

Blue Devils Lose To Sylvania; Play Millen Next

The fighting Statesboro High School Blue Devils lost their second consecutive game of the 1939 gridiron season last Friday night when a well balanced and a well coached Sylvania team defeated them 13-0. The score was the same as the score Swainsboro beat the High School boys in the first game of the season.

The Sylvania squad had a well balanced team with a lot more poundage than that of the Blue Devils. Statesboro's inexperience was again a deciding factor in the final score. However the backfield showed a good deal more offensive success last Friday night than they did in the Swainsboro game. The passing attack was the outstanding feature and several passes were completed for gains.

The Sylvania boys early in the game gained on long sweeping end runs and single reverse plays that completely baffled the Statesboro Blue Devils. Sylvania's blocking and interference was good and the

night due to sickness. It was the first time that the Blue Devils have gone upon the gridiron without Coach Johnson in a good while. Mr. S. H. Sherman and B. B. Williams had charge of the team.

BLUE DEVILS PLAY MILLEN FRIDAY NIGHT

Friday night, October 20 the Blue Devils will play Millen in Statesboro. The game is scheduled at 8:15 o'clock on the Statesboro Athletic Association's lighted grid iron on Fair Ground Road.

Last year the Blue Devils defeated Millen 14-6. Reports come here that Millen has a good team this year and are pointing for the Devils.

It is reported that Coach Snag Johnson is confined, with Brills fever and is not expected to be out for at least four weeks.

During Mr. Johnson's illness, J. C. Hines, former Teachers' star is assisting Mr. Sherman and Mr. Williams with the Blue Devils.

The Blue Tide scored twice, once in the second period and once in the third. The first quarter proved to be a back and forth affair with the Teachers threatening on two occasions to score.

In the last few minutes of the second quarter Rountree, in a series of plays drove from his own 45 down to the 2 yard line and then plunged over for the score. Early in the third period Parker blocked a punt on the 20. Davis for the Teachers, grabbed the ball and ran to the 10. On the next play Cox passed to Parker over the goal line for the second score. Spivey Pledges Support To Common School

Speaking twice in Statesboro, Monday, Hon. John Spivey, president of the Georgia Senate, told the student body of the Georgia Teachers College and members of the Statesboro Rotary Club that the common schools of Georgia must be kept open.

He stated that the common schools were the greatest institution of all, comes the church. From them comes the future citizenry which will make or unmake the state of Georgia, without the common schools there could be no University of Georgia System.

He told the members of the student body of the college that as far as he was concerned he would favor the closing down of the highway program of Georgia if it became necessary to continue the common schools.

He pointed out that public sentiment is the greatest moulder of public opinion there is and that every politician would, under pressure, bow to it.

At the Rotary meeting he made a short talk stating that the members of the General Assembly are made up of unselfish and good men and women and represent a cross section of each community they represent.

Invited to hear Mr. Spivey at the college were Senator H. D. Brannen, Representative Harry S. Aiken, and Representative D. L. Franklin all of Bulloch county; D. I. Dawson of Liberty county and J. C. Smiley of Long county.

JAYCEES TO TAKE FINGER PRINTS

The Junior Chamber of Commerce has taken on
a project that deserves the attention of every citizen
in Bulloch county. Under the direction of Mr.
J. A. Dixon, chairman of the Civil Identification
Committee of the Atlanta Jaycee organization, a
committee of the local Jaycees has been named
to make finger prints of all who wish them for
personal and positive identification in case of emer-
gencies.

This work is being done in cooperation with the
State Patrol and the Federal Bureau of Investigation.
One set of prints will be sent to the State
Patrol, one to the F. B. I. in Washington and an-
other will be furnished the individual for his per-
sonal use.

Over 175,000 people, die, are killed, or become
lost, every year, with no means of identification.

The local committee will soon begin taking prints
of those who wish to have them made. The prints
are for personal identification only, and will be
made only upon your request.

To much cannot be written or said about safety
on our highways. Nearly every week one or more
accidents happen on the highways in Bulloch county.
People are injured and killed for life.

There has been progress made in reducing
deaths and injuries from traffic accidents this
year in our state and it is a matter for great re-
joicing.

