### EVERYTHINGS GOING TO BE O K

In this fast moving world when one is more concerned with what the Axis is doing today than the more important things closer to home such as the development of a sense of humor we were mentally refreshed when we read the account of wedding which occurred in Augusta, Iowa. The editor of the Augusta Union up and got married and in the society columns of his paper the following week appeared this write-up:

"Clarence (Tubby) Rogers, son of Mr. and Mrs. George Rogers, of Osseo, became the husband of Miss Margaret Gilbertson, daughter of Mr. and Mrs. Martin Gilbertson, of Augusta, in a beautiful ring ceremony Saturday noon before a justice of the Peace at Waukon, Iowa.

"Blushing prettily, but firm tones, never indicating that he noted the omission of the 'obey' in the bride's answers.

"He was attractively attired in a three piece suit of black pin-stripe woolen material, consisting of coat, vest and pants. The coat was charmingly festooned, with a white flower in the left button-hole.

"The vest was sleeveless, closed in the front and gracefully fashioned with pockets. It was held together at the back with a strap and buckle.

"His pants were neatly pressed for the occasion and he wore them with an air as if he 'wore the pants' in that family, as the familiar expression goes.

"Hose and necktie added just the right dash of color to complement the effect. Shoes were of genuine leather, laced with strings of the same color, giving a chic effect."

### AWAITING THE CALL

This week the order numbers of the 2913 men between the ages of 21 and 35, inclusive who registered October 16 will be assigned.

The good humor with which the young men, both white and colored, have accepted the Selective Training and Service Act is a manifestation of the workings of this great Democracy in which we live.

And now these young men are standing by awaiting the assignment of their order number and their classification and call to military service for a period of one year.

According to the National Selective Service Headquarters in Washington, Georgia will be expected to furnish an estimated 12,792 men for a year of military service by next June 15. The state is being given credit for the 5,320 National Guardsmen which cuts the quota to nearly half.

The quota for Bulloch county has not yet been assigned, but we feel sure that when it is and the men are called they will accept the call into service with the feeling of service to their country which has served them so well.

### TOWN HALL MEETING

Tonight will mark the beginning of a series of meetings sponsored by a group of Bulloch countians which will mean much to the people in this section. The first of monthly forums is scheduled tonight at 8 o'clock when Dr. John Morgan of GSCW will lead a forum meeting at the Statesboro High School. His subject is one of local and national importance and should be heard by everyone interested in the welfare of this country.

On the first Tuesday in each month the Bulloch County Public Forum will meet and discuss local and state problems. The programs scheduled for the first six months include such problems as taxation and the State Revenue Problems. The tractor and the problems it create on Bulloch county farms. The Interstate Commerce Commission and the Co-operative Youth Panel, local health problems, defense problems and other subjects of vital interest to us all.

The meetings will be held along the lines of the old Town Hall meetings with questions to be answered by those who are in positions to know the answers.

It is hoped that the public will attend the meetings of the Forum and participate in the discussions. Much good can develop out of such meetings if the people will let it.

## BULLOCH COUNTY NEED NOT WORRY

There are a large number of Bulloch county's youth who find their recreation in the soil of this great county. 4-H Club boys and girls, Future Farmers of America. There are a number who lift themselves above the others and achieve local and state recognition for their accomplishments.

Last month two young men have been recognized for outstanding accomplishments. Montrose Graham, 15 year old clubster of Stilson and Walter Mallard of near Statesboro.

Young Graham was awarded a \$50 watch by a Chicago packing company for his work in livestock. His profits from his livestock projects have amounted to \$690. It is remembered that this year, he exhibited two champion steers and is the first feeder to finish out a U. S. Prime steer in the county. He now has 12 steers on feed for next spring shows and sales. He is a senior at Stilson High School and plans to use the money he has earned from his projects to pay his way through college.

Walter Mallard, 18 years of age, a 4-H Club member is recognized for producing 236 bushels of corn on 1.4 acres of land, an average of 173 bushels per acre. That's a lot of corn when the average state yield is only 8.5 bushels. Young Mallard, in producing his corn, had a bit of trouble with cut worms last year so this year, working on the theory, "if you can't beat 'em, join 'em," planted the worms a special row of corn, thick in the drill, in the middle of each row. When the worm's row grew to about two feet, Mallard plowed it under. Young Mallard not only grows corn but has developed a means of disposing of it at a profit. He has three Hereford steers that weigh 675 pounds each and is grooming them for the spring shows and sales.

Our hats off to these young men and all others like them in the county. As long as we have boys out of their mold, Bulloch county need never worry about its future.

Congratulations to Ronald Neil for his Music Appreciation Hour. Monday evening of this week the people of Statesboro were given the opportunity of hearing two of the state's outstanding artists, Minna Hecker and Hugh Hodgson.

