## Tobacco Market to Open Here On Thursday, July 22; Growers Ready

Bulloch county tobacco growers  
will be ready for the weed mar-  
ket to open on July 22—prob-  
ably the nearest ready they have  
been on opening day in several  
years.

If the 1948 tobacco crop could  
remain in the pack-house another  
month or two, the quality would  
be somewhat improved and the  
value of the tobacco increased.  
However, very few growers in  
this section have pack-houses.

The market has always opened  
too early to permit the cured to-  
bacco to remain in pack very  
long. The growers have felt, for  
this reason, that it would not be  
worth the cost to construct pack-  
houses.

There are many arguments for  
early opening of the Georgia to-  
bacco markets. Tobacco is a sort  
of side line in this county. The  
early market gets the growers a  
relatively small crop out of the way  
before the other crops come on  
for harvest. It also helps to main-  
tain the loose leaf marketing  
system. Buying interests can take  
the time necessary for the de-  
handling of loose tobacco and not  
have to hire additional buyers  
and handlers. It prolongs the  
working year for these groups.

The argument for not opening  
the market early is simply that  
the quality of the Georgia toba-  
cco is not as good as it would be  
if held in the pack-house 30 to  
60 days longer.

The 1948 crop should be about  
equal to the 1947 crops in pounds,  
with less acreage this year, since  
local growers spaced it closer in  
drill, fertilized it higher than  
ever and have a 15 to 20 per-  
cent better stand than they had  
in 1947. Despite the 28 percent  
reduction in acreage, the pound-  
age will probably be here in 1948.  
Indications are that the quality  
will also be better. The export  
situation is materially better  
than in 1947 and the price sup-  
ply is approximately 4 cents  
higher.

Discussions will also be made  
at steps during the morning.  
Following the lunch hour, the  
group plans to visit C. J. Mar-  
tin's corn and forestry demon-  
strations, R. L. Roberts' pas-  
ture and corn, J. T. Cressy's  
pasture, J. A. Bunch's pasture  
and cattle herd, John Cressy's  
corn and cotton, B. B. Deal's  
corn following lupine. The tour  
will end at A. P. Murphy's where  
a discussion will be held on the  
afternoon steps.

The survey will be an exhaus-  
tive study of the assets of this  
section which might prove at-  
tractive to industrial interests.  
When the survey is completed  
a thorough analysis will be made  
and put in form to be presented  
to heads of industry, that they  
might have a picture of States-  
boro and Bulloch county.

The survey is a joint project  
promoted by the Junior Chamber  
of Commerce and the Chamber  
of Commerce.

### A HOLE IN THE GROUND

This "Hole in the Ground" represents the unfinished Swimming Pool. We are leaving it here as a constant reminder of our need to complete this project for the young people of this community.

## Let's Not Make It Harder

THIS WEEK the city officials of Statesboro are mailing letters to owners of property along the new right-of-way for U. S. 80 through the city. By the time The Herald is delivered these letters will have been received.

Some of the property owners will be pleased, and will comply with the proposal contained in the letter.

Some of the property owners will not be pleased and will not comply with the proposal contained in the letter.

The reaction of the property owners will be in direct proportion to the degree of their civic consciousness.

For each letter will contain an offer from the city to pay a certain sum of money for each piece of property along the new right-of-way.

The sum offered was arrived at in a fair and equitable manner, one approved by conscientious businessmen.

It is conceded that some property owners are going to be affected by the new right-of-way more seriously than others. Homes are going to be moved. Properties will be split and divided.

The city is now completing details for this new route. The contract for the four-lane highway will be let the latter part of the month.

Property owners who do not accept the offer as made by the city will be faced with condemnation proceedings, to begin on July 13.

We take seriously our slogan, "Where Nature Smiles and Progress Has the Right-of-Way."

The new right-of-way for U. S. 80 means progress. A four-lane drive—to be one of the finest in the nation—to move through a section of our city.

Progress cannot be held up. We must move forward. Let's do it together.

Let's not make it harder than it is already.

## We Toss Up Our Hat!

RECENTLY the Atlanta newspapers went overboard editorially for a youth, Hugh Radcliff, who pitched for the Thomson High School baseball team.

The occasion for the editorials was a remarkable game of baseball in which Radcliff struck out 28 men, which is something of a rarity in baseball.

