

DENMARK NEWS

Miss Annette Fields and Mrs. J. R. Griffin have returned from a visit with relatives in North Carolina.

Miss Nannette Waters and Miss Nell McElveen of Brooklet were guests of Misses Virginia and Jean Lanier during the week-end.

Rudolph Ginn of U. S. Navy, has returned to California after a visit with his parents, Mr. and Mrs. J. H. Ginn and other relatives in Savannah.

Mr. and Mrs. J. H. Ginn visited Mr. and Mrs. Cleve Newton and Mr. and Mrs. Earl Ginn in Savannah Sunday.

Friends of the community extended their sincerest sympathy to Mr. W. W. Jones in the death of his brother, Talbert Jones, of Metter, Ga. He was killed instantly in an automobile accident five miles east of Stilton Friday morning.

Miss Sylvia Zetterower visited her aunt, Mrs. Earl McElveen last week.

Betty Zetterower, of Teachers College, spent Saturday night with

Letters

HOW CAN YOU LIVE YOUR TUB ACCOMMODATE?

Not that I think this letter is going to do any good—I just want to let off some steam that's been boiling inside for a long time and now it's coming out in word form.

The ton was left off this morning by a remark overheard about our supposedly swimming pool which is SUPPOSED to be built well—the remark was that we would continue using our tubs at home for a cool dip this summer. Now a tub was built for a purpose and to me it was not built with the intent for anyone to try to swim in one. If so, the designer must have underestimated one's length and width, that goes for the tub and the user.

It is understood that the money has already been collected—all that's needed now is for someone to be supposed to get together to get things started is for them to GET together and if they aren't interested enough in the recreational facilities of which there are (NONE) for the people in this town then get a committee who is interested and will try to get started.

Isn't it puzzling why other towns all around have built and are building pools and other recreational facilities for their homesteaders? Maybe there are too many people who are content with life here. It is well there are a lot who ARE NOT, and the next time you where to go in swimming, think twice before you say "no" and tell him he can find something to do. . . . for what is there to do.

Yep, Statesboro, where nature smiles, which will probably be the only thing smiling around here this summer.

A Disgusted Swimmer.

TO THE VOTERS OF BULLOCH COUNTY

Your generous support in the Primary of March 6th for reelection was deeply appreciated.

I pledge my best efforts, cooperating with the other commissioners, in the administration of all county business.

Sincerely,
Fred W. Hodges.

Fort Bragg, N. C. last week.

St. C. Carroll Miller has returned to Miami after spending two weeks with his parents, Mr. and Mrs. R. F. Miller.

Mr. and Mrs. George White and Willadean and Mr. and Mrs. Bertie White visited Mr. and Mrs. Bertie White at Statesboro Sunday.

Pic and Mrs. Carlos White are guests of Mr. and Mrs. George White this week.

Those reassuring words mean a lot when he's lying in a hospital cot, lonely and worried. Many of our wounded will be in hospitals for months and even years to come. Your gift keeps the Red Cross at his side.

YOUR RED CROSS MUST CARRY ON GIVE!

U. S. CIVIL SERVICE COMMISSION ANNOUNCES EXAMINATIONS FOR SOME PERMANENT POSITIONS

For the first time since March 16, 1942, opportunities for permanent positions in federal employment were announced by the United States Civil Service Commission, through O. E. Myers, Atlanta, Georgia, Alabama, Florida, South Carolina, Tennessee and Puerto Rico and the Virgin Islands. The first announcement of examination positions are for stenographic and typist positions and invites the filing of applications from residents of the Fifth Region, with male and female, veterans and non-veterans, for positions in only one area, the metropolitan area of Washington, D. C. Applications from persons residing in Puerto Rico and the Virgin Islands will be accepted only for appointment in the metropolitan area of Washington, D. C. Applications from persons residing in Puerto Rico and the Virgin Islands will be accepted only for appointment in the metropolitan area of Washington, D. C. Applications from persons residing in Puerto Rico and the Virgin Islands will be accepted only for appointment in the metropolitan area of Washington, D. C.

