

WOODRUM

(Continued from Page One)

assembly. Those hearing the Governor call for a gross income tax, or sales tax, were Mr. and Mrs. Frank Williams, R. Lee Moore, Walter McDougal (who is looking better than we have ever seen him look), Leodel Coleman, editor of the Bulloch Herald, Fred T. Lanier, Albert Deal and others.

The best story of the week, and a picture of the principals appeared on the front page of the Atlanta Constitution last week. This story was about representative Darwin Franklin, and Mrs. Franklin, who are representatives because Mrs. Franklin is just as much of a representative as Darwin.

Representatives Harry Aiken and Franklin introduced a bill this week to abolish special criminal districts in counties having populations of 26,225 to 26,250. This will affect the special districts in Bulloch and if passed will eliminate the job that Ruggs is now holding, which pays \$65.00 a month.

You will have to look a long time over in the house of representatives, and in the senate to find three better dressed and a more popular delegation than this crowd from Bulloch.

They have got it, and have plenty of friends. You will have to look a long time to find a keener politician than Senator Harvey Brannen. Harvey doesn't say much, but he knows what he is doing.

Round Robin

(Continued from Page One)

The several witnesses subpoenaed from Statesboro and Bulloch county were not called before the committee. When they began arriving in Atlanta Tuesday night of last week they learned that the committee action came suddenly on a motion by Representative DeFour, of McIntosh county after P. H. H. of Soperton and Alonzo Woods, of Swainsboro had sworn that Judge Woodrum attempted to obtain the influence of State Senator John B. Spivey, now president of the Senate, to block impeachment proceedings. They testified the judge agreed to direct a verdict of acquittal for Albert Cobb in the Danahy murder in Screven county, if Mr. Spivey would help block the impeachment proceedings. These two witnesses swore they related the proposition to Mr. Spivey late one night last summer, getting him out of bed for the conference. He promptly refused the proposal, they said.

Judge Woodrum was represented at the committee hearing by his attorney, William Schley Howard, of Atlanta, who bitterly complained that he had no opportunity to refute the charges. "We could refute every syllable of testimony offered by the prosecution," he said, "but the committee would not permit us to put up our witnesses."

LOCAL GOODYEAR REPRESENTATIVE GOES TO AKRON

George Pittman Jr., local sales representative of the Goodyear Tire and Rubber Company, will leave here Saturday for a trip to Akron, Ohio, where he will attend the four day Home Coming celebration commemorating the fortieth anniversary of the founding of the company in a program starting February 20, and continuing through February 23, when final event of the occasion is the dedication by the city of a bronze statue of Charles Goodyear, discoverer in 1839 of the process of vulcanization of rubber, on which the modern industry is founded.

Mr. Pittman will be one of 1,700 Goodyear representatives from all over the world, who will participate in the program which is designed to provide a renewal of acquaintance and a portrait of the company's world-wide activities.

Representatives from every Goodyear plant, manufacturing and sales location activity in all parts of the world, will be present. The program is to feature speakers of international note and there have been arranged a series of dramatic exhibits which virtually constitute a "Rubber World's Fair" and depict the many phases of the company's fields of endeavor.

Every Akron hotel will be filled to capacity and there are plans to house 200 for the four days in the nearby city of Canton.

SOCIETY

(Continued from Page One)

Dr. and Mrs. A. D. Mooney and Miss Sara Mooney left on Thursday for a visit to their daughter, Mrs. Tupper Sausy and Mrs. W. S. Partick in Tampa.

Mrs. Frank Grimes is visiting her sister, Mrs. L. E. Puteh in Ocala, Fla. this week.

Valentine motif was carried out effectively in the decorations, refreshments, and prizes. Chinese Checkers was the feature of entertainment. Mrs. Tomlinson was presented two linen towels. The high score prize, was a linen guest towel. Floating prize was kitchen towels; finger tip towels were given for consolation and tea towels were given for high score at each table.

Invited to meet Mrs. Tomlinson were: Mrs. Leon Donaldson, Mrs. Leon Tomlinson, Mrs. R. J. Kennedy, Mrs. W. T. Thomas, Mrs. W. H. Ellis, Mrs. W. W. Williams, Mrs. W. W. Edge, Mrs. S. J. Proctor, Miss Eunice Lester, Mrs. Ivan Hostler, Mrs. A. M. Deal and Mrs. Wade Trappell.

The hostess was assisted by Mrs. Virgil Donaldson in serving tomato aspic, sandwiches, fruit cake and coffee.

On Tuesday evening Mr. and Mrs. W. D. McGauley entertained with four tables of Chinese Checkers. The guests included Mr. and Mrs. H. P. Jones, William Smith and Mrs. Sidney Smith, Miss Minnie Mikell, Miss Nell Jones, Miss Leona Anderson, Miss Carrie Lee Davis, Mr. and Mrs. Dewey Cannon, Mr. and Mrs. Hudson Allen, Mr. and Mrs. Charles Nevils and Mrs. Ivy Miller.

High for ladies was handkerchiefs. Mrs. high was also handkerchiefs. Ash trays were given for low and a Valentine box of candy for floating prize.

Refreshments for the evening party were similar to those served in the afternoon.

PERSONAL NOTES

Mrs. Fred Smith, Mrs. Laney Grimes, Mrs. Dean Anderson and Mrs. Lintie Banks were visitors in Savannah Tuesday.

Mrs. Fred Bland and little son, William have returned to their home in Millen after spending the week with her parents, Mr. and Mrs. W. J. Rackley.

Miss Dorothy Green of Millen was the weekend guest of Miss Eleanor Moses.

Mrs. Harry Purvis and little daughter, Margie, of Savannah spent the weekend with her parents, Mr. and Mrs. Morgan Waters.

Mrs. Julian Waters spent Friday and Saturday in McRae with her parents, Mr. and Mrs. W. C. Jones.

Mrs. Alexander Cannady of Eastill, S. C. arrived Monday for a visit to her daughter, Mrs. Ernest Ramsey and family.

Mr. and Mrs. Roscoe Deal and daughters, Patty and Janice, of Pembroke spent Sunday with Col. and Mrs. A. M. Deal.

Mr. and Mrs. Marion Carpenter announce the birth of a daughter, February 13. Mrs. Carpenter will be remembered as Miss Winona Aldred.

Mrs. James Porritt of Shanghai, China, who has been visiting friends and relatives here left Friday for Ohio, who has been converted into a dining hall for the visit.

The visitors will attend ceremonies marking the city's celebration of the centennial of rubber, among which will be the dedication of a heroic bronze statue of Charles Goodyear, discoverer of rubber vulcanization. The statue, erected at the end of a beautifully landscaped park, fittingly flanked by Akron's armory, city buildings and county courthouse, is a striking addition to the city's mall.

Following the dedicatory program, several thousand citizens of Akron and visitors will hold a banquet in the armory, plans for which have been made by the Chamber of Commerce.