Statesboro and Bulloch county are among the more fortunate counties in having a unit of the University System which affords opportunities of cultural advancement such as are offered by the Music Appreciation Hour.

Reports from all over the county indicate that the Halloween carnivals at all the schools were huge successes, both from a financial standpoint and an entertainment.

### With Other Editors . . .

There was never a time when there was greater need of able men as chief executives of the United States and of the State of Georgia. Aside from the uncertainties of the future and the manifold problems of the present, there is the certainty of the past with its accumulated indebtedness on the part of both nation and state. A logical view of the situation should arouse our sympathy rather than our envy in connection with those who are to handle the reins of government and this sympathy should endure in our relation to the future and be backed up by the hearty cooperation in all efforts toward a solution of the problems which have to do with the happiness and welfare of all the people.—Monroe Advertiser.

Every inmost aspiration is God's angel undefined. And in every "O my Father!" slumbers deep a "Here my Child!" —James Freeman Clarke.

What we truly and earnestly aspire to be, that in some sense we are. The more aspiration, by changing the frame of the mind, for the moment realizes itself.—Anne Jameson.

## Editor's Uneasy Chair

THE ALMANAC SAYS THE WEATHER THIS WEEK ON: TODAY, THURSDAY, NOVEMBER 7, WILL BE RAINY. FRIDAY, NOVEMBER 8, STILL RAINY. SATURDAY, NOVEMBER 9, COLD WAVE IS APPROACHING. SUNDAY, NOVEMBER 10, CLEAR AND COLD. MONDAY, NOVEMBER 11, CLEAR & COLD. ARMISTICE DAY. TUESDAY, NOVEMBER 12, CLEAR AND PLEASANT. WEDNESDAY, NOVEMBER 13, CLEAR AND PLEASANT. BUT DON'T BLAME US IF THE ALMANAC IS WRONG.

Come first Sunday in each month and meeting time at Mid-ground Church out in our community, we generally have company at our house. Last First Sunday was no exception. We were all seated around the table, and were just before tearing into a well formed drum-beater when an orchestra on the radio began playing "The Star Spangled Banner". It caught us in the middle of a fix. To stand or not to stand—that was the question. (We couldn't sing—not with that chicken in our teeth.)

Instinctive patriotism vs. keeping us and ourselves together. What do I think of this? We could find our Boy Scout Hand Book to see what was the right thing to do. We knew that before we could do it we had to get the book and something else and by that time our chicken would be cold. So there we were, torn between love of our country and that piece of chicken. We finally saved our conscience by remembering that the chicken was the one that was the most natural and easiest, and there can be no doubt which was the most natural and easiest for us. So we just sat there and finished that piece of chicken. We hope we didn't do anything wrong.

IF ANY OF ANY INTEREST TO ANYBODY OUR Selective Service Serial number is 841.

THEY TELL US that sleeping in an army tent in the winter will make a man out of us and that eating army rations will put meat on our bones—just like propaganda to us.

MRS. MAUD EDGE is still doing a great work in this county. It was through her efforts that the Briar Patch Philosopher who ladies in the county now have a writings appeared on the editorial Woman's Exchange where they appear before harvest, time set in, can realize cash for their home. We hope to hear from him soon.

## Woman Of The Week

Though seventy years of age, and rapidly approaching seventy-one the lady recognized this week as our Woman of the Week is still one of the county's most active women with only one aim in life and that is to do some good to every man, woman and child in the county in need.

"Miss Georgia Bunch" as she is known to all who love and reverence her lives in the service of her church and all for which it stands. Active and strong, she drives out our car to the far corners of the county and surrounding counties carrying good cheer and comfort to those whom she knows to be in need.

Mrs. J. A. Bunch, daughter of William E. McElveen and America Cone McElveen was born on February 7, 1870. With only the minimum education offered by a tiny school known then as the Lee School House and a small school house in the Briar Patch she equipped herself for life by self-education.

In 1887 she married J. A. Bunch, a native Bulloch countian. There are four children, Dan Bunch, of Allen H. Bunch of work content in the moon, the water and even the fish are against them.

Fishermen should be numbered among the foremost of the world's optimists. They go forth regardless of present weather and past experience. They continue to hope even when the wind, the moon, the water and even the fish are against them.

## Letters To The Editor

Statesboro, Georgia, November 2nd, 1940.

Mr. Leodel Coleman, Editor The Bulloch Herald, Statesboro, Georgia.

Dear Mr. Coleman:

We wish to thank you for the valuable service you have rendered to the Registrars for Selective Service in Bulloch County and the patriotic spirit shown by you in publishing the list of names and their serial numbers in this week's issue of your paper.

Your local board is in position to realize and appreciate the time and expense required to furnish this list and also its value to the registrants.

Respectfully,  
J. H. Wyatt.

## Quitman Shows The Way

The following story was taken from the Quitman Free Press and was written by Edna Cain Daniel. We are quoting it in full because it offers an example of what a city can do when determined to do so.

