This classroom climate and diversity is brought to you for free and open access by the Center for Teaching Excellence at Digital Commons@Georgia Southern. It has been accepted for inclusion in Teaching Academy by an authorized administrator of Digital Commons@Georgia Southern. For more information, please contact digitalcommons@georgiasouthern.edu.
Week 5: Introduction

Today's Big Idea: "Teaching without learning is just talking." ~Patricia Cross

Quick Overview: After investigating hazardous classroom materials, we will learn about diverse students and how to teach them. We will also write learning biographies for different students and used them to consider a variety of teaching-learning issues, including college student development. In addition, we will shared our CAT implementation reports and discuss the impact of classroom climate on student learning.

Below you will find the SLOs, PowerPoints and handouts for Week 5. If you have questions about classroom climate or working with diverse students, ask me.

Week 5: Learning Outcomes

At the completion of this learning module, you will be able to:

- Examine your assumptions about students and how best to teach so they can learn.
- Identify the differences between dualism, multiplicity, and relativism.
- Explain whether Chickering’s or Perry’s model of college student development is more useful in designing lessons and courses in your discipline.
- Evaluate the effectiveness of your CAT to assess students' inaccurate misunderstanding.

Week 5: Task List, PowerPoints & Handouts

Complete the following before you come to class:

1. **CATs Implementation Report** due
2. Read Chapter 6,  
   http://digitalcommons.georgiasouthern.edu/cgi/viewcontent.cgi?article=1044&context=teaching-academy, “Course Climate”

PowerPoints and Handouts