Applications for 1946 cotton crop insurance are now being accepted by agents and at the AAA office, Mr. J. A. Banks chairman of the AAA county committee, said this week. Bulloch is one of the counties in the state which is eligible for cotton crop insurance. The premium rate for each farm in the county under 75 per cent insurance is 11 pounds per acre and under the 50 per cent acre insurance is 4 pounds per acre. Bulloch to Select A Spelling Champ

The Atlanta Journal is the Georgia sponsor for the National Spelling Bee, for white, grammar schools. Bulloch county will hold an elimination contest on March 25, at 4:00 o'clock at the Statesboro High School building in order to determine the county champion. The county champion will then compete in a district contest and the winner of this will then go to the state. The first prize in the National contest is a \$500.00 Ford and a special trip, with escort, to New York City.

If you wish your school to have a representative in this contest, please hold an elimination contest and send the name of the winner to the County School Superintendent's office by Friday, March 22. This contestant may be selected either by written or oral work, both, and daily grades. Any pupil will be eligible who has not passed beyond an elementary grade, except that no child will be eligible who will reach the age of 16 before the last Tuesday of May in the current school year. Words should be selected from any speller or dictionary used in the grammar school.

Mr. and Mrs. Joe Martin, of Orlando, Fla., are visiting his mother, Mrs. C. M. Martin.

Mr. Frank Williams spent the week-end at Savannah Beach.

Mrs. W. W. Edge is spending sometime in Highlands N. C. with Mr. and Mrs. John Edge.

Mr. and Mrs. C. Thompson, of Columbus, Ga., visited Mr. and Mrs. Z. Whitehurst last week-end.

Mrs. Ed Prentiss has been visiting her mother, at Asheville, N. C.

Mr. and Mrs. Jake Murray and daughters spent the week-end in Alabama.

CO-ED BEAUTY SHOP PERSONNEL RETURNS FROM BEAUTY CONFERENCE.

Mrs. J. E. Thomason, Miss Edna Neville and Miss Lois Arnett and the Co-Ed Beauty Shop have just returned to Statesboro from New York City after attending the International Style Show for hairdressers. This style show is held annually and is attended by all the leading beauty operators throughout the United States. The show featured internationally known hairdressers who gave exhibitions of the latest coiffure styles. While the staff of the Co-Ed Beauty Shop were in New York they had their shop redecorated on Seibald St.

Mr. and Mrs. Jimmie Thomason, Mrs. Edna Neville and Miss Lois Arnett have returned from New York where they spent a week.

Mr. and Mrs. Charles Brannen of Savannah, were week-end guests of Mr. and Mrs. Grover Brannen.

Mrs. Marvin McNeill, of Vidalia, was called here on account of illness of her mother, Mrs. W. H. Goff.

Mrs. Gordon Franklin and Mrs. Inman Franklin spent Friday in Savannah.

Mr. and Mrs. Lester Lee and Joyce Lee and Mr. and Mrs. Jimmie Rogers, of Savannah, were guests of Mr. and Mrs. Clarence Williams Sunday.

Mr. and Mrs. Joe Martin, of Orlando, Fla.,

Representatives of Duke University and the University of Georgia receive checks from Union Bag & Paper Corporation officials, representing the first year's payment for scholarships and fellowships established by Union Bag in the forestry schools of the two colleges. Checks were presented last week when the group met in Savannah, where Union Bag operates the largest plant of its kind in the world, to complete details in connection with the awarding of the forestry scholarships and fellowships. Left to right: Dean Clarence F. Kersting, of the School of Forestry of Duke University, Durham, N. C.; J. J. Armstrong, general manager of the Woodlands Division of Union Bag & Paper Corporation; Dean Donald J. Weddell, of the School of Forestry of University of Georgia, and D. J. Hardenbrook, vice-president of Union Bag & Paper Corporation, in charge of Woodlands.

By Byron Dyer, County Agent

NATIONAL HOME DEMONSTRATION WEEK

May 5-12 will be National Home Demonstration Week, according to Miss Lurline Collier, State home demonstration agent for the Extension Service. The work of home demonstration clubs and their members will be publicized this week by special exhibits, programs and other activities. There are more than 46,000 farm women in 2,800 home demonstration clubs in Georgia.