But, as long as people still are dying and being
injured, some ruined for life, the time hasn't
come to sit back and congratulate ourselves and
relax efforts. Through October 1st almost 500
persons had lost their lives, according to the De-
partment of Public Safety. That's 99 less than had
been killed to date last year and 159 less than to
date in 1937-but still too many.

The Department of Safety believes that it is
possible to "save" 200 lives this year over 1937 but
only if all persons, groups and agencies co-operate
and double their efforts to make drivers and pedes-
trians realize that if they break the rules of
safe driving they are on the brink of killing and
hurting people.

In September state troopers clamped down as
the have never before in enforcing the state's regu-
lations and word comes that the commissioner of
safety, Lon Sullivan, is ordering them to bear
down still more. Last month troopers made twice
as many arrests and issued twice as many tickets
as they did in August and nearly three times as
many as in July; moreover, 400 drunk drivers lost
their licenses. And the results were gratifying.
In September the death rate was cut from 90 in
1938 to 42 in 1939, at 52 percent reduction.

So let's insist on more and more enforcement
both by state and local officials if that means sav-
ing human lives in Georgia. It's no fun, of course,
to a driver to lose his license, to be arrested or
receive a ticket but its no fun either to see our
loved ones brought home in an ambulance.

Drivers regulations are sensible, common sense
rules and troopers are ordered to be sure a driver
is breaking one of them before they stop him. After
they do, there is nothing left but for the offender
to pay the penalty and he should be thankful that
instead of a death or an injury the penalty is all
that his reckless driving netted him.

"A HUNTING WE WILL GO"

Hunting season will soon bring out the old trusty
single barrel, double barrel or automatic for a
good rub-down and cleaning.

It's an old story—"be careful" but one that will
stand retelling. Charles Elliott, director of the
State Division of Wild Life, cites ten rules for
gun safety. They are common rules, yet it is
remarkable how often they are violated even by
veteran hunters. Many a life will be saved and
many an injury will be forestalled if those who
carry guns will bear in mind the following com-
mandments.

1. Treat every gun with the respect due a loaded
gun. 2. Carry only empty guns, taken down or
with the action open, into your auto, camp or
home. 3. Always be sure that the barrel and ac-
tion are free of obstructions. 4. Always carry the
gun so that you can control the direction of the
muzzle even if you stumble. 5. Be sure of your

target before you pull the trigger. 6. Never point a
gun at anything you do not want to shoot. 7.
Never climb a fence or a tree with a loaded gun.
8. Never shoot at a flat, hard surface or the sur-
face of water. 9. Do not mix gunpowder and al-
cohol.

THE ALMANAC SAYS THE WEATHER

Today, Thursday, October 26, will be unsettled.
Friday, October 27, will be stormy.
Saturday, October 28, will be rainy. (Full Moon)
Sunday, October 29, will be cooler.
Monday, October 30, will be windy.
Tuesday, October 31, will be frost. (Hallowe'en)
Wednesday, November 1, will be moderating.
BUT DON'T BLAME US IF THE ALMANAC
WRONG

Friday morning a man came into our office and
wanted to buy a page of newspaper space from us.
When we learned what he wanted to put in it,
we refused to sell him. And when a newspaper
publisher refuses to sell a page, he must be either
a screwball or else. This man was going to buy
a page from us, then go out to the various mer-
chants here and sell them what he termed "a
story of their business". Now we are familiar with
such salesmen. They pay us our regular adver-
tising rate, then go out and sell the various busi-
ness men this same space at a rate that is three
and four times our regular rate. The difference
goes into their pockets.

We refused to sell this man our page because
as we told him, it is not fair to our advertisers.
They know our rate and if there is to be any ad-
vertising to go in our paper sold, we would sell it.
He, left, slightly in a huff. And our advertisers
will not be bothered with him.

Dr. Pittman, Charlie Olliff, and Lannie F. Sim-
mons are to be congratulated upon succeeding in
having Georgia Teachers College named to train
Civil Pilots under the program being launched by
the Civil Aeronautics Authority in Washington.

We are glad to see Mr. E. C. Oliver out on the
streets again. He says "I can eat heartily and sleep
like a log."

