W.H. Smith Heads West Side Co-op

W. H. Smith Jr. was elected to head the West Side Farmers Co-operative Association at a called meeting Saturday afternoon. Mr. Smith succeeds Fred G. Blitch, who served during the organization period of this heavy farm machinery group.

Mr. Smith named L. P. Joyner and Paul Nesmith as members of the executive committee to serve with him this year.

The group voted to delay naming a manager of the operations until February 12. Mr. Blitch reported that the some \$50,000.00 worth of machinery had taken in \$45,000.41 during the year and half of it had been in operation. The group first bought one 113-horsepower tractor with all related equipment. Within a few weeks they found that they were

so far behind with promises that they purchased another large tractor and all its dirt-moving and land-clearing equipment, and later added a large truck for moving this equipment about over the county. They also have a small truck and a pickup truck.

Mr. Blitch's report showed that the equipment had paid its way and reduced the capital indebtedness to around \$20,000.00.

Other members of this group are John H. Brannen, W. H. Smith, P. B. Brannen, Sam L. Brannen, E. L. Womack, Chas. Smith, Henry S. Blitch, L. G. Banks, D. C. Banks, M. W. Turner and Johnny Grapp.

The group has built some 80 fish ponds in the county and have cleared several hundred acres of land, mostly for pasture.

We wish to thank Mr. Walton Usher, our new Solicitor General, for his short talk to the Grand Jury and the Court.

J. L. Renfro, for his able chairmanship and the Solicitor General, Mr. Walton Usher, for his presence and assistance in the matters presented to our body; also wish to thank Mr. Kingery, our bailiff, for his help.

Respectfully submitted this 24th day of January, 1949.

Rosalyn Tureck Will Present Concert at Armstrong College

Announcement is made here this week that Miss Rosalyn Tureck, pianist, and believed to be the greatest living interpreter of Bach, will give a concert at the Armstrong Junior College auditorium in Savannah on Thursday, February 3 at 3:30.

Miss Tureck will play three Bach Chorales and the English Suite in C minor. She will also play Beethoven's Appassionata Sonata, two Brahms Intermezzi, works of Scriabine, and Ravel. She will conclude her program with the Last Variations on a theme by Paganini.

The concert is sponsored by the Savannah Piano Teachers Club. Tickets may be obtained at Alnutt Music Store, Savannah.

This is the first state tour the department has undertaken. For the past two years Wesleyan has played to large audiences at Atlanta's leading legitimate playhouse and received wide popular and critical acclaim.

Directed by Miss Ruth Jean Simonsen, with Maynard Samson as technical director, the Wesleyan drama department is noted for the professional quality of production.

The Tempest features elaborate costumes, spectacular lighting and beautiful sets. The staging is done by Wesleyan crew members, boys and girls, who work under the direction of Director Samson.

The Statesboro Junior Woman's Club is sponsoring the event here and the proceeds will go to the Statesboro Junior Woman's Club. The show will be presented in Statesboro at the evening of February 16 under the sponsorship of the Junior Woman's Club.

Ask the Smith boys and Wilder boys—if you can get to talk to them through prison bars.

Lauris Smith got 3 to 4 years, W. H. Bryant got \$250 fine and 12 months, and Levy D. Bryant was sentenced for stealing a cow from C. E. DeLoach on December 23, 1948.

Lauris Smith, thinking about how he got away with helping steal Mr. DeLoach's cow, joined with Alton Smith and Remer Faircloth and stole a cow from T. E. Cook on January 8. For helping these boys, Lauris got another 3 to 4 years, Alton got 2 to 4 years.

Lauris' record revealed that he was convicted for larceny in 1944 in Fayetteville, N. C. and served 2 one-half years, and in 1940 he served 12 months in Reidsville for hog stealing.

And on November 19 the Wilder boys, Thainidge, Tom, and Sam, stole 4 hogs from Herman Smith and Mrs. Laurie Smith, then on November 27 they stole 2 hogs from Cleve Ellis. Sam got 12 months on the Smiths' hogs, and Thainidge drew two to four years.