SHORT COURSE

Nine home demonstration clubs in Emanuel county have had one-day short courses recently to enable farm women to see demonstrations on homemaking. Styling hair make-up, shrinking woollens, pres-

serving ties, using mending tape, testing seed for germination, and garden planning have been subjects for demonstrations. Mrs. Roger Stewart is president of home demonstration council and Miss Sue Stanford is home demonstration agent.

IRRIGATION BENEFITS

Results of irrigation on a wide range of truck crops in Georgia reveal that, together with a sound fertilizer program, bush beans under irrigation yield 300 bushels per acre, tomatoes 200 bushels, string beans 260 bushels, lima beans 80 bushels, turnip greens 9 tons per acre, and Irish potatoes 150 bushels. Everett H. Davis, Georgia Extension Service engineer at Athens, pointed out these facts this week and added that production of roasting ears is eas-

ily doubled with supplement irrigation. Also better quality product are grown under irrigation.

REA PAYMENTS

The record made by Rural Electrification Administration borrowers in paying off REA loans is being cited by Extension Service agents. Mrs. Roger Stewart is president of home demonstration council and Miss Sue Stanford is home demonstration agent. Today less than one percent of the amounts due on REA loans is delinquent more than 30 days. Nearly twenty millions of dollars of principal has been paid in advance of the due date. This record has been made despite the wartime interruptions in construction and the wartime scarcity of electrical equipment.

WORK IN CRAFTS

Home Demonstration clubs in Muscogee County have been doing work in handicrafts, reports Mrs. Bessie Sue Gaines, county home agent. Club women learned weaving, making mats, and pottery.

FARMERS URGED TO IMPROVE PASTURES FOR FEED SUPPLY

Georgia farmers were urged this week by an agronomist of the Agricultural Extension Service to develop their pasture programs and to plant and improve their pastures.

C. D. Alexander, Extension agronomist, explained that the food and feed outlook emphasizes the value of good pasture programs, and that good pasture is important since it provides the cheapest and best feed for farm livestock.

Timber and other growth interfering with pasture plants should be removed, the agronomist said. Grass or weeds and leaves on the land should be worked in to the soil. After that land should be disked or plowed, leaving the surface soil on top, and then worked into a good seedbed by harrowing.

"Lime and phosphate are important in pasture planting and potash and nitrogen are sometimes necessary," Mr. Alexander said. "Lime can be applied before or after soil is prepared, but it is best to apply fertilizer after preparing the soil."

He recommended 2,000 to 3,000 pounds of limestone per acre in North Georgia, with higher applications in mountain areas. Good initial applications of phosphate are 500 to 800 pounds of 20 percent superphosphate equivalent per acre.

For south Georgia he advised 1,000 to 2,000 pounds of limestone per acre. Good initial applications of phosphate are 500 to 800 pounds of 20 percent superphosphate equivalent is recommended in this area.

Pasture seed should be sown evenly and covered lightly by harrowing or by using a brush or roller. In either case, the area should be rolled to compact the soil about the seed.

"Use seed of high quality and pasture plants that will give the best grazing," Mr. Alexander urged.

CHICK GROWING PROJECT OPEN TO 4-H MEMBERS

A chick growing project designed to encourage 4-H club members to start poultry enterprises was jointly announced this week by H. W. Bennett, poultryman, and R. W. Benson, assistant state 4-H club leader for the Agricultural Extension Service.

All of Georgia's 100,000 4-H boys and girls are eligible to participate. Messrs. Bennett and Benson explained, in pointing out that this project will increase poultry and meat and eggs as well as train 4-H boys and girls in the care, feeding and management of poultry.

To participate in this project, the 4-H member must start at least 50 baby chicks before the first of May, the extension service workers pointed out. The 4-H clubber must care for the chicks and keep records of expenses, receipts and other items in connection with the project. The 4-H boy or girl must also write a short report on the project.

"Special awards will be given to 4-H members who do outstanding work in this project," they explained. The project is sponsored by the Extension Service in cooperation with the Poultry Science Club of the University of Georgia and a large feed manufacturing concern. (Standard Milling Company.)

