### The Thermometer Last Week Said...

A breath of summer hit Bulloch county last Sunday, when the thermometer hit 83 degrees for the high of the week. Low for the week was 32 on Monday.

Wednesday, Feb. 14	78	42
Thursday, Feb. 15	73	44
Friday, Feb. 16	62	47
Saturday, Feb. 17	68	52

### Chip Deep, Chip Often On Way Out

The old "chip deep and chip often" method of producing gum is rapidly giving way to a new, more economical method of bark chipping with acid stimulation. Dorsey Dyer, extension forester, told a group of naval stores producers here last week from six counties. Acid treatment means spraying a 50 per cent solution of sulfuric acid on the freshly chipped streak. This is a proven method which gives good results. J. Martin, a gum producer from Nevils, said that it increases the amount of timber one man could handle by 100 per cent. Some of the men on his farm stepped up the cups they were working from 4,500 to 9,000. The gum producer who bark chips and treats with acid, one streak every 14 days, will apply about 16 streaks during the usual gum-flowing season. A season's work of 16 streaks will produce as much gum as 32 regular untreated streaks. This also means, Mr. Dyer pointed out, that this doubles the life of the tree.

Gum farmers interested in saving labor and producing more gum can procure the acid and the small amount of equipment necessary for this method of working timber from the naval stores plant. Information on this method of producing gum can be procured through the county agent's office.

Mrs. E. L. Barnes played the wedding music. A lovely arrangement of white gladioli and white chrysanthemums on the mantel in the living room flanked by palms and burning white tapers furnished a beautiful setting for the bridal party.

The bride, entering alone, was met at the altar by the groom and his best man, Dr. Jesse Averette Powell, of Athens, Tenn. She was lovely in a dark blue bengaline two piece dress with navy and white accessories. Her corsage was a white orchid.

### B.P.W. Luncheon At Jaekel Hotel

The regular dinner meeting of the Business and Professional Women's Club was held Monday evening at the Jaekel Hotel.

The table, centered with a lovely arrangement of red and white gladioli with small U. S. flags, established the patriotic theme for the evening.

After a brief business meeting with Miss Helen Rowe, president, presiding, the meeting was turned over to the committee of public

tual Life Insurance Company of New York City.

Mrs. Watkins, a graduate of Statesboro High School, attended Georgia Teachers College, G. S. C. W., and the University of Georgia.

The groom graduated at Baylor Preparatory School in Chattanooga, and later attended the University of Georgia. For several years he has been connected with the Mutual Life Insurance Co. in Georgia.

The ceremony was followed by a wedding breakfast. The table overlaid with an exquisite Madeira tower and point de Venise lace cover, was centered with the beautifully embossed tiered wedding cake. Three-branched silver candelabra with white burning candles were at the corners of the table.

The corners in the foreground held white chrysanthemums showered with white satin ribbons and ferns. White gladioli, greenery and lighted candles were on the buffet and mantel.

During the afternoon, the bride and groom left for Houston, Texas where they will make their home. The bride traveled in a blue suit with navy accessories.

Mr. Watkins, with offices in Houston, will represent the Mu-

affairs, Miss Zula Gammage, chairman. Speakers were introduced by Miss Gammage. Mrs. D. L. Deal used as her topic "America." Mr. Max Lockwood, city recreation director, spoke on the disaster program for Statesboro and Bulloch county.

# Bulloch Future Farmers of America Appeal to Land Owners, "Be Careful"

STATESBORO F. F. A.

## It Is Nearly Springtime—Woods Burning Time—Means Great Loss

By ED HOTCHKISS

It is now nearing springtime in Georgia—woods burning time. One has only to take a trip through almost any section of the state, especially at night, to see dozens of forest fires that burn the little pines, retard the larger ones, destroy the wild life, and burn the soil-enriching pine needles, the fallen leaves and twigs that enrich the soil and keep it from erosion.

The farmer must replant and tend his crops every year, but if Georgians would only help, timber would be so plentiful that it would be possible to realize what they turn each year, what waste they indulge in when they permit timber to rot, and the profits possible when the land is replanted to a forest.

Boys of F. F. A. chapters in Bulloch county appeal to land owners in our great nation—Be careful!—Be careful!—not to burn your woods unless under close supervision.

Woods burning in Georgia is almost a ritual every day, and with the vast system of public schools that Georgia has, it is hard to believe that the simple facts of forestry are seldom mentioned in the

classes of boys and girls. The older people seem to be wholly unconscious of the vast waste that goes on in Georgia each year.

Here in Statesboro High, English classes have used a study in conversation as material for formal and oral composition, and the study has become one of great interest to the students. The study is of section of Bulloch county through discussion and reading in the homes of students concerned.