The cases were heard in the January term of Superior Court here last week.

A HOLE IN THE GROUND

This "Hole in the Ground" represents the unfinished Swimming Pool.

We Can't Just Stand By

FRIDAY MORNING OF LAST week can become an important date in the progress of Statesboro and Bulloch County.

27 of Statesboro's business and civic leaders drove to Savannah.

In Savannah they gathered in the board of directors' room of the Central Georgia Railway Company.

And for nearly two hours they discussed Statesboro's future with Mr. M. J. Wise, president of the Central.

Walter Aldred, president of the Statesboro Chamber of Commerce, was the spokesman for the group.

With no beating about the bush, speaking simply and earnestly Mr. Aldred presented the bald fact that Statesboro is soon to find itself with only one short-line railroad to serve the people of this section.

The Georgia and Florida Railway is about to abandon the service from Statesboro to Midville.

Mr. Aldred and his group asked Mr. Wise that the Central of Georgia take over and operate the G. & F.

Mr. Aldred and his group asked Mr. Wise to consider routing the main line Central through Statesboro.

Representing Statesboro and Bulloch County this group of business and civic men are facing

squarely the possibility of our city's progress stalling because of inadequate transportation facilities.

One of the first questions asked by industry investigating new fields in which to establish new plants is "What about transportation?"

Receiving our answer: "We have one short-line railroad" industry's interest in our community is apt to become less than zero.

So, our opportunity for progress depends not only on our will to go forward but on Mr. Wise's decision to hitch a portion of the future of the Central of Georgia to the future of Statesboro and Bulloch County.

It is to the credit of the men who represented Statesboro last Friday that Mr. Wise expressed the sincere desire to co-operate with this community.

We believe he will. We know that what he and his railroad does cannot be done in a day, nor a year, for progress, to be lasting, must be cautious and on a firm basis.

We do know that when the leaders of Statesboro recognize a crisis there is no compromise with half-way measures. We believe Mr. Wise recognized that fact in talking with Mr. Aldred and his group there in that room last Friday.

Much good is to come from that meeting. Depend on it.

It Is Good...

THE STATESBORO ROTARY CLUB is doing its share to promote understanding and appreciation of democracy by peoples in foreign countries.

This week Albin Eber, of Au, Germany, arrived in Statesboro and enrolled as a student at Georgia Teachers College.

Albin Eber is the protégé of the Statesboro Rotary Club. With the aid of Dr. Marvin Pittman, who spent some time in Germany, Albin Eber was selected and invited to come here. He arrived this week.

He is 23 years old and looks little different from Bulloch county boys 23 years old. He was drafted into the army when he was

eighteen. He was taken prisoner and brought to the United States, where he worked for more than a year.

When told that he was to return to the United States as a student, he said, "I was happy... as one whose wishes are fulfilled."

This young man will be here for a year. He will study our way of life. He will live as we live.

And at the end of his year he will return to his home in Germany and practice what he has learned here.

It is good. We have helped in this slow process of helping peoples of the world learn the democratic way of life.

FIRST SIGNS OF SPRING

ou think we're off our bat. With it raining outside and with the thermometer way down and with the newspapers full of blizzards and snows and sleet and ice over the nation—you think we're off our bat.

We concede that the weather all over the nation, and right here in Statesboro and Bulloch county, gives lie to the very thought that there are signs of Spring.

We do not mean the budding of trees and bushes and flowers. They can fool you sometime.

But the one sure sign of spring is—BASEBALL.

The very first sign of spring according to our way of knowing was revealed when it was learned that members of the board of directors of the Ogeechee League met in Swainsboro on Monday night, January 17.

A Spring sign in the dead of Winter!

The directors must have felt Spring in their blood, and called the meeting.

Two important things which had been kicked around in the league for a long time were settled.

Probably the most important decision was a limit a club's payroll to a maximum of \$2,600 a month. This is considerably less than some of the teams were paying last year.

And the other decision made was that the League wants no part of organized baseball—not yet at least.