"One 4-H boy and one 4-H girl in each of the six Extension Service districts will be awarded 100 standard-bred chicks from R. O. P. trapped stock and 100 pounds of starting mash for demonstrating good poultry management practices," they announced. "The next 50 chicks and 50 pounds of feed. Fifty other members will be awarded one-year subscriptions to a national poultry magazine."

Four-H club members may secure further information about the details of the State 4-H chick growing project from their local county agricultural and home demonstration agents.

BEEF BREEDS
Three breeds of beef cattle—Hereford, Aberdeen Angus, and Shorthorn—are popular in Georgia. The Agricultural Extension Service reports either one of the breeds will do well.

PLANS BEING MADE FOR 4-H CLUB ANNUAL STUNT NIGHT

Plans will be complete for the 4-H club annual stunt night Saturday afternoon, Dolmas Rushing, Jr., president of the county council, announced in making a call meeting for the council at 5 P. M. at the Woman's Club.

Mr. Rushing stated that this meeting was to replace the one scheduled for earlier in the month but had to be delayed due to the many basketball tournaments. The stunt night will be at the April meeting of the council.

The group of clubbers that are to attend the tri-county council meetings will leave for Sylvan immediately after the local meeting, Mr. Rushing stated.

HOE WASHING

Demonstrations on home law-dressing have been given to home demonstration clubs in Greene County, according to Home Demonstration Agent Mrs. Nelle Thrash. Washing machines and home law-dressing were discussed during the demonstrations.

FUTURE IN FRUIT

The war has caused many changes in the American diet and taught us new ways to preserve health through eating all types of fruits and vegetables, explains George H. Firor, Georgia Extension horticulturist. He says quick freezing, dehydrating, and other forms of processing fruits promise a new era for the fruit grower.

HOME DEMONSTRATION CLUB NEWS

HOME AGENT GIVES TIPS ON STORING OF FROZEN FOODS
Arranging frozen foods systematically in the freezer locker or the home freezer unit will help the homemaker save time in taking the foods when they are wanted and will make it easier to keep up with the supply of each food.

Miss Irma Spears, home demonstration agent, told Bulloch County homemakers that the sharp freeze compartment and stored in the proper box.

Other helpful facts which label might contain, she pointed out, include the number of servings in the contents of a package, the variety of vegetables or fruits and the amount of sugar used in packing fruits. This information will show the meal planner whether the package which she is opening is peaches or apples and how many packages are needed for serving the meal she is planning.

"Homemakers have worked out various devices for recognizing and locating foods quickly," Miss Spears said. "One way is to use different colored string, paper or labeling pencils for certain foods. Mesh bags may be slipped over boxes of the same product or several packages of one food may be tied together with cord."

"It is a good plan to keep an inventory of foods which go into the locker with dates, and then check them off as they come out," she added. "By following this procedure it is possible to know just how many boxes of each product are still on hand."

The Home Demonstration Club women of Bulloch County are thinking of their spring wardrobe this month.

They are particularly thinking about the small things that make a dress look well finished, such as collars, buttons and buckles.

These clubs are finding out it isn't necessary to buy all these things. Every home maker has some old buttons and buckles around that has been covered over. These could easily be recovered with just a little time and a little material. There are lots of ways of making collar and cuffs but they find lagging most interesting.

And neither is it expensive and neither is the thread, these can be made with very little expense and makes a dress look much more expensive.

These are just a few of the small things that put "finishing touch" on dresses and suits.

GEORGIA 4-H'ERS MAY OBTAIN WAR HOMING PIGEONS

Trained homing pigeons—20,000 strong—are interested in quitting military service and joining up with 4-H club members, according to information from Washington, D. C.

To be more specific, this bunch of pigeons, now honorably discharged by the U. S. armed forces, are available to interested 4-H boys and girls who would like to give at least a pair of them a home.

The Army Signal Corps will furnish a certificate of service for each bird, giving its wartime record. According to the present plan, 4-H'ers will be able to secure the pigeons by paying only the transportation cost.

"We have, therefore, offered our cooperation," continues the Washington message, "in order that 4-H boys and girls may acquire trained bloodstock homing pigeons for the purpose of raising birds for sport and recreation."

