The Bulloch County Fair opens Monday morning, October 16, and runs through Saturday, October 21, H. E. Allen, Fair association president, announces.

The fair will be held at the same place it was held last year, the airbase, and the same buildings will be used for exhibits, along with three tents for commercial exhibits.

Mr. Allen stated that the Royal Exposition Shows will again be on the midway. The show has been materially enlarged since last year, according to those that have visited the show in other fairs this year.

The 15 home demonstration clubs have their exhibits, dealing with every phase of farm and home life in the county, ready and will start the last of this week putting them in place. All will be in place by 6 p. m. Monday, Miss Dorothy Johnson, assistant home demonstration agent, who is working with this phase of the fair, stated. The exhibits will be judged Tuesday morning at 10 a. m.

The judges this year will be Miss Louise Meeks, home agent from Effingham county; Mrs. J. P. Proctor, home agent from Screven county; and L. O. Parker, county agent from Camden county.

The negro group will have six exhibits again this year, Morris M. Martin, negro county agent, reports.

Officers of the fair in addition to Mr. Allen are Cecil E. Kennedy, vice president, and Rufus G. Brannen, secretary and treasurer.

Mr. Brannen stated that the association had ample money in the bank to guarantee all premiums and expenses.

School days next week will be Thursday for the white children and Friday for the colored schools.

Ladino and white clover are finding about the same situation in Bulloch as the crimson clover. Livestock farmers want more of them, but the seed is high and farmers are using about half to two-thirds of a normal seedling. However, they are planting all the seed they can buy.

Lots of fertile places are also being seeded to the tall fescues, generally mixed with ladino or white clover. Hogs seem to prefer ladino and white clover, but cattle do not seem to go for them at all.

Oats and other small grains are being planted more extensively in Bulloch county than in other parts of the county. The county grew one of its shortest corn crops and grazing crops will be needed more than ever. Many of the lupine fields have oats in them, especially the fields where peanuts were harvested. Vetch is being mixed with oats. A little grain along with these crops will help get livestock through the winter without having to sell off too close, most livestock farmers believe. At the same time, they will be growing something on the land which will prevent winter rains and wind from damaging the fields.

In the second flight, Hal Macon defeated Clinton Anderson, George Franklin defeated Sam Straus, A. M. Seligman defeated Debraugh Watson, and Bob West defeated Jack Carlton.

The opening rounds of the Forest Heights championship golf tournament were featured by two upsets when Buster Bowen defeated A. W. Stockdale and Datus Atkins defeated G. C. Coleman Jr. in the championship flight last week.

Results of the first rounds are as follows: Chatham Alderman defeated Inman Decker, Bill Peck defeated Jake Hines, in the other matches in the championship flight.

In the first flight Joe Robert Tillman defeated Fleming Pruitt, Jimmy Redding defeated W. R. Dubb Lovett, Ike Minkovitz defeated Arnold Rose, and Harry Minkovitz defeated Nath Holleman.

Mr. King and Mr. McLendon state that these concerts are arranged for the pleasure of the citizens of Statesboro, and they hope the attendance will be good. The first concert will be held this Sunday afternoon at 4 o'clock.

DEDICATED TO THE PROGRESS OF STATESBORO AND BULLOCH COUNTY

STATESBORO, GEORGIA, THURSDAY, OCTOBER 12, 1950

## A Proclamation

WHEREAS, the President of the United States has proclaimed the week of October 8-14, 1950, as Fire Prevention Week, and

WHEREAS, the upward trend of fire deaths and property destruction in recent months has emphasized the increasing importance of fire prevention during the present emergency, and

WHEREAS, every citizen should be concerned over this needless loss of life and property, and should willingly join in a program to curtail this waste, now

THEREFORE, I, Herman E. Talmadge, Governor of the State of Georgia, do hereby proclaim the week of October 8-14, 1950, as Fire Prevention Week in Georgia, and call upon our citizens to join in a national crusade against the useless destruction caused by fire.