With the baseball season some four months away it is believed that the league this year will include Statesboro, Jesup, Glenville, Metter, Swainsboro, Wrightsville, Thomson, and Sylvania. Other possibilities include Waynesboro and Millen.

At present the Ogeechee League is without a president. Ray Smith of Glenville resigned in the middle of last year's season, and Ted Spivey of Swainsboro finished out the season but resigned in November. Clyde Hollingsworth of Sylvania is acting as temporary president.

The 1949 season for the Ogeechee League is expected to open about June 1.

But when that meeting was called at Swainsboro on June 14, we just knew Spring was revealing itself for the first time for 1949...

Forestry Notes

By J. W. ROBERTS

Bulloch County Protective Unit

Some twenty-five F.A.A. boys in Bulloch County are doing some real forestry work. The forestry contest that is being sponsored by your forest ranger through the co-operation of the Vocational Agriculture teachers has started.

Every participant is doing his very best to win a trip to forestry camp next summer.

Just last week 15,000 pine seedlings were distributed for planting. The boys have started on their thinning and pruning work. Signs will be built in school shops for marking the contest areas. Lettering on the signs will read: FFA FORESTRY CONTEST. Also plans have been made for each boy to accompany one of our organized fire fighting unit trucks for one day in February. On this trip they will get some actual fire-fighting training. The participants will also see how our townsmen spot fires, and how their exact location is determined by use of the azimuth circle and dispatchers map.

The future productivity of our forest lands depend on the training of the FUTURE FARMERS OF AMERICA. After the next four months they will have greatly increased in their knowledge of practices relating to good forest-

POWER PLANT

that uses its Head!

THIS is the husky thrill-producer you find filling the bonnet of any 1949 Buick.

Look it over and you'll observe, among other things, that it is a valve-in-head straight-eight.

In simple language, this means that years ago Buick engineers lifted the valves from the side of the cylinder and put them on top—with some immediate advantages.

Such an engine "breathes" better. Gets a full, even charge on every intake—exhausts spent gases more easily—enjoys extra power, life and ginger.

And in such engines, compression ratios are relatively easy to establish. To step them up, the head is merely brought closer to the piston—no extra problems are presented getting fuel in and exhaust out.

Thus Buick power can—and has—kept pace with progress in fuels. Compression ratios suit gasolines actually available—and there's no waiting for tomorrow's gasolines to get full performance.

There are other things to notice about this engine.

It's a Fireball power plant—uses a special and exclusive type of piston that gets more good out of each fuel charge.

And it speaks with soft, new quiet. Self-setting valve lifters automatically keep valves properly seated, ending tappet noises for good.

With gasolines getting better, the swing to valve-in-head design will undoubtedly grow stronger. But that is what Buick has had all along—a power plant that uses its head to give extra lift and thrill.

More clearly than ever "Buick's the Buy"

When better automobiles are built Buick will still be there.

2,000,000 IS A LOT OF TREES!

Last month Union Bag & Paper Corporation planted one million pine seedlings to help keep Georgia green. In addition, as part of the "Keep Georgia Green" program, the company provided another million seedlings—free of charge—to private land owners, 4-H Clubs, Future Farmers Clubs and other groups for planting on lands that will not be reseeded naturally.

As they sit in the sunlight—protected against fire—these two million seedlings will put on rapid growth each year, provide "Trees for Tomorrow" and thus contribute to the welfare of Georgians.

Pine seedlings will grow in almost any type of soil, on nearly any kind of land. Each year our State nurseries are producing more and more. Plant some every year, and if you take care of them today, they will help take care of you tomorrow.

SOCIETY

MRS. BEAVER HOSTESS TO PRESBYTERIAN CHOR

On Wednesday evening following the weekly Presbyterian choir rehearsal, Mrs. Roy Beaver entertained the choir members at a lovely social meeting at her home. Fancy assorted sandwiches, ice cream cups, appetizing pick-ups and coca-colas were served.

Those present were Dr. and Ronald Neil, Mr. and Mrs. Al Southernland, Mr. and Mrs. Jack Broucek, Mr. and Mrs. T. L. Harnsberger, Misses Frieda Gerant and Sara Hall, Mrs. Don Thompson, Mrs. Percy Averitt, Mrs. Stothard Deal, Mrs. Robert Benson, Horace McDougald and Fielding Russell Jr.