Southern woodlands encompass a vast area. Here grow the pines—longleaf, shortleaf, loblolly and slash—the economic backbone of the south. From logging of turpentine and resin are manufactured by southern labor. The profits go into southern pocketbooks—YOURS.

Your business may have nothing to do with lumbering, pulp making, and the refining of turpentine and resin, but your business and your livelihood are influenced by those who depend on these industries for jobs.

When fire spoils your southern woodlands, the basic raw material is burned and production of the finished products may be slowed down. The security of those who cut, process, sell, or transport products made from wood is endangered.

Boys of F. F. A. chapters in Bulloch county appeal to land owners in our great nation—Be careful!—Be careful!—not to burn your woods unless under close supervision.

Stilson F. F. A. and F. H. A. Hold Joint Meeting; Hear Radio Skit by Members

By CALVIN EDENFIELD

Stilson Future Farmers of America and the F. H. A. (Future Homemakers of America) held a joint meeting in December in the real fun of the holiday party.

Brooks Akins and Kermit Newmans served with Sara Frances Driggers and Shirley McClelland as a program committee for arrangements for the party.

The program consisted of singing and games. One of the most interesting features of the program was the radio skit by Calvin Edenfield, James Hodges, Kermit Newmans, Heyward Morris, and Dudley Hayes.

Refreshments were prepared and served by Billy Findley, Julian Fordham, Jimmy Bath and a committee from the F. H. A. chapter. Fruit was furnished by F. F. A. while the Future Homemakers made punch and baked cookies.

Heyward Morris, Donald Strickland, Jo Ann Morris, and Lois Ann Richardson, decorating committee, really had the "Log Cabin" place of beauty for the party. Candles were used for lighting.

Gene Bath made the prize-winning hat—a comical Christmas hat.

Mrs. Lehman Sanders and Mrs. J. L. Harden were guests.

Mrs. Fields is adviser for the F. H. A. and Mr. George Chance is adviser for the F. F. A.

LIVESTOCK IMPROVED

Stilson chapter of F. F. A. is able already to report marked improvement in quality of livestock of the community from the breeding of grade cows to the Sears Roebuck whiteface bull given the chapter two years ago on the chain basis.

STUDY WOOD PRESERVING

Eighth Grade members have been studying wood preservation—Morrison, Morris, Brooks, Akins, and others.

## F.F.A. Resolve To Keep The Record

By EMMITT ALFORD

Bulloch county, with her numerous F. F. A. enthusiasts, points to the leading national list of Master Farmers and resolves that the high place now held in the number of famous farmers will not diminish in the coming years, but will become an unbroken national record.

"More Master Farmers than any other county in the nation," Bulloch county F. F. A. boys are making strong resolve to keep that slogan for a night long time.

Who are these famous farmers? They are: The Henry Blitches, the W. H. Smiths, the John H. Brannens, the W. C. Hodges, the Delmas Rushings, the Otis Hollands, and the C. B. Gays.

The Progressive Farmer and the Extension Service name these celebrities of the farm world in Bulloch county.

This peeler was given to the chapter by A. B. McDougald, of American Oil Company, for use by farmers.

Ninth Grade members have made and planted a tomato bed to grow plants for chapter members at cost.

Tenth and Eleventh grades have studied using the farm level in leveling ground and in ditching.

## REGISTER F. F. A. Pig Chain Members of Register F.F.A. Cooperate In Buying of Certain Feeds

The pig chain members of the Register F. F. A. chapter are cooperating in the buying of certain feeds and supplies they will need in the feeding of the hogs they have as part of their project program.

One-hundred-pound bags of minerals and tankage have been purchased and put into 10 and 20 pound bags to be sold to the boys as they need it. This has made it possible for many members to more easily feed a balanced ration since one animal would be a long time in using 100 pounds of such feed.

Phenothiazine has also been distributed to the members in doses for one or more hogs or calves for the removal of internal parasites. The chapter is also distributing to the members a three-gallon pump is kept in the vocational shops for the boys to use.

The project is an outgrowth of a study made of feeding hogs, and the controlling of internal and external parasites of hogs and cows.

REGISTER BOYS COMPLETE

Ten members of Register F.F.A. are competing with each other in growing out purebred gilts to be shown in the local and county F. F. A. hog shows, and in the area show to be held in Savannah.

PORTAL F. F. A. Sets Out 20,000 Pine Seedlings; Make plans for Camp Trip

Portal F. F. A. is really going in for forestry, 20,000 pine seedlings having been ordered for distribution among the members of the Portal boys F. F. A. chapter.