In Witness Whereof, I have hereunto set my hand and caused the seal of the Executive Department to be affixed, this 25th day of September, 1950.

Signed: HERMAN E. TALMADGE, Governor.

By the Governor: WILLIAM H. KIMBROUGH, Secretary, Executive Department.

## Bankers Pledge Support To Buy 2 Tree Planters

The bankers of Bulloch county have pledged to cooperate with timber growers by purchasing two transplanters specially adapted to pine seedlings.

The pledge was given at a meeting here last Thursday attended by C. B. McAllister and Kermit Carr of the Sea Island Bank, W. G. Cobb of the Bulloch County Bank, and H. M. Robertson of the Farmers and Merchants Bank of Brooklet.

Representatives of the Farmers and Merchants Bank at Port Clinton met at the meeting to request Mr. Carr to pledge their cooperation with the project.

These heavy transplanters will get kudzu, bermuda grass, and many other plants usually set by transplanters. There were times during the past few years when local farmers had difficulty in procuring labor to set pine seedlings by hand and it was for this reason that the bankers felt they could render a service by procuring these machines so that all the farmers in the county would have access to them when wanted.

Bulloch county timber growers set 60,000 slash pine seedlings last winter. These transplanters should be ready for use when the season for planting pine seedlings gets here.

Attending the meeting with the bankers representatives of the U. S. Forest Service, Central of Georgia Railroad, the Extension Service, local county agents, State Department of Commerce, and Soil Conservation Service.

More hairy vetch is being planted than normal for the same reason. The seed is more plentiful than normal and, too, hairy vetch is an excellent grazing crop. Crimson clover was tried on a large scale in the county last year, but the clover is one of the best late winter and early spring grazing crops adapted to the county.

Most of the seedling are being reseeded to about 10 pounds per acre because of the cost of the seed this year.

Ladino and white clover are finding about the same situation in Bulloch as the crimson clover. Livestock farmers want more of them, but the seed is high and farmers are using about half to two-thirds of a normal seedling. However, they are planting all the seed they can buy.

Lots of fertile places are also being seeded to the tall fescues, generally mixed with ladino or white clover. Hogs seem to prefer ladino and white clover, but cattle do not seem to go for them at all.

Oats and other small grains are being planted more extensively in Bulloch county than in other parts of the county. The county grew one of its shortest corn crops and grazing crops will be needed more than ever. Many of the lupine fields have oats in them, especially the fields where peanuts were harvested. ## Statesboro Wins National Safety Council's Traffic Award for 1949

In special ceremonies Tuesday night at Forest Heights Country Club, Colonel Eugene Burke, deputy director of Georgia's Department of Public Safety, presented to Mayor J. Gilbert Cone, for Statesboro, the National Safety Council's award for its 1949 safety record.

In presenting the award to the city, Colonel Burke explained that no single death occurred in Statesboro as the result of a traffic accident in 1948 and 1949. He commended the city on the two-year perfect record.

Representatives of all the civic clubs and organizations of Statesboro were present at the ceremony. W. R. (Dub) Lovett, president of the Statesboro Chamber of Commerce, presided at the meeting.

The Jaycees were active in 1949, safety promotion and sponsored the presentation of the award on Tuesday night.

Mr. Lovett presented Sergeant Eugene Thomas of the State Patrol, who is in the field in the department's education section. Sergeant Thomas presented Sergeant E. H. Branch, district commander of the State Patrol at Swainsboro.

Colonel Burke, before making the award presentation, blamed the indifference of the public to "murder" that is being done daily on the highways of Georgia by automobile operators.

Colonel Burke kicked off for Statesboro and Kelly for B. C. returned to the 45. Redmond made four, and then failed to gain on an attempted pass. Pell was trapped by Claxton and lost eight. Redmond ran from a kick formation on the fourth down and failed to make a first down. Ball over on the S.H.S. 44-yard line.