"I expect," said Mr. Pittman, "during my stay in Akron, I will get to see many of the recent improvements in tire manufacture in the company's plant and to greet a great many of the fellows whom I have known, but who are now scattered around the world."

Every Akron hotel will be filled to capacity and there are plans to house 200 for the four days in the nearby city of Canton.

WORK SHEETS FOR

CHANGED FARMERS MUST

BE FILED BY MARCH 1

Work sheets for farmers that are to be divided or changed otherwise to conform with 1939 operations should be filed with the county agent prior to March 1.

Plans that are to be operated by the same operator in 1939 as in 1938 with no land added or taken away from the acreage do not need any alterations in the forms now on file.

If alterations are to be made approval of the divisions, additions, or changes in operators, will have to be procured from the state office. If work sheets are on file by March 1, approval can be procured by planting time.

For the convenience of those who are required by law to file Federal Income Tax Returns, a Deputy Collector of Internal Revenue will be at the U. S. Post Office in Statesboro on February 21 and 23 to assist tax payers in preparing their returns.

THE STATESBORO CURB MARKET

Saturday, March 4 will see Statesboro with a Curb Market.

This market is being sponsored by the Bulloch County Home Demonstration Council and the Statesboro Woman's Club. This will mark the beginning of a new era for the farmers and their women-folk in this section. It will provide them with a weekly cash income. It will provide the housewives of Statesboro with an opportunity of securing foodstuffs grown in Bulloch county—Bulloch county products for Bulloch county people.

Miss Elvie Maxwell, County Home Demonstration Agent, announces the following rules will govern the activities of the curb market:

1. Only actual producers shall be allowed to sell on the market and they must live in the trade territory of Statesboro.

2. Any producer-seller may sell products for his neighbor, provided the neighbor be a bona fide producer.

3. There shall be a market committee composed of three Home Demonstration Club members, the Home Demonstration Agent and the County Farm Agent, which shall direct the business affairs of the market.

4. The above committee shall determine the selling prices of products and post them—these to be according to quality and grade, and must be adhered to by all sellers. These must be in line with local retail prices.

5. The market is to be operated on Saturday. Other days may be added at the discretion of the market committee.

6. The market shall open at seven and stay open as long as the sellers wish to stay.

7. Each family coming to the market to sell must not sell from the streets between six A. M. and two P. M. o'clock.

8. All articles placed on the market must be in good condition and must be as near as possible standard in both weight and size.

9. All articles sold by weight must be weighed in the presence of the customer if requested.

10. All products sold on the market must bear the producers name, with the exception of fresh vegetables, flowers and plants.

11. All persons having for sale such products as—cakes, pies, dressed poultry, barbecue, hash and etc., are required to use wire screens, show cases or netting as a protection from flies.

12. Anyone selling fresh meats, sausage or barbecue must abide by city regulations.

13. All persons selling at the market are required to stay behind their own counter and not interfere in any way with customers trading at another table.

14. Sellers are ask not to sit on their tables but appear at their tables as business-like as possible.

15. Trash receptacles will be placed convenient to all tables and sellers are asked to put all trash in them and not on the floor.

16. No patron of the market shall be allowed to advertise privately either through the newspaper or with hand bills.

The weather is uncontrollable, at least a dictator has never tried to regulate it.

A good law is one which applies to the other fellow.

Some speakers select a subject to speak on; then speak far off the subject.

If you didn't actually see them you'd think some women had two mouths and one ear.

None of the "ideal husbands" seem to have never been married.

The Editor's Uneasy Chair....

THE ALMANAC SAYS THE WEATHER TODAY WILL BE WARMER.

Thursday, February 23 will be warmer. Friday, February 24 will be the same. Saturday, February 25 will be the same. Sunday, February 26 will be the same. Monday, February 27 will be cloudy. Tuesday, February 28 will be cloudy. (Something is screwy about this week's Almanac, but we can't figure out what it is). So if the Almanac is wrong don't blame us.

With the county marble tournament coming up some of our old heads flash back to the days when we carried fifteen to twenty marbles in our pocket but always selected a favorite agate when we found the going tough with our opponent in the next to the last hole and shooting for the last hole and we still at the corner hole with three players already out and waiting to take a crack at our knucks. We'll never forget "Nubby" Powell, Harry Aiken and Hubert Shupline-boy—could they "bust our bones." In going over the rules for tournament play we find that they play a different game than we used to play back then. They now use a ten foot ring where we used four holes with the fourth hole at right angle to the other three. And why can't the Jaycees sponsor a tournament for us older knuckers? Then let the old champ play the young champ in an exhibition to decide for all time the feud between youth and old age.

You can get most anything off the average farm except the mortgage.

The trouble about two-faced person is that you never know which face he is wearing.

Should bachelors be taxed? We meant to keep silent on this subject but pressure is being brought to bear on us by "vested interests." No! say we.

A bill has been introduced in the House of Representatives which provides that all bachelors in Georgia beyond the age of 30, must pay a tax of \$100 a year with an increase of \$5 each year that they continue unmarried. The fund thus acquired would be distributed among the old maids of the state.

It is said the bill is regarded as a joke but it fails to jibe with our conception of a joke. If that is what they are looking for in the House we know some jokes a lot more funny than that one.

Why to be forced to contribute to such a fund would be a gross infringement of our constitutional rights. Our own representative Harry Aiken, one of the House's popular bachelors, says "its class legislation." All the bachelors in the House have joined hands in battle against such a vicious form of taxation. Sure, and we envy our friends who have charming wives and lovely homes and we so to see them... oh well, if we are to be taxed we can't do anything about it—with the legislature in its present mood anything can happen. So if worse comes to worse we'll accept it and pay and pay and pay unless... but we're still agin it.

Some people wake up and find themselves famous; others remain out nights and become notorious.

Hush! It takes two to argue, and only one to end it... so why waste one perfectly good person.

There's no excuse for picking the wrong girl today, for a man can certainly see what he's getting.

We men are queer folk. We deliberate an hour selecting a suit of clothes and seldom ever question what we put in our stomach.

Many a man could lighten his moving load by first returning the things friend wife borrowed from the neighbors.

The difficulty with being poor is in trying to save, and buy as much as the rich do, at the same time.

Many people apparently think they are their brother's bookkeeper.

After all is said and done many people keep on saying and doing.

SOCIETY

Popular Bride Central Figure At Lovely Afternoon Tea

Mrs. Claud Howard, who before her marriage February 11, was Miss Cecile Brannen, was the inspiration of a miscellaneous shower-tee given in her honor by Mrs. Inman Foy, Mrs. J. P. Foy, Mrs. Frank Simmons, Mrs. Bruce Olliff and Miss Fay Foy on Saturday afternoon at the home of Mrs. Inman Foy on Savannah Avenue.

