**BC Phone Status To Clear October 8**

The status of the Bulloch County Telephone Exchange, which will be definitely known shortly after October 8, engineers who were in the county last week stated. They will be making engineering studies of six proposed systems in this section of the country until that date and the Bulloch county project will be up first when they return to Washington. Making the study here were N. M. Kischitz and R. A. Fenderson, with Wes Hopper, REA telephone man for the southeast, and L. A. Shrader, construction engineer. All four men from Washington expressed the belief that the local program was off to a good start and said they saw no reason why funds could not be made available to the new cooperative shortly. The engineers asked that all desiring telephones who had not signed up to do so as early as possible. All lines will have to be constructed to take care of only those signed up and it will be too expensive to add others after the program gets underway.

A new small industry went into production this week as the Raylin Feed Mills and began mixing livestock and poultry feeds. The new industry was owned and operated by Raymond Sumnerlin of Statesboro. Smith warehouse on West Main Street. Mr. Sumnerlin stated that they will manufacture feeds of all kinds: cow feed, horse feed, hog feed, dog feed, chicken feed, turkey feed, calf feed and other feeds. His equipment is the most modern available. It includes a hammermill with 75-horsepower motor, dry feed mixers, and a syrup machine to add molasses to feed. Mr. Sumnerlin will distribute his feeds under the trade name "Shur Gro." He added that he will make deliveries direct of orders within 50 miles of Statesboro. **Here's A Challenge...**

More than 100 young girls of Statesboro—members of the Girl Scouts and Brownies—are without sufficient leaders. One group of Brownies has one leader. The Girl Scouts have none. Max Lockwood, superintendent of the city recreation department, says the program will break unless volunteer leaders present themselves and save it. For the lack of several ladies, one of the community's most important programs is about to fold up. More than 100 young girls, interested in the things that make for better character, are about to lose their Girl Scout and Brownie status because of a lack of interested leadership. One of our community's greatest resources is about to be neglected because of a lack of interested leadership. We have the Woman's Club, the Junior Woman's Club, the Garden Clubs, the Rotary Club, the Lions Club, the Jaycees, the Elks, the Moose, the Business and Professional Women's Club, the Beta Sigma Phi Club, the churches the Sunday schools... Out of all these—dedicated to the progress, welfare and happiness of this community—there should come leadership for these 100 girls. There's a challenge!

# Do As They Say

THE SCHOOL BOY PATROL is now on duty at the Statesboro public schools. These young traffic directors are assuming the responsibility of controlling and directing traffic at College and Grady streets, and at South Main and Grady streets. They are there to enforce safety measures. They are there to protect the school kids who walk to and from school, the kids who ride bicycles to and from school, and the kids who ride in cars to and from school. They have taken on a great job.

## Let's All Toss Up Our Hats

TOMORROW NIGHT local football enthusiasts will see the 1951 Blue Devils in their first home game. The Boys in Blue will meet Blackshear here in Memorial Park Stadium. Many saw the hometown boys defeat Waynesboro 21 to 6 in Waynesboro last Friday night, and they liked what they saw. There's something satisfying about seeing your hometown high school football team play a neighboring high school team.

You know every kid on your team, and many of the kids on the visiting team. You've been seeing him 'round town, at church, at the recreation center. You took time out and went down to the stadium and watched him and his teammates working out. You helped buy those big jackets they wear between halves. You bought an ad on the football program. You have an interest in the hometown player.

You've got an investment there. And you know that there on the football field is the makings of a fine man, a fine sportsman, a fine citizen. And you hope that too much emphasis has not been put on winning every game. You hope that the proper emphasis has been put on the game to put it in the proper perspective to his school, to himself, and to his future.

## To Conserve Our Human Resources

WHEN Lieutenant Governor Marvin Griffin completed his speech here on Saturday afternoon of last week dedicating the new Health Center, Bulloch county moved ahead in our progress march. For many years the Bulloch County Health Department has been doing a great work with inadequate facilities. Now, with one of the most modern units in the country, the Health Center is prepared to do wonderful work in conserving this community's human resources.