Brooks Waters made two, then failed to gain. Then Claxton made a 30-yard run, and B. C. was penalized. Jerry Marsh made two, Brooks Waters added three, and a pass from Si Waters to Claxton put the ball on B. C.'s 25. Si made a yard. Then Bobby Stubbs ran to the nine.

He told how a judge in one county broke up drunken driving "he just fined a drunk driver \$1,000, and that did it, and there was no more traffic accident in that community in three years."

Colonel Burke says that the responsibility rests on the citizens of a community. "They can see to it that traffic accidents are reduced to a minimum—if they want to," he said.

**E. S. Center About To Be Completed**

Claxton kicked off for Statesboro to B. C.'s Robinson on a 25. Robinson moved the ball to the 8. Baras made five. B. C. drew an offensive penalty of five yards, then the Blue Devils recovered a fumble on the 44-yard line. Fletcher sweeping wide to the right made five. Bobby Stubbs fumbled, recovered it for a one-yard loss. Brooks Waters made four and Claxton kicked. B. C.'s Cluevich took it.

PLAN WIRING  
The farm family should plan its electrical wiring for three reasons: (1) to get a safe and efficient flow of electric current in the house and on the farm; (2) to save time and money involved in re-wiring; and (3) to locate outlets and switches for greatest convenience.

WINTER GARDENS  
In the winter garden plant asparagus, cabbage, Swiss chard, lettuce, onion, peas, Irish potatoes, radish in beds, and spinach. Extension Service horticulturists recommend.

## Good News For Pedestrians

THERE'S GOOD NEWS for pedestrians. Well, it sounds good, anyway.

But, like so much good-sounding news, there's always a gimmick somewhere.

The Georgia Safety Council is now sponsoring a state-wide safety campaign known as "Operation Safety."

From October 15 through November 30 special emphasis will be placed on pedestrian safety, with the Georgia Junior Chamber of Commerce spearheading this phase of the safety program.

During the year 1949, 143 pedestrians were killed and 3,575 others were injured in Georgia as a result of accidents involving pedestrians and automobiles.

W. E. Mitchell, president of the Georgia Safety Council has figured it out that the total economic losses from pedestrian accidents alone in Georgia last year amounted to \$9,795,000.

As you stand at the traffic light to cross the street you don't calculate the risk you are taking. You step from the curb on the green light and a car, also making a turn on the same green light, has the advantage over you. The driver of the car feels pretty sure that you'll stop for him, even though you have the right-of-way as provided in the Georgia Motor Vehicle Traffic Laws. The law

says: "motorist must always slow down until the pedestrian is safely across."

But you can't be sure that the driver has read the Motor Vehicle Laws and his advantage over you is overwhelming. So, to save your life or to avoid injury, you give way to the motorist . . .

But it's not right.

And there's more to it than just obeying the law . . . simple courtesy enters into it. But citizens who are essentially ladies and gentlemen ordinarily forget the rules of courtesy when they get behind the steering wheel of the family car, forgetting that they oftentimes are pedestrians, too.

And just because the law is on the side of the pedestrian when he is crossing the street correctly, it doesn't mean that you have a charm with you which you can flaunt in the face of the motorist. There is a responsibility on you to use discretion also.

A safety campaign for pedestrians is good. But it's only as good as the cooperation the pedestrian gets from and gives to the local police authorities.

To the pedestrian: Watch your step.  
To the motorist: Give the pedestrian a break.

## We Salute the Old Timers

WHEN OUR National Guard gathered here and shovelled off for Camp Stewart, upon receiving mobilization orders, we saw it as a close-knit organization. You and you, and you, whose husband, brother, or son was in it, saw it as made up of individuals—and they were members of your family.

With its mobilization, our National Guard was commended by top Army brass on its reaching maximum operating efficiency so swiftly.

And there's a reason for it.