A profusion of spring flowers was used to decorate all of the rooms except the dining room where the bridal motif of green and white prevailed. The guests were greeted on their arrival by the hostesses and were conducted to the bride who stood with her mother, Mrs. Cecil Brannen, and Mrs. Arthur Howard, the father of the groom. The bride was lovely in white chiffon with trimmings of rhine stones. Her corsage was of white carnations.

Mrs. Robert Donaldson was at the dining room door and Miss Dorothy Brannen led the guests to the gift room where Mrs. Harvey Brannen and Mrs. Eaten Cromartie presided.

The tea table was overlaid with a dainty lace cloth and was graced in the center with a silver bowl filled with narcissi and fern. White tapers in silver candelabra were placed at each end of the table. Fancy varicolored mints in silver compartments completed the table appointments. Mrs. J. E. Donohoe and Mrs. W. T. Smith poured coffee. Serving frappe and cake to the callers were Mrs. J. C. Hines, Miss Sara Mooney, Maxam Foy and Betty Bird Foy. Mrs. Barney Averitt was hostess in the dining room.

In the music room Mrs. Edw. Groover, Mrs. Waldo Floyd, Mrs. W. E. McDougall, Mrs. James Bland, Miss Martha Donaldson and Miss Fay Foy, Miss Annie Smith was at the door from which the guests departed. About seventy-five callers between four and four thirty o'clock.

Miss Martha Donaldson with top score was awarded a potted hyacinth. A pair of vases went to Mrs. Jack Awtry for low. Mrs. Howard was presented by her hostesses with a piece of silver in the Chantilly pattern. The guests were served an attractive lunch.

The other guests were: Mrs. Ralph Howard, Mrs. Cohen Anderson, Mrs. Henry Ellis, Mrs. Talmadge Ramsey, Mrs. Hubert Amason, Mrs. Robert Donaldson, Mrs. Bob Foy, Mrs. J. C. Hines, Miss Dorothy Brannen, Miss Elizabeth DeLoach, Miss Sara Mooney, Miss Fay Foy and Miss Brooks Grimes.

On Tuesday afternoon Mrs. James Bland and Mrs. Talmadge Ramsey, complimented Mrs. Claud Howard with a large bridge party at the home of the latter on North Main street. The guests were invited for six tables.

Hyacinths and daffodils in artistic arrangement were used to decorate the lovely home. Mrs. Howard was presented by her hostesses with a piece of silver in her pattern.

The guests were served a salad and a sweet course.

MRS. ERNEST RUSHING HOSTESS AT SEATED TEA

On Wednesday afternoon Mrs. Ernest Rushing was hostess to a delightful informal seated tea. Her rooms were attractively decorated with spring flowers. The tea table, overlaid with a dainty lace cloth, was graced with a bowl of narcissi. Pink and ivory tapers with tulip bows with clusters of narcissi gave additional beauty to the scene. Mrs. Cohen Anderson presided at the tea table.

Clever contests were features of amusement during the afternoon. Invited were: Mrs. Arthur Turner, Mrs. E. M. Mount, Mrs. Fred T. Lanier, Mrs. Ernest Brannen, Mrs. Grover Brannen, Mrs. M. S. Pittman, Mrs. Gordon Mays, Mrs. H. H. Cowart and Mrs. Cohen Anderson.

TUESDAY BRIDGE LUNCHEON GUESTS

On Tuesday members of the Tuesday Bridge club and other friends were luncheon guests of Mrs. Harry Smith at her lovely home on North Main street.

In the bridge game visitor's high, an ivory bowl, went to Mrs. Hugh F. Arundel. For club high, Mrs. Horace Smith received a set of ash trays. Mrs. E. C. Oliver for floating prize received party tapers. Mrs. John Kennedy of Savannah was the recipient of an ivory bowl as guests prize.

Other guests included: Mrs. Harvey D. Brannen, Mrs. Jesse O. Johnston, Mrs. Arthur Turner, Mrs. Edwin Groover, Mrs. Dan Lester, Mrs. C. Z. Donaldson, Mrs. C. P. Olliff, Mrs. Gordon Mays, Mrs. H. P. Jones, Mrs. George Bean, Mrs. Frank Williams, and Mrs. Alfred Dorman.

RECEPTION FOR MISS WOODWARD

The Citizenship Committee was hostess immediately after the regular meeting of the Women's Club, honoring Miss Emily Woodward, the guest speaker, with an informal reception. All the ladies who attended the Citizenship Forum were guests at the reception.

The tea table was overlaid with a lace banquet cloth. Silver tea services at each end of the table were presided over by Mrs. Glenn Jennings and Mrs. Dean Anderson. Beautiful baskets of spring flowers carrying out the red, white and blue color motif decorated the club room. A variety of open-faced sandwiches and tea were served by the Citizenship Committee.

MRS. PERCY BLAND HOSTESS AT INFORMAL PARTY

Continuing a series of informal bridge parties Mrs. Percy Bland was again a delightful hostess on Saturday afternoon at her home on Savannah Avenue.

A patriotic motif was emphasized in the table appointment and decorations. The guests were served strawberry short cake with whipped cream. Red and white cups were filled with salted nuts.

Prizes were given for high score at each table. Mrs. B. L. Smith, receiving note paper, Mrs. Ernest Brannen and Mrs. Cecil Kennedy receiving potted hyacinths. Mrs. Horace Smith was given a linen handkerchief for cut.

Others playing were: Mrs. Bernard McDougall, Mrs. H. C. McGinty, Mrs. Homer Simmons, Mrs. A. L. Clifton, Miss Marilu Brannen, Mrs. Lester Brannen, Mrs. Jim Donaldson, and Mrs. Lannie Simmons.

ORGAN RECITAL

Ronald J. Neil is presenting Jack Averitt in an Organ Recital at the Baptist church Sunday afternoon February 26, at four o'clock. The public is cordially invited to attend.

all's fair.....

Valentine Day has come and gone. Beneficial showers have watered our gardens so it ought not to be long now before garden peas and new Irish potatoes and a host of other spring vegetables find a place at our tables.

One day in the car with Willie Dorman, Lillian Braswell and Bessie Kenon we were arguing whether turnips should be called turnip salad, greens, or just turnips. From our country background we put in that they should always be designated as a "mess of turnip greens." Not long after we came across this little verse which supports our contention.

"TURNIP GREENS"
When you get that dismal feeling, not a nickel in your jeans,
Just turn your thinking round a bit to good old turnip greens.
Why life's a rosy garden, it don't take a man of means,
To get a potter's wheel of corn bread and some good ole turnip greens.
They lift the years right off'n you.
You're right back in your teens.
When you wrap yourself around a mess of good ole turnip greens.

It's not such a far cry from turnip greens to new spring clothes. That new straw bonnet sitting so coquettishly on the side of Mrs. Sherman's head is a knockout. We have a hankering to try it on. When you were little and your mother had lady guests for dinner did you ever slip in the bed room and try on all the millinery.

Out at Nan Bland's we couldn't resist turning back the lace cloth and looking at her lovely Georgian dining table.