No-hit games by pitchers in any baseball league is something over which one might toss up one's hat.

Pitchers who chalk up a no-hit game find their names in the newspapers.

And so, this week we go overboard for a Statesboro youth who pitched a no-hit baseball game.

Jere Fletcher, 13, son of Mr. and Mrs. Fred Fletcher, pitching for the North Main Cardinals against the Bulldogs, in the City Junior League, went nine innings without giving up a single hit, and fanned twelve men.

That's some pitching—in anybody's league.

In the same game, a youth named Bobby Newton, of the Cardinals, got four hits out of four trips to the bat. That's good hitting—in anybody's league.

Even the fast baseball played by the Statesboro Pilots in the Ogeechee League fails to overshadow the baseball being played by these kids in the Junior League.

And we toss up our hat in admiration.

The Almanac Says the Weather this Week On...

TODAY, THURSDAY, July 8, will be stormy.  
FRIDAY, July 9, will be stormy.  
SATURDAY, July 10, will be rainy.  
SUNDAY, July 11, will be rainy.  
MONDAY, July 12, will be rainy.

OH, might we all our lineage prove,  
Give and forgive, do good and love;  
By soft endearments, in kind strife,  
Lightening the load of daily life.

—J. KEBLE.

It was wonderful while it lasted.

But, as we sit here sweltering in the heat of Bulloch county, the whole time seems but a dream—a pleasant dream that ended too soon.

Our vacation.

Over and done.

SHERIFF STOTHARD DEAL is back home after three months in Washington, a graduate of the Federal Bureau of Investigation National Academy.

Sheriff Deal is one of 55 selected law enforcement officers coming from 32 states, the District of Columbia, Canada and Puerto Rico.

Stothard and we finished high school together back in 1923 and Tuesday afternoon, while we were talking about his experiences in the academy, we could not help remembering our high school days.

He sat just ahead of my ice Zetterower and we sat in the desk behind her. There was Stothard, Robert Donaldson, Basil Cone—all right there in that corner.

We used to worry Miss Mobley, our Latin teacher, with Jews harps. Stothard would give his a twang and Miss Mobley would try to locate the source of the twang.

She would approach Stothard's desk and we would get in a low humming strum on our harp and Miss Mobley would begin to become a little confused—then someone further along would set up a twang on his harp to further confuse teacher. She would move along the row of desks with twangs sounding out one at a time, from several spots in the room. It was all very confusing—until Mr. Monts came in. Then everything became just right.

Those were the days when school was something that interfered with the more important thing in a young person's life—like dates, and coming to town, and fishing, swimming in the creek, playing baseball.

But Stothard allows as how going to school at the FBI National Academy was something else. You went to school for keeps there.

His study there covered 330 subjects, dealing with such matters as police organization and administration, traffic control, firearms training, investigation techniques, and many others pertaining to the modern crime problem.

Word of Stothard's success in crime detection here in Bulloch county went ahead of him. He was asked to explain to the others in the class how he worked.

Bulloch county should be proud of her sheriff. It is no easy matter—graduating from the FBI National Academy. He is now better equipped and trained to do a better job. It is believed he is the only "country" law enforcement officer ever to attend the academy—and Bulloch county will benefit from his training experiences.

## IT DIDN'T HAPPEN HERE!

Editor's Note: This column is designed to create dissatisfaction with the present status of Statesboro. It will consist of stories of what other communities like ours are doing, with the hope that Statesboro might realize we must be continually alert to maintain the classification of "A Progressive City."

Statesboro is entered in the Georgia Power Company's Champion Home Town Contest.

Here is what some of the other towns in Georgia are doing in competition for the cash prizes to be awarded:

ELBERTON closed up lock, stock and barrel on June 23—and all the citizens pitched in to do a thorough cleanup job.

MILLEN folks are landscaping their property, and the city is doing the same to public property.

PEMBROKE declared June 15-30 as Clean-up and Paint-up Time. The city fathers of our neighbor really did something about it. They put on a force of

men and as they reached a piece of property that needed cleaning up, they did it, and sent the bill to the owner for this service.

WHAT IS STATESBORO DOING? LAVONIA has a new swimming pool and recreation building, and a new American Legion community house.