We congratulate the county authorities, the health authorities, and all who had a part in bringing this great service to Bulloch county.

## Know Your Banker

WHAT makes our community grow and prosper? It's the people who live and work here. It's the churches and schools. It's the business and banks. All working together. And under it all is bank credit—the lifeblood of progress. Credit for merchandise and materials. Credit for tools and payrolls. Credit to finance homes, and the purchase of goods by individuals. Under our chartered banking system, our banks make many local loans to those who can use them for constructive purposes. Banks also safeguard depositors' funds, and transfer money for depositors. And, because each bank is part of the area it serves and grows only if that area prospers, local needs will always be paramount under our banking system. In lands where political domination has supplanted freedom, local interest is done away with. "Socialist planners" want control of banking—not to serve better, but to dominate the nation. In modern history every attempt to enslave a society has included early efforts to destroy individual rights to freedom in banking matters. If you value financial freedom, safeguard your right to chartered banking. Banks over Georgia will observe "Know Your Bank Week" October 8-13. It will give you an opportunity to know your banker better.

# The King's Illness Makes Us Recall His 1939 U.S. Visit

By VIRGINIA RUSSELL

THE RECENT illness of the King of England has caused me to recall the visit which he and his queen made to our country in the late spring of 1939. It happened to be our good fortune to be living in Washington at the time; so our family shared the excitement of the many preparations prior to their arrival—and, later, the actual arrival and parade of this royal couple.

We did not live far from the capitol, which was on the route of the parade, and we walked over early in order to get a good location—only to discover that hundreds of others had had the same idea. But we were fortunate in meeting a sister who had come in her car and had parked it in good position. She had a young son, and there were two of the same belonging to us. With this trio on the roof and the adults on the fenders, we watched the parade.

The parade was one never to be forgotten by children or adults. It was an all-out army day parade, with a king and queen, a president and first lady thrown in for good measure. There was so much to take in when everything finally started—tanks, guns, marching soldiers, planes zooming overhead, and, to cap it all, lines of magnificent cavalry horses knelt and bowed as the two cars carrying the VIPs came by. It was so much that the thought suddenly came to me that the boys would hardly notice the King, even though he was in a glorious uniform, so enthralled were they with everything else. So I said, "Do you see the King?" And the elder son answered, "Yes, he's the one with the freeman's Sunday hat."

The next day the King and Queen were to make a formal visit to the House and Senate. It was my extraordinary good luck to get a seat on the capitol plaza for this occasion, and my chair was right at the end of the row and right on the aisle that the royal couple was to come down to enter their car at the conclusion of the congressional reception. Now, on our walk over to the capitol I had persuaded my younger son not to walk in puddles of water which were on the street by telling him that he must keep his shoes clean for the Queen. Well, we were finally seated, the younger son on my lap, the younger standing by my chair. Just as the Queen got to where we were, and was passing by (in a beautiful dress and carrying an umbrella), the younger son, in his shrill voice, yelled out, "The Queen didn't look at my shoes!" Much to my embarrassment, he caused quite a bit of laughter.

My husband did not have a reserved seat, as they were for women only, but on his return from showing us to our seat he was waving an enclosed (rope enclosed) place by a policeman and found himself in the section reserved for the press and decided to remain, since this place was by the steps where the King and Queen were to alight from their car and enter the capitol. He later told me how he heard one of the newsmen relate that Vice President Garner, when he saw the royal car drive up, hurried into the rotunda, shouting, "Boys, the Brits are coming!"

It was interesting to see the difference in a king and a president as they greeted the crowds on that occasion. President Roosevelt vigorously waved and waved in a most formal manner. The Queen had great poise, and I could not help wondering whether it had been born or acquired—and, if acquired, how long and tedious the discipline!

All of this came back to my mind because the King is now very ill, and I have felt a personal interest in him, even though I observed him only from afar. But I liked him even at such a distance, and hope that he will soon be fully recovered.