If those Georgia legislators knew what they were doing up there in Lowell Aiken they'd invite him to sing before that wrangling body. We feel sure that he would be able to introduce a little harmony.

As we were enjoying some of Mrs. Arndel's pound cake we learned that Dean Henderson had just baked a delightful one—why not? We've always felt like beating one was a man-sized job.

What patron on South Main street became enamored of some red curtains and came home and had all of her woodwork in the kitchen painted red to match the curtains?

Was amused at reported conversation—Woman on North Main street complaining about floors—presumably the paint used on them. The gentleman to whom she voiced her complaint inquired, "How were the floors treated?" By which he meant, of course, were they waxed, etc. The woman replied, "Oh! perfectly terrible."

Copied: "The Cones seem to be the leading family at Statesboro, Ga., where Charles E. Cone is president of the Chamber of Commerce, J. Gilbert Cone heads the Rotary Club, Mrs. R. L. Cone is Woman's Club President, Mrs. Gilbert Cone is president of the Statesboro Music Club, and Mrs. Charles E. Cone presides over the U. D. C. chapter." They might have added that Dr. R. L. Cone, as Mayor, is president of the city of Statesboro.

As Ever, JANE.

DINNER PARTY FOR COLLEGE STUDENTS

Mrs. C. B. Mathews and Mrs. Emit Akins were hosts at a three course dinner party as they entertained on Wednesday evening honoring Misses Marguerite Mathews and June Carpenter, who are students at the South Georgia Teachers' College. Members of the Episcopalian Society and their dates comprised the guest list.

Features of entertainment during the evening were vocal selections rendered by Levaughn Akins and contestants in which Anne Breen and Gerald Groover were awarded a Valentine.

Covers were laid for Miss Sue Hammock, society sponsor; Misses Mathews, June Carpenter, Priscilla Prather, Frances Hughes, Margaret Ann Johnston, Frances Deal, Tommie Gray, Betty Smith, Anne Breen, Meg Gunter, Eloise Mincey and Emily Akins.

ANNOUNCEMENTS

Mrs. Paul Lewis will present her pupils in piano in a recital on Tuesday evening, February 23, at 7:30 o'clock at the High School auditorium. A varied program which will appeal to all has been planned.

The public is cordially invited. There will be no charge for admission.

Lewell Akins was accompanied to Atlanta last week by his parents, Mr. and Mrs. Emit Akins, Levaughn Akins and Mrs. Blyse Deal.

MR. AND MRS. FRANK OLLIFF
Mr. and Mrs. Frank Olliff had as their guests at dinner Sunday Mr. and Mrs. Grant Tillman and family of Register, Mr. and Mrs. Lannie Simmons and daughter, Martha Wilma, Mr. and Mrs. Hoke Brunson, Mrs. Mrs. Oscar Simmons and son, William.

P. T. A. MEETING
The members of the Parents-Teachers' Association are urged to attend the regular monthly meeting of the

P. T. A. Thursday afternoon at 2:30 o'clock at the high school auditorium.
Dr. C. M. Dentler of the South Georgia Teachers' College will speak on "What Our Community Should Do to Meet the Needs of Modern Youth."

Mr. and Mrs. E. L. Barnes and children, Ester Lee and Buddy spent the weekend at St. Simons.

Mr. and Mrs. Perry Bland were business visitors in Jacksonville Monday.

Get the acknowledged leader in gas economy... Get yourself a Studebaker

PUT yourself up in front in money-saving, when you buy your new car. Get the best-looking, best-built, best-performing car of 1939—get a Studebaker! Look how much more your money buys... Studebaker's self-stabilizing planar suspension that makes every ride a miracle of comfort—non-slam doors with Hancock rotary latches—automatic hill holder—steering wheel gear shift lever... and gas economy so outstanding it enabled Studebaker to win this year's Gilmore-Yosemite Sweepstakes under A. A. A. supervision with an average of 25.78 miles per gallon! Buy on low down payment—with easy C. I. T. terms.

Potash Qualifies Tobacco for Profits

POTASH makes tobacco smooth and velvety—the quality which brings the extra price from buyers. This quality, together with increased yield per acre due to potash, makes this plant food important to the grower who wants to lower his unit cost of production and make more profit.

The official recommendations of the Georgia Experiment Station and Extension Service are high in potash. For average Georgia soils they recommend an application of 800-900 lbs. of a 3-10-10 per acre and within 20 days after transplanting a side-dressing of 50-100 lbs. of actual potash per acre.

Your county agent or experiment station will tell you the right analysis and amount of fertilizer for your soil. Your fertilizer dealer or manufacturer will point out to you how little extra it costs to apply enough potash.

Write us for further information and literature on the profitable fertilization of Southern crops.

SOCIETY

MR. AND MRS. E. L. BARNES HOSTS AT EVENING PARTY

On Wednesday evening Mr. and Mrs. E. L. Barnes entertained informally at bridge at their home on Savannah Avenue.

Spring flowers in artistic arrangement adorned the rooms where the tables were placed. A lovely pot plant for ladies' high was awarded to Mrs. B. L. Smith; men's high, a double deck of cards went to Ronald Neil. For low E. E. Harris received linen handkerchiefs. Prizes were given to those players making a game in hearts.

Those enjoying Mr. and Mrs. Barnes' hospitality were: Mr. and Mrs. J. O. Johnston, Mr. and Mrs. Gilbert Cone, Mr. and Mrs. Ronald Neil, Mr. and Mrs. B. L. Smith, Miss Marie Wood, Miss Lillian Hogarth and E. E. Harris.

Mr. and Mrs. Clyde Williams and daughter, Martha Sue, of Tifton spent Saturday with Mr. and Mrs. R. J. Brown and Sunday with Mr. and Mrs. D. R. Dekle.

Mr. and Mrs. G. E. Bean and Mr. and Mrs. Ernest Brannen attended the funeral of Mrs. J. A. Evans in Savannah Thursday.

Mr. and Mrs. Jack Swansen of Atlanta were through here Friday and called on Leodel Coleman. Mr. Swansen and Mr. Coleman were co-workers in the National City Bank in New York City.

Brooklet News

Mrs. Joel Minick presented an interesting program in the Brooklet auditorium on "Father's Night," sponsored by the PTA. After the program the visitors went to the Home Economics room where a luncheon was served by Miss Eunice Pearl Hendricks and Mrs. Felix Parrish.

Mrs. T. R. Bryan Jr. and Mrs. J. H. Griffith entertained a group of little boys and girls at the home of Mrs. Griffith in honor of the fifth birthday of Mrs. Bryan's little daughter, Jill.

Miss Ora Franklin invited about 20 of her friends to the home of Mrs. J. C. Preterious Tuesday afternoon as she entertained her sewing club. After an hour of sewing Miss Franklin was assisted by Mrs. Preterious in serving refreshments.

Miss Saluda Lucas entertained the Bridge Club at the home of Miss Martha Robertson Tuesday afternoon. High score was made by Miss Robertson.