Georgia 4-H members should contact their local Extension Service agricultural or home demonstration agent for information about securing the pigeons.

Right Way to Sow Seed Lessens Work and Waste

Bean Seeds Sown in Pairs, Four Inches Apart, Insure Even Stand.

There is good reason for sowing more seeds than will be needed to grow; but when this is overdone, not only is there a waste of seed, but unnecessary work is created in thinning out. Care in sowing will be repaid many times by reduced work later.

Seeds that germinate slowly, such as carrots, parsley, and parsnips, should be sown more thickly than others because the seedlings are feeble, and the force of many acting together helps break the soil crust and bring the sprouts to the surface.

Liberty H. Bailey, dean of horticultural teacher, expresses this opinion: "It is much safer to sow even excessive amounts of seed, than to sow just as many as are theoretically needed on a basis of the number of mature plants to the row. Thinning is a process of selection, and the best are allowed to remain. It is evident the chances of securing the best are greater when the gardener leaves one plant out of ten, rather than one plant out of three."

But real selection is impossible if seeds are sown so thickly the roots of the tiny plants become entangled, and it is impossible to remove single plants, without disturbing neighbors. The thickest sowing therefore should allow each seed sufficient space to develop as an individual.

The surest way with small seeds is to take a few in the hand, and let them fall through the fingers into the drill which has been prepared. Get close to the ground, and with a little practice you can quickly acquire control so that the seeds will be evenly distributed, each sufficiently distant from the next to prevent entanglement.

Keep the seeds in line as well as you can. It helps to let the garden line which was used in making the drill remain in place until the seeds have been dropped.

It helps to mix the very small seeds with sand before you begin to sow, using two or three times as much sand as seed. This spreads the seeds out better.

Large seeds may be sown in pairs, spaced at the distance plants are to stand. If both seeds grow one plant of the pair can be pulled up. Bush beans, for example, give good results when sown in pairs four inches apart in the row. By sowing seeds in pairs four inches apart, an even stand is assured. In the case of beans, even if thinning is neglected and the twin plants are allowed to mature together there is little harm, but with plants of a different habit, thinning would be essential.

The two photos show the 1945 Blue Devils in action on the local football gridiron. Coach Ernest Teel starting from scratch last fall developed one of the best football teams in the district and played in the finals for the championship but lost to a strong Lyons team. Read the Sportscope for the outlook for the 1946 Blue Devils.

Blue Devil Sportscope

BY MIKE McDOUGALD

Come September, 1946 and a new football season. The Blue Devils of 1945, minus the boys who go with the winds of graduation, will be battling it around with the old pugilist. Maybe you are wondering what the Blue Devils of 1946 will look like. I went to the 348 football orator—Coach Teel. He gives me the run around that he is no "tomcat." "Sure," says L. "I'm neither, and I can't see Mr. Sherman hiring me as football coach either," so with that snappy comeback he gives me the dope.

"You tell your two readers," he means Mama and Horace. "Horace is my brother," that they know as much as I do. Now we're getting somewhere. We know as much as the coach.

"What about the line? I asked. "Well have a better line," he said.

"I'll be better than last year. And we'll be strong at center. Robert Parrish should hold the pivot with the best on any high school team. The guards are half-pints. Gene Ray, Donald Hester, Bucky Atkins, Ashton Cassidy—but don't mistake me—there's a fire in a half-pint. (Aside to the boss—coach says I gonna be a good line backer. I get anything extra for that?)

In the tackle department there will be two letter men back, Tal-madge Brannen and Harold Waters. Sydney Peskin will tangle with these two for one of the two tackle assignments. Veteran Louis Simmons will clinch one end. The other end will be messed up until Earl Alderman and Brannen

Prosser get it straightened out. And Manchu the Magician worked on the backfield—with graduation all the 1945 lettermen will just vanish. So there should be some fun watching the boys manuevering for positions in the ball fighting section of the team. Coach is working on Ben NeSmith, Harold DeLoach, and George Brannen. "I'm looking for a quarter-back," allows "The Man." He's got plenty of materials but "They're either too young or too old" has become his theme song. The young ones need training and the old ones need a pension.