"Tater" Rucker saw us on the street Friday and
sold us \$1.50 worth of sweet potatoes. A super-
salesman, is Mr. Rucker. We have no earthly
reason for buying a mess of sweet potatoes. We're
not married, don't keep house—we are able to swap
them off for a shirt. But then, I turned around
and sold him a Herald for a year for a \$1.50; so
guess we come out even. There is one person in
this world "Tater" is proud of besides his own
children. That is Paul Suddith's daughter, Cecile.
(I think that is her name). She travels, and made
good at the Teachers College while she was there.
Anyway, he is proud of her.

We've been thinking about J. G. Martin lately.
Now who do not see the Blue Devils play
football won't know why we're been thinking about
him. J. G. plays in the back field on the high
school football team. He has only one hand. He
lost the other several years ago while investigat-
ing a high-powered rifle shell. When you watch
J. G. play football you become fascinated, seeing
him reach out with his one hand and the end of
his arm where the other hand was, to receive the
ball from the center. He gathers the ball to him
and runs with it, or he maneuvers it to pass
or juggles it to kick, and when he has passed or
kicked you forget the play and wonder, how in the
world he does it. And he's good too. Whether the
Blue Devils win or lose we admire that boy.
It takes intestinal fortitude to play football when
you are all there. But it takes an extra bit when
you are missing one hand. Our hat's in the air to
you, J. G.

THE SECOND STAGE. The secondary man-
ifestation of the disease are often characterized by
a skin eruption which may resemble the rash of
measles or chicken pox. This rash may or may
not be accompanied by other disturbances, such as
mouth sores, fever, headache, sore throat, falling
out of hair, feeling "under the weather". The skin
eruptions are infectious if they are moist. Mouth
sores, which in this stage may resemble cancer
sores or trench mouth, are dangerously infectious.

The patient may infect others through kissing.
The secondary manifestations also are often so in-
conspicuous or mild as to escape notice or the re-
cognition of their true character. They, like the
chance, will disappear after a time, even with-
out treatment.

THE LATENT STAGE. The disease now tends

Barbs Of The Brair Patch Philosopher . . .

Dear Editor:

I ain't got a thing to write about this week. I
am a setting here plumb tuckered out. I been
digging taters and I'm all gumed up waiting for
Ma to heat me up some water to wash up in. That's
what you see on this paper—saps from the taters I
been digging.

I'm out on the back porch steps. I ain't ever
seen such a bright night. They must be a million
stars all out tonight. I kinda recollect when I useta
say that little poem.

"Star light, star bright,
First Star I see tonight;

I wish I may, I wish I might,
Have a wish, I wish tonight.

I could never say it without blinking my eyes
while saying it. I reckon maybe that's why I ain't
ever had such good luck.

But then, don't reckon I can complain. I got
Ma, and there's Seldom-he a satisfaction through
sometime I do think he's gone plumb loco, what
with some of them things he gets outen books.
And ole Jake, bless his ornery hide. Ole Jake's
pulled us out many a hole. And what with the
help of the government we bout to get our place
paid for. And then I think of all these trees we
got out here, and the garden Ma always makes
me keep, and that pear tree down back of the lot
and the skuppernon vine, and the four-five peach
trees, and them pecan trees—Shucks . . . we are
well off.

My, how I'm getting kinda sentimental. I al-
ways get that way when I'm kinda tired like.
But it helps my feelings. Sometimes I turn on
the radio and listen to that big orchestra that plays
on Sunday nights. 'Course, I know it's high brow

stuff, but I sorta like it—and Ma does too. She's
the musician in the family. She usta play the
organ in the church fore they got a piano.

The ole red sow found seven pigs out back of
the pasture night fore last. I shore hope it don't
sleek like you say will Sunday. (You must have
gone haywire. I looked it up in my almanac and
it don't say sleek. Guess you got a different one
from me.) Oh well, can't do nuthin bout the
weather anyway, so why worry about it.

Save that ink bucket you promised me. I can
sure use that to a good advantage.

You know, I'll shore be glad when that hospital
insurance thing is ready. I told Ma that we shore
wanted one for you. That's going to be a good
thing for the county. Just think by paying a little
bit at a time all your hospital bills will be paid
if you have to get sick. It'll shore relieve Ma's
worrying 'bout having to go to a hospital, if any
of us ever get sick. I understand young Harry
Aiken is got something to do with it. Now there
is a young man who seems to be doing all right.