## Soil Conservation Worker Points Out Soil Saving Needs

The proper treatment and use of soil is basic to all other phases of an agricultural program, said Mr. Kelly, soil conservationist of Bulloch county. We cannot hope to have a permanently productive agriculture until we are using every acre of land according to its capabilities and treating it in accordance with its susceptibility to erosion, he points out.

Mr. Kelly is among the leaders of the county who are working for improved conservation practices by local farmers. He urges everyone to participate in the state-wide observance of "Conservation Week," being observed next week upon an official proclamation of Governor M. E. Thompson.

Agricultural leaders, workers and clubs throughout the state are calling attention to the progress made in conserving Georgia's land, resources and farm products.

Mr. Kelly explained that the

primary condition which has made our erosion problem so serious in the Cotton Belt was the clearing of the natural vegetation from the sloping lands by early settlers. In this climate, the productive capacity of much of this highly vulnerable land will be permanently damaged unless it is placed under a sound conservation farming system.

Research being conducted on the erosion situation in the Cotton Belt has divided the land into four classes, said Mr. Kelly. The first of these classes is the practically level land, where erosion is not a serious problem and row crops can be grown continuously with summer and winter legumes to supply the organic matter.

The second class is the land of gentle slope, about three percent, where erosion is moderate. Terraces and contour culture are recommended, crop rotations are necessary and, if possible, should consist of 50 percent close growing ground cover and 50 percent row crops, although cover crops with plenty of summer and winter legumes are recommended.

The third class, continued Mr. Kelly, is the land of moderate slope, about seven percent, where erosion is progressing rapidly. Crop rotations with two-thirds close growing ground cover and only one-third crops are necessary to hold soil losses to a minimum, and terraces and contour culture are necessary.

In the fourth land class are the steep slopes, over 10 percent. Erosion is serious here, he explained, and in many cases all the topsoil is gone. Perennial vegetation, such as hay and pasture crops, or woodland is recommended, with not over one row crop in five years and then with a perennial base of kudzu or sericea lespedeza.

During the row crop year of a rotation, the only practical way soil and water losses can be reduced, aside from terracing, contour culture and strip cropping, is by the addition of organic matter, said Mr. Kelly. This may be either in the form of a surface mulch or plowed into the soil.

The plant residues tend to reduce surface sealing, and increase the water intake. They promote the free movement of water and air in the heavy soils, the reason why close growing crops are alternated with row crops, he said.

## ... a Lot of Little Things

**FOR SOLICITOR GENERAL**  
I here by announce my candidacy for the Office of Solicitor General of the Ogeechee Judicial Circuit of Georgia, comprising the counties of Effingham, Screven, Bulloch, and Jenkins.

I made the race for this office in 1940 and carried two of the four counties in the Circuit and made a good showing in the other two counties.

Effingham County has not had either a Judge or a Solicitor of the Superior Court since the creation of the Ogeechee Circuit. For this reason, I feel that my candidacy should be given consideration.

Through my years of experience as a practicing attorney, I feel I am qualified and capable of attending to the duties of this office, and I earnestly solicit your support and will appreciate your vote.

WALTON USHER, Sincerely,

### FOR REPRESENTATIVE

To the People of Bulloch County: I am a candidate for Representative in the General Assembly of Georgia, subject to the rules of the Democratic Party, in the State Primary, to be held September 8, 1948, for the place now filled by L. M. Mallard; and I shall appreciate your support in my race. Every consideration will be given to the agricultural, business and school interests of our people should I be elected.

Thanking you, I am, Respectfully yours, A. J. (ALGIE) TRAPNELL, (tlf)

### FOR JUDGE SUPERIOR COURT

To the people of Bulloch County: I am a candidate for Judge of the Superior Courts of the Ogeechee Judicial Circuit, subject to the rules of the State Democratic Primary to be held September 8th, next.

My record as your former Solicitor General and my qualifications as a lawyer are known to you. I am well acquainted with the people of this circuit. The problems confronting you in law enforcement, and in the administration of the courts are known to me by experience. My age and active practice in the Courts naturally fit me to give you an untiring and efficient service as Judge of your Courts; and I pledge to you energy, promptness and justice in fulfilling the duties of this office.

Thanking you for your help and influence in my campaign, I am,

Sincerely, W. G. NEVILLE.