Several of the boys did such splendid work in the growing of pines last year that they were awarded a camp trip for their efforts.

Ten of the Portal chapter members have been designated to ready purebred gilts for the livestock show, in which the boys hope to take some of the top prizes of the year.

On the bulletin board in the Agriculture classroom a record is kept of the weights of the pig chain pigs from time to time. At the present, Jack Quick and Hudson Temple's pigs weigh the most. The Register members having chain pigs are: Talmadge Royal, Albert Yeomans, John C. Nevi, Jack Quick, Robert Donaldson, Hudson Temple, Ben Grady Harrelson, Herman Miles, and Bobby Bohler.

## Bulloch County Future Farmers Observing National F. F. A. Week

Last Saturday marked the beginning of National F. F. A. Week. Across the nation the public eye will be focused on nearly 350,000 Future Farmers and the leadership training and agricultural improvement activities they are carrying on.

Members of the (1) Nevis, (2) Brooklet, the (3) Register, the (4) Stilson, the (5) Laboratory School, the (6) Portal, and the (7) Statesboro chapters will join in this annual observance which comes every year during the week of George Washington's birthday.

Governor Herman Talmadge has signed a proclamation officially setting aside February 17-24 as Georgia Future Farmer Week. In it he urges all citizens to "take notice of the many contributions of the F. F. A. to our State and to encourage in every possible way the further growth of this splendid organization for our farm youth."

The Governor also called attention to the part Georgians have played in making vocational agriculture training possible. He Smith and Dudley Hughes, both Georgians, sponsored the Smith-Hughes Act which started vocational agriculture. Subsequently, every piece of federal legislation to expand vocational education has carried the name of Senator Walter George.

The F. F. A. was founded in 1928 by a group of vocational agriculture students meeting in Kansas City. Since that time it has grown to be the world's largest farm boy organization.

Only boys studying vocational agriculture in high school are eligible to become F. F. A. members.

### Thumpers Hauled the Pumps

Hoof-thumping horses hauled smoke-belching pumps to fires back in 1891, the year Life of Georgia was founded. You can read about that era in "The Southern Sentinel," a newspaper printed in the style of the time.

VOLUME XI

The name "Robert Ripley" and the exhibit, "Believe It or Not," are an accepted combination everywhere where more than 40 years ago the publication of the cartoon book began.

Not so well-known is Ripley's amazing collection of unusual items, often the originals from which his drawings were made.

This collection gathered by Ripley on his perennial jaunts to strange, faraway lands, contains items to thrill and fascinate curiosity seekers of all ages.

A special showing of oddities, curiosities, and art objects from this collection, being exhibited on national tour under the auspices of the Disabled American Veterans, will be presented in Statesboro on Sunday afternoon (March 4) by The Department of Georgia D. A. V. This exhibit, mounted in a special custom-built trailer, will be located at the Court House and made to assist them in carrying on their services to disabled veterans.

The exhibit, containing many items never before seen except by Ripley's intimates, is one of six collections on tour under the auspices of the D. A. V. Funds received from voluntary donations accepted will be used by the State Department and Chapters of the D. A. V. within the state where the contributions are made, to assist them in carrying on their services to disabled veterans.

He then added that if citizens wished to volunteer to become blood donors they should call Mrs. J. D. Fletcher at Phone 280 or call the chairman of the civic organization, or club, through which they wished to make their contribution.

To give a pint of blood that someone may live is one of the most unselfish acts a person can perform, so volunteer now!" he said.

## Bloodmobile Back In Statesboro On Tuesday, March 6

The Bloodmobile will be back in Statesboro on Tuesday, March 6 for its regular collection of whole blood.

The Bloodmobile, chairman of the Bulloch County Bloodbank program, announced today that the Bloodmobile will be at the Community Center from 9:30 to 11:30 in the morning and 1:30 to 4:30 in the afternoon.

Chairman of the organizations in the city and county are being urged to contact their prospective donors and have them at the collection center on Tuesday.

Mr. Minkovitz states that more than 200 donors are needed if Bulloch County is to furnish her quota of whole blood.

The Bulloch County Hospital continues using a great amount of whole blood. It is now being used in the treatment of patients in the armed forces.

"We cannot stress too much the urgency of the need for whole blood. We know that many citizens have given blood—some one time, some more than one time. But we also know that many have not taken advantage of the opportunity to perform this great unselfish duty to their community and nation."

He then added that if citizens wished to volunteer to become blood donors they should call Mrs. J. D. Fletcher at Phone 280 or call the chairman of the civic organization, or club, through which they wished to make their contribution.