As far as I know he makes us a good representa-
tive. I ain't a saying this because he's a friend of
yours, but it's like Ma says—we need some young
blood in our county and state officials. I always
said Math and Emzra raised good children and they
orta be proud of him.

We will be grinding cane pretty soon. You and
your ma and pa come out to see us if you
will. Always be glad to have you.

Maybe next time I won't be so tired and can
do better, but you know it helps a heap just to
sit down and write like this. It does sorta helps
your feelings.

The Political Pot

Our political pot boils again this week. The grape
vine has Lester Brannen (Mr. J. G. "Jimmie"
Brannen's son), and Glenn Bland considering tossing
their hats into the race for the Clerk of the Su-
perior Court.

This means eight who have intimidated their in-
tentions of running for the office of Clerk. If the
grape vine is anywhere near right our clerk's race
is going to be a scorcher.

to pass into a latent stage. During this stage there
may be no symptoms for many years to indicate its
presence to the patient; or skin eruptions, mouth
sores, and other disturbances may come and go
from time to time. But in this latent period the
disease is undermining vital structures and or-
gans so that in a period of two to 20 or more
years the infected persons may become seriously
crippled or completely destroyed.

THE LATE STAGE. The more common late ef-
fects of syphilis are fatal affections of the heart
and blood vessels, blindness, deafness, and tumor-
like growths which may destroy any of the tissues
or organs of the body. Among the most serious
effects are the attacks of the disease upon the
brain and spinal cord. These bring various forms
of mental derangement, convulsions, and paralysis,
leading on to that almost hopeless condition,
paralysis, or general paralysis of the insane; or, if
the spinal cord is mainly involved, progressive loss
of muscular control (locomotor ataxia or tabes
dorsalis) and loss of other important muscular
functions. These later destructive changes of
syphilis constitute the last stage of the disease.

Lannie Simmons
Previews New
Dodge Trucks

One of the key dealers invited
to attend the 1940 Dodge Truck
introductory meetings for this re-
gion was Mr. Lannie F. Simmons
who returned home Tuesday, Oc-
tober 10 after a full day of active
participation in a round table dis-
cussion of new merchandising
plans and a preview of the new
1940 Dodge trucks and commo-
dorial cars at Ansley Hotel in Atlanta,
Georgia.

The meeting Mr. Simmons said,
was called by sales officials of
Dodge Truck Division of Chrysler
Corporation and was attended by
factory executives and a represen-
tative group of dealers and their
sales forces. In charge of the meet-
ing in Atlanta was Mr. F. E. Sea-
man, Regional Mgr., he was deeply
impressed with the increasing im-
portance given to the design of
commercial cars and trucks.

"It has only been in recent
years that truck manufacturers
have devoted serious attention to
the appearance of commercial
vehicles," he said "Today—
least at Dodge—there are as many
artists, draftsmen and designers
as we have on trucks as on passenger
cars. Now trucks are streamlined
eye-refreshing and are actually
billboards on wheels for modern
merchants.

"It is interesting to recall that
a few years ago it would have
been ludicrous, even folly, to con-
sider exhibiting a truck in a hotel
or in any refined surroundings.
But that is all changed now and
trucks of today, blend into modern
back drops almost as easily as
passenger cars.

"As a matter of fact—believe
it or not—at one of our current
introductory meetings, similar to
the one I just attended, the 1940
Dodge trucks will be exhibited to
dealers in the grand ballroom of
the most exclusive hotel on Park
Avenue—The Waldorf Astoria."

Fruit Trees
Pay Off For
J. I. Aycock

An adequate home supply of
fruits can be had in Bulloch county
if the fruit trees are placed on
adapted soils and cared for, John
I. Aycock declares.

Some five years ago Mr. Aycock
bought a farm in the Emitt dis-
trict that did not have any fruit
trees. During the first fall he
was on this farm a home orchard
was started. This year brought an
abundance of good peaches to be
added to the menu. The ample
supply of fruits from the home
orchard did not call for any cash
outlay for this needed part of the
diet.

Mr. Aycock says that they can-
not enough fruits for winter, had
all the fruits they wanted for
daily use during the bearing season
gave their neighbors a lot of
peaches and then sold some fruits.
This home orchard is on Tifton
pebbly soil that is rather stiff. No
special care has been taken of the
trees, other than to see that
diseases do not affect them and a
little fertilizer put around them in
the spring.