"Quitman is not a very big part of the State of Georgia, but its government points an example the State might well profit by. There is very probably not a city or town in the State which is governed in a more business-like way or where taxpayers get more service for the tax dollar.

"Quitman lives within its income which is what the State seems unable to do. And that income has been materially reduced in recent years. In 1930 the city collected in taxes for all purposes \$58,210.72. By 1940 the city income had shrunk to \$37,875.25—a loss of \$20,335.45.

"It is easy to get along on a diminished income if one makes up one's mind to do without a new fur coat or some other luxury. But Quitman not only had to pay current expenses out of the smaller income but also to pay off a huge debt inherited from other years.

In Quitman we used never to build a school house or pave a street without voting a bond issue and as years pass we have to pay off.

On January 1, 1938 we had a bonded indebtedness of \$114,295.08. Today is \$80,160. In other words since January 1, 1938 we have saved up out of current income and paid off \$34,135.08 of our bonded debt.

"Since we abandoned the habit of voting bond issues, due to good management on the part of our commission-manager form of government, we have not only been paying off these old debts regularly but have been able to pay for a great many permanent improvements out of current income. We have built a new well and electric pump; we built a library; we built a new Negro school; with insurance we built a new white grammar school; we put in a whitewash; we remodeled the city building; we extended water mains at a cost of 20,000; we installed a health program which involves expense for ditch lining and other items. These are the things we are keeping up with the demands which any reasonable progress make on a city.

"We paid our share of the building of a hospital. Monthly we pay for the care of charity patients. We pay \$75 a month for the upkeep of the library. We are now remodeling the high school building at a cost of \$30,000. We bought a new fire truck. We opened a new city park.

"Quitman was smart enough not to part with its electric franchises. It buys power directly from the power company at a low wholesale rate. Despite the reduced income from taxable property, the city has been able to reduce electric rates to customers. In 1930 the domestic consumer paid \$5.65 for 50 KWH. In 1940 the consumer paid \$2.57 for 50 KWH. The water rate has been reduced from 25 to 50 per cent. Both water and power rates are fixed so as to favor industries. Women who have gardens which require watering are favored by a new water rate. That increases city beautification.

"While Quitman has a water rate and a light rate which compare favorably with those in other cities, the city makes enough profit on light and water service to pay all of the operating expenses of the city, the city administration, the police department, the fire department and other services.

"In addition there is street lighting, water pumping, water for the city parks, electric service for the schools, the library, the city hall, fire department and health department and water service for these. If we did not have our own power and water franchises we would have to pay for all these services.

"The city's tax rate is now 17 and 1/2 mills. Of this the schools get 9 and 1/2 mills. The other 8 mills go for interest and retirement of the bonded debt. The city does not raise rates to cover city administration and city affairs and operation.

"It is not likely Quitman will ever pass another bond issue. The way is to raise the rate a few mills to pay for permanent improvements out of current funds. Quitman has three city commissioners and a city manager. We take a pride in our city government and in its many successes."

Another entertaining, colorful, and highly successful event of last week was the annual P. T. A. Carnival. This year reaching new heights under the direction of Beulah Mary Banks and Mary Hogan who directed the program. The gymnasium, all clear in the middle with seats down one side and booths on the other and the stage at the back, a mass of green for the background against which were pyramidal steps reaching a peak in the front. About twenty girls in white and boys helped June celebrate the occasion. After playing games outside, the guests were invited into the dining room where refreshments were served. The hall was festively decorated in Halloween colors. Pumpkins, corn stalks and balloons were artistically arranged. Orange drinks and cookies were served as refreshments.

HALLOWEEN.

The Halloween program at Middleground school Friday night was enjoyed by many visitors, as well as the people of the community. A two act play, "Pirates and Pearls", put on by the high school was a special feature. The other portion of the program was presented by the grammar school. Refreshments were sold following the program.

We are all very sorry to hear that Mary Keener, daughter of Mrs. Sumner Johnston, underwent an appendix operation Thursday afternoon. We hope a speedy recovery for her.

The girls and boys basketball teams suffered a defeat at the hands of the team from New York last Friday afternoon. We'll beat them next Middleground.

## HELEN JOHNSON HONOREE AT BIRTHDAY PROM

On Saturday evening Mrs. Harry Johnson entertained her daughter, Helen, on her twelfth birthday with a lovely prom at her home on Broad street. The hostess served chicken salad and pimento sandwiches, crackers, individual round cakes embellished with pink and white ribbons cascading over the sides of the table. Poured coffee during the first hour were Mrs. E. L. Smith and Mrs. J. E. Donohoe. They were relieved later in the afternoon by Mrs. Lowell Malard and Mrs. W. H. Ellis.

Soft illumination was furnished by white tapers in silver holders on the tea table, pink tapers in candelabra on the buffet and on the mantels throughout the rooms open to the guests.