"Tater" is proud of his wife. The doctor said she was 100 percent O. K. according to "Tater." Consequently, when she received an invitation from her son, Lt. Commander A. R. Rucker, stationed at a Naval Base at Washington, D. C., to come for a visit, she left here on Sept. 5 with her grandson, Thomas Rucker, who is a student at Gallaudet College for the Deaf, located in Washington, Mr. Rucker had a telegram last week from his son saying his mother was leaving by plane Sunday for Atlanta where she will visit another son, Horton Rucker. Tater gleefully announced, "I'm going to write to all of her people living in and around Atlanta to meet her at the Air Port."

A YOUNG business woman in this town is looking forward with unusual eagerness to her birthday. SHE ASKED for it. And Mayor Gilbert Cone let her have it. A Negro woman was brought before Mayor Cone during his Monday morning court this week. She was charged with disorderly conduct and being drunk. When asked what kind of work she was doing, she told him that she was picking cotton. "You a good picker?" "Yes, suh!" "How much can you pick a day?" "Bout 300 pounds, I reckon. Gets \$4 hundred."

NOT a single case of speeding or drunken driving in Mayor Cone's court Monday.

## AN EDITORIAL

# Free Press Spreads Light On Darkness of Ignorance

"YOUR NEWSPAPER lights the way of freedom." That is the theme which has been chosen for the 1951 observance of National Newspaper Week.

The choice is a fine one, for the slogan has far-reaching implications. First of all, it suggests that where there is no light there is darkness. In this case the darkness is ignorance, "a night," someone has said, "without moon or stars."

The National Newspaper Week theme presumes the right to pierce that darkness with the light of information and it presumes at the same time the right to keep that light burning in the face of all odds. For free man has a right to know. If there is a right to know, there must be a right to tell.

The men who made this nation considered the right to tell so important that they wrote it into the No. 1 Amendment to our Federal Constitution: "Congress shall make no law...abridging freedom of speech and freedom of the press."

But the right to tell is more than a privilege, it is a duty. Elijah Lovejoy, abolitionist editor at Alton, Ill., believed in his right to carry the lamp of the free press and he knew his duty to light it and keep it burning. Three times mobs destroyed his presses. While he was protecting his fourth press, Lovejoy was shot to death.

Don Mellett, the Canton, Ohio, publisher, kept the spotlight of publicity focused on the racketeers of his community until they ambushed him and shot him at his own doorstep.

Racketeers, international or smalltime, know the power of the press. That is why they must control that power, why they must black out the light of public information if they are to attain and maintain a grip on the people.

That is why half the population of the world is under some form of censorship today.

That is why Gen. George C. Marshall, Secretary of Defense, said "Americans should keep constantly in mind that no people have lost their liberties so long as their press remained free."

That is why in the interest of world understanding—and hence in the interest of peace—our nation seeks actively to spread throughout the world the freedom of the people to learn the truth.

A free press—a free people.

"Your newspaper lights the way of freedom." The vital truth of that message is the one thing National Newspaper Week has to sell.

# NEW PARTNERS FOR PROGRESS!

Making Rail Service Stronger For Southeastern Shippers...

## PARTNERS IN SERVICE

The Savannah & Atlanta, which extends from Savannah to Camak, Georgia, 141 miles, will continue to operate separately under its own name to reserve the advantage of competition.

Yet the S & A will, on the backing of a trunk line railroad, give it greater strength to serve the public. Now its resources for service will be greatly increased.

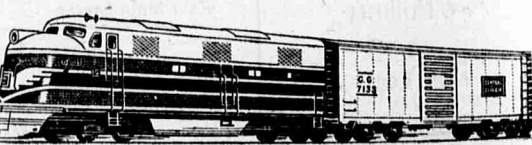

The Central of Georgia Railway has purchased the properties of the Savannah & Atlanta Railway, with the unanimous approval of the Interstate Commerce Commission. Proudly we add another link in the chain of progress of the Friendly Central.

## PARTNERS IN GROWTH

To the S & A is added the experience of the Central's Industrial and Agricultural Departments. Industry and agriculture will be fostered, promising more expansion and prosperity. Right now 4,000 acres of the finest industrial and residential lands are available for development.

The Central of Georgia forecasts an even more successful operation for the S & A with continued security for employees, better service for its patrons and expanded facilities for the entire area.