### FOR SOLICITOR GENERAL

To the People of the Ogeechee Judicial Circuit: I am asking you for a chance to serve you as Solicitor General, and am a candidate for that office in the State Democratic Primary of September next, subject to the rules of the same.

For many years I have tried to prepare myself to render you a valuable service as your Solicitor General. I have had a thorough legal training, and have practiced law actively, six days a week, year in and year out, at the Bar of the Ogeechee Circuit since 1935, except only for the war period when I served in the Armed Forces.

I have served for a number of years as County Attorney, as a member of the City Council of Millen, and have held other positions of public trust. I have been, and am now, serving as Judge of the City Court of Millen.

My experience also includes the trial of numerous criminal and civil cases. In these criminal cases I have often been associated with the Solicitor General as Special Counsel over a period of thirteen years, and have had valuable experience in the prosecution of criminal matters in the Superior Court.

I earnestly ask for your vote and support, and pledge myself to faithful service in your behalf.

Sincerely, MILTON A. CARLTON, (tlf)

# Features All's Fair

It's heavenly on vacation to be as lazy as you choose—Eat a bit, relax a bit; read a book, and snooze. But soon these things grow stale, they no longer amuse. You wonder if you're missing' out on a spicy bit of news—'Ting-a-ling! Hello, what's that? Where's my pencil? There's no time to lose.

And as I write, I wish—like Doll Foy—I, too, were on a cruise. EXCERPTS FROM MY VACATION DIARY: My, but those 32 pins of blackberry jelly will come in good next winter... and in the middle of the morning—Come down, Aunt Bertha and let's take those X-rays. Next day I lose six perfectly lovely teeth in six minutes. Please, Boss, don't say anything more to me about taking a vacation...

Tantalizing news kept coming to me. DOLL and TERESA FOY already in New York City Thursday at 8 p. m. I practically walked down that aisle in the Baptist Church with FRANCES MARTIN—in my imagination, Frances in regal duchess satin fashioned along traditional lines, her honey-blond hair—almost a bunnet—wearing a cap of lace which had been made in a hurry for JULIAN'S mother when she became the wife of JULIAN SR., a popular Statesboro boy—and later won by Julian's sister, HELEN, at her wedding last year. I also found out that Julian and Frances are honeymooning at Daytona Beach and will return from this idyllic spot next Friday... Also, on Thursday, I missed a lovely party given by MARY WATSON (Mrs. SMITH, Atlanta), at which time her guests from out-of-town were the most attractive young women you could assemble. There was BETTY DOBSON, Nashville; BETTY SANDERS, Augusta; FRANCES SMITH, Atlanta; FLO MONAHAN, White Plains, N. Y.; DOT CULBREATH, Augusta; SUE LOTT, Waycross; and LOUISE KEEL, Milledgeville. By the way, Louise, I want to see you sometime—seems I'm missing out on something else...

By the way, and PERU NELLA NIVER, Opelika, Ala. Just imagine a hostess smart enough to present so many monogrammed towels to visitors... The town was besieged socially last week by a bevy of floating Tri Deltas: JEAN O'NEAL, LaGrange; JERRY DWIGGINS, Atlanta; PROXY STYLES, Cartersville, all guests of their sorority sister, VIRGINIA DURDEN, who has floated over Georgia with them. While here, they adored staying part of the time at Winlock, by the lake, and the TURNER rang their breakfast bell early for them one morning. Jean O'Neal is her cousin, and others sharing Julie's bacon and eggs and hot java were local Tri Deltas GINNY HILL and BETTY SANDERS.

I understand the Rotary supper for the ladies was something else again. ELOISE MORRIS rolled up her sleeves and, aided by willing workers, served a sort of Oscar of the Waldorf meal to the Rotarians. Broilers with lace panties, tiny cheese apples with shiny green leaves, the artistic contribution of MRS. T. J. MORRIS SR., OUIDA SHERMAN, JANIE LEE OLLIFF, SARA MORRIS, JEWELL PARKER, LOUISE ATTAWAY, MARGUERITE BRYANT and ETHEL FLOYD combined their talents. There were homemade rolls, both plain and cinnamon, homemade angel food cake smothered with fresh peaches and whipped cream, but why do I write about these foods? It makes me call the price of steak and order a ham hock and black-eyed peas...