Within our unit there is a firm core of 23 "ole-timers." They are men who, though different from the ordinary soldier, were interested in the Guard. They believed it to be a good thing for the national interest.

Many of these men had gone through World War II together, had seen action together, had suffered hardships together—and that made for a closer feeling.

They were with the National Guard when it was mobilized in 1940. It was for "one year" then, they were told, but it lasted through 1945. Then, when it was re-activated in 1947, these men got back in. Now they are gone again—for twenty-one months, they were told.

We take our hat off to these ole-timers. We believe the mothers, fathers, sisters and brothers of the youngsters who joined the new National Guard have more faith in their safety, knowing their welfare is being guarded by these men of experience.

Here are the ole-timers. The rank in parentheses is that which they held in 1940:

Lt. Col. Henry J. Ellis (captain); Major LaFiee D. Collins (2nd Lieut.); Major William P. Rimes (1st Lieut.); Major John D. Underwood (Sergeant); Captain Gene James S. Kenan (sergeant); Captain Gene L. Hodges (corporal); Capt. Leland Riggs (PFC); 1st Lieut. Wilbur L. Garrick (PFC); 2nd Lieut. Ewell B. Bailey (corporal); Warrant Officer Thomas M. Forbes (private); 1st Lieut. James O. Edensfield (private); 2nd Lieut. Fred T. Lanier Jr. (private); 2nd Lieut. George C. Williams (private); M-Sgt. Clarence W. Brack (1st Sgt.); Sgt. 1C William G. Cone (PFC); Sgt. 1C Cannon Donaldson (PFC); Sgt. 1C Warren G. Harper (PFC); Sgt. Albert V. Blackburn (private); Sgt. Neal B. Strange (private); Sgt. Henry B. Waters (corporal); Cpl. Obren C. Creasy (private); Cpl. Homer B. Robertson (PFC); and Cpl. John Holland (PFC).

## Have You Joined Up Yet?

HAVE YOU joined? The Band Boosters' Club, we mean.

If not, better do so. We'd hate to think of your not being a member of the lodge. There'll be meetings, you get a membership card, and you'll have a vote . . . and everything.

But the principal thing will be the grand glow of satisfaction you'll get when you join up, giving tangible evidence that you believe in the Statesboro High School Blue Devils Band and believe it to be a credit to the community.

## Editor's Uneasy Chair

WE WERE GUESTS of the University of Georgia Athletic Association last Saturday when the Bulldogs and the boys from North Carolina met in Sanford Stadium and played a 6-0 football game.

We rode the Nancy Hanks to Tonnelle, where a Trailways bus met us and took us to Athens and put us out right at the football stadium. Being pessimistic about the weather, we took a topcoat—which was a mistake, for the day was as hot as a firecracker.

Whether or not you like football, a game between two great colleges in a big stadium is still an attraction big enough to give you your money's worth.

The color—of the crowds, the characters one sees, the trip, the bands, the cheerleaders, the stadium—all make for an afternoon to make you forget your worries.

The mayor of "Chittlin' Switch," by his own admission, was present and he was loud in his support of the Bulldogs, and was stern in dealing with his citizens from "Chittlin' Switch"—for he kept shouting, "All right, all you folks from Chittlin' Switch, get ather round!" He ruled completely over the section in which Dan McGill Jr., publicity director of the Bulldogs, had placed us.

It was a great game—filled with heartbreakers for supporters of the Bulldogs, and for the visitors. Passes, short by fingertips; long runs, short by shuttles; first downs, short by half-inches. Strong

hearts revved up by spectacular playing . . .

And it ended nothing to nothing! We saw Virginia Lee Floyd, Dr. and Mrs. Wally Floyd's daughter, from Agnes Scott, over for the game. We saw Ann Waters, daughter of Mr. and Mrs. Loy Waters, a majoriette with the Georgia Bulldogs band. She put on a swell performance with the other five majoriettes at the half-time show. We remembered that Ann was a majoriette with the Statesboro Blue Devils band two years ago.