CAMELLIA SHOW ACCLAIMED SUCCESS

While you were pulling your overcoat about you a bit more snugly, or maybe stoking the furnace or poking coal in a grate, there were women in this town braving the elements while they went outdoors to wrap the guest room bed spread around an "Empress" or a "Professor Sargeant."

The truth is the untimely warm weather did more harm to Camellia blossoms than did the cold. But assembled in the east parlor of the Juchard Hotel were many varieties of choice blossoms that were viewed by approximately 300 visitors Thursday, and voluntary contributions assure the sponsors, the Garden Committee of the Senior Women's Club, Mrs. Alfred Dorman, chairman, that the Camellia show will be an annual event.

Prizes were awarded for the best arrangement and to four classes of single blossoms representing the varieties of pink, white and red blossoms. Mrs. Bill Keith won the Blue ribbon for her arrangement of "Mrs. Chas. Simmons" white camellias; the white ribbon went to Mrs. Howell Sewell who displayed "Pink Perfection" on a silver tray, as basket of mixed blossoms arranged by Mrs. Paul Franklin received a red ribbon. For variegated types Mrs. R. C. Hall received a blue ribbon; Mrs. J. Lemuel Zetzerow a white ribbon, and Mrs. I. A. Brannen, red ribbon. For red single blossoms, Mrs. Leroy Tyson blue ribbon; Mrs. George Johnston, white ribbon; Mrs. J. H. Brett, red ribbon. For pink single blossoms, Mrs. C. P. Olliff, blue ribbon; Mrs. Dana Lester, white ribbon; Mrs. Alfred Dorman red ribbon. Mrs. Alfred Dorman won the green ribbon for the sweepstakes.

On Wednesday afternoon Mrs. Hal Macon Jr. was hostess to the Deckers at her home on North College street. Narcissus and camellias were used in the decorations. Mrs. Macon served chocolate cake, ice cream roll with coca-colas.

ALL'S FAIR

Camellia shows and weddings with brides radiant and fair Red bud trees blooming; girls with flowers in their hair. The icy winds and rain beat against the window pane. And news boys blow upon their hands that are purple from the cold.

A few short days can bring such changes. I expect some day to see flat streets grow to mountain ranges. With awe and wonder, then, we watch as Life's pattern is unrolled.

But come what may we face each day with confidence and praise For One who watches over us and we let Him call the plays—

I GLANCE AT my calendar and I see so much to edify and entertain us during the coming month. An event which I shall circle and underscore is the production of "The Tempest" by the Dramatic department of Wesleyan College.

At Georgia Teachers College we have the Junior Women's Club to thank for this treat. In the publicity we find a darling picture of Patty Banks which furnishes even more attraction, for her admirers here are legion. The date is Wednesday, February 16—Mark it down and get a ticket as soon as they are on sale . . .

A VERY PRETTY girl told her bosom friend—that girl told her husband—and so on—until Jane finally heard that said pretty girl received an important ring from a very popular boy who has been cited in the newspapers for unusual ability in a certain field. The ring was presented to her five years from the time they began dating. Jane is especially happy about it, because as the romance would blow warm then cool she knew it was case of true love—Now honey, keep that lovely ring and please let me come to the WEDDING.

IT'S SO NICE to have a grandma—When the winds blow cold grandmothers are worried about whether a mere mother will see that her daughter is properly clad for the rough weather. Recently Mamie Brannen decided that the weather wasn't quite cold enough for Emily's heavy coat and she remembered a lighter one that Barbara Ann had worn when she was five years old. Emily, a wavy haired brunette daughter of Lester and Sara Brannen, is only four. She was eating breakfast when Mamie came in with the coat. As they indulged in conversation across the table, Sara suddenly exclaimed—"Hurry, Emily, or'll be late for Kindergarten."

