**Lesson Details:**

- **Misconception(s)**—identified, addressed & related to top/Big Idea/SLO
- **Learning-Centered Strategies**—multiple learning styles addressed by engaging students’ with big idea using a variety of engaged and EnGagement learning strategies; strategies are used purposefully and are aligned with SLOs
- **Lecturette**—relevant; facts are presented in an organized, easy to understand way—curse of knowledge avoided; teacher talk is limited to 10 minutes or less
- **Sufficient Details**—assesses students prior knowledge; connections to previous lessons; hook is motivational; includes key questions (especially higher order); timing of lesson parts; items like handouts, data collection sheets, etc.
- **Misc.**—makes sense to someone else; source(s) of lesson ideas noted
- **Evaluation**: checks for understanding (not just recall), aligned with objectives

---

How was this lesson plan similar to other lesson plans you have seen?

What was missing from the lesson plan? Were missing parts critical to your understanding of how to teach the lesson?

Once this lesson was taught, would you be able to tell whether or not student “got it”? How?

Is there a “take away” you can use when planning your own lessons?
