Local Bills

MONDAY OF THIS WEEK Bulloch County's two representatives, A. S. Dodd Jr. and A. J. Trapnell left Statesboro to go to Atlanta to meet with representatives from all over Georgia as they meet in the 1949 session of the Georgia Legislature.

With them they carried several bills to be introduced. These bills were advertised in the official organ of the county during the month of December.

They are bills which will concern no other community in Georgia—just Statesboro and Bulloch county.

One of the bills, when introduced and if it passes and becomes law, will increase the salary of the Chairman of the County Commissioners from \$3,000 to \$4,000 a year, retroactive as of January 1, 1949, and provide \$15,000 a year for clerical help for the Commissioner's office, and raise the salary of each member of the Board of Commissioners from \$300 a year to \$600 a year, all retroactive as of January 1, 1947. The bill will also change the chairman's term of office from two years to four years, beginning January, 1953.

Another of these bills will increase the salary of the judge of the City Court from \$1,800 a year to \$2,000 a year, with \$200 per year being retroactive as of January 1, 1947, and \$200 retroactive as of January 1, 1949.

Another bill will fix the salary of the clerk of the Superior Court at \$4,800, effective as of January 1, 1949, and fix the salary of the deputy clerk at \$185 per month, and the clerk's assistant at \$135 per month.

Another bill will increase the salary of the solicitor of the City Court of Statesboro from \$1,600 to \$2,000 a year, with \$200 per year being retroactive as of January 1, 1947, and \$200 a year retroactive as of January 1, 1949.

Another bill will provide \$500 a year to the County Tax Commissioner from the county treasury for clerical help, retroactive to January 1, 1947.

The Boxwood to the Dog Fennel

WE THINK IT a little bit undignified. Two fine Georgia towns disputing over "What is the fastest growing city in Georgia?"

Bill Broome, executive secretary of the Vidalia Chamber of Commerce, claiming "Vidalia was the fastest growing community in the State of Georgia during 1948."

And Chaucery W. Lever, executive secretary of the Wayne County Chamber of Commerce at Jessup, counter claiming, "Vidalia may be larger, and she may have spent a little more for improvements than Jessup, but she certainly hasn't grown any faster."

Now we concede the right of Vidalia's Mr. Broome to claim, for publication, the title, "Georgia's fastest growing community during 1948."

And we concede Mr. Lever's right to dispute Mr. Broome's claim and to set forth his counter claim that "She (Vidalia) hasn't grown any faster" (than Jessup).

But in our conceding these two gentlemen their right to make these claims for publicity, we contend that their claims are made forgetting one factor, for:

As the Boxwood tree said to the Dog Fennel, "It's not how fast you grow, my friend, but how long you grow and how permanent is your growth."

Look to Statesboro and you get what we mean.

Another bill will amend the city charter so as to require all candidates for the office of mayor of Statesboro to pay an entrance fee of \$25; and all candidates for the council to pay a fee of \$15; it will require that the city registration books be kept open at all times during the year, with the exception of 30 days before an election; it will give the mayor and city council the right to vacate or abandon certain streets or alleys, and the right to these streets or alleys in certain cases; to provide that a franchise or privilege to any public or private utility cannot be granted for more than ten years at a time; and will provide that in all elections for a place on the city council of Statesboro that the candidate at the time of his qualification announce the name of the incumbent he is running against, or the particular place on the city council he seeks to fill, and requiring the candidate to run against a particular chosen opponent or incumbent; and provides for amending the charter so that the city can increase the amount of bonds the city can issue for purchasing sites, erecting buildings, completing and equipping school buildings from \$75,000 to \$150,000.

Another bill provides for the incorporation of the city of Statesboro, to create a municipal government, and provide for the election of a mayor and councilmen.

All these bills are "local bills," but in order for them to be made into law they must go through the legislative mill just as any major bill affecting the entire state.

Did you study these bills while they were being advertised? Do you think the changes they will effect are for the general good?