Here's a predicament: LAVINIA FLOYD and daughter, VIRGINIA LEE, take WALDO JR. over to Alamy to join JEAN MORRIS. Mrs. J. W. Clements, of Jacksonville, Fla., is spending the week with her mother, Mrs. J. H. Rushing. Mr. and Mrs. C. B. McAllister had as their guests Sunday and Monday Mr. and Mrs. Joe Middlebrooks, Frank Hall and Albert Hall, of Warwick, Ga.

On Monday, Mr. and Mrs. Truman Stubbs and sons, Joe and John, and Mr. and Mrs. John Storey, of Lanier, were guests of Mr. and Mrs. C. B. McAllister.

Mrs. Bernard Morris and her visitors, Mrs. Flo Moynihan, of White Plains, N. Y., spent Wednesday in Atlanta, where they visited former Breunau friends.

## I Don't Like Contests

I never win! Dorothy Morgan McCoy's recent letter to the editors of Ladies Home Journal about the millions of contests which entice you to tell you you like a product in "25 words or less" hits the bulls-eye.

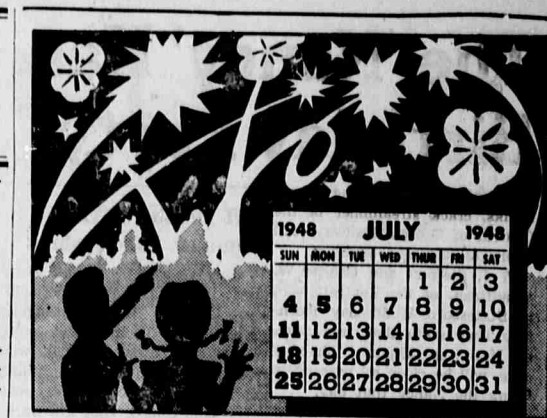

She suggests an article on "Don't Like Contests Because..." An article so revolutionary, so miraculous, so soul-scouring that it will end contests forever.

Dorothy McCoy says, "There's the idea of cutting my dish-washing in half! It takes at least six times as long with all these contests. For invariably the \$1,000 brainstrom on Sudsy Duds occurs when my hands are elbow deep in suds, and the idea must be jotted down now—suds, water and all!"

Always the catch is enclosing a box top. You stock up on the product, hoping one of the tops will win you \$50,000. The out come may be a sample of shampoo sent for the sole purpose of introducing you to another of their products, or a complexion brush to let you down easy, or nothing but dozens of topicals—boxes full of soap flakes to take up room in your pantry.

I happened to be using the right kind of soap powder when I heard the breathtaking possibility of winning a 5-room house—not only that, but they threw in a thousand dollars to pay for a lot! I chased Ellis down to rummage through the garbage can for the box I had just thrown out, and bought more.

I didn't win the house or lot. I didn't even win a toothpick! And having more soap powder than room, I used it extravagantly. Maybe that's what they had in mind.

The only way I can get anything is to send for it. We now have a Captain Midnight shake-up mug and a 75 cent jar of Ovaltine. (The mug came off the wrapper off the jar and 15 cents.) I consider that an investment though, because we all enjoy the foamy drinks.

Tom Mix will send you four silver-plated ice tea spoons for a Ralston boxtop plus 75 cents, and I bought the cereal the other day. Now, if I only had the 75 cents!

I've bought toothpaste to win a new car, and shampoo to win \$10,000. I've worked on Miss Mrs. and Mr. Hush, and believe that Dorothy Morgan McCoy has a good idea.