T. R. Bryan Jr., who has been very ill in the Central of Georgia Hospital in Savannah, has returned to his home here much improved. Mr. and Mrs. Lucian Bryan, who were called here because of Mr. Bryan's illness, have returned to their home in Greenville, N. C.

Mr. and Mrs. J. W. Robertson Sr., Mrs. J. W. Robertson Jr., and Mrs. Herbert Kinery have returned from Alto where they visited J. W. Robertson Jr.

Mr. and Mrs. M. L. Preston and Montgomery Preston, of Douglas, and Mr. and Mrs. Robert Beall and Vickie Beall of Savannah were weekend guests of Mr. and Mrs. T. R. Bryan Sr.

Mrs. J. H. Hinton has accepted a position in the Middleground school in this county.

Miss Larce Lanier entertained the Hobby Club in the Home Economics room Thursday afternoon. After an interesting program the hostess served refreshments.

Miss Martha Robertson spent last weekend with Miss Eloise Preterious at Bamberg, S. C.

Mrs. Felix Parrish and Mrs. W. D. Parrish spent Friday in Savannah.

Mrs. C. S. Cromley entertained the ladies of the Methodist Missionary Society at her home Monday afternoon. After the program Miss Emily Cromley served a salad course.

At the February meeting of the P. T. A. Mrs. J. H. Griffith presented a program on "Founder's Day." Those taking part were Mrs. F. W. Elarbee, Mrs. W. C. Cromley, Mrs. F. W. Hughes, Mrs. Felix Parrish, Mrs. Hamp Smith, Betty Belcher and Ellie Ruth Belcher.

Mr. and Mrs. S. R. Kennedy spent last week at the coast at the Kennedy cottage.

Brooklet and Stilson Take Top Honors In District Prelim

Two of Bulloch county schools took top honors in the Eastern division of First District Basketball preliminary tournament held in Pembroke last Thursday, Friday and Saturday.

The Brooklet squad won five place in the B division preliminary tournament held in Pembroke on Thursday, Friday and Saturday of last week. John Smith was the star of the team.

Brooklet High had two of its players named on the All-Star team. They were Robert Tillman and Clifford Purvis.

Stilson placed two men on the first team of All-Stars in the "C" Division. They are D. Smith and T. Smith.

The complete All-Star teams are as follows:

A Division: Anderson, Pembroke; D. Smith, Stilson; Warren, Ludowick; T. Smith, Stilson; and Brown, of Pembroke.

B Division: Tillman, Statesboro; Clifton, Brooklet; Bagley, Glennville; Purvis, Statesboro; Beasley, Brooklet.

C Division: Tillman of the Statesboro Blue Devils was high point man of the three day contest in the B Division. He accounted for 25 points in the three games. Lanier of Statesboro was third with 18.

The line-ups of Saturday's final: Stilson (C) 20, Pembroke (C) 18, Brooklet (B) 17, Brooklet 19, Brooklet 19, Brooklet 19.

Stilson (C) 20, Pembroke (C) 18, Brooklet (B) 17, Brooklet 19, Brooklet 19, Brooklet 19.

Stilson (C) 20, Pembroke (C) 18, Brooklet (B) 17, Brooklet 19, Brooklet 19, Brooklet 19.

Stilson (C) 20, Pembroke (C) 18, Brooklet (B) 17, Brooklet 19, Brooklet 19, Brooklet 19.

Stilson (C) 20, Pembroke (C) 18, Brooklet (B) 17, Brooklet 19, Brooklet 19, Brooklet 19.

Stilson (C) 20, Pembroke (C) 18, Brooklet (B) 17, Brooklet 19, Brooklet 19, Brooklet 19.

Stilson (C) 20, Pembroke (C) 18, Brooklet (B) 17, Brooklet 19, Brooklet 19, Brooklet 19.

Stilson (C) 20, Pembroke (C) 18, Brooklet (B) 17, Brooklet 19, Brooklet 19, Brooklet 19.

Stilson (C) 20, Pembroke (C) 18, Brooklet (B) 17, Brooklet 19, Brooklet 19, Brooklet 19.

Stilson (C) 20, Pembroke (C) 18, Brooklet (B) 17, Brooklet 19, Brooklet 19, Brooklet 19.

Stilson (C) 20, Pembroke (C) 18, Brooklet (B) 17, Brooklet 19, Brooklet 19, Brooklet 19.

Stilson (C) 20, Pembroke (C) 18, Brooklet (B) 17, Brooklet 19, Brooklet 19, Brooklet 19.

Stilson (C) 20, Pembroke (C) 18, Brooklet (B) 17, Brooklet 19, Brooklet 19, Brooklet 19.

Stilson (C) 20, Pembroke (C) 18, Brooklet (B) 17, Brooklet 19, Brooklet 19, Brooklet 19.

Eastern Division All-Star Teams Picked

STATESBORO PLACES TWO ON EASTERN "B" DIVISION ALL-STAR TEAM; STILSON PLACES TWO ON "C" DIVISION TEAM

Joe Robert Tillman and Clifford Purvis were named on the All-Star team in the "B" division of the First District preliminary tournament held in Pembroke on Thursday, Friday and Saturday of last week.

Stilson placed two men on the first team of All-Stars in the "C" Division. They are D. Smith and T. Smith.

The complete All-Star teams are as follows:

A Division: Anderson, Pembroke; D. Smith, Stilson; Warren, Ludowick; T. Smith, Stilson; and Brown, of Pembroke.

B Division: Tillman, Statesboro; Clifton, Brooklet; Bagley, Glennville; Purvis, Statesboro; Beasley, Brooklet.

C Division: Tillman of the Statesboro Blue Devils was high point man of the three day contest in the B Division. He accounted for 25 points in the three games. Lanier of Statesboro was third with 18.

Middleground News

By SUSAN EVERETT

Mrs. N. B. Atkins has returned after having spent several days last week in Savannah with her daughter, Mrs. Wilbur Hodges.

Mr. and Mrs. Ernest Blackburn, Miss Louise Blackburn and George Blackburn spent the day Sunday with Mr. and Mrs. Bernard Smith.

Mr. and Mrs. Ernell Deal and children spent Sunday with Mr. and Mrs. Fate Deal.

Mr. and Mrs. N. B. Atkins, Mr. and Mrs. Leroy Atkins and Edwina Atkins spent Sunday with Mr. and Mrs. A. D. Parker.

Mr. and Mrs. W. M. Yarbrough, spent Sunday with Mr. and Mrs. J. I. Smith.

Mrs. Bernard Smith and children spent Saturday with her parents Mr. and Mrs. W. B. Atkins.

Mr. Andrew Nettis was delightfully surprised on Sunday, Feb. 12, with a barbecue dinner at his home in Middleground. The dinner was given in honor of Mr. Nettis' 79th birthday.

During the day many friends and relatives called to wish this popular citizen "Happy Returns of the Day."