And "The Man" left me muttering under his breath. "We'll be in there fighting 'em all the time... but I wanna quarter-back... they're too young... fit in there too... watch that end..."

The District Trackmeet is coming up April 19-20. This list will give you an idea of who's going to do what.

FIRE CHIEF ADVISES BUSINESS TO PUT IN FIRE EXTINGUISHERS

The Statesboro Fire Department was called out Friday morning at 4 o'clock when Wallace Jones' house caught fire.

Following a shot from a gun, which started the fire, the department reached the fire in time to save most of the building. The family is still living in the section of the house not burned.

Logan Hagan, fire chief states that this was the second call for the department in three months. During that time they have checked on eleven grass fires.

Mr. Hagan is urging business building owners to place fire extinguishers on their property. "It is not only protection against fires, but it reduces the cost of fire insurance by five per cent," he said.

REGISTER WINS ATHLETIC CLUB BASKETBALL CHAMPIONSHIP

The Register won the first round of the Athletic Club basketball championship. The Register AC invitation basketball tournament held last week.

The Register A. C. team defeated Swainsboro in the finals Saturday night, 39 to 20.

Teach Sgt. and Mrs. Francis H. Hunter are now at Drew Field, Ft. Lauderdale, Fla. They spent the week-end here before reporting to Sergeant Hunter's new assignment.

March 19, Evelyn Blanchette, daughter of Mr. and Mrs. Alton R. Lanier, spent the week-end in Statesboro.

Yes, He came down from heaven and appeared with Jesus in the mount of transfiguration. 7. In coming from the 15th century down to the 4th century B. C.

A signalman second class, Mays was assigned to the carrier in March, 1944, and participated in the Naval engagement at Luzon, Iwo Jima and Okinawa. Following the end of hostilities the ship was ordered back to the States and assigned to the "Magic Carpet" fleet, making trips to Tokyo, Oshawa, Guam and Hawaii. He was detached from the ship at San Diego on March 14.

A veteran of 32 months' Naval service, Mays worked the shipboard campaign ribbons: Asiatic-Pacific Theatre with three battle stars, Philippine Liberation with one star American Theatre, and the Victory ribbon.

Mays entered the Navy in July 1943, and received his preliminary training at Great Lakes, Ill. He also attended the Naval Signal and Radio School at the University of Chicago, before being assigned to overseas duty.

Son of Mr. and Mrs. Gordon J. Mays, of Statesboro, he is a graduate of the Statesboro High School and later attended the Georgia State Teachers College. Mays plans to take a refresher course and then will enroll at the Georgia Technical University this fall under the GI Bill of Rights.

Excelsior REA Reports Assets At Metter Meeting

The Excelsior Electric Membership Corporation with headquarters at Metter, last week, reported assets amounting to \$542,787.21.

A financial statement was presented to the membership at a meeting held in Metter, March 20 when nine directors were elected for the next year.

OUR WORLD

AMERICAN JUNIOR RED CROSS

Over 200,000 members of the American Junior Red Cross through their National Children's Fund are aiding in the rehabilitation of children in war-devastated areas the world over. This enrollment poster for 1946, entitled "Our World," was painted by the well-known artist Amos Sewell.

32 Kindergarten Kids Did Not Forget The Needs of The Red Cross

There is one group in Statesboro who did their part in the recent Red Cross Drive. 100 per cent.

32 youngsters attending the kindergarten classes of "Sunshine Kindergarten" contributed \$16.00 to the Junior Red Cross Drive. Last year they contributed 100 per cent.

The class included: Patsy Rocker, Nancy Kelly, David Haygood, Phoebe Kelly, Jo Ann Fuller, Betty Joe Brannen, Barbara Brunson, Maxine Brunson, George Ann Prater.

Red Cross Drive Goes Over Top

The 1946 War Fund Drive for the Red Cross in Bulloch county and no further effort would be made to collect additional funds. The committee was high in its praise of the solicitors and workers who put the drive over within a ten day period. The Committee also took occasion to thank the contributor to the fund whereby the contribution was \$1.00 or \$10.00.

Fine Herd of Cattle To Be Sold At Local Year April 3
