The following is a poem written by Eloise Collins, a pupil in the third grade:
April
I like to see the flowers bloom,
I can see them from my room.
They make a pretty show
When the wind begins to blow.
I like to see it rain
As it falls on my window pane.
It waters the ground below
And makes the plants grow.
The following are poems written by students in the fourth grade, section A:
China
In China the people eat bamboo
They also eat vegetables and some fruits.
The houses are made of sun-dried bricks.
The roofs are made of thatched bamboo sticks.
Though China is far, far away,
I'd like to visit there some day.
—Marie Jackson, 4th Grade.
New Year's Day
On New Year's Day
The Chinese say,
They're in the biggest run.
After they sell their evil spirits
They have a great deal of fun.
—Gwendolyn Gay, 4th Grade.
China
China, the land of the yellow race,
Long pitails, slanting eyes and a big face;
With big-sleeved shirts and blousy pants,
Girls and boys both like to dance.
—Roxanne Kent, 4th Grade.
The Chinese
The Chinese children go to schools
They used to sit on little stools.
Sometimes a boy runs a race
With a smile on his happy face.

The Kangaroo
I think the kangaroo is a funny animal
With its little ones in its pocket.
If he knows danger is near, he
I'd like to see the sheep
Grazing on the grass.
And maybe a funny kangaroo
Would come jumping past.
—Bobbie Spence.
The Lonely Continent
To far away Australia,
Oh, how I'd like to go;
But how I would get there,
I do not know.
I want to visit the wheat fields,
And see the kangaroo;
I'd like to be there at shearing time
And see all the sheep, too.
When the wool gets so heavy
They can hardly pee;
But they have a nice, warm place
On which they can sleep.
—Jason Scarborough.

Fred Blitch Tells Rotary of UGF Work

If farmers are to get a square deal in the matter of proper distribution of the world's wealth, they must organize, Fred G. Blitch, secretary of the Bulloch county chapter of the United Georgia Farmers, told the Rotary club here Monday in appealing to them to lend the organization their cooperation.

In his discussion, Mr. Blitch pointed out eighteen of the major things the local chapter had done during the past year. They were: Enrolled more than 1,000 members; co-operated to put on the harvest home festival; sponsored fifteen tobacco grading demonstrations, carrying out a land-use planning program; holding monthly meetings in the various communities and bi-monthly meetings for the county-wide group; procured through the co-operation of business men, a motion picture machine; conducted educational campaigns on treating small grains for smut, disinfecting cotton seed, controlling screw worms, controlling worms in hogs; forest fire control; started a one-variety cotton project; co-operated in putting on the fat stock show; asked for and got approval on a soil conservation district for the county; sent three delegates to the national farm bureau convention; furnished the state woman delegate for the UGF to the Georgia convention of Women's Clubs; urged the passage of agricultural legislation; have one member of the state UGF board of directors; established ten pasture fertilizing demonstrations; promoted the improvement of pastures as well as establishing more pastures; encouraged an increase in the consumption of pork; and encouraged the use of more cotton.

Mr. Blitch warned the Rotarians that the Bulloch county was primarily an agricultural county and that as the farmers in this county prospered, so would the business men.

Between the first and second courses of the meal, between the second and third courses, the seniors revealed their future and after the last course, short letters were made by Supt. E. L.