Thackston's Dry Cleaners East Main St. Phone 18 Statesboro, Ga.

2 new miles of rural line
12 new rural customers
50 new rural users of electricity
EVERY WORKING DAY!

During the three years ending December 31, 1938, the Georgia Power Company built 1,804 miles of new rural electric lines, serving 10,770 new customers, practically all of them rural and farm residents who formerly had not had the advantages of electric service.

This means that an average of more than two miles of new rural line were built every working day during the past three years; that an average of 12 new rural customers were added every working day; and, conservatively, that an average of 50 Georgians who live in rural districts—men, women and children—every working day began to enjoy for the first time the priceless privilege of electric service in the home and on the farm.

... And That's Not All

These are the results of the last three years in a rural electrification program that began many years ago. Steady, consistent work at this important job has raised today's totals to—

4,192 miles of rural lines in this Company's system serving 48,690 rural consumers. And the work still goes forward!

In addition, we have worked hand in hand with REA cooperatives in extending electric service to still more Georgia farms.

For an electrified Georgia, we will build rural lines where we can—and where we ourselves can't build, we will help others to build.

Georgia Power Company

"From Lugs to Tips

POTASH PAYS

with Quality Tobacco" — Says Mr. Fort

"FROM LUGS TO TIPS, potash produces tobacco that brings a good price," says M. T. Fort, Coolidge, Ga. "On my tobacco 10% POTASH fertilizer paid \$65.00 MORE per acre than 5% POTASH. Fertilizer returned, with 10% POTASH, I netted 1,676 pounds of real quality tobacco for \$276.00 per acre. There was very little trashy tobacco to contend with. I expect to use 12% POTASH fertilizer for my 1939 crop," continues Mr. Fort. "This will insure quality and keep down disease. I cannot afford to cut corners on anything so important as potash for tobacco. Potash costs little and pays BIG!"

"10% POTASH PAID ME \$40.00 MORE PER ACRE" — Says Mr. Newton

J. T. NEWTON, Moultrie, Ga., says: "In 1938 I compared 10% POTASH fertilizer with 5% POTASH fertilizer on my tobacco. When the crop was harvested I was sick because I had not used 10% POTASH on the entire crop. Where 5% POTASH was used the yield was 1,400 pounds per acre which was sold for \$234.00. Where 10% POTASH was used the yield was 1,450 pounds which sold for \$274.00 per acre. The difference in pounds was small but the quality of the 10% POTASH tobacco was much better."

At planting — 3-10-10 FERTILIZER
For side-dressing — NV SULPHATE OF POTASH

The Official Recommendation
for tobacco on average Georgia soils is 3-10-10 TOBACCO FERTILIZER at 800 to 900 pounds per acre at planting, plus a potash side-dressing equal to 100 to 200 pounds of Sulphate of Potash per acre. The side-dressing should be applied within 20 days after transplanting in the field. Authorities state that experiments indicate that the acre value of tobacco may be materially increased by additional potash.

According to a recent change in Georgia fertilizer laws, the nitrogen in fertilizer analyses is now expressed as nitrogen instead of ammonia. This means that fertilizers are stronger from a growth standpoint. Fertilizer containing too high a proportion of nitrogen produces rough, lanky tobacco. Avoid this by selecting a fertilizer mixture in which the nitrogen has been well-balanced with potash. Experiments and the experience of thousands of farmers prove that it pays to give tobacco a lot more potash than it received in the past. Give your tobacco more NV POTASH this year. Your Fertilizer Man can supply you with 3-10-10 TOBACCO FERTILIZER for use at planting and NV SULPHATE OF POTASH for side-dressing. Potash Pays!

MAKE SURE YOUR FERTILIZER CONTAINS AT LEAST 10% POTASH

FAT CATTLE OWNERS GETTING READY FOR OPENING OF SHOWS

With the opening of the spring fat cattle shows and sales just around the corner, Georgia farmers and 4-H club members are busily putting the finishing touches on the animals they hope will bring them trophies and cash.

The show-sales open a two day stand at Albany on February 28 and wind up in Atlanta on March 19. In between these dates, other show-sales will be held at Macon, on March 13-14; Moultrie, on March 21-22; Savannah, March 23-24; Columbus, March 28-29; Blakely, on March 31; Augusta, April 4-5; and Swainsboro, April 11 and 12.

The show-sale is the pay off for the 4-H club boy or Georgia farmer who has devoted a large portion of his working time to the careful development of a good beef animal. It takes time, care and feed to develop a prime steer and that's the kind of competition the show-sales offer.

In the case of a club boy, the calf he enters in the show-sale may be the result of a full year's hard work in his major 4-H project. The money he gets for his animal may be a substantial portion of his college education fund.

There are all kinds of thrills for the club members as well as adult farmers at the show-sales. There's the thrill that comes from showing a well-trained animal in the show ring.

The judges walk around in a very dignified, very solemn manner. They look, feel, punch and then... if you have a good animal, they will ask you to walk him around. If they are satisfied, you are asked to "bring that calf over here" and then you know you've won something, even if it isn't first.

Everybody has a good time. If you win a first place, the news photographers want to take your picture; the radio announcer invites you to "say something," and that night, at the livestock association banquet you might be presented with a silver loving cup.

Of course, the biggest thrill of all comes when your prize winning animal goes into the auction ring to be bid on by the buyers of the live livestock companies. That's when the really counts. That's the real pay off.

Everybody has a good time the whole time except the prize winning cattle. They have good feed, plenty of water and lots of publicity until they go in the auction ring. It seems that the more prizes they win, the more the buyers are willing to pay for them. After the buyers get through, the prize winning cattle are shipped off to the packing houses to be made into sirloin steak and stew beef.

MARCH 1 LAST DAY FOR 4-H CLUBSTERS TO ENTER CONTEST

Georgia 4-H club members have until March 1 to enter the egg marketing-community leadership contest, the newest competition for farm boys and girls in this state.

The contest is designed to give farm boys and girls an opportunity to demonstrate their leadership in encouraging entire communities to adopt improved methods of marketing eggs.

Any 4-H club member may enter the contest before March 1. Accomplishments made from the opening date until June 15 will be the basis for judging county winners. District winners will be selected in July. The state winners, one boy and girl, will be selected at the Southeastern fair in Atlanta in October. Free trips to the world's fair in New York will be awarded the state winners.

The county agent and the home demonstration agent whose respective boy and girl club members do most to develop the contest will also be awarded trips to the World's Fair.

The 4-H club and marketing departments of the Georgia Agricultural Extension Service and a large grocery chain (Rogers) with headquarters in Atlanta are sponsors of the contest. The contest will be under the general supervision of R. J. Richardson, of Tifton, extension poultry marketing specialist.

Each 4-H club member competing in the contest will be required to carry on actual marketing work with

KNOW YOUR TIMBER

By Miss Emily Woodward

Emily Woodward
In Georgia in recent days, much has been heard about the State's economic problems. From every direction discussion of these problems is evoking the question "What is the solution; must we go on talking about the State's problems and never do anything about them?"