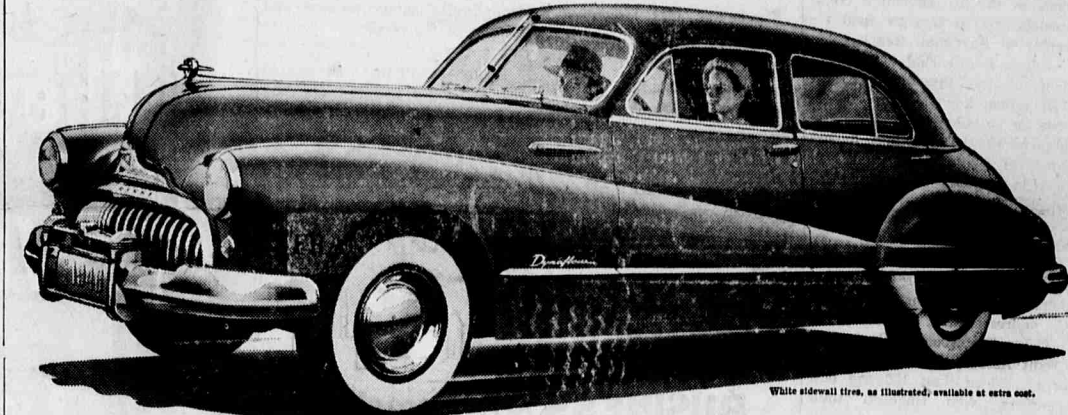

It would be wonderful to win something big—it would be grand to get rich quick, but there's only one SURE way to double your money—the real McCoy—fold it and put it back in your pocket!

Four Georgia 4-H club members, Pat Hearne of Fulton County; Rhonwyn Lowery, Colquhoun County; Sybil Smith, Thomas, and LaTorrence, Baldwin, have been awarded scholarships which are enabling them to spend the entire summer at 4-club camps. They are working as counselors and receiving scholarship funds as financial assistance for continuing their college work.

For those who rode the Nancy on her initial trip on July 17, 1947, there will be no free meals and from Atlanta, Mr. Howland says, "no identification of identification was issued each passenger on that first trip, and with the presentation of the certificate on July 17 goes free meals." He added that if a passenger has lost the certificate a duplicate \$2.00 fee will be assessed. "McCartney, assistant president, Central of Georgia Railway, Savannah, Ga. "It is a wonderful opportunity for bridge clubs, women's clubs, men's clubs to get together on an all-day party, celebrate in the air-conditioned coaches, and enjoy the trip." The Statesboro Production Credit Association has 850 members. More than 100 are new members, who financed their farm needs through the association for the first time this year. Governor M. E. Thompson proclaimed the week of June through 18 as Conservation Week in Georgia and called upon citizens, schools, churches, clubs, groups, agricultural agencies and other interested groups to observe the week with appropriate programs designed to acquaint all citizens with the necessity for conservation and improvement of the state's resources.

In his proclamation, Governor Thompson called attention to Georgia's rich endowment of natural resources and the necessity for their conservation and proper development. He declared it to be the policy of the state to protect and promote the welfare of the people. He declared it to be the policy of the state to conserve the natural resources by the development of properly balanced systems of farming, to conserve and improve farm and forest lands, to protect the water supply, the payment of dams and reservoirs, and to maintain navigability.

<p>Sportsmen clubs, organized in every community by the many people who are directly interested in fishing, hunting, or both, could be the force behind the fish and game conservation so badly needed throughout Georgia.</p>	<p>Living conditions that enable fish and game to find more food and cover provide them with a habitat in which they can increase naturally with the best results.</p>

Executives of the Metter baseball club are seeking a "peaceful" settlement of the Bombers' fight to keep their 25 games which Ogeechee League officials ordered forfeited on Monday of this week.

The league directors, meeting in Swainsboro Monday, voted 7 to 3 in favor of a ruling calling for forfeiture of 25 games won by the Bombers because of their allegedly ineligible player.

The player involved is the Bombers' left fielder, Sanders.

Metter officials contend that Sanders should not be considered ineligible because of a resolution passed by the league directors. That resolution allowed another league team to use a player, who under literal translation of league rules, should have been declared ineligible. The rule book states that no club shall use a player who has not been released by the club

for which he was playing, but the resolution passed shortly after this season got underway made the rule apply only to players leaving the Ogeechee League clubs without a release. Metter officials say that Sanders should apply to all the clubs and not just the one for which it was passed.

The Metter officials and league directors were to have met in Swainsboro yesterday before Judge Robert Humphries, with Metter seeking an injunction to prevent league directors from releasing the games from the record.

Some definite outcome is expected, though. "Either the

The legal advertising for bids to contract for the paving of the new right-of-way for U. S. 80 through Statesboro will appear in the official newspaper for Bulloch county at an early date.

Governor M. E. Thompson, in a telephone conversation Tuesday morning, told Mayor Gilbert C. Carr that the advertising would appear, and the setting of the contract would follow soon after bids are received.

C. A. Curtis of the State Highway Department right-of-way department, was here Tuesday morning in connection with the matter for the city to purchase the properties along the new route.