On the bus coming home we got to know Edward Hooper, who married Jurelle Shuptrine, daughter of the late Mr. and Mrs. W. O. Shuptrine, who owned a shoe store here for years. We talked about Robert Shuptrine, who married Myrtis Alderman, daughter of Mr. Alderman; we talked about the other Shuptrines—Harold, now in Atlanta; Marion, now in Miami; Evelyn, Mr. Hooper is connected with the Savannah Sugar Refinery, and he remembers James Bland, who at one time worked with the refinery.

We got to know Mr. McAfee, who is with the Central Railway, and knows Alfred Dorman, Thad Morris, Walter Aldred, Grady Ataway, George Bean, and Doy Akins, and many other Statesboro people, about whom we talked. We, too, agreed that Statesboro is a fine town.

Thrills in high school football come just as sharp and quick as in college games. High school players handle the ball with the same dexterity. A goal in high school football counts six points just as in college football. There's the same number of players. There's the band and the drum major and the majoriettes prancing around on the field at half-time.

I do not agree with Mr. Johnson that the houses today are being chopped up into too many little rooms. If they have to be chopped in order that there may be enough of them to go around, well, let them be chopped up. If mine is just a cell, let me have one that has a door. In fact, in my dream house, I think I'll take it padded.

## The New Trend In Home Building

By VIRGINIA RUSSELL

The new trend in home building today seems to emphasize one large room. In a recent issue of the Atlanta Journal an Atlanta photographer, Mr. Ralph Johnson, was quoted as saying, "The house I dream about is built around one tremendous room. The room is two stories high and in gymnasium proportions. The main trouble with many houses today is that they're chopped up into so many little rooms . . ."

During a recent visit I discovered the big room in reality. A girlhood friend has moved to the country with her family, and their remodeled farm house has the big room. They do just about everything in it. The furniture consists of a dressing table, a desk, a sofa,

and a huge dining room table. Truly, it represents almost the interior of a house without walls.

"Another friend who lives in Atlanta," showed me the plans which she and her husband have drawn up for their farm house (and this gal was born and reared in Atlanta). They have bought a hundred acres out near Riverside and are planning to build right away. The plans really display the tremendous room—to be exact, it is twenty by forty feet. She intends to have bunk beds built around the walls for her four children to use as rest bunks, reading bunks, etc., and if it becomes necessary, for an overflow of company. The main floor area of the room will be devoted to "centers"; for instance, there will be a sewing "center," an eating "center," a

game "center," and several others. As for me and my husband, and our plans for a house—were we to build again—we'd differ with this trend toward the big room. I, for example, would have a big kitchen with the working center roped off so that I might cook in peace without the whole family under foot. They could just hang over the ropes and look. And there would be a separate sink where they all could wash their hands. If they couldn't stand to leave the kitchen that long.) In the new

## ALL'S FAIR

By Jane

Some of us may not realize what it means to be a Gray Lady. Here in Statesboro, we see them at their post of duty when the Bloodmobile arrives and some may think that's the extent of their services. But let's go farther with our thinking. It's a long, tiresome, soul-killing business lying in a hospital bed waiting for wounds to heal—or just waiting and knowing you'll never get out.

But the problem is less severe when you have the help of such as the Gray Lady Corps of the Red Cross. The Gray Ladies are volunteers who give their time, energy and interest to the welfare of the servicemen.

They help the wounded soldier, sailor or Airman over the roughest parts of the road back.

Here at home a Gray Lady can write letters, remember their birthdays, and think up unusual gifts that may be inexpensive, yet entertaining for a man who has to spend day after day in bed while the long process of healing goes on.

And it is so nice when we have Gray Ladies who radiate charm and their happiness wherever she goes. Remember that many of the recruits should come from the ranks of younger women.

One gray lady puts it this way, "It's a satisfying way of life", of course, we're hoping that the war will stop before it crystallizes into a world cataclysm. For if it does, we're hoping that the war will stop before it crystallizes into a world cataclysm.