Emily smiled and said, "Oh, I'll just tell my teacher that my grandmother came over and brought an old coat for me to wear." Considering that she calls her grandmother "Mamie" I

"Doll" Foy

At Lucerne's Palace Hotel

EDITOR'S NOTE: Last week we were with Doll Foy in Lucerne, the capital of Switzerland. This week we go to the Palace Hotel where she and her party stayed while in Lucerne.

The Palace Hotel in Lucerne was gorgeous. It seemed a long time ago that it had been used as a hospital by the Germans during the last World War.

I was shown to my room and when I looked out the scene took my breath. Beyond was Lake Lucerne, and beyond the lake rose the majestic mountains, unlike any mountains in the world.

In the evening I walked out on the terrace . . . a long one covered with many plants and flowers, with chestnut trees bordering a long walk by the lake.

From the terrace it all looked like a fairland . . . the lights on the boats on the lake twinkling.

way we came to the place where Queen Astrid of Belgium was killed while on a holiday trip in these mountains. A marker has been erected at the place. We also saw the site of a landslide which killed more than 200 people the year before.

For 28 miles on this trip we rode along the shores of Lake Lucerne.

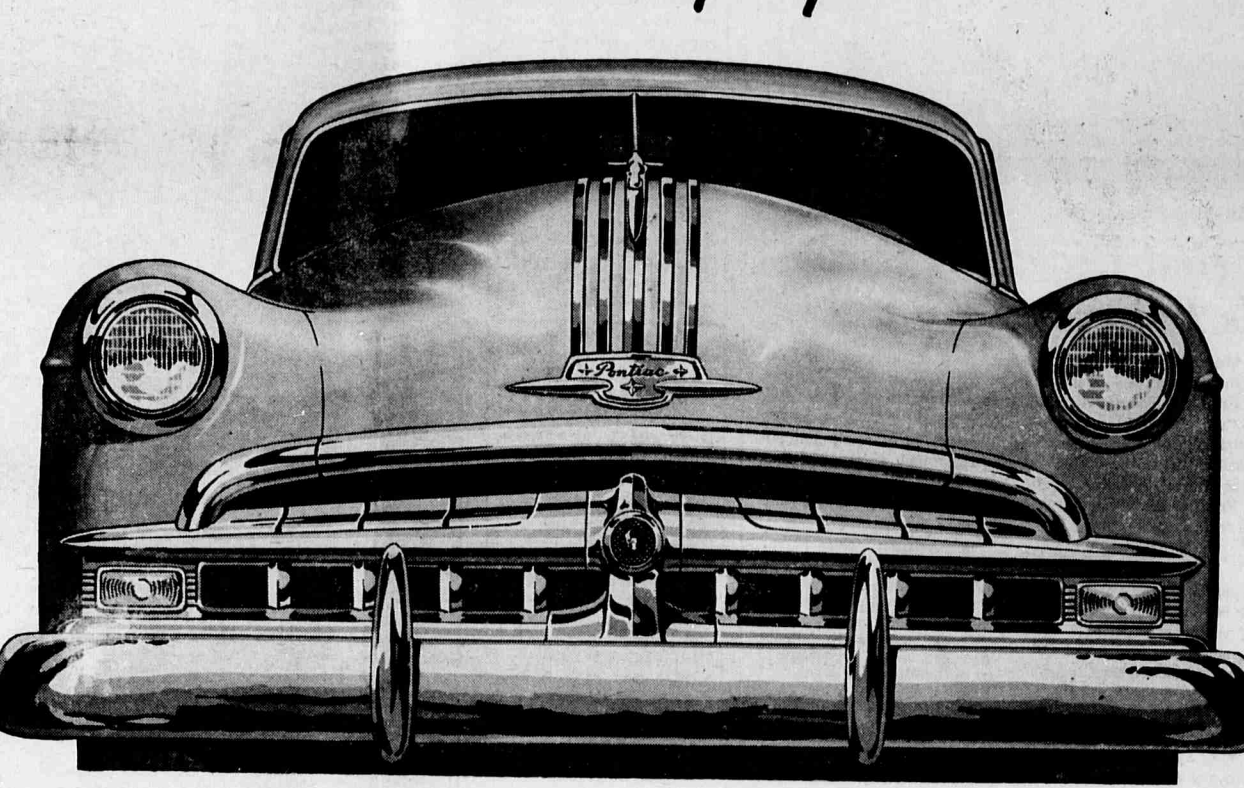

It was on this trip that we saw those great St. Bernard dogs. We passed a kennel which sold the dogs. They were the most beautiful dogs one can imagine. We all wanted one to take home . . . but the size of them made it impossible.