A rather definite suggestion as to one thing that can be done is provided in a report of a survey of forest resources of central Georgia which has recently been made public by the Southern Forestry Experiment Station.

In much of this central section of the State, the decay of agriculture has left abandoned lands. Erosion, the boll weevil and destructively methods of cultivation have slowly but surely broken down economic foundations and left the human structure tottering under the weight of poverty and hopelessness.

Nature, however, always struggling to provide for man, despite his wastefulness, offers new hope for returning a measure of prosperity to the wasted land areas of Georgia. This hope lies in trees—shortleaf and loblolly pines and gums which have been gradually forcing their way up in the uncultivated areas.

The survey discloses that slightly more than half of the approximately ten million acres in the central section of Georgia has reverted to forest growth, and here lies the opportunity for the development of a new economic pattern that offers relief from some of Georgia's human erosion. Wise protection, development and intelligent utilization of these forest resources of central Georgia constitute one of the practical methods for solving in part, Georgia's much talked of economic problems.

eggs and keep records. Educational demonstrations dealing with the improvement of egg quality during the hot weather months will be a part of the contest work.

Cows Need Sufficient Water, County Agent Warns Farmers

An adequate water supply at all times, at a temperature warm enough for the cows to drink, is an important factor in the care of high producing dairy cows, County Agent Byron Dyer said this week.

Pointing to this as one phase which is commonly neglected, the county agent declared that a cow requires from four to five pounds of water for each pound of milk she produces. Thus, a cow producing four gallons of milk a day needs 16 to 20 gallons of water.

"Of course, she will get some of this in her feed," Mr. Dyer explained, "but at least half of the water must be supplied by drinking water. A cow may have all the good feed she needs, but unless she also drinks enough water, she will not produce as much milk as is possible from the feed eaten."

"In winter, the milk yield is likely to be cut short because the cows do not drink enough water," he continued. "If this is because they do not have access to clean water, this situation should be remedied."

cows have constant access to water, they will produce 11 per cent more than when watered once a day, and four per cent more than when watered twice a day. This is especially true with high-producing cows receiving a great deal of roughage.

"If the water is too cold," the county agent added, "cows will not drink very much at a time. Often, in cold weather, they have access to water only once or twice a day, and then it is so cold they can hardly drink it. This results in a lowered milk yield. On most farms, milk yield can be increased by supplying cows with all of the water they need and at a warm enough temperature for them to drink."

Information on the nutrients in milk and its place in the diet is given in Farmers' Bulletin 1705-F, Milk for the Family, published by the U. S. Department of Agriculture, Washington, D. C. Suggestions and recipes are also given for the use of milk in preparing soups, creamed dishes and gravies, beverages, butters, doughs, and desserts.

RESPONSIBILITY

We know that the majority of people have little—if any—knowledge of the problems which arise when a loved one passes away.

We accept the responsibility this enforced faith in us entails, with a confidence founded upon years of satisfactory service.

Here's Your BUY-OGRAPHY Mr. Statesboro; It's The Volume We're After!

Here are some of the things we think will influence your buying and our business this Spring.

FIRST. You'll want garments that look better on your shoulders than our shelves.

NEXT. You'll want costs that allow you to be well dressed without giving up the other things that well-dressed people like to do.

If you agree, then all we ask is a place on your looking list and . . .

The First Spring Suits are Here to See . . . featuring—
"HYDE PARK" Gabardine Suits \$27.50
"SEWELL" Gabardine Suits \$19.50
"SEWELL" Student Gabardine \$14.95

ROTHSCHILD'S LIGHTWEIGHTS For Spring Are Here \$2.98

With the exclusive "Mirakal" feature that is guaranteed water-proof.

Life Begins at Forty WINKS
It's all right to be caught napping . . . in
Universal Pajamas
See our collection of perfectly tailored styles.
\$1.50 to \$2.95

Durden Explains How Farm Payments Calculated

Homer S. Durden, state administrative officer of the Agricultural Adjustment Administration, this week outlined in detail the method that will be used in calculating payments under the 1939 farm program.

In the first place, he pointed out, two separate kinds of payments will be made—conservation payments and price adjustment payments.

Conservation payments are the regular Triple-A payments authorized each year for soil conservation accomplished through acreage adjustments and the carrying out of soil-building practices, the AAA official said.

Farmers cooperating in the Agricultural Conservation Program of the Triple-A in 1939 can get these payments on cotton, tobacco, peanuts and wheat up to a given amount for each farm, for carrying out approved soil-building practices.

Payments will be made also on Irish potatoes in Chatham county, the only Georgia county designated as being in the commercial Irish potato area. Georgia has about 200 farmers in 20 counties who are classed as commercial wheat growers and are eligible for wheat payments.

On these crops the payments are figured at a specified rate per pound or bushel. This rate applies to the normal yield of the farm's acreage allotment in each case. Both the normal yield and acreage allotment are established by the county committee, in accordance with provisions of the program. The conservation payment rates are as follows:

Cotton, 2 cents per pound.
Tobacco, 8 cents per pound.
Burdley, 8 cents per pound.
Georgia-Florida, 1.5 cents per pound.
Wheat, 17 cents per bushel.
Peanuts, 15 cents per hundred weight.

Irish potatoes (Chatham county only), 3 cents per bushel.

The payments for all the above crops are figured by multiplying the payment rate times the normal yield times the allotment. For instance, if a farm has a cotton allotment of 20 acres and the normal yield established for the farm is 200 pounds of lint cotton per acre, the payment is two cents per pound on 4,000 pounds (20 x 200 pounds), or \$80.

A part of the conservation payment of a farm is in the form of assistance for carrying out soil-building practices, such as terracing, liming, seedling legumes, establishing pasture, planting forest trees. Each practice is measured in units.

Construction of 200 linear feet of terrace counts as one unit; seeding an acre of lespedeza counts as one unit; and planting an acre of forest trees counts as five units. The rate of payment or assistance for carrying out these practices is \$1.50 per unit.

This means a farmer can get soil-building assistance at the rate of \$1.50 per unit up to a given amount, or maximum, for his farm. This maximum is figured as the sum of three items, as follows:

(1) 70 cents per acre for the cropland on the farm in excess of the sum of the acreages for which payments are calculated on cotton, tobacco, peanuts, wheat, and in Chatham county, potatoes.
(2) \$1.50 per acre for the commercial orchards on the farm—January 1, 1939;

FARM BRIEFS

By WHITNEY
Extension Editor

An indication of the sharply increased interest in forestry in this state is seen in the large current demand for copies of "Forest Management in Georgia," a bulletin issued by the Georgia Agricultural Extension Service. This 32 page illustrated publication is one of the most complete handbooks on forestry ever published in the South. The booklet contains detailed information on the planting of forest trees and this information is in demand at this time of the year by landowners who are planting trees to earn payments under the Triple-A farm program. Copies of the publication, also known as Bulletin 466, may be obtained free of charge from the offices of county agents as long as the supply lasts.