Now for a "Once in a life time story". It occurred just across the street from me. I am beginning to believe that news follows me, like murder catches up with all detectives on a vacation. A Mr. Walker drove up at the Pure Oil Service Station now operated by J. B. Williams. A car with an out-of-state tag. A man approached J. B. and inquired, "This is Statesboro, isn't it?" J. B. said "It is." Then the man asked the way to the White-way Court. J. B. gave him the proper directions and the man, Mr. Walker, went on to inquire, "By the way, could you tell me where I could find a young man, his name is J. B. Williams?" J. B. was alerted. He probably wondered what it was this time. He batted his eyes a bit and said, "You're talking to J. B. Williams." The gentleman was amazed, incredulous. As if needing more confirmation, he said, "Do you mean that you really are J. B. Williams?" extending his hand as he spoke. "Certainly," J. B. replied. Then in a

man's Mr. Walker said, "I have a gentleman in the car who wants to see you." The man in the car was elderly (78 as J. B. learned later). He was the father of the man who sought J. B. As soon as he said, "Walker," J. B. responded quickly, "Noway."

A filling station by the side of the road, thousands of miles across the ocean, yet the proprietor meets a man who received him as his overnight guest in the Land of the Midnight Sun, who gave him two wonderful meals. That man was looking for a Georgia G. I. because J. B. on bidding him good-bye, added, "If you ever come to Georgia, look me up."

The elderly man from Norway was a professor of English in a University in Norway and was in America to visit his son. We live in a wonderful world.

Think of it. Three girls from Statesboro are getting into the swim. And we're just waiting to hear from others. Jackie Zetterow, her going along with the A. D. P. and selected by a fraternity as their sponsor for the Pandora Beauty Revue. Donell Thompson, pledged Zeta Tau Alpha, both among the oldest and largest sororities. Then there's Ann Waters, who is a Dolphin and a whole lot more last year, and this year she steps up her pace as a majorette in the Bull Dogs Band. Please tell us what happens next.

Ge, Marguerite, you shouldn't do it. Give us free dinners out at Bryant's kitchen, so wonderfully cooked and prepared that who had thought we did very well at home, find that home cooking is getting sort of tasteless. Now after we enjoyed, on different occasions, turkey roasted to a golden brown, southern fried chicken and out of this world salads and baskets of bread, desserts that make you keep the waitress waiting while you try to decide on which you'd like when you really feel you'd like a bit of them all. I reckon by now, Marguerite, you get the idea that I had a wonderful time at your lovely kitchen.

Speaking of coincidences—we felt that that birdie brought me something along such lines. The morning mail brought me a card from my sister-in-law, Hazel Hollingsworth, who gave me her son's address: First Lieutenant Connor Wright Hollingsworth, S.Q.D., U.S. Naval Hospital, Mare Island, Vallejo, Calif. Wright received a compound hip fracture in the Inchon invasion from machinegun bullets. On the same mail we received an

air mail letter from Leandro, Calif., from a cousin who is visiting her daughter. The card was from Mrs. Sam Lee, Wendell Burke's and Claire Franklin's mother. We pulled out our Atlas and discovered that everyone we know out West lives practically in a straight line. From the U.S. Hospital there followed in close succession, Oakland, Alameda, and San Leandro. So, before we did another thing, we sent an air mail to Cousin Pearl to visit Wright, since she is the only person in the family who can reach him right now...

There is a destiny that marks our ways—but in order to escape a letter of dismissal we stop—maybe—just in time...

Oh, about dismissal—we want to thank Henry's for giving us time on his Monday's program for our interview with Ann Evans and Donald Flanders as they led off Band Loyalty Week with a wonderful radio program. And I thank Editor Coleman for practically putting the words in our mouths.