Mr. Aycock says that it is about
the season of the year for him
to start to plant his orchard so as
to keep his orchard filled with
good young trees that will main-
tain the production of ample
fruits for home use.

OGEECHEE SCHOOL NEWS

The gular group, under the direction of Mrs. Downs, is composed of nine members. The group hopes to make rapid progress, and soon be ready for a public performance.

The members of the eighth grade, as well as the other students in school, regret that Eula Mae Perkins fell and broke her arm last week. Everyone hopes that Eula Mae will return to school this week.

At the regular weekly meeting of the Ogeechee Student Council last Tuesday, it was decided to observe the bi-weekly flag ceremony. The students gather around the flag, repeat the pledge, and salute the flag each Monday and Friday.

Group number one of the Civic Workers Club has been working and cleaning around the shubbery this week. Since group one could not complete the task, group two decided to continue the work. Much work has been done. Group number two also built a pen for the pig.

The Ogeechee School has a pig. The pig was a gift from Mr. I. P. Hughes. The children plan to feed the pig well, and then realize a sum of money from the sale. Every day the scraps of food are saved for the pig. So far the pig has had as much food as it could eat.

A Boy Scout Troop has been organized in the Ogeechee community. Mr. Bodderford of the Train-

DESTROYING COTTON STALKS IS WAY TO KILL BOLL WEEVILS

County Agent Byron Dyer urged Bulloch county farmers this week to destroy old cotton stalks, as a means of checking boll weevil infestation next year.

"The amount of infestation of the 1940 crop will be determined largely by the number of weevils surviving the winter weather," the agent said. "In view of this fact, it is well to destroy old cotton stalks as soon after the crop is harvested as possible."

Mr. Dyer pointed out that boll weevils which go into winter

YOUR LOCAL PHARMACIST

... a vital factor in community life

On a street corner near you is one of your truest friends. Night and day he's there when you want him. You call on him for a thousand casual things—cigarettes, a bar of soap, a bottle of ink. Your children will grow up to remember his soda-fountain—And then you're forgotten him—until a home is hushed and quiet—faced drawn with anxiety look tensely at each other—perhaps an accident has silently struck with merciless swiftness. Your doctor hurries into a bedroom. He knows!—swiftness orders are passed. The telephone! And in a few minutes you are placing a matter of life and death in the expert hands of your friend—your Local Pharmacist.

But—Let's look at it in this way. Your Local Pharmacist is a plain John Citizen like the rest of us. He pays local wages. His money goes to local tradesmen. He belongs to his community. He serves it in safeguarding its life. He is entitled to prosper with his community. He stands on his own feet—pays his own way. What's more, he doesn't want to sacrifice quality just for a price—and to his honor be it said, he refuses to do so. You may exist or you may get sick on second-class food, but you cannot get well on second-class drugs.

So when you read about ruthless price cutting in drugs and see it happening, remember your Local Pharmacist for what he is—a man, like yourself, doing his service in the schemes of things, with your interests, your well-being foremost in his mind. Don't forget that the pharmacist must be a trained pharmacist, the right-hand ally of your doctor, one of the staunchest pillars of your community. He's in business to serve you in his chosen, vital field. When prices are cut below a profit level, quality and service is bound to suffer. If your Pharmacist cannot make a profit, your suffer, his employees suffer, your community suffers, and recovery is delayed. Let's remember the Golden Rule and march on to prosperity together.

Fire Razes Ellis Drug Co.
The first fire in the business section of the city since 1933 completely destroyed the stock of merchandise of the Ellis Drug Company on North Main Street, Saturday afternoon about one o'clock.

According to Dr. Glenn Jennings, a bottle of carbon disulfide burst and its contents spilled on the floor. Before he could clean the floor of the chemical the entire back of the store was in flames. He barely escaped severe burns.

The fire department attempted to use its hose so that the water would not damage the front of the store but it is understood that the stock is a total loss. The insurance adjusters were working on it Monday afternoon.

This was the first major fire in the business section of Statesboro since L. Seligman's store on East Main Street was destroyed by fire on February 2, 1933.
