee of educators who had recently visited the school, and he explained the school's credentials with the Georgia Commission and the Southern Association of Colleges and Secondary Schools.

Mrs. Z. L. Strange Jr., member of the program committee, presented Mrs. Fred Wallace and Miss Constance Crow who were in charge of a Christmas program. A film, "The Littlest Angel" was shown and appropriate Christmas music was furnished by a trio composed of Cindy Farr, Susan Wallace and Nancy Hamilton.

Mrs. Marshall Hamilton, in a unique way, used a participating audience singing Christmas carols to get better acquainted with each other. The sixth and seventh grades were hosts to a social hour which followed the program.

# This Is The Story of Bulloch County

## Chapter VI - Installment 3 Schools

This week we continue our "Story of Bulloch County" which we began on August 29, 1957.

In the 1850's there was agitation again to set up a state school system, free to all. In 1858, the state provided for an annual appropriation of \$100,000 from the rentals of the Western and Atlantic Railroad for the establishing of free schools. The War Between the States ended this program. Schools were closed in this emergency.

Following Sherman's devastating march through Bulloch County poverty and scarcity prevailed to such an extent that for the time all effort was spent in feeding and clothing families rather than providing for their education.

But as families began to regain some financial security they sent their children out of the county to recognized schools including Bradwell Institute in Liberty County, Reidville Academy in Tattnall County, Chatham Academy in Savannah and to the Monroe Female College in Forsyth County.

A receipted bill from R. T. Ashbury, president of the Monroe Female College, dated December 1, 1877, for Miss Rena Hodges shows the following items: Tuition, \$50.00; music, \$50.00; French, \$27.00; incidental expenses, \$2.00; ornamental lessons, \$27.00; books, \$10.35; picture frames, \$5.75.

The first graduates of liberal arts colleges from Bulloch County were: Daniel Groover, University of Georgia, 1873; John Slater, University of Georgia, 1881; D. N. Nichols, Kentucky School of Medicine, 1886 and S. L. Moore, Emory, 1887.

In the 1890's popular boarding schools for young ladies from Bulloch County were: Lucy Cobb Institute in Athens, Georgia; Cox College at College Park, Georgia; Wesleyan College at Macon, Georgia; Spartanburg College at Spartanburg, S. C.; Presbyterian Institute, Blackshear, Georgia; Georgia Normal and Industrial College at Milledgeville, Georgia, and Nannie Lou Warthen Institute at Wrightsville, Georgia.

In the 1870's an academy was established at Excelsior, the Post Office being called Red Branch. This was probably the best school from the point of scholar-

ship that Bulloch County had ever had.

An advertisement appearing in the "Excelsior News" for July 18, 1879, announced that the Academy was for male and female, the scholastic year being divided into three terms, each consisting of sixty-two days. The first term would open the second Monday in January; the second term would open Wednesday, April 23; the third term, the second Monday in September. Between the first and second term there would be a vacation of one week only. The rates of tuition per term were \$6.70 for the primary class, \$8.35 for the Intermediate Class, and \$10.00 for the Advanced Class. Music was \$10.00 per term and incidental expenses were fifty cents. Incidental expenses must be paid in advance and there must be prompt settlement for tuition at the end of each term. Board including lights and washing, etc., could be had in the town at \$7.00 and \$8.00 per month. The teachers listed in this advertisement were the Rev. J. T. Smith, principal; Rev. J. C. Brewton, assistant; Miss G. A. Padgett, music teacher; Elder W. L. Geiger, general superintendent. The trustees were J. Kennedy, president, J. C. Jones, Dr. J. G. Williams, J. F. Alderman, Remer Franklin, secretary.

There was also nine month's school at Eureka; the post office for which was Zoar. This was near the Clito community. Later when some of the county schools were consolidated Eureka, Beaver Pond, and Clito were joined under the name Clitonreka.

## "Willie Wiredhand" Says

Happy New Year!

WE HOPE YOUR CHRISTMAS was merry and bright...that the kids enjoyed their shining tree...that Santa brought you just what you ordered. We're happy that so many of you asked for—and received—efficient new electric appliances. They'll make life easier for you in the years to come.

IT'S BEEN PLEASANT to serve our members this past year, and every year. We've done our best to anticipate their needs—from our board of directors to the newest of our linen.

We've tried to help them put electric power to the best use. They have responded by using more power each month. We expect to continue to grow—slightly ahead of the demand on our system.

THE GREAT DIFFERENCE between a rural electric co-op and most other business is that our primary aim is service. We are a non-profit corporation, trying to supply electric power to our members as close to actual cost as possible. This has resulted in low rates, despite the scattered areas in which we are privileged to serve...rates as low as anybody's in Georgia.

SO—WE WISH YOU A HAPPY NEW YEAR! Remember, too...