You Can Tell A Man By the Rules He Keeps

On that last beautiful day we had, it's really not surprising that young Skitter Roberts and Bud Boyd decided to ditch their books and take off for Sandy Creek. But they made one mistake. Got kind of hot walking, so they thumbed a ride—from Mr. Wilson, our brand-new School Superintendent! A few minutes later, both boys were back in geography class.

Mr. Wilson had to tell their parents—that school regulations. But he pointed out that maybe a real "talking to" was all they needed. From where I sit, I'm afraid poor

## THE BAND STAND

By ANN EVANS

Recently Mr. Mac, Don Flanders and I went to a meeting at the Jaekel Hotel along with representatives from various clubs in town. The purpose of this meeting was to organize a Band Booster's Club, which is to help support our band.

Everyone there seemed to really be interested in helping us, ready to start the membership drive. We were all eager to begin and so the drive starts this week. The money from the memberships will be used to buy new band equipment.

Everyone in the band enjoys

working together and, of course, the fun that goes along with it. We want to express our thanks to each other who has or will join the Band Boosters Club.

Friday at the pep meeting, band letters were awarded to the following: Jimmy Bland, Lynett Price, Geraldine Lane, Wineth Fowler, Payrene Sturges, Bob Brannen, Nicky Brown, Carey Donaldson, William Russell, Welsy Carroll, Guy McLendon, Mary Jo Hodges, Shirley Purser, Ann Evans, Peggy Harville, Mildred Ranew, Tommy Singletary, and Edward Brannen.

At the Second Presbyterian Church, The Rev. Stuart Oglesby officiated. After a wedding trip through the New England States, Mr. and Mrs. Trussell visited her sister, Mrs. Fred Bishop on Peachtree and are now at home in Live Oak, Fla.

Among those from Statesboro who attended the marriage of Miss Edna Ann Hutchins and Horace Andrew Ernst Saturday afternoon were Mr. and Mrs. Loron Durden, Mr. and Mrs. Marcus Toole and Miss Hattie Powell. Others included Mr. and Mrs. Dick Bowman of Fort Valley, Miss Dorothy Durden of Atlanta. The groom is a nephew of Mrs. Durden. Mrs. Marcus Toole, cousin of the groom was bridesmaid. Her dress was of Nile green with off shoulder neckline with a satin and falls bertha caught at one side with large flat bows. The sleeves were short and full, and the skirt was of graduated panels of the two materials. Like the other bridesmaids, she wore a crown of waxed ivy leaves and mits matching her dress. Her bouquet was of golden rapture roses.

Mrs. Loron Durden attended a tea given by Mrs. John Stevens in Savannah during the series of parties given in the bride's honor and was herself one of the hostesses at a lovely luncheon at the Pink House on Saturday prior to the wedding. Serving as hostesses with Mrs. Durden were Mrs. J. Edwin O'Neal, Mrs. Richard Bowman, of Fort Valley, and Mrs. Marcus Toole. The guests were members of the family and out-of-town guests. The table was centered with a silver bowl filled with yellow rosebuds. The favors were miniature bridesmaids dressed in satin and wearing yellow hats. In their hands they held place cards. A miniature bride in white satin marked the bride's place.

On Tuesday afternoon Mrs. Loron Durden and Mrs. Marcus Toole took Mrs. Dick Bowman and her daughter, Lee, to Fort Valley.

Mrs. Earl Serson and her sister, Miss Reta Folis, left last week to spend two weeks in Detroit, Mich., and from there to visit in Ontario, Canada.

Mrs. Thad Morris, Mrs. Frank Olliff, Mrs. Bruce Olliff and Mrs. B. B. Morris spent Tuesday in Savannah.

There's a change of the year for your Buick, too, stalwart as it is! Hot summer driving has taken its toll—in played-out lubricants, spark timing that may have slipped off a notch or two over the many miles, a carburetor that would probably give you better mileage and snap if it were properly adjusted now for fall driving.