Our chaffeur was an interesting character. He had been driving people on trips like this for years. He claimed that he had never had an accident. He kept his eyes on the roadway constantly. He told us that many accidents had occurred on this road in the past which people had been killed by careless driving. I would not like to make that trip again.

(Editor's Note: Next week we arrive at the site of the glaciers in Lucerne.)

Miss Virginia Durden entertained at a coca-cola party Friday afternoon for Miss Rushing at her home on Crescent drive. Lovely gladioli and narcissi in the arrangements were used in the decorations. The guests were served a salad plate with coca-cola. Flavors on the plates were miniature white suit cases bearing such labels as "Just Married" or "California Bound," the last gaining significance from the fact that the bride couple will spend a month in California. One game revolved around the suit case—What should a bride pack in her suit case? Mrs. Joe Trappnell came up with the most answers and received a novelty belt. The guests were given bits of ribbons, flowers, and scraps of material from which they were told to fashion a going-away hat for the bride. Each milliner had to wear her creation for the duration of the party. Miss Rushing's gift from her hostess was a hand vase. Miss Durden's guests were Miss Virginia Rushing, Mrs. T. E. OU PONT
BETTER THINGS FOR BETTER LIVING . . . THROUGH CHEMISTRY

Leaders of two unions think it's a feather-bed
... a modern locomotive that means better service to you.
... a "make work" grab that means less service to you.

Leaders of FIREMEN'S UNION
Leaders of ENGINEERS' UNION

● Leaders of unions representing railroad engineers and firemen seek to force railroads to add extra, needless men on diesel locomotives. This is sheer waste—a "make-work" program which would mean fewer improvements and higher costs—for YOU!

Railroads use modern diesel locomotives because they are one of the means of giving faster, better service to you. They occupy a clean, comfortable cab at the front. The engineer handles the throttle. The fireman sits and watches the track ahead. With no coal to shovel, he has practically nothing else to do.

No Benefit To You
You know how much the diesel has meant to large sums of money from our present improvement programs. Even worse, they make improvements like the diesel worthless, by making the cost of their improvement program, such as this present demand of the unions for needless men on diesels, reduce the ability of the railroads to spend money on better service for you.

Proud as the railroads are of the diesel, it is only a small part of their improvement program. Since the War, literally billions of dollars have been spent on improvement of tracks and stations, on new passenger and freight cars, as well as on diesel locomotives, and on the many other less conspicuous details of railroading that contribute to improved service.

Feather-Bedding Means Less Service To You
But brazen feather-bedding schemes like the one now proposed would, if successful, divert large sums of money from our present improvement programs. Even worse, they make improvements like the diesel worthless, by making the cost of their improvement program, such as this present demand of the unions for needless men on diesels, reduce the ability of the railroads to spend money on better service for you.

That's why the railroads are resisting these "make work" demands to the last ditch—and why they are telling you about them.

We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.

Blue Tide Wins 2 of 3 Basketball Games

The tide's first encounter was with Appalachian Teachers College of Boone, N. C. Here they met defeat as Boone's Hatt and Cusey led their squad in a 72 to 58 victory. "Bucky" Helton took top scoring honors with 19 points.

On the following night the boys in blue bounced back to take the strong Milligan squad by 6 points. Again Helton was high point man with 29 points. The game was nip and tuck all the way, but the boys from the Peach State edged the Tennesseans 80 to 74.

In the third and final game the Tide ripped Western Carolina 45 to 35. Reeves spanked the defense with 13 points. Ironically the squad defeated the boys of the team that have downed the teachers so far.
