

Second in a series President of Junior Woman's Club makes annual report for 1957-58

EDITOR'S NOTE—This is the second installment of the Annual report of the President of the Statesboro Junior Woman's Club for the club year, 1957-58.

By MRS. A. M. BRASWELL JR.
During October, your president and Mrs. H. P. Jones Jr., second vice president of the junior section of the Georgia Federation of Women's Clubs, attended the board meeting in Atlanta.

Twenty-three per cent of our membership collected funds for the Boy Scout Fund drive in October.

The Statesboro Junior Woman's Club has as its project the prevention and correction of deafness in Bulloch County children. During the October meeting it was voted to increase the scope of our hearing aid program by purchasing a tape recorder for Mary Mikell, speech therapist for Bulloch County. Since some speech difficulty is due to poor hearing, we felt this would serve Bulloch County in our field of endeavor.

In order to raise money for this tape recorder, a benefit bridge was held at the Forest Heights Country Club one night in October. Tickets for 40 tables of bridge were sold. This was under the leadership of Mrs. Hugh King and the community affairs department. \$82.30 was deposited in the treasury as a result of this project.

November 5, six members of the Statesboro Junior Woman's Club attended the district meeting in Swainsboro.

On November 14, the Statesboro Junior Woman's Club honored the teachers of Statesboro at a tea. The education department under Mrs. Weldon Dupree and the communications department under Mrs. Lynn Laird participated in planning and serving the tea.

After the November meeting, copies and resolutions adopted by the Georgia Federation of Women's Clubs were sent to each of our members, and in turn were urged to speak to their Representatives and Senators concerning the Federation's stand on vital matters.

Representatives were contacted by letter by department chairmen under whose jurisdiction the proposed bills fell.

In December, the annual Christmas party for needy children in Bulloch County provided Santa Claus, toys and clothes for 26 boys and girls in the first, second and third grades. Members of the club donated the toys and collected clothes. The children were served punch, cookies and ice cream, and each was given a bag of Christmas candy. Children and members sang together and Christmas stories were told.

The Conservation Department under Mrs. Joe Woodcock and the U.S. Department of Agriculture recently announced that price support on 1958 crop peanuts will be available by means of non-recourse warehouse storage loans to grower associations, farm storage loans and purchase agreements at a minimum national average level of \$213.20 per ton.

The support price announced today is the minimum price at which 1958 crop peanuts will be supported on a national basis and will not be decreased but may be adjusted at the beginning of the marketing year, August 1, 1958, if, at that time, a combination of the parity price and the relationship between supply and estimated requirements results in a calculation of a higher support price in accordance with legislation covering price support.

The price announced is 82 per cent of the April, 1958, effective parity price of \$260 per ton (announced March 28). Support for the 1957 peanut crop was \$221.40 per ton, reflecting \$1.41 per cent of parity level in August, 1957. The Agricultural Act of 1949 requires support on 1958 crop peanuts between 90 and 75 per cent of the parity price.

TREE FARM AWARD MADE—W. C. Woodrum, Bulloch County farmer, and his son Arthur, are shown receiving a tree farm certificate and sign from Bob Lee, Union Bag-Camp Paper Corporation conservation forester. The award was made in recognition of the family's effort to improve the timber stand on their 380-acre farm. Mr. Woodrum by planting pines has sought to convert a large oak ridge to a more profitable pine type. His son Arthur, an F.F.A. member, managed his own pine seedling nursery last year and planted them on an area set aside for his forestry project.

Carpets Keep New Look

With proper care wall to wall carpeting will retain the new look.

Correct cleaning methods have seemingly been a mystery and controversial even to carpet manufacturers. After much research a product is on the market that cleans and fluffs up beat down carpet paths plus removal of spots thereby maintaining the new look. The textile engineer of a large carpet mill says — "it's the best we've found."

The product is Blue Lustre. It is easily applied with a long-handle brush. One-half gallon of Blue Lustre concentrate cleans three 9 x 12 rugs.

"But how do you pluck a goose?"

A HUNTER'S WIFE called our home economist. She had a wild goose to cook for dinner. "But how do you pluck a goose?" The answer made a hard, time-consuming job much easier.

The purpose of the Home Service Division is to be of help. Usually that means planning modern kitchens and laundries; designing home lighting and wiring; conducting cooking schools; and demonstrating all the advantages of your newest electrical appliance. However, these home economists are always ready to assist with any home-making problem.

There is no charge or obligation for their assistance. It's just another "extra" in good electric service.

This Is The Story of Bulloch County

By BROOKS and LEODEL COLEMAN

EDITOR'S NOTE—This week we publish another installment of "The Story of Bulloch County" which we began on August 28, 1957. Due to pressures for space we have been unable to include the history for the past several weeks.

The DeKalb Guards from Bulloch County served from September 9, 1861 to April 9, 1865. The roll, with the comment by Private Nichols, is as follows:

First Lieutenant S. H. Kennedy, promoted to captain after Seven Day's Battle, wounded at Manassas; promoted to lieutenant colonel in January, 1865; severely wounded at Deep Run on February 6, 1865. He was an excellent officer and brave soldier.