Point is—your Buick will feel a lot friskier in the trying days to come if you let your Buick dealer get those summer kinks out of its system now! Just drive in—say you want (1) a fall tune-up and (2) a regular Lubricare—and see how much rewarded you are, for a small fee!

Do it this week, will you? Before the rush, you can be served more promptly.

## Who Runs America?

the Congress? the President?  
OR YOU AND THE MAN NEXT DOOR?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organizations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

General Federation of Women's Clubs  
American Farm Bureau Federation  
National Grange  
Veterans of Foreign Wars  
National Conference of Catholic Charities  
National Protestant Hospital Association

American Legion  
National Association of Small Business Men  
United States Chamber of Commerce  
National Association of Retail Grocers  
National Retail Dry Goods Association  
American Bar Association

Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the prideful security of a free and self-reliant people!

THE VOLUNTARY WAY IS THE AMERICAN WAY!

Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance companies, hospitals, fraternal organizations—by industry, agriculture and labor. Today

An American's greatest heritage is the right to learn the facts—and to speak his mind. Maintained with honor and used with sincerity—that right will guarantee forever that

## America's Utmost in Tire Rubber Economy

Their longer life and greater rubber economy prove them the essential tires of the era.

Every ounce of them is working rubber, without a fraction of waste or excess.

Each of them can give years, instead of miles, of extreme safety and comfort. They are supported by large community investments in dealer service and maintenance equipment.

All of their original safety-mileage is continuously renewed and renewable, without recapping or anything of the sort.

With blackwalls, or Whitewalls, they bring every owner their Mid-Century Curbguard, to protect their sidewalls and end all grinding curb scuff and abrasion.

They also bring their incomparable Safety Tread (ROYALTEX)—for Skid Protection, Stopping Power, and Life Protection never possible before.

These Royal Master qualities are entirely exclusive. They serve and save at the very heart of the National Economy. They remain fresh and new in safety, when other tires are giving up their lives.

## Sadie Moore To Be Church Speaker

Rev. John S. Lough, pastor of the Statesboro Methodist Church, announced this week that Miss Sadie Moore, recently returned from Korea, will speak at the Methodist Church on Sunday morning at the regular 11:30 morning worship hour.

Miss Moore was in Korea at the time of the attack on the Republic of Korea by the North Korean Reds. She, together with other missionaries, were rushed out of the attacked area and sent to Japan, then to the states.

Rev. Lough urges the citizens of Statesboro to attend the service to hear the message Miss Moore has.

Rev. J. D. Corbett will preach at the 7:30 evening worship hour.

## Visiting Teachers Meet Here Today

Visiting teachers of First District are meeting here today to discuss "expanding the role of the visiting teacher." The meeting is being held in the county courthouse.

The welcome will be made by County School Superintendent H. P. Womack.

The program will include: Mrs. Z. Henderson; O. H. Joiner, area supervisor of the State Department of Education; Dr. H. L. Ashmore, of the Teachers College; Mrs. Mary Prendergast, of the Chatham county schools; and Miss Maude White First District chairman. Luncheon will be at the Norris Hotel.

The group will reassemble this afternoon for clinic discussions.

## City Lawns Hit By Cinch Bugs

Damage to the lawns in Statesboro by cinch bugs and earwig worms can be controlled with very little expense.

J. B. Smith, area supervisor for the U. S. Bureau of Entomology stationed here in connection with the white fringed beetle control program, has observed the extensive damage being done to the lawns in Statesboro. Mr. Smith recommended that about one pound of actual DDT be applied per 10 square yards of lawn and then sprinkled with water. DDT 50 percent DDT is used. Two pounds of the product is needed per 10 square yards.

Some of the best results Mr. Smith has noticed in controlling these insects were where parathion was used and DDT were used. Mr. Smith thinks the best results can be obtained in controlling the cinch bug by applying DDT to the effected areas in the spring. If the control practice is started when the bugs begin to show up, the cost would be very small.