It's not too late to let your representatives know how you feel. They will be back home on week ends before the bills will find their way into the legislative hoppers.

Don't wait until after the legislature adjourns and then wait that you didn't know they were going to pass these bills—for their passage means the additional expenditure of our tax monies.

The Almanac Says the Weather This Week On...

TODAY, Thursday, January 13, will be rainy.

FRIDAY, January 14, will be cold.

SATURDAY, January 15, will be cold.

SUNDAY, January 16, will be clear and cold.

MONDAY, January 17, will be cold.

TUESDAY, January 18, will be cold.

WEDNESDAY, January 19, will be clear and cold.

... But Don't Blame Us If the Almanac Is Wrong!

If aught good thou canst not say

Of thy brother, foe, or friend,

Take thou, then, the silent way,

And in word thou shouldst offend.

—ANON.

So you decided to grow a rose garden.

Not a big garden—just 15 or 20 bushes

lucky of the house where you could see and admire them as they bloom in all their radiant beauty.

You saw "beautiful and healthy" bushes advertised and you sent your check for them.

While waiting for their arrival you read all the pretty garden magazines on culture, pruning, etc.

After supper you read the pretty books and visualized your rose garden and you could actually hear your friends exclaiming "What beautiful roses..."

And you actually grew them yourself.

And you feel a glow of sonorous satisfaction.

And your impatience is fired—you want those plants so you can get them in the ground and to blooming.

Then they arrive.

And they are delivered just as you are on the way home after a hard day at the office and the instructions say "put them in the already prepared ground immediately."

What prepared ground?

You sort of forget that "prepared ground" business.

But you rush home and begin digging holes in the ground like mad.

You just got to get them in the ground—the instructions say so.

First dark catches you with all but two or three yet out. But you work on into plumb dark and you get 'em out. It may not be just like the books say, but you got them standing up straight and the roots are covered with soil, and, after all, that's what counts.

You go into house, wash up, eat supper and, happily, though wearily, await their growth and the resulting beautiful blooms you just know you're going to cut...

... didn't the advertisement say so?

Right then is a good time to get out of the rose business. That is, for pleasure.

But maybe you're a hardy soul and a bear for punishment and can take it.

Every morning you go out to your garden with a pair of scissors expecting to cut some luscious roses for the living room tables.

Your plants have put on new growth and they are right pretty with all those tender green leaves...

... but you want roses... big, beautiful roses.

And then one morning you go out to inspect your treasure and B-O-O-M!

Call out the Guard! Condition Red.

"They can't do this to me!"

There, right in the middle of your bed of leafy plants, stand two...

... stark naked!

Every leaf stripped off every limb!

You can hardly wait for break-

fast. You recall reading something in the pretty books about "chewers," cut worms, "aphids."

You dust, and spray.

But no good.

Morning after morning you see another and another of your plants being denuded!

Then one day you are telling a

friend of the invasion of your rose garden.

And he laughs at you!

And you are hurt.

But as you turn away from him on the verge of busting up a beautiful friendship he says:

"I can tell you what's happening to your roses."

"You can?" you plead.

"Yeah."

"What?"

"RABBITS."

"Oh no! Not that!"

"That's right... I know! We have the same trouble."

What to do?

Well, your friend offers three suggestions:

1. Get a rabbit dog.

2. Get a shotgun and stay up all night and shoot them when you see the whites of their eyes.

3. Get arsenic.

You have to feed a dog...

that's out.

And, roses or no roses, you are not going to wait up all night to shoot bunny rabbit just because he's after your roses.

Arsenic?

That's out.

So you rush to the drug store and buy arsenic.

With your fingers crossed you sprinkle your arsenic on the naked rose limbs, once looking beautiful and healthy...

... now looking like last year's blackberry bushes burned out along a fence row.

Then you wait!

And then yesterday you were admiring your azalea bushes.

B-O-O-M!