Speaking of agricultural publications brings to mind another Georgia Agricultural Extension Service bulletin which also enjoys its highest circulation at this season of the year. This is "Quality Market Eggs for Georgia," an illustrated booklet which describes how to produce and handle eggs in order to improve their quality. When the hens start laying, the demand for this booklet jumps by leaps and bounds. The recently announced egg marketing community leadership contest for 4-H club members has also boosted the demand for "Quality Market Eggs for Georgia," which is also known as Bulletin 465. Copies of this publication, like all others issued by the Agricultural Extension Service, may be obtained free of charge from county agents.

The cattle industry has started up on a period of moderate expansion which may continue for some years, according to the Federal Bureau of Agricultural Economics. Cattle production operates in cycles. The high point in cattle numbers in the last cycle was reached in 1934, and declined to the low point by January 1,

HOMER ECONOMICS NEWS OF NEVILLS HIGH SCHOOL

By Uldine Martin.

The girls of the Seventh grade met with Miss Stokes and decided to make a flower garden.

Some of the girls brought rakes, hoes, shovels and other tools to work with. Then we started working on the right hand side of the one Ee building. We fixed the ground and cleaned up around the place.

Each girl brought a rose cutting for herself. We brought other plants such as California poppies, lilies, verbena, zinnias, petunias and other plants.

We are planning to work in our flower garden every Thursday in order to keep things looking good.

We are trying to improve the looks of the campus by doing this. We hope by this time next year we will have a beautiful flower garden.

James Upchurch of the Swamp Foxes was high point man in the game with nine points, Belton Braswell and Lamar Akins tied for five points each.

HOMEMAKER NEWS

USING DRY SKIM MILK

Dry skim milk is used in many households where fluid milk is difficult to obtain. It is also a convenient in any pantry, as it will keep without refrigeration for several weeks in a tightly-covered container and can be used to increase food value, if added in powder form to other foods. If it is delivered in a specially prepared bag, the bag should be carefully closed after each use. Storage in a cool place, preferably a refrigerator, lengthens the keeping time. Dry skim milk has practically the same food value as fresh skim milk. It provides protein, calcium, and other minerals, milk sugar, and vitamins B and G of milk. Only the water and fat, which contains nearly all of the vitamin A, are removed from the whole milk in the preparation of dry skim milk.

Ten or twenty cents wisely spent for spices provides seasonings that can be spread over a number of months. From a box of mixed dried pickling spices, different kinds can be picked out, such as bay leaf, peppercorns, and whole cloves, and used separately to make bland dishes appetizing. A box of mixed, powdered poultry-seasonings provides a pleasing blend of flavors for stuffings, stews, and soups.

When used in soups, gravies, sauces, beverages and such dishes as scrambled eggs and custards, dry skim milk is mixed with water and used exactly as fresh skim milk. For convenient household management, use a cup of dry skim milk for each quart of water. To increase food value use more milk or less water. Sprinkle the dry milk on cold or warm (but never hot) water and beat until the powder dissolves. The liquid milk soups as does fresh milk but it can be used in the same ways as other sour milk.

When dry skim milk is added to other foods, their nutritive value is considerably increased. For instance cookies, breakfast cereals, and puddings can be greatly enriched by mixing generous quantities of the dry skim-milk powder with the other dry ingredients. If large enough amounts of dry skim milk are used in these ways, the foods containing it will be richer in milk solids than those made with fluid milk.

Harvey D. Brannen, senator, from Statesboro, together with other senators, has introduced a bill providing for annual sessions of the Georgia Legislature, limited to fifty days and beginning on the second Monday in January, instead of the present biennial sessions running seventy days.

The Senate voted on Wednesday of last week, 36 to 8 in favor of this bill.

Senator Everett Millican, of Atlanta, spoke against the bill, declaring that business gets the fitters every time the Legislature meets, and should not be subjected to a double dose of business unbusiness.

Senator Paul Lindsay, also of Atlanta, spoke for the bill, declaring that the business of the state cannot be transacted in biennial sessions. He said he favored legislation staying in session for unlimited periods of the requirements of the state demand.

The measure is a constitutional amendment, and if adopted by the House of Representatives and signed by the Governor, must be submitted to vote of the people at the next general election.

Prizes offered for best display of flowers.

The Statesboro Rotary Club and Bulloch County Chamber of Commerce are offering \$30 in cash to the white home owners and the school of this county for the best display of flowers and shrubbery.

Mr. J. H. Brett, secretary of the Chamber of Commerce and F. Everett Williams, secretary of the Rotary Club, announced this week that \$10 will be given to the home owner whose grounds presents the most pleasing appearance and \$10 to the county school which makes the best display of flowers and shrubbery.

The schools and homes in Statesboro are not eligible to enter. Judging will take place some time during the month of July.

Entries must be in the hands of Mr. Williams and Mr. Brett at an early date. They urge every homeowner and school superintendent to begin at once and send in their entry.

College Quartet Sings at Rotary Meeting Monday

The College Quartette, under the direction of Mr. Ronald J. Neil gave a musical program at the regular meeting of the Statesboro Rotary Club. The quartette is made up of John Allen, of Woodland; Tom Jenkins and Tom Dews, Edison; Joe Stanford, Cuthbert.

First District Federated Womens Clubs to Meet Here March 9

Mrs. R. L. Cone, president of the Statesboro Women's Club announced this week that on March 9th the Women's Clubs of the First District will meet in Statesboro. Mrs. Charles Reeves, First District President, will be present at this meeting. It is to be held at the Woman's Club Home at 10 o'clock in the morning. The Statesboro club will be hostess to the other clubs in this district. All the members are urged to be present.

Bulloch Autoists Thanked for Help

Engineers of the Division of Highway Planning of the State Highway Board this week completed Blanket Count operations in Bulloch county. It was announced yesterday at the Atlanta headquarters by O. T. Ray, state director.

Swamp Foxes Defeat Andersonville Skunks

The South Main Swamp Foxes won the fourth straight basketball game Wednesday afternoon by defeating the Andersonville Skunks by the score of 47-23.

STATESBORO, GEORGIA, THURSDAY, MARCH 2, 1939

NUMBER 50

Annual Session Bill Introduced By H.D. Brannen

Limits Sessions To Fifty Days To Be Held Annually

Harvey D. Brannen, senator, from Statesboro, together with other senators, has introduced a bill providing for annual sessions of the Georgia Legislature, limited to fifty days and beginning on the second Monday in January, instead of the present biennial sessions running seventy days.

The Senate voted on Wednesday of last week, 36 to 8 in favor of this bill.

Senator Everett Millican, of Atlanta, spoke against the bill, declaring that business gets the fitters every time the Legislature meets, and should not be subjected to a double dose of business unbusiness.

Senator Paul Lindsay
